2. PRINCIPAL ACTIVITIES AND REVIEW OF THE DEVELOPMENT AND PERFORMANCE OF THE BUSINESS DURING THE FINANCIAL PERIOD

The principal activity of the Group is the development and sale of software. FINEOS is a global software vendor providing modern cloud-based software products (FINEOS Platform) for core system administration functions within Life, Accident and Health insurers and employee benefits providers.

The FINEOS Platform is a purpose-built, customer-centric, end-to-end product suite designed to manage the modern complex structures and relationships of group and individual insurance processing to optimise plan, coverage and data management, operational processing and business intelligence. The Group is continuously developing the entire range of FINEOS Platform product offerings, which also include embedded AI through artificial intelligence.

DIRECTORS' REPORT
for the six-month period ended 30 June 2025

2. PRINCIPAL ACTIVITIES AND REVIEW OF THE DEVELOPMENT AND PERFORMANCE OF THE BUSINESS DURING THE FINANCIAL PERIOD (continued)

The Group helps its clients move from outdated legacy core systems to the modern Software-as-a-Service (SaaS) FINEOS Platform for new business, policy administration, billing, absence and claims management, enabling improved operational efficiency, increased effectiveness and superior customer experience.

Annual subscription fees are payable for use of the FINEOS Platform and fee amounts depend on the extent that FINEOS products are being used within the clients' operations. Services revenues are generated when assisting clients migrating to the FINEOS Platform and are dependent on the migration model chosen (clients may use internal or other external FINEOS Partner resources as well as FINEOS resources).

Business summary and key performance indicators

The key performance indicators of the financial results for the six-month period to 30 June 2025 compared with the six-month period to 30 June 2024 are as follows:

- An overall increase of 4.2% in revenue to €67.1 million from €64.4 million.
- Subscription revenue is up 5.7% to €36.4 million primarily driven by expansion of footprint within existing clients.
- Services revenue is up 2.6% to €30.4 million with an 11.5% increase in APAC (due mainly to higher utilisation) and a slight increase of 1.6% in North America.
- Cost of sales is down €1.3 million or 7.6% due to a reduction in contractor and employee cost combined with a decrease in software cost.
- Product development and delivery cost is up €0.1 million or 0.2% to €30.0 million due to restructuring costs incurred in the period offsetting lower employee cost driven by cost saving initiatives and a shift in headcount base to lower cost countries.
- Sales and marketing expenses are down €0.7 million or 30.2% to €1.5 million due to lower staff cost and the inclusion of one-off restructuring costs in the six-month period to 30 June 2024.
- General and administrative expenses are down €1.4 million or 16.7% to €7.2 million due to favourable FX combined with lower insurance cost and share option charges.
- The loss after tax for the six-month period ended 30 June 2025 is €1.3 million, a €4.0 million (76.4%) improvement on the loss after tax of €5.3 million for the six-month period ended 30 June 2024. The result for the six-month period to 30 June 2024 is stated net of a tax credit arising on the loss of €0.6 million.
- A basic loss per share of 0.37 cents (euro) for the six-month period ended 30 June 2025 compares to a basic loss per share of 1.57 cents (euro) for the six-month period ended 30 June 2024.

DIRECTORS' REPORT
for the six-month period ended 30 June 2025

2. PRINCIPAL ACTIVITIES AND REVIEW OF THE DEVELOPMENT AND PERFORMANCE OF THE BUSINESS DURING THE FINANCIAL PERIOD (continued)

The condensed consolidated statement of comprehensive income for the six-month period ended 30 June 2025 and the condensed consolidated statement of financial position as at that date are set out on pages 7 and 8.

Non-financial measures are also important to the Group and the Group's Environmental, Social and Governance Report is set out on pages 4 to 12 of the Group's Annual Report for the year ended 31 December 2024.

3. CHANGES IN THE STATE OF AFFAIRS

The Group generated net positive flows of €15.1 million during the period leading to closing cash reserves of €34.9 million as at 30 June 2025 compared to €19.8 million as at 31 December 2024. The Group had no external debt as at 30 June 2025.

Equity decreased by €11.0 million from €164.5 million to €153.5 million during the period with the significant movements being:

- Loss for the period of €1.3 million
- Debit of €9.9 million to foreign exchange reserve
- Increase in share option reserve of €0.2 million

Apart from the increase in cash reserves of €15.1 million noted above, other key movements in assets contributing to an increase in total assets of €8.1 million, from €197.8 million to €205.9 million were:

- A net decrease of €5.1 million in intangible assets reflecting amortisation of €13.8 million largely offsetting capitalised internal development expenditure of €14.4 million, and capitalised contract costs of €0.4 million. The movement also reflects a €6.1 million decrease arising from the exchange rate movements on USD denominated intangible assets.
- A decrease of €1.0 million in trade receivables mainly due to higher collections from customers in 1H25 versus 2H24.
- A decrease in prepayments of €0.3 million influenced by the timing of contract renewals for insurance and software licensing/maintenance.

Total liabilities increased by €19.1 million from €33.3 million to €52.4 million during the period with the significant movements being:

- An increase of €18.6 million in deferred revenue due to the timing of issue of subscription invoices (predominantly 1H).
- An increase of €0.8 million in accruals influenced by the timing of holiday leave take-up by employees and bonus payments.
- An increase of €0.5 million in trade payables due to the timing of contract renewals for software licensing and invoice payments.

FINEOS CORPORATION HOLDINGS PLC

DIRECTORS' REPORT for the six-month period ended 30 June 2025

3. CHANGES IN THE STATE OF AFFAIRS (continued)

- A decrease in the lease liability of €0.5 million due to repayments of €0.7 million partially offset by interest charges of €0.1 million and additions of €0.1 million during the period.
- A decrease in the research and development tax credit of €0.3 million due to a reduction in research and development costs qualifying for tax credit on account of the transition of products to market and a change in qualifying criteria.

4. EVENTS SUBSEQUENT TO THE PERIOD END

There are no events subsequent to the period end that would require disclosure in or adjustment to the condensed consolidated interim financial statements.

5. LIKELY DEVELOPMENTS AND OUTLOOK

The business continues to be on a solid footing with several larger clients in the process of migrating books of business to the FINEOS Platform. We continue to be optimistic and positive about our outlook and growth prospects for FY25 and beyond and reiterate our expectation to achieve positive free cash flow in FY25 in aggregate.

Growth expectations in FY25 remain on track to enable FINEOS to increase recurring revenues to 65% or better in FY27 and to 75% or better in FY29; increase Gross Margin to 75% in FY27 and 80% in FY29; and increase EBITDA to 25% in FY27 and 40% in FY29. R&D investment as a percentage of total revenue is anticipated to decrease to 30% in FY27 and decrease to 25% in FY29.

We are on track for the successful delivery of several key projects as we continue to replace legacy systems with several clients.

New business pipeline continues to remain solid and we are confident of continuing to win new business and growing our revenues. In 2Q25 we contracted an order for a major on-premises migration to the cloud and also contracted with two new North America based clients.

We will continue our strategy of driving operational efficiencies and, as a result, our FY25 total cost growth is anticipated to be marginal, allowing for further margin expansion.

While business performance is solid and we are within our forecast on a constant currency basis, we are experiencing FX losses so as a cautionary step we are forecasting to come in at the lower end of our FY25 Revenue Forecast in Euro. Of course, a lower \$US also has a positive impact on our US cost base so we continue to be confident FY25 will be positive free cash flow in aggregate.

The Group manages its operations as a single business operation and there are no parts of the Group that qualify as operating segments. The Board assesses the financial performance of the Group on an integrated basis only and accordingly, the Group is managed on the basis of a single segment.

Contract assets and contract liabilities

Contract assets

Contract assets are disclosed separately as unbilled receivables in Trade and other receivables amounting to €414,311 (31 December 2024: €517,753) (see Note 9).

Contract liabilities

Contract liabilities are disclosed separately as deferred revenue in Trade and other payables amounting to €33,352,844 (31 December 2024: €14,727,240) (see Note 10). The Group is availing of the practical expedient which exempts the disclosure of unsatisfied performance obligations to date since both of the following criteria are met:

- the performance obligations are part of contracts which have an original expected duration of one year or less; and
- the Group recognises revenue from the satisfaction of the performance obligations which have been completed to date and to which the Group has a right to invoice.

Reservation of title

Certain trade payables purport to claim a reservation of title clause for goods supplied. Since the extent to which these payables are secured at any time depends on a number of conditions, the validity of some of which is not readily determinable, it is not possible to indicate how much of the above was effectively secured.

Accruals

The terms of the accruals are based on underlying invoices.

Taxes and social welfare costs

Taxes and social welfare costs are subject to the terms of the relevant legislation. Interest accrues on late payments. No interest was due at the financial year end date.

Conclusion

We have reviewed the condensed set of consolidated financial statements in the interim financial report of FINEOS Corporation Holdings plc for the six months ended 30 June 2025, which comprises the condensed consolidated statement of financial position as at 30 June 2025, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the interim period ended on that date, and the related explanatory notes.

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements of FINEOS Corporation Holdings plc for the six-month period ended 30 June 2025, does not give a true and fair view of the financial position of the group as at 30 June 2025 and of its financial performance and cashflows for the six month period then ended in accordance with IAS 34 Interim Financial Reporting as adopted by the EU.

Basis for Conclusion

We conducted our review in accordance with International Standard on Review Engagements 2410 (Ireland), 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

As disclosed in note 2, the annual financial statements of the group are prepared in accordance with IFRS Accounting Standards as adopted by the EU. The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as adopted by the EU.

Conclusions Relating to Going Concern

Based on our review procedures, which are less extensive than those performed in an audit as described in the Basis for Conclusion section of this report, nothing has come to our attention to suggest that management have inappropriately adopted the going concern basis of accounting or that management have identified material uncertainties relating to going concern that are not appropriately disclosed.

This conclusion is based on the review procedures performed in accordance with ISRE (Ireland) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", however future events or conditions may cause the entity to cease to continue as a going concern.
