The Chair is responsible for leading the Board and ensuring that it functions efficiently and effectively. The Board Charter provides that the Chair should be independent and should not have been the Managing Director of the Company at any time in the previous three years. The Chair's role includes the matters identified below:

- to ensure that the Board meets regularly, functions effectively and efficiently and to provide leadership in relation to all aspects of the business of the Board;
- to take a leading role in determining the structure and composition of the Board and to oversee the induction and development of directors;
- to take the chair at meetings, determine the order of the agenda, ensure that the Board receives accurate, timely and clear information, direct discussions towards the emergence of a consensus view and ensure accurate minutes are maintained;

Under the terms of the Board Charter, the Board has delegated the development of strategic objectives for the business and the achievement of the planned results for the Group to the Managing Director. Management of the Group's day to day operations is undertaken by the Managing Director, subject to specified financial limits of delegated authority approved by the Board. Any powers not specifically reserved to the Board are deemed to have been delegated to the Managing Director.

1.2 Selection of directors and senior executives

Under the Company's constitution, all directors (other than the Managing Director) must retire from office (and may seek re-election) no later than the third annual general meeting following their last election. When a director stands for election or re-election, the Board provides shareholders with information in relation to a director's biographical details, qualifications, skills and experience, as well as details of any other directorships or material interests they hold. The Board provides its recommendation in relation to any proposed re-election of a director in the notice of meeting that is sent to shareholders.

Prospective candidates for election to the Board are reviewed by the Remuneration and Nominations Committee (**RNC**). The RNC considers the experience, skills and background of the candidates and the requirements and diversity of the Board, to ensure the Board's overall composition enables it to discharge its responsibilities and lead the Company effectively. Checks are undertaken as part of screening for all prospective employees (including directors and senior executives). These include education/academic qualification verification, professional membership verification, bankruptcy checks, national criminal history checks, work history checks and reference checks.

1.3 Service agreements

All directors and senior executives have written agreements setting out the terms of their appointment.

1.4 Company Secretary

The Company Secretary is appointed by the Board. The Company Secretary attends Board and Board Committee meetings and is responsible for providing the Board with advice on legal and corporate governance issues. The Company Secretary is responsible for the operation of the secretariat function, including working with Risk and Compliance to implement the Group's Governance Framework and, in conjunction with the Managing Director, giving practical effect to the Board's decisions. The Company Secretary is accountable to the Board through the Chair, on all matters to do with the proper functioning of the Board.

1.5 Diversity, equity and inclusion

The Group recognises the need to attract and retain the very best people to meet its objectives, and the need to ensure that all employees are treated fairly. The Group recognises the benefits of a diverse group of employees reflecting different backgrounds, perspectives, styles, knowledge, experience and abilities.

These benefits include:

- diversity of thought, creativity, innovation and problem solving;
- diligence in decision making and risk management;
- ability to interact with clients including the ability to anticipate their needs;
- employee morale, engagement, retention and productivity; and
- access to a broader external pool of talent.

Accordingly, the Group is committed to workplace diversity, equity and inclusion which includes recruiting and retaining people with, but not limited to, diverse gender, age, ethnicity and cultural backgrounds.

The Group has a Diversity, Equity and Inclusion Policy that it uses as a framework to facilitate meeting its diversity, equity and inclusion strategy and objectives. The desired outcomes of the diversity, equity and inclusion strategy are to:

- recruit, develop, reward and retain people with a broad range of experiences, backgrounds, skills and perspectives to meet the needs of clients, shareholders and community;
- create a corporate culture characterised by inclusive practices and behaviours for the benefit of all employees and directors; and
- value and leverage the contributions of employees and directors with diverse experiences, backgrounds, skills and perspectives to achieve the Group's purpose and values.

The Group has determined the following initiatives to assist with the achievement of the Group's diversity, equity and inclusion objectives:

- ensure and promote an equal opportunity recruitment process that draws a diverse pool of candidates for all positions, including Board and senior management appointments;
- apply the principle of equality when considering internal promotions and succession planning;
- ensure pay equity by conducting annual remuneration reviews to assess comparable roles and performance for fairness and equity and an annual pay equity analysis to ensure women and men performing similar roles in similar jurisdictions are paid similarly;
- provide training to all employees to encourage behaviour that supports and promotes an inclusive work environment;
- encourage and support flexible work arrangements to assist employees to balance their work, personal and family responsibilities;
- support parents and carers at work by offering strategic consulting support and expertise on best practice culture for families in the workplace and access for parents and carers to a Parental Leave Transition Program;
- facilitate a strong return to work and retention rate of employees on parental leave;
- provide developmental initiatives to enable the promotion of women at senior levels of management;
- build a strong pipeline of future female talent, by encouraging women into the industry through scholarships, internships, industry partnerships and university partnerships; and
- encourage a culture that does not tolerate harassment, bullying, vilification or victimisation by amongst other things, maintaining a comprehensive employee behaviour and grievance resolution procedure.

The measurable objectives relating to gender diversity as at the date of this statement were as follows:

- Board – target of a minimum of 40% of its directors on the Board of each gender by 2030. The Board is currently comprised of 50% female and 50% male.
- Senior executives (defined as employees earning in excess of \$200,000 a year on a full time equivalent basis) – we have a target of 40% of senior executives to consist of women by 2030. As at the date of this statement, of the 45 employees who were senior executives in the Group, 12 were women, which represents 27% of the total senior executive complement.

- Workforce – we have a target of 40% of the workforce to consist of women by 2030. As at the date of this statement, the representation of women across the Group was 36% including non-executive directors.

Pinnacle Services Administration Pty Ltd, the employing entity for the Company in Australia, is considered a 'relevant employer' under the Workplace Gender Equality Agency (**WGEA**). A copy of the latest report under the WGEA is available on the Company's website.

The Group partners with a number of Australian universities to offer Women in Finance scholarships aimed at providing talented female students financial support and work experience opportunities. To date, 21 female scholarship recipients have gained part time employment either within the Group or the affiliated investment managers (**Pinnacle Affiliates**). During the financial year, the Group also sponsored and/or participated in various university events to support the Group's diversity efforts.

1.6 Review of Board and director performance

During the financial year, the Board conducted a self-assessment process to review performance. The Board has prepared a comprehensive performance assessment framework for the directors, the Board and the Board Committees. The assessment framework facilitates feedback from each individual director in relation to the performance of the Board and its Committees. It also accommodates self-evaluation of each director's role within the Board and each Board Committee and evaluation of the Chair's performance by other directors. The framework has been developed taking into consideration the requirements of the ASX Principles.

The Company Secretary initiates the process for annual performance assessment every year. Each director is required to complete and submit the assessment forms to the Chair or to the Chair of the Board Committee in respect of Committee evaluations, and to the ACRMC Chair in the case of the Chair's evaluation. The Chair of the Board and of each Board Committee then collates results and prepares a report to be submitted to the Board. The Chair and the Board review the findings, both with and without executive management present, and determine the appropriate course of action.

1.7 Review of senior executive performance

During the financial year, senior executives' performance was monitored and reviewed through a combination of written and verbal appraisals held throughout the year by the Managing Director.

2 Structure of the Board

2.1 Remuneration and Nominations Committee

The RNC comprises the Company's four independent non-executive directors with Deborah Beale acting as the independent Chair of the Committee.

The role of the RNC includes:

- reviewing and making recommendations in relation to the Group's remuneration policies and practices to ensure that the Group:
 - provides a competitive and flexible remuneration structure which acknowledges market practice, is tailored to the circumstances of the Group and which attracts, motivates and retains highly skilled directors, executives and employees;
 - fairly and responsibly rewards employees for the services they provide to the Group and does so in a way that is consistent, transparent and equitable;
 - recognises categories of financial and non-financial performance indicators against which directors, executives and employees will be measured;
 - aligns the interests of employees and shareholders by linking reward to the creation of shareholder value and motivating employees to perform in the best interests of shareholders;
 - adopts an appropriate balance between fixed remuneration, short-term incentives and long-term incentives, reflecting the shorter and longer term strategies of the Group; and
 - limits payments on termination to the amounts required by law or pre-agreed contractual arrangement (as applicable) and which do not commit the Group to making payments in the event of non-performance;

- reviewing executive remuneration and incentives and making recommendations to the Board in relation to share option schemes and equity participation plans;
- setting the terms and conditions of the employment of the Managing Director, advising the Board on the Managing Director's remuneration package and reviewing the performance of the Managing Director at least annually including progress made towards achieving the Group's strategic goals;
- reviewing the remuneration of non-executive directors for serving on the Board or any Board Committee (both individually and in total) and recommending to the Board the remuneration and retirement policies for non-executive directors having regard to market trends and shareholder interests;
- setting the entitlements and expenses policy for the Chair, non-executive directors and the Managing Director;
- ensuring the Group's remuneration policies and practices comply with the provisions of the ASX Listing Rules and the Corporations Act and have regard to the ASX Principles;
- overseeing the preparation of any reports required by law or the ASX Listing Rules in connection with remuneration matters or requested by the Board, including relevant remuneration sections of the Annual Report and other shareholder documents;
- recommending and providing relevant assurances through the ACRMC to the Board for approval of the remuneration report to be included in the annual directors' report;
- making recommendations to the Board concerning the appointment of new directors and, to the extent delegated to it by the Board, the Managing Director;
- identifying individuals who, by virtue of their experience, expertise, skills, qualifications, backgrounds, contacts or other qualities, are suitable candidates for appointment to the Board and recommending individuals accordingly for consideration by the Board;
- establishing procedures, for recommendation to the Chair, for the proper oversight of the Board and management;
- preparing, recommending for approval by the Board and overseeing the implementation of the diversity policy;
- on an annual basis, reviewing the proportion of women who are employed by the Group, in senior management positions and who are on the Board, and submitting a report to the Board outlining its findings; and
- reviewing and approving relevant policies delegated to it by the Board.

An external consultant or advisor may be engaged where it is considered appropriate to assist the RNC to identify and select candidates with the desired skills and experience and to add diversity to the Board.

The RNC does not have responsibility for, or oversight of, remuneration arrangements for Pinnacle Affiliates which are the responsibility of the respective boards of each Pinnacle Affiliate and which are often agreed contractually when a Pinnacle Affiliate is established.

Further details of the remuneration arrangements in place for non-executive directors and Key Management Personnel (**KMP**) are set out in the Annual Report.

A copy of the RNC Charter is available on the Company's website.

2.2 Board skills matrix

The experience, qualifications and skills of the Board comprises and should include expertise in the following areas relevant to the Group:

- Investment management
- Financial services
- Mergers and acquisitions
- Capital markets
- Business analysis
- Remuneration models
- Risk and compliance
- Accounting

- Marketing and distribution
- Media
- Superannuation
- Investor relations

2.3 Independence

The composition of the Board and the biographies of its directors, including their experience, expertise, qualifications, term of office and independence status, are set in the Annual Report.

The Board has adopted the test of director independence set out in Box 2.3 of the ASX Principles. Having regard to this definition, the Board considers a director to be independent if he or she is not a member of management and is free of any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with a director's ability to act in the best interests of the Company. The Board has not adopted any quantitative thresholds in relation to dealing with entities in which a director may have a financial interest and instead performs assessments on a case by case basis.

Consistent with obligations imposed by the Corporations Act 2001 and the ASX Listing Rules, directors are required to declare any conflicts of interest and, where deemed necessary, do not participate in any discussions or any decisions which relate to the conflict. The Board regularly assesses the independence of the non-executive directors based on their disclosure of interests and the principles set out in Box 2.3 of the ASX Principles. As at the date of this statement:

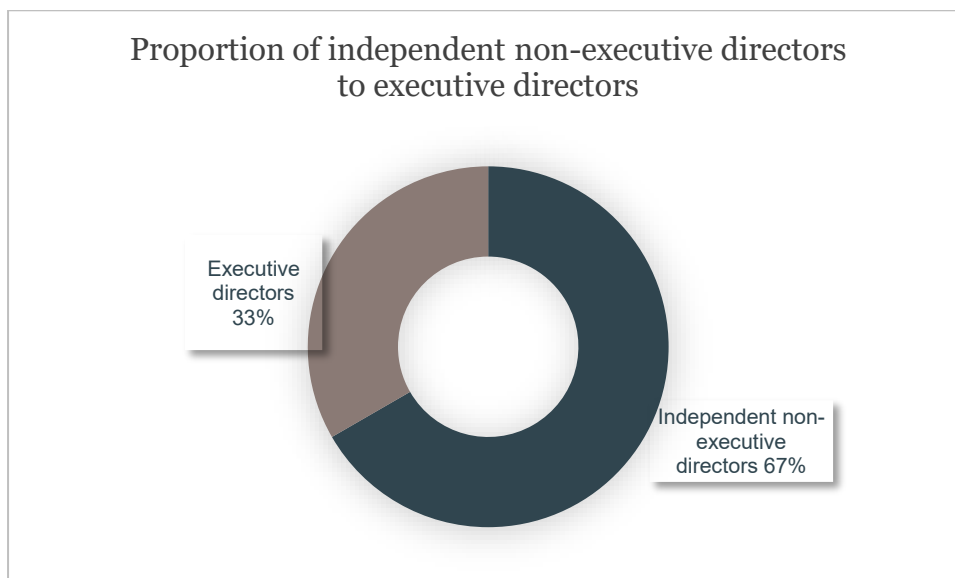

- Alan Watson is the independent non-executive Chair.
- Deborah Beale, Lorraine Berends and Christa Lenard are independent non-executive directors.
- Ian Macoun and Andrew Chambers are executive directors.

2.4 Balance of Independent Non-Executive Directors and Executive Directors

The composition of the Board is guided by the Company's constitution and the relevant provisions of the Board Charter, which require the Board to be between three and 10 directors comprised of at least half non-executive directors and at least three independent directors (as defined in the ASX Principles) having a mix of complementary skills and experience from a diverse range of backgrounds and attributes, including gender.

As at the date of this statement, the Board comprised six directors, four of whom (including the Chair) are non-executive directors, and are considered independent as described at paragraph 2.3 above.

The chart below shows the balance between independent non-executive directors and executive directors as at the date of this statement:

While the Board comprises a sizable minority of executive directors, the Board considers the current composition to be beneficial given the deep industry knowledge of the executive directors and the application of their expertise to the governance and decision-making authority of the Board.

2.5 Separate roles of Chair and Managing Director

During the financial year, the roles of Chair and Managing Director of the Company were held by Alan Watson and Ian Macoun respectively.

The non-executive directors meet regularly, without the Managing Director or management present, to discuss the operation of the Board and other matters. Relevant matters arising from these meetings are tabled with the full Board at the following Board meeting.

Directors and Board Committees have the right, in connection with their duties and responsibilities, to seek independent professional advice at the Group's expense.

2.6 Induction of new directors

Induction programs are in place for all newly appointed directors. Directors are encouraged to continue their education by attending external training and education sessions including training programs implemented for employees that keep directors informed of relevant regulatory and market developments and ensure that each director is well placed to effectively discharge his or her responsibilities.

The Group's purpose is to enable better lives through investment excellence. Underpinning that purpose are the Group's values of excellence, client focus, honesty and integrity, innovation and empowerment which set the standards and behaviours expected from employees, directors, contractors and interns employed and/or engaged by the Group. The Board is responsible for approving the Group's values and the senior executives have the responsibility of embedding these values across the business. All other breaches of the Code of Conduct are reported at the next Board and Board Committee meeting.

7 Recognising and Managing Risk

7.1 Risk Management Committee

The ACRMC is responsible for overseeing the management of risk and reports to the Board on the effectiveness of the risk framework. Information about the composition and role of this committee has been provided at paragraph 4.1 above.

The Chief Legal and Commercial Officer, responsible for the risk and compliance function and independent of the business, reports to the Managing Director, ACRMC and the Board.

7.2 Annual review of Risk Management Framework

During the financial year, the risk management framework for the Group was reviewed. The effectiveness of the risk management framework, the risks facing the Group and the risk action plans in place to mitigate those risks is a standing agenda item for the ACRMC.

Risk management for the Pinnacle Affiliates is the responsibility of the boards of each respective Pinnacle Affiliate.

7.3 Internal Audit

During the financial year, the Group did not have an internal audit function. Instead:

- the Group's internal risk and compliance function was responsible for monitoring internal processes and ensuring regulatory compliance; and
- external audit services were engaged in respect of financial reporting.

In addition to the regular risk monitoring and reporting to the ACRMC, the Board receives regular updates from Risk and Compliance on the key risk areas of the Group. The Board also receives periodic written assurances from the Managing Director and the Chief Financial Officer that the information they provide to the Board with regard to the integrity of the financial statements is based on a robust and appropriate system of risk management and internal control and that this system is operating effectively in relation to financial reporting risks.

7.4 Sustainability-related Risks

The Group seeks to monitor and progressively embed the management of sustainability-related risks into business practice. The Group adopted the SASB Standards for Asset Management and Custody Activities and Professional and Commercial Services, to guide the identification of material sustainability-related risks that are likely to impact the Group's ability to create long-term shareholder value. The Group's exposure to identified material sustainability-related risks are managed in accordance with the sustainability strategy and risk management framework. Further details on how the Group seeks to manage the associated risks are contained in the Group's Corporate Sustainability Report for the financial year.

During the financial year, the Group's Sustainability Committee held 5 meetings.

8 Fair and Responsible Remuneration

8.1 Remuneration Committee

The RNC is responsible for overseeing remuneration for the Company and its wholly owned subsidiaries. Relevant information is provided at paragraph 2.1 above.

8.2 Remuneration Policies and Practices

Remuneration arrangements, policies and practices for non-executive directors, executive directors and senior executives are disclosed in the Group's remuneration report in the Annual Report.

To align the interests of non-executive directors with the long term interests of shareholders, each non-executive director is required to acquire and hold Company shares equal to 150% of their annual gross Director Fees (inclusive of Board Committee fees).

There are no schemes in place for retirement benefits for non-executive directors, other than mandated superannuation.

The Group's LTI arrangements require senior executives to remain with the Group over a period of years to receive the full benefit of these arrangements. In particular, if a senior executive resigns or is terminated for cause before prescribed service terms, the benefit of their equity awards is forfeited. These mechanisms serve to encourage senior executives to remain with the Group and reduce the risk of losing key employees.

8.3 'At Risk' Remuneration

The Company prohibits employees (including Executive KMP) who are participants in equity based remuneration and LTI arrangements from taking derivative positions or otherwise limiting their economic risk in respect of their participation in the scheme. Further information on LTI is set out in the remuneration report in the Annual Report.
