## ***Entitlement Offer Closes Oversubscribed; Drilling Commences***

### **Key Points**

- Fully underwritten Entitlement Offer has closed oversubscribed raising the maximum \$8.3 million contemplated under the Prospectus released in September 2025.
- Applications received for a total of \$11.6m in entitlements and shortfall from approximately 950 existing shareholders in a strong show of support, greatly strengthening Coda's register.
- Scale backs of short-fall applications have been implemented due to oversubscription from shareholders.
- The Entitlement Offer provides vital balance sheet support and the ability to rapidly advance the Elizabeth Creek Copper-Silver Project against a background of markedly improving strength in copper and silver markets.
- Funds will be used to advance pre-feasibility studies at the Company's 100%-owned flagship Elizabeth Creek Copper Project in South Australia.
- Following completion of the Entitlement Offer, Coda will have approximately \$9.8M cash at bank, providing a strong runway project advancement.
- Drill rigs are currently being mobilised to the field with site preparation work underway.

Coda Minerals Limited (ASX: COD; "Coda" or "the Company") is pleased to announce the successful completion of the fully underwritten \$8.3m Entitlement Offer to underpin pre-feasibility study work at its flagship 100%-owned Elizabeth Creek Copper-Cobalt Project in South Australia's Olympic copper province.

### **Results of Offers**

<b>Securities to be issued</b>	83,318,319	20,829,580

The New Shares and New Options under the Entitlement Offer will be issued on Thursday 23 October 2025.

**Coda's Chair, Keith Jones said:** *"We are delighted with the results of the Entitlement Offer, which have exceeded our expectations and resulted in a strengthened balance sheet as well as a much stronger share register. I would like to thank our shareholders for their tremendous support."*

*"The funds will start to be deployed immediately with our field team currently on-site completing preparations for pre-feasibility drilling work which will enable us to rapidly advance the Elizabeth Creek Project."*

*"We are now at a pivotal time for Coda, recent changes to our flowsheet have positioned the project with exposure to copper and silver, commodities with deep, liquid markets and rapidly increasing prices. It should be noted that our project economics were most recently run at US \$9,260 per tonne copper and US \$30 per oz silver with current spot prices now over US \$10,600 per tonne and US \$51 per oz respectively."*

*"This is set against a backdrop of increasingly fewer copper focused companies remaining on ASX and much greater M&A activity. The funds raised allows us to rapidly advance pre-feasibility work which is a fundamental next step in the commercialisation of the project."*

*"I would like to thank our advisors, Cumulus Wealth and Leeuwin Wealth, Blackwall Legal and most of all, you, our shareholders for your support."*
