Letter from the Chairman

Monday, 29 September 2025

Dear Shareholder,

Altamin Limited – Accelerated Pro-Rata Non-Renounceable Entitlement Offer

On behalf of the Board, I am pleased to invite you to participate in a 45 for 100 accelerated pro-rata non-renounceable Entitlement Offer of New Shares at an offer price of \$0.025 per New Share (**Offer Price**) to raise up to approximately \$6.46 million (before costs).

The Entitlement Offer comprises an institutional component (**Institutional Entitlement Offer**) and a retail component (**Retail Entitlement Offer**).

The proceeds of the Entitlement Offer will predominantly be applied towards exploration at the Company's Lazio Project and on limited working capital expenses to maintain the Gorno Project in good standing (refer to the Company's ASX announcement dated Monday, 22 September 2025 for further details), as well as towards payment of expenses of the Entitlement Offer, general corporate expenses and working capital. The use of proceeds from the Entitlement Offer may be varied as the Company progresses the activities at the Lazio Project and Gorno Project. The Board reserves the right to alter the way in which funds are applied.

Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders are entitled to subscribe for 45 New Shares for every 100 Shares held at 7:00pm (Sydney time) on the Record Date of Wednesday, 24 September 2025 (**Entitlement**) at the Offer Price. Up to approximately 121,460,818 New Shares may be issued under the Retail Entitlement Offer (subject to rounding of fractional Entitlements). New Shares will rank equally with existing Shares on issue in all respects from date of quotation.

The number of New Shares for which you are entitled to subscribe for under the Entitlement Offer (your Entitlement) is set out in your personalised entitlement and acceptance form accompanying this Retail Offer Booklet (**Entitlement and Acceptance Form**) and which can be accessed and downloaded via the Automic Investor Portal at <https://investor.automic.com.au>.

Eligible Retail Shareholders who have applied for their full Entitlement may, in addition to their Entitlement, apply for Additional Shares under the Top-up Facility (subject to compliance with applicable laws and to the terms detailed in this Retail Offer Booklet). Successful Applications for Additional Shares will be satisfied out of any New Shares for which Applications have not been received from Eligible Retail Shareholders before the Retail Closing Date. The allotment and issuance of Additional Shares under the Top-up Facility will always be subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable law. In the event it is necessary to scale back Applications for Additional Shares (where there are more Applications for Additional Shares than there is Shortfall under the Retail Entitlement Offer) then the scale back will be in the Board's discretion on the terms provided in this Retail Offer Booklet. Further information regarding the Application process (including applying for Additional Shares) is provided in Sections 2.4 and 2.6.

The Offer Price of \$0.025 per New Share represents a 30.6% discount to the last traded price of Shares of \$0.036 on Friday, 19 September 2025 (being the trading day before the announcement of the Entitlement Offer) and a 25.7% discount to the 5-day volume weighted average price of Shares up to Friday, 19 September 2025.

The Retail Entitlement Offer to which this Retail Offer Booklet relates closes at 5:00pm (Sydney time) on Wednesday, 8 October 2025 (unless extended or withdrawn). The Institutional Entitlement Offer closed on Monday, 22 September 2025 and raised approximately \$3.43 million (before costs) (with settlement having occurred on Thursday, 25 September 2025 and allotment of New Shares having occurred on Friday, 26 September 2025).

The Company is pleased that, under the Institutional Entitlement Offer, members of the Company's largest shareholder, the Victor Smorgon Group, consistent with their commitment that was announced on Monday, 22 September 2025, took up approximately \$3.43 million in New Shares in aggregate.

The Retail Entitlement Offer provides Eligible Retail Shareholders (as defined in Section 5.1) with the opportunity to take up all or part of their Entitlement. Entitlements under the Entitlement Offer are non-renounceable.

Based on the number of Shares on issue as at the Record Date of the Entitlement Offer, up to 121,460,818 New Shares (subject to rounding) may be issued under the Retail Entitlement Offer.

You have a number of decisions to make in respect of your Entitlement. You should read this Retail Offer Booklet carefully before making any decisions in relation to your Entitlement.

The Entitlement Offer is not underwritten.

The Retail Entitlement Offer opened on Monday, 29 September 2025 and will close at 5:00pm (Sydney time) on Wednesday, 8 October 2025 (unless extended or withdrawn).

Further details on the Entitlement Offer are set out below.

2.2 Your Entitlement

Your Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form and calculated on the basis of 45 New Shares for every 100 Shares you held as at the Record Date. If the result is not a whole number, your Entitlement will be rounded up to the nearest whole number of New Shares.

Your personalised Entitlement and Acceptance Form can also be accessed and downloaded via the Automic Investor Portal at <https://investor.automic.com.au>.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding.

New Shares issued under the Entitlement Offer will rank equally in all respects with existing Shares on issue.

The Entitlement Offer is non-renounceable and therefore your Entitlement will not be tradeable on the ASX or any other exchange, cannot be sold and is not otherwise transferable. This means that you will not receive any value for Entitlements you do not take up and your percentage shareholding in the Company will be reduced.

See Section 5.1 for information on restrictions on participation.

The Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Shares on behalf of a person in the United States.

2.3 Consider the Entitlement Offer carefully in light of your particular investment objectives and circumstances

The Entitlement Offer is being made pursuant to provisions of the Corporations Act (as notionally modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84* and *ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73*) which allow entitlement offers to be made without a prospectus or other disclosure document. This Retail Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an Application for New Shares offered under the Entitlement Offer.

As a result, it is important for you to read carefully and understand the information on Altamin and the Entitlement Offer made publicly available, prior to deciding whether to take up all or part of your Entitlement or do nothing in respect of your Entitlement. In particular, please refer to this Retail Offer Booklet and other announcements made available on the ASX website relating to Altamin.

Please consult with your stockbroker, accountant or other professional adviser if you have any queries or are uncertain about any aspect of the Entitlement Offer. You should also refer to the “Key Risks” section of the Investor Presentation included in Section 4.

2.4 How Eligible Retail Shareholders Can Accept the Entitlement Offer

2.4.1 If you wish to take up all of your Entitlement

If you wish to take up all of your Entitlement, please ensure that your Application Monies are received by the Share Registry by no later than 5:00pm (Sydney time) on Wednesday, 8 October 2025 by following the instructions set out on your personalised Entitlement and Acceptance Form.

If you take up your Entitlement, you may wish to also apply for Additional Shares under the Top-up Facility (subject to compliance with applicable laws and to the terms detailed in this Retail Offer Booklet) (see Section 2.6 for further information).

If you are unable to pay by BPAY® (for example if you are an overseas based Shareholder without an Australian bank account), you may pay by EFT by following the instructions set out in Section 2.7 and your personalised Entitlement and Acceptance Form.

If you take up and pay for all of your Entitlement, before the close of the Retail Entitlement Offer, it is expected that you will be issued New Shares on Monday, 13 October 2025.

Altamin’s decision on the number of New Shares to be issued to you will be final.

Altamin also reserves the right (in its absolute discretion) to reduce the number of New Shares issued if Altamin believes an applicant’s claim to be overstated or if an applicant or their nominees fail to provide information to substantiate their claims to Altamin’s satisfaction.

2.4.2 If you wish to take up part of your Entitlement

If you wish to take up part of your Entitlement and apply for New Shares, please ensure that your Application Monies are received by the Share Registry by no later than 5:00pm (Sydney time) on Wednesday, 8 October 2025 by following the instructions set out on the personalised Entitlement and Acceptance Form for the amount of New Shares you wish to apply for.

If you are unable to pay by BPAY® (for example if you are an overseas based Shareholder without an Australian bank account), you may pay by EFT by following the instructions set out in Section 2.7 and your personalised Entitlement and Acceptance Form.

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Eligible Retail Shareholders who do not take up their rights in full will not receive any value in respect of those rights they do not take up.

If you do not take up your Entitlement in full:

- you will have your percentage holding in the Company reduced as a result of dilution by the New Shares issued under the Entitlement Offer; and
- you will not be able to apply for any Additional Shares under the Top-up Facility.

2.4.3 If you wish to do nothing, in which case your Entitlement will lapse and you will receive no value for those lapsed Entitlements

Your Entitlement is non-renounceable, which means it is non-transferable and cannot be sold, traded on ASX or any other exchange, nor can it be privately transferred.

If you take no action, you will not be allocated New Shares and your Entitlement will lapse. Shareholders who do not take up their Entitlements will not receive any payment or value for those Entitlements they do not take up.

If you do not take up any of your Entitlement you will have your percentage holding in the Company reduced as a result of dilution by the New Shares issued under the Entitlement Offer.

2.5 Ineligible Retail Shareholders

All retail Shareholders who are not Eligible Retail Shareholders are ineligible retail Shareholders (**Ineligible Retail Shareholders**). Ineligible Retail Shareholders will not be entitled to participate in the Retail Entitlement Offer.

The Company has determined, pursuant to ASX Listing Rule 7.7.1, that it would be unreasonable on this occasion to extend the Retail Entitlement Offer to Ineligible Retail Shareholders, having regard to the number of Ineligible Retail Shareholders, the number and value of securities to be offered to Ineligible Retail Shareholders and the costs of complying with the legal and regulatory requirements which would apply to an offer of securities to Ineligible Retail Shareholders in the various jurisdictions in which they reside.

The Company obtained approval from ASIC to appoint the Nominee as nominee for the purposes of section 615 of the Corporations Act to sell New Shares which would otherwise have been available to Ineligible Retail Shareholders had they been eligible to participate in the Entitlement Offer (see Section 5.2). The Nominee is required to sell all the securities issued to it under paragraph 615(1)(b) of the Corporations Act and distribute to each of the Ineligible Retail Shareholders who did not participate in the Institutional Entitlement Offer their proportion of the proceeds of the sale (net of expenses). The Company will arrange for the proceeds of sale (if any), net of expenses, to be distributed to Ineligible Retail Shareholders in proportion to their Entitlements as at the Record Date.

2.6 Top-up Facility

If valid Applications received for New Shares under the Retail Entitlement Offer by the Retail Closing Date are less than the number of New Shares offered under the Retail Entitlement Offer (which includes any New Shares which would have been offered to Ineligible Retail Shareholders had they been eligible to participate in the Retail Entitlement Offer), a shortfall will arise (**Shortfall**).

Eligible Retail Shareholders who apply for their Entitlement in full will be entitled to apply for the New Shares comprising the Shortfall under the Top-up Facility (**Top-up Facility**) at the Offer Price (subject to compliance with applicable laws and to the terms detailed in this Retail

Offer Booklet) (**Additional Shares**). Eligible Retail Shareholders who do not subscribe for their full Entitlement and Ineligible Retail Shareholders will not be able to apply for Additional Shares under the Top-up Facility.

The allotment and issuance of Additional Shares under the Top-up Facility will always be subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable law.

There is no guarantee regarding the number of Additional Shares (if any) that will be available under the Top-up Facility. This will depend on the extent to which Eligible Retail Shareholders have taken up their Entitlement. If all Entitlements are taken up in full, then there will be no Additional Shares available under the Top-up Facility.

Successful Applications for Additional Shares will be satisfied out of any New Shares for which Applications have not been received from Eligible Retail Shareholders before the Retail Closing Date. In the event it is necessary to scale back Applications for Additional Shares (where there are more Applications for Additional Shares than there is Shortfall under the Retail Entitlement Offer) then the scale back will be in the Board's discretion.

Factors which the Board may take into account in determining any scale back include, but are not limited to:

- the total Application Monies received;
- the amount applied for by each Eligible Retail Shareholder;
- the number of Shares held by each Retail Eligible Shareholder at the Record Date; and
- any other such criteria as determined by the Board in its absolute discretion.

The Board also reserves the right, subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable law, to place any or all of the New Shares comprising the shortfall following the Top-up Facility to one or more investors within three months of the Retail Closing Date at a price not less than the Offer Price. Such investors may include institutional and high net worth investors and may also include various other parties introduced by the Company. In this circumstance, the Board reserves the right to issue the New Shares comprising the shortfall following the Top-up Facility at their discretion.

It is an express term of the Retail Entitlement Offer that Eligible Retail Shareholders who apply for Additional Shares are bound to accept a lesser number of Additional Shares than they applied for or may be allocated no Additional Shares at all. In both cases, excess Application Monies will be refunded without interest, provided that amount is more than \$2.

2.7 Payment

You can pay by BPAY® or EFT.

Cash and cheque payments will not be accepted. Receipts for payment will not be issued.

Altamin will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement.

Any Application Monies received for more than your Entitlement to New Shares, provided that amount is more than \$2, will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

Payment by BPAY® or EFT

For payment by BPAY® or EFT, please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions.

If you are paying by BPAY®, please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN or unique entitlement reference number specific to that holding. If you do not use the correct CRN or unique entitlement reference number specific to that holding your Application will not be recognised as valid.

If you are paying by EFT, please make sure you use the unique entitlement reference number on your personalised Entitlement and Acceptance Form. Failure to do so may result in your funds not being allocated to your Application and New Shares subsequently not issued.

Please note that when you pay by BPAY® or EFT:

- you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 2.8; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® or EFT payment is received by the Share Registry by no later than 5:00pm (Sydney time) on Wednesday, 8 October 2025. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration in the timing of when you make payment. Accordingly, it is recommended that you make your payment such that it is received in advance of 5:00pm (Sydney time) on Wednesday, 8 October 2025.

2.8 Representations by acceptance

3 Australian Taxation Considerations

Set out below is a general summary (**Summary**) of the key Australian income tax, GST and stamp duty implications of the Retail Entitlement Offer.

The Australian income tax comments in this Summary relate to the implications of the Retail Entitlement Offer for Eligible Retail Shareholders who:

- are residents of Australia (but not temporary residents) for Australian income tax purposes;
- hold their Shares and will hold their New Shares and Entitlements on capital account for Australian income tax purposes; and
- acquired (or are taken to have acquired) their existing Shares on or after 20 September 1985.

The Australian income tax comments in this Summary do not apply to Eligible Retail Shareholders who:

- are not residents of Australia or are temporary residents for Australian income tax purposes;
- hold their Shares or will hold their New Shares as revenue assets or trading stock for income tax purposes, such as banks, insurance companies and taxpayers carrying on a business of share trading;
- have acquired their Shares or will acquire their New Shares for the purposes of resale at a profit;
- acquired (or are taken to have acquired) their existing Shares before 20 September 1985;
- are subject to the Taxation of Financial Arrangements rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in respect of their Shares, New Shares or Entitlements;
- are subject to special tax rules, such as entities that are exempt from Australian income tax, partnerships, insurance companies or trusts that are subject to special taxation regimes (such as "attribution managed investment trusts" and trusts that are taxed as companies); or
- acquired their Shares or will hold their New Shares or Entitlements under an arrangement that constitutes an 'employee share scheme' for Australian income tax purposes.

This Summary is intended as a general guide only and is not an authoritative or exhaustive statement of all potential income tax, GST and stamp duty implications for each Eligible Retail Shareholder.

This Summary is not advice and should not be relied on as such. It also does not take account of any individual circumstances of any particular Eligible Retail Shareholder. Taxation is a complex area of law and the taxation consequences for each Eligible Retail Shareholder may differ depending on their own particular circumstances. Accordingly, Eligible Retail Shareholders should seek specific advice applicable to their own particular circumstances from their own financial or tax advisers.

Neither Altamin, nor any of its officers or advisers, accepts any liability or responsibility in respect of any statement concerning the taxation consequences of the Retail Entitlement Offer.

This Summary is based on the Australian income tax, GST and stamp duty laws in effect and administrative practices of the relevant revenue authorities as at the date of this Information Booklet. Future changes in Australian income tax, GST and stamp duty laws, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the Retail Entitlement Offer and an investment in the New Shares or the holding and disposal of the New Shares. This Summary does not address the income tax, GST or stamp duty implications of the Retail Entitlement Offer under the laws of any jurisdiction other than the laws of Australia.

3.1 Issue of Entitlements

The issue of the Entitlements should not of itself result in any amount being included in the assessable income of an Eligible Retail Shareholder.

3.2 Take up of Entitlements and applying for Additional Shares under the Top-up Facility

If you take up all or part of your Entitlements and, to the extent relevant, apply for Additional Shares under the Top-up Facility, you will be allocated New Shares. In this case:

- the Entitlement will cease to exist and a capital gains tax (**CGT**) event will occur, but any capital gain or loss made on the exercise of the Entitlement should be disregarded for CGT purposes;
- the New Shares (other than any Additional Shares under the Top-up Facility) acquired as a result of exercising the Entitlement should be treated for CGT purposes as having been acquired on the day on which the Entitlements are exercised;
- the Additional Shares (if any) acquired as a result of applying under the Top-up Facility should be treated for CGT purposes (including for the CGT discount) as having been acquired on the day on which the Additional Shares are issued or allotted; and
- the cost base (and reduced cost base) of the New Shares (including Additional Shares under the Top-up Facility) for CGT purposes should include the Offer Price payable by you for those New Shares (including Additional Shares) plus certain non-deductible incidental costs you incur in acquiring them (if any).

3.3 Lapse of Entitlement

If you do not take up all or some of your Entitlements, those Entitlements will lapse and you will not receive any consideration for the lapsed Entitlements. The lapsing of your Entitlements for no consideration should not have any tax implications.

3.4 New Shares

If you exercise all or some of your Entitlements and, to the extent relevant, apply under the Top-up Facility for Additional Shares, you will acquire New Shares. Any future dividends or other distributions made in respect of those New Shares should generally be subject to the same taxation treatment as dividends or other distributions made in respect of Shares held in the same circumstances.

On any future disposal of New Shares, you may make a capital gain or capital loss, depending on whether the capital proceeds of that disposal are more than the cost base (in the case of a capital gain) or less than the reduced cost base of those shares (in the case of a capital loss).

Any capital gain arising to Eligible Retail Shareholders who are individuals or trusts (other than trusts that are complying superannuation funds) can generally be reduced by 50% (after first offsetting any current year or prior year capital losses) if the New Shares are held for at least 12 months between the date the New Shares are treated as having been acquired (as outlined above) and the date of disposal for CGT purposes. Taxation of trusts and their beneficiaries is a complex area of the taxation law and trustees should seek specific advice in relation to the tax consequences arising for them (and their beneficiaries) of any capital gains of the trust.

For Eligible Retail Shareholders that are complying superannuation funds, any capital gain can generally be reduced by one-third (after first offsetting any current year or prior year capital losses) if the New Shares are held for at least 12 months between the date the New Shares are treated as having been acquired (as outlined above) and the date of disposal for CGT purposes.

The CGT discount is generally not available to Eligible Retail Shareholders that are companies.

A capital loss made by an Eligible Retail Shareholder can only be used to offset a capital gain made in the same or later income year (subject to satisfying any applicable loss utilisation tests). A capital loss cannot be used to offset other income nor carried back to earlier income years.

3.5 Provision of Tax File Number or Australian Business Number

We are authorised under the *Taxation Administration Act 1953* (Cth) and the *Income Tax Assessment Act 1936* (Cth) to collect TFNs and ABNs in connection with your shareholding in the Company.

If an Eligible Retail Shareholder has quoted their ABN, TFN or provided an exemption from quoting their TFN in respect of an existing Share, this quotation or exemption will also apply in respect of any New Shares acquired by that Eligible Retail Shareholder. While you are not required to quote your TFN and it is not an offence not to provide your TFN, tax may be required to be deducted by Altamin from any distributions to you at the highest marginal tax rate if an ABN or TFN has not been quoted, or an appropriate TFN exemption has not been provided.

3.6 GST

No liability to GST should arise for Eligible Retail Shareholders in respect of the issue, exercise or lapse of their Entitlement or the acquisition of New Shares pursuant to the Retail Entitlement Offer. If an Eligible Retail Shareholder incurs GST on acquisitions (e.g. GST on legal, financial or tax advice), to the extent that the acquisition relates to the exercise of the Entitlement or the acquisition of New Shares, they may not be entitled to claim input tax credits or may only be entitled to reduced input tax credits in relation to that GST. Eligible Retail Shareholders should seek independent tax advice in relation to their individual circumstances.

3.7 Brokerage and stamp duty

No Australian brokerage fee is payable by Eligible Retail Shareholders who accept their Entitlement. No stamp duty is payable by Eligible Retail Shareholders in respect of the issue, exercise or lapse of their Entitlement or the acquisition of New Shares pursuant to the Retail Entitlement Offer. This is provided that the acquisition of New Shares by Eligible Retail Shareholders pursuant to the Retail Entitlement Offer does not result in any Eligible Retail Shareholder (or any other person who holds shares in Altamin) alone or together with any

associated persons, related persons or as part of an associated transaction or associated transactions (as those terms take their meaning for Australian stamp duty purposes) having an aggregate interest in Altamin of 90% or greater.

ALTAMIN LAUNCHES ACCELERATED NON-RENOUNCEABLE ENTITLEMENT OFFER TO RAISE UP TO APPROXIMATELY \$6.46 MILLION (BEFORE COSTS)

Highlights

- Altamin to raise up to approximately \$6.46 million (before costs) via an accelerated non-renounceable entitlement offer, underpinned by strong support from the Company's largest shareholder, Victor Smorgon Group, which has committed to take up its full entitlements of approximately \$3.43 million.
- Eligible retail shareholders may subscribe for additional Shares under the Top-up Facility to the Entitlement Offer.¹
- Proceeds from the Entitlement Offer are proposed to predominantly be applied towards project development and related activities at the Company's Lazio Project and towards permitting related activities at the Gorno Project and to maintain the mine in good standing whilst the project is in a process to seek a JV partner or buyer.²

Altamin Limited (ASX:AZI; **Altamin** or **Company**) is pleased to announce that it will be undertaking an accelerated non-renounceable pro-rata entitlement offer of new fully paid ordinary shares in Altamin (**New Shares**) to eligible shareholders on the basis of 45 New Shares for every 100 existing fully paid ordinary Altamin shares (**Shares**) on issue at the record date, at an offer price of \$0.025 per New Share (**Offer Price**), to raise up to approximately \$6.46 million (before costs) (**Entitlement Offer**).

The funds raised from the Entitlement Offer will predominantly be applied towards exploration and related activities at the Company's Lazio Project and on limited working capital expenses to maintain the Gorno Project in good standing, as well as towards payment of expenses of the Entitlement Offer, general corporate expenses and working capital. The use of proceeds from the Entitlement Offer may be varied as the Company progresses the activities at the Lazio and at the Gorno Project. The Company's Board (**Board**) reserves the right to alter the way in which funds are applied.

Overview

The Entitlement Offer will comprise the issue of up to 258,526,303 New Shares (subject to rounding of fractional entitlements) at the Offer Price of \$0.025 per New Share, representing a 30.6% discount to the last traded price of shares of \$0.036 on 19 September 2025 (being the last trading day before this announcement) and a 25.7% discount to the 5-day volume weighted average price of Shares.

¹ The allotment and issuance of additional Shares under the Top-up Facility will always be subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable laws. In the event it is necessary to scale back applications for additional Shares (where there are more applications for additional Shares than there is shortfall under the Retail Entitlement Offer) then the scale back will be pro-rata to the shareholder's existing shareholding, in the Board's discretion.

² The balance of proceeds from the Offer proposed to be allocated to payment of expenses of the Entitlement Offer, general corporate expenses and working capital. The use of proceeds from the Entitlement Offer may be varied as the Company progresses Gorno's permitting activities, maintains the mine in good standing and progresses the sale or JV of the Gorno Project and in the case of no transaction, advances it towards Final Investment Decision. The Board reserves the right to alter the way in which funds are applied.

The Entitlement Offer comprises:

- an accelerated institutional component open to eligible institutional shareholders to be conducted today (22 September 2025) (**Institutional Entitlement Offer**); and
- a retail component open to eligible retail shareholders anticipated to be conducted from 29 September 2025 to 7:00pm (Sydney time) on 8 October 2025 (unless extended or withdrawn) (**Retail Entitlement Offer**).

The ratio and Offer Price for New Shares under the Retail Entitlement Offer are the same as for the Institutional Entitlement Offer. All entitlements will be rounded up to the nearest whole number of New Shares. The New Shares will rank equally with all other Shares on issue from the date of allotment, and Altamin will seek quotation of the New Shares on the ASX.

The Entitlement Offer is underpinned by strong support from members of the Victor Smorgon Group, comprising V B S Exchange Pty Ltd (ACN 109 106 201) (**VBS**) and Gannet Capital Pty Ltd (ACN 139 264 690) as trustee for the Victor Smorgon Partners Global Multi-Strategy Fund (**Gannet**) and Victor Smorgon Partners Pty Ltd (ACN 630 512 739).

The Victor Smorgon Group has voting power of 53.02% of the Company.

VBS and Gannet have each committed to subscribe for their full entitlements under the Entitlement Offer, resulting in approximately \$3.43 million in subscriptions for New Shares at the Offer Price under the Institutional Entitlement Offer in aggregate (representing 137,065,485 New Shares), subject to all applicable laws.

Eligible shareholders who do not take up their entitlement under the Entitlement Offer in full or in part will not receive any value in respect of those entitlements not taken up. The Entitlement Offer is non-renounceable, and rights are not transferrable and will not be able to be traded on the ASX or otherwise. The Entitlement Offer is not underwritten.

Further details regarding the Entitlement Offer, including details regarding the proposed use of funds, are detailed in the investor presentation released to ASX today (**Investor Presentation**) and will be set out in the Retail Offer Booklet that will be provided to eligible retail shareholders.

Commenting on the Entitlement Offer, Altamin's CEO, Geraint Harris, commented:

"Based on commitments received from VBS, we are confident that the Entitlement Offer provides Altamin with greater financial flexibility to build upon the promising work to date on at the Lazio Project by further advancing that project along the development curve.

This will also allow Altamin to continue to maximise the appeal of Gorno, whilst it looks to either joint venture, sell its interest, or progress the Gorno Project towards FID.

We are delighted that Victor Smorgon Group has shown its support by its members committing to take up their full entitlements under the Entitlement Offer, representing approximately \$3.43 million in aggregate, which reflects confidence in our renewed strategic direction and our potential to deliver significant value for our shareholders."

Institutional Entitlement Offer

VBS and Gannet will be invited to participate in the Institutional Entitlement Offer, which is being conducted today (22 September 2025), and have committed to subscribe for their full entitlements under the Entitlement Offer, resulting in approximately \$3.43 million in subscriptions for New Shares in aggregate.

The Shares will remain in a trading halt pending completion of the Institutional Entitlement Offer. The trading halt is proposed to be lifted pre-market tomorrow (23 September 2025).

Retail Entitlement Offer

The Retail Entitlement Offer will be open from 29 September 2025 to 7:00pm (Sydney time) on 8 October 2025 (unless extended or withdrawn) to eligible retail shareholders with a registered address in Australia, Italy, Japan, Mauritania, New Zealand, Singapore, Slovakia or the United Kingdom, who are not in the United States and are not acting for the account or benefit of a person in the United States. Full details regarding eligibility will be provided in the Retail Offer Booklet.

The Company has appointed Euroz Hartleys Limited (ACN 104 195 057; AFS Licence No. 230 052) (**Nominee**) to act as a nominee for the purposes of section 615 of the *Corporations Act 2001* (Cth) (**Corporations Act**), who is required to sell all the securities issued to it under paragraph 615(1)(b) of the Corporations Act and distribute to each of the ineligible foreign holders their proportion of the proceeds of the sale (net of expenses). There is no guarantee that any proceeds will be realised from the sale of the shares that would otherwise have been offered to ineligible shareholders.

Eligible retail shareholders who take up their entitlement in full can also apply for additional Shares in excess of their entitlement under a 'top-up' facility (**Top-up Facility**). Additional Shares will only be available where there is a shortfall between applications received from eligible retail shareholders and the number of New Shares proposed to be issued under the Retail Entitlement Offer. The allotment and issuance of additional Shares under the Top-up Facility will always be subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable laws. In the event it is necessary to scale back applications for additional Shares (where there are more applications for additional Shares than there is shortfall under the Retail Entitlement Offer) then the scale back will be in the Board's discretion.

Factors which the Board may take into account in determining any scale back include, but are not limited to:

- the total application monies received;
- the amount applied for by each eligible retail shareholder;
- the number of Shares held by each retail eligible shareholder at the record date; and
- any other such criteria as determined by the Board in its absolute discretion.

The Board also reserves, subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable laws, the right to place any or all of the Shares comprising the shortfall following the Top-up Facility to one or more investors within three (3) months of the closing date of the Retail Entitlement Offer at a price not less than the Offer Price. Such investors may include institutional and high net worth investors and may also include various other parties introduced by the Company. In this circumstance, the Board reserves the right to issue the Shares comprising the shortfall following the Top-up Facility at their discretion.

The Retail Offer Booklet is expected to be lodged on the ASX on 29 September 2025. The Retail Offer Booklet and accompanying personalised Entitlement and Acceptance Form will be sent electronically to those eligible retail shareholders who have elected to receive electronic communications from the Company.

Lazio Project (100% interest)

SOP-Li-B

Lazio Geothermal Brine Project

Simple, Scalable, Strategic

Key Strengths

A **world-class SOP project**, located in rural Lazio, 30km north of Rome, with a JORC resource containing potassium (K, 226mt of SOPE), lithium (Li, 2mt of LCE) and Boron (B, 38.4mt as Boric Acid).^a

Extensive historical exploration in the 1970s & 1980s, including **16 deep wells and production testing**, provides a **de-risked** opportunity for development, plus exploration growth potential.

High-grades of potassium in the brine make SOP extraction amenable to **simple processing** using off-the-shelf equipment & concentration of lithium & boron by-products make them amenable to conventional extraction.

Minimised surface disturbance, with **heat energy from geothermal brines utilised in processing**, and depleted brines re-injected into the well-field to significantly reduce waste products and environmental impacts.

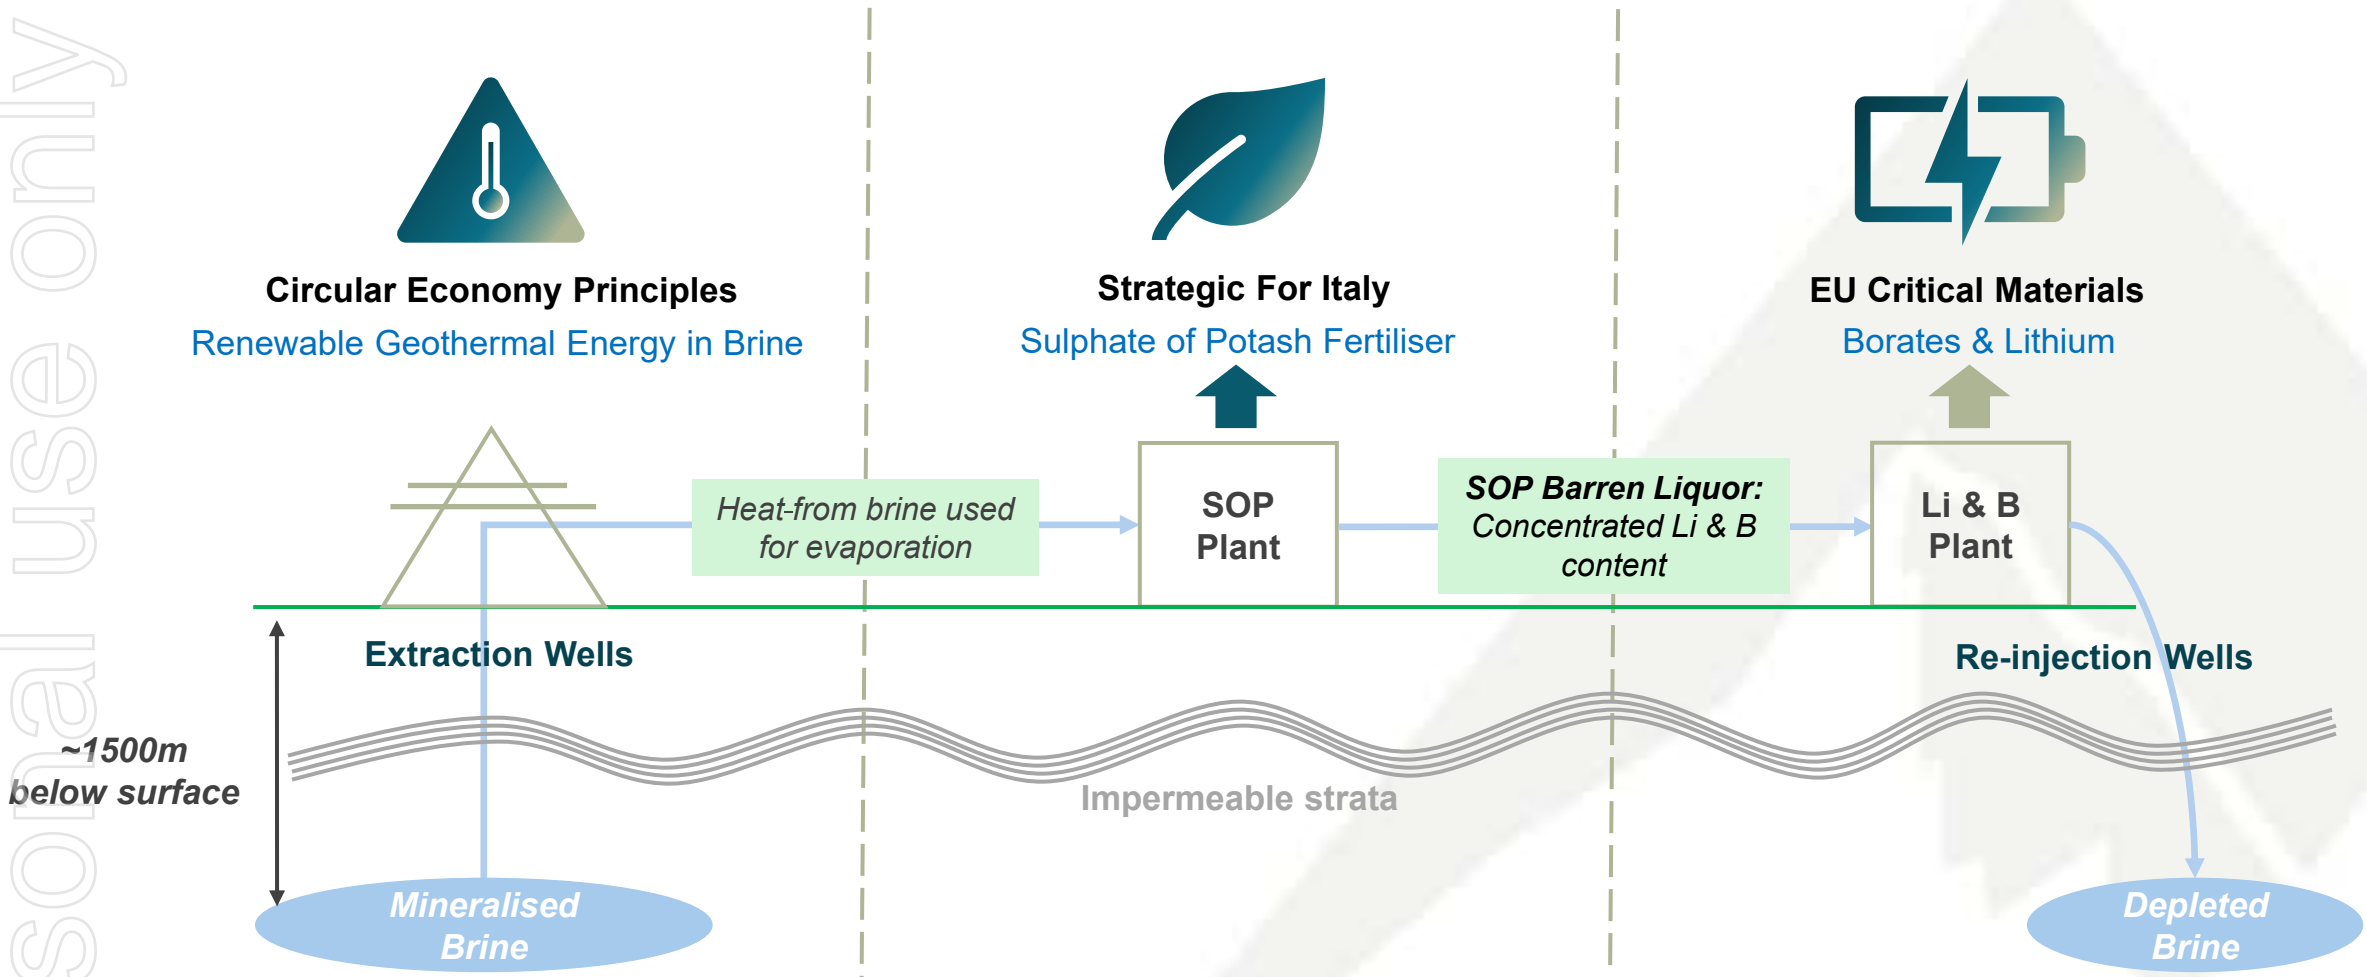

Aligned with Italy and the EU's strategic objectives to secure supply of **critical and strategic raw materials**.

a. SOPE: Sulphate of Potash Equivalent, LCE: Lithium Carbonate Equivalent. See Lazio JORC Resource summarised on slide 29.

Lazio Project: De-Risked Geology

Extensive drilling during 1970-80s provides a wealth of historical technical data, contributing to well-understood geology

- Lazio's **geothermal brine** is hosted within fractures of carbonate and volcanic rock at depths of ~1km.
- Minerals are concentrated in the brine due to the **high temperature** fluids leaching minerals from surrounding rocks
- Thick overlying rocks **seal the brine formation** and prevent the brine from escaping to surrounding rocks.
- **High-pressure brine flows** to surface through drill-holes which are cased to stop leakage
- Historical drilling intersected and repeatedly sampled the C1 brine formation, **representing a de-risked drill target**.
- Historically brine was re-injected back into the formation successfully and at high flow rates.

Gorno Project: Strategic Process

Targeting a commercial transaction for divestment or joint venture / strategic investment

- In January 2025, Altamin acquired Appian's interest in Vedra Metals Srl (the special purpose JV company established for the Gorno Project), resulting in Altamin's 100% ownership of the Gorno Project.
- As a condition of that transaction, Altamin agreed to initiate a process to undertake a direct or indirect sale of its interest or a strategic interest in the Gorno Project.
- Altamin has mandated London-based Argent Partners to lead the process of securing a sale and/or strategic partner. Argent Partners are in the process of identifying potential counterparties for early-stage due diligence access in relation to a potential sale or strategic investment.
- As an alternative to a divestment, Altamin may retain the Gorno Project and advance it through permitting to a Final Investment Decision and commercial production.

Up to approximately 258.5 million new fully paid ordinary shares (“New Shares”) to be issued under the Entitlement Offer, representing an increase in shares on issue by approximately 45%. Offer ratio of 45 New Shares for every 100 existing shares on issue on the record date.
Offer Price	<ul style="list-style-type: none"> New Shares issued under the Entitlement Offer will be issued at a price of \$0.025 per New Share (“Offer Price”), representing a 30.6% discount to the last traded price of shares of \$0.036 on 19 September 2025 (being the trading day before this Presentation) and a 25.7% discount to the 5-day volume weighted average price of shares up to 19 September 2025 .
Offer Details	<ul style="list-style-type: none"> Entitlement Offer comprises an accelerated institutional entitlement offer (“Institutional Entitlement Offer”) and a non-accelerated retail entitlement offer (“Retail Entitlement Offer”). The Entitlement Offer is underpinned by strong support from the Victor Smorgon Group (with voting power of 53.02% of the Company). Members of the Victor Smorgon Group have committed to subscribe for their respective full entitlements under the Entitlement Offer, resulting in approximately \$3.43 million in subscriptions for New Shares in aggregate (representing 137,065,485 New Shares), subject to all applicable laws. The Entitlement Offer is non-renounceable and entitlements will not be tradeable or otherwise transferable. Institutional Entitlement Offer to be conducted on 22 September 2025. Retail Entitlement Offer opens on 29 September 2025 and closes at 5:00pm (Sydney time) on 8 October 2025 (unless extended or withdrawn).
Top-up Facility and Other Matters	<ul style="list-style-type: none"> Eligible retail shareholders may subscribe for additional shares under a top-up facility to the Entitlement Offer (“Top-up Facility”). The allotment and issuance of additional shares under the Top-up Facility will always be subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable laws. In the event it is necessary to scale back applications for additional shares (where there are more applications for additional shares than there is shortfall under the Retail Entitlement Offer) then the scale back will be in accordance with the policy set out in the Company’s ASX announcement released today. The Board also reserves, subject to compliance with the Corporations Act and the ASX Listing Rules, the right to place any or all of the shares comprising the shortfall following the Top-up Facility to one or more investors within three (3) months of the closing date of the Retail Entitlement Offer a price not less than the Offer Price (Shortfall Offer). Such investors may include institutional and high net worth investors and may also include various other parties introduced by the Company. In this circumstance, the Board reserves the right to issue the shares comprising the shortfall following the Top-up Facility at their discretion. New Shares will rank equally with existing fully paid ordinary Altamin shares on issue. The Entitlement Offer is not underwritten.

- Please refer to the Company’s ASX announcement released today for details of eligible shareholders.

Potential control implications

- Victor Smorgon Group is the Company's largest shareholder, with voting power of 53.02%.
- VBS Exchange and Gannet (members of the Victor Smorgon Group) have committed to subscribe for their respective full entitlements under the Entitlement Offer, resulting in approximately \$3.43 million in subscriptions for New Shares in aggregate.
- The potential increase in the Victor Smorgon Group's voting power as a result of the Entitlement Offer will depend on how many New Shares are taken up under the Retail Entitlement Offer and the Top-up Facility, and how many New Shares comprising shortfall are placed by the Board in the three months after close of the Retail Entitlement Offer.

Lazio Project Notes

- Mineral Resources are based on JORC Code definitions.
- A cut -off grade of at and above 70 mg/l Li has been applied to the model as preliminary test work has shown that there are reasonable prospects of the minerals of interest being extracted economically above this grade.
- An effective porosity of 2.5% was assumed for areas outside of the influence of the volcanic pipes and 3.5% within a 250m radius of volcanic pipes intersected by drilling or interpreted from geophysical surveys.
- Resource blocks are not included if they are outside of a 5,000 m radius of wells with assay values.
- Rows and columns may not add up exactly due to rounding.
- LCE (lithium carbonate (Li₂CO₃) Equivalent) is calculated by multiplying Li by 5.323.
- SOPE (sulphate of potash (K₂SO₄) Equivalent) is calculated by multiplying K by 2.23.

Lazio Project : Processing Test-work

ANSTO test-work supports SOP recovery and confirms lithium, boron potential.

- ANSTO test-work **confirmed** that simulated C-1 brine closely matches actual well brine & supporting **SOP recovery** via the expected flowsheet.
- Conventional evaporation/precipitation comparable to DLE for lithium recovery with **environmental and technical advantages**.
- Test-work confirmed ability to recover **technical-grade lithium carbonate and boron** after SOP extraction from brine.
- Boron extraction **offers upside** revenue & strategic mineral opportunities
- Future test-work may investigate processing of lithium carbonate to **battery grade** purity.

Key Risks

Key Risks

This section details important factors and risks that could affect the financial and operating performance of the Company. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to the Entitlement Offer.

The risks included in this section are specific to the Company and could have a material adverse effect on the Company. The risks included in this section should not be considered an exhaustive list.

Entitlement Offer risks

The Entitlement Offer is not underwritten. Accordingly, there is no guarantee that the Company will raise the maximum total amount of funds sought, or that it will raise sufficient funds to continue as a going concern (see 'Going concern and solvency risk' below).

Further, there is no way to calculate the number of New Shares that may be available to be allotted and issued under the top-up facility to the Retail Entitlement Offer ("**Top-up Facility**"), and there is no guarantee of the extent to which other eligible shareholders will participate in the Top-up Facility, or that all available additional New Shares under the Top-up Facility will be placed.

If the Entitlement Offer does not raise the funds required for the Company to meet its stated objectives, the Company would be required to find alternative financing or curtail its budgeted activities. In those circumstances, there is no guarantee that alternative funding could be sourced in the time required or at all or that the Company would be able to successfully negotiate the terms of any debt, equity or hybrid funding arrangements in those circumstances.

Control risks

The Victor Smorgon Group presently has a disclosed voting power in the Company of 53.02%. Additionally, Mr Peter Edwards was recently appointed as non-executive Chairman of the Company as a representative of the Victor Smorgon Group.

Given the structuring of the Entitlement Offer, Victor Smorgon Group's voting power in the Company may increase up to a maximum of 62.07% following the Entitlement Offer (assuming that no other shareholder participates in the Entitlement Offer and Victor Smorgon Group takes up its full entitlement).

The Company understands that Victor Smorgon Group has no present intention to (i) change the business of the Company; (ii) inject further capital into the Company, (this may, however, change on the basis of the Company's future funding requirements); (iii) make any changes regarding the future employment of present employees of the Company; (iv) transfer any assets between the Company and Victor Smorgon Group or its associates; (v) redeploy the fixed assets of the Company; or (vi) significantly change the financial or dividend distribution policies of the Company. Notwithstanding this, Victor Smorgon Group's interests may not align with those of all other shareholders.

Potential for dilution

Upon completion of the Entitlement Offer, the number of Shares in the Company may increase from 574,502,892 to up to approximately 833,029,195 (subject to rounding of fractional entitlements). The issue of New Shares under a fully-subscribed Entitlement Offer would equate to an increase of all issued Shares by approximately 45% following completion of the Entitlement Offer.

This means that each Share will represent a lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Entitlement Offer, and the Directors do not make any representations with respect to such matters.

The last closing price of the Company's Shares on ASX on 19 September 2025 (being the last trading day prior to the date of this Presentation) of \$0.036 is not a reliable indicator as to the potential trading price of Shares (including New Shares) following completion of the Entitlement Offer.

Shareholders should note that if they do not take up their Entitlement under the Entitlement Offer in full, their holdings may be diluted as a result by up to 45% as compared to their holdings and number of Shares on issue at the date of this Presentation.

Key Risks (continued)

Going concern and solvency risk

The Company's unaudited cash position as at 31 August 2025 was \$0.744 million, with current cash resources expected to be exhausted by the end of September 2025. Therefore, the funds raised from the Entitlement Offer and, specifically, the Institutional Entitlement Offer, are required for the Company to maintain an appropriate cash position and continue as a going concern, in the absence of any other short-term funding options.

The Company is in the process of conducting its audit of the financial statements for the year ended 30 June 2025, which will be prepared on a going concern basis which contemplates the realisation of assets and settlement of liabilities in the normal course of business. In assessing the appropriateness of this assumption (if adopted), the Directors may be required to assume the Company will be able to attract new funding to undertake its business activities and to continue to fund its ongoing exploration interests in a timely manner and believe it is reasonable to assume the Company could continue to meet its planned expenditure based on recent and historical abilities to raise such capital.

The Board believes that, on completion of the Entitlement Offer (including in a scenario where only the Victor Smorgon Group subscribes for approximately \$3.43 million worth of New Shares pursuant to its commitment) the Company will have sufficient funds, or access to other short term funding options, to adequately meet the Company's current commitments and short term working capital requirements.

However, investors should be aware of the going concern risk to which the Company is exposed, even if it receives the subscription monies for the Victor Smorgon Group's commitment. While the Company is a participating partner in a successful research project submission under Mission Innovation 2.0 for its Lazio Project, a result of which in aggregate \$3.62 million (applying an exchange rate of E0.56:AUD) of eligible expenditure is refundable to the partners, the grant funding is receivable on a reimbursement basis and there is no certainty regarding the timing for those reimbursements that are due to the Company.

It is likely that further funding will be required by the Company in the medium to long term. An inability to obtain additional funding would have a materially adverse effect on the Company's business, and may give rise to significant uncertainty on the Company's ability to continue as a going concern.

Gorno Project strategic process risks

In January 2025, the Company completed the acquisition of Appian Italy B.V.'s ("**Appian**") interest in Vedra Metals Srl ("**Vedra**"), the special purpose joint-venture company established for the Gorno Project, resulting in the Company owning 100% of Vedra and the Gorno Project.

As part of that transaction, the Company agreed to initiate a process to undertake a direct or indirect disposal of its interest in either Vedra or the Gorno Project ("**Sale**").

The Company agreed to initiate a process to achieve a Sale and use reasonable commercial efforts to complete a Sale within 18 months of the date of completion of acquisition of its 100% interest in Vedra (being 18 months from 24 January 2025). As announced in its June Quarterly, the Company has appointed London-based Argent Partners to lead the sale process. Argent Partners are in the process of identifying potential counterparties for early-stage due diligence access in relation to the potential Sale which may include a joint venture, strategic investment or divestment.

On completion of any Sale, Appian has the right to elect to receive either:

- 15% of the net sale proceeds from a direct or indirect disposal of all or part of the interest in Vedra or the Gorno Project, being the cash proceeds and fair market value of any non-cash consideration received in connection with a Sale, less the costs of the Sale and the actual costs reasonably incurred to maintain or improve the value of the Gorno Project from completion of the acquisition to completion of the Sale ("**Net Proceeds**"); or
- a royalty comprised of five annual payments of US\$2 million payable once the Gorno Project achieves commercial production, which will be secured against the Gorno Project's assets from the earlier of Final Investment Decision ("FID") or the date security is granted over the Gorno Project in favour of a senior financier ("**Royalty**").

Key Risks (continued)

Whilst the Company considers that, due to its intimate knowledge of the Gorno Project, it is well placed to understand the condition of the Gorno Project and potential due diligence matters that may be material to a prospective buyer, there is no certainty that any such Sale will occur. Any Sale transaction(s) would be accompanied by the risks commonly encountered in undertaking the sales of resource projects, including execution risks (including the incurrence of potentially significant transaction costs, even where a Sale is not successful) or credit risks (where debt financing is used by a counterparty). The Company may also, depending on the success of undertaking a Sale, consider it beneficial to undertake further works or seek to obtain a Mining Licence at the Gorno Project to improve the value of the Gorno Project (see below). There is a risk that, notwithstanding the risk the Company may be unsuccessful in obtaining a Mining Licence, these efforts may not be successful in increasing interest in the Gorno Project, despite the Company having already deployed funds.

Where the sale process does not eventuate in a Sale, it may seek to develop the Gorno Project, subject to the ability to fund such development, or it may choose to relinquish the licence. The costs of care and maintenance of the Gorno Project, and/or progressing it to FID may be more than anticipated, and there is no guarantee FID will be achieved.

Depending on the level of commercial production, if achieved, the Company may be liable to pay the Royalty to Appian.

Following a Sale, having regard to the potentially significant transaction costs and the Net Proceeds, there is a risk that the Company may require further funding to conduct its operations. Any Sale would potentially be subject to shareholder approval as a condition precedent. Following a Sale which entails all or a majority of its interest in the Gorno Project, the Company's main asset will be the Lazio Project, which may not be suitable to a current shareholder's risk appetite and investment profile. Where the Company is able to undertake a Sale, there is a risk that shareholders that held Shares due to a desire to have exposure to the Gorno Project will no longer be interested in an investment in the Company and accordingly may seek to sell their Shares, which may lead to a reduction in the Share price.

Project permitting and other regulatory approvals

There is a risk that a Gorno Mining Licence is required to implement a Sale or, if a Sale is unsuccessful, to progress the Gorno Project to FID. There is no guarantee a Mining Licence can be obtained in a reasonable time frame and at a reasonable cost, or at all. If a Mining Licence is not received, the Company would have expended potentially significant funds for no material benefit. Alternatively, if a Mining Licence is received, additional studies, planning and design work may be required to fulfil permitting requirements.

The exploration activities for the Gorno Project are conducted under the authorisation of the Cime exploration permit ("**Cime Exploration Licence**"). Whilst the Technical Committee for Environmental Impact Assessment ("EIA") has issued a favourable opinion, subject to compliance with certain environmental conditions, in relation to the EIA submitted by the Company in February 2025, the Company has not yet received a final decree, and there is no guarantee that the decree will be received in a timely manner or at all.

In relation to the Company's Lazio Project, there is a risk that that an EIA procedure could identify issues that are not currently foreseen with preferred project locations, or that alternative suitable locations for upstream and reinjection wells and plant facilities that would enable an acceptable economic development outcome cannot be identified within the existing exploration licence project areas.

Generally, there is a risk that new applications for exploration or mining licences, or renewals of existing licences, will be slow, subject to conditions or not granted at all. In Italy, there is a particularly high risk around environmental approvals being granted and the speed with which and the conditions on which they may be granted, if they are granted at all.

There are no guarantees that the licence applications that are subject to renewal will be renewed, which would adversely affect the standing of a licence. Alternatively, applications, or renewals may be refused or may not be approved with favourable terms. Any of these events could have a materially adverse effect on the Company's prospects and the value of its assets.

Further, the Company is subject to other laws and regulations, including relating to exploration, mining, processing, development, tax, labour, subsidies, royalties, environmental impact and land access. Any materially adverse changes to government application, policy or legislation in relevant areas, or community or government attitudes could impact the assets, profitability or viability of the Company's projects.

The Company is not aware of any reviews or changes that would affect its current or proposed interests in its licences or proposed surface facilities. However, changes in political policies, law, and/or community attitudes on matters such as taxation, duties, royalties and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's exploration and/or development plans or its rights and obligations in respect of the tenements in which it holds interests. Any such government action may also require increased capital or operating expenditures and could prevent or delay development of the Company's projects.

Key Risks (continued)

Access

The Company will require access to land in order to conduct its proposed exploration activities for the Lazio Project, including with respect to land required for proposed drilling and plant locations. The Company has identified a number of potential parcels of land to allow it to carry out its proposed activities and discussions with the relevant landholders are well advanced, however there is no guarantee that agreements will be reached in a timely manner, on terms favourable to the Company, or at all. If the Company is not able to obtain the necessary access authorisations or agreements, this may impact the Company's decision to proceed with submission of its Environmental Impact Assessment for drilling at the Lazio Project and, in turn, impact the broader development timeline for the project.

Further, the Company may, if it decides to progress to commercial production at its Gorno Project instead of pursuing the current sale process, require access authorisations or agreements. The Company has entered into agreements with landholders, including option agreements to purchase properties which encompass areas required for the proposed project layout. The option agreements may expire before a decision to exercise or to progress to commercial production and there is no guarantee that new agreements will be negotiated on terms favourable to the Company, or at all. If the Company is not able to obtain satisfactory agreements, this may result in increased capital requirements or operating expenditures and could impact the viability of the Gorno Project.

Exploration

Exploration, by its nature, contains elements of significant risk. Ultimate success depends on the discovery and delineation of economically recoverable mineral resources, establishment of an efficient exploration operation and obtaining customary permitting and necessary regulatory approvals. The exploration activities may be affected by a number of factors including, but not limited to, geological conditions, seasonal weather patterns, technical difficulties and failures, availability of the necessary drilling rigs, technical equipment and appropriately skilled and experienced technicians, adverse changes in government policy or legislation and access to appropriate funding when required.

There can be no assurance that the Company's exploration activities in the Company's project areas, or at any other projects, tenements or databases that the Company may acquire in the future, will result in the discovery of any additional Mineral Resources. There is a risk that infill drilling and exploration drilling may produce unsatisfactory outcomes.

In the future, the Company may undertake various studies on the Company's projects depending on results of exploration and testing programs, including scoping, pre-feasibility and definitive feasibility studies.

These studies will be completed within parameters designed to determine the economic feasibility of the Company's projects within certain limits. There can be no guarantee that any of the studies will confirm the economic viability of the Company's projects or the results of other studies undertaken by the Company (e.g. the results of a feasibility study may materially differ to the results of a scoping study).

Further, even if a study determines the economics of the Company's projects, there can be no guarantee that the project will be successfully brought into production. In addition, the ability of the Company to complete a study may be dependent on the Company's ability to raise further funds to complete the study if required.

In the event that the Company's exploration programmes and/or studies prove to be unsuccessful this could lead to a diminution in value of its projects, a reduction in the cash reserves of the Company and the possible relinquishment of one or more of its licences.

Lazio Project development risks

The Company has prepared a business plan for the Lazio Project that incorporates assumptions regarding the timing and costs for location studies, scoping studies, technical studies and engineering, drilling, environmental permitting and community engagement components that would be required to progress the project to a final investment decision. The Company's current indicative development timeline for the Lazio Project is set out on slide 16.

The business plan is based on a 'single go forward option' that assumes the key components of the plan in relation to location and drilling will not materially change during the development timeline, which has been prepared taking into account the advice from expert consultants on likely timings. There is no guarantee that the key components of the plan or the estimates or assumptions in relation to the single go forward option costs and timing will not change and there is no guarantee that the Lazio Project can be developed within the indicative development timetable and budgeted costs or at all.

Key Risks (continued)

Mineral Resource risks

Mineral Resource estimates are expressions of judgment based on knowledge, experience and resource modelling. As such, Mineral Resource estimates are inherently imprecise and rely to some extent on interpretations made, and modifying factors and assumptions, including infill drilling results, which may ultimately prove to be inaccurate or may change over time as new information becomes available. Should the Company encounter mineralisation or geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the Company's operations, future plans, financial performance, value and ability to satisfy production and economic objectives of its projects. There is no guarantee that further development and drilling will upgrade the classification of current Mineral Resources or that further studies will convert those Mineral Resources into Ore Reserves.

The Company has identified a significant Mineral Resource estimate ("MRE") at the Lazio Project of approximately 392 kt of lithium metal or 2,087 kt of lithium carbonate equivalent (LCE), 38,400 kt of boron as boric acid, and 101,500 kt of potassium or 226,345 kt of sulphate of potash equivalent ("SOPE"). In particular, the Mineral Resource estimate has an exceptionally high potassium concentration, which averages 84,000 mg/l (Indicated) and 22,000 mg/l (Inferred), equivalent to approximately 187 kg and 49 kg of SOPE (K₂SO₄) per m³ of brine respectively. The Mineral Resource estimate lies wholly within the Company's granted six Exploration Licenses, which are 100% owned and operated by a wholly owned Italian subsidiary of the Company. This JORC compliant MRE and subsequent processing test-work is wholly dependent upon historical data collected in the 1970s and 1980s by Enel and obtained by Altamin via public documents. As part of its development process, the Company intends to confirm the priority areas of this data with new drilling, sampling and testing of the brines. While such drilling will target similar areas sub-surface, it is not guaranteed that comparable results will be obtained and the Company may need to revise all or part of its MRE for the Lazio Project. If drilling and sampling to deliver comparable results is not possible (including as a result of a lack of funding or permitting and land access restrictions) or the results are markedly less favourable than those used to inform the current JORC compliant MRE, then it may impact the ability for the project to advance to a DFS stage of development.

There can be no guarantee that any of the studies will confirm the economic viability of the Lazio Project or the results of other studies undertaken by the Company. Even if a study confirms the economic viability of the Lazio Project, there can be no guarantee that the Lazio Project will be successfully brought into production. There is no guarantee that any future project evaluation undertaken by the Company on its projects will result in any of its projects being economically viable. Even if the evaluation process demonstrates that a project is economically viable, further finance arrangements, agreements and regulatory approvals are required before any decision to commence mining can be made. Further, the ability of the Company to commission and complete a study may be dependent on the Company's ability to raise further funds.

Financing

The future capital requirements of the Company will depend on many factors, including budgets, the outcome of the potential sale process for the Gorno Project, whether further drilling and permitting is required, the results of exploration programs and technical studies. An inability to obtain additional funding would have a materially adverse effect on the Company's business and the price of its Shares.

There can be no assurance that the Company will be able to raise the funds sought, secure any additional funding or be able to secure funding on terms favourable to the Company.

Any additional equity financing obtained other than on a pro-rata entitlement basis will dilute shareholdings and the voting power of existing shareholders, and may be undertaken at a lower price than the Entitlement Offer price. Any increase in the number of Shares issued may have a depressive effect on the price of Shares. Any debt financing, if available, may involve restrictions on financing and operating activities.

Any inability to obtain additional funding, may have a material adverse effect on the Company's operations, its financial condition and performance and its ability to continue as a going concern.

Development risks

Possible future development of a mining operation at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, and contracting risk from third parties providing essential services.

Key Risks (continued)

If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement of hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Company will achieve commercial viability through the development or mining of its projects.

Development of a commercial mining operation is also dependent on the Company's ability to obtain necessary titles and governmental and other regulatory and third party approvals. There is no guarantee that these will be forthcoming, including current early stage discussions with potential strategic investors and/or offtake partners.

The risks associated with the development of a mine will be considered in full should the projects reach that stage and will be managed with ongoing consideration of stakeholder interest.

Risks outside the control of the Company, including force majeure, terrorism and other hostilities, sabotage, fire, flood or unrest, could have a material adverse impact. In the event that the crisis management plans are not implemented adequately, the impact of a crisis can be significant and can attract adverse media reports or reputation damage which would require additional costs or experience additional delays in responding and recovering. The Company may not be able to obtain adequate insurance at an appropriate price or at all.

Joint Venture risks

The Company may, in the future, become a party to joint venture arrangements in relation to its projects. There is a risk that, under these joint venture arrangements, the Company may be voted into programs and budgets which it does not necessarily agree with or have the cash resources to fund. The Company may also be required to contribute to any increases in capital expenditure requirements and/or operating costs. Furthermore, in the case of mining joint ventures, the situation could arise where any or all of the joint venture parties are unable to fund their pro rata contributions to expenditure, in which case the Company may be required to make increased contributions to ensure that the program proceeds.

Personnel and labour risks

The Company's success depends to a significant extent upon key management personnel, as well as other management and technical personnel, including those employed on a contractual basis. The loss of the services of certain personnel could adversely affect the Company and its activities. The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its key personnel. Key personnel are important to attaining the business goals of the Company. The Company believes that it has, in general, good relations with its employees and contractors. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment and an adequate handover process is not undertaken with their replacement.

Critical functions of the Company's operations may be affected in the short to medium term as replacement key personnel are sought, which can incur additional costs or experience loss of productivity during the recruitment and onboarding phases. The Company is also exposed to a general resources industry risk of not being able to appoint operational personnel on reasonable terms if labour costs in the resources industry increase. In these circumstances the Company's operating and financial performance may be adversely affected.

There can also be no assurance that the Company's operations or those of its contractors will not be affected by labour related problems in the future, such as disputes relating to wages or requests for increased benefits. There are risks associated with staff including attracting and retaining key personnel, and staff acting out of their permitted authority and with contractors not acting in accordance with the Company's policies.

Health, safety and security risk

Mining activities have inherent hazards and risks. The Company is committed to providing a safe and healthy workplace and environment for its personnel, contractors and visitors. The Company provides appropriate instructions, equipment, preventative measures, first aid information, medical facilities and training to all stakeholders through its health and safety management system.

Key Risks (continued)

A serious site health and safety incident may result in significant interruptions and delays to the Company's projects. A health and safety incident which results in serious injury, illness or death may also expose the Company to significant penalties and the Company may be liable for compensation. These liabilities may not be covered by the Company's insurance policies or, if they are covered, may exceed the Company's policy limits or be subject to significant deductibles. Also, any claim under the Company's insurance policies could increase the Company's future costs of insurance. Accordingly, any liabilities for workplace accidents could have a material adverse impact on the Company's liquidity and financial results and reputation. In addition, it is not possible to anticipate the effect on the Company's business of any changes to workplace health and safety legislation or directions necessitated by concern for the health of the workforce. Such changes may have an adverse impact on the financial performance and/or financial position of the Company.

Further, the production processes used in conducting any future mining activities can be dangerous. The Company has, and intends to maintain, a range of workplace practices, procedures and policies which will seek to provide a safe and healthy working environment for its employees, visitors and the community.

The Company has in place a group health and safety management system to ensure significant risks have robust sustainable safety critical controls. If the health and safety management system is not implemented or complied with adequately, there is a risk that a serious health and safety incident may occur which can result in delays in the project.

Environmental and climate risks

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceed. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall, may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulations. The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation.

There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive. Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

Climate change is a risk that the Company has considered, particularly related to its operations in the mining industry. The climate change risks particularly attributable to the Company include the emergence of new or expanded regulations associated with the transitioning to a lower carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. Climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

The Company will update the market if amended reports or submissions are required in relation to its climate change strategies.

Government policy

Mining and exploration activity in Italy is regulated by federal and regional governments with a consultation process that involves local government authorities. Mining activities are subject to the granting of a mining concession issued by the relevant regional government. A mining concession is granted at the absolute discretion of the relevant regional government. If the Company cannot obtain the appropriate mining concession or it is granted subject to onerous conditions, then the Company's ability to conduct its development operations may be adversely affected.

Climate change policies adopted by the European Union have created strong support for projects that will enable the European Union to secure the volumes of raw materials needed for its 'Green Deal Industrial Plan'. Changes to these policies, or to the Italian Government's endorsement of these policies, may adversely affect the Company's ability to obtain the appropriate regulatory approvals required to conduct its development operations.

Key Risks (continued)

Licence to operate

Poor environmental, social and governance (“ESG”) decisions, implementation of policies or practices can materially adversely impact a Company’s social licence to operate.

The Company’s continued reputation as a corporate citizen with the support of local stakeholders is important, particularly Italian national, regional and community support. Negative shifts in the perception of the Company may have an adverse impact on the financial performance and/or financial position of the Company.

Title and transfer

Some or all of the Company’s licences may be the subject of applications for extension in the future. If a licence is not extended, the Company may be adversely affected through loss of the opportunity to discover and/or develop any mineral resources on that licence. In addition, the Company cannot guarantee that it will be granted mining licences on conversion of any existing licences, which the Company will require in order to develop productive mining operations.

No production revenue

The Company has not recorded any revenue from the Gorno Project or the Lazio Project, or any of its other projects, nor has it commenced commercial production on any of its projects. There is no assurance that the Company will be profitable in the future or at all.

Commodity price and demand, and exchange rates

The demand for, and price of, commodities are highly dependent upon a variety of factors, including international supply and demand, actions taken by governments, global economic and political developments, exchange rates and the proper functioning of debt markets. In the event that the Company achieves exploration and development success leading to future production and/or processing activities, the revenue it will derive through the sale of metal products or other valuable minerals exposes the potential income of the Company to commodity price and exchange risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company, including the intensity of global manufacturing and construction activities, the supply of base metal products or other minerals which may be extracted from geothermal brines as a result of the commissioning of new mines and the decommissioning of others, the sentiment and conditions in the countries and sectors where the Company or its business or commercial partners will potentially sell their products, and the price and availability of appropriate substitutes. Further, the international prices of various commodities for which the Company’s projects are prospective, including base metal products, sulphate of potash and lithium may be denominated in United States dollars, whereas the income and expenditure of the Company are, and will be taken into account, in Australian dollars and Euros. This exposes the Company to the fluctuations and volatility of the exchange rate between the United States dollar, the Australian dollar and the Euro, as determined in international markets.

Foreign currency risk for operations

The Company is exposed to currency risk on financial assets and liabilities held in Italy. The Company’s expenditure obligations in Italy are primarily in Euros and, as a result, the Company is exposed to fluctuations between the Euro and the Australian dollar. This exposure is not subject to a hedging program. The Company is also exposed to foreign exchange risk arising from its operations in Italy.

Nature-related risks

The Company, as a participant in the mining sector, faces exposure to physical and transitional nature-related risks flowing from the deterioration of the natural environment.

Key Risks (continued)

Investment in capital markets

As with all stock market investments, there are risks associated with an investment in the Company. Securities listed on the stock market, and in particular securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of Shares regardless of the Company's performance. There can be no guarantee that there will be an active market for Shares or that the price of Shares will increase. There may be relatively few buyers or sellers of Shares on ASX at any given time. This may affect the volatility of the market price of Shares. It may also affect the prevailing market price at which Shareholders are able to sell their Shares. This may result in Shareholders receiving a market price for their Shares that is less or more than the price paid under the Entitlement Offer.

Insurance risks

The Company endeavours to maintain insurance within ranges of coverage in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance of risks associated with minerals exploration and production is not always available and, where available, the costs can be prohibitive. There is a risk that insurance premiums may increase to a level where the Company considers it is unreasonable or not in its interests to maintain insurance cover or not to a level of coverage which is in accordance with industry practice. The Company will use reasonable endeavours to insure against the risks it considers appropriate for its needs and circumstances. However, no assurance can be given that it will be able to obtain such insurance coverage in the future at reasonable rates or that any coverage it arranges will be adequate and available to cover claims.

Litigation risks

The Company is subject to litigation risks. All industries, including the minerals exploration and production industry, are subject to legal claims, with and without merit. Defence and settlement costs of legal claims can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of litigation processes, the resolution of any particular legal proceeding to which the Company is or may become subject could have a material effect on its financial position, results of operations or its activities.

Altamin Limited (ASX:AZI; **Altamin** or **Company**) is pleased to announce that it has successfully closed the accelerated institutional component (**Institutional Entitlement Offer**) of its 45 for 100 accelerated pro-rata non-renounceable entitlement offer of new fully paid ordinary shares (**New Shares**) in Altamin (**Entitlement Offer**), as announced on Monday, 22 September 2025. All New Shares offered under the Entitlement Offer will be issued at a price of \$0.025 (**Offer Price**).

The institutional component received strong support from members of the Victor Smorgon Group, comprising V B S Exchange Pty Ltd (ACN 109 106 201) (**VBS**) and Gannet Capital Pty Ltd (ACN 139 264 690) as trustee for the Victor Smorgon Partners Global Multi-Strategy Fund (**Gannet**) and Victor Smorgon Partners Pty Ltd (ACN 630 512 739) (together, the **Victor Smorgon Group**). The Victor Smorgon Group has voting power of 53.02% in the Company.

VBS and Gannet each subscribed for their full entitlements under the Institutional Entitlement Offer, resulting in \$3,426,637.13 in subscriptions for New Shares at the Offer Price in aggregate (representing 137,065,485 New Shares), which was consistent with their commitment that was announced on Monday, 22 September 2025.

The funds raised from the Entitlement Offer will predominantly be applied towards exploration and related activities at the Company's Lazio Project and on limited working capital expenses to maintain the Gorno Project in good standing, as well as towards payment of expenses of the Entitlement Offer, general corporate expenses and working capital. The use of proceeds from the Entitlement Offer may be varied as the Company progresses the activities at the Lazio Project and at the Gorno Project. The Company's Board (**Board**) reserves the right to alter the way in which funds are applied.

Commenting on the Institutional Entitlement Offer, Altamin's CEO, Geraint Harris, commented:

"We would like to extend our appreciation to Victor Smorgon Group for showing its support by subscribing for its full entitlements, resulting in subscriptions for approximately \$3.43 million in New Shares, which represents a strong vote of confidence in the Company's future direction."

Once open from Monday, 29 September 2025, eligible retail shareholders may consider acceptance of their entitlements at the same price as those under the Institutional Entitlement Offer, and I urge them to consider their participation carefully having regard to all the information contained in the Retail Offer Booklet."

Institutional Entitlement Offer

A total of 137,065,485 New Shares are to be issued under the Institutional Entitlement Offer, raising approximately \$3.43 million (before costs). New Shares issued under the Entitlement Offer will rank equally with existing fully paid ordinary Altamin shares as at their date of issue.

The Institutional Entitlement Offer is expected to settle on Thursday, 25 September 2025 and New Shares under the Institutional Entitlement Offer are expected to be allotted on the following business day, Friday, 26 September 2025.

Altamin shares are expected to resume trading on ASX from market open today (Tuesday, 23 September 2025) on an “ex-entitlement” basis.

Retail Entitlement Offer

The retail component of the Entitlement Offer (**Retail Entitlement Offer**) is to raise up to a further approximately \$3,036,250 (via the issue of up to approximately 121,460,818 New Shares (subject to rounding of fractional entitlements)).

Eligible retail shareholders, being shareholders at the record date of 7:00 pm (Sydney time) on Wednesday, 24 September 2025 with a registered address in Australia, Italy, Japan, Mauritania, New Zealand, Singapore, Slovakia or the United Kingdom who are not in the United States and are not acting for the account or benefit of a person in the United States will be invited to participate in the Retail Entitlement Offer at the same Offer Price and offer ratio (45 New Shares for every 100 existing fully paid ordinary Altamin shares (**Entitlement**)) as the Institutional Entitlement Offer.

The Retail Entitlement Offer will open on Monday, 29 September 2025 and close at 5:00pm (Sydney time) on Wednesday, 8 October 2025 (unless extended or withdrawn). Eligible retail shareholders can choose to take up all, part or none of their Entitlement. Full details regarding eligibility will be provided in the offer booklet to be released in respect of the Retail Entitlement Offer (**Retail Offer Booklet**).

Eligible retail shareholders who take up their Entitlement in full can also apply for additional Shares in excess of their Entitlement under a ‘top-up’ facility (**Top-up Facility**). Additional Shares will only be available where there is a shortfall between applications received from eligible retail shareholders and the number of New Shares proposed to be issued under the Retail Entitlement Offer. The allotment and issuance of additional Shares under the Top-up Facility will always be subject to compliance with the *Corporations Act 2001* (Cth) (**Corporations Act**), the ASX Listing Rules and all applicable laws. In the event it is necessary to scale back applications for additional Shares (where there are more applications for additional Shares than there is shortfall under the Retail Entitlement Offer) then the scale back will be in the Board’s discretion.

Factors which the Board may take into account in determining any scale back include, but are not limited to:

- the total application monies received;
- the amount applied for by each eligible retail shareholder;
- the number of Shares held by each retail eligible shareholder at the record date; and
- any other such criteria as determined by the Board in its absolute discretion.

The Board also reserves, subject to compliance with the Corporations Act, the ASX Listing Rules and all applicable laws, the right to place any or all of the Shares comprising the shortfall following the Top-up Facility to one or more investors within three (3) months of the closing date of the Retail Entitlement Offer at a price not less than the Offer Price. Such investors may include institutional and high net worth investors and may also include various other parties introduced by the Company. In this circumstance, the Board reserves the right to issue the Shares comprising the shortfall following the Top-up Facility at their discretion.

The Retail Offer Booklet is expected to be lodged on the ASX on Monday, 29 September 2025. The Retail Offer Booklet and accompanying personalised Entitlement and Acceptance Form will be sent electronically to those eligible retail shareholders who have elected to receive electronic communications from the Company.

Eligible shareholders who do not take up their Entitlement under the Entitlement Offer in full or in part will not receive any value in respect of those entitlements not taken up. The Entitlement Offer is non-renounceable, and rights are not transferable and will not be traded on the ASX or otherwise.

There may be additional announcements made by Altamin after the date of this Retail Offer Booklet and throughout the Entitlement Offer Period that may be relevant to your consideration of whether to take up or do nothing in respect of your Entitlement. Therefore, it is prudent that you check whether any further announcements have been made by Altamin (by visiting the ASX website at www.asx.com.au) before submitting your Application or making a payment by BPAY® or EFT to take up your Entitlement.

No party other than Altamin has authorised or caused the issue of this Information, or takes any responsibility for, or makes, any statements, representations or undertakings in this Information.

This Information is important and requires your immediate attention.

You should read this Information carefully and in its entirety before deciding how to deal with your Entitlement. In particular, you should consider the risk factors outlined in the “Key Risks” section of the Investor Presentation included in Section 4, any of which could affect the operating and financial performance of Altamin or the value of an investment in Altamin.

You should consult your stockbroker, accountant or other professional adviser to evaluate whether or not to participate in the Entitlement Offer.

To the maximum extent permitted by law, the Company and its related bodies corporate, directors, officers, employees and agents disclaim and do not assume any obligation or undertaking to release any updates or revisions to the information in this Retail Offer Booklet to reflect any change in expectation or assumptions, and disclaim all responsibility and liability for any loss arising from use or reliance on this Retail Offer Booklet or its content (including, without limitation, liability for fault or negligence).

5.1 Eligible Retail Shareholders

This information contains an offer of New Shares to Eligible Retail Shareholders in a Permitted Jurisdiction and has been prepared in accordance with section 708AA of the Corporations Act (as notionally modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84* and *ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73*).

Eligible Retail Shareholders are those persons who:

- are registered as a holder of one or more existing Share(s) as at the Record Date;
- as at the Record Date, have a registered address on the Altamin share register in a Permitted Jurisdiction or are a person that the Company has determined in its discretion is an Eligible Retail Shareholder;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such a person holds Shares for the account or benefit of such person in the United States);
- did not receive an offer to participate (other than as nominee) in the Institutional Entitlement Offer; and

- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without a prospectus or other disclosure document or any lodgement, filing, registration or qualification.

Shareholders who are not Eligible Retail Shareholders are Ineligible Retail Shareholders.

Altamin reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

By applying for New Shares under the Retail Entitlement Offer (including making a payment by BPAY® or EFT), you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

5.2 Ineligible Retail Shareholders and the Nominee

This Retail Offer Booklet and accompanying Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such offers.

Altamin has decided that it is unreasonable to make offers under the Retail Entitlement Offer to Shareholders who have registered addresses outside a Permitted Jurisdiction, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. Altamin may (in its absolute discretion) extend the Retail Entitlement Offer to Shareholders who have registered addresses outside a Permitted Jurisdiction in accordance with applicable law.

The Company obtained approval from ASIC to appoint the Nominee as nominee for the purposes of section 615 of the Corporations Act to sell New Shares which would otherwise have been available to Ineligible Retail Shareholders had they been eligible to participate in the Retail Entitlement Offer. The Nominee is required to sell all the securities issued to it under paragraph 615(1)(b) of the Corporations Act and distribute to each of the Ineligible Retail Shareholders who did not participate in the Institutional Entitlement Offer their proportion of the proceeds of the sale (net of expenses). The Company will arrange for the proceeds of sale (if any), net of expenses, to be distributed to Ineligible Retail Shareholders in proportion to their Entitlements at the Record Date.

There is no assurance that the Nominee will be able to sell the New Shares issued pursuant to the Ineligible Retail Shareholders' Entitlements at a price that will result in those Shareholders receiving any net proceeds for their Entitlements such that Ineligible Retail Shareholders may receive no value for their Entitlements. Neither the Company nor the Nominee will be subject to any liability for failure to sell the New Shares that would have been offered to Ineligible Retail Shareholders or to sell them at a particular price. Where this Retail Offer Booklet has been dispatched to an Ineligible Retail Shareholder and where that jurisdiction's law, code or legislation prohibits or restricts in any way the making of the Entitlement Offer, this Retail Offer Booklet is provided for information purposes only.

5.3 Ranking of New Shares

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally in all respects with existing Shares on issue. The rights and liabilities attaching to the New Shares are set out in the Constitution, a copy of which is available at <https://www.altamin.com.au/corporate-governance>.

5.4 Risks

The Investor Presentation details important factors and risks that could affect the financial and operating performance of Altamin. You should refer to the “Key Risks” section of the Investor Presentation released to ASX on Monday, 22 September 2025 and also included in Section 4 of this Retail Offer Booklet. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Entitlement.

5.5 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been accepted.

5.6 No Entitlements trading

Entitlements are non-renounceable and so they cannot be traded on ASX or any other exchange, nor can they be privately transferred.

5.7 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

An announcement setting out the adjustments to the options exercise prices will be made at the relevant time.

For personal use only

The Company also intends to seek shareholder approval for the issue of further options and performance rights at its 2025 annual general meeting.

5.9 No Underwriting of the Entitlement Offer

The Entitlement Offer is not underwritten.

5.10 Potential dilution of Shareholders who do not take up Entitlements

You should note that if you do not participate in the Entitlement Offer, your Entitlement will lapse and your percentage holdings will be diluted accordingly.

5.11 Notice to nominees and custodians

If Altamin believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Entitlement Offer. Nominees and custodians should consider carefully the contents of that letter.

Altamin is not required to determine whether or not any registered holder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of existing Shares on issue or Entitlements.

Nominees and custodians may not distribute any part of this Retail Offer Booklet or take up Entitlements on behalf of persons in the United States, and may not permit any person in the United States or elsewhere outside a Permitted Jurisdiction to participate in the Entitlement Offer, except to beneficial shareholders who are International Institutional Investors in countries (other than the United States) where Altamin may determine it is lawful and practical to make the Retail Entitlement Offer and meet the criteria for Eligible Retail Shareholders (other than the requirement to be the registered holder of Shares at the Record Date).

The Company is not required to determine whether or not any registered Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee or custodian for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether the beneficiary in the Retail Entitlement Offer is an International Institutional Investor and indirect participation is compatible with the terms of this Retail Offer Booklet.

Persons acting as nominees or custodians for other persons must not take up any Entitlements on behalf of, or send this Retail Offer Booklet (or any part of it) or any other documents related to the Retail Entitlement Offer to, any person in the United States. Persons in the United States and persons acting for the account or benefit of persons in the United States (to the extent such persons are acting for the account or benefit of persons in the United States) will not be able to take up any of their Entitlements and may receive no value for any such Entitlements held.

5.12 Not investment advice

This Retail Offer Booklet is not a prospectus under the Corporations Act and has not been lodged with ASIC. It also is not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. Altamin is not licensed to provide financial product advice in respect of the New Shares. This Information does not purport to contain all the information that you may require to evaluate a possible Application for New Shares, nor does it purport to contain all the information which would be required in a prospectus prepared in accordance with the requirements of the Corporations Act. It should be read in conjunction with Altamin's other periodic statements and continuous disclosure announcements lodged with ASX, which are available on the ASX website.

The New Shares offered under this Entitlement Offer should be considered speculative. Before deciding whether to apply for New Shares, you should consider whether they are a suitable investment for you in light of your own investment objectives and financial circumstances and having regard to the merits or risks involved. If, after reading the Information, you have any questions about the Entitlement Offer, you should contact your stockbroker, accountant or other professional adviser.

5.13 Quotation and trading

Altamin has applied to ASX for official quotation of the New Shares in accordance with the ASX Listing Rule requirements. If ASX does not grant quotation of the New Shares, Altamin will repay all Application Monies (without interest).

Subject to approval being granted, it is expected that normal trading of New Shares allotted under the Retail Entitlement Offer will commence on Tuesday, 14 October 2025.

5.14 Continuous disclosure

Altamin is a 'disclosing entity' under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports.

Altamin is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, Altamin has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities. That information is available to the public from ASX and can be accessed at www.asx.com.au.

Some documents are required to be lodged with ASIC in relation to Altamin. These documents may be obtained from, or inspected at, an ASIC office.
