Clinical Trials Contracted Revenue

Clinical Trials revenue recognised during the year is a function of:

1. Revenue recognised from sales contracts on hand at the beginning of the financial year; and
2. Revenue recognised from sales contracts executed during the year.

Cogstate enters into a contract with the customer for the provision of technology and services for each study. The contract value will differ for each contract, depending upon the scope of the technology and services provided as well as the complexity and length of the study. Revenue from clinical trials contracts is recognised over the life of the contract. The length of a clinical trial can vary from 9 months for a phase 1 study up to 4-5 years for a phase 3 study. Revenue is recognised based upon achievement of pre-determined milestones.

At 1 July 2024, Cogstate had \$85.6 million of contracted clinical trials revenue that would be recognised in future periods. During the year to 30 June 2025, Cogstate executed \$41.3 million of new sales contracts, a 53% increase from the prior year. After recognising \$50.6 million of revenue from those contracts during the year, Cogstate had, at 30 June 2025, \$76.3 million of contracted clinical trials revenue expected to be recognised in future periods. See table below for more analysis.

	30 June 2025 US\$	30 June 2024 US\$
Clinical Trials revenue contracted at 1 July	85,643,497	97,951,714
Contracts signed during the period	41,260,291	26,962,100
Revenue recognised	(50,582,475)	(39,442,716)
Adjustment for contract reconciliations and FX movements	-	172,399
Contracted future Clinical Trial revenue at 30 June	76,321,313	85,643,497

Healthcare Contracted Revenue

Eisai revenue is being recognised over the term of the contracts. The reduction in contracted revenue since 30 June 2024 is due to the revenue recognised on these contracts this year.

Group Contracted Future Revenue

Total contracted future revenue decreased by 11% to \$90.0m as at 30 June 2025, compared to \$101.6m at 30 June 2024.

The revenue backlog for both the Clinical Trials and Healthcare segments are highlighted in the table below:
