

ASX Release

Completion of Share Purchase Plan

17 October 2025

PARKD Limited (**ASX:PKD**) ("**PARKD**" or the "**Company**") is pleased to advise the final results of the Share Purchase Plan (SPP) which closed on Friday, 10th October 2025, with the Company receiving applications totalling \$290,000

The SPP booklet outlined a target of \$120,000 from the SPP, however, given the strong support shown by shareholders, the Board had decided to use its discretion under the terms of the SPP and accept applications of \$220,000. The company has exercised its rights to scale back the applications to the \$220,000 in accordance with the terms set out in the offer booklet.

Accordingly, a total of 7,333,334 new fully paid ordinary shares in the capital of the Company (Shares) will be issued pursuant to the SPP. An appendix 2A in respect of the SPP Shares follows this announcement.

The strong support for the SPP follows the successful \$780,000 placement announced to the ASX on 25th September 2025. The SPP offered all eligible shareholders the opportunity to acquire shares at \$0.03 each, being the same price as the placement (refer ASX announcement 25th September 2025).

Excess application money resulting from the scale back will be refunded to applicants in accordance with the terms of the SPP. To facilitate timely provision of any refunds, the Company encourages applicants to the SPP to ensure their direct credit details are provided online with Automic Share Registry via the Investor Portal at <https://investor.automic.com.au> as soon as possible. For assistance, please contact Automic at 1300 288 664 (within Australia), +61 29698 5414 (international) between 6.30am and 5.00pm AWST on business days, or email corporate.actions@automicgroup.com.au.

This announcement has been approved for release by the Board of Directors.

ABOUT PARKD LTD

PARKD is a technology-enabled building solutions business, operating in Australia as a specialist building solutions consultant and as a general building contractor. Its core IP is utilised in the Companies prefabricated construction solution, the PARKD Car Park Structural System, specifically developed for commercial and industrial application.

PARKD has intellectual property rights to aspects of an innovative lightweight concrete "modular" carparking system. The modular aspect of the system and the minimising of structural weight provides the ability to relocate the car park or adapt it to parking demands by adding or subtracting to the structural levels of the car park.
