It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### **Forward-looking statements**

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown

risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

### **Overseas shareholders**

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Loyalty Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Loyalty Options will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

For further information on overseas Shareholders please refer to Section 2.9.

### **Continuous disclosure obligations**

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Loyalty Options offered under this Prospectus.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they

arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

### **Target Market Determination**

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Loyalty Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website ([www.bayanminerals.com.au](http://www.bayanminerals.com.au)). By making an application under the Offer, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.

If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian or New Zealand resident and must only access this Prospectus from within Australia or New Zealand.

The Corporations Act prohibits any person passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus, or it accompanies the complete and unaltered version of this Prospectus. The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

### **Company Website**

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

### **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

### **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring

stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Loyalty Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

### **Definitions and Time**

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 8.

All references to time in this Prospectus are references to Australian Western Standard Time.

### **Privacy statement**

The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Loyalty Options, the Company may not be able to accept or process your application.

### 1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Loyalty Options involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Loyalty Options may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

#### 1.4 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

DIRECTOR	SHARES	OPTIONS	LOYALTY OPTIONS ENTITLEMENT	\$	PERCENTAGE (%) FULL SUBSCRIPTION, FULLY DILUTED
<b>Agha Pervez</b>	7,755,319	2,627,659	1,938,829	\$1,939	6.49%
<b>Fadi Diab</b>	4,422,659	1,063,830	1,105,664	\$1,106	3.47%
<b>Rafael Moreno</b>	Nil	Nil	Nil	Nil	Nil

The Board recommends all Shareholders take up their Entitlements. The Board advises that all Directors intend to take up their full Entitlements.

#### 1.5 Details of Substantial Holders

As at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

HOLDER	SHARES	OPTIONS	LOYALTY OPTIONS ENTITLEMENT	\$	PERCENTAGE (%) FULL SUBSCRIPTION, FULLY DILUTED
<b>David Pevcic</b>	11,394,567	3,650,000	2,848,641	\$2,849	9.42%
<b>Bilal Ahmad</b>	8,446,339	3,478,723	2,111,584	\$2,112	7.39%
<b>Agha Pervez</b>	7,755,319	2,627,659	1,938,829	\$1,939	6.49%

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offer. However, the number of Options held by the substantial holders and their fully diluted percentage interest in the Company would each increase as a result.

#### 1.6 Effect on Control

Based on current shareholding and Entitlements of Shareholders (including substantial Shareholders) as at the date of this Prospectus, the Offer will not have any material impact on control of the Company because there are no Shares being offered under the Offer. Further there will be no immediate change to any Shareholder's voting power as a result of the issue of the Loyalty Options. However, where Loyalty Options are exercised into Shares, the voting power of the Shareholders who exercise the Loyalty Options will increase. The likelihood of Loyalty Options being exercised is dependent on the price of Shares from time to time until the Loyalty Options expire.

A substantial holder noted in Section 1.5, would be prevented from exercising the Loyalty Options if doing so would be in contravention of section 606 of the Corporations Act.

#### 1.7 Potential dilution on non-participating Shareholders

Shareholders should note that no immediate dilution will occur as a result of the issue of Loyalty Options under this Prospectus. However subsequent exercise of any or all of the Loyalty Options will result in dilution. Assuming all Loyalty Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer are likely to be diluted by an aggregate of approximately 20% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

## 2. DETAILS OF THE OFFER

### 2.1 The Offer

The Offer is being made as a pro-rata non-renounceable entitlement offer to acquire one (1) Loyalty Option for every four (4) Shares held by Shareholders registered at the Record Date.

Each Loyalty Option issued under the Offer shall be exercisable at \$0.075 on or before 6 December 2027 and otherwise on the terms and conditions set out in Section 4.2.

Based on the capital structure of the Company as at the date of this Prospectus, (and assuming no Shares are issued prior to the Record Date (including on exercise or conversion of Securities on issue) approximately 33,319,157 Loyalty Options will be issued pursuant to the Offer at an issue price of \$0.001 per Loyalty Option, raising \$33,319. Further, if all Loyalty Options issued under the Offer are exercised, the Company will receive approximately \$2,498,937.

Fractional entitlements will be rounded down to the nearest whole number. All references to numbers of Loyalty Options to be issued pursuant to this Prospectus are expressed subject to rounding.

As at the date of this Prospectus the Company has 23,371,224 Options on issue that may be exercised prior to the Record Date in order to participate in the Offer. Please refer to Section 3.4 for information on the exercise prices and expiry dates of the Options on issue.

All of the Shares issued upon the future exercise of the Loyalty Options offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares.

The Company will apply for Official Quotation of the Loyalty Option and the 10,630,000 BMMAL Options currently on issue as at the date of this Prospectus following the completion of the Offer.

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Loyalty Options which is covered in full by your application monies; and

- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Options (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (WST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

**Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any application in respect of your remaining Shareholdings will not be valid).

(b) **By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Loyalty Options which is covered in full by your application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Options (if any) under the Shortfall Offer, to the extent of the excess.

(c) **By Cheque**

Payment by cheque or cash will not be accepted.

**2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, the application may not be varied or withdrawn except as required by law.

**2.5 Minimum subscription**

There is no minimum subscription.

**2.6 Shortfall Offer**

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer (**Shortfall Options**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Loyalty Option to be issued under the Shortfall Offer shall be \$0.001 being the price at which Loyalty Options have been offered under the Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Loyalty Options proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for Loyalty Options above their Entitlement are invited to apply for Shortfall Options under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Options in accordance with Sections 2.3.

The Board presently intends to allocate Shortfall Options as follows:

- (a) to Eligible Shareholders who apply for an excess of their full Entitlement; and then
- (b) to other parties identified by the Directors, which may include parties who are not currently Shareholders.

The Company reserves the right to issue an Eligible Shareholder a lesser number of Shortfall Options than applied for or no Shortfall Options at all. However, the Directors do not intend to refuse an application for Shortfall Options from Eligible Shareholders other than in circumstances of oversubscription or where acceptance may result in a breach of the Corporations Act. If the number of Shortfall Options applied for by Eligible Shareholders exceeds the total Shortfall, the Shortfall Options will be allocated among applying Eligible Shareholders proportionate to their existing holdings.

All decisions regarding the allocation of Shortfall Options will be made by the Directors and will be final and binding on all applicants under the Shortfall Offer, as such there is no guarantee that any Shortfall Options applied for will be issued to Eligible Shareholders.

The Company will have no liability to any applicant who receives less than the number of Shortfall Options they applied for under the Shortfall Offer. If the Company scales back any applications for Shortfall Options under the Shortfall Offer any application monies will be returned (without interest) as soon as practicable.

## **2.7 ASX listing**

Application for Official Quotation of the Loyalty Options will be made in accordance with the timetable set out at Section 1.1. If ASX does not grant Official Quotation of the Loyalty Options before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Loyalty Options and will repay all application monies for the Loyalty Options within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Loyalty Options is not to be taken in any way as an indication of the merits of the Company or the Loyalty Options now offered for subscription.

## **2.8 Issue of Loyalty Options**

The Loyalty Options issued pursuant to the Offer will be issued following the Closing Date in accordance with the ASX Listing Rules and timetable set out at Section 1.1.

Shortfall Options issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Loyalty Options issued is less than the number applied for, or where no issue is made surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Loyalty Options or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account, and each Applicant waives the right to claim interest.

Holding statements for Loyalty Options issued under the Offer will be mailed as soon as practicable after the issue of the Loyalty Options and for Shortfall Options issued under the Shortfall Offer as soon as practicable after their issue.

## 2.9 Overseas shareholders

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Loyalty Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Loyalty Options will not be issued to Shareholders with a registered address which is outside Australia and New Zealand.

### **New Zealand**

The Loyalty Options are not being offered to the public within New Zealand other than to Eligible Shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

### **Nominees and custodians**

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia or New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

For personal use only

### 3. PURPOSE AND EFFECT OF THE OFFER

#### 3.1 Purpose of the Offer

As announced on 31 July 2025, the purpose of the Offer is to reward the loyalty of Shareholders and provide an opportunity for Shareholders to participate in the development of the Company and to seek to satisfy the conditions to listing the Loyalty Options as a class of listed securities.

The Company will initially raise \$33,319 through the issue of the Loyalty Options pursuant to the Offer (where all Entitlements are taken up).

The Offer will also provide the Company with a potential source of additional capital if the Loyalty Options are exercised in the future (being approximately \$2,498,937 where all Entitlements are taken up).

There is no certainty that any Loyalty Options will be exercised, and the proportion exercised will depend on the Share price relative to the exercise price during the exercise period.

#### 3.2 Objective

The Offer is being made such that the relief provided under ASIC Corporations (Sale Offer That Do Not Need Disclosure) with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Specifically, if the Loyalty Options are issued with disclosure under this Prospectus, then the Shares issued upon the exercise of any of the Loyalty Options can be on-sold within 12 months of their issue, without a disclosure document or cleansing statement for the on-sale offer.

The Company notes that there are currently 10,630,000 BMMAI Options on issue with the same terms as the Loyalty Options as at the date of this Prospectus. The Company confirms that these existing BMMAI Options have not been issued with disclosure and therefore the Shares issued upon the exercise of any of the BMMAI Options cannot be on-sold within 12 months of their issue, without a disclosure document or cleansing statement for the on-sale offer.

Subject to the Loyalty Options being quoted to trading on ASX, the Offer will also provide investors who receive the Loyalty Options the opportunity to trade those Loyalty Options on a listed, public financial market, being the financial market operated by the ASX.

#### 3.3 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted, and no Shares are issued including on exercise or conversion of other Options on issue prior to the Record Date, will be to increase the number of Options on issue from 23,371,224 as at the date of this Prospectus to 56,690,381 Options.

#### 3.4 Effect on capital structure

The effect of the Offer on the capital structure of the Company, assuming all Entitlements are accepted, and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, is set out below.

### 3.5 Pro-forma balance sheet

The expenses of the Offer are estimated to be approximately \$37,436. The Offer is not expected to have any material financial effect on the Company, as such a pro-forma balance sheet has not been prepared.

Accordingly, the financial effect of the Offer will be to decrease the Company's existing cash reserves by \$4,117.

## 4. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

### 4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares, being the underlying securities of the Loyalty Options being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

#### (a) General meeting and notices

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

#### (b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or Representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or Representative, have one vote for the Share, but in respect of partly paid Shares, shall have such number of votes being equivalent to the proportion which the amount paid (not credited) is of the total amounts paid and payable in respect of those Shares (excluding amounts credited).

#### (c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares. The Directors may rescind a decision to pay a dividend if they decide, before the payment date, that the Company's financial position no longer justifies the payment.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set a value as the liquidator considers fair upon any property to be so decided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. No member is obliged to accept any Shares, securities or other assets in respect of which there is any liability.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of Shares**

Generally, Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Loyalty Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Loyalty Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Loyalty Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Loyalty Options without exercising the Loyalty Options.

(k) **Change in exercise price**

A Loyalty Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Loyalty Option can be exercised.

(l) **Transferability**

The Loyalty Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

## 5. RISK FACTORS

### 5.1 Introduction

The Loyalty Options offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Loyalty Options may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Loyalty Options. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

### 5.2 Company specific

RISK CATEGORY	RISK
<b>Dilution</b>	<p>The Company currently has 133,276,628 Shares on issue as at the date of this Prospectus. As set out in this Prospectus, the Company is intending to issue up to 33,319,157 Loyalty Options under the Offer. No immediate dilution will occur as a result of the issue of Loyalty Options under this Prospectus. However subsequent exercise of any or all of the Loyalty Options will result in dilution. Assuming all Loyalty Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 20% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer, and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.18 is not a reliable indicator as to the potential trading price of Shares or the Loyalty Options after implementation of the Offer.</p>
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. The Company may require further financing in addition to amounts raised under the capital raising. Any additional equity financing will dilute share holdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>

RISK CATEGORY	RISK
<p><b>Exploration and operating</b></p>	<p>The mineral exploration licences comprising the Company's projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.</p> <p>There can be no assurance that future exploration of these licences, or any other mineral licences that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process, changing government regulations and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company being able to maintain title to the mineral exploration licences comprising the Company's projects and obtaining all required approvals for their contemplated activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the Company's projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the mineral exploration permits comprising the Company's projects.</p> <p>The operations of the Company may be affected by various factors that are beyond the control of the Company, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration or mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages, delays in procuring, or increases in the costs of consumables, commodities, spare parts, plant and equipment, fire, explosions and other incidents beyond the control of the Company. These risks and hazards could also result in damage to, or destruction of, facilities and equipment, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. These factors are substantially beyond the control of the Company and, if they eventuate, may have an adverse effect on the financial performance of the Company and the value of its assets.</p>
<p><b>Exploration costs</b></p>	<p>The exploration costs of the Company's projects are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the</p>

RISK CATEGORY	RISK
	Company's viability.
<b>Exploration success</b>	<p>The Company's projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are speculative and high-risk undertakings that may be impeded by circumstances and factors beyond the control of the Company. Success in this process involves, among other things:</p> <ul style="list-style-type: none"> <li>(a) discovery and proving-up, or acquiring, an economically recoverable resource or reserve;</li> <li>(b) access to adequate capital throughout the acquisition/discovery and project development phases;</li> <li>(c) securing and maintaining title to mineral exploration projects;</li> <li>(d) obtaining required development consents and approvals necessary for the acquisition, mineral exploration, development and production phases; and</li> <li>(e) accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.</li> </ul> <p>There can be no assurance that exploration of the Company's projects, or any other exploration properties that may be acquired in the future, will result in the discovery of an economic mineral resource. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.</p> <p>There is no assurance that exploration or project studies by the Company will result in the definition of an economically viable mineral deposit or that the exploration tonnage estimates and conceptual project developments discussed in this Prospectus are able to be achieved.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process and indigenous heritage factors, changing government regulations and many other factors beyond the control of the Company.</p>
<b>New projects and acquisitions</b>	<p>Although the Company's immediate focus will be on the Company's existing projects, as with most exploration entities, it will pursue and assess other new acquisition and investment opportunities in the resource sector over time that are complementary to its business.</p> <p>These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/mineral properties/permits and/or direct equity participation.</p>

RISK CATEGORY	RISK
	<p>The acquisition of projects (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Company.</p> <p>If an acquisition is completed, the Directors will need to reassess at that time, the funding allocated to the Company's existing projects and new projects, which may result in the Company reallocating funds from the existing projects and/or raising additional capital (if available). Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.</p>
<b>Renewal of Tenure</b>	<p>Mining and exploration permits are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations, including relevant reporting requirements, and such renewal is at the discretion of the relevant mining authority. Additional conditions on the Company's projects may be imposed following renewal. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p> <p>Generally, the holder of an exploration permit will have the ability to request a single renewal of the exploration permit which will be granted provided that the holder complies with the regulatory requirements (including submission of a report describing the exploration activities conducted and the technical justification for the continuation of exploration and payment of the required fee).</p> <p>Accordingly, the Company may, subject to compliance with the regulatory requirements, seek to apply for renewal of the exploration permits at the relevant time or lodge the necessary documentation to apply for conversion to a mining permit. There is a risk that the Company will not be able to comply with the relevant requirements to renew its tenure or convert the tenure into mining permits.</p> <p>The Company considers the likelihood of tenure forfeiture to be low given the laws and regulations governing exploration in the United States of America, Canada and Brazil and the ongoing expenditure budgeted for by the Company. However, the consequence of forfeiture or involuntary surrender of a granted mining license for reasons beyond the control of the Company could be significant.</p>

**5.3 Industry specific**

RISK CATEGORY	RISK
<b>Sovereign Risk - USA</b>	<p>The Company's Bayan Springs Project and Desert Star Project are located in the United States of America.</p> <p>Possible sovereign risks associated with operating in the USA include, without limitation, changes in the terms of mining legislation, changes to royalty arrangements, changes to taxation rates and concessions and changes in the ability to</p>

	<p>enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its shares.</p> <p>No assurance can be given regarding future stability in the USA or any other country in which the Company may, in the future, have an interest.</p>
<p><b>Sovereign Risk - Brazil</b></p>	<p>The Company's Pepita Project is located in Brazil and the Company will be subject to the risks associated with operating in that country, including various levels of political, economic and other risks and uncertainties. These risks and uncertainties include, but are not limited to, terrorism, hostage taking, military repression, extreme fluctuations in currency exchange rates, high rates of inflation, labour unrest, the risks of war or civil unrest, expropriation and nationalization, renegotiation or nullification of existing concessions, licences, permits and contracts, illegal mining, changes in taxation policies, restrictions on foreign exchange and repatriation and changing political conditions, currency controls and governmental regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.</p> <p>Changes, if any, in mining or investment policies or shifts in political attitude in Brazil may adversely affect the operations or profitability of the Company. Operations may be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on production, price controls, export controls, foreign currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and mine safety.</p> <p>Failure to comply strictly with applicable laws, regulations and local practices relating to mineral rights applications and tenure, could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interests.</p> <p>Outcomes in courts in Brazil may be less predictable than in Australia, which could affect the enforceability of contracts entered into by the Company or its subsidiaries in Brazil.</p> <p>The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on the operations or profitability of the Company. The Company has made its investment and strategic decisions based on the information currently available to the Directors, however, should there be any material change in the political, economic, legal and social environments in Brazil, the Directors may reassess investment decisions and commitments to assets in Brazil.</p>
<p><b>Sovereign Risk - Canada</b></p>	<p>The Company retains projects in Canada. Possible sovereign risks associated with operating in Canada include, without limitation, changes in the terms of mining legislation, changes to royalty arrangements, changes to taxation rates and concessions and changes in the ability to enforce legal rights. Any of these factors may, in the future, adversely affect the financial performance of the Company and the market price of its Shares.</p> <p>No assurance can be given regarding future stability in Canada or any other country in which the Company may, in the future, have an interest.</p>

RISK CATEGORY	RISK
<p><b>Climate risks</b></p>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <ul style="list-style-type: none"> <li>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</li> <li>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</li> </ul>
<p><b>Resource and reserves and exploration targets</b></p>	<p>The Company has identified a number of exploration targets based on geological interpretations and limited geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploratory work with the aim of defining a resource, no assurances can be given that additional exploration will result in the determination of a resource on any of the exploration targets identified. Even if a resource is identified no assurance can be provided that this can be economically extracted.</p> <p>Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate</p>
<p><b>Grant of future authorisations to explore and mine</b></p>	<p>If the Company discovers an economically viable mineral deposit that is then intends to develop, it will, among other things, require various approvals, licence and permits before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required approvals, licences and permits. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>

RISK CATEGORY	RISK
<p><b>Metallurgy risk</b></p>	<p>Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:</p> <ul style="list-style-type: none"> <li>(a) errors and other risks associated with identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;</li> <li>(b) errors and other risks associated with developing an economic process route to produce a metal and/or concentrate; and</li> <li>(c) changes in mineralogy in the minerals deposit can result in inconsistent metal recovery, affecting the economic viability of a project.</li> </ul>
<p><b>Mine Development</b></p>	<p>Possible future development of mining operations at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production on one of the Company's projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No assurance can be given that the Company will achieve commercial viability through the development of the Company's projects.</p> <p>The risks associated with the development of a mine will be considered in full should the Company's projects reach that stage and will be managed with ongoing consideration of stakeholder interests.</p>
<p><b>Regulatory Compliance</b></p>	<p>The Company's mineral exploration and planned development activities are subject to various laws governing prospecting, mining, development, production, taxes, labour standards and occupational health, mine safety, toxic substances, land use, water use and other matters. Although the Company believes that its exploration activities will be carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail exploration or development activities.</p> <p>The Company's interests in mineral tenements are subject to governmental approvals, licences and permits. The granting and enforcement of the terms of such approvals, licences and permits are, as a practical matter, subject to the discretion of the applicable governments or governmental officials. No assurance can be given that the Company will be successful in maintaining any or all of the various approvals, licences and permits in full force and effect without modification or revocation. To the extent such approvals are required and not obtained, the Company may be curtailed or prohibited from continuing or proceeding with planned exploration or</p>

	<p>development of mineral properties.</p> <p>Failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions thereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Parties such as the Company, engaged in the exploration or development of mineral properties may be required to compensate those suffering loss or damage by reason of those activities and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations.</p>

**5.4 General risks**

RISK CATEGORY	RISK
<b>Competition risk</b>	<p>The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.</p>
<b>Reliance of key personnel</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p> <p>The Company's future depends, in part, on its ability to attract and retain key personnel. It may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. Its future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.</p>
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(b) introduction of tax reform or other new legislation;</li> <li>(c) interest rates and inflation rates;</li> <li>(d) changes in investor sentiment toward particular market sectors;</li> <li>(e) the demand for, and supply of, capital; and</li> <li>(f) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future</p>

RISK CATEGORY	RISK
	<p>performance of the Company or any return on an investment in the Company.</p> <p>Applicants should be aware that there are risks associated with any securities investment. Securities listed on the stock market, and in particular securities of exploration companies experience extreme price fluctuations.</p> <p>Further, after the end of the relevant escrow periods affecting Shares in the Company, a significant sale of then tradeable Shares (or the market perception that such a sale might occur) could have an adverse effect on the Company's Share price.</p>
<p><b>Commodity price volatility and exchange rate risks</b></p>	<p>If the Company achieves success leading to mineral production, the revenue it will derive through the sale of product exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.</p> <p>Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company will be taken into account in Australian currency or the Brazilian real, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar, the Australian dollar and the Brazilian real as determined in international markets.</p>
<p><b>Government policy changes</b></p>	<p>Adverse changes in government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Brazil may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation.</p>
<p><b>Corruption and bribery laws</b></p>	<p>The Company's operations are governed by, and involve interactions with, many levels of government in Australia, Canada, the United States of America and Brazil. In recent years, there has been a general increase in both the frequency of enforcement and the severity of penalties under such laws, resulting in greater scrutiny and punishment to companies convicted of violating anti-corruption and anti-bribery laws. Furthermore, a company may be found liable for violations by not only its employees, but also by its contractors and third-party agents.</p> <p>Although the Company has adopted steps to mitigate such risks, such measures may not always be effective in ensuring that the Company, its employees, contractors or third-party agents will comply strictly with such laws. If the Company finds itself subject to an enforcement action or is found to be in violation of such laws, this may result in significant penalties, fines and/or sanctions imposed on the Company resulting in a material adverse effect on the Company's reputation and results of its operations.</p>
<p><b>Insurance</b></p>	<p>The Company insures its operations in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse</p>

RISK CATEGORY	RISK
	<p>effect on the business, financial condition and results of the Company.</p> <p>Insurance of all risks associated with mineral exploration and production is not always available and where available the costs can be prohibitive.</p>
<b>Force Majeure</b>	<p>The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.</p>
<b>Economic and other global or national issues</b>	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>
<b>Taxation</b>	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.</p>
<b>Litigation risks</b>	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.</p>

**5.5 Speculative investment**

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Loyalty Options.

Prospective investors should consider that an investment in the Company is highly speculative.

The Loyalty Options offered under this Prospectus carry no guarantee in respect of value, profitability, dividends, return of capital or the price at which the Shares and Loyalty Options (subject to satisfying ASX of the quotation requirements set out in Chapter 2 of the ASX Listing Rules) may trade on the ASX.
