RESPONSE TO PRICE AND VOLUME QUERY

Bayan Mining and Minerals Ltd (ASX: BMM; "BMM" or "the Company") refer to your letter dated 12 August 2025 with respect to the subject matter and respond to your queries in the same order as raised:

- 1. Is BMM aware of any information concerning it that has not been announced to the market which, if known by some in the market, could explain the recent trading in its securities?*

No. The Company is not aware of any information concerning it that has not been announced, which, if known by some in the market, could explain the recent trading in its securities.

The Company does note, however, that, at the time of your letter, it is in possession of the assay results for the Arrel Lithium Project, as referenced within its announcement "Fieldwork Completed at Arrel Lithium Project, Ontario Canada" dated 1 July 2025. None of these results have been made available to anyone outside the Company, and the Company was in the process of assessing these results.

The Company maintains confidentiality of all assay results and is not aware of any breach of confidentiality.

Analysis of these assays was completed by the Company on 12 August 2025, with the results contained within an ASX Announcement on 13 August 2025 titled "North Americas Project Update".

- 2. If the answer to question 1 is "yes".*
 - a. Is BMM relying on Listing Rule 3.1A not to announce that information under Listing Rule 3.1? Please note that the recent trading in BMM's securities would suggest to ASX that such information may have ceased to be confidential and therefore BMM may no longer be able to rely on Listing Rule 3.1A. Accordingly, if the answer to this question is "yes", you need to contact us immediately to discuss the situation.*
 - b. Can an announcement be made immediately? Please note, if the answer to this question is "no", you need to contact us immediately to discuss requesting a trading halt (see below).*

- c. *If an announcement cannot be made immediately, why not and when is it expected that an announcement will be made?*

Not applicable.

3. *If the answer to question 1 is "no", is there any other explanation that BMM may have for the recent trading in its securities.*

The Company believes that the price/volume action on the BMM securities is likely due to speculation from the market and following announcement "3D Magnetotelluric Inversion Confirms High-Priority REE Targets at Colosseum Project (2200N Anomaly Identified)" by the Company's neighbour in California, USA (refer to *Dateline Resources Limited (ASX:DTR) announcement dated 11 August 2025*), located in close proximity to the Company's Desert Star Projects. Additionally, there is ongoing market speculation and positive sentiment regarding the REE industry and US exploration in general.

4. *Please confirm that BMM is complying with the Listing Rules, in particular Listing Rule 3.1.*

The Company is and remains in compliance with the Listing Rules and, in particular, Listing Rule 3.1.

5. *Please confirm that BMM's responses to the questions above have been authorised and approved under its published continuous disclosure policy or otherwise by its Board or an officer of BMM with delegated authority from the Board to respond to ASX on disclosure matters.*

The above has been authorised and approved in accordance with the Company's published Continuous Disclosure Policy or otherwise by its Board or an officer of the Company with delegated authority from the Board to respond to ASX on disclosure matters.
