Endeavour Group CEO Kate Beattie said:

"The Group has reported full year sales of \$12.1 billion, down 0.3% on a 52-week basis. Our results reflect contrasting performance from our Hotels and Retail businesses.

Hotel sales grew by 4.1% on a 52-week basis to \$2.1 billion. Sales momentum accelerated during the year, with H2 sales up 5.0% on a 52-week basis. Pleasingly, sales growth was delivered across all four key business drivers (Food, Bars, Gaming and Accommodation). Gaming performance was driven by growth in our key markets of Queensland and Victoria. The Group invested in more than 1,000 new EGMs during the year, with installations weighted to the second half. Sales growth in Food and Bars benefitted from optimised menus, the successful launch of the pub+ loyalty program and strong trading around key social occasions including Father's Day, Christmas and Easter.

Retail sales of \$10.0 billion fell by 1.2% on a 52-week basis, reflecting subdued consumer spending in retail liquor and the impact of supply chain disruption that reduced stock availability in stores during the peak Christmas trading period and into the start of the second half. Retail liquor market conditions have remained soft as a result of ongoing cost of living pressure with a growing focus on value for money, particularly in outer suburban areas. Customers with higher discretionary income and younger demographics have been less impacted by the cost-of-living squeeze, with sales in the luxury wine category (bottles priced at \$25 and above) and ultra-convenience, which is a popular channel for Millennials and Gen Z, continuing to grow.

Group GP margin as a percentage of sales increased to 35.0%. In Hotels, GP margin improvements driven by better buying and menu optimisation in Food and Bars were partly offset by investment in our pub+ loyalty program. In Retail,

¹ F24 was a 53-week trading period, compared to a 52-week trading period in F25. References to "52-week" changes adjust F24 results to remove the impact of the additional week. All other comparisons to F24 are against the reported 53-week period.

² NPAT attributable to equity holders of the parent entity.

we maintained GP margin despite a market-wide increase in competitive intensity in the fourth quarter, as we tailored our pricing and promotions to deliver budget-friendly offers to value conscious consumers.

We maintained disciplined cost management, holding our underlying CODB³ to a 3.2% increase. We were able to partially offset inflationary pressures on wages and rent with optimisation savings from our endeavourGO program.

We have updated the sequencing of the One Endeavour program to prioritise near-term value delivery and maximise overall program benefits. The People Systems implementation was completed during the year. We have accelerated the introduction of a standalone ERP system, with completion targeted for H1 F28. Store systems separation has been deferred to start after the ERP program and complete in F30. This will enable us to avoid a two-step approach of separating from Woolworths on the existing technology stack and subsequently upgrading. We will now separate directly onto a modern omnichannel store systems solution connected to our new ERP, avoiding substantial interim cost.

As a result, total One Endeavour F25 cash expenditure of \$110 million was lower than previous guidance of \$114 million to \$129 million. However, certain project design and planning costs which were previously expected to be capitalised, and associated restructure costs have now been expensed, resulting in One Endeavour operating expenditure of \$80 million compared to previous guidance of \$69 million to \$74 million.

Group EBIT of \$926 million fell by 11.0% on a 52-week basis as a result of operating deleverage from lower Retail sales and higher One Endeavour costs. The EBIT result includes the impact of \$16 million of restructuring costs⁴ in the second half. These comprise costs associated with the closure of the Prowine bottling facility as well as support office and One Endeavour restructuring costs.

The Group delivered operating cash flow of \$1.2 billion representing a cash realisation ratio of 110%. Net debt fell by \$187 million reflecting ongoing capital discipline. In light of the Group's strong cash generation, the Board declared a fully franked final dividend of 6.3 cents per share representing a full-year payout ratio of 79%. The Board has determined that a Dividend Reinvestment Plan (DRP) will be activated for the F25 final dividend.⁵

I would like to sincerely thank each of our 30,000+ team members for their ongoing focus on delivering outstanding value products and experiences for our valued customers and guests."

Outlook

In the first 7 weeks of F26, the Group has delivered:

- Hotel sales growth of 4.4%
- Dan Murphy's and BWS sales growth of -1.3%

Hotel sales momentum remains strong, supported by higher transaction volumes. In H1 F26, the Group will accelerate investment across the Hotel network including the introduction of 600 new EGM cabinets, the launch of a new Nightcap accommodation website and booking engine, and enhancements to our pub+ loyalty membership benefits.

Consumer spending in the retail liquor market remains subdued, however H1 provides the opportunity to reinforce our position as the market leader for value, range, service and convenience, as we lean into the increased occasions to socialise and celebrate during the spring/summer event season. We expect retail liquor market conditions to improve as inflation moderates and real wages increase. The Group expects to open two (net) Dan Murphy's stores and eight (net) BWS stores in H1 F26.

The Group has commenced a strategy refresh which will include a portfolio-wide review of the Group's performance, key business drivers and execution across Retail, Hotels and the Pinnacle business, with the aim of ensuring we deliver exceptional customer experiences, deliver business growth and maximise shareholder returns. The outcome of

³ Excluding restructuring costs and One Endeavour program operating expenditure.

⁴ \$16 million pre-tax restructuring costs comprise \$2m in Retail Operating EBIT, \$11m in Other EBIT, \$3m in One Endeavour Costs (Retail).

⁵ Election notices to participate in the DRP for the 2025 final dividend must be received by the share registry before 5.00pm (Sydney time) on 4 September 2025 to be effective for that dividend. For details on how to participate in the DRP refer to <https://www.endeavourgroup.com.au/investor-relations/share-price-dividends>.

this review will be shared with the market in the second half of the financial year.

In F26 the Group expects:

- Capital expenditure of between \$420 million and \$470 million, including One Endeavour
- One Endeavour total capital and operating expenditure of between \$90 million and \$110 million
- Finance costs to be broadly in line with F25

A summary of forward looking statements and financial inputs is provided on page 44 of the accompanying investor presentation lodged today on ASX.

- **Group sales** of \$12.1 billion, -2.0% vs F24, or -0.3% on a 52-week basis. Following a H1 sales decline of -0.7%, sales growth in H2 (52-week) was broadly flat at +0.1%, reflecting improved momentum in both Retail and Hotels.
- **Operating EBIT** of \$1.0 billion was -8.5% vs F24, or -7.3% on a 52-week basis, impacted by operating deleverage from lower Retail sales.
- **One Endeavour program opex** was \$80 million in F25 (52-week F24: \$44 million). F25 program capex was \$30 million (F24: \$33 million). The increase in One Endeavour program opex in F25 compared to guidance provided at the Group's Q3 trading update reflects the expensing of project design and planning costs previously expected to be capitalised, and associated restructure costs, following the Group's decision to accelerate ERP and defer Stores transition.
- **Earnings before interest and tax (EBIT)** of \$926 million, -11.0% vs F24 (52-week). This result includes \$16 million of pre-tax costs⁶ that were incurred in H2 relating to restructuring and the closure of the Group's Prowine bottling facility in South Australia.
- **endeavourGO** savings of \$75 million partially offset cost inflation, taking total cumulative program benefits since F22 to \$265 million.
- **Finance costs** of \$300 million reflect an increase in lease finance costs offset by a reduction in non lease finance costs primarily driven by lower average bank debt due to strong cash flow and disciplined capital management.
- **Strong cash realisation** of 110% from operating cash flow of \$1.2 billion, supported by continued working capital management. Capital expenditure of \$394 million was within guidance and \$52 million lower than F24⁷. In addition, as part of the Group's focus on portfolio optimisation and capital efficiency, \$50 million was realised from asset and business sales.

⁶ \$16 million pre-tax restructuring costs comprise \$2m in Retail Operating EBIT, \$11m in Other EBIT, \$3m in One Endeavour Costs (Retail).

⁷ Excludes \$5 million purchase price allocation revaluation for a prior period acquisition and \$4m goodwill arising from the recognition of deferred tax liabilities on acquisition.

- **Net debt** fell by \$187 million vs F24. The Group's end of year leverage ratio of 3.6x was slightly above the target range of 3.0x to 3.5x due to subdued Retail earnings.
- **Profit for the year after income tax** was \$426 million, 15.8% lower than F24 (52-week). The effective tax rate for F25 was 32.1%.
- **Return on Funds Employed (ROFE)** of 10.3% compared to 11.4% for F24 (52-week), impacted by lower earnings. Excluding the impact of One Endeavour program costs, Group ROFE was 11.2%.
- On 25 August 2025, the Board determined to pay a fully-franked **final dividend** of 6.3 cents per ordinary share, equating to a full year payout ratio of 79%. Endeavour shares will trade ex-dividend from 2 September 2025, the record date is 3 September 2025 and the distribution is expected to be paid to shareholders on 14 October 2025. The Board has determined that a Dividend Reinvestment Plan will be activated for the F25 final dividend.

- **Retail sales** of \$9,950 million in F25, -2.9% vs F24 or -1.2% on a 52-week basis. Combined Dan Murphy's and BWS sales were down 1.1% on a 52-week basis, or -1.5% on a comparable store basis. Retail continued to trade well around key occasions to celebrate, including Christmas, New Year and Easter, however outside of these events consumer spending remained subdued. The Group lost an estimated \$40 million to \$50 million in Retail sales in H1 F25 due to supply chain disruption.
- **Gross profit margin** improved by 7 bps to 24.5%. Gross profit margin benefitted from product innovation, better buying, and AI driven price and promotion optimisation, offsetting increased promotional intensity, particularly in the last quarter of the year.
- **Operating EBIT** of \$624 million was -13.0% vs F24 or -12.0% on a 52-week basis, with Operating EBIT margin of 6.3%, down 73bps vs F24. Lower EBIT margin reflected reduced operating leverage due to lower sales and the impact of inflation on costs.
- **Online sales** in Dan Murphy's and BWS grew by 7.0% (52-week), to 8.7% of total combined sales. Sales in the ultra-convenience channel grew strongly following the expansion of our partnership arrangements.
- **Total network of 1,726 stores**, with 7 new Dan Murphy's stores (net)⁸, 10 Dan Murphy's renewals, and 9 BWS store closures (net), and 49 BWS renewals.
- **Enhanced delivery offer** with the expansion of Dan Murphy's into ultra-convenience (DoorDash and Uber), and the launch of a new next day proposition in three metro markets.
- **My Dan's** celebrated its 10 year anniversary with 5.5m active members, scan rates of 84% and members on average spending >80% more than non members.
- **BWS'** exclusive app based pricing offer '**Appy Deals**' continued to drive strong traffic and customer engagement with 1.6 million new app downloads and over 600,000 monthly active app users.
- Dan Murphy's retained a market-leading **Voice of Customer** score of 81 and BWS Voice of Customer score improved to 76.

⁸ Including The Cellar stores.

- **Pinnacle Drinks** continued to play a key role in product innovation, in particular focusing on expanding the brand architecture of market leading brands into new flavour profiles, varieties and price points.

- **Hotels sales** of \$2.1 billion were +2.2% vs F24, or +4.1% on a 52-week basis. Sales momentum improved during the year, with sales growth of 5.0% in H2 on a 52-week basis, compared to 3.3% in H1. **Comparable Hotels** sales grew by 3.7%.
- **Food and Bars** sales growth was driven by strong trading around key events. In H2 these included Mother's Day, Easter, Anzac Day and St Patrick's Day.
- **Gaming** remained resilient, with the Group's key markets of Queensland and Victoria performing well. We continued to grow our gaming market share in Victoria following the introduction of mandated industry wide trading hours in H1. The Group's gaming performance was supported by targeted investment and roll out of **over 1,000 new EGM cabinets including The Baron (Aristocrat) and Kascada™ 27 (Light & Wonder)**.
- **Accommodation** continued to deliver strong growth, supported by acquisitions and renewals. Nightcap accommodation is now available at more than 80 of our venues nationally.
- **Gross profit margin** improved by 4bps (vs F24 52-week) to 84.8% supported by optimised menus and better buying.
- **Operating CODB** grew 4.1%, reflecting the impact of inflation, elevated security and repair and maintenance costs, partly offset by optimisation savings from endeavourGO program.
- **Operating EBIT** was +2.7%, or 4.5% on a 52-week basis, with Operating EBIT to sales ratio of 22.0% up 9bps vs F24 (52-week).
- **Customer satisfaction improved to 9.0/10** (+0.3), driven by continued focus on value and service.
- The **pub+** app, which rolled out nationally in August 2024, continues to grow. **pub+** has 480,000 active members who account for more than 25% of food and bar transactions in our hotels.
- Continued focus on **Hotels renewals**, with 27 renewals completed in F25 and a pipeline of larger, whole of venue renewals planned in F26.
- **Optimising our portfolio** of 354 Hotels with the Cavenagh Hotel (Northern Territory) added to the portfolio and the Raintrees Tavern (Queensland) sold at end of lease.

- Continued to actively pursue opportunities to unlock value in our **\$1 billion property portfolio**, with development applications lodged at The Morrison Hotel (Queensland), Forest Hotel (New South Wales) Camberwell (Victoria) and Chelsea Heights (Victoria). We expect to lodge a development application at the Doncaster Shoppingtown Hotel (Victoria) in F26.
