Livium Ltd (ASX: LIT) ("Livium" or the "Company") is pleased to announce it has received firm commitments from new and existing, institutional and sophisticated investors to raise \$4.5m ("**Placement**") before costs.

Livium CEO and Managing Director, Simon Linge commented:

"The strong support for this capital raising marks a key inflection point for Livium. Through disciplined execution, we have built Australia's market-leading lithium-ion battery recycling operations and are now poised to scale further to meet growing market demand."

The proceeds from this Placement will accelerate our refined strategy, focused on recycling clean energy waste. The planned consolidation of operations into a single Hub will increase capacity and efficiency in battery recycling while providing space to expand into new verticals including rare earth element (REE) recycling, photovoltaic (PV) recycling, and black mass processing — all pursued with a measured approach."

I would like to thank our investors and Peak for their continued support. Together, we aim to build Livium into a cash-generative, growth-focused company that captures value across the clean energy waste supply chain and delivers sustainable returns for shareholders."

Use of funds

Proceeds from the capital raising will be used to advance Livium's recycling-led growth strategy and strengthen its position as Australia's leading lithium-ion battery recycler. Funding will support the expansion of large-format LIB² collections nationally, and the relocation and consolidation of Livium's Victorian battery-recycling facilities into a centralised processing facility (**Hub**).

Capital will also be applied towards progressing key deliverables within Livium's strategic recycling adjacencies — including recycling of rare earth elements (**REE**) and solar panels (**PV**), and black mass processing — to capture additional value across the clean energy waste supply chain. Remaining funds will be applied to general working capital to sustain operational delivery.

5. (**Quotation of the Options**): The Company will seek quotation of the Options in accordance with the Listing Rules, subject to satisfaction of the minimum quotation conditions set out in the Listing Rules. In the event that quotation of the Options cannot be obtained, the Options will remain unquoted.
6. (**Notice of Exercise**): The Options may be exercised by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

The Options held by each holder may be exercised in whole or in part, and if exercised in part, at least 1,000 must be exercised on each occasion.

Any Notice of Exercise of an Option received by the Company will be deemed to be a notice of the exercise of that Option as at the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

8. (**Transferability**): The Options are freely transferable from the date of issue, subject to any restriction or escrow arrangements imposed by ASX or under Australian securities laws and paragraph 9.
9. (**Restrictions on transfer of Shares**): If the Company is required but unable to give ASX a notice under paragraph 7(b), or such a notice for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, Shares issued on exercise of Options may not be traded and will be subject to a holding lock until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Corporations Act.
10. (**Shares issued on exercise**): Shares issued on exercise of the Options will rank equally with the then Shares of the Company.

14. **(Change in exercise price):** There will be no change to the exercise price of the Options or the number of Shares over which the Options are exercisable in the event of the Company making a pro-rata issue of Shares or other securities to the holders of Shares in the Company (other than a bonus issue).
15. **(Adjustment for bonus issues of Shares):** If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):
- (a) the number of Shares which must be issued on the exercise of an Option will be increased by the number of Shares which the Option holder would have received if the Option holder had exercised the Option before the record date for the bonus issue; and
 - (b) no change will be made to the Exercise Price.
