Letter from the Chairman

On behalf of your Directors, I am pleased to invite you to participate in this renounceable pro-rata one-for-one Entitlement Offer at an issue price of \$0.005 per New Share, to raise up to approximately \$1.84 million (before costs) which is partially underwritten to \$1,000,000. Shareholders may choose to top-up their holdings by applying for additional New Shares (and free-attaching Quoted Options) under the Shortfall Offer.

As an adjunct to the recapitalisation of the Company it should also be noted that, subject to Shareholder approval at the upcoming annual general meeting in November 2025, the Board is recommending a name change of the Company to 'Erebus Resources Limited' reflecting its pivot away from being a dedicated lithium explorer.

The funds raised by the Entitlement Offer are intended by the Company to be applied primarily towards:

- heritage surveys and drilling at the Company's Yalgoo Project;
- geophysical activities, heritage surveys and drilling at the Company's Abbots North Project;
- general working capital; and
- costs of the Offers.

For further details on the proposed use of funds to be raised under the Entitlement Offer, please see Section 1.6 of this Prospectus.

Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders are entitled to subscribe for 1 New Share for every 1 Share held on the Record Date, being 5.00pm (AWST) on Monday, 13 October 2025. Participants in the Entitlement Offer will also be issued 1 Quoted Option for every 2 New Shares subscribed for under the Entitlement Offer and Shortfall Offer.

Shares issued under the Entitlement Offer will rank equally with existing Shares. The Quoted Options will be exercisable at \$0.015 each and expire 3 years from the date of issue.

The Entitlement Offer provides Eligible Shareholders with the opportunity to take up New Shares and Quoted Options proportional to their shareholding and mitigate the effect of dilution. Eligible Shareholders who have subscribed for their Entitlement in full may also apply for additional New Shares (and free-attaching Quoted Options) pursuant to the Shortfall Offer.

Underwriting

The Offer is partially underwritten by Mahe Capital Pty Ltd (**Mahe Capital** or **Underwriter**) for up to \$1,000,000. Accordingly, to the extent there remains any shortfall of New Shares and Quoted Options not taken up by Eligible Shareholders pursuant to the Entitlement Offer and Shortfall Offer, these Securities will be subscribed for pursuant to the terms of the Underwriting Agreement. Refer to Section 5.3 for a summary of the material terms and conditions of the Underwriting Agreement.

How to apply

The Entitlement Offer is scheduled to close at 5.00pm (AWST) on Thursday, 30 October 2025. Eligible Shareholders wishing to participate in the Entitlement Offer or Shortfall Offer must ensure that they have completed the Application by paying Application Monies before this time in accordance with the instructions set out on the Entitlement and Acceptance Form and Section 2 of this Prospectus. Eligible Shareholders who do not wish to participate may elect to sell all or a portion of their Entitlements which will trade on the ASX in accordance with the Timetable on page 2. The Company will announce the ASX code for trading Entitlements once these details have been confirmed.

Risks and additional information

The Prospectus includes further details of the Offers and the effect of the Offers on the Company, and a statement of the risks associated with investing in the Company. This is an important document and should be read in its entirety. If you have any doubts or questions in relation to the Prospectus you should consult your stockbroker, accountant, solicitor, or other suitably qualified professional advisor to evaluate whether or not to participate in the Offers.

Through this offer structure we have prioritised existing shareholders who continue to back our story which is soon entering a very exciting stage of drill testing. I welcome and encourage our Shareholders to take up their Entitlements, as I plan to do.

On behalf of the Company, we look forward to your continued support.

Yours faithfully

Hugh Thomas

Investment Overview

This Section is intended to highlight key information for potential investors. It is an overview only and is not intended to replace the Prospectus. Potential investors should read the Prospectus in full before deciding to invest in Securities.

Key Information	Further Information
<p>Transaction specific prospectus</p> <p>This Prospectus is a transaction specific prospectus for offers of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.</p>	Section 5.5
<p>Risk factors</p> <p>Potential investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risk factors of which investors should be aware are set out in Section 4. including (but not limited to) risks in respect of:</p> <ul style="list-style-type: none">• Future capital and funding requirements: The Company has no operating revenue and is unlikely to generate any operating revenue unless and until its projects are successfully developed and production commences. The future capital requirements of the Company will depend on many factors including its level of exploration activities and operational requirements. The Company believes its available cash and the net proceeds under the Offers should be adequate to fund its business development activities, exploration program and other Company objectives in the short term as stated in this Prospectus. However, the Company may require additional funding in the future in order to fund its activities and other Company objectives.• Exploration and development risk: Mineral exploration and development are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Mineral exploration and development involve substantial expenses related to locating and establishing mineral reserves, developing metallurgical processes, and operating mining and processing facilities at a particular site. Until a deposit is actually mined and processed, the quantity of mineral resources and grades must be considered as estimates only, and are expressions of judgement based on knowledge, mining experience, analysis of drilling results and industry best practices. The future exploration and development activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing	Section 4

Key Information	Further Information
<p>government regulations and many other factors beyond the control of the Company.</p> <ul style="list-style-type: none"> • Underwriting risk: The Entitlement Offer is partially underwritten by the Underwriter pursuant to the terms of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur (see Section 5.3(d) of the Prospectus for a summary of those events) the Underwriter may be able to terminate its underwriting commitments, which would consequently have an adverse impact on the amount of proceeds raised under the Entitlement Offer or result in the Entitlement Offer not proceeding at all. • Operational risks: The operations of the Company may be affected by various factors, including: <ul style="list-style-type: none"> ○ failure to locate or identify mineral deposits; ○ failure to achieve predicted grades in exploration and mining; ○ operational and technical difficulties encountered in mining; ○ insufficient or unreliable infrastructure, such as power, water and transport; ○ difficulties in commissioning and operating plant and equipment; ○ mechanical failure or plant breakdown; ○ unanticipated metallurgical problems which may affect extraction costs; and ○ adverse weather conditions. <p>In the event that any of these potential risks eventuate, the Company's operational and financial performance may be adversely affected.</p> • Joint venture risk: Several of the Company's projects are subject to joint venture arrangements. As with any joint venture, it is subject to various counterparty risks including failure by the joint venture counterparty, to act in the best interests of the joint venture. Any failure by the counterparty to act in the best interests of the joint venture may or may not give the Company contractual remedies, however, even if such remedies are available, they may be costly and time consuming to pursue. There is also a risk that if the Company is unable to make contributions under the joint venture, its interest may be diluted. • Resource estimation risk: A Mineral Resource estimate (inferred category) has been reported at the Company's Yalgoo Project. Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates of Mineral Resources that were valid when originally made may alter significantly when new information or techniques become available or when commodity prices change. In addition, by their very nature, Mineral Resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company employs industry-standard techniques including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk. <p>As further information becomes available through additional fieldwork and analysis, Mineral Resource estimates may change. This may result in</p>

<p>alterations to mining and development plans which may in turn adversely affect the Company.</p> <p>Whilst the Company intends to undertake exploration activities with the aim of expanding and improving the classification of the existing Mineral Resource and delineating new Mineral Resources, no assurances can be given that this will be successfully achieved. Notwithstanding that a Mineral Resource has been identified at the Yalgoo Project, no assurance can be provided that this can be economically extracted.</p>	
<p>Overview of the Offers</p> <p>This Prospectus is for an offer of New Shares and free attaching Quoted Options (together, the New Securities) under the Entitlement Offer. The allocation policy for the Offers is in Section 1.4.</p> <p>Entitlement Offer</p> <p>The Entitlement Offer is a renounceable pro rata offer of 1 New Share for every 1 existing Share held by Eligible Shareholders on the Record Date, at an issue price of \$0.005 per New Share to raise up to approximately \$1.84 million (before costs).</p> <p>Shareholders may apply for additional New Shares under the Shortfall Offer (see below).</p> <p>Eligible Shareholders who are issued New Shares under the Entitlement Offer will also be issued 1 free attaching Quoted Option for every 2 New Shares issued under the Entitlement Offer. If you wish to sell some or all of your Entitlement on the ASX, provide instructions to your stockbroker regarding the Entitlement you wish to sell on the ASX. There is no guarantee that there will be any secondary market for your Entitlements or that any particular price will be paid for the Entitlements sold.</p> <p>Shortfall Offer</p> <p>Any New Shares and attaching Quoted Options (Shortfall Securities) not taken up pursuant to the Entitlement Offer (Shortfall) will form the Shortfall Offer. The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each New Share under the Shortfall Offer will be \$0.005 being the price at which New Shares are offered under the Entitlement Offer. Similarly, Quoted Options offered under the Shortfall Offer will be subject to the same terms as those offered under the Entitlement Offer.</p> <p>If the New Shares are not fully subscribed by Eligible Shareholders under the Entitlement Offer and Shortfall Offer, the Company reserves the right to place those New Shares (together with free attaching Quoted Options) within 3 months of the close of the Entitlement Offer to sophisticated or professional investors identified by the Company in addition to Eligible Shareholders who may apply for Shortfall Securities by completing the Entitlement and Acceptance Form, subject to compliance with the ASX Listing Rules.</p> <p>Underwriter Offer</p> <p>Pursuant to the Underwriting Agreement, the Entitlement Offer is partially</p>	<p>Sections 1.1, 1.2, 1.3, and 1.5</p>

1. Details of the Offers

1.1 Entitlement Offer

The Company is making an offer to all Eligible Shareholders to participate in a renounceable pro-rata entitlement offer to raise up to approximately \$1.84 million (before costs) by the issue of up to approximately 368,060,582 New Shares and 184,030,291 free attaching Quoted Options (subject to rounding) (together, the **New Securities**).

Entitlements under the Entitlement Offer will be determined on the basis of:

- (a) 1 New Share for every 1 Share held at the Record Date at an issue price of \$0.005 each; plus
- (b) 1 free Quoted Option for every 2 New Shares subscribed for,

and otherwise on the terms and conditions contained in this Prospectus.

The purpose of the Entitlement Offer is to:

- (a) provide Eligible Shareholders with the opportunity to take up Shares proportional to their shareholding and to mitigate the effect of dilution; and
- (b) provide the Company with additional funds to be attributed in accordance with the use of funds set out in Section 1.6.

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a Security, such fraction will be rounded up to the nearest whole Security.

A summary of the rights and liabilities attaching to the New Shares and Quoted Options offered under the Entitlement Offer are in Section 5.1 and 5.2, respectively. Shares issued upon exercise of the Quoted Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

1.2 Shortfall Offer

Eligible Shareholders may apply for additional New Shares in excess of their Entitlement by applying under the Shortfall Offer. Any New Shares and attaching Quoted Options not taken up by Eligible Shareholders pursuant to the Entitlement Offer (**Shortfall**) will form the Shortfall Offer. The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date.

If you do not wish to take up any part of your Entitlement, you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a shortfall between the aggregate Entitlements of Eligible Shareholders and the applications received from Eligible Shareholders.

Eligible Shareholders who wish to subscribe for New Shares (and attaching Quoted Options) in excess of their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form and by making payment for such Shortfall Securities in accordance with Sections 2.8 and 2.9.

Allocation of the Shortfall Securities will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement,

details of which are set out in Section 5.3. There is no guarantee that Eligible Shareholders will receive Shortfall Securities applied for under the Shortfall Offer.

A summary of the rights and liabilities attaching to the New Shares and Quoted Options offered under the Shortfall Offer are in Section 5.1 and 5.2, respectively. Shares issued upon exercise of the Quoted Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

1.3 Underwriting

The Company is party to an underwriting agreement with Mahe Capital dated 7 October 2025 (**Underwriting Agreement**), pursuant to which the Underwriter has agreed to partially underwrite the Entitlement Offer up to \$1,000,000 (**Underwritten Amount**).

Each of the Shares and Options to be issued to the Underwriter pursuant to the Underwriting Agreement will be issued on the same terms and conditions as the New Shares and Quoted Options being offered under the Entitlement Offer.

The Underwriter may, at its own cost, at any time appoint sub-underwriters to sub-underwrite the Entitlement Offer. No sub-underwriter will increase their shareholding to above 20% as a direct result of the issue of New Securities under the Offers.

A summary of the material terms of the Underwriting Agreement is in Section 5.3.

1.4 Allocation policy

The allocation policy adopted by the Company for the Offers is as follows:

- (d) **Step 1 (Entitlement Offer):** Eligible Shareholders apply for their Entitlements pursuant to the Entitlement Offer.
- (e) **Step 2 (Shortfall Offer):**
 - (i) Eligible Shareholders who apply for their Entitlements in full may apply for Shortfall Shares in excess of their Entitlement.
 - (ii) If there is sufficient Shortfall from Step 1 to satisfy Applications for Shortfall Securities, the Applications for Shortfall Shares may, at the discretion of the Underwriter, be satisfied in full or in part, subject to compliance with the requirements of the Corporations Act and the Listing Rules.

Allocation of the Shortfall Securities will be at the discretion of the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 5.3. If the Entitlement Offer is oversubscribed (by take up of Entitlements and Applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to Applications under the Shortfall Offer. The Company may in its absolute discretion determine to apply the scale back to the extent and in the manner it sees fit, which may include taking into account a number of factors including, but not limited to:

- (A) the size of your shareholding at the Record Date;

- For personal use only
- (B) the extent to which you have sold or purchased Shares since the Record Date;
 - (C) whether you have multiple registered holdings;
 - (D) the date on which your application was made; and
 - (E) the total number of applications and Shares subscribed for by Eligible Shareholders.

No New Shares will be issued to an Applicant under this Prospectus if the issue of New Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any Directors or other related parties of the Company unless prior Shareholder approval is received.

1.5 Underwriter Offer

This Prospectus includes a separate offer of Quoted Options to the Underwriter (or its nominee/s) of 5 Quoted Options for every \$1.00 raised under the Offers (the **Underwriter Options**). Accordingly, a minimum of 5,000,000 Underwriter Options (reflecting the Underwritten Amount of \$1,000,000) and a maximum of 9,201,515 Underwriter Options will be issued. The issue of the Underwriter Options are subject to Shareholder approval pursuant to Listing Rule 7.1.

The Underwriter Options are to be issued to the Underwriter (or its nominee) as partial consideration for the underwriting and lead managerial services provided by the Underwriter in connection with the Entitlement Offer and Shortfall Offer. Refer to Section 5.3 for a summary of Underwriting Agreement.

Only the Underwriter or its nominee/s may accept the Underwriter Offer.

The Underwriter Offer is being made under this Prospectus to remove the need for an additional disclosure document to be issued upon the sale or transfer of any Shares issued upon exercise of any Underwriter Options.

An application form in relation to the Underwriter Offer will be issued to the nominee/s of the Underwriter, together with a copy of this Prospectus.

The Underwriter Options issued under the Underwriter Offer will be in the same class and will rank equally in all respects with the Quoted Options being issued under the Entitlement Offer and Shortfall Offer. A summary of the rights and liabilities attaching to the Quoted Options (including the Underwriter Options) is in Section 5.2. Shares issued upon exercise of the Underwriter Options will be fully paid and will rank equally with the Company's existing Shares on issue at the date of this Prospectus.

The Company will apply for quotation of the Quoted Options, as summarised in Section 1.15.

1.6 Use of funds

The following indicative table sets out the proposed use of funds raised under the Entitlement Offer, assuming the Entitlement Offer is fully subscribed:

Proposed use of funds	\$	%
Heritage Surveys and drilling at the Company's Yalgoo Project	1,000,000	54
Geophysical activities, heritage surveys and drilling at the Company's Abbotts North Project	365,000	20
General working capital ¹	260,237	14
Expenses of the Offers ²	215,067	12
Total	1,840,304	100

Notes:

1. Working capital includes but is not limited to corporate office, administration, staff and operating costs, directors' fees, executive fees, ASX and share registry fees, legal, tax and audit fees, insurance and travel costs.
2. The expenses of the Offers includes ASIC fees, ASX quotation fees, Underwriter fees, legal and preparation expenses, printing mailing, registry and other expenses. Refer to Section 5.12 for details.
3. The above table is based on the assumption that the Entitlement Offer is fully subscribed. If the Entitlement Offer is not fully subscribed, and depending on the amount raised, the Company intends to scale back allocation to working capital and to exploration activities at the Company's Abbotts North Project.
4. The above table does not include any funds raised from exercise of the Quoted Options. To the extent that Quoted Options are exercised, the funds raised are intended to be applied to ongoing exploration and general working capital.

The above table is a statement of current intentions as at the date of this Prospectus. As with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including exploration results, market conditions, the development of new opportunities and/or any number of other factors, and actual expenditure levels, which may differ significantly from the above estimates.

1.7 Opening and Closing Dates

For the Entitlement Offer and the Underwriter Offer, the Company will accept Entitlement and Acceptance Forms and application form (in respect of the Underwriter Offer) from the date it makes the Prospectus available when the Entitlement Offer opens to Eligible Shareholders and until 5.00pm (AWST) on Thursday, 30 October 2025 or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules (**Closing Date**).

The Shortfall Offer may remain open for up to three months following the Closing Date.

1.8 Minimum subscription

There is no minimum subscription for the Offers.

1.9 Effect on control of the Company

(a) General

Section 606(1) of the Corporations Act prohibits a person, unless an exception applies, from increasing their voting power in the Company:

- (i) from 20% or below to above 20%; or
- (ii) from a starting point of above 20% and below 90%.

One of the exceptions to section 606(1) is where that increase occurs as a result of an issue under a disclosure document to an underwriter or sub-underwriter to the issue. Notwithstanding this exception, the Company notes that no investor or existing Shareholder is anticipated to hold a voting power of 20% or more as a result of the Offers.

(b) Underwriter

The number of New Securities that ultimately will be required to be taken up by the Underwriter, and, therefore, increase the Underwriter's shareholding in the Company as a result of the Entitlement Offer and associated underwriting, will depend on the extent to which Eligible Shareholders (and any other parties) take up:

- (i) Entitlements under the Entitlement Offer; and
- (ii) Shortfall under the Shortfall Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate Shortfall to Eligible Shareholders who have applied for Shortfall Securities, sub-underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Entitlement Offer such that neither the Underwriter, the sub-underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 20% after the issue of the Shortfall.

In the unlikely event no Eligible Shareholders participate in the Entitlement Offer and the Underwriter subscribes for the maximum potential amount of New Shares under the Underwriting Agreement, and no other Shares are issued, the Underwriter's voting power would increase from 0% to 35%. However, the Company considers it highly unlikely that there will be no participation by Eligible Shareholders in the Entitlement Offer.

The table below details the Underwriter security holding in the Company following its underwriting of the Entitlement Offer under several scenarios:

Eligible Shareholders take up under the Entitlement Offer	Total Shares held by Mahe Capital	Mahe Capital Voting Power (%)	Total Options held by Mahe Capital
100% take up	0	0	9,201,515
75% take up	92,015,146	12.50	55,209,087
50% take up	184,030,291	25.00	101,216,660
25% take up	200,000,000	30.30	107,300,379
0% take up	200,000,000	35.21	105,000,000

Notes:

1. Assumes the Underwriting Agreement is not terminated prior to settlement of the Entitlement Offer and the Underwriter complies with its obligations under the Underwriting Agreement.
2. Subject to rounding.
3. In addition to any Quoted Options received by the Underwriter (or its nominee/s) via subscribing for Shortfall, pursuant to the Underwriting Agreement, the Underwriter (or its nominee/s) will receive 5 Underwriter Options for every \$1.00 raised under the Offers as partial consideration for the provision of lead managerial and underwriting services provided in connection with the Offers.

The number of Securities held by the Underwriter in the table above shows the potential effect of the underwriting of the Entitlement Offer. It is highly unlikely, however, that no Eligible Shareholders will take up their Entitlements. The underwriting obligation and therefore potential shareholding of the Underwriter will reduce by a corresponding amount for the amount of Entitlements under the Entitlement Offer taken up by Eligible Shareholders and the number of Shares subscribed for by Eligible Shareholders under the Shortfall Offer.

No Eligible Shareholder or third party will have a Voting Power greater than 20% as a result of the completion of the Offers.

No sub-underwriter, will increase their shareholding to above 20% as a direct result of the issue of New Securities under the Offers. Where Shares are issued pursuant to the exercise of Quoted Options, the voting power of the sub-underwriters who exercise their Quoted Options will increase. The likelihood of Quoted Options being exercised is dependent on the price of Shares from time to time until the Quoted Options expire.

1.10 Potential dilution

Shareholders should note that if they do not participate in the Offers, their holdings are likely to be diluted (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement to New Shares	Shareholding if Entitlement not subscribed	% post Offers
Shareholder 1	10,000,000	2.72	10,000,000	10,000,000	1.36
Shareholder 2	5,000,000	1.36	5,000,000	5,000,000	0.68
Shareholder 3	2,500,000	0.68	2,500,000	2,500,000	0.34
Shareholder 4	1,250,000	0.34	1,250,000	1,250,000	0.17

The dilution effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting shortfall is not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

The above table also assumes that no Shares are issued, other than those offered pursuant to this Prospectus.

1.11 Substantial Shareholders

Based on publicly available information as at the Prospectus Date and to the extent known by the Company, those persons which together with their associates have a voting power in 5% or more of the Shares on issue are set out below:

Substantial Shareholder	At Prospectus Date		On completion of the Offers	
	Shares	Voting power (%)	Shares	Voting power (%)
Deutsche Rohstoff AG	69,931,473	19.00	139,862,946	19.00
Mr Timothy Pangbourne Bird	26,525,628	7.21	53,051,256	7.21

Notes:

1. Assumes 368,060,582 Shares on issue at the Prospectus Date.
2. Assumes 736,121,164 Shares on issue on completion of the Offers, and no further Shares are issued and none of the existing Options or Performance Rights vest and are converted into Shares prior to the Record Date or the Closing Date.
3. Assumes each of Deutsche Rohstoff AG and Timothy Pangbourne Bird take up their Entitlement in full under the Entitlement Offer and do not participate in the Shortfall Offer. As noted above, no Shortfall Securities will be issued to an Eligible Shareholder which would, if issued, result in them (together with their associates) increasing their voting power in the Company above 20%.

1.12 Entitlements under the Entitlement Offer

The Entitlement Offer is renounceable and therefore Eligible Shareholders can offer to sell or transfer any of their Entitlement on ASX or via an off-market transfer (or any other exchange or privately transferred).

There is no guarantee that there will be any secondary market for your Entitlements.

1.13 Issue date and dispatch

New Securities under the Entitlement Offer are expected to be issued on or before the date specified in the proposed timetable in this Prospectus.

Security holder statements will be dispatched at the end of the calendar month following the issue of the Securities under the Entitlement Offer.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue of Shortfall Securities is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

It is the responsibility of Applicants to determine their allocation prior to trading in the New Securities. Applicants who deal with New Securities before they receive their holding statements do so at their own risk.

1.14 Application Monies held on trust

All Application Monies received for the Shares under the Entitlement Offer and Shortfall Offer will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the Shares are issued. All Application Monies will be returned (without interest) if the Shares are not issued.

1.15 ASX quotation

Application has been or will be made for the official quotation of the Shares and Quoted Options offered by this Prospectus. If permission is not granted by ASX for the official quotation of the Shares offered by this Prospectus within three months after the date of this Prospectus (or such period as the ASX allows), the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus.

The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the ASX Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the ASX Listing Rules)). If these requirements are not met, the Quoted Options will be unquoted.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation to the Shares and Quoted Options is not to be taken in any way as an indication of the merits of the Company, the Shares or the Quoted Options.

1.16 CHESS

The Company participates in the Clearing House Electronic Sub-Register System, known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Shares.

If you are broker sponsored, ASX Settlement Pty Limited will send you a CHESS statement.

The CHESS statement will specify the number of Shares issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Shares.

If you are registered on the Issuer Sponsored sub-register, your statement will be dispatched by the Company's share registry and will contain the number of Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

1.17 SRN

Following the issue of the Quoted Options, you will be registered on the Issuer Sponsored sub-register and your statement will be despatched by the Share Registry and will contain the number of Quoted Options issued to you under this Prospectus and your security holder reference number.

An Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

1.18 Ineligible Foreign Shareholders

This Prospectus, and any accompanying Entitlement and Acceptance Form, do not, and is not intended to, constitute an offer of Securities in any place or jurisdiction in which, or to any

person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Securities under the Offers.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Company believes that it is unreasonable to extend the Entitlement Offer to Ineligible Foreign Shareholders. The Company has formed this view having considered:

- (a) the number and value of the Securities that would be offered to those Shareholders; and
- (b) the cost of complying with the legal requirements and the requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, Ineligible Foreign Shareholders will not be entitled to participate in the Entitlement Offer.

New Zealand

The New Securities are not being offered to the public within New Zealand other than to existing Shareholders of the Company with registered addresses in New Zealand to whom the offer of these New Securities is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021. In addition, for Shareholders who subscribe for New Shares the Company will issue Quoted Options for no consideration. The Entitlements are renounceable in favour of members of the public.

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. This Prospectus is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Germany

This document has not been, and will not be, registered with or approved by any securities regulator in the European Union. Accordingly, this document may not be made available, nor may the New Shares and Quoted Options be offered for sale, in Germany except in circumstances that do not require a prospectus under Article 1(4) of Regulation (EU) 2017/1129 of the European Parliament and the Council of the European Union (the "Prospectus Regulation").

In accordance with Article 1(4) of the Prospectus Regulation, an offer of New Shares and Quoted Options in Germany is limited:

- (i) to persons who are "qualified investors" (as defined in Article 2(e) of the Prospectus Regulation);
- (ii) to fewer than 150 natural or legal persons (other than qualified investors); or
- (iii) in any other circumstance falling within Article 1(4) of the Prospectus Regulation.

1.19 Notice to nominees and custodians

Nominees and custodians that hold Shares should note that the Entitlement Offer and Shortfall Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether

indirect participation by the beneficiary in the Entitlement Offer and Shortfall Offer is compatible with applicable foreign laws.

1.20 Risk factors

An investment in Securities should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are certain specific risks associated with an investment in the Company which are detailed in Section 4.

1.21 Taxation implications

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for Securities under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for Securities under this Prospectus.

1.22 Major activities and financial information

A summary of the major activities and financial information relating to the Company for the financial year ended 30 June 2025 can be found in the Annual Report announced on ASX on 22 September 2025.

The Company's continuous disclosure notices (i.e. ASX announcements) since 22 September 2025 are listed in Section 5.7.

Copies of the above documents are available free of charge from the Company. The Directors strongly recommend that Applicants review these and all other announcements prior to deciding whether or not to participate in the Offers.

1.23 Privacy

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the application and, if the application is successful, to administer the Applicant's holding of Securities in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the share registry, the Company's related bodies corporate, agents, contractors and third-party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your application (as applicable).

An Applicant has an entitlement to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests can be made in accordance with Principle 12 of the Australian Privacy Principles and may be made in writing to the Company's registered office.

Only the Underwriter or their respective nominees will be eligible to participate in the Underwriter Offer (refer to Section 2.7).

2.2 Eligible Shareholders wishing to accept Entitlement in full

If you wish to take up all of your Entitlement, you are required to make payment via BPAY® or EFT (as applicable) as set out in the Entitlement and Acceptance Form which can be accessed online at www.investorcentre.com/au.

Payment is due by no later than 5.00pm (AWST) on the Closing Date. Note that when paying by BPAY® or EFT you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

2.3 Eligible Shareholders wishing to accept Entitlement in full and participate in the Shortfall Offer

If you are an Eligible Shareholder and you wish to apply for New Shares in excess of your Entitlement under the Entitlement Offer by applying for Shortfall Shares, you are required to apply for more New Shares than the number shown in your personalised Entitlement and Acceptance Form which can be accessed online at www.investorcentre.com/au. To do this, make a payment for more than your Entitlement via BPAY® or EFT using the details provided on the Entitlement and Acceptance Form. The excess will be taken to be an application for Shortfall Shares and free attaching Quoted Options.

Any Shortfall Securities applied for pursuant to the Shortfall Offer will be issued in accordance with the allocation policy described in Section 1.4. The Company's decision on the number of Shortfall Securities to be allocated to you will be final.

Payment is due by no later than 5.00pm (AWST) on the Closing Date. Note that when paying by BPAY® or EFT you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

2.4 Eligible Shareholders wishing to take up only part of their Entitlement

If you only wish to take up part of your Entitlement you are required to make payment via BPAY® or EFT. Payment must be made by following the instructions on the personalised Entitlement and Acceptance Form which can be accessed online at www.investorcentre.com/au for the number of New Shares you wish to take up. If the Company receives an amount that is less than the offer price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full.

Payment is due by no later than 5.00pm (AWST) on the Closing Date. Note that when paying by BPAY® or EFT you are not required to submit the personalised Entitlement and Acceptance Form but are taken to make the statements on that form.

2.5 Sell all or part of your Entitlement

As the Entitlement Offer is renounceable, you can sell all or part of your Entitlement.

If you wish to take up only part of your Entitlement, follow the instructions on the Entitlement and Acceptance Form.

For the portion of your Entitlement you wish to sell, you must subsequently provide instructions to your stockbroker regarding the portion of your Entitlement you wish to sell on ASX.

2.6 Entitlements not taken up

If you do not wish to accept any of your Entitlement, you are not obliged to do anything. The number of Shares you hold and the rights attached to those Shares will not be affected should you choose not to accept any of your Entitlement.

2.7 Underwriter Offer

Only the Underwriter, or parties nominated by the Underwriter may accept the Underwriter Offer.

An application form in relation to the Underwriter Offer will be issued to the Underwriter or nominees of the Underwriter, together with a copy of this Prospectus.

2.8 How to Pay (Via BPAY® or EFT)

The price of \$0.005 per New Share is payable on acceptance of your Application.

If you wish to participate in the Offers and are resident in Australia, you must make your payment by BPAY® or Electronic Funds Transfer (EFT) using the payment details in your Entitlement and Acceptance Form which can be accessed online at www.investorcentre.com/au.

If you are an Eligible Shareholder and are resident in a jurisdiction other than Australia, your application may be made through Electronic Funds Transfer using the payment details in your Entitlement and Acceptance Form which can be accessed online at www.investorcentre.com/au.

Cash, cheques, bank drafts and money order payments will not be accepted. Receipts for payments will not be issued.

The Company will treat Applicants as applying for as many New Shares as their payment will pay for in full. If an Eligible Shareholder's payment will pay for more than their full Entitlement, the Company will treat the Eligible Shareholder as applying for their full Entitlement and the excess will be taken to be an application for Shortfall Shares pursuant to the Shortfall Offer. Any Application Monies received from Eligible Shareholders for more than their final allocation of Shares will be refunded except for where the amount is less than \$1.00 in which case it will be donated to a charity chosen by the Company. No interest will be paid on any Application Monies received or refunded.

Application Monies received from Eligible Shareholders will be held on trust until such time as the relevant New Shares are issued or the Application Monies are refunded.

To the fullest extent permitted by law, each Eligible Shareholder agrees that any Application Monies paid by them to the Company will not entitle them to any interest against the Company and that any interest earned in respect of Application Monies will belong to the Company. This will be the case, whether or not all or none (if any Offer is withdrawn) of the New Shares applied for by a person are issued to that person.

Payment by BPAY® should be made according to the instructions set out on the Entitlement and Acceptance Form using the BPAY® Biller Code and Customer Reference Number shown on the form. You can only make a payment via BPAY® if you are a holder of an account with an Australian financial institution that supports BPAY® transactions.

Payment by EFT should be made according to the instructions set out on the Entitlement and Acceptance Form using the unique payment reference number shown on the form.

The reference number shown on each Entitlement and Acceptance Form (Reference Number) is used to identify your holding. If you have multiple holdings you will have multiple Reference Numbers. You must use the Reference Number to pay for each holding separately. Failure to do so may result in an underpayment. If you pay by BPAY® or EFT and do not pay for your full Entitlement, the remaining Entitlement will form part of the Shortfall.

If you pay by BPAY® or EFT:

- (a) you do not need to return the Entitlement and Acceptance Form but are taken to have made the declarations on that form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered by your Application Monies.

You must ensure that your payment by BPAY® or EFT is received by 5.00pm (AWST) on the Entitlement Offer Closing Date. Your financial institution may implement cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. The Company is not responsible for any delay in the receipt of BPAY® or EFT payment. If Eligible Shareholders have more than one holding, they must login separately for each holding and use the Reference Number specific to the relevant holding. Alternatively, if Eligible Shareholders have requested a personalised Entitlement and Acceptance Form and have more than one holding, they will receive separate forms for each holding. If Eligible Shareholders do not use the correct Reference Number specific to that holding, or inadvertently use the same Reference Number for more than one of their holdings, their application will be recorded against the holding associated with Reference Number they use.

You should be aware that your financial institution branch may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment. It is your responsibility to ensure that your BPAY® or EFT payment is received by the Share Registry by no later than the relevant date by which funds are required to have been received.

Your BPAY® or EFT application cannot be withdrawn once received, except for in the limited circumstances provided for under the Corporations Act. No cooling off period applies.

2.9 Entitlement and Acceptance Form

The Company will make a copy of this Prospectus, together with the relevant Entitlement and Acceptance Form, available to all Eligible Shareholders which the Entitlement and Acceptance Form can be accessed online at www.investorcentre.com/au.

Completing and returning your Entitlement and Acceptance Form with the requisite Application Monies (if applicable), or making a payment via BPAY® or EFT will create a legally binding contract between the Applicant and the Company for the number of Securities accepted by the Company, and you will be deemed to have:

- (a) represented and warranted that you are an Eligible Shareholder, if your Entitlement and Acceptance Form is in respect of the Entitlement Offer;
- (b) represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Prospectus, does not prohibit you from being given the Prospectus;
- (c) agreed to be bound by the terms of the relevant Offer;
- (d) declared that all details and statements in the Entitlement and Acceptance Form are complete and accurate;
- (e) declared that you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Entitlement and Acceptance Form;
- (f) authorised the Company and its respective officers or agents, to do anything on your behalf necessary for the New Securities to be issued to you, including to act on instructions of the Company's share registry upon using the contact details set out in the Entitlement and Acceptance Form;
- (g) acknowledged that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that the New Securities are suitable for you given your investment objectives, financial situation or particular needs; and
- (h) acknowledged that the Securities offered under this Prospectus have not, and will not be, registered under the securities laws in any jurisdictions outside Australia.

3.3 Basis of Preparation

The pro forma balance sheet has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

The pro forma statement of financial position is based on the reviewed financial position as at 30 June 2025 and is adjusted to reflect the following assumptions:

- (a) the Entitlement Offer is fully subscribed and \$1,840,304 is raised (before costs);
- (b) 9,201,515 Underwriter Options are issued under the Underwriter Offer (assuming that the Offers are fully subscribed), which are recognised in share based payment reserve, valued using the Black Scholes Option Pricing model with inputs of volatility of 100%, risk free rate of 3.57% and an underlying share price of \$0.010; and
- (c) the estimated expenses of the Offers are \$266,091.

Other than in the ordinary course of business or as described above, there have been no other material changes to the Company's financial position between 30 June 2025 and the date of this Prospectus.

3.4 Market price of Shares

The highest and lowest closing market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with ASIC and the respective dates of those sales were:

Highest:	\$0.012 on 15 August 2025
Lowest:	\$0.006 on 6 August 2025 to 8 August 2025

The latest available market sale price of the Shares on ASX prior to the date of lodgement of this Prospectus with ASIC was \$0.01 per Share on 7 October 2025.

4. Risk Factors

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entities have implemented appropriate strategies, actions, systems and safeguards for known risks; however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which investors need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Investors should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

4.1 Risks specific to the Company

(a) Future capital and funding requirements

The Company has no operating revenue and is unlikely to generate any operating revenue unless and until its projects are successfully developed and production commences. The future capital requirements of the Company will depend on many factors including its level of exploration activities and operational requirements. The Company believes its available cash and the net proceeds under the Offers should be adequate to fund its business development activities, exploration program and other Company objectives in the short term as stated in this Prospectus. However, the Company may require additional funding in the future in order to fund its activities and other Company objectives.

In order to successfully develop its projects and for production to commence, the Company will require further financing in the future, in addition to amounts raised pursuant to the Offers. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market price (or price per Share pursuant to the Offers) or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its activities and this could have a material adverse effect on the Company's activities, including resulting in its tenements being subject to forfeiture, and could affect the Company's ability to continue as a going concern.

The Company may undertake additional offerings of Shares and of securities convertible into Shares in the future. The increase in the number of Shares issued and outstanding and the possibility of sales of such Shares may have a depressive effect on the price of Shares. In addition, as a result of such additional Shares the voting power of the Company's existing Shareholders will be diluted.

(b) Exploration and development risk

Mineral exploration and development are high-risk undertakings. There can be no assurance that exploration and development will result in the discovery of further mineral deposits. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Mineral exploration and development involve substantial expenses related to locating and establishing mineral reserves, developing metallurgical processes, and operating mining and processing facilities at

a particular site. Until a deposit is actually mined and processed, the quantity of mineral resources and grades must be considered as estimates only, and are expressions of judgement based on knowledge, mining experience, analysis of drilling results and industry best practices. The future exploration and development activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

Further to the above, the future development of mining operations at the Company's projects (or any other current or future projects that the Company may have or acquire an interest in) is dependent on a number of factors and avoiding various risks, including, but not limited to the ability of the Company to repay its existing debt facilities, the mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, risk of access to the required level of funding and contracting risk from third parties providing essential services.

In addition, the construction of any proposed development may exceed the expected timeframe or cost for a variety of reasons out of the Company's control. Any delays to project development could adversely affect the Company's operations and financial results and may require the Company to raise further funds to complete the project development and commence operations.

(c) **Underwriting risk**

The Entitlement Offer is partially underwritten by the Underwriter pursuant to the terms of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur (see Section 5.3(d) of the Prospectus for a summary of those events) the Underwriter may be able to terminate its underwriting commitments, which would consequently have an adverse impact on the amount of proceeds raised under the Entitlement Offer or result in the Entitlement Offer not proceeding at all.

(f) **Operational risks**

The operations of the Company may be affected by various factors, including:

- (i) failure to locate or identify mineral deposits;
- (ii) failure to achieve predicted grades in exploration and mining;
- (iii) operational and technical difficulties encountered in mining;
- (iv) insufficient or unreliable infrastructure, such as power, water and transport;
- (v) difficulties in commissioning and operating plant and equipment;
- (vi) mechanical failure or plant breakdown;
- (vii) unanticipated metallurgical problems which may affect extraction costs; and
- (viii) adverse weather conditions.

In the event that any of these potential risks eventuate, the Company's operational and financial performance may be adversely affected.

(g) **Joint venture risk**

Several of the Company's projects are subject to joint venture arrangements. As with any joint venture, it is subject to various counterparty risks including failure by the joint

venture counterparty, to act in the best interests of the joint venture. Any failure by the counterparty to act in the best interests of the joint venture may or may not give the Company contractual remedies, however, even if such remedies are available, they may be costly and time consuming to pursue. There is also a risk that if the Company is unable to make contributions under the joint venture, its interest may be diluted.

(h) **Resource estimation risk**

A Mineral Resource estimate (inferred category) has been reported at the Company's Yalgoo Project. Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates of Mineral Resources that were valid when originally made may alter significantly when new information or techniques become available or when commodity prices change. In addition, by their very nature, Mineral Resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company employs industry-standard techniques including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk.

As further information becomes available through additional fieldwork and analysis, Mineral Resource estimates may change. This may result in alterations to mining and development plans which may in turn adversely affect the Company.

Whilst the Company intends to undertake exploration activities with the aim of expanding and improving the classification of the existing Mineral Resource and delineating new Mineral Resources, no assurances can be given that this will be successfully achieved. Notwithstanding that a Mineral Resource has been identified at the Yalgoo Project, no assurance can be provided that this can be economically extracted.

4.2 Mining industry risks

(i) **Tenure, access and grant of applications**

Mining and exploration tenements are subject to periodic renewal. There is no guarantee that current or future tenements or future applications for production tenements will be approved. Tenements are subject to the applicable mining acts and regulations in Western Australia. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of any tenement comprising a project. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

(j) **Metallurgy**

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;
- (ii) developing an economic process route to produce a metal and/or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.

(k) **Environmental risks**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(l) **Commodity and currency price risk**

As the Company's potential earnings will be largely derived from the sale of mineral commodities, the Company's future revenues and cash flows will be impacted by changes in the prices and available markets of these commodities. Any substantial decline in the price of those commodities or in transport or distribution costs may have a material adverse effect on the Company and the value of its Shares. Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company.

These factors include current and expected future supply and demand, forward selling by producers, production cost levels in major mineral producing centres as well as macroeconomic conditions such as inflation and interest rates.

(m) **Unforeseen expenditure risk**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(n) **Native title, First Nations and cultural heritage**

The effect of the present laws in respect of native title that apply in Australia is that the Company's tenements may be affected by native title claims or procedures. This may preclude or delay granting of exploration and mining tenements or the ability of the Company to explore, develop and/or commercialise the resources on the Company's tenements. Considerable expenses may be incurred negotiating and resolving issues, including any compensation arrangements reached in settling native title claims lodged over any of the tenements held or acquired by the Company.

The presence of Aboriginal sacred sites and cultural heritage artefacts on the Company's tenements is protected by State and Commonwealth laws. Any destruction or harming of such sites and artefacts may result in the Company incurring significant fines and Court injunctions, which may adversely impact on exploration and mining activities. The Company will conduct surveys before conducting exploration work which could disturb the surface of the land. The Company's tenements may contain sites of cultural significance which will need to be avoided during field programs and any resulting mining operations. The existence of such sites may limit or preclude future exploration or mining activities on those sites and delays and expenses may be experienced in obtaining clearances.

The Company understands the importance of establishing and maintaining positive relationships with all affected by any future exploration activities, particularly with the Indigenous peoples whose lands we may operate on.

The Directors will closely monitor the potential effect of first nation owned land, native title determinations and claims and cultural heritage matters involving tenements in which the Company has or may have an interest and will undertake such heritage surveys and seek such consents as are required to comply with these obligations.

(o) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(p) **Conflicts of interest**

Some of the Company's Directors also serve as directors or officers, or have significant shareholdings in, other companies involved in natural resource exploration and development or mining-related activities. To the extent that such other companies may participate in ventures in which the Company may participate or in ventures in which the Company may seek to participate, the Directors and officers may have an actual or perceived conflict of interest.

4.3 Risks relevant to the Offers

(a) **Quotation risk**

The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the Listing Rules)).

The Company makes no guarantee that any such application for quotation will be successful and there is a risk that the Company will not be able to satisfy the ASX requirements for quotation. In the event that the Company is unable to satisfy the ASX requirements, the Quoted Options will not be quoted. If the Quoted Options are admitted to official quotation by ASX, the price of the Quoted Options is subject to uncertainty and there can be no assurance that an active market for the Quoted Options will develop or continue after the Offers.

(b) **Option risk and dilution**

Options are, by their nature, only of value at times when the exercise price is lower than the price of the underlying Shares. There is no guarantee that the Quoted Options offered under this Prospectus will, at any particular time, have an exercise price which is lower than the price of the Shares.

There is a risk that the Quoted Options may expire at a time when they have little or no value.

On completion of the Offers, assuming the Offers are fully subscribed, there will be up to approximately 193,231,806 Quoted Options on issue, including the Underwriter Options. If exercised, these Quoted Options will be converted into Shares thereby causing the shareholdings of Shareholders to be diluted by up to 26.25% (on the basis that the Offers are fully subscribed and no other Securities are issued or exercised at the date of this Prospectus).

However, each Quoted Option has an exercise price of \$0.015 which means that the Company will receive additional funds of up to approximately \$2,898,477 (before costs) upon exercise of the Quoted Options, assuming all Quoted Options the subject of the Offers are issued and subsequently exercised. There is no certainty that Quoted Options, if issued, will be exercised in full, or at all.

4.4 General risks

(a) **General economic climate**

Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors and, in particular, by exchange rate movements.

(b) **Securities investments**

Applicants should be aware that there are risks associated with any securities investment. The prices at which the Company's Shares trade may be above or below the issue price of the Offers and may fluctuate in response to a number of factors. Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Shares regardless of the Company's operational performance.

(c) **Government and legal risk**

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine.

The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company.

(d) **Litigation risks**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. As at the date of this Prospectus, there are no material legal proceedings affecting the Company and the Directors are not aware of any legal proceedings pending or threatened against or affecting the Company.

(c) **Climate change risks**

Climate change is a risk the Company has considered, particularly related to its operations in the mining industry. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and

limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and

- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(e) **Force majeure**

Force majeure is a term used to refer to an event beyond the control of a party claiming that the event has occurred. Significant catastrophic events – such as war, acts of terrorism, pandemics, loss of power, cyber security breaches or global threats or natural disasters – such as earthquakes, fire or floods or the outbreak of epidemic disease – could disrupt the Company's operations and interrupt critical functions, or otherwise harm the business. To the extent that such disruptions or uncertainties result in delays or cancellations of the deployment of the Company's products and solutions, its business, results of operations and financial condition could be harmed.

(f) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation point of view and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of applying for Securities under this Prospectus.

(g) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of its Securities.

4.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued under the Offers carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their suitably qualified professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

5. Additional information

5.1 Rights and liabilities attaching to Shares

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) General meeting and notices

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Ranking of Shares

At the date of this Prospectus, all Shares are of the same class and rank equally in all respects. Specifically, the Shares issued pursuant to this Prospectus will rank equally with existing Shares.

(c) Voting rights

Subject to any rights or restrictions, at general meetings of Shareholders or classes of shareholders:

- (i) every Shareholder present and entitled to vote may vote in person or by attorney, proxy or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder, has one vote for every fully paid Share held and a fraction of one vote for each partly paid-up Share held, equal to the proportion which the amount paid up on that Share (excluding amounts credited) is to the total amounts paid up and payable (excluding amounts credited) on that Share.

(d) Dividend rights

Subject to the rights of the holders of any Shares with special rights to dividends, the Directors may determine or declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable in respect of such Shares.

No dividend carries interest against the Company and the declaration of Directors as to the amount to be distributed is conclusive.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company

and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

(e) **Variation of rights**

If at any time the share capital is divided into different classes of Shares the rights attaching to the Shares may, subject to their terms of issue, only be varied by the consent in writing of the holders of three-quarters of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares in that class.

(f) **Transfer of Shares**

Shares can be transferred upon delivery of a proper instrument of transfer to the Company or by a transfer in accordance with the ASX Settlement Operating Rules. Unless the transfer occurs via a proper ASTC transfer, the instrument of transfer must be in writing, in any usual or common form, or in any other form that the Directors approve. Until the transferee has been registered, the transferor is deemed to remain the holder, even after signing the instrument of transfer.

In some circumstances, the Directors may refuse to register a transfer if upon registration the transferee will hold less than a marketable parcel. The Board may refuse to register a transfer of Shares upon which the Company has a lien. The Company must refuse to register a transfer of Shares where the Corporations Act, Listing Rules or ASX Settlement Operating Rules or a law about stamp duty requires the Company to do so.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Board of the Company as appointed from time to time. Subject to restrictions on the issue or grant of Shares contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares and other Securities as they shall, in their absolute discretion, determine.

(h) **Rights on winding up**

If the Company is wound up, the liquidator may with the sanction of special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

- (i) **(Restrictions on transfer of Shares)**: If the Company is required but unable to give ASX a notice under paragraph (g)(ii), or such a notice for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, Shares issued on exercise of Options may not be traded and will be subject to a holding lock until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Corporations Act.
- (j) **(Shares issued on exercise)**: Shares issued on exercise of the Options will rank equally with the then Shares of the Company.

- (n) **(Change in exercise price)**: There will be no change to the exercise price of the Options or the number of Shares over which the Options are exercisable in the event of the Company making a pro-rata issue of Shares or other securities to the holders of Shares in the Company (other than a bonus issue).
- (o) **(Adjustment for bonus issues of Shares)**: If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):
 - (i) the number of Shares which must be issued on the exercise of an Option will be increased by the number of Shares which the Option holder would have received if the Option holder had exercised the Option before the record date for the bonus issue; and
 - (ii) no change will be made to the Exercise Price.
- (p) **(Takeovers prohibition)**:
 - (i) the issue of Shares on exercise of the Options is subject to and conditional upon the issue of the relevant Shares not resulting in any person being in breach of section 606(1) of the Corporations Act; and
