*The Australian Accounting Standards and ASX Listing Rules require the Company's pre-tax NTA to be calculated based on the market price (or share price) of the underlying investment portfolio. The Company's look-through pre-tax NTA is an estimation of the Company's pre-tax NTA calculated using the estimated or most recently available pre-tax NTA of the underlying investment portfolio as at the end of the month where available. The look-through pre-tax NTA of the Company is indicative only and provides an estimate for investors of the value of the underlying investment portfolio, assuming the share price discount to NTA of the underlying discounted asset opportunities are closed.
