Review of operations

During the 2025 reporting year, Trinex Minerals Limited (ASX: TX3) ('Trinex') has focused on its lithium exploration activities across Australia and Canada (Figure 1). The year was marked by the acquisition and exploration of high-potential lithium projects, successful geochemical surveys, and key corporate transitions. The Company's focus on critical minerals aligns with global energy transition trends, positioning Trinex as a forward-looking player in the resource sector.

Exploration Highlights

Australia

Dudley Lithium Project – Kangaroo Island, South Australia

The Dudley Lithium Project is located on the eastern end of Kangaroo Island within Exploration Licence 6892 (Figure 2). The project area hosts multiple pegmatite systems with surface expressions extending over 6 kilometres and widths up to 80 metres. These pegmatites are highly fractionated, a key indicator of lithium mineralisation potential, and have never been drill-tested.

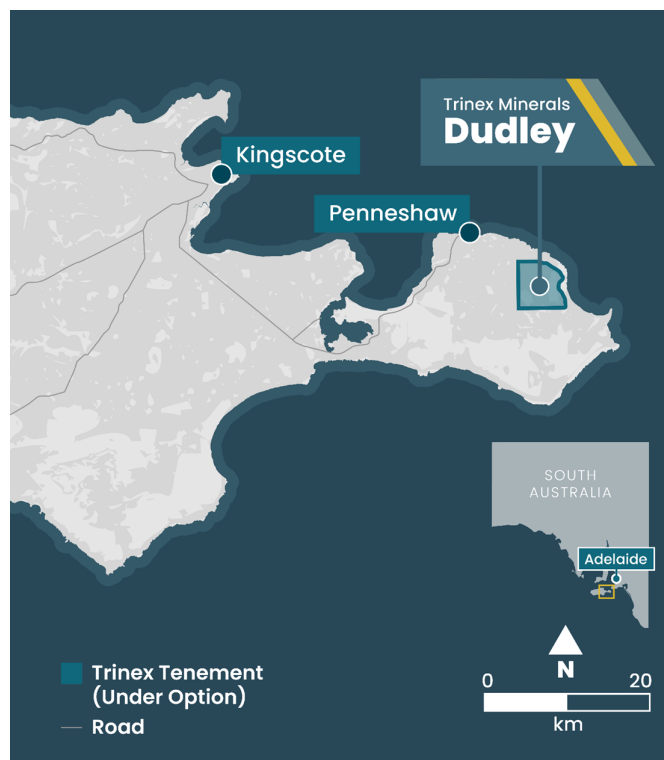

Figure 2 – Location of the Dudley Project in South Australia

For personal use only

In late 2024, the Company undertook a detailed Mobile Metal Ion (MMI) soil geochemistry program, collecting 1,200 samples across the most prospective zones. The MMI technique was selected for its sensitivity to mobile ions such as lithium (Li), rubidium (Rb), and caesium (Cs), which are typically associated with lithium-caesium-tantalum (LCT) pegmatites.

Key findings from the survey include a strong multi-element anomaly coincident with the known Dudley Pegmatite. Anomalous elements include Li, Cs, Rb, Tl, Ta, Nb, Sn, W, and Bi. See ASX release dated 9 January 2025.

Numerous additional anomalies were also identified across the tenement, many in areas with limited or no outcrop which suggests the presence of previously unidentified fractionated pegmatites. The anomalies are aligned in a NE–SW orientation, consistent with the mapped strike of pegmatites thus reinforcing the geological model.

Following the successful geochemical survey and the execution of a Landowner Access and Compensation Agreement, Trinex received statutory approval for a maiden Reverse Circulation (RC) drilling program. The program is designed to test:

- The Dudley Pegmatite at depth, targeting zones below the weathering profile (20–30m), where lithium mineralisation is expected to be preserved.
- Fourteen additional geochemical targets (T1–T14), defined by multi-element anomalism and strong pathfinder correlations.

The drilling program will be executed using contractors selected through a competitive tender process, ensuring adherence to best environmental practices. It is expected that drilling will occur during the 2025-2026 reporting period.

In addition to the acquisition of the Dudley project, the Company also applied for a large exploration tenement over other prospective pegmatites on Kangaroo Island. EL 7057 covers some 853 square kilometres across the central part of the island (Figure 3).

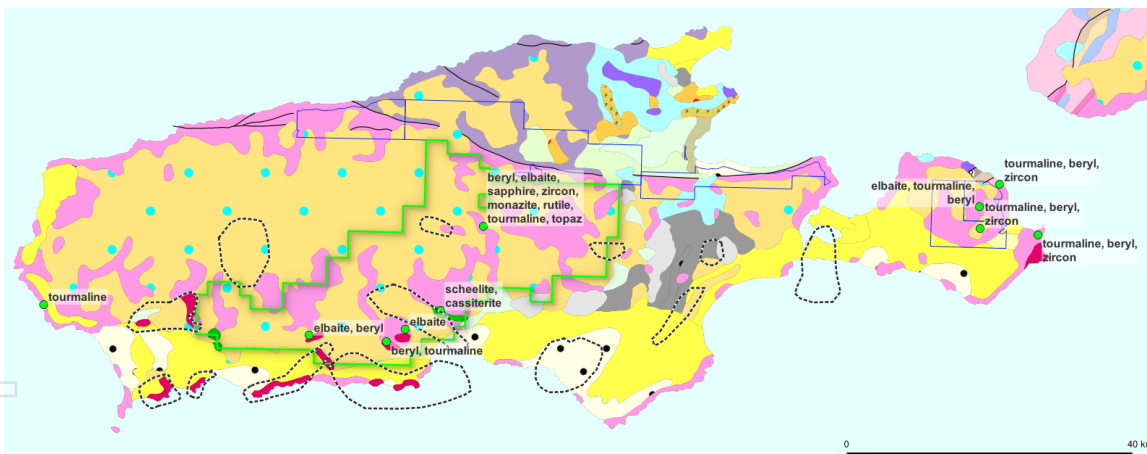

Figure 3 – EL 7057 (green polygon) with various elbaite and other pegmatite mineral occurrences (green dots), plus granites interpreted from outcrop and magnetics (black and white polygon), over 1:2m GSSA geology

Canada

Halo-Yuri Lithium Project – Northwest Territories

The Halo-Yuri Project spans approximately 450 square kilometres and comprises 37 contiguous claims. Located northeast of Yellowknife, the project benefits from logistical access via the Gahcho Kue winter road. Figure 4 shows the Company's Canadian Lithium Projects including Halo-Yuri.

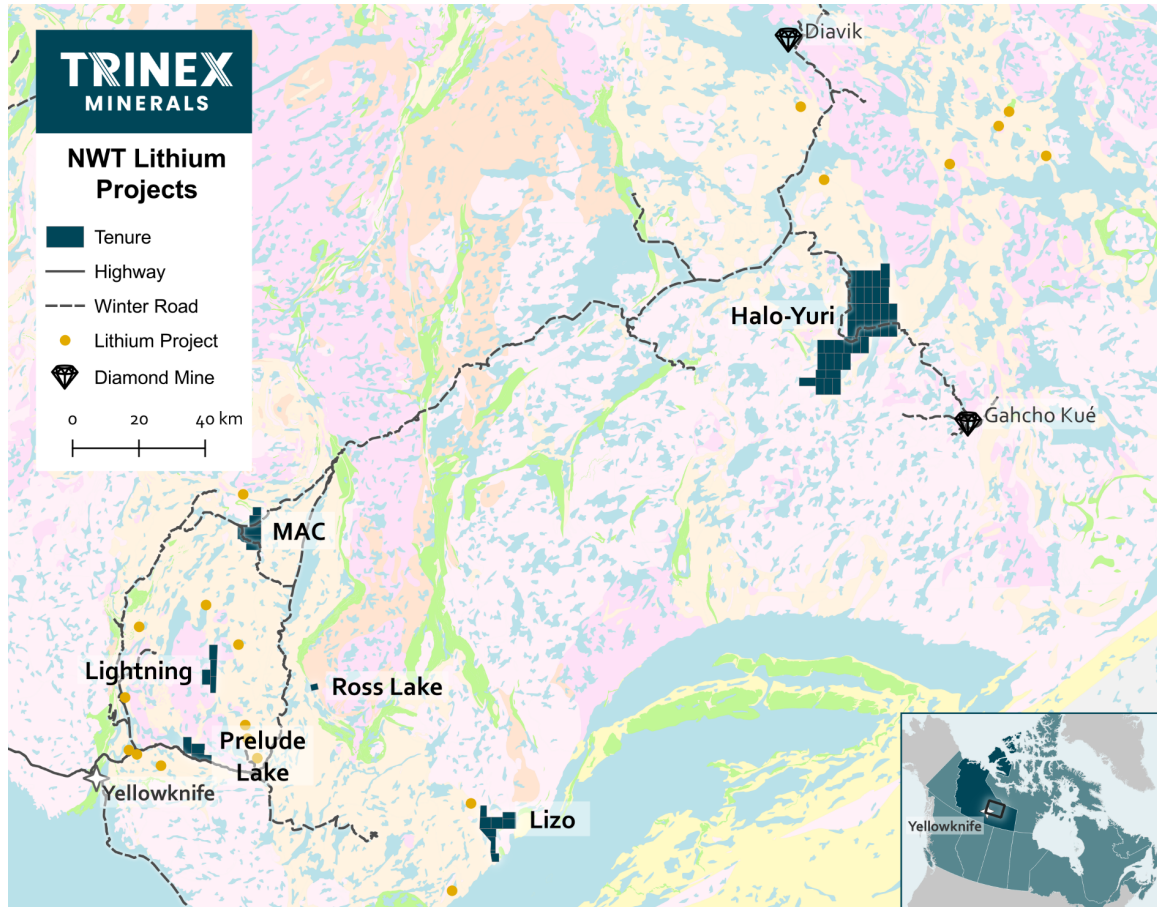

Figure 4 – Trinex Minerals Northwest Territories Lithium Projects

During the 2024 field season, Trinex conducted a three-week mapping campaign that identified spodumene bearing pegmatites across the northern half of the project (Figure 5).

The field campaign focused on sampling multiple spodumene bearing pegmatite outcrops and boulder fields and led to the discovery of three new significant prospects: Kick, Jagged, and Amber, each extending up to 3 kilometres in strike and at least 30 metres in width. In addition, the historic spodumene occurrence at OIG was confirmed. The sampling results from these prospects are shown in Figure 5. See ASX release dated 29 August 2024.

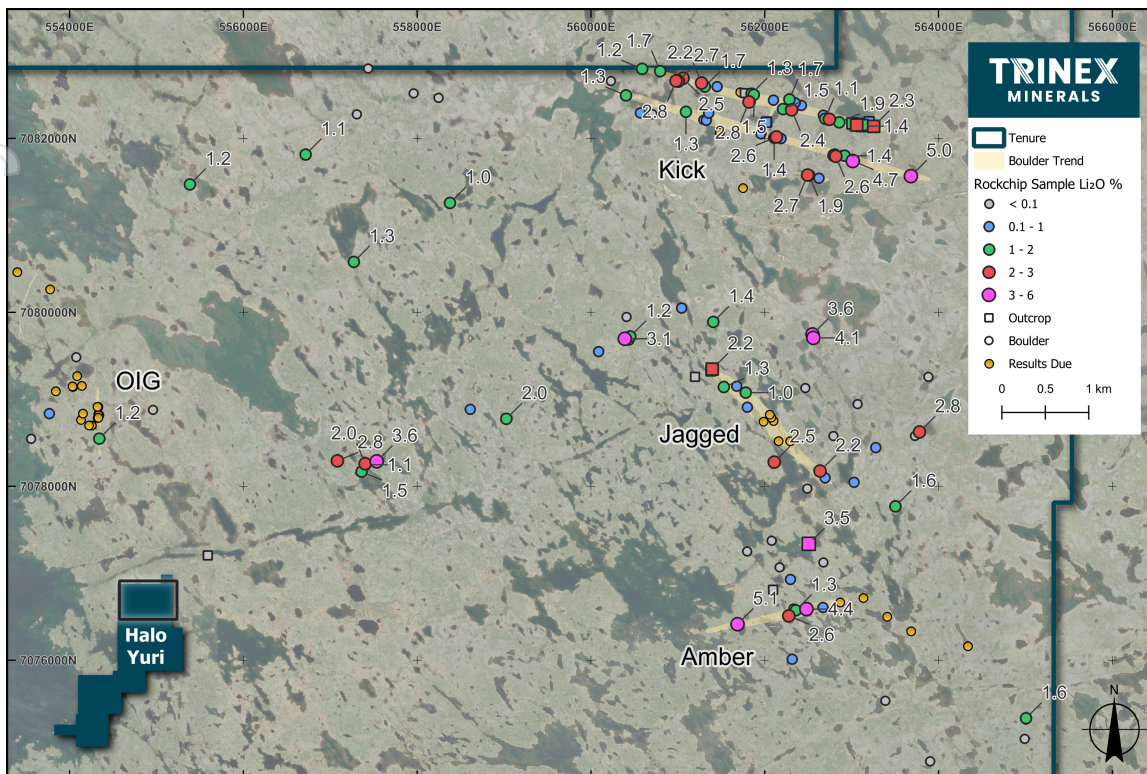

Figure 5 – Halo-Yuri northern rock chip results showing the Kick, Amber and Jagged prospects.

Out of 121 samples identified as spodumene-bearing, 111 returned lithium grades above 0.5% Li_2O . The highest assay was 5.1% Li_2O (sample AA027684). The average grade across mineralised samples was 1.7% Li_2O .

The confirmed prospects—OIG, Kick, Amber, and Jagged—are now considered walk-up drill targets. Trinex has been granted a Land Use Permit application by the Mackenzie Valley Land and Water Board, which enables drilling over a five-year period.

Further exploration upside includes the potential for additional discoveries in areas with poor outcrop visibility, as many mineralised zones were not apparent in satellite imagery due to surface vegetation. Plans to incorporate hyperspectral imaging to enhance pegmatite detection in future field campaigns.

Gibbons Creek Uranium Project – Saskatchewan Province

Trinex completed a VTEM geophysical survey at the Gibbons Creek Uranium Project in Saskatchewan, Canada. The survey identified multiple conductors and structural breaks, indicating potential drill targets. Following a strategic review, Trinex withdrew from the earn-in agreement to focus on its lithium assets.

For personal use only

Directors' report

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as 'the Group') consisting of Trinex Minerals Limited (referred to hereafter as 'the Company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2025.

Directors

The following persons were Directors of Trinex Minerals Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Geoffrey Crow (Non-Executive Chair from 26 November 2024, previously Non-Executive Director - resigned 11 July 2025)
William Dix (Managing Director)
Peretz Schapiro (Non-Executive Chair from 11 July 2025, previously Non-Executive Director - appointed 12 March 2025)
Chris Zielinski (Non-Executive Director - appointed 11 July 2025)
Su-Mei Sain (Non-Executive Director from 1 January 2025; previously Executive Director - Resigned 12 March 2025)
Edward Fry (Non-Executive Chair - resigned 26 November 2024)

Principal activities

The principal activity of the Group during the course of the financial year was mineral exploration and evaluation in Australia and Canada.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

The loss for the Group after providing for income tax amounted to \$6,884,334 (30 June 2024: \$4,927,010).

As at 30 June 2025 the Group had \$1,160,265 in cash balances (30 June 2024: \$2,803,274), and net assets of \$9,699,226 (30 June 2024: \$15,233,181).

Significant changes in the state of affairs

On 6 September 2024 Kevin Hart resigned as Joint Company Secretary, Su-Mei Sain who was also an Executive Director at the time continued as Company Secretary.

On 26 November 2024, Geoffrey Crow was appointed as Non-Executive Chair following resignation of Edward Fry.

On 1 January 2025, Su-Mei Sain transitioned to Non-Executive Director and continued as Company Secretary.

Peretz Schapiro was appointed Non-Executive Director on 12 March 2025, with Su-Mei Sain resigning as Non-Executive Director. Ms Sain continued as Company Secretary until 31 March 2025, with Ian Hobson appointed as Company Secretary from 1 April 2025.

The following options expired unexercised:

- 2,000,000 exercisable at \$0.085 each expired 28 September 2024; and
- 9,000,000 exercisable at \$0.107 each expired 1 November 2024.

On 18 December 2024, 11,000,000 options were issued to Directors (7,500,000) as approved at the annual general meeting on 26 November 2024, and employees (3,500,000). They were issued with an exercise price of \$0.0125 on or before 17 December 2027.

The Company announced on 15 May 2025 a \$1,000,000 capital raising via the issue of 4,000,000,000 fully paid ordinary shares at an issue price of \$0.00025 per share in two tranches. Tranche 1 was completed on 19 May 2025 with the issue of 284,000,000 shares raising \$71,000 before costs, Tranche 2 was subject to shareholder approval which was approved by shareholders on 25 June 2025. 3,176,000,000 shares were issued subsequent to 30 June 2025 raising \$929,000 before costs, of which \$913,125 was received in advance as at 30 June 2025.

On 26 May 2025, the Company advised that shareholder approval would be sought at General Meeting of the Company on 25 June 2025 to consolidate the issued capital of the Company at a ratio of 127:1. This was approved by shareholders and completed on 14 July 2025.

The Company announced on the 14 October 2024 that it had executed a binding agreement to acquire:

- up to a 90% interest in the highly prospective Dudley Lithium Project ('Dudley') on Kangaroo Island in South Australia, by way of a two-stage farm-in (Stage 1 - 51% and Stage 2 - an additional 39%) over approximately 4 years; and
- a 100% interest in the mineral claims comprising the East Yellowknife Lithium Project ('EYL Project') located in the Northwest Territories, Canada.

The acquisitions were subject to shareholder approval which was received at the Company's Annual General Meeting ('AGM') on 26 November 2024, which were approved.

Dudley Lithium Project Farm-in

The Group paid an initial option fee of A\$75,000 (in cash) to South Australia Lithium Pty Ltd (SALi) on execution of the Dudley Farm-In Agreement. Payment of the option fee gives an exclusive option to elect to proceed to earn the Stage 1 interest of 51%.

In addition, the Group has agreed to fund A\$86,000 of initial works at the Dudley Lithium Project up to 12 December 2024. This funding will be deemed to have been spent and contributed towards satisfying the Stage 1a minimum expenditure referred to below.

Payment	Timing	Cash payment	Payment in shares (to the value of)	Minimum expenditure
Option fee	Execution of farm-in agreement	\$75,000 (paid)	n/a	\$86,000 (up to 12 December 2024)
Stage 1a	After election to proceed to Stage 1 (estimated to be around January 2025)	\$37,500 (paid)	\$100,000 (paid)	\$350,000 (in aggregate by around January 2026)
Stage 1b	1 year after election to proceed to Stage 1 (estimated to be around January 2025)	\$37,500	\$100,000	\$700,000 (in aggregate by around January 2027)
Stage 2	After election to proceed to Stage 2 (estimated to be around February 2027)	\$150,000	\$200,000	\$1,050,000 (in aggregate by February 2028) \$1,400,000 (in aggregate by February 2029)
Total		\$300,000	\$400,000	\$1,400,000 (in aggregate)

The issue of Shares under the various stages of the farm-in is subject to shareholder approval and all shares will be issued at the higher of the 10-day VWAP of shares on ASX up to the end of the business day before issue, and \$0.002 ("floor price"). If shareholder approval is not obtained for the issue of shares to SALi, such payments may be satisfied in cash.

On 9 January 2025 it was announced that the Group elected to proceed with Stage 1 of farm-in on the Project, the Stage1A cash payment of \$37,500 was issued along with 50,000,000 fully paid ordinary shares at \$0.002 each.

SALi was issued 100,000,000 performance rights, which were approved at the Company AGM, at the same time that that Consideration Shares were issued at Stage 1a of the Dudley Project farm-in). The performance rights are subject to the following vesting milestones:

Tranche	Number	Milestone	Expiry date
1	50,000,000	Performance Rights shall vest and be exercisable into Shares where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 40Mt at the Dudley project with a grade of at least 1% Li ₂ O.	3 years from date of issue
2	50,000,000	Performance Rights shall vest and be exercisable into Shares where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 100Mt at the Dudley Project with a grade of at least 1% Li ₂ O.	4 years from the date of issue

The Company issued following shareholder approval at the AGM 12,500,000 Performance Rights to PAC Partners Securities Pty Ltd ("PAC Partners") in consideration for services provided in connection with the acquisition of the Dudley project. The Performance Rights were issued on 26 November 2024 in two separate transactions (of 6,250,000 Performance Rights per tranche) with the same milestones as the SALi Performance Rights described above. PAC Partners were also paid a \$15,000 cash payment.

EYL Project

The vendors of the EYL Project are DG Resource Management Ltd. (DGRM) and 507976 N.W.T. Ltd. (NWT). Aurora Geosciences Ltd (Aurora) is the legal owner of the Mineral Claims and holds the Mineral Claims on behalf of DGRM and NWT. Aurora will not receive any consideration from the Group under the transaction. Consideration payable to DRGM and NWT is:

- (a) Shares to the value of A\$100,000 (EYL Consideration Shares), the issue price of which will be the higher of the 10-day VWAP of Shares on ASX up to the end of the business day and issue date and the Floor Price (of \$0.002 per share);
- (b) a payment of CAD\$90,000 in cash; and
- (c) a combined 2% net smelter return royalty in respect of revenue generated from any future production from the EYL Project.

On 8 April 2025, 50,000,000 shares were issued to the vendors of the project, no cash payment has been made as at 30 June 2025.

There were no other significant changes in the state of affairs of the Group during the financial year.

Matters subsequent to the end of the financial year

On 2 July 2025 the Company completed the Tranche 2 of the placement announced on 15 May 2025, 3,716,000,000 fully paid ordinary shares were issued at \$0.00025 each raising \$929,000 before costs, of which \$913,125 was received as at 30 June 2025.

On 11 July 2025, Mr Geoffrey Crow resigned as Non-Executive Chairman, with Mr Chris Zielinski appointed as Non-Executive Director and current Non-Executive Director Mr Peretz Schapiro was appointed as Non-Executive Chairman.

On 14 July 2025, 50,000,000 fully paid ordinary shares were released from voluntary escrow.

On 14 July 2025, the Company completed the share consolidation approved by shareholder on 25 June 2025.

On 17 September 2025, the Company held a General Meeting of Shareholders where all resolutions were passed.

No other matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Likely developments and expected results of operations

Information on likely developments in the operations of the Group and the expected results of operations have not been included in this report because the Directors believe it would be likely to result in unreasonable prejudice to the Group.

The Group will continue to explore its nickel assets in Western Australia and develop its Northern Territory exploration portfolio.

Business Risks

The Group is engaged in mineral exploration activities which, by their very nature, are speculative. Due to the high-risk nature of the Group's business and the present stage of the various projects, the Board is unable to provide certainty of the expected results of these activities, or that any or all of these likely activities will be achieved. Some of the key risks which the Group is subject to are summarised below.

Exploration and development risks

Mineral exploration and development is a speculative and high-risk undertaking that may be impeded by circumstances and factors beyond the control of the Group. As the Group is an exploration company, there can be no assurance that exploration on the Projects, or any other exploration tenure that may be acquired in the future, will result in the discovery of an economic mineral resource. Even if an apparently viable mineral resource is identified, there is no guarantee that it can be economically exploited.

The Group has successfully delineated an inferred resource at its Mt Hardy Project, that resource estimate is an expression of judgment based on knowledge, experience and industry practice. By their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. If the Group undertakes scoping, pre-feasibility, definitive feasibility and bankable feasibility studies that confirm the economic viability of a Project, there is still no guarantee that the Project will be successfully brought into production as assumed or within the estimated parameters in the study (e.g. operational costs and commodity prices) once production commences.

Land access and compensation

There is a substantial level of regulation and restriction on the ability of exploration and mining companies to gain access to land in Australia and Canada. Negotiations with both Native Title and First Nations parties and land owners/occupiers are generally required before the Group can access land for exploration or mining activities. Any delay in obtaining agreement in respect of compensation due to landholders whose land comprises the Tenements may adversely impact or delay the Group's ability to carry out exploration or mining activities on its Tenements.

Native Title and Aboriginal Heritage

Australia

Where Native Title does or may exist over any of the Group's Tenements, the ability of the Group to convert such Tenement or part thereof into a valid mining lease (for example in the event of the Group making a discovery) will be subject to the Group reaching a commercial agreement with the holders of or applicants for Native Title or on the Group obtaining a determination from the National Native Title Tribunal that the mining lease be granted in the absence of such an agreement. The negotiation of such a commercial agreement or proceedings in the courts could materially delay the grant of such a mining lease and substantially add to the Group's costs; failure to reach such an agreement could result in the Group being unable to obtain a mining lease.

Irrespective of whether Native Title exists on the relevant areas, in order to conduct exploration activities on the Tenements, the Group will usually need to undertake clearance activities in conjunction with the appropriate Aboriginal parties, anthropologists and archaeologists to ascertain whether any sites of significance to Aboriginal parties exist in the relevant areas. Undertaking and completing such site clearance procedures can cause delays to the implementation of exploration activities. Delays in completing such clearance activities can impede or prevent the Group from satisfying the minimum expenditure conditions on the relevant Tenements, with the result that the Group may in some instances need to seek whole or partial exemptions from expenditure under the relevant Mining Act in order to keep the relevant Tenements in good standing. There is no certainty that such exemptions will be granted in all instances.

Where such significant sites do exist, the Group's ability to conduct exploration on those areas may be subject to obtaining relevant consents under the Aboriginal Heritage laws.

Canada

Native or aboriginal peoples claims as well as related consultation issues may impact the Group's ability to pursue exploration, development and mining at its Northwest Territories and Saskatchewan Claims.

Pursuant to historical treaties, First Nations bands ceded title to most traditional lands in the regions that the Group has claims, in exchange for treaty benefits and reserve lands, but continue to assert title to the minerals within the lands. Managing relations with local First Nations bands is a matter of paramount importance to the Group.

The Claims may be subject to a claim by native or aboriginal peoples pursuant to treaty rights or otherwise. The Group gives no assurances as to the validity or potential success of any such claims or the manner in which they may affect the Claims. Moreover, there can be no assurances that title claims as well as related consultation issues will not arise on or with respect to the Group's properties in the future.

Title and tenure

Australia

Interests in tenements are held in Western Australia, Northern Territory and South Australia. The Group is subject to the Mining Act of each state, and has an obligation to meet the conditions that apply to the granted Tenements, including payment of rent and prescribed annual expenditure commitments.

Exploration licences are subject to annual review and periodic renewal. The renewal of the term of a granted exploration licence is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the licences comprising the Group's Projects. While it is the Group's intention to satisfy the conditions that apply to the Tenements, there can be no guarantees that, in the future, the Tenements that are subject to renewal will be renewed or that minimum expenditure and other conditions that apply to the Tenements will be satisfied.

Canada

Interests in claims are held in the Northwest Territories and Saskatchewan. Each Claim is granted pursuant to the statutes and regulations of the Province and the Dominion of Canada which, among other things, permit the Crown to cancel it if the holder of the Crown mineral claim fails to comply with the provisions thereof or a provision of the applicable statutes or regulations.

The Group's field activities, and the exploration and drilling programs on its Projects, will require licences and permits from various governmental and nongovernmental authorities. The Group has obtained, or will obtain, all necessary licences and permits required to carry on with activities which it is currently conducting or which it proposes to conduct under applicable laws and regulations. However, such licences and permits are subject to changes in regulations and in various operating circumstances. There can be no assurance that the Group will be able to obtain all necessary licences and permits required to carry out exploration, development and mining operations on its Projects. The required licenses and permits may not be received until after the required start date to commence the Canadian exploration and drilling season, in which case the Group will only be able to carry out non-field activities in this season.

Although the Group believes it has taken reasonable measures to ensure proper title to its properties, there is no guarantee that title to its properties will not be challenged or impaired. Maintenance of the Group's interests in its Claims is subject to ongoing compliance with the terms governing its Claims. Under Northwest Territories and Saskatchewan law, the Company is required to make certain payments and take certain actions in order to keep its Claims in good standing. If the Company defaults with respect to making payments or completing assessment work as required, the Company may lose its rights to the properties underlying its Claims.

The Claims do not grant a right to enter upon or use the surface of the mineral properties. Additional amounts may have to be paid to surface rights owners in connection with any development of mining activity.

Changes in Government Policy

Adverse changes in government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Group. It is possible that the current system of exploration and mine permitting in Australia or Canada may change, resulting in impairment of rights and possibly, expropriation of the Group's properties without adequate compensation.

New projects and acquisitions

The Group intends to actively pursue and assess new business opportunities in the resources sector. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, and/or direct equity participation.

The acquisition of projects (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence or prior to the completion of comprehensive due diligence.

There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies advanced may not be recoverable, which may have a material adverse effect on the Group. Notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.

Additional requirements for capital

Additional funding may be required if exploration costs exceed the Group's estimates and will be required once those funds are depleted. To effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur, additional equity or other finance may be required. The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements, royalty streaming or other means, in future.

Failure to obtain sufficient financing for the Group's activities may result in delay and indefinite postponement of exploration, development or production on the Group's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Group and might involve substantial dilution to Shareholders.

Environmental regulation

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulation with respect to the rehabilitation of areas disturbed during the course of its exploration activities. However, the Board believes that the Group has adequate systems in place for the management of its environmental requirements and is not aware of any breach of those environmental requirements as they apply to the Group.

Information on Directors

Name:	Geoffrey Crow
Title:	<i>Non-Executive Chair from 26 November 2024 previously Non-Executive Director - resigned 11 July 2025</i>
Experience and expertise:	Mr Crow has more than 29 years' experience in all aspects of corporate finance, stockbroking and investor relations in Australia and international markets and has owned and operated his own businesses in these areas for the last seventeen years.
Other current directorships:	n/a
Former directorships (last 3 years):	n/a
Interests in shares:	n/a
Interests in options:	n/a

Name: **Peretz Schapiro**
 Title: *Non-Executive Chair* (appointed 12 March 2025 previously Non-Executive Director until 11 July 2025)
 Qualifications: Master's degree in Applied Finance
 Experience and expertise: Peretz Schapiro is an experienced investor and public company director with a focus on the resources sector, known for his strong investor network and expertise in building high-growth businesses.

He holds a Master's degree in Applied Finance and brings a diverse professional background in corporate finance, resource exploration, management consulting, marketing, and financing.

Mr. Schapiro is the founding Chairman of Loyal Metals (ASX:LLM), Executive Director of Breakthrough Minerals (ASX:BTM), and has served as a director for several other ASX-listed companies.

Other current directorships: Non-Executive Chair of Loyal Metals Ltd (ASX:LLM) since Director of Snow Lake Resources (NASDAQ:LITM) since January 2023 Executive Director of Breakthrough Minerals Limited (ASX:BTM) since 21 October 2024
 Former directorships (last 3 years): Non-Executive Director/Executive Director of Asra Minerals Limited (was Torian Resources Limited) (ASX:ASR) appointed March 2020 resigned November 2022 Chairman of Summit Minerals Ltd (ASX:SUM) appointed August 2022 resigned December 2024
 Interests in shares: 314,961 (post consolidation)
 Interests in options: Nil

Name: **William Dix**
 Title: *Managing Director*
 Qualifications: BSc, MSc, MAusIMM
 Experience and expertise: Mr Dix is a geologist with 25 years' experience in base metal, gold and uranium exploration and mining. Earlier in his career, he spent seven years with the highly successful international nickel producer LionOre Mining International in a variety of exploration, mining and management roles. During his time with LionOre, Mr Dix was part of the team that discovered the Waterloo Nickel Mine and delineated the two million ounce Thunderbox Gold Project in Western Australia. He remained with LionOre until its US\$4.8 billion takeover by Norilsk Nickel in 2007.

He has a proven track record of successful project and team management and also has extensive experience in commercial activities including capital raisings, mergers, acquisitions and divestments.

Mr Dix holds a Bachelor of Science with double major in Geology and Geophysics and a Master of Science in Geology from Monash University and is a member of AusIMM.

Other current directorships: Non-Executive Director of Stellar Metals Ltd (ASX:SLB) since 12 November 2021 Non-Executive Director of Breakthrough Minerals Limited (ASX:BTM) since 21 October 2024
 Former directorships (last 3 years): None
 Interests in shares: 1,189,910 (post share consolidation)
 Interests in options: 39,370 unlisted exercisable at \$1.397 on or before 21 December 2026 (post consolidation)
 23,622 unlisted exercisable at \$1.6002 on or before 17 December 2027 (post consolidation)
 Interests in performance rights: 472,440 (post share consolidation)

Name: **Chris Zielinski**
Title: *Non-Executive Director - appointed 11 July 2025*
Qualifications: Bachelor of Laws and Bachelor of Commerce (Finance) from Notre Dame University
Experience and expertise: Mr Zielinski is an experienced corporate lawyer and director of Nova Legal, a Perth based corporate law firm. Mr Zielinski has a wide range of experience in all forms of corporate and commercial law, with a focus on mergers and acquisitions, equity capital markets, regulatory compliance and commercial transactions – particularly in the resources and technology sectors in the ASX listed environment.

Mr Zielinski is a Member of the Australian Institute of Company Directors (AICD) and an Associate of the Governance Institute of Australia (GIA).

Other current directorships: Non-Executive Director of Omnia Metals Group Limited (ASX:OM1) since May 2021
Non-Executive Director of Earths Energy Limited (ASX:EE1) since May 2025
Non-Executive Director of Green Critical Minerals Limited (ASX:GCM) since March 2023
Former directorships (last 3 years): Condor Energy Limited (formerly known as Global Oil & Gas Limited) (ASX:CND) resigned December 2023
Interests in shares: Nil
Interests in options: Nil

Name: **Su-Mei Sain**
Title: *Non-Executive Director - resigned 12 March 2025 (previously Executive Director until 1 January 2025)*
Company Secretary - resigned 31 March 2025
Qualifications: Bachelor of Commerce (Major in Accounting and Finance), CPA.
Experience and expertise: Ms Sain is a Certified Practising Accountant with more than 20 years of experience and has held senior executive roles for the last 10 years. Much of Ms Sain's experience has been gained within the mining resources industries, as well as biotech, retail, agriculture and carbon.
Other current directorships: n/a
Former directorships (last 3 years): n/a
Interests in shares: n/a
Interests in options: n/a

Name: **Edward Fry**
Title: *Non-Executive Chair - resigned 26 November 2024*
Experience and expertise: Mr Fry has extensive experience within the Australian resource sector and is a specialist in Indigenous and Native Title issues. He holds a Diploma in Business Management from the University of South Australia and is a graduate of the International Lead and Zinc Study Group conducted out of Belgium on international base metal global supply and demand trade.

Based in Adelaide, Mr Fry is a former director of TNG Limited. He is an Executive Director of Gimbulki Resources Pty Ltd, a Native Title land access company he established in 2002 which has provided consulting services to a range of Australian exploration and mining companies including Rio Tinto, Barrick Gold, and Transfield Services.

During his career he also held senior executive roles with Normandy Mining Limited ('Normandy'), where he established the company's Traditional Owner policy, and later was manager of international logistics and marketing of Normandy's base-metal portfolio.

Mr Fry is the Chairman of Indigenous Business Australia, formerly Chair of the Indigenous Land Corporation, Chair of the Indigenous Advisory Board at Ventia (formerly Broadspectrum) (since 2010), and a Deputy Chair of the Aboriginal Foundation of South Australia Inc (since 2007).

	Full Board	
	Attended	Held
Geoffrey Crow	7	7
Peretz Schapiro	1	1
William Dix	7	7
Su-Mei Sain	6	6
Edward Fry	3	3

Held: represents the number of meetings held during the time the Director held office.

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the Group, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all Directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Key management personnel remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

This report details the amount and nature of remuneration of each Key Management Personnel ("KMP").

KMP's have authority and responsibility for planning, directing and controlling the activities of the Group, including Directors of the Company and other executives. Key management personnel comprise the Directors of the Company and senior executives of the Group.

The remuneration policy is to provide a fixed remuneration component and an equity related component. The Board believes that this remuneration policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning director and executive objectives with shareholder and business objectives.

The remuneration policy, setting the terms and conditions for the executive Directors and other executives has been developed by the Board, taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

The Board policy is to remunerate Directors and senior executives at market rates for comparable companies for time, commitment and responsibilities. Due to the size of the Company, there is no Remuneration Committee so the Board determines payments to the Non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of Directors fees is subject to approval by shareholders at a General Meeting. Fees for Non-executive directors are not linked to the performance of the entity. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and may receive options if approved by shareholders.

Fixed remuneration

Fixed compensation consists of base compensation being a flat per month director's fee or person's salary as well as employer contributions to superannuation funds. Compensation levels are reviewed annually by the board through a process that considers individual, segment and overall performance of the Group. Senior executive compensation are also reviewed on promotion.

Performance linked compensation

Performance linked compensation includes long and short term incentives designed to reward key management personnel for meeting or exceeding specific objectives or as recognition for strong individual performance. Short-term incentives are provided in the form of cash bonuses or salary increases as set out in individual employment agreements.

Short-term incentive bonus

Short-term incentives are provided in the form of cash bonuses and/or salary increases. They are used to encourage and reward exceptional performance in the realisation of strategic outcomes and growth in shareholders' wealth.

Share based payments

Share based payments which are granted from time to time in for the form of options and performance rights to encourage exceptional performance in the realisation of strategic outcomes and growth in shareholders wealth. Options and performance rights are granted for no consideration and do not carry voting rights or dividend entitlements. Share based payments are valued using an appropriate pricing model. Option exercise prices are determined based on a premium over and above weighted average share price at grant date. Both the number and exercise price of options issued are at the Board's discretion. Performance rights are issued with vesting conditions determined by the Board.

Non-Executive directors

Non-Executive directors receive fixed remuneration being a flat per month director's fee and variable remuneration being long term incentives that may be issued from time to time. The maximum aggregate amount of fees that can be paid to Non-Executive directors is subject to approval by shareholders. The annual aggregate amount of remuneration paid to Non-Executive directors of \$500,000 was approved by shareholders when the Company listed on 4 April 2017.

Directors and executives may also receive either a salary plus superannuation guarantee contributions as required by law, or provide their services via a consultancy arrangement. Directors and executives do not receive any retirement benefits except as stated. Individuals may, however, choose to sacrifice part of their salary to increase payments towards superannuation.

Use of remuneration consultants

During the financial year ended 30 June 2025, the Group did not engage any remuneration consultants.

Voting and comments made at the Company's Annual General Meeting ('AGM')

At the 2024 AGM, held on 26 November 2024, 90% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2024. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

Key management personnel remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the Group are set out in the following tables.

The key management personnel of the Group consisted of the following Directors of Trinex Minerals Limited:

- Geoffrey Crow (Non-Executive Chair from 26 November 2024, previously Non-Executive Director)
- William Dix (Managing Director)
- Peretz Schapiro (Non-Executive Director - appointed 12 March 2025)
- Su-Mei Sain (Non-Executive Director from 1 January 2025; previously Executive Director - Resigned 12 March 2025)
- Edward Fry (Non-Executive Chair - resigned 26 November 2024)

	Short-term benefits			Post-employment benefits	Long-term benefits	Share-based payments	Total
	Cash salary and fees	Cash bonus	Non-monetary	Super-annuation	Annual leave accrued	Equity-settled	
30 June 2025	\$	\$	\$	\$	\$	\$	\$
<i>Non-Executive Directors:</i>							
Geoffrey Crow	60,000	-	-	-	-	1,001	61,001
Peretz Schapiro	11,667	-	-	-	-	-	11,667
Edward Fry	33,333	-	-	-	-	-	33,333
Su-Mei Sain*	98,750	-	-	8,411	-	2,002	109,163
<i>Executive Directors:</i>							
William Dix**	346,500	-	1,550	30,000	(14,660)	27,986	391,376
	550,250	-	1,550	38,411	(14,660)	30,989	606,540

* Ms Sain transitioned from Executive Director to Non-Executive Director from 1 January 2025 and resigned 12 March 2025. She also served as Company Secretary until 31 March 2025.

** As a cash flow management measure Mr Dix's salary was reduced by 15% from 1 December 2024 to be paid at a later date, the cash salary and fees of \$346,500 includes \$30,319 unpaid as at 30 June 2025.

	Short-term benefits			Post-employment benefits	Long-term benefits	Share-based payments	Total
	Cash salary and fees	Cash bonus	Non-monetary	Super-annuation	Annual leave accrued	Equity-settled	
30 June 2024	\$	\$	\$	\$	\$	\$	\$
<i>Non-Executive Directors:</i>							
Edward Fry	80,000	-	-	-	-	15,256	95,256
Geoffrey Crow	60,000	-	-	-	-	15,256	75,256
<i>Executive Directors:</i>							
William Dix	362,250	-	9,100	27,500	23,989	33,786	456,625
Su-Mei Sain	110,785	-	-	4,290	(1,920)	30,511	143,666
	613,035	-	9,100	31,790	22,069	94,809	770,803

The proportion of remuneration linked to performance and the fixed proportion are as follows:

Name	Fixed remuneration		Share-based payments	
	30 June 2025	30 June 2024	30 June 2025	30 June 2024
<i>Non-Executive Directors:</i>				
Geoffrey Crow	98%	80%	2%	20%
Peretz Schapiro	100%	-	-	-
Su-Mei Sain	98%	-	2%	-
Edward Fry	100%	84%	-	16%
<i>Executive Directors:</i>				
William Dix	93%	93%	7%	7%
Su-Mei Sain	-	79%	-	21%

Service agreements

Remuneration and other terms of employment for key management personnel are formalised in service agreements. Details of these agreements are as follows:

Name: *William Dix*
 Title: *Managing Director*
 Term of agreement: 1 February 2018 until terminated by either party.
 Details: Salary - \$346,500 per annum plus superannuation at the maximum concessional limit per year.

Termination of Services Agreement:

* If the Company wishes to terminate the Agreement under no grounds of termination, one month's notice is required including one month's salary in thereof.

* If the Managing Director wishes to terminate the Agreement under no grounds of termination, three months' notice is required and the Company may make payment in lieu of notice.

* Any time after three years of employment, the Managing Director or the Company may terminate under no grounds of termination by giving three months' notice plus an additional on month (or part thereof) for each year (or part thereof) of employment beyond three years.

* The Company may terminate the agreement at any time without notice if serious misconduct has occurred.

Name: *Geoffrey Crow*
 Title: *Non-Executive Chair from 26 November 2024, previously Non-Executive Director*
 Term of agreement: 6 April 2017 until terminated by either party.
 Details: No notice period applicable.
 Director's Fees - \$60,000 per annum including superannuation plus any expense incurred.

Term of agreement: 6 April 2017 until terminated by either party.
No notice period applicable.
Details: Director's Fees - \$80,000 per annum including superannuation plus any expense incurred.
Mr Fry's fees were paid to Gimbulki Resources Pty Ltd, a related entity of Mr Fry.

Share-based compensation

Issue of shares

There were no shares issued to Directors and other key management personnel as part of compensation during the year ended 30 June 2025.

Options

The terms and conditions of each grant of options over ordinary shares affecting remuneration of Directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of options granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise price	Fair value per option at grant date
William Dix	3,000,000	26 November 2024	18 December 2024	17 December 2027	\$0.0125	\$0.0007
Su-Mei Sain	3,000,000	26 November 2024	18 December 2024	17 December 2027	\$0.0125	\$0.0007
Geoffrey Crow	1,500,000	26 November 2024	18 December 2024	17 December 2027	\$0.0125	\$0.0007

Options granted carry no dividend or voting rights.

The fair value of the options has been determined using a Black-scholes option pricing model with assumptions as set out in note 33.

Details of options over ordinary shares granted, vested and lapsed for Directors and other key management personnel as part of compensation during the year ended 30 June 2025 are set out below:

Name	Grant date	Vesting date	Number of options granted	Value of options granted \$	Value of options vested \$	Number of options lapsed	Value of options lapsed \$
Edward Fry	29 October 2021	29 October 2021	-	-	-	1,500,000	51,720
William Dix	29 October 2021	29 October 2021	-	-	-	1,500,000	51,720
Su-Mei Sain	26 November 2024	18 December 2024	3,000,000	2,002	2,002	-	-
	29 October 2021	29 October 2021	-	-	-	1,500,000	51,720
Geoffrey Crow	26 November 2024	18 December 2024	3,000,000	2,002	2,002	-	-
	29 October 2021	29 October 2021	-	-	-	1,500,000	51,720
	26 November 2024	18 December 2024	1,500,000	1,001	1,001	-	-

Performance rights

The terms and conditions of each grant of performance rights over ordinary shares affecting remuneration of Directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of rights granted	Grant date	Vesting condition	Milestone date	Share price hurdle for vesting	Fair value per right at grant date
William Dix	20,000,000	15 May 2024	Tranche 1	24 May 2028	\$0.0200	\$0.0021
William Dix	20,000,000	15 May 2024	Tranche 2	24 May 2028	\$0.0300	\$0.0017
William Dix	20,000,000	15 May 2024	Tranche 3	24 May 2028	\$0.0400	\$0.0014

Vesting conditions:

Tranche	Vesting condition	Milestone date	Expiry date
1	Rights shall vest and be exercisable into shares on the earlier occurrence of: (a) the Company obtaining results of surface rock chip sampling or core sampling undertaken at any of the mineral claim comprising the Gibbons Creek Uranium Project with a grade of at least 0.4% U ₃ O ₈ ; or (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.02, prior to the milestone date.	15 May 2028	15 May 2029
2	Rights shall vest and be exercisable into shares on the earlier occurrence of: (a) the Company achieving a drilled intercept of at least 1m at 4% U ₃ O ₈ or equivalent (eg 40m at 0.1% U ₃ O ₈) at any of the mineral claims comprising the Gibbons Creek Uranium Project; and (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.03, prior to the milestone date.	15 May 2028	15 May 2029
3	Rights shall vest and be exercisable into share on the earlier occurrence of: (a) the Company delineating a JORC compliant Mineral Resource of at least 10Mlbs U ₃ O ₈ at any of the mineral claims comprising the Gibbons Creek Uranium Project; and (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.04, prior to the milestone date	15 May 2028	15 May 2029

Performance rights granted carry no dividend or voting rights.

The number of performance rights over ordinary shares granted to and vested by Directors and other key management personnel as part of compensation during the year ended 30 June 2025 are set out below:

Name	Number of rights granted during the year 30 June 2025	Number of rights granted during the year 30 June 2024	Number of rights vested during the year 30 June 2025	Number of rights vested during the year 30 June 2024
Will Dix	-	60,000,000	-	-

Additional disclosures relating to key management personnel

Additional information

Company performance and its consequences on shareholder wealth

It is not possible at this time to evaluate the Company's financial performance using generally accepted measures such as profitability and total shareholder return as the Company is an exploration company with no significant revenue stream. This assessment will be developed if and when the Company moves from explorer to producer.

The earnings of the Group for the five years to 30 June 2025 are summarised below:

	2025	2024	2023	2022	2021
	\$	\$	\$	\$	\$
Loss after income tax	(6,884,334)	(4,980,706)	(3,076,415)	(4,330,728)	(5,762,139)

The factors that are considered to affect total shareholders return ('TSR') are summarised below:

	2025	2024	2023	2022	2021
Share price at financial year end (\$)*	0.001	0.002	0.01	0.03	0.08
Basic earnings per share (cents per share)*	(0.36)	(0.40)	(0.50)	(0.77)	(1.27)

* The share price and earnings per share are pre the 127:1 share consolidation completed on 14 July 2025.

This concludes the remuneration report, which has been audited.

Shares under option

21 November 2023	21 November 2027	2,430,343
15 May 2024	15 May 2028	472,440
26 November 2024	26 March 2027	98,425
26 November 2024	26 March 2028	787,401
		5,228,644

No person entitled to exercise the performance rights had or has any right by virtue of the performance right to participate in any share issue of the Company or of any other body corporate.

Shares issued on the exercise of options

There were no ordinary shares of Trinex Minerals Limited issued on the exercise of options during the year ended 30 June 2025 and up to the date of this report.

Shares issued on the exercise of performance rights

There were no ordinary shares of Trinex Minerals Limited issued on the exercise of performance rights during the year ended 30 June 2025 and up to the date of this report.

Indemnity and insurance of officers

The Company has indemnified the Directors and executives of the Company for costs incurred, in their capacity as a Director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the Directors and executives of the Company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-audit services

There were no non-audit services provided during the financial year by the auditor.

Officers of the Company who are former partners of HLB Mann Judd

There are no officers of the Company who are former partners of HLB Mann Judd.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' report.

Auditor

HLB Mann Judd continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the Directors

William Dix
Managing Director

Note 1. Reporting Entity

The financial statements cover Trinex Minerals Limited as a Group consisting of Trinex Minerals Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is Trinex Minerals Limited's functional and presentation currency.

Trinex Minerals Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Suite 8/110 Hay Street
Subiaco Western Australia 6008

The Group is a for profit entity and primarily is involved in the exploration of minerals within Australia.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 17 September 2025. The Directors have the power to amend and reissue the financial statements.

Note 2. Material accounting policy information

The accounting policies that are material to the Group are set out either in the respective notes or below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The Directors do not consider that any of these have had a material effect on the financial statements.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The Directors do not consider that any of these will have a material effect on the Group.

Going concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The Group incurred a loss after tax in the year from continuing operations of \$6,884,334 (30 June 2024: \$4,927,010) and used \$2,504,048 (30 June 2024: \$3,573,947) of net cash in operations including payments for exploration activities. The Group has net assets of \$9,699,226 (30 June 2024: \$15,233,181) of which cash at bank balance was \$1,160,265 (30 June 2024: \$2,803,274).

The Directors are satisfied they will be able to raise additional funds as required and thus it is appropriate to prepare the financial statements on a going concern basis. If necessary the Group can delay exploration expenditures and directors can also institute cost saving measures to further reduce corporate and administrative costs or explore divestment opportunities. In the event that the Group is unable to obtain sufficient funding for ongoing operating and capital requirements, there is a material uncertainty that may cast significant doubt as to whether the Group will continue as a going concern and therefore proceed with realising its assets and discharging its liabilities in the normal course of business at the amounts stated in the financial report. The financials statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classification of liabilities that may be necessary should the Group not be able to continue as a going concern.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Note 2. Material accounting policy information (continued)

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in note 31.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Trinex Minerals Limited ('Company' or 'parent entity') as at 30 June 2025 and the results of all subsidiaries for the year then ended. Trinex Minerals Limited and its subsidiaries together are referred to in these financial statements as the 'Group'.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Foreign currency translation

The financial statements are presented in Australian dollars, which is Trinex Minerals Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations are translated into Australian dollars using the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated into Australian dollars using the average exchange rates, which approximate the rates at the dates of the transactions, for the period. All resulting foreign exchange differences are recognised in other comprehensive income through the foreign currency reserve in equity.

The foreign currency reserve is recognised in profit or loss when the foreign operation or net investment is disposed of.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

Note 2. Material accounting policy information (continued)

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Note 3. Critical accounting judgements, estimates and assumptions

Set out below are the material areas of judgement, estimates and assumptions that have affected these financial statements.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using Black-Scholes and Monte Carlo pricing models taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Impairment of property, plant and equipment

The Group assesses impairment of property, plant and equipment at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Exploration and evaluation

Exploration and evaluation assets acquired

Exploration and evaluation assets comprise of acquisition of mineral rights (such as joint ventures) and fair value (at acquisition date) of exploration and expenditure assets from other entities. As the assets are not yet ready for use they are not depreciated. Exploration and evaluation assets are assessed for impairment if:

- sufficient data exists to determine technical feasibility and commercial viability; or
- other facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

Once the technical feasibility and commercial viability of the assets are demonstrable, exploration and evaluation assets are first tested for impairment and then reclassified to mine properties as development assets

Exploration and evaluation expenditure

Exploration and evaluation expenditure incurred is expensed in respect of each identifiable area of interest until such a time where a JORC 2012 compliant resource is announced in relation to the identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

Note 3. Critical accounting judgements, estimates and assumptions (continued)

When the technical feasibility and commercial viability of extracting a mineral resource have been demonstrated then any capitalised exploration and evaluation expenditure is reclassified as capitalised mine development.

Prior to reclassification, capitalised exploration and evaluation expenditure is assessed for impairment annually in accordance with AASB 6. Where impairment indicators exist, recoverable amounts of these assets will be estimated based on discounted cash flows from their associated cash generating units.

The Statement of Profit or Loss and Other Comprehensive Income will recognise expenses arising from excess of the carrying values of exploration and evaluation assets over the recoverable amounts of these assets.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the period in which that assessment is made. Each area of interest is reviewed at the end of each accounting period and accumulated costs are written off to the extent that they will not be recoverable in the future.

Total liabilities				1,555,098

The Group is managed primarily on the basis of its exploration projects. Operating segments are therefore determined on the same basis. Reportable segments disclosed are based on aggregating tenements and permits where the tenements and permits are considered to form a single project.

Accounting policy for operating segments

Unless stated otherwise, all amounts reported to the Board of Directors as the chief operating decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent to those adopted in the financial statements of the Group.

Where an asset is used across multiple segments, the asset is allocated to the segment that receives the majority of economic value from the asset. In the majority of instances, segment assets are clearly identifiable on the basis of their nature and physical location.

Unless indicated otherwise in the segment assets note, investments in financial assets, deferred tax assets and intangible assets have not been allocated to operating segments.

Total deferred tax assets not recognised	<u>12,231,802</u>	<u>9,817,657</u>

- (1) Deferred tax assets and liabilities are required to be measured at the corporate tax rate that is expected to apply in the future income year when the asset is realised or the liability is settled. The Directors have determined that the deferred tax balances be measured at the tax rates stated.

Trinex Minerals Limited and its 100% owned Australian subsidiary formed a tax consolidated group with effect from 23 March 2017. Trinex Minerals Limited is the head entity of the tax consolidated group.

Trinex Minerals Limited at 30 June 2025, adopted the group allocation method for measuring the current and deferred tax amounts.

The benefits of these tax losses will only be obtained if:

- (i) the company derives future assessable income of a nature and of an amount sufficient to enable the benefits to be utilised;
- (ii) the company continues to comply with the conditions for deductibility imposed by law; and
- (iii) no changes in income tax legislation adversely affect the company in utilising the benefits.

<i>Current assets</i>		
Trade receivables	39,309	-
Other receivables	950	52,833
	40,259	52,833

Accounting policy for trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Closing fair value	-	103,227

On 30 August 2021, Boab Metals Limited (ASX: BML) issued 1,186,521 fully paid shares as consideration for the acquisition of the Group's Manbarrum Project. The shares were revalued at 30 June 2025 in line with the Group's accounting policy to their fair value. The directors have made an irrevocable election to account for the shares as fair value through other comprehensive income as the investment will be held for the medium to long term.

During October 2024, 1,186,521 BML shares were sold at an average price of \$0.103. The Group no longer holds any BML shares.

Reconciliations

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

	Plant and equipment \$	Motor vehicles \$	Total \$
Balance at 1 July 2023	22,928	105,020	127,948
Disposals	(428)	-	(428)
Depreciation expense	(11,820)	(23,445)	(35,265)
Balance at 30 June 2024	10,680	81,575	92,255
Disposals	(2,678)	-	(2,678)
Depreciation expense	(3,127)	(23,445)	(26,572)
Balance at 30 June 2025	4,875	58,130	63,005

Accounting policy for property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment over their expected useful lives as follows:

Plant and equipment	3 - 8 years
Motor vehicles	5 - 8 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Balance at 30 June 2024	13,233,326
Project Dudley earn-in	505,171
Impairment of assets*	(5,053,992)
Balance at 30 June 2025	8,684,505

Note 15. Exploration and evaluation (continued)

* The Group has surrendered the Berkshire Valley tenements, the full amount capitalised has been impaired as at 30 June 2025.

The ultimate recoupment of costs carried forward in relation to areas of interest in the exploration and evaluation phases is dependent on the successful development and commercial exploitation or sale of the respective areas.

Dudley Lithium Project Farm-in

The Group announced the on the 14 October 2024 that it has executed binding agreement of an option to acquire up to a 90% interest in the highly prospective Dudley Lithium Project ('Dudley') on Kangaroo Island in South Australia, by way of a two-stage farm-in (Stage 1 - 51% and Stage 2 - an additional 39%) over approximately 4 years. The vendor of the of the interests in the Dudley Project is South Australia Limited Pty Ltd (SALi). The Group will pay the following consideration (including payment in shares) to SALi for its interest in the Dudley Project across the two stages of the farm-in:

Payment	Timing	Cash payment	Payment in shares (to the value of)	Minimum expenditure
Option fee	Execution of farm-in agreement	\$75,000 (paid)	n/a	\$86,000 (up to 12 December 2024)
Stage 1a	After election to proceed to Stage 1 (estimated to be around January 2025)	\$37,500 (paid)	\$100,000 (paid)	\$350,000 (in aggregate by around January 2026)
Stage 1b	1 year after election to proceed to Stage 1 (estimated to be around January 2025)	\$37,500	\$100,000	\$700,000 (in aggregate by around January 2027)
Stage 2	After election to proceed to Stage 2 (estimated to be around February 2027)	\$150,000	\$200,000	\$1,050,000 (in aggregate by February 2028) \$1,400,000 (in aggregate by February 2029)
Total		\$300,000	\$400,000	\$1,400,000 (in aggregate)

The issue of Shares under the various stages of the farm-in is subject to shareholder approval and all shares will be issued at the higher of the 10-day VWAP of shares on ASX up to the end of the business day before issue, and \$0.002 ("floor price"). If shareholder approval is not obtained for the issue of shares to SALi, such payments may be satisfied in cash.

The Group has paid an initial option fee of A\$75,000 (in cash) to SALi on execution of the Dudley Farm-In Agreement. Payment of the option fee gives an exclusive option to elect to proceed to earn the Stage 1 interest of 51%. Subsequent to reporting date, the Company announced on 9 January 2025 that that it's wholly owned subsidiary Todd River Metals Pty Ltd, will elect to proceed with Stage 1 of the farm-in.

Note 15. Exploration and evaluation (continued)

SALi was issued 100,000,000 performance rights which were approved at the Company AGM at the same time that that Consideration Shares were issued at Stage 1a of the Dudley Project farm-in). The performance rights are subject to the following vesting milestones:

Tranche	Number	Milestone	Expiry date
1	50,000,000	Performance Rights shall vest and be exercisable into Shares where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 40Mt at the Dudley project with a grade of at least 1% Li ₂ O.	3 years from date of issue
2	50,000,000	Performance Rights shall vest and be exercisable into Shares where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 100Mt at the Dudley Project with a grade of at least 1% Li ₂ O.	4 years from the date of issue

The Company issued following shareholder approval at the AGM 12,500,000 Performance Rights to PAC Partners Securities Pty Ltd ("PAC Partners") in consideration for services provided in connection with the acquisition of the Dudley project. The Performance Rights were issued on 26 November 2024 in two separate transactions (of 6,250,000 Performance Rights per tranche) with the same milestones as the SALi Performance Rights described above. PAC Partners were also paid a \$15,000 cash payment.

On 9 January 2025 it was announced that the Group elected to proceed with Stage 1 of farm-in on the Project, the Stage1A cash payment of \$37,500 was issued along with 50,000,000 fully paid ordinary shares at \$0.002 each.

Details of the earn-in are as follows:

	\$
Option fee paid	75,000
12,500,000 Performance Rights issued to PAC Partners (see note 33)	20,000
100,000,000 Performance Rights issued to the vendors (see note 33)	160,000
Payment to PAC Partners	15,000
Legal fees and other costs	97,671
Stage 1A Fee paid to the vendors	37,500
50,000,000 ordinary shares at an issue price of \$0.002 each issued to the vendors (see note 21)	100,000
	505,171

EYL Project

The Company announced on the 14 October 2024 that it had executed a binding agreement to acquire 100% interest in the mineral claims comprising the East Yellowknife Lithium Project ('EYL Project') located in the Northwest Territories, Canada. The vendors of the EYL Project are DG Resource Management Ltd. (DGRM) and 507976 N.W.T. Ltd. (NWT). Aurora Geosciences Ltd (Aurora) is the legal owner of the Mineral Claims and holds the Mineral Claims on behalf of DGRM and NWT. Aurora will not receive any consideration from the Group under the transaction. Consideration payable to DRGM and NWT is:

- (a) Shares to the value of A\$100,000 (EYL Consideration Shares), the issue price of which will be the higher of the 10-day VWAP of Shares on ASX up to the end of the business day and issue date and the Floor Price (of \$0.002 per share);
- (b) a payment of CAD\$90,000 in cash; and
- (c) a combined 2% net smelter return royalty in respect of revenue generated from any future production from the EYL Project.

On 8 April 2025, 50,000,000 shares were issued to the vendors of the project, no cash payment has been made as at 30 June 2025.

As at 30 June 2025 the Company had not completed all terms of the acquisition, all expenditure in relation to the initial acquisition has been expensed to exploration and evaluation expenditure.

Note 15. Exploration and evaluation (continued)

Accounting policy for exploration and evaluation assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

Note 16. Right-of-use assets

	30 June 2025 \$	30 June 2024 \$
<i>Non-current assets</i>		
Premises - right-of-use	-	122,572
Less: Accumulated depreciation	-	(71,850)
	-	50,722

Depreciation expense	(50,722)	(50,722)
Balance at 30 June 2025	-	-

Accounting policy for right-of-use assets

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Note 17. Trade and other payables

	30 June 2025 \$	30 June 2024 \$
<i>Current liabilities</i>		
Trade payables	63,071	1,044,765
Other payables	261,719	137,728
	324,790	1,182,493

Trade and other payables are normally settled on a 30-day basis.

Note 18. Lease liabilities

	30 June 2025 \$	30 June 2024 \$
<i>Current liabilities</i>		
Lease liability	81,812	72,301
<i>Non-current liabilities</i>		
Lease liability	-	81,812
	81,812	154,113

	Premises \$	Motor Vehicle \$	Total
Opening balance at 1 July 2023	112,839	116,837	229,676
Principal repayments	(58,714)	(16,849)	(75,563)
Closing balance at 30 June 2024	54,125	99,988	154,113
Principal repayments	(54,125)	(18,176)	(72,301)
Closing balance at 30 June 2025	-	81,812	81,812

The Company leases office premises. The average lease term is two years.

Underlying assets serve as security for the related lease liabilities. A maturity analysis of future minimum lease payments is presented below:

	Lease payments due						Total \$
	1 year \$	1 - 2 years \$	2 - 3 years \$	3 - 4 years \$	4 - 5 years \$	> 5 years \$	
Lease payments	84,342	-	-	-	-	-	84,342
Interest	(2,530)	-	-	-	-	-	(2,530)
Net present values	81,812	-	-	-	-	-	81,812

Accounting policy for lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Note 19. Provisions

	30 June 2025 \$	30 June 2024 \$
<i>Current liabilities</i>		
Annual leave	119,823	192,855
Long service leave	47,766	-
	167,589	192,855

The current provision for employee benefits includes all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances. The entire amount is presented as current, since the Company does not have an unconditional right to defer settlement. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.

Accounting policy for employee benefits

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(a) Land access

During the financial year ended 30 June 2021 and in relation to the Berkshire Valley project, the Company entered into Land Access Agreements ('Agreements') with certain landholders. In consequence for access to areas permitted by the landholders and subject to achievement of milestones over a 12 month period, the Agreements provide landholders to be compensated either in cash or shares of the Company for the period. The following shares were issued to landholders:

- 19 December 2023 the Company issued 454,060 shares at an issue price of \$0.009 each for consideration \$4,240

(b) Canadian Lithium Project Acquisition

The Company completed the purchase of a 100% interest in the mineral claims comprising the Ross Lake Lithium Project, the MAC Lithium Project and Halo-Yuri Lithium Project (together the, 'Canadian Project'), each located in the Northwest Territories of Canada, on 22 November 2023.

The Company issued 14,423,077 fully paid ordinary shares at an issue price of \$0.01 to advisors to the acquisition and 340,600,000 fully paid ordinary shares to the vendors of the project at an issue price of \$0.01 each.

(c) Gibbons Creek Uranium Project acquisition

The Company issued 68,743,011 at an issue price of \$0.004 to ALX Resources Corporation for the option to acquire an initial 51% interest in the Gibbons Creek Uranium Project in Northern Saskatchewan, Canada.

(d) Dudley Lithium Project Farm-in

On 9 January 2025 the Group elected to proceed with Stage 1 of the farm-in of the Dudley Lithium Project and issued 50,000,000 fully paid ordinary shares at \$0.002 each to South Australia Lithium Pty Ltd.

Note 21. Issued capital (continued)

(e) EYL Project

The Company issued 50,000,000 fully paid shares to the vendors of the EYL Project on 8 April 2025, at an issue price of \$0.001 each.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The Group's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current Company's share price at the time of the investment. The Group is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

There were no changes in the Group's approach to capital management during the year. Risk management policies and procedures are established with regular monitoring and reporting.

Accounting policy for issued capital

Ordinary shares are classified as equity.

Note 21. Issued capital (continued)

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Note 22. Unissued capital

	30 June 2025 \$	30 June 2024 \$
Funds received in advance for capital raising	913,125	-

Funds received in advance for the capital raising were converted into ordinary shares subsequent to the end of the period see note 34.

Note 23. Reserves

	30 June 2025 \$	30 June 2024 \$
Financial assets at fair value through other comprehensive income reserve	-	(396,773)
Foreign currency reserve	28,328	26,988
Share-based payments reserve	2,067,617	2,197,713
	2,095,945	1,827,928

Financial assets at fair value through other comprehensive income reserve

The reserve is used to recognise increments and decrements in the fair value of financial assets at fair value through other comprehensive income.

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

Share-based payments reserve

The reserve is used to recognise the value of equity benefits provided to employees and Directors as part of their remuneration, and other parties as part of their compensation for services.

Note 23. Reserves (continued)

Movements in reserves

Movements in each class of reserve during the current and previous financial year are set out below:

Balance at 30 June 2025	-	2,067,617	28,328	2,095,945

Note 24. Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 25. Financial instruments

Financial risk management objectives

The Group is exposed to a variety of financial risks through its use of financial instruments.

The Group's overall risk management plan seeks to minimise potential adverse effects due to the unpredictability of financial markets.

The most significant financial risks to which the Group is exposed to are described below:

- Liquidity risk
- Credit risk
- Market risk - foreign currency risk, interest rate risk and share price risk

Objectives, policies and processes

The Board of Directors have overall responsibility for the establishment of the Group's financial risk management framework. This includes the development of policies covering specific areas such as interest rate risk, liquidity risk and credit risk.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

Note 25. Financial instruments (continued)

Risk management is carried out by senior management under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the Group and appropriate procedures, controls and risk limits. Management identifies, evaluates and manages financial risks and reports to the Board on a monthly basis.

Market risk

Foreign currency risk

The Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

The carrying amount of the Group's foreign currency denominated financial assets and financial liabilities at the reporting date were as follows:

	Assets		Liabilities	
	30 June 2025 \$	30 June 2024 \$	30 June 2025 \$	30 June 2024 \$
Canadian dollars	189,100	761,571	103,112	966,584

Share price risk

The Group's exposure to share price risk is the risk that a financial investments value will fluctuate as a result of a changes in share prices arises in relation to the Group's financial assets at fair value through other comprehensive income.

Interest rate risk

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates, arises in relation to the Group's bank balances.

Credit risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Credit risk arises from exposures to cash balances and deposits and receivables.

Credit risk is minimal as all deposits are with reputable entities, and amounts receivable have been collected.

Liquidity risk

Liquidity risk arises from the Group's management of working capital and the finance charges and principal repayments on its debt instruments. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due.

The Group manages liquidity risk by maintaining adequate cash reserves and by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

At the reporting date, these reports indicate that the Group expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances.

Note 25. Financial instruments (continued)

Remaining contractual maturities

The following tables detail the Group's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

30 June 2025	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
Non-derivatives						
<i>Non-interest bearing</i>						
Trade payables	-	63,071	-	-	-	63,071
Other payables	-	261,719	-	-	-	261,719
<i>Interest-bearing - fixed rate</i>						
Lease liability	7.60%	81,812	-	-	-	81,812
Total non-derivatives		406,602	-	-	-	406,602

30 June 2024	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
Non-derivatives						
<i>Non-interest bearing</i>						
Trade payables	-	1,044,765	-	-	-	1,044,765
Other payables	-	137,728	-	-	-	137,728
<i>Interest-bearing - fixed rate</i>						
Lease liability	8.37%	81,895	84,342	-	-	166,237
Total non-derivatives		1,264,388	84,342	-	-	1,348,730

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above. The cash outflows are covered by cash balances at 30 June 2025 of \$1,160,265 (30 June 2024: \$2,803,274)

Fair value of financial instruments

Some of the Group's financial assets and liabilities are measured at fair value at the end of the reporting period. The following table gives information about how their fair values of these financial assets and liabilities are determined (in particular, the valuation technique(s) and key input(s) used).

Financial assets/liabilities	Fair value as at 30 June 2025 \$	Fair value as at 30 June 2024 \$	Fair Value hierarchy	Valuation technique(s) and key input(s)	Significant and unobservable input(s)	Relationship of unobservable input(s) to fair value
Investments	-	103,227	Level 1	Share price	None	None

There have been no transfers between the levels of the fair value hierarchy during the year ended 30 June 2025.

The methods and valuation used for the purpose of measuring the fair value are unchanged compared to the previous reporting period.

Note 25. Financial instruments (continued)

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 26. Key management personnel disclosures

Directors

The following persons were Directors of Trinex Minerals Limited during the financial year:

Geoffrey Crow	Non-Executive Chair from 26 November 2024, previously Non-Executive Director - resigned 11 July 2025
William Dix	Managing Director
Peretz Schapiro	Non-Executive Chair from 1 July 2025, previously Non-Executive Director - appointed 12 March 2025
Su-Mei Sain	Non-Executive Director from 1 January 2025; previously Executive Director - Resigned 12 March 2025
Edward Fry	Non-Executive Chair - resigned 26 November 2024

Compensation

The aggregate compensation made to Directors and other members of key management personnel of the Group is set out below:

	30 June 2025 \$	30 June 2024 \$
Short-term employee benefits	550,250	613,035
Post-employment benefits	38,411	31,790
Other benefits	(14,660)	22,069
Non-monetary benefits	1,550	9,100
Share-based payments	30,989	94,809
	606,540	770,803

Information regarding individual key management personnel compensation and equity disclosures as required by the Corporations Act s300A is provided in the remuneration report section of the Directors' Report.

Other transactions with key management personnel

The terms and conditions of the transactions with key management personnel and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

Refer to note 33 for details of share based payments with Directors and other members of key management personnel.

Note 27. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by HLB Mann Judd, the auditor of the Company:

	30 June 2025 \$	30 June 2024 \$
<i>Audit services - HLB Mann Judd</i>		
Audit or review of the financial statements	44,382	41,726

Note 28. Contingent liabilities

The details and estimated maximum amounts of contingent liabilities that may become payable are set out below. The Directors are not aware of any circumstance or information which could lead them to believe that these liabilities will crystallise and consequently no provisions are included in the financial statements in respect of these matters.

	30 June 2025 \$	30 June 2024 \$
Guarantees		
A guarantee has been provided to support unconditional environmental performance bonds	238,977	228,977
Total estimated contingent liabilities	238,977	228,977

The unconditional environmental performance bonds have been paid to the Department of Primary and Industry Resources for various tenements.

Indemnities of Directors and Officers

Indemnities have been provided to Directors and certain executive officers of the Company in respect of liabilities to third parties arising from their positions, except where the liability arises out of conduct involving a lack of good faith. No monetary limit applies to these agreements and there are no known obligations outstanding at 30 June 2025.

Note 29. Commitments

Exploration expenditure commitments

In order to maintain current rights of tenure to exploration tenements, the Company is required to perform minimum exploration work to meet the minimum expenditure requirements specified by various governments. These requirements are subject to renegotiation when application for a mining lease is made and at other times. These obligations are not provided for in the financial report.

	30 June 2025 \$	30 June 2024 \$
Exploration commitments payable not provided for in the financial report:		
Within one year	219,788	1,285,318
One to five years	80,000	49,344
	299,788	1,334,662

Project Dudley Farm-in

The Group announced the on the 14 October 2024 that it has executed binding agreement of an option to acquire up to a 90% interest in the highly prospective Dudley Lithium Project ('Dudley') on Kangaroo Island in South Australia, by way of a two-stage farm-in (Stage 1 - 51% and Stage 2 - an additional 39%) over approximately 4 years. The vendor of the of the interests in the Dudley Project is South Australia Limited Pty Ltd (SALi). Refer to note 15 for details of the Dudley Farm-in stage payments.

EYL Project

The Company announced on 14 October 2024 the execution of a binding agreement to acquire 100% interest in the mineral claims comprising East Yellowknife Lithium Project ('EYL Project') located in the Northwest Territories, Canada. The vendors of the EYL Project are DG Resource Management Ltd. (DGRM) and 507976 N.W.T. Ltd. (NWT). Aurora Geosciences Ltd (Aurora) is the legal owner of the Mineral Claims and holds the Mineral Claims on behalf of DGRM and NWT. Aurora will not receive any consideration from Trinex Lithium under the transaction. Consideration payable to DRGM and NWT is:

Note 29. Commitments (continued)

- (a) Shares to the value of A\$100,000 (EYL Consideration Shares), the issue price of which will be the higher of the 10-day VWAP of Shares on ASX up to the end of the business day and issue date and the Floor Price (of \$0.002 per share); and
- (b) a payment of CAD\$90,000 in cash.
- (c) a combined 2% net smelter return royalty in respect of revenue generated from any future production from the EYL Project.

The consideration shares were approved by the shareholders at the Company's AGM and have been issued see note 21. No cash payment has been made as at 30 June 2025.

Note 30. Related party transactions

Parent entity

Trinex Minerals Limited is the parent entity.

Subsidiaries

Interests in subsidiaries are set out in note 32.

Key management personnel

Disclosures relating to key management personnel are set out in note 26 and the remuneration report included in the Directors' report.

Transactions with related parties

The following transactions occurred with related parties:

	30 June 2025 \$	30 June 2024 \$
Services provided to Breakthrough Minerals Limited	93,252	-

Receivable from and payable to related parties

The following balances are outstanding at the reporting date in relation to transactions with related parties:

	30 June 2025 \$	30 June 2024 \$
Current receivables:		
Trade receivables from Breakthrough Minerals Limited	39,309	-

Breakthrough Minerals Limited

On 16 December 2024, the Company entered into a Shared Services Agreement with Breakthrough Minerals Limited ("BTM"). Under the agreement the Company provides personnel on a consulting basis for geological services to BTM. The recharge of personnel time has reduced the employment expenses of the Company. Directors Will Dix and Peretz Schapiro are also Directors of BTM.

Terms and conditions

All transactions were made on normal commercial terms and conditions and at market rates.

Note 31. Parent entity information

Set out below is the supplementary information about the parent entity.

Statement of profit or loss and other comprehensive income

	30 June 2025 \$	30 June 2024 \$
Loss after income tax	(7,440,822)	(4,944,386)

Tax consolidation

Todd River Resources Limited and its 100% owned Australian subsidiary formed a tax consolidated group. Todd River Resources Limited is the head entity of the tax consolidated group. Members of the group have not entered into a tax sharing agreement.

Contingent liabilities

The parent entity had no contingent liabilities as at 30 June 2025 (30 June 2024: none).

Commitments

The parent entity had no commitments as at 30 June 2025 (30 June 2024: none)

Note 32. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 2:

Name	Principal place of business / Country of incorporation	Ownership interest	
		30 June 2025 %	30 June 2024 %
Todd River Metals Pty Ltd	Australia	100%	100%
Moore River Metals Pty Ltd	Australia	100%	100%
Moonknight Pty Ltd	Australia	100%	100%
Trinex Lithium Ltd.	Canada	100%	100%

Note 33. Share-based payments

A share option plan has been established by the Group and approved by shareholders at a general meeting, whereby the Group may, at the discretion of the Board, grant options over ordinary shares in the company to certain key management personnel, employees and contractors of the Group. The options are issued for nil consideration and are granted in accordance with performance guidelines established by the Board.

Options issued to Directors and Employees

On 18 December 2024, 11,000,000 options were issued to Directors (7,500,000) as approved at the annual general meeting on 26 November 2024, and employees (3,500,000). They were issued with an exercise price of \$0.0125 on or before 17 December 2027. As a result, \$8,685 was expensed as share based payment transactions during the year ended 30 June 2025. The Directors' and employee options were issued under the Incentive Option Plan.

	Number issued
William Dix	3,000,000
Su-Mei Sain	3,000,000
Geoffrey Crow	1,500,000
	7,500,000
Employees	3,500,000
	11,000,000

Set out below are summaries of options granted under the plan:

	Number of options 30 June 2025	Weighted average exercise price 30 June 2025	Number of options 30 June 2024	Weighted average exercise price 30 June 2024
Outstanding at the beginning of the financial year	26,500,000	\$0.0440	26,523,000	\$0.0750
Granted	11,000,000	\$0.0125	16,000,000	\$0.0080
Cancelled	-	\$0.0000	(500,000)	\$0.0200
Expired	(9,500,000)	\$0.1020	(15,523,000)	\$0.0630
Outstanding at the end of the financial year	28,000,000	\$0.0120	26,500,000	\$0.0440
Exercisable at the end of the financial year	28,000,000	\$0.0120	26,500,000	\$0.0440

Note 33. Share-based payments (continued)

The options outstanding at 30 June 2025 have a remaining contractual life between 29 and 75 months respectively and an exercise price ranging from \$0.011 to \$0.020.

For the options granted during the current financial year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

	Employee options	Director options
Number of options	3,500,000	7,500,000
Grant/Valuation date	18 December 2024	26 November 2024
Expiry date	17 December 2027	17 December 2027
Share price at valuation/grant date	\$0.0015	\$0.0010
Exercise price	\$0.0125	\$0.0125
Expected volatility	177%	177%
Dividend yield	-	-
Risk-free interest rate	3.73%	3.99%
Fair value at grant date	\$0.0011	\$0.0007
Value	\$3,680	\$5,005

Performance rights issued to Director

60,000,000 Performance Rights were issued to Director William Dix following shareholder approval on 15 May 2024 with the following vesting conditions:

Tranche	Number	Vesting condition	Milestone date	Expiry date
1	20,000,000	Rights shall vest and be exercisable into shares on the earlier occurrence of: (a) the Company obtaining results of surface rock chip sampling or core sampling undertaken at any of the mineral claim comprising the Gibbons Creek Uranium Project with a grade of at least 0.4% U ₃ O ₈ ; or (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.02, prior to the milestone date.	15 May 2028	15 May 2029
2	20,000,000	Rights shall vest and be exercisable into shares on the earlier occurrence of: (a) the Company achieving a drilled intercept of at least 1m at 4% U ₃ O ₈ or equivalent (eg 40m at 0.1% U ₃ O ₈) at any of the mineral claims comprising the Gibbons Creek Uranium Project; and (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.03, prior to the milestone date.	15 May 2028	15 May 2029
3	20,000,000	Rights shall vest and be exercisable into share on the earlier occurrence of: (a) the Company delineating a JORC compliant Mineral Resource of at least 10Mlbs U ₃ O ₈ at any of the mineral claims comprising the Gibbons Creek Uranium Project; and (b) the Company's Share price achieving a 20-trading day VWAP of at least \$0.04, prior to the milestone date.	15 May 2028	15 May 2029
60,000,000				

Note 33. Share-based payments (continued)

Set out below are summaries of performance rights granted under the plan:

	Number of rights	
	30 June 2025	30 June 2024
Outstanding at the beginning of the financial year	60,000,000	-
Granted	-	60,000,000
Outstanding at the end of the financial year	60,000,000	60,000,000
Exercisable at the end of the financial year	-	-

The performance rights were valued, using a valuation methodology based on the guidelines set out in AASB 2 *Share based payment*. The value of the Performance Rights are being expensed over the expected vesting period of the Rights, as a result, \$25,984 was expensed as share based payment transactions during the year ended 30 June 2025 (2024 :\$3,274).

Dudley Lithium Project Farm-In

On 14 October 2024 the Company announced that it had executed an option agreement to acquire up to a 90% interest in the Dudley Lithium Project in South Australia (Dudley Project) by way of a two-stage farm-in (Stage 1 – 51% and Stage 2 – an additional 39%) over approximately 4 years see note 15 for further details.

Ordinary shares

- 50,000,000 ordinary shares at an issue price of \$0.001 each were issued to the vendors of the project, an amount of \$100,000 was recognised as an acquisition cost of the project.

Performance Rights

- 500,000,000 Performance Rights were issued to the Vendors of the Ross Lake and MAC Lithium Projects ('Vendor Performance Rights')
- 12,500,000 Performance Rights were issued to PAC Partners Securities Pty Ltd ('PAC Partners') in consideration for services provided by PAC Partners in connection with the proposed acquisition of the Dudley Project.

The Performance Rights will vest in three tranches subject to the following milestones being achieved:

Tranche	Vendor Number	PAC Partners Number	Vesting condition	Milestone date
1	50,000,000	6,250,000	Performance Rights shall vest and be exercisable into Share where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 40Mt at the Dudley project with a grade of at least 1% Li ₂ O.	3 years from date of issue
2	50,000,000	6,250,000	Performance Rights shall vest and be exercisable into Shares where the Group has acquired the Stage 1 interest and identifies (and the Company announces) a JORC compliant resource of at least 100Mt at the Dudley Project with a grade of at least 1% Li ₂ O.	4 years from date of issue

Note 33. Share-based payments (continued)

Accounting standards require directors to assess the probability of meeting the above conditions. The performance rights were valued and Tranche 3 had no amount allocated to them as the projects are still progressing through the early stages of exploration and evaluation and the Directors did not have certainty that the performance shares would convert into ordinary shares based on their assessment at the date of the transaction, and at balance date. Tranche 1 and Tranche 2 have been recognised in full at acquisition date.

For the performance rights granted during the current financial period, the valuation model inputs used to determine the fair value at the grant date, are as follows:

	Tranche 1	Tranche 2
Number issued	56,250,000	56,250,000
Valuation date	26 November 2024	26 November 2024
Issue date - Vendors	14 January 2025	14 January 2025
Issue date - PAC partners	26 November 2024	26 November 2024
Share price at valuation date	\$0.0010	\$0.0010
10-day VWAP at valuation date	\$0.0016	\$0.0016
Valuation	\$0.0016	\$0.0016
- Vendors	\$80,000	\$80,000
- PAC Partners	\$10,000	\$10,000

Acquisition EYL Project

On 14 October 2024 the Company announced that it had executed an option agreement to acquire up to 100% interest in the mineral claims comprising the East Yellowknife Lithium Project ('EYL Project') located in the Northwest Territories, Canada see note 15 for further details.

Ordinary shares

On 8 April 2025 the Company issued 50,000,00 fully paid ordinary shares to the vendors of the EYL Project. The terms of the agreement was the issue of shares to the value of \$100,000 which will be the higher of the 10-day VWAP of the share price up to the end of the business day and issue and the Floor Price of \$0.002 per share. The number of shares issue was based on the floor price of \$0.002, the share have been issued at the value on the date of issue being \$0.001 per share. An amount of \$50,000 was recognised as an exploration and evaluation expense see note 15.

Total expense of the share based payments for the year was:

	30 June 2025 \$	30 June 2024 \$
Total expense recognised as Director and employee option expense	8,685	96,745
Total expense recognised as Director performance rights	25,984	3,274
Total expense recognised as exploration and evaluation expense - land access	-	4,240
Total expense recognised as exploration and evaluation expense - acquisition Canadian uranium project	-	275,846
Total expense recognised as exploration and evaluation expense - acquisition of East Yellowknife	50,000	-
	84,669	380,105

Accounting policy for share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Note 33. Share-based payments (continued)

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Black-Scholes option pricing model or Monte Carlo model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Note 34. Events after the reporting period

On 2 July 2025 the Company completed the Tranche 2 of the placement announced on 15 May 2025, 3,716,000,000 fully paid ordinary shares were issued at \$0.00025 each raising \$929,000 before costs, of which \$913,125 was received as at 30 June 2025.

On 11 July 2025, Mr Geoffrey Crow resigned as Non-Executive Chairman, with Mr Chris Zielinski appointed as Non-Executive Director and current Non-Executive Director Mr Peretz Schapiro was appointed as Non-Executive Chairman.

On 14 July 2025, 50,000,000 fully paid ordinary shares were released from voluntary escrow.

Note 34. Events after the reporting period (continued)

On 14 July 2025, the Company completed the share consolidation approved by shareholder on 25 June 2025.

On 17 September 2025, the Company held a General Meeting of Shareholders where all resolutions were passed.

No other matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Note 35. Earnings per share

	30 June 2025	30 June 2024
	\$	\$
<u>Loss after income tax attributable to the owners of Trinex Minerals Limited</u>	(6,884,334)	(4,927,010)
	Number	Number
<u>Weighted average number of ordinary shares used in calculating basic earnings per share</u>	14,934,097	9,646,664
<u>Weighted average number of ordinary shares used in calculating diluted earnings per share</u>	14,934,097	9,646,664
	Cents	Cents
Basic loss per share*	(46.10)	(51.07)
Diluted loss per share*	(46.10)	(51.07)

* Loss per share has been adjusted for the 127:1 share consolidation completed on 14 July 2025.

The Company's potential ordinary shares at 30 June 2025, being its options, are not considered dilutive as the conversion of these options would not increase the net loss per share.

At balance date the Company has options which were not yet exercised as per note 21.

Note 36. Cash flow information

Basis of preparation

The consolidated entity disclosure statement has been prepared in accordance with the s295(3A)(a) of the Corporations Act 2001 and includes the required information for Trinex Minerals Limited and the entities it controls in accordance with AASB 10 Consolidated Financial Statements.

Tax Residency

S295(3A)(vi) of the Corporations Act 2001 defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency may involve judgement as there are different interpretation that could be adopted and which could give rise to different conclusions regarding residency.

In determining tax residency, the Group has applied the following interpretations:

Australian Tax Residency

Current legislation and judicial precedent has been applied, including having regard to the Tax Commissioner's public guidance.

Foreign tax residency

Where appropriate, independent tax advisers have been engaged to assist in the determination of tax residence to ensure applicable foreign tax legislation has been complied with.

In the Directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 2 to the financial statements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 June 2025 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- the information disclosed in the attached consolidated entity disclosure statement is true and correct.

The Directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of Directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the Directors

William Dix
Managing Director

17 September 2025

INDEPENDENT AUDITOR'S REPORT

To the Members of Trinex Minerals Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Trinex Minerals Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

HLB Mann Judd is a member of HLB International, the global advisory and accounting network.

In addition to the matter described in the *Material Uncertainty Related to Going Concern*, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Carrying amount of exploration and evaluation expenditure Refer to Note 15</p> <p>The carrying amount of exploration and evaluation expenditure as at 30 June 2025 is \$8,684,505. During the year the Group impaired \$5,053,992 with regards to tenements that it was not planning on continuing to perform exploration over.</p> <p>Our audit focussed on the Group's assessment of the carrying amount of the capitalised exploration and evaluation asset, as this is one of the most significant assets of the Group.</p> <p>We planned our work to address the audit risk that the capitalised expenditure may no longer meet the recognition criteria of AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>. In addition, we considered it necessary to assess whether facts and circumstances existed to suggest that the carrying amount of the exploration and evaluation asset may exceed its recoverable amount.</p>	<p>Our procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> • We obtained an understanding of the key processes associated with management's review of the carrying values of each area of interest; • We considered the Directors' assessment of potential indicators of impairment and ensured that for areas which were relinquished the balance was impaired; • We obtained evidence that the Group has current rights to tenure of its areas of interest; • We examined the exploration budget for the year ending 30 June 2026 and discussed with management the nature of planned ongoing activities; • We enquired with management, reviewed ASX announcements and reviewed minutes of Directors' meetings to ensure that the Group had not resolved to discontinue exploration and evaluation at any of its areas of interest; and • We examined the disclosures made in the financial report relating to capitalised exploration and evaluation expenditure generally.
<p>Acquisition of exploration assets Refer to Note 15</p> <p>During the year, the Group entered into an option to acquire up to a 90% interest in the Dudley Lithium Project by way of a two-stage farm-in.</p> <p>We focused on this area as a key audit matter as the acquisition was the most significant transaction of the financial year and accounting for the acquisition is a complex.</p>	<p>Our procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> • We reviewed the farm-in agreement; • We tested farm-in payments, including testing the equity with reference to AASB 2 <i>Share-based Payment</i>, • We considered if the treatment of the vesting conditions of performance rights issued was appropriate; • Ensured that the acquired exploration assets met the recognition criteria in AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i>; and • Assessed the adequacy of the disclosures in the financial report.

For personal use only

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- (b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- (b) the consolidated entity disclosure statement that is true and correct and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the Directors' Report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Trinex Minerals Limited for the year ended 30 June 2025 complies with Section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Annual Mineral Resources and Reserve

Mt Hardy Project, Hendrix Inferred Mineral Resource Estimate

In accordance with ASX Listing Rule 5.21, the Company reviews and reports its Mineral Resource Estimate at least annually. The date of reporting is 30 June each year, to coincide with the Company's end of financial year balance date. If there are any material changes to its Mineral Resources over the course of the year, the Company promptly reports these changes. The Company's governance and internal controls in place with respect to estimates of mineral resources involve the use of external consultants where required, in conjunction with input by management and review by the Board.

Hendrix Inferred Mineral Resource Statement as at 30 June 2025:

Cut off Zn%	Tonnage	Metal Grade					Metal Tonnes			
		ZnEq %	Zn %	Cu %	Pb %	Ag g/t	Zn (t)	Cu (t)	Pb (t)	Ag (oz)

5.0	1,700,000	12.7	8.2	1.0	1.8	41	142,000	17,300	32,000	2,300,000

The Company engaged independent consultants to prepare Mineral Resource estimates, in the course of doing so the consultants have:

- Reviewed the 3D geological models that represent the interpreted geology, mineralisation and oxidation profiles, based on drilling and geological information supplied by Trinex Minerals Limited.
- Completed statistical analysis and variography for economic elements.
- Estimated grades of economic elements using ordinary kriging and completed model validity checks.
- Classified the Mineral Reserve and Resource estimate in accordance with the JORC Code.
- Reported the estimates and compiled supporting documentation in accordance with JORC Code guidelines.

There has been no change in the Hendrix Inferred Mineral Resource since 10 July 2019.

The information in this announcement that relates to previous Exploration Results are cross-referenced to the original release date and are available to view on the Company's website or on the ASX website at www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this annual report that relates to the estimation and reporting of the Mt Hardy Project Hendrix Mineral Resource Estimate is extracted from the ASX announcement dated 10 July 2019 which is available to view at www.trinexminerals.com.au and www.asx.com.au.

The information in this report that relates to the Inferred Hendrix Mineral Resource is based on information compiled by Andrew Thompson, who is an employee of S2 Resources and was carrying out work for Trinex Minerals under a Shared Services Agreement between the companies. Mr Thompson is a member of the Australian Institute of Mining and Metallurgy (MAusIMM) and has sufficient experience of relevance to the style of mineralisation and the types of deposits under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasia Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves.

This Resources Statement as a whole has been approved by William Dix, who is a full-time employee of Trinex Minerals and holds shares, performance rights and options in the Company. Mr. Dix is a Fellow of the Australian Institute of Mining and Metallurgy. Mr. Dix has sufficient experience of relevance to the style of mineralisation and the types of deposits under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Dix consents to the inclusion of the Mineral Resources Statement in this annual report in the form and context in which it appears.
