Andrew Smith, Managing Director at Zenith Minerals, commented:

"Today's announcement of the landmark A\$7.65 million Strategic Placement represents a significant milestone for the Company as we continue to advance our 'Going for Gold' strategy at the 100%-owned Dulcie Gold Project in Southern Cross, WA, and the Red Mountain Project in Queensland. It renders the Company exceptionally well-funded to continue resource growth at Dulcie beyond the current ~300koz Mineral Resource² and to really 'get after' Red Mountain, which has huge optionality for Zenith shareholders.

The Strategic Placement comes at a pivotal time for the Company, enabling us to accelerate exploration efforts at Dulcie ahead of the already-planned 9,000–12,000m resource growth drilling campaign.

In parallel, we will implement an expedited drilling campaign at Red Mountain, with the aim of completing the expanded program before year-end.

The Company also looks forward to receiving the final assays from our recently completed diamond drilling program at Red Mountain, which are expected to provide further insights into this highly prospective IGRS project"

The Issue Price represents a:

- 15.9% premium to the last traded price of A\$0.11 on 23 September 2025;
- 9.9% premium to the 5-day VWAP up to and including 23 September 2025; and
- 26.3% premium to the 90-day VWAP up to and including 23 September 2025.
