

EXCITE ACHIEVES RECORD MONTHLY SALES OF \$7.1M IN SEPTEMBER

Excite Technology Services Limited (Excite or the Company) (ASX:EXT) is pleased to announce that it has achieved record monthly sales with value of contracts totalling \$7.14 million in September 2025, marking a significant milestone in the Company's growth trajectory.

This achievement reflects strong demand across Excite's cybersecurity, digital forensics, and managed services offerings, with notable contributions from both government and enterprise sectors. The result underscores the effectiveness of Excite's strategic focus and operational execution.

Commenting on the achievement, Bryan Saba, CEO and Managing Director of Excite, said: "I'm incredibly proud of our team for reaching this milestone. It's a testament to their dedication, innovation, and relentless pursuit of excellence. This result would not have been possible without the strength of our partnerships—particularly with Nuix—whose technology and collaboration have been instrumental in delivering outcomes that matter."

Further, Mr. Saba added "The sales achievement is above and beyond our previous record set in June 2025 with ~\$3 million in sales. It's also demonstration of the adjustment to the Excite Strategy where there is increased emphasis on organic growth via the investment in our own Business Development & Capability, and embracing the unique Technology Partnerships Excite now has."

As a purpose driven company, Supporting a Safe Australia, Excite continues to build momentum as a trusted provider of secure technology solutions, with September's performance positioning the Company strongly for the remainder of FY26.
