

Tribeca Global Natural Resources Limited

ACN 627 596 418

**Appendix 4E
Annual Report
For the year ended 30 June 2025**

Preliminary report

This financial report is for the year ended 30 June 2025. Tribeca Global Natural Resources Limited (the “Company”) commenced operations on 12 October 2018, following its successful listing on the Australian Securities Exchange (“ASX”). This is the seventh reporting year for the Company.

Results for announcement to the market

	30 June 2025	30 June 2024	Movement	
	\$	\$	\$	%
Revenue/(loss) from ordinary activities	20,226,790	(2,398,046)	22,624,836	943.47%
Profit/(loss) from ordinary activities	7,049,018	(14,376,243)	21,425,261	149.03%
Profit/(loss) from ordinary activities after tax attributable to members	5,016,143	(9,589,339)	14,605,482	152.31%
Basic and diluted earnings/(loss) per share	0.06	(0.12)	0.18	150.00%

Dividends

On 25 August 2025, the Company declared a fully franked dividend of \$0.05 per share following the annual results. The record date for the annual dividend will be 3 September 2025.

Dividend reinvestment plan

On 25 August 2025, the Directors resolved to approve the amended dividend reinvestment plan (“DRP”) for shareholders. The Company invites all eligible shareholders to participate in the DRP subject to the rules of the DRP.

TGF offers a dividend reinvestment plan to registered shareholders providing shareholders the opportunity to reinvest dividends to purchase additional TGF shares in the market, rather than receiving dividends as cash. Participation in the plan is optional and is subject to the terms and conditions of the plan, which can be found at <https://tribecaip.com/lic/corporate-governance/>.

Net tangible assets	30 June 2025	30 June 2024
	\$	\$
Net tangible assets (per share) excluding tax	2.09	2.00
Net tangible assets (per share) including tax	2.15	2.08

Brief explanation of results and Company outlook

Refer to the Directors’ Report for brief explanation of results and Company outlook.

Audit

This report is based on the financial report which has been audited. All the documents comprise the information required by Listing Rule 4.3A.

Annual General Meeting

The Company’s Annual General Meeting will be held on the 21 November 2025. Further details will be provided in the Notice of Meeting to be sent to all shareholders as released to the ASX.

Letter from the Chairperson

Fellow Shareholders

On behalf of my fellow Directors on the Board of Tribeca Global Natural Resources Limited (TGF), I am pleased to present the Company's financial statements for the year ended 30 June 2025.

Financial Results and Dividend

The Company reported a profit after tax of \$5.02 million for the year ended 30 June 2025, compared to a loss after tax of \$9.59 million for the year ended 30 June 2024. Precious Metals was the biggest contributor to performance, reflecting volatile markets where investors sought assets like gold that are perceived to be "safe havens". Uranium and Oil and Gas positions also positively impacted the portfolio. Diversified and Bulks were the biggest detractors.

Net Tangible Assets ("NTA")

The Company's NTA (excluding tax) rose to \$2.09 per share as of 30 June 2025 from \$2.00 per share 12 months prior, equating to 4.47% increase in NTA. Over the same period the S&P ASX 300 Resources Index fell 7.51%, the MSCI ACWI Commodity Producers Index fell 4.22% (in USD terms) and the S&P Goldman Sachs Commodities Index fell 6.09% (in USD terms).

TGF continues to trade at a discount to NTA, despite improved portfolio performance during the financial year. The Board remains committed to considering any and all strategies that could close this gap. As such, today we are announcing two capital management initiatives – a fully franked dividend and a buyback program.

Dividend and Ongoing Capital Management Program

We are pleased to declare \$0.05 per share fully franked dividend for the year ended 30 June 2025. This is a reflection of positive portfolio performance and generation of profit reserves during the financial year, and reflects our confidence in the outlook for the global resources sector. In line with the objective outlined in the Company's IPO Prospectus, the Board intends to continue paying out dividends from retained profits when possible and prudent.

Share Buyback Program

The Board has approved a buyback program of up to 10% of outstanding shares. Shares will be purchased on-market and the program is expected to commence from 10 September 2025 and remain in place for up to 12 months. Given the size of the discount at which TGF is trading at compared to its NTA, the buy-back program will necessarily be accretive to NTA. The Directors' view the buyback as an effective use of the Company's capital that is in the interest of all shareholders.

Investment Management Process

In order to help shareholders better understand the differentiating characteristics of the TGF investment process, I would like to highlight two equity capital market investments that have positively contributed to performance during the financial year.

Investment Management Process (continued)

Spartan Resources, as an ASX-listed precious metals company, was added to the portfolio in 2023, when the Investment Manager participated in a capital raising undertaken at \$0.10 per share. The deep experience and technical knowledge of the Investment Manager identified that Spartan was an outstanding early-stage investment opportunity with potential to add significant value via exploration drilling results. This thesis played out successfully with Spartan discovering 9 million ounces of gold resources. In March 2025 Ramelius Resources made an offer to buy Spartan at an implied price of \$1.78 per share and the acquisition was completed in July. Overall, the Spartan investment has contributed more than 6% to company returns since the original investment.

Discovery Silver, a TSX-listed precious metals company, was also added to the portfolio in 2023. The Investment Manager has previous knowledge of that company's management team and their outstanding track record of creating shareholder value. It was this long-held relationship with Discovery's management team that enabled the Investment Manager to make a sizeable early-stage investment and participate in size in subsequent capital raises. In FY24/25 Discovery contributed 5.35% to performance.

Outlook

After three challenging years for the resources sector, there are positive signs emerging. China's shift to expansionary policies are supportive for demand, and prices of commodities crucial for energy transition, electrification and digitalisation are rising. This includes copper, which is trading near an all-time high and validates the Investment Manager's long-held bullish view. We are seeing governments take increasingly urgent steps to shore up their access to critical minerals via supply agreements and price guarantees. At the same time, permitting challenges and a reticence by resources companies to invest in new production means the required supply increases are failing to keep up with structural demand growth.

Board Changes

Director Bruce Loveday has informed the Board of his intention to retire prior to the 2025 Annual General Meeting of the Company. Bruce has been on the Board of TGF since inception, including serving as Chairperson for five years. I would like to take this opportunity to publicly thank Bruce for his commitment to TGF over the last seven years. His counsel, guidance and deep investment markets experience have been critical in helping the Company navigate volatile markets.

Conclusion

It is pleasing to report a profit for 2024/25. This has enabled the Board to declare a fully franked dividend of \$0.05 per share. In addition, we have announced a buyback program of up to 10% of outstanding shares, which we anticipate will be accretive to NTA.

The Board is satisfied that the Investment Manager continues to implement an investment strategy that is consistent with the Company's stated objectives and that the Company is well positioned to continue performing as resources markets improve.

Thank you for your continued support.

Yours faithfully

Rebecca O'Dwyer
Independent Chairperson
Sydney
25 August 2025

Directors' Report

The Directors (the "Directors") present their report together with the annual report of the Company for the year ended 30 June 2025.

Directors

The following persons held office as Directors during the year and up to the date of this report:

Rebecca O'Dwyer
Chairperson and Independent Director

Bruce Robert Loveday
Non-Independent Director

Nicholas Myers
Independent Director

Background of the Directors

Rebecca O'Dwyer - Chairperson, Independent Director

Rebecca has more than 15 years of financial services experience working in Australia and UK, in addition to four years professional experience as a mining engineer. She worked for eight years as a Senior Mining Analyst with Colonial First State Global Asset Management and six years as a sell-side analyst covering resources equities with Morgan Stanley and Investec. Prior to this, she worked for Anglo American as a mining engineer. Rebecca holds a Bachelor of Engineering (Mining) with first class honours from University of Queensland, Master of Business Administration from Oxford University and Master in Data Science and Innovation from UTS. She is a graduate of the Australian Institute of Company Directors and CFA charterholder. Rebecca is an investor in the Company. No other external directorships are held with public listed companies.

Bruce Loveday – Non-Independent Director

Bruce Loveday has extensive experience in the financial services industry both in Australia and overseas. He has been CEO of several funds management businesses (in Australia and the USA) and has held senior executive positions in banking, mining, stockbroking, asset consulting, investor relations and corporate affairs management.

Bruce was appointed as a Director of Tribeca Investment Partners Pty Ltd (a related body corporate of the Investment Manager) on 23 January 2024. Prior to this, for two years (ending April 2018), Bruce provided independent advice to the Investment Manager as a member of an advisory board (non-statutory role). Since April 2018, Bruce has also acted a Director of Tribeca Global Natural Resources Credit (Cayman) Master Fund and Feeder Fund. Bruce is also an investor in the Company. No other external directorships are held with public listed companies. Bruce holds a Bachelor of Economics from Monash University.

Background of the Directors (continued)

Nicholas Myers – Independent Director

Nick has extensive experience in the resource industry as a senior executive in a number of major resource companies, and is currently General Counsel of MMG Limited. Nick's expertise is in the mining and infrastructure sectors and he has worked in the copper, molybdenum, iron ore, zinc gold, silver, lead, energy coal, titanium, and manganese commodity categories. He has advised on many of the legal/operational issues facing companies across the globe including in Australia, South America, Africa and Asia. He has played a key role in the growth of MMG Limited leading the Legal team in transactions such as the acquisitions of the Las Bambas Copper Project from Glencore and the Khoemacau Mine, and the takeover of Anvil Mining Limited. Nick is a Graduate Member of the Australian Institute of Company Directors, Nick is also an investor in the Company. No other external directorships are held with public listed companies.

Company Secretary

Ken Liu, Company Secretary

Ken joined Tribeca in 2019 in the role of Compliance Manager. He brings more than 10 years risk and compliance management experience in financial services across funds management, equities and derivatives trading as well as private equity. Prior to joining Tribeca, Ken was the Compliance Manager at Sydney based AIMS Financial Group. In this role, he was responsible for all aspects of financial services licencing compliance as well as the design and implementation of the organisation's internal controls and compliance management framework and procedures. Ken holds a Master of Commerce from Macquarie University, a Bachelor of Communication from University of Colorado, a Diploma of Financial Planning and ADA2 from Kaplan Professional.

Principal activities

The Company was established to provide investors with access to an actively managed and concentrated portfolio of Natural Resources Securities, Credit Positions and Commodity Positions.

To achieve its objective, the Company has appointed Tribeca Global Resources Pty Ltd to act as Investment Manager. The Investment Manager's investment strategy is an active long/short investment strategy that seeks to benefit from the inherent volatility in the Natural Resources Sector. The investment strategy employs a high conviction approach, leveraging the Investment Manager's bottom-up research and specialist knowledge of the entities and commodities within the Company's investible universe.

There have been no significant changes in the nature of this activity during the year and no change is anticipated in the future.

Dividends

On 25 August 2025, the Company declared a fully franked dividend of \$0.05 per share following the annual results. The record date for the annual dividend will be 3 September 2025.

Further information in respect of the Company's dividend policy is contained in the Company's Prospectus which was issued on 24 August 2018 and the Dividend Re-investment Plan booklet.

Dividend reinvestment plan

On 25 August 2025, the Directors resolved to approve the amended dividend reinvestment plan ("DRP") for shareholders. The Company invites all eligible shareholders to participate in the DRP subject to the rules of the DRP.

Dividend reinvestment plan (continued)

TGF offers a dividend reinvestment plan to registered shareholders providing shareholders the opportunity to reinvest dividends to purchase additional TGF shares in the market, rather than receiving dividends as cash. Participation in the plan is optional and is subject to the terms and conditions of the plan, which can be found at <https://tribecaip.com/lic/corporate-governance/>.

Review of operations

The operating profit before tax was \$7,049,018 for the year ended 30 June 2025 (for the year end 30 June 2024: operating loss before tax was \$14,376,243). The net result after tax was a profit of \$5,016,143 for the year ended 30 June 2025 (for the year ended 30 June 2024: loss after tax of \$9,589,339).

The net tangible asset before tax as at 30 June 2025 was \$2.0906 (30 June 2024: \$2.0011) per share.

The top performing segment for the financial year was Precious Metals, with further strong contributions from Uranium, and Oil and Gas. The largest detractors were Diversified and Bulks.

Clearly an uncertain geo-political landscape was a contributing factor towards the strength in the gold price over the year. An accelerating equity capital markets environment also provided a favourable backdrop for alpha generation, which we expect to continue in foreseeable future. Looking ahead, with copper trading near all-time highs, our long-standing bullish outlook is being validated, and we believe copper mining equities are poised to outperform. Despite concerns around China's property sector, copper demand from China is now nearing double-digit annual growth, supported by the global themes of energy transition, electrification, and digitalisation. Supply constraints further strengthen the case for an under-supplied market which we expect will take years to resolve. Rising trade tensions underscore the strategic importance of key commodities, reinforcing long-term pricing power. Governments around the world are starting to recognise the importance of commodities to energy independence and security, and are being spurred into action. While we expect market volatility to remain an enduring theme, we will continue to use market dips to build positions in undervalued, high-quality miners.

Significant event during the year

There were no significant events during the year ended 30 June 2025.

Likely developments and expected results of operations

The Company will continue to pursue its investment objectives for the long term benefit of shareholders. This will require continual review of the investment strategies that are currently in place and may require changes to these strategies to maximise returns. The underlying holdings of the Company consist of a portfolio of carefully selected global assets. The Portfolio Manager is optimistic about the outlook for the Company's strategy given the opportunity set available within the commodities market.

Environmental regulation

The Company is not affected by any significant environmental regulation in respect of its operations.

To the extent that any environmental regulations may have an incidental impact on the Company's operations, the Directors of the Company are not aware of any breach by the Company of those regulations.

Insurance and indemnification of officers and auditors

During or since the end of the financial year the Company has given an indemnity or entered into an agreement to indemnify, or paid or agreed to pay insurance premiums.

The Company has paid premiums to insure each of the Directors to the extent permitted by the Corporations Act 2001, against a liability incurred in or arising out of the conduct of the business including, amongst other things, losses, costs and charges incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Company, other than conduct involving a wilful breach of duty in relation to the Company or the improper use by the Directors of their position.

The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

No indemnities have been given or insurance premiums paid during or since the end of the financial year, for any person who is or has been an auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

Meetings of Directors

The number of meetings of the Company's Board held for the year ended 30 June 2025 and the number of meetings attended by each Director were:

	Meetings of Directors			
	Number of meetings attended	Number of meetings held during the period the Director held office	Number of Audit Risk Committee meetings attended	Number of Audit Risk Committee meetings held during the period the Director held office
Bruce Robert Loveday	5	5	2	2
Rebecca O'Dwyer	5	5	2	2
Nicholas Myers	5	5	2	2

Remuneration report (Audited)

Details of key management personnel

Key management personnel for the year ended 30 June 2025 are those persons who are identified as having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including and Non-executive Director of the Company.

Remuneration report (Audited) (continued)

Details of key management personnel (continued)

Names and positions held by Directors and Officers of the Company in office at any time during the financial year are:

Name	Title	Earliest appointment date	Last re-election date
Rebecca O'Dwyer	Chairperson	4 January 2021	17 November 2023
Nicholas Myers	Non-executive Director	30 August 2021	22 November 2024
Bruce Loveday	Non-executive Director	18 July 2018	25 November 2022

Directors' remuneration

Non-executive Directors are entitled to receive Directors' fees of up to \$150,000 per annum to be shared among the Directors.

Additional remuneration may be paid in accordance with the Company's constitution. The following are the Directors' remuneration (excluding superannuation guarantee contribution) paid and payable for the year ending 30 June 2025 and 30 June 2024:

Director	2025	2024
Bruce Robert Loveday	\$-*	\$29,750
Rebecca O'Dwyer	\$55,000	\$53,125
Nicholas Myers	\$50,000	\$48,125

* As Chair of Tribeca Investment Partners Pty Ltd, Bruce Loveday is a non-independent Director of the Company and, as such, he is not paid a Director's fee by the Company.

The remuneration for Directors will be reviewed by the Board on a periodic basis as the Company develops its business and, subject to the listing rules, may be increased.

Under the ASX Listing Rules, the maximum fees payable to Directors may not be increased without approval from the Company at a general meeting. Directors will seek approval from time to time as appropriate. Directors do not receive any retirement benefits or annual and long service leave. All remuneration paid to Directors is borne by the Company and expensed where appropriate in accordance with accounting standards. During the financial year and at present, no employee share or option arrangements are in existence for the Company's Directors. As the Company does not pay performance based fees to the Directors, nor provide share or option schemes to Directors, remuneration is not explicitly linked to the Company's performance. For the years ended 30 June 2025 and 30 June 2024, no Directors received any non-monetary benefits.

Notwithstanding this, the Board members are subject to ongoing performance monitoring and regular performance reviews.

Tribeca Global Resources Pty Ltd earned \$2,335,991 (2024: \$2,453,730) in management fees and \$Nil (2024: \$Nil) in performance fees for the investment advisory services provided to the Company. Please refer to details in Note 13.

Remuneration report (Audited) (continued)

Equity instrument disclosures relating to Directors

As at the date of this report, the Company's Directors and their related parties held the following interests in the Company:

	Balance as at 30 June 2024	Acquisitions	Disposals	Balance as at 30 June 2025*
Director				
Bruce Robert Loveday	Indirect – 237,500	–	–	Indirect – 237,500
	Direct – 41,003			Direct – 41,003
Rebecca O'Dwyer	Indirect – 55,353	–	–	Indirect – 55,353
Nicholas Myers	Direct – 62,500	–	–	Direct – 62,500
Total	396,356	–	–	396,356

* Accurate as at the date of signing of the Directors' Report.

Events subsequent to the end of the reporting date

The Directors are not aware of any other matter or circumstance not otherwise dealt with in this financial report that has significantly or may significantly affect the Company's operations, the results of those operations or the Company's state of affairs in future years.

Audit and Non-audit services

Details of the amounts paid or payable to Ernst & Young for audit and non-audit services provided during the year are set out in Note 17 to the financial statements on page 58 of this report.

The Directors are satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 12.

This report is made in accordance with a resolution of the Directors.

1. Corporate information and summary of material accounting policy information

The financial statements of Tribeca Global Natural Resources Limited (the “Company”) as of 30 June 2025 and for the year ended 30 June 2025 were authorised for issue in accordance with a resolution of the Directors on 25 August 2025. The Directors have the power to amend the financial report.

The Company is a for-profit entity limited by shares, incorporated and domiciled in Australia, whose shares are publicly traded on the Australian Securities Exchange (“ASX”).

The Company was registered with the Australian Securities and Investments Commission (“ASIC”) on 18 July 2018 and commenced operations on 12 October 2018, following its successful listing on the ASX.

The Company has been established to provide investors with access to an actively managed and concentrated portfolio of natural resources securities, credit positions and commodity positions.

The Company is managed by Tribeca Global Resources Pty Ltd (the “Investment Manager”).

The Investment Manager’s investment strategy is an active long/short investment strategy that seeks to benefit from the inherent volatility in the natural resources sector.

The Company’s registered office is Level 23, 1 O’Connell Street, Sydney NSW 2000, Australia.

Basis of preparation

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board (“AASB”) and International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis. The financial statements have also been prepared on a historical cost basis, except for financial assets and liabilities at fair value through profit or loss that have been measured at fair value.

Assets and liabilities with recovery or settlement within 12 months after the reporting date and more than 12 months after the reporting date are presented in the statement of financial position.

Basis of consolidation

The Company is an investment entity; therefore, it holds its investments in subsidiaries at fair value rather than consolidating them. Investments in subsidiaries are classified at fair value through profit or loss in accordance with *AASB 10 Consolidated Financial Statements*.

Investments in subsidiaries: In accordance with the exceptions under *AASB 10 Consolidated Financial Statements*, the Company does not consolidate subsidiaries in the financial statements unless the subsidiary is not itself an investment entity and its main purpose and activities are providing services that relate to the Company’s investment activities. The Company measures unconsolidated subsidiaries at fair value through profit or loss.

1. Corporate information and summary of material accounting policy information (continued)

Basis of consolidation (continued)

i) Judgements

Entities that meet the definition of an investment entity within AASB 10 are required to measure their subsidiaries at fair value through profit or loss rather than consolidate them. The criteria which define an investment entity are, as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment managements services.
- An entity that commits to its investors that its business purpose is to invest funds solely for return from capital appreciation, investments income, or both.
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis.

The absence of one or more of these typical characteristics does not necessarily disqualify an entity from being classified as an investment entity but indicates that additional judgement is required in determining whether the entity is an investment entity.

Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost it needs to give rise to cash flows that are 'solely payments of principal and interest' on the principal amount outstanding.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a timeframe established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

1. Corporate information and summary of material accounting policy information (continued)

Financial instruments – initial recognition and subsequent measurement (continued)

i) Financial assets (continued)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in one of two categories:

- Financial assets at amortised cost
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments and trade receivables)

The Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost includes cash at bank, amounts due from brokers, manager loan and trade and other receivables.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss and other comprehensive income.

Net gains or losses on financial assets and liabilities at fair value through profit or loss are changes in the fair value of financial assets and liabilities held for trading or designated upon initial recognition as at fair value through profit or loss and exclude interest and dividend income and expenses.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of the prior period's unrealised gains and losses for financial instruments which were realised in the reporting period. Realised gains and losses on disposals of financial instruments classified as at fair value through profit or loss are calculated using the first-in, first-out (FIFO) method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

This category includes listed equity securities, debt securities, unlisted unit trusts and derivative instruments.

**1. Corporate information and summary of material accounting policy information
(continued)**

Financial instruments – initial recognition and subsequent measurement (continued)

i) Financial assets (continued)

Derecognition

A financial asset is primarily derecognised when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

The Company recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**1. Corporate information and summary of material accounting policy information
(continued)**

Financial instruments – initial recognition and subsequent measurement (continued)

ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or amortised cost, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include amounts due to brokers, derivative instruments and trade and other payables.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortised cost

The Company measures financial liabilities at amortised cost if both of the following conditions are met:

- The financial liability is held within a business model with the objective is to hold financial liabilities in order to collect contractual cash flows; and
- The contractual terms of the financial liability give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities at amortised cost are subsequently measured using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

The Company's financial liabilities at amortised cost includes amounts due to brokers and trade and other payables.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category includes short listed equities and derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by *AASB 9 Financial Instruments* ("AASB 9"). Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit or loss and other comprehensive income excluding interest and dividend income and expenses.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in AASB 9 are satisfied.

1. Corporate information and summary of material accounting policy information (continued)

Financial instruments – initial recognition and subsequent measurement (continued)

ii) Financial liabilities (continued)

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss and comprehensive income.

iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Functional and presentation currency

The functional currency is the currency of the primary economic environment in which the Company operates. The majority of the Company's income is Australian dollar-based, the capital is raised in Australian dollar ("AUD" or "\$"), the performance is evaluated and its liquidity is managed in \$. Therefore, the Company concludes that the \$ is its functional currency.

The Company's presentation currency is also the \$.

Foreign currency translations

Transactions during the year, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Foreign currency transaction gains and losses on financial instruments classified as at fair value through profit or loss are included in profit or loss in the statement of profit or loss and other comprehensive income as part of the 'Net changes in fair value of financial assets and liabilities at fair value through profit or loss'.

Income tax

The income tax expense/(benefit) for the year comprises current income tax expense/(benefit) and deferred tax expense/(benefit).

**1. Corporate information and summary of material accounting policy information
(continued)**

Income tax (continued)

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities/(assets) are measured at the amounts expected to be paid to/(recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense/(benefit) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future years in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Goods and Services Tax (“GST”)

Revenues, expenses and assets are recognised net of the amount of GST, unless GST incurred is not recoverable from the Australian Taxation Office (“ATO”). In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense. The Company qualifies for Reduced Input Tax Credits (“RITC”) at a rate of at least 55%. Hence, fees for these services and other expenses have been recognised in the statement of profit or loss and other comprehensive income net of the amount of GST recoverable from the ATO.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

**1. Corporate information and summary of material accounting policy information
(continued)**

Interest income and expense

Interest income and expense for financial instruments measured at amortised cost are recognised in the statement of profit or loss and other comprehensive income for all interest-bearing financial instruments using the effective interest method.

Interest income and expenses for financial instruments measured at fair value through profit or loss are recognised separately in the statement of profit or loss and other comprehensive income and arises from financial assets and liabilities measured at fair value through profit or loss such as debt securities and derivatives. Interest income are recognised based on the interest stated in the loan agreement while interest expense are recorded based on the interest from broker report.

Dividend income and expense

Dividend income is recognised on the date when the Company's right to receive the payment is established. Dividend income relating to exchange-traded equity instruments is recognised in the statement of profit or loss and other comprehensive income on the ex-dividend date with any related foreign withholding tax deducted as an expense. Dividend equivalent expense relating to equity securities sold short is recognised when the shareholders' right to receive the payment is established.

Cash at bank

Cash at bank includes cash on hand and deposits held at call with financial institutions.

Amounts due from/to brokers

While the amounts due from brokers are highly liquid, due to their restrictions, they have not been classified as cash at bank.

Amounts due from and due to brokers include receivables for securities sold, margin amounts, collateral, encumbered cash and payables for securities purchased that have been contracted for, but not yet delivered, on the reporting date.

Prepayments

Prepayments represent expenses paid in advance by the Company. They are deferred and amortised to expenses in the year which they are incurred.

Issued capital

Ordinary shares will be classified as equity. Costs directly attributable to the issue of ordinary shares will be recognised as a deduction from equity, net of any tax effects.

**1. Corporate information and summary of material accounting policy information
(continued)**

Earnings per share

Basic and diluted earnings per share

(i) *Basic earnings per share is calculated by dividing:*

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

New Standard effective and adopted

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2024 have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

Standards issued but not yet effective

AASB 18 – Presentation and Disclosure in Financial Statements

The AASB has issued AASB 18 to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the statement of profit or loss.

The key presentation and disclosure requirements established by AASB 18 are:

- the presentation of newly defined subtotals in the statement of profit or loss;
- the disclosure of management-defined performance measures; and
- enhanced requirements for grouping information (i.e. aggregation and disaggregation).

These new requirements will enable investors and other financial statement users to make more informed decisions, including better allocations of capital, that will contribute to long-term financial stability.

**1. Corporate information and summary of material accounting policy information
(continued)**

Standards issued but not yet effective (continued)

AASB 18 will replace *AASB 101 Presentation of Financial Statements*.

For for-profit entities (other than superannuation entities applying AASB 1056 Superannuation Entities) preparing Tier 1 general purpose financial statements, AASB 18 applies to annual reporting periods beginning on or after 1 January 2027, with earlier application permitted.

AASB 18 incorporates IFRS 18 and makes consequential amendments to most of the AASB pronouncements.

The Company is currently assessing the impact of the new standards in the Company's financial statements.

There are no other new standards and amendments to existing standards that are not yet effective for the year ended 30 June 2025 that would be expected to have a significant impact in the Company's financial statements.

2. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions as described in Note 3, that affect the amounts and disclosures in the financial statements. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future years.

Income Taxes

The Company has recognised deferred tax assets of \$11,994,148 (2024: \$14,027,023) relating to current year tax losses and unrealised losses on investments of \$39,980,493 at 30 June 2025 (2024: \$46,756,743). The utilisation of tax losses depends on the ability of the Company to generate future taxable profits. The Company considers that it is probable that future taxable profits will be available to utilise those deferred tax assets.

AASB Interpretation 23 Uncertainty over income tax treatments ("AASB 23") provides clarification on how to apply recognition and measurement requirements when there is uncertainty over income tax treatments. Under AASB 23, if an entity concludes that it is probable that the tax authority will accept an uncertain tax treatment, the entity shall determine its accounting for income taxes consistently with that tax treatment. If an entity concludes that it is not probable that the treatment will be accepted, the entity shall reflect the effect of the uncertainty in its income tax accounting in the period in which that determination is made. An entity shall reflect the effect of uncertainty for each uncertain tax treatment by using either the most likely amount method or the expected value method, depending on which method the entity expects to best predict the resolution of the uncertainty. As at 30 June 2025 and 30 June 2024, there is no material uncertainty relating to any tax treatments.

3. Fair value measurements

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

(a) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For all other financial instruments not traded in an active market, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making use of available and supportable market data).

For assets and liabilities that are measured at fair value on a recurring basis, the Company identifies transfers between levels in the hierarchy by re-assessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole), and deems transfers to have occurred at the beginning of each reporting year.

(b) Fair value hierarchy

AASB 13 Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

3. Fair value measurements (continued)

Fair value measurement of financial instruments (continued)

(b) Fair value hierarchy (continued)

The following tables present the Company's assets and liabilities measured and recognised at fair value as at 30 June 2025 and 30 June 2024.

2025	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial assets at fair value through profit or loss				
Equity securities	136,256,430	–	1,411,583	137,668,013
Debt securities	–	–	1,312,543	1,312,543
Unlisted unit trusts	–	–	19,103,666	19,103,666
Derivative financial instruments	15,139	–	203,919	219,058
Total financial assets	<u>136,271,569</u>	<u>–</u>	<u>22,031,711</u>	<u>158,303,280</u>
Financial liabilities at fair value through profit or loss				
Equity securities	(6,386,041)	–	–	(6,386,041)
Total financial liabilities	<u>(6,386,041)</u>	<u>–</u>	<u>–</u>	<u>(6,386,041)</u>
2024	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Financial assets at fair value through profit or loss				
Equity securities	157,666,414	–	1,968,274	159,634,688
Debt securities	–	–	1,919,225	1,919,225
Unlisted unit trusts	–	–	19,434,952	19,434,952
Derivative financial instruments	52,307	1,117,896	–	1,170,203
Total financial assets	<u>157,718,721</u>	<u>1,117,896</u>	<u>23,322,451</u>	<u>182,159,068</u>

There were no transfers between levels during the year ended 30 June 2025 and 30 June 2024.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the beginning of the reporting year.

3. Fair value measurements (continued)

Fair value measurement of financial instruments (continued)

(b) Fair value hierarchy (continued)

Valuation techniques

When fair values of publicly traded equity securities are based on quoted market prices in an active market for identical assets without any adjustments, the instruments are included within Level 1 of the hierarchy.

In the absence of a quoted price in an active market, managed funds and derivatives are valued using observable inputs such as recent transactions, the market price of underlying investment, forward rates and recently quoted prices from the issuer or comparable issuers. Adjustments are made to the valuations when necessary to recognise differences in the instrument's terms. When the significant inputs are observable, the Company categorises these investments as Level 2.

For all other financial instruments not traded in an active market, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and observable market data as possible). For its unlisted unit trusts, net asset value ("NAV") approach is used as the valuation method. The fair value is determined using the underlying fund's NAV as provided by the respective fund's fund administrator. The Company categorises these investments as Level 3.

The Company held fourteen (30 June 2024: seven) Level 3 positions at year end of which eleven (30 June 2024: six) were fair valued externally by independent valuers, two (30 June 2024: Nil) were fair valued based on the underlying fund's NAV and one (30 June 2024: one) held at cost. The Investment Manager has reviewed the reasonableness of Level 3 valuations and is satisfied that it fairly represents the values of the assets held by the Company as at 30 June 2025.

The changes in investments measured at fair value for which the Company has classified as having significant Level 3 inputs to determine fair value are as follows:

	30 June 2025	30 June 2024
	\$	\$
Beginning value	23,322,451	40,500,941
Purchases	16,862,630	2,352,116
Sales	(18,420,915)	(1,422,878)
Realised loss	(20,383,852)	(91,782)
Unrealised gain/(loss)	<u>20,651,397</u>	<u>(18,015,946)</u>
Ending value	<u>22,031,711</u>	<u>23,322,451</u>

	Transaction price	+/-10%	+/-11,616
Unlisted debt securities	Implied yield	+/-10%	+/-191,923

4. Derivative Contracts

Typically, derivatives serve as a component of the Company's investment strategy and are utilised primarily to structure the portfolio or individual investments to economically match the investment objective of the Company.

Option contracts

Option contracts are derivative financial instruments that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase from (call option) or sell to (put option) the writer a specified underlying instrument at a specified price on or before a specified date. The Company enters into option contracts to meet the requirements of its risk management and trading activities. Any realised and unrealised gains and losses are included in net changes in fair value of financial assets and liabilities at fair value through profit or loss in the statement of profit or loss and other comprehensive income. The total notional amount of option contracts outstanding as at 30 June 2025 amounts to \$600,262 (2024: \$2,850,066).

Swap agreements

Swap agreements ("swaps") represent agreements that obligate two parties to exchange a series of cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore, amounts required for the future satisfaction of the swap may be greater or less than the amount recorded. The realised gain/loss depends upon the prices at which the underlying financial instruments of the swap is valued at the swaps settlement date and is included in net changes in fair value of financial assets and liabilities at fair value through profit or loss in the statement of profit or loss and comprehensive income. Swaps, which are not dealt in or traded through a clearing firm or an exchange, will be valued on the basis of the latest available counterparty valuation. The total notional amount of equity swaps outstanding as at 30 June 2025 amounts to \$21,365,552 (2024: \$11,417,167).

Warrants

A warrant is a derivative security that gives the holder the right to purchase securities from the issuer at a specific price within a certain timeframe. Warrants which are traded on an active market are valued at the quoted price. The Company may purchase warrants to take opportunities to increase returns on the price movements of the financial instrument underlying the warrant, or for use as an economic hedge against certain equity positions held in the Company's portfolio holdings. The Company purchases warrants through listed markets and some are part of debt securities purchased. Warrants purchased by the Company provide the Company with the opportunity to purchase the underlying asset at an agreed-upon value either on (European style) or at any time before (American style) the expiration of the warrant. The total notional amount of warrants outstanding as at 30 June 2025 amounts to \$1,386,617 (2024: \$Nil).

4. Derivative Contracts (continued)

The Company's derivative financial instruments at year end are detailed below:

30 June 2025	Contract/ Notional	Fair values	
	\$	Assets	Liabilities
		\$	\$
Equity options	600,262	15,139	–
Equity swaps	21,365,552	–	–
Warrants	1,386,617	203,919	–
Total derivatives	23,352,431	219,058	–
30 June 2024	Contract/ Notional	Fair values	
	\$	Assets	Liabilities
		\$	\$
Equity options	2,850,066	214,947	–
Equity swaps	11,417,167	955,256	–
Total derivatives	14,267,233	1,170,203	–

5. Financial risk management

The Company's financial instruments consist mainly of cash in bank, amounts due from/to brokers, trading portfolios, trade and other receivables and trade and other payables.

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk, foreign exchange risk and price risk), credit risk, liquidity risk and other risks. The Directors, with the Investment Manager have implemented a risk management framework to mitigate these risks.

Risk management philosophy and approach

The Company has appointed the Investment Manager to manage the portfolio. The Investment Manager will be primarily responsible for managing the risk of the portfolio. The Investment Manager utilises the Tribeca Group's proprietary risk management and portfolio management tools to ensure strict adherence to the company investment guidelines.

5. Financial risk management (continued)

Risk management philosophy and approach (continued)

The Investment Manager considers investment risk to be the risk of permanent loss of capital. The Investment Manager's risk policies and controls are designed to be robust and relevant to the Company's investment objectives and strategy. These tools also add value to the portfolio construction process through real time monitoring of attributed risk and net exposures. The Investment Manager's portfolio management process also incorporates a number of compliance and control measures including:

- (a) pre-trade compliance in the Tribeca Group's order management system;
- (b) post-trade compliance reviewed daily by the compliance team; and
- (c) market stress tests conducted daily on the Portfolio in the Tribeca Group's risk management systems.

The investment team, meaning the key investment personnel responsible for implementation of the investment strategy, will maintain appropriate portfolio risk controls that monitor a variety of risk factors, including (without limitation) net portfolio market risk, individual stock contribution to net market risk and liquidity of long and short positions within the portfolio.

The investment team meets at least once a week, and prior to any material change to the portfolio, to consider the portfolio and undertake a risk assessment. At these meetings, the portfolio managers assess the current risk metrics of the portfolio and model the impact from proposed changes.

The Investment Manager is committed to robust corporate governance practices to create value and provide accountability and a control system commensurate with the risk involved. They ensure amongst other things the fair allocation of trades between all relevant entities and monitoring net and gross exposure within the portfolio.

The Company manages risk by monitoring the Investment Manager's compliance with the investment guidelines. Under the investment management agreement, the Investment Manager must report to the Directors on a regular basis. These reports allow the Directors to monitor the Investment Manager and the portfolio to ensure ongoing compliance with the investment strategy and investment guidelines.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The portfolio is exposed to market risk. The market risk of assets in the Company's portfolio can fluctuate as a result of market conditions. The value of the portfolio may be impacted by factors such as economic conditions, interest rates, regulations, sentiment and geopolitical events as well as environmental, social and technological changes. The Investment Manager seeks to reduce market and economic risks to the extent possible.

5. Financial risk management (continued)

Market risk (continued)

Currency risk

Investing in assets denominated in a foreign currency creates an exposure to foreign currency fluctuations, which can change the value of the portfolio's investments measured in \$. For example, if an equity investment is denominated in a foreign currency and that currency depreciates in value against the \$, the value of that investment may depreciate when translated into \$ and the portfolio may suffer a loss as a result, notwithstanding that the underlying equity has appreciated in value in its currency of denomination. The Investment Manager seeks to regularly monitor price movements for natural resources securities and if required, perform currency trades to continuously maintain an economically \$ hedged portfolio.

The table below summarises the fair value of the Company's monetary financial assets and liabilities, which are denominated in a currency other than the Australian dollar.

2025	United States Dollar (USD) \$	Canadian Dollar (CAD) \$	British Pound Sterling (GBP) \$	Others \$

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of interest bearing financial assets and financial liabilities will fluctuate because of changes in interest rates. The Company is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position, financial performance and cash flows. The Company holds fixed income securities. The Company also has cash at bank and cash held with brokers that expose the Company to cash flow interest rate risk. The interest rate sensitivity for cash at bank and cash held with brokers is not significant to the Company.

Financial instruments with a floating interest rate that resets as market rates change are exposed to cash flow interest rate risk.

The dollar values of one basis point movement (DV01) is a measure of interest rate risk that represents the dollar value change in a bond or fixed income securities for a one basis point.

As at 30 June 2025 and 30 June 2024, the DV01 of the direct investments of the Company are \$83 (2024: \$193) which indicated that an increase/decrease of 100 basis point in interest rate will result in a gain/loss of \$83 (2024: a gain/loss of \$193) for the Company.

Equity price risk

There is a risk that securities will fall in value over short or extended years of time. Security markets tend to move in cycles, and individual share prices may fluctuate and underperform other asset classes over extended years of time. Shareholders in the Company are exposed to this risk through the Company's portfolio.

This arises from investments held by the Company and classified in the statement of financial position as financial assets and financial liabilities at fair value through profit or loss.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Credit risk primarily arises from investments in debt securities and from trading derivative products. The Company directly holds a fixed income security and indirectly holds a portfolio of fixed income securities through its unlisted unit trusts that expose the Company to credit risk. Other credit risk arises from cash at bank, broker balances, manager loan and deposits with banks and other financial institutions.

The maximum exposure to credit risk, at the statement of financial position date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

The Company held no collateral as security or any other credit enhancements. None of the assets exposed to a credit risk are overdue or considered to be impaired.

The Company has pledged part of its short-term deposits in order to fulfill the collateral requirements. At 30 June 2025, the fair values of the short-term deposits pledged were \$4,383,060 (30 June 2024: \$13). The terms and conditions associated with the use of collateral are market standard terms and conditions.

Financial assets subject to AASB 9's impairment requirements

The Company measures credit risk and ECL using probability of default, exposure at default and loss given default. The Company considers both historical analysis and forward looking information in determining any ECL. At 30 June 2025, cash at bank, amounts due from brokers and receivables are held with counterparties with a credit rating of AA-, A+ or A- (2024: BBB+) or higher. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Company.

5. Financial risk management (continued)

Credit risk (continued)

Financial assets not subject to AASB 9's impairment requirements (continued)

The Company holds the Manager loan at amortised cost. AASB 9 requires the Company to record ECLs either on a 12-month or lifetime basis. The Directors assessed that there have been no significant increase in credit risk of the creditor upon evaluating a range of possible outcomes and observing reasonable and supportable information that is available at the reporting date about current conditions and forecasts of future economic conditions. The Directors do not expect any significant impairment on this financial asset.

The Company is exposed to credit risk on debt securities (directly and indirectly held) and derivative assets. These classes of financial assets are not subject to AASB 9's impairment requirements as they are measured at fair value through profit or loss. The carrying value of these assets under AASB 9 represents the Company's maximum exposure to credit risk on financial instruments not subject to the AASB 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

Risk concentration of maximum exposure to credit risk

The Company has a concentration of credit risk in that all of its level 1 and level 2 investment positions and receivable from broker amounts are primarily held by and due from Morgan Stanley & Co. International plc and UBS AG, which are rated as A- and A+ (2024: A- and A+), respectively by Standard and Poor's as at year end.

The main concentrations of credit risk at the statement of financial position date were as follows:

	30 June 2025	30 June 2024
	\$	\$
Cash at bank	5,846,868	23,042,050
Amounts due from brokers	71,148,159	19,095,215
Financial assets at fair value through profit or loss	158,303,280	182,159,068
Manager loan	382,120	734,847
Trade and other receivables	491,629	377,854
Total	<u>236,172,056</u>	<u>225,409,034</u>

5. Financial risk management (continued)

The following table analyses the concentration of credit risk by geographical distribution:

	30 June 2025 %	30 June 2024 %
Australia	64.77	78.22
Canada	0.69	0.00
United Kingdom	0.48	0.00
United States	34.06	21.78
Total	100.00	100.00

The following table analyses the concentration of credit risk in the Fund's debt portfolio by industrial distribution:

	Debt securities	
	30 June 2025 %	30 June 2024 %
Industrials	28.85	0.00
Materials	71.15	100.00
Total	100.00	100.00

5. Financial risk management (continued)

Liquidity risk

The Company is exposed to liquidity risk in relation to the investments within its portfolio. If a security cannot be bought or sold quickly enough to minimise potential loss the Company may have difficulty satisfying commitments associated with financial instruments.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted receipts and payments as at 30 June 2025 and 30 June 2024:

2025	On demand	1 to 3 months	3.1 to 12 months	More than 1 year	No fixed maturity	Total
	\$	\$	\$	\$	\$	\$
Financial liabilities						
Amounts due to brokers	72,063,197	–	–	–	–	72,063,197
Financial liabilities at fair value through profit or loss	–	–	–	–	6,386,041	6,386,041

Total	<u>74,639,480</u>	<u>759,657</u>	<u>–</u>	<u>–</u>	<u>–</u>	<u>75,399,137</u>

Other risk

Foreign issuer and market risk

The Company's investment objective and strategies are focused on natural resources securities and credit positions and commodity positions. Investments in foreign companies may be exposed to a higher degree of sovereign, political, economic, market and corporate governance risks than domestic investments.

Collateral risk

The Company uses the services of a prime broker to facilitate the lending of securities to short sell. Until the Investment Manager returns a borrowed security, it will be required to maintain assets with the prime broker as collateral. As such, the Company may be exposed to certain risks in respect of that collateral.

5. Financial risk management (continued)

Other risk (continued)

Counterparty risk

Investment in securities and financial instruments generally involves third parties as custodial and counterparties to contracts. Use of third parties carries risk of default and failure to secure custody which could adversely affect the value of the Company.

The Company will use the services of the prime broker and outsource key operational functions including investment management, custody, execution, administration and valuation to a number of third party service providers. There is a risk that third party service providers may intentionally or unintentionally breach their obligations to the Company (such as a counterparty defaulting under a derivatives contract or a securities lender failing to deliver a borrowed security) or provide services below standards which are expected by the Company, causing loss to the Company.

Portfolio turnover risk

The Investment Manager may adjust the portfolio as considered advisable in view of prevailing or anticipated market conditions and the Company's investment objectives, and there is no limitation on the length of time securities must be held, directly or indirectly, by the Company prior to being sold. Portfolio turnover rate will not be a limiting factor and will vary from year to year. Higher portfolio turnover rates involve correspondingly higher transaction costs, which are borne directly or indirectly by the Company. In addition, the Company may realise significant short term and long-term capital gains.

Compensation fee structure risk

The Investment Manager may receive compensation based on the portfolio's performance. Performance fee arrangements may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case in the absence of a fee based on the performance of the portfolio.

Regulatory risk

All investments carry the risk that their value may be affected by changes in laws and regulations especially taxation laws. Regulatory risk includes risk associated with variations in the taxation laws of Australia or other jurisdictions in which the Company holds investments.

Concentration risk

The Company's typical portfolio is expected to hold 20 to 60 long and short positions which represents moderate investment concentration. The lower the number of investments, the higher the concentration and, in turn, the higher the potential volatility.

6. Offsetting financial assets and financial liabilities

The Company presents the fair value of its derivative assets and liabilities on a gross basis, no such assets or liabilities have been offset in the statement of financial position. Certain derivative financial instruments are subject to enforceable master netting arrangements, such as an International Swaps and Derivatives Association master netting agreement, or similar agreements that cover similar financial instruments.

6. Offsetting financial assets and financial liabilities (continued)

The similar agreements include derivative clearing agreements, global master repurchase agreements, global master securities lending agreements, and any related rights to financial collateral. The similar financial instruments and transactions include derivatives, sale and repurchase agreements, reverse sale and repurchase agreements, securities borrowing, and securities lending agreements.

The Company's agreements allow for offsetting following an event of default, but not in the ordinary course of business, and the Company does not intend to settle these transactions on a net basis or settle the assets and liabilities on a simultaneous basis.

The tables below set out the carrying amounts of recognised financial assets and liabilities that are subject to the above arrangements, together with collateral held or pledged against these assets and liabilities as at 30 June 2025 and 30 June 2024:

2025	Gross carrying amounts before offsetting	Amounts offset in accordance with offsetting criteria	Net amount presented in statement of financial positions	Related amounts not set-off in the statement of financial position

7. Segment information

The Company has identified its operating segments based on the internal reports that are reviewed by the Investment Manager (who is identified as the Chief Operating Decision Makers (“CODM”)) in assessing and determining the allocation of resources.

The Company operates in one business segment, being investment in securities.

8. Reconciliation of net profit/(loss) to net cash from operating activities

	30 June 2025	30 June 2024
	\$	\$
Net profit/(loss) for the year	5,016,143	(9,589,339)

Other payables and accrued expenses	45,879	47,366
Total trade and other payables	<u>515,894</u>	<u>759,657</u>

10. Amounts due from/to brokers

Amounts due from/to broker include cash balances with the clearing brokers and amounts receivable or payable for securities transactions which have not settled during the year.

	30 June 2025	30 June 2024
	\$	\$
Due from brokers		
Cash balances	63,568,770	18,453,275
Receivable for securities sold	<u>7,579,389</u>	<u>641,940</u>
Total	<u>71,148,159</u>	<u>19,095,215</u>
Due to brokers		
Cash balances	50,283,497	72,994,067
Payable for securities purchased	<u>21,779,700</u>	<u>1,645,413</u>
Total	<u>72,063,197</u>	<u>74,639,480</u>

Cash balances due from broker mainly include cash from short sales subject to withdrawal restrictions until the related securities are purchased.

11. Issued capital

The authorised share capital of the Company is \$189,963,862 (2024: \$189,963,862) divided into 78,791,934 (2024: 78,791,934) ordinary shares of \$2.41 per share (average issue price). All issued ordinary shares are fully paid and are listed on the ASX. The Company's capital is represented by these ordinary shares.

(a) Share capital

	30 June 2025	30 June 2024
Number of ordinary shares	78,791,934	78,791,934

11. Issued capital (continued)

(b) Movements in ordinary share capital

	Number of shares	\$
Opening balance at 1 July 2023	78,579,331	187,452,357
Shares issued	212,603	373,359
Closing balance at 30 June 2024	78,791,934	187,825,716
Opening balance at 1 July 2024	78,791,934	187,825,716
Shares issued	—	—
Closing balance at 30 June 2025	78,791,934	187,825,716

Capital management policy

The Board will regularly review the capital structure of the Company and, where the Board considers appropriate, undertake capital management initiatives which may involve:

- (a) the issue of other shares (through bonus options issues, placement, pro rata issues, etc.); or
- (b) the buy-back of its shares.

12. Earnings/(losses) per share

	For the year ended 30 June 2025 \$	For the year ended 30 June 2024 \$
Net profit/(loss) after income tax used in the calculation of basic and diluted earnings/(losses) per share	5,016,143	(9,589,339)
(a) Basic and diluted earnings/(losses) per share		
	30 June 2025 \$	30 June 2024 \$
Basic earnings/(losses) per share attributable to the ordinary equity holders of the Company	0.06	(0.12)
Diluted earnings/(losses) per share attributable to the ordinary equity holders of the Company	0.06	(0.12)

12. Earnings/(losses) per share (continued)

(b) Weighted average number of shares used as denominator

	No. of shares 30 June 2025	No. of shares 30 June 2024
Weighted average number of ordinary shares outstanding during the period used in calculating basic and diluted earnings/(losses) per share	78,791,934*	78,743,589*

* The weighted average number of shares used as the denominator in calculating basic profit or losses per share is based on the average number of shares for the year ended 30 June 2025 and 30 June 2024, respectively.

As at the end of the year, there are no outstanding securities that are potentially dilutive in nature for the Company.

13. Related parties

Details of key management personnel

Key management personnel for the year ended 30 June 2025 are those persons who are identified as having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including and Non-executive Director of the Company.

Names and positions held by Directors and Officers of the Company in office at any time during the financial year are:

Name	Title	Earliest appointment date	Last re-election date
Rebecca O'Dwyer	Chairperson	4 January 2021	17 November 2023
Nicholas Myers	Non-executive Director	30 August 2021	22 November 2024
Bruce Loveday	Non-executive Director	18 July 2018	25 November 2022

Tribeca Global Natural Resources Credit Fund

As at 30 June 2024, the Company held an investment in Tribeca Global Natural Resources Credit Fund with fair value of \$760,283 which represents 21.34% of the NAV of the investee fund. The investee fund is managed by a related entity of the Investment Manager.

On 29 November 2024, the Directors of the investee fund approved the wind down of Tribeca Global Natural Resources Credit Fund. On 27 December 2024, the Investee Fund has distributed all of its remaining cash.

VT Carbon Fund

As at 30 June 2025, the Company held an investment in VT Carbon Fund with a fair value of \$2,653,373 (2024: \$4,240,545) which represents 48.13% (2024: 41.33%) of the NAV of the investee fund. The investee fund is managed by a related entity of the Investment Manager.

13. Related parties (continued)

Kimberley Syndicate Trust

As at 30 June 2025, the Company held an investment in Kimberley Syndicate Trust with fair value of \$16,450,293 (2024: \$14,434,124) which represents 62.71% (2024: 62.40%) of the NAV of the investee fund. The investee fund is managed by a related entity of the Investment Manager.

Investment Manager

As at 30 June 2025, the related entities of the Company held total shares as:

- Tribeca Global Resources Pty Ltd has Nil shares (2024: 750,000 shares or 0.95% of the Company's NAV); and
- Tribeca Investment Partners Pty Ltd has 357,000 shares (2024: Nil shares) which is equivalent to 0.45% of the Company's NAV (2024: Nil)

In February 2025, the Investment Manager effected an in-specie distribution of its 750,000 shares in the Company, allocating them directly to shareholders of the Investment Manager including Tribeca Investment Partners Pty Ltd.

Manager loan

The Company entered into a loan agreement with the Investment Manager on 21 February 2023. The Investment Manager has agreed to be responsible for the payment of share offer costs that the Company would be normally liable for. These costs will be paid upfront by the Company; however, the Investment Manager will repay the share offer costs to the Company in accordance with the Manager loan.

The Manager loan is an unsecured loan that the Investment Manager may use for working capital purposes. The Investment Manager will use the Manager loan to reimburse the Company for the costs of the share offer.

The Investment Manager is required to repay the Manager loan in monthly instalments over the 40-month term. Each instalment should be equal to at least 1/40th of the total loan amount. If the Investment Manager's repayments remain in arrears, the loan will be subject to a monthly interest at the default interest equal to Reserve Bank of Australia cash rate plus 4% per annum. The Company will have a right to offset all payments otherwise due to the Investment Manager for so long the Investment Manager is in arrears.

The Investment Manager may repay the Manager loan early at its absolute discretion. The Company has a right of recourse against the Investment Manager for the amounts owed under the Manager loan.

During the year, the total share offer costs paid by the Company amounted to \$Nil (2024: \$Nil). As at 30 June 2025, the balance of the Company's Manager loan amounted to \$382,121 (2024: \$734,847) presented as current and non-current asset in the statement of financial position amounting to \$352,726 (2024: \$352,726) and \$29,394 (2024: \$382,121), respectively.

The management fees that was offset against manager loan during the year amounted to \$352,726 (2024: \$352,726).

13. Related parties (continued)

Management fees

In return for the performance of its duties under the investment management agreement, the Investment Manager is entitled to be paid, and the Company must pay to the Investment Manager a management fee equal to 1.5% per annum (plus GST) of the value of the portfolio (calculated on the last business day of each month and paid at the end of each month in arrears).

The management fee is to be paid to the Investment Manager regardless of the performance of the Company. Management fees would increase if the value of the portfolio increases and decrease if the value of the portfolio decreases over the year.

Management fees incurred during the year amounted to \$2,355,991 (2024: \$2,453,730) of which \$197,386 (2024: \$187,681) remained payable. For the year ended 30 June 2025, in its capacity as Investment Manager, Tribeca Global Resources Pty Ltd was partially paid management fees through reimbursement of the Company's share offer costs.

Directors' fees

Non-executive Directors are entitled to receive Directors' fees of up to \$150,000 per annum to be shared among the Directors. For the year ended 30 June 2025, the amount incurred amounted to \$105,000 (2024: \$138,542), none of which remained payable (2024: \$Nil).

Performance fees

In return for the performance of its duties as Investment Manager of the Portfolio, the Investment Manager is entitled to be paid and the Company must pay to the Investment Manager (which remuneration is to be obtained for the use and benefit of the Investment Manager) a fee (performance fee) of 20% (plus GST) of A, where A for a performance calculation period is calculated in accordance with the following formula:

$$A = B - C$$

Where:

A is the base amount to be used in calculating the performance fee outlined above.

B is the value of the portfolio after payment of management fees, calculated on the last business day of the relevant performance calculation period.

C is the value of the portfolio, after payment of management fees and performance fees, calculated on the last business day of the last performance calculation period in which a performance fee was paid or if no prior performance fee has been paid to the Investment Manager, the value of the portfolio on the commencement date.

13. Related parties (continued)

Performance fees (continued)

If the value of the portfolio (after payment of management fees) calculated on the last business day of a performance calculation period is less than:

- (a) for the first performance calculation period, the value of the portfolio on the commencement date;
- (b) thereafter, the highest value of the portfolio, after payment of management fees and performance fees, calculated on the last business day of any preceding performance calculation period, no performance fee is payable in respect of that performance calculation period. If the amount calculated for A is a negative number, no performance fee is payable in respect of that performance calculation period.

In calculating the performance fee for a performance calculation period, changes in the value of the portfolio as a result of the issue of securities, capital reductions or share buy-backs undertaken by the Company or payment of tax and dividend distribution will be disregarded or adjusted for in a manner determined by the auditor at the conclusion of that performance calculation period.

The auditor of the Company must review the calculation of the performance fee prior to payment.

There were no performance fees incurred and payable during the year ended 30 June 2025 and 30 June 2024.

14. Income tax

For the year ended 30 June 2025 and 30 June 2024, the Company no longer qualify as base rate entity. The tax provision of the Company is calculated at a 30% tax rate.

- (a) **Income tax expense/(benefit) attributable for the year differs from the prima facie amount on operating profit/(loss). The difference is reconciled as follows:**

	For the year ended 30 June 2025 \$	For the year ended 30 June 2024 \$
Profit/(loss) before income tax	7,049,018	(14,376,243)
Prior year adjustments	–	(861,553)

Tax gains/(losses) carried forward	6,844,767	(2,317,748)
Unrealised (gains)/losses on investments	(8,892,554)	6,946,093
Costs associated with the issue of shares	35,264	(70,553)
Prior year adjustments	–	258,466
Accrued dividend	(21,036)	(40,394)
Other temporary differences	684	11,040
Deferred tax assets	11,994,148	14,027,023
Movements:		
Opening balance	14,027,023	9,240,119
(Credited)/debited		
- directly to profit or loss	(2,032,875)	4,786,904
Closing balance	11,994,148	14,027,023

14. Income tax (continued)

	Statement of financial position		Statement of profit or loss and other comprehensive income	
	2025	2024	2025	2024
	\$	\$	\$	\$
Revaluation of financial assets at fair value through profit or loss	4,840,303	13,732,857	(8,892,554)	6,946,093
Set up cost amortised in 5 years for tax purpose	246,925	211,660	35,264	(70,553)
Accruals and other items	789,074	809,426	(20,352)	(29,354)
Tax loss carried forward	6,877,255	32,489	6,844,767	(2,317,748)
Prior year adjustments	(759,409)	(759,409)	–	258,466
Deferred tax (expense)/benefit			<u>(2,032,875)</u>	<u>4,786,904</u>
Net deferred tax asset	<u>11,994,148</u>	<u>14,027,023</u>		

(d) Current tax assets relate to the following:

	30 June 2025 \$	30 June 2024 \$
Opening balance	110,051	272,957
Current year tax liabilities	–	–
Current tax paid	(110,435)	(162,906)
Current tax (liabilities)/assets	<u>(384)</u>	<u>110,051</u>

15. Other expenses

	For the year ended 30 June 2025 \$	For the year ended 30 June 2024 \$
Insurance expense	297,443	344,037
Regulatory fees	80,697	85,435
Tax compliance service expense	18,385	18,645
Financial statement preparation fees	17,784	16,981
Operating expenses	10,112	–
Total other expenses	<u>424,421</u>	<u>465,098</u>

16. Contingencies and commitments

The Company had no contingent assets, liabilities or commitments as at 30 June 2025 and 30 June 2024.

17. Remuneration of auditors

During the year, the following fees were paid or payable for services provided by the auditor, Ernst & Young to the Company.

Auditor's Remuneration	30 June 2025	30 June 2024
Fees to Ernst & Young (Australia)		
Fees for auditing the statutory financial report of the Company	77,000	79,731
Fees for other services		
- Tax compliance service	18,385	18,645
Total fees to Ernst & Young (Australia)	95,385	98,376
Total auditor's remuneration	95,385	98,376

The statutory audit requirements for the Company vary from year to year and can have an impact on the level of audit fees. The Company may decide to engage the auditor on other non-audit assignments in addition to their statutory audit duties where the auditor's expertise and experience with the Company is important.

The auditor has provided an independence declaration and the Directors are satisfied that the work performed on other non-audit services was conducted by a team separate from the audit team and does not impact the independence of the auditor.

18. Significant event during the year

There were no significant events during the year.

19. Events occurring after the reporting year

No matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Consolidated entity disclosure statement

Disclosure of subsidiaries and their country of tax residency, as required by the Corporations Act 2001, does not apply to the Company as the Company is not required by accounting standards to prepare consolidated financial statements.

In accordance with a resolution of the Directors of Tribeca Global Natural Resources Limited (the "Company"), I state that:

- 1) In the opinion of the Directors:
 - (a) the financial statements and notes are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Company's financial position as at 30 June 2025 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*;
 - (b) the consolidated entity disclosure statement required by section 295 (3A) of the *Corporations Act 2001* is true and correct; and
 - (c) the financial statements and notes also comply with International Financial Reporting Standards as disclosed in Note 1; and
 - (d) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

- 2) This declaration has been made after receiving the declarations required to be made to the Directors from the Investment Manager in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 June 2025.

On behalf of the Board

Rebecca O'Dwyer
Independent Chairperson
Sydney
25 August 2025

Independent auditor's report to the shareholders of Tribeca Global Natural Resources Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Tribeca Global Natural Resources Limited (the Company), which comprises the statement of financial position as at 30 June 2025, the statement of profit or loss and comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Company's financial position as at 30 June 2025 and of its financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

**Shape the future
with confidence**

Investment existence and valuation

Why significant	How our audit addressed the key audit matter
<p>The Company has an investment portfolio consisting of long and short positions in listed securities and long positions in unlisted securities. As at 30 June 2025, the financial assets and financial liabilities totalled \$158,303,280 and \$6,386,041 made up approximately 64% and 8% of the total assets and total liabilities, respectively, of the Company.</p> <p>As disclosed in the Company’s accounting policy Note 1, these financial assets and financial liabilities are measured at fair value through profit or loss in accordance with the requirements of Australian Accounting Standards.</p> <p>Pricing, exchange rates and other market drivers can have a significant impact on the value of these financial assets and financial liabilities, and in turn, the financial report. For Level 3 investments, management exercises significant judgement in estimating the fair values.</p> <p>Accordingly, existence and valuation of the investment portfolio was considered a key audit matter.</p>	<p>Our audit procedures included the following:</p> <p>Assessed the effectiveness of the controls relating to the recognition and valuation of investments.</p> <p>Obtained and assessed the assurance report on the controls of the Company’s administrator in relation to the fund administration services for the period ended 30 June 2025, and assessed the auditor’s qualifications, competence and objectivity, and the results of their procedures.</p> <p>Agreed all investment holdings, including cash accounts, to third party confirmations at 30 June 2025.</p> <p>For listed securities, the unit values were assessed against independently sourced market prices.</p> <p>For unlisted investments, with the involvement of our valuation specialists, we evaluated the appropriateness of the valuation techniques used by management, agreed the valuation models’ observable and unobservable inputs to supporting documentation, and assessed the reasonableness of the assumptions applied in calculating the fair value of the investments. We also tested the mathematical accuracy of the valuation models.</p> <p>For unlisted unit trusts, we obtained and agreed the unit prices to the net asset value statements provided by the external fund administrator. We obtained the trial balance of the unlisted unit trusts and assessed the appropriateness of the valuations adopted. We also assessed the appropriateness of the underlying valuation methods and key assumptions applied by the external investment manager, engaged our valuation specialists where appropriate and reviewed the fair values of the investments.</p>

**Shape the future
with confidence**

Why significant	How our audit addressed the key audit matter
	We also assessed the adequacy and appropriateness of the disclosures included in the Notes to the financial report.

Management and Performance Fees

Why significant	How our audit addressed the key audit matter
<p>As at 30 June 2025, management fees and performance fees totalled \$2,355,991 and \$Nil respectively as disclosed in Note 13. Management fees equate to 18% of total expenses.</p> <p>Management and performance fees paid to the manager, Tribeca Global Resources Pty Ltd, are the most significant operating expenses for the Company.</p> <p>Performance fees are recognised as an expense if the performance hurdles for the Company have been met at the end of the relevant measurement period, which is the date that the performance criteria is met and the liability has been crystallised. Due to the value of these expenses and the impact that market volatility can have on the recognition of performance this was considered a key audit matter.</p>	<p>Our audit procedures included the following:</p> <p>Obtained and assessed the assurance report on the controls of the Company’s administrator in relation to the fund administration services for the period ended 30 June 2025, and assessed the auditor’s qualifications, competence and objectivity, and the results of their procedures.</p> <p>Recalculated management fees, in accordance with the board-approved relevant services agreement, including agreeing the fee rate to the calculation.</p> <p>Assessed the performance fee calculation, including testing the inputs into the calculation model and assessed whether the calculation was in accordance with the board-approved relevant services agreement.</p> <p>Assessed whether the relevant criteria for accrual of a performance fee liability were met at 30 June 2025.</p> <p>We also assessed the adequacy and appropriateness of the disclosures included in the Notes to the financial report.</p>

Information other than the financial report and auditor’s report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company’s 2025 annual report, but does not include the financial report and our auditor’s report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

**Shape the future
with confidence**

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- a. The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and;
- b. The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i. The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

**Shape the future
with confidence**

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 10 of the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Tribeca Global Natural Resources Limited for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
