Executive Chairman's Report

During the 2025 financial year, Euroz Hartleys Group Limited continued our aim to provide the best possible business platform for our staff, clients and shareholders. We continue to invest in our people, systems and platforms to build stronger client relationships and increase our market share.

The past year provided opportunities for improved incremental performance across the business after a number of somewhat subdued and uncertain years in the broader markets. More specifically a solid first half was somewhat offset by a patchy second half where markets remain affected by the "Trump Tariff Sell Off".

We are optimistic that our financial outlook and market position has improved and that our business remains leveraged to a solid long term outlook for commodity prices, a positive Western Australian economy and a growing need for meaningful and holistic financial advice.

We believe that Euroz Hartleys is now recognised as Western Australia's leading private wealth, institutional and corporate finance business which is a reflection of the deep history and trust in our iconic Western Australian brand.

Brokerage is an important indicator of the health of our business and we are pleased that both Wholesale and Private Wealth brokerage revenues were up on the previous year. Total brokerage revenues were up 7.2% on the previous year due to this stronger focus on our trading operations.

A stronger capital raising window in the beginning of the financial year saw total Equity Capital Markets (ECM) raisings of ~\$1.6 billion, up from ~\$1.4 billion in the previous period but in line with continued overall subdued ECM activity. Our total ECM revenues were up 13.9% compared to the previous year.

Our advisory revenues are a cyclical and smaller component of our revenues and can vary significantly from year to year. Advisory revenues were down 5.9% compared to the previous year,

“Our vision is to be recognised as Western Australia’s leading and most trusted private wealth, institutional and corporate finance business.”

I would like to sincerely thank our most important asset, our 189 staff. We will continue to build a truly high performance based culture where we seek to high grade our employees over time. Our constant focus on investing in our team, youth, succession and our culture has helped to ensure near term growth and resilience in all aspects of Euroz Hartleys going forward.

Andrew McKenzie
Executive Chairman

however we remain optimistic that these revenues from our significant corporate client base will rebound.

We are focused on increasing our recurring revenues and report a 14.4% increase in Funds Under Management (FUM) to \$4.45 billion up from \$3.89 billion. We have continued high expectations that the coming year will continue to deliver stronger organic FUM growth. Our constant focus on investing in adviser teams, succession and culture will help to ensure growth and resilience in all aspects of our wealth business going forward.

Our QV1 location has given the business and our people a positive team environment and continues to provide a solid foundation for the success of our whole business.

Euroz Hartleys will continue to embrace both transactional and recurring revenues and this diversity in revenues gives us the strength to withstand market downturns and make the most of busier markets.

Summary

Our balance sheet of \$92 million of cash and investments at financial year end provides confidence to our significant adviser network and their extensive client base. Post balance date we have since returned a further \$23.1 million in capital to shareholders to create a more efficient balance sheet going forward.

The best measure of a business is the payment of dividends and we are proud that we have now returned ~\$354.2 million in fully franked dividends and ~\$63 million of capital to shareholders across our 25-year history.

Youth Focus, executive roles at Wesfarmers and HBF, and board roles, including Chair of the Art Gallery of WA and Deputy Presiding Member of Healthway. Fiona holds a Bachelor of Arts, a Bachelor of Architecture and a Master of Business Administration (Advanced) and is a graduate of the AICD. Fiona has also completed the Strategic Perspectives in Non-profit Management course at Harvard Business School.

Richard Simpson

NON-EXECUTIVE DIRECTOR

Richard brings to the board extensive corporate finance, advisory and equity capital market experience gained through a number of senior Australian and international investment banking positions.

Richard is a past board member of Hartleys Limited (Chairman and Managing Director), Botanic Gardens & Parks Authority (Chairman 2002-2021), State Emergency Management Authority and FINSIA. Richard holds a Bachelor of Applied Science (Hons) and an MBA from

UWA. Richard began his career as a petroleum engineer prior to joining NM Rothschild & Sons in London, Salomon Brothers Inc (now Citigroup) based in both Sydney and Melbourne, and returning to Perth to join Hartleys in 1994. On 22 August 2024 Richard transitioned to a Non-Executive Director.

Managing Director's Report

It has been a privilege to have had the opportunity to lead our exceptional team over the last 12 months and I look forward to our continued focus on improving the business as we strive to be the pre-eminent financial services firm in Western Australia.

Market conditions

Pleasingly, there was some overall improvement in the markets in the early part of Financial Year 2025 (FY25), however market activity remained somewhat more subdued in the second half. The second half was punctuated with market windows of increased activity and volatility as clients found opportunities to transact in the suppressed conditions.

Continuing macro factors such as uncertain monetary policy, persistent inflationary pressures and interest rates coupled with a continuing tumultuous geopolitical backdrop continued to weigh on markets. Notwithstanding these challenges, we experienced some good trading periods, particularly in the opening months of the financial year. Euroz Hartleys and its clients took advantage of these market conditions where appropriate, however, general concerns remain within the investment community and wider economy.

Financial Performance

Turning to our financial performance, Euroz Hartleys Group Limited reported a net profit after tax attributable to members of \$10.3 million for the year ended 30 June 2025, compared to \$5.47 million in the previous corresponding period, an increase of 87.7%. Revenue totalled \$98.7 million for the year ended 30 June 2025 compared to \$89.2 million in the previous corresponding period, an increase of 10.6%.

This result underscores the operational leverage within our business and demonstrates how the business is able to take advantage of improving market conditions which is a credit to our staff and shows the resilience of our business.

Operational Performance

Our focus for FY25 was the continued consolidation and strengthening of our platform offering for our clients and staff to ensure we remain at the forefront of excellence.

Throughout FY25 we continued to seek out operating efficiencies within the business and sought new pathways to enhance our product, service and system offering to our clients. These activities will continue into FY26 as we continually refine and streamline our offering. Our Operations team have continued to work tirelessly to ensure business continuity whilst managing the demanding project timetables.

Community

In FY25 we donated in excess of \$421,000 to predominantly Western Australian charitable causes. Our seventh Annual Commission for a Cause was again an amazing success raising \$309,000 for our three chosen charities. Commission for a Cause has now raised more than \$2.18 million for charity since its inception seven years ago and we look forward to continuing with this initiative. The enthusiasm and commitment that our people and clients bring to these events is a testament to our connections with the community. Euroz Hartleys ties to the community extend well beyond our business dealings and the Foundation reminds us of this throughout the year. We

are proud of the contribution we can make to our community and for all the support the Euroz Hartleys Foundation delivers to the Western Australian community each year.

Divisional Update

Our Wholesale business is made up of our Research, Institutional Sales and Corporate Finance departments. Our Research team has deep relationships with the WA business community. With over 110 stocks under coverage, our knowledge and connections to the WA mining and industrial landscape remains unparalleled. In FY25, Euroz Hartleys raised ~\$1.6 billion (2024: \$1.4 billion) for our corporate clients in what was a subdued year for Equity Capital Markets (ECM) activity across the broader market. Our Institutional Sales team is one of the largest small-mid cap institutional desk in Australia and provides significant domestic and global distribution capabilities.

Our Private Wealth business represents one of the largest wealth teams in Western Australia. We have a team of 58 investment and wealth advisers which include some of the most experienced advisers in the Western Australia market. Our wealth advisory team oversees ~\$4.45 billion of Funds Under Management (FUM) (2024: \$3.89 billion) across a diverse range of clients including high net worth individuals, family offices and Not-For-Profit organisations. The continued growth of our Private Wealth division remains a key priority for the business.

Both our Wholesale and Private Wealth businesses generate revenue across a diverse range of services including brokerage, ECM transactions, corporate advisory and FUM fees. The diversity of our earnings provides the business with a solid foundation for continued growth in both good and difficult markets.

The business is supported by an experienced inhouse operations team, supporting the day to day activities that provide ongoing support to our clients. We will continue to refine and improve our operations to facilitate better client outcomes.

Notwithstanding the macroeconomic and geopolitical challenges that take us into FY26, the combination of our people, our improved client offering and our strong balance sheet ensures that we remain optimistic that we can deliver another successful period for all stakeholders. I would like to take this opportunity to thank all Euroz Hartleys staff for their continued efforts in delivering a solid FY25 result in difficult market conditions and ensuring the company is in an enviable position for the years ahead.

Graduate Program

In FY25 we continued our investment in the development and retention of talent with three new recruits into our graduate program. This is the third year of the program and our graduates are consistently finding permanent opportunities for ongoing roles following their graduate rotation. We remain committed to the graduate program in January 2026 and along with our formal internship program places us in a great position to continually inject our business with talented individuals.

Outlook

We are now well positioned to leverage these improved capabilities which will in turn further enhance our capacity to better serve our stakeholders. Although markets remain somewhat volatile in the short term, post balance date we have witnessed improving conditions and have conviction around the mid-long term outlook for the Western Australian economy. With global green energy requirements continuing to underwrite greater need for natural resources we feel the time is right to continue to invest in our people and platforms to capitalise on this trend.

SOCIAL GIVING

Euroz Hartleys Foundation

The Foundation forms the central plank in our social giving program. As a proudly Western Australian company, we feel it is our obligation to give back to the community that has supported us over the past 25 years.

CHAIRMAN'S REPORT

OVERVIEW

FINANCIAL REPORT

NOTES TO FINANCIAL STATEMENT

Proudly supporting

In 2006, the Euroz Hartleys Foundation (the **Foundation**) was formed in a Private Ancillary Fund structure through which the Euroz Hartleys Group and its staff could make donations, invest these funds, make distributions to worthy charities and contribute to our broader community. Since its inception, the Foundation has donated in excess of \$4.4 million to over 100 individual charities and worthy causes.

The Foundation's focus is on Western Australian charitable causes where we believe we can make a positive community impact.

On 13 June 2025 the Foundation held its seventh annual Commission for a Cause event. Since its inaugural event in 2019, Commission for a Cause has raised more than \$2.18m through the generosity and support of our clients and staff. The FY25 event raised \$309,000 which was another amazing outcome for the three participating charities. In FY25, the funds were divided equally between Perth Children's Hospital Foundation (**PCHF**), Breast Cancer Care WA (**BCCWA**) and Ocean Heroes.

Funds raised for Perth Children's Hospital Foundation were contributed towards the building of Sandcastles (Boodja Mia), WA's first dedicated children's hospice. Designed to feel like a 'home away from home', Sandcastles will offer children with life-limiting conditions and their families a warm, welcoming space to spend precious time together, supported by expert, hospital-quality care. Sandcastles is designed to be a sanctuary by the ocean, where families can create precious

For persons

memories together and feel supported during the most challenging of times.

Breast Cancer Care WA provides specialist breast care nursing, mental health support, and financial support to women and men affected by breast cancer (as well as their partners and families) throughout WA. BCCWA are utilising the funds to fund a counsellor helping to meet the growing demand for mental health support among people facing a breast cancer diagnosis. Counsellors provide essential mental health support to more than 700 people (and their partners and families) every year, helping them to cope with changes, challenges, relationships and uncertainty during their breast cancer treatment and beyond. In addition, a portion of the funds are being used to fund BCCWA support groups program. The experience of connecting with someone who has had the same treatment and can truly understand what they're going through is incredibly powerful.

Ocean Heroes are utilising the funds raised to build a semi-mobile storage unit, enabling regular free surfing programs in the Kimberley during winter and on the South Coast in summer. This mobility will allow Ocean Heroes to consistently reach communities in remote, lower socioeconomic regions where autism, FASD, and limited services are prevalent. Ocean Heroes provide a unique opportunity for people on the autism spectrum to take part in organised sport backed by a highly supported, safe and inclusive environment. By running free events and surf experiences, Ocean Heroes offer the autism community the chance to experience the thrill of riding

“The Foundation’s focus is on Western Australian charitable causes where we believe we can make a positive community impact.”

a wave! People living with autism face unique challenges that can make it difficult for them to develop self-confidence and make genuine connections. Learning to surf offers a fun, healthy, and unique way for people on the autism spectrum to develop their confidence, boost self-esteem and make connections with others.

In addition to Commission for a Cause, in FY25 the Euroz Hartleys Foundation has provided support to a wide variety of charitable causes in Western Australia through the provision of funds and volunteer hours. This includes the continuation of our scholarships at Curtin University for students experiencing hardship and who would not otherwise have an opportunity to continue their studies.

We are proud of our significant contributions to support and give back to our local Western Australian community through our Foundation in this past year and look forward to continuing this important work in the years ahead.

Review of results

The consolidated group reports a net profit attributable to members of \$10,262,000 for the financial year ended 30 June 2025 (2024: \$5,468,000). This result represents basic earnings per share of 6.54 cents (2024: 3.5 cents).

Brokerage revenues were up by 7.2% for the year due to a stronger focus on trading capabilities and solid block trading activity. Trading revenues are a leading indicator for the underlying health of our business and the Directors are pleased to see this improvement. Funds Under Management (FUM) revenue for the year increased by 12.8% from the previous year. Euroz Hartleys FUM as at 30 June 2025 was \$4,449,830,000 (2024: \$3,892,068,000).

Equity Capital Market (ECM) raisings of \$1,635,830,000 versus \$1,413,935,000 last financial year led to ECM revenue going up approximately by 13.9%. Corporate advisory revenues were down approximately by 5.9% from previous year.

Underlying cash profitability enabled the Directors to declare and pay a final fully franked dividend of 3.5 cents per share (cps) which combined with the interim dividend of 2.0 cps brought the full year dividend to 5.5 cps (2024: 4.75 cps).

Operating and financial review

The purpose of this review is to set out information that shareholders may require to assess Euroz Hartleys Group's operations, financial position, business strategies and prospects for future financial years. This information complements and supports the report presented herein.

Disclosure of operations – Profit

Net profit after tax attributable to members was \$10,262,000 compared to \$5,468,000 in the 2024 financial year.

The Directors are pleased with the performance which demonstrates the strong operational leverage of the underlying business during the year in which overall market volumes and ECM issuances are still below longer-term averages.

Disclosure of operations – Sales

Revenue has increased by 10.6% to \$98,675,000 from previous year amount of \$89,216,000.

(a) Stockbroking and Corporate Finance

Transactional brokerage revenues were up by 7.2% for the year to \$31,534,000 (2024: \$29,420,000), reflecting stronger focus on trading capabilities.

Underwriting and placement fees revenue increased by 13.9% to \$38,545,000 from \$33,826,000.

Euroz Hartleys was Lead Manager or Co-Manager to 74 (2024: 58) ECM transactions this year raising \$1,635,830,000 (2024: \$1,413,935,000). This was a solid achievement given ECM market activity over the year.

Corporate Advisory revenues were down by 5.9% to \$2,136,000 (2024: \$2,271,000).

Disclosure of operations – Sales (continued)

(b) Wealth Management

Wealth Management revenue increased by 12.8% to \$22,067,000 from \$19,559,000. We are pleased with the quality and stability of our wealth management service offering at a time of significant change in the wealth management landscape. We report a 14.3% increase in FUM to \$4,449,830,000 (2024: \$3,892,068,000). Our team has spent considerable time and effort in developing new strategies to drive FUM growth whilst we consolidate the products in our wealth offering. We have high expectations that the coming years will continue to deliver stronger underlying organic FUM growth.

(c) Funds Management – Performance and Management fees

Revenue from Funds Management decreased by 7.4% to \$225,000 from \$243,000 in the prior year. Funds management revenue is derived from the management of Westoz Resources Fund Limited mandate managed by Westoz Funds Management Pty Ltd (WFM).

(d) Investing

There was no investment income in the current year (2024: \$70,000).

Disclosure of operations

The Group is principally involved in the following activities:

- (a) Stockbroking and Corporate Finance;
- (b) Wealth Management;
- (c) Funds Management; and
- (d) Investing.

The consolidated group's operations are mainly conducted in Perth, Western Australia (WA) and details of the operations are outlined below:

(a) Stockbroking and Corporate Finance

The Euroz Hartleys stockbroking operation comprises four main divisions as follows:

i. Equities Research

- Highly rated research from our market leading research team of nine analysts
- Our research views are highly regarded by Australian and international institutional investors
- Access to the latest online news and financial information
- Based on fundamental analysis, strict financial modelling and regular company contact:
 - Goal: Identify and maximise equity investment opportunities for the clients
 - Approach: Intimate knowledge of the companies covered by the research
 - Coverage: Broad cross section of mostly WA based resources, biotech and industrial companies
- Research Products:
 - Company Reports: Detailed analysis on companies as opportunities emerge
 - Morning Note: Overnight market updates
 - Weekly Informer: Compilation of all company reports throughout the preceding week
 - Quarterly and / or Semi-annual Review: Summary coverage on companies

ii. Institutional Sales

- Large institutional small to mid-cap dealing desk with a sales team of nine staff
- Extensive client base of Australian and international institutional investors
- Distribution network strength - long standing relationships with major institutional investors in the small to mid-cap market
- WA's geographic isolation makes it difficult for institutional investors to maintain close contact with companies based here - investors can rely on our on the ground information

Disclosure of business strategies and prospects - Growth

Continue to build real diversification of transactional and recurring revenues across the business.

The Directors believe that Euroz Hartleys Group has all the foundations for the strategy of building a more consistent base of underlying recurring revenues through our growing wealth management businesses whilst still retaining the transaction-based upside of the traditional stockbroking business.

We are optimistic of a solid financial outlook and an improving market position. Our business remains leveraged to a solid overall outlook for commodities, a positive Western Australian economy an improving Initial Public Offering (IPO), merger and acquisitions pipeline and a growing need for meaningful and holistic financial advice.

We remain focused on increasing the proportion of recurring revenues. We have high expectations that the coming year will continue to deliver stronger organic FUM growth.

Our constant focus on investing in adviser teams, succession and culture will help to ensure growth and resilience in all aspects of our wealth business going forward. Our QV1 location has given the business and our people a positive team environment and laid a strong foundation for the success of the entire business.

Disclosure of business strategies and prospects - Material Business Risks

Overview

In line with the ASX Corporate Governance Principles and Recommendations (4th Edition), Euroz Hartleys Group is committed to ensuring robust corporate governance. Risk is viewed as the impact of uncertainty, both positive and negative on objectives. Risk is managed to the greatest extent feasible to create and sustain value for shareholders and other stakeholders.

Uncertainty and risk are inherent when conducting operations within financial markets. As an active participant in the Australian capital markets, Euroz Hartleys Group is exposed to risks that could result in financial losses. We foster a risk aware culture with consideration of risk supporting our formulation of strategy and informing business decision-making.

The Group has identified its principal risks as market risk, credit risk, operational risk, cyber security risk and other risks. Risk management and control of the balance between risk and return are critical elements in maintaining the Group's financial stability and profitability. Therefore, an effective risk management framework is integral to our success.

Details of risks identified:

Risk Category	Risk Summary	Management of Risk / Exposure
Market Risk	A change in market prices and / or any of the underlying market forces may result in loss.	Policies and procedures are in place to measure, monitor and control risks where possible.
	The macroeconomic uncertainty of changing business models.	We take a proactive approach to understanding macroeconomic, climate and geopolitical factors that may have an impact on our business.
		Changes in market conditions influence the volume and timing of transactions across the business and the value of various equity, credit and market risk positions held by the Group.
Credit Risk	Where a counterparty is unable to fulfil its financial obligations.	We have defined and set credit standards, policies and procedures to enable ongoing financial review with respect to existing and potential new clients.
		High risk transactions and strategies are carefully monitored and supervised.
Operational Risk	Risk of failure to achieve strategic objectives and / or respond to changes in our competitive landscape with competitive products.	Policies and procedures are in place to identify, measure, monitor and control risks where possible.
		We maintain a comprehensive Business Continuity Plan and Disaster Recovery processes to address identified operational risks.
		We constantly assess our client investment offerings including with respect to technology changes and innovation.
		We conduct strategy sessions with Senior Executives on a regular basis on operational risk factors including consideration of succession planning for key personnel.

Policies have been developed to assist to identify country and individual sanctions, anti-money laundering and counter terrorism financing, anti-bribery and corruption and anti-tax evasion facilitation. Ongoing compliance with regulatory changes in this area.

Financial position

Net assets of the Group as at 30 June 2025 are \$114,191,000 (2024: \$114,239,000). The Group's financial performance has enabled it to continue to pay dividends to shareholders during the year while maintaining a healthy working capital ratio. The Group's working capital, being current assets less current liabilities is \$68,214,000 at 30 June 2025 (2024: \$67,451,000).

During the past 24 years the Group has invested in expanding each of its businesses to secure their long-term success. In particular it has increased its strategic investments via the acquisitions of Blackswan in 2014, Entrust in 2015 and Hartleys Limited in 2020 to develop a market leading platform for our future wealth management ambitions.

The Group remains in an extremely sound financial position with a balance of cash (excluding restricted cash in client trust account), financial assets at fair value and investments at fair value as at 30 June 2025 of \$91,699,000 (2024: \$92,329,000). The Group has a Net Tangible Assets (NTA) of 49¢ per share and no debt. This position continues to support the business activities, differentiates us from many of our competitors and provides confidence to our significant adviser network and their large client base.

Euroz Hartleys Group has a proud history of consistent profits and dividends having paid a total of \$354,156,000 in fully franked dividends over the past 25 years.

On 18 July 2025, the shareholders approved the Directors' proposal for a capital return of approximately \$23,075,000 by way of an equal capital return. The payment was made on 5 August 2025, bringing the total capital returned to shareholders since inception to approximately \$63,000,000.

The Directors believe that the Group is in a strong and stable financial position to expand and grow its current operations.

Of the total dividends paid during the year, \$53,000 (2024: \$11,000) was paid to the Euroz Share Trust and is undistributed. Therefore, it has been eliminated on consolidation.

State of affairs

In the opinion of the Directors, there has been no significant changes in the state of affairs of the Group.

Share options

There were no options on issue at 30 June 2025 (2024: Nil).

Environmental, Social and Governance

Understanding the increasing relevance of sustainability to our shareholders, stakeholders and communities, the Group has continued to develop its Environmental, Social and Governance (ESG) program.

i. Environmental

Euroz Hartleys monitors the impact of our business on the environment as well as contribution to climate change. We have measures in place which seek to minimise our environmental footprint, focussing on minimisation of energy emissions and waste. Emissions can be categorised into three scopes:

Scope 1: This scope covers emissions from sources that a business owns or controls directly. This scope generally affects the mining and oil and gas industry and is not applicable to Euroz Hartleys Group as the business does not directly generate carbon emissions from its day to day operations.

Scope 2: This scope encompasses emissions that a company causes indirectly resulting from the energy it purchases, for example electricity used to power office buildings.

Scope 3: This scope encompasses emissions that are not produced by the business itself, and are not the result of activities from assets owned or controlled by the business, but by those that it is indirectly responsible for up and down its value chain for example business travel, personnel travel to work or waste disposal.

In preparation for the mandatory reporting requirements which will be applicable for the Group for the reporting period beginning 1 July 2027, we are taking steps to measure our carbon footprint and looking to develop further strategies to reduce our overall environmental impact.

Some initiatives that the business has implemented are:

- We are currently tracking our carbon footprint in relation to Scope 2 with a view to formulating a suitable future carbon emission offset and reduction strategy
- We participate in proactive waste management with a recycling system in place for all paper / cardboards
- Where possible we use electronic signatures in corporate and client documentation (except those that require a wet signature under law)
- Our office premises at QV1 have a 6-star NABERS energy rating and indoor environment and 4-star NABERS water rating
- We participate in the Containers for Change program

Environmental, Social and Governance (continued)

ii. Social

Euroz Hartleys takes seriously its social responsibilities to our stakeholders and its role within the communities in which we operate.

Community Partnerships

The Group has a track record of partnering with and sponsoring leading events that engage communities and provide meaningful ways for our team members to participate. In the current financial year, the Group was a proud sponsor of the Dowerin Machinery Field Day, Claremont Football Club and the Euroz Hartleys Port to Pub.

A particular highlight from the Euroz Hartleys Port to Pub endurance swimming event saw more than 1,500 people swim from North Fremantle to Rottnest in idyllic conditions. Euroz Hartleys entered seven teams in the swim, with 33 team members making the epic crossing. Euroz Hartleys also participated in other volunteering initiatives such as the Ocean Heroes Free Events. Ocean Heroes is a Western Australian based charity that aims to improve the wellbeing of those living with autism and their families through surfing. They provide a unique opportunity for people on the Autism spectrum to take part in organized sport backed by a highly supported, safe and inclusive environment.

People and Culture

The strength of the business lies in the people. With a team of 189 employees, focus is on effective employee development, retention, and well-being programs that align with the business goals. The business is pleased to report strong retention and engagement, which is attributable to values-led leadership and a sustained investment in people programs.

Professional Development

We are committed to fostering career progression through tailored development plans, flexible working, and formal education pathways.

- We have supported seven employees in undertaking or completing their Graduate Diploma of Financial Planning, with women representing 57%.
- Seven Associate Advisers are undertaking their Professional Year (PY), again with 57% being female.
- Eighteen employees were promoted during the financial year, 33% of whom were women, demonstrating our commitment to internal career progression.

Our Individual Development Plans (IDPs) provide emerging adviser talent with a structured roadmap for career growth, supported by mentorship and sponsorship from senior leaders.

We also maintain a dedicated Associate Learning Plan, covering essential technical skills across markets, investments, and strategic advice. It includes training in sales and networking, recognising that comfort levels and approaches may differ between individuals and genders. We continue to support identified talent by providing financial assistance and simplifying access to the education required for career progression.

Graduate and Internship Programs

Our comprehensive Graduate and Internship Programs offer a strong pathway into the finance industry. Through partnerships with the Financial Association of WA (FAWA) and the Curtin Finance Society (CFS), we promote careers in private wealth management and support future talent.

During the year:

- We co-hosted a Careers in Private Wealth event with FAWA and CFS.
- We participated in panels including the FAWA Women in Business Discussion and the Curtin Careers in Commerce Networking Panel.

Following the success of our 2023 internship program, two female interns have accepted offers to join our 2025 Graduate Program. All three graduate appointments this year were awarded to women, selected on merit. This reflects our active efforts to support and retain high-potential female talent.

Wellness at work

We are committed to supporting the mental and physical wellbeing of our employees through a range of initiatives that promote health, connection, and a positive workplace culture. Our Employee Assistance Program (EAP) continues to provide confidential mental health support, and we actively encourage employees to access this resource. We offer free annual flu vaccinations to support physical wellbeing, and we run regular company-wide and team-specific initiatives that foster interpersonal connection and a sense of community. These have included participation in events such as the Ocean Heroes 24-Hour Swim, the Port to Pub Swim, blood donation drives, and interdepartmental basketball and netball games.

ii. **Social (continued)**

Diversity Equity and Inclusion

A diverse mix of people and perspectives is key to a thriving and inclusive culture. The Group continues to invest in creating a workplace where everyone feels valued, safe, and empowered.

Euroz Hartleys is particularly honoured to be recognised as highly commended for Employer of the Year at the *Women in Wealth Awards* in May 2025 as a reflection of the supportive empowering culture we continue to build together. Two members of our team were also named as finalists for Women of the Year 2025 and won the following categories:

- Donna Caird – Governance, Risk and Compliance Professional of the Year
- Amanda Boyce – Mentor of the Year

We are incredibly proud of this well deserved recognition of their leadership, impact and dedication.

During the year the business also:

- Refreshed the Code of Conduct to align more closely with our purpose and commitment to inclusion.
- Enhanced the Bullying, Harassment, and Discrimination Policy and introduced a standalone Sexual Harassment Policy, reinforcing a zero-tolerance approach and a culture of respect.
- Contributed to the Yo&Co Future IM/Pact Women in Wealth Report, advocating for greater gender equity in private wealth.
- Joined the SIAA CEO & Senior Leader initiative and contributed to national Diversity Equity and Inclusion (DEI), Compliance, and Advice working groups, collaborating cross-industry to drive systemic change.

The March 2025 Workplace Gender Equality Agency (WGEA) report confirmed the Group's ongoing commitment to pay equity. Like others in the industry, the business recognises the challenge of increasing female representation in commission / bonus-based roles. This remains our key focus to narrowing the gender pay gap. While progress will take time, we are committed to sustained action and meaningful change.

Euroz Hartleys Foundation

Our Euroz Hartleys Foundation (Foundation) continues to contribute to communities and charities in meaningful ways to support their long-term sustainability.

The Foundation was established in 2006 in a Private Ancillary Fund through which we make distributions to worthy charities and contribute to the broader community. The Foundation allows us to support our consistent commitment to making a positive impact in the Western Australian community.

Since 2006, our Foundation has contributed more than \$4,416,000 to the Western Australian charitable sector. In 2019, Euroz Hartleys launched the Commission for a Cause program under which 100% of brokerage made on a designated day is donated to selected Australian charities. For this financial year, the program raised \$309,000 which was distributed equally to three WA charities, being Perth Children's Hospital Foundation, Breast Cancer Care WA and Ocean Heroes. Since its inception, the Commission for a Cause program has raised over \$2,180,000 over the seven years.

iii. **Governance**

As a diversified financial services company which has a consistent track record of strong shareholder returns, Euroz Hartleys is committed to maintaining a best practice governance regime. The business is built on a foundation of effective governance, ethical practices and accountability and is led by an experienced Board and management team.

Board Governance

The Euroz Hartleys Group Board comprises five directors, two of whom are independent non-executive directors.

The Board has oversight over internal and external compliance and through its robust governance processes ensures systemic and active risk management is embedded in our day to day business.

iii. Governance (continued)

Modern Slavery

Euroz Hartleys is aware of the potential risks of modern slavery in its supply chain and undertakes an annual review of these risks. In line with the requirements of the Modern Slavery Act, Euroz Hartleys outlines the business risks and the actions taken in the relevant year's reporting.

Client Privacy and Cybersecurity

The safeguarding of privacy and security of client information is paramount to the business. Euroz Hartleys actions this on an ongoing basis as detailed in the effective risk management framework section.

Events after reporting date

On 18 July 2025, the shareholders approved the Directors' proposal for a capital return of approximately \$23,075,000 by way of an equal capital return. The payment was made on 5 August 2025, bringing the total capital returned to shareholders since inception to approximately \$63,000,000.

Other than matters described above, the Directors are not aware of any matter or circumstance subsequent to 30 June 2025 that has significantly affected, or may significantly affect:

- (a) the Group's operations in future financial years; or
- (b) the results of those operations in future financial years; or
- (c) the Group's state of affairs in future financial years.

Likely developments

The Directors are confident that its strong financial position and established business platforms will support the Group in a volatile market where activity is still below longer-term averages.

We remain focused on increasing our proportion of recurring revenues. Our team will continue to spend considerable time and effort in developing new strategies to drive FUM growth and consolidate our wealth offering. We are confident our investment in improving our adviser platforms, support and capabilities will enable the largest team of Private Wealth advisers in WA to continue to grow FUM.

During the reporting year, the introduction of new tariffs by the United States has contributed to heightened global trade uncertainty. While the Group's core operations remain largely domestic and diversified across financial services, broader market impacts such as commodity price volatility, exchange rate fluctuations, and shifts in investor confidence have the potential to influence client activity and investment outcomes. The Group continues to monitor international developments closely and remains focused on delivering resilient performance through a diversified business model and prudent risk management.

Further information on likely developments in the future operations of the Group and the expected results of operations have not been included in this report because the Directors believe it would be likely to result in unreasonable prejudice to the Group.

Remuneration Committee and Governance

The Euroz Hartleys Group Limited Remuneration Committee (Committee) operates under the delegated authority of the Euroz Hartleys Group Limited Board. The Committee has ultimate oversight of the Group's remuneration strategy which is based on the following broad principles:

- Competitive remuneration – to attract, motivate and retain highly talented employees that share the Group's values;
- Performance-based – to ensure there is a link between individual and organisational performance;
- Fair and equitable – all staff are remunerated fairly and equitably, without regard to gender, sexual identity, age, religion or ethnicity;
- Alignment to security holder value – variable remuneration structures for eligible employees with the opportunity for equity-based payments.

With these principles in mind, the Committee works together with the Executive to apply the remuneration framework set out below.

In applying the framework, the Committee seeks to strike a balance between having a transparent, aligned and structured framework, whilst retaining overall discretion and flexibility to deliver fair outcomes.

Remuneration Committee and Governance (continued)

The process to determine remuneration is undertaken in multiple stages with responsibility for outcomes divided across two independent committees. The Euroz Hartleys Limited Executive Remuneration Committee (EHL ERC) in consultation with key senior executives of Euroz Hartleys Limited are responsible for the development of remuneration recommendations for the employees of Euroz Hartleys Limited, which represent the majority of the Group's employees. These recommendations encompass both base and variable remuneration and are calculated in accordance with the agreed models and processes adopted by the Group. The EHL ERC formulates its recommendations in respect of remuneration which are presented for the consideration of the Committee. No members of the EHL ERC are members of the Committee.

The Committee considers the recommendations of the EHL ERC but is not bound to accept them. The Committee holds the authority to undertake any separate investigations or discussions they deem necessary or appropriate to determine the appropriateness of the recommendations. The Committee may (and does) make any adjustments they deem necessary to ensure that the principles and outcomes of the remuneration strategy are maintained.

There are three Directors on the Committee, all of whom were in office for the entire year:

- Ms Robin Romero (Chair) (Independent Non-Executive Director);
- Ms Fiona Kalaf (Independent Non-Executive Director); and
- Mr Richard Simpson (Non-Executive Director)*.

* *Richard Simpson transitioned from Executive to Non-Executive Director on 22 August 2024*

Committee members are not eligible to receive any variable remuneration.

Remuneration framework

The Board recognises that our people are paramount in achieving the Group's long-term objectives and are a key driver of competitive advantage. We also understand that nurturing a high-performance culture and aligning the interests of KMP's and other employees with shareholders is a critical strategy in creating shareholder value.

Remuneration of our people consists of:

- Fixed Remuneration - base salary plus superannuation; and
- Variable Remuneration - performance-based remuneration including short-term, long term and sales-based incentives or commissions.

Fixed Remuneration

Fixed Remuneration consists of an annual base salary plus superannuation. Salary reviews are done biannually, however, there is no guarantee that an employee's salary will increase as part of this review. There are no guaranteed base salary increases incorporated in any employee contracts. Remuneration levels are reviewed with regard to:

- The scope and complexity of the role, including role deliverables, this will be looked at comparatively to other roles of a similar scope and complexity to prevent bias;
- The importance of the role to the successful execution of strategy;
- The individual's skill and level of experience;
- Market pay levels for comparable businesses and competitors; and
- Advice from external consultants or other market sources.

Variable remuneration

Variable remuneration may consist of one or more of the following:

- Commission;
- Short term Incentives (cash and /or equity-based) made up of:
 - Profit Share Pool Bonuses; or
 - Discretionary Bonuses;
- Long-term Incentives.

Each of the above is explained in more detail below. At the end of this section is an explanation of how any "equity-based payment" portion of a particular type of variable remuneration operates.

Remuneration Report (audited) (continued)

Remuneration framework (continued)

Variable remuneration (continued)

Commission

Employees in the Private Wealth division of the business may receive commission in addition to fixed remuneration. The commission, which typically reflects brokerage, corporate income and / or portfolio administration reward, is calculated on a sliding scale which effectively rewards higher performance with increased commission rates. Eligible employees in the Private Wealth division who receive a commission may also be invited to receive "equity-based payments" by participating in the Group's "Performance Rights Plan" (refer below) based on certain performance hurdles set out in their respective employment contracts.

Short Term Incentives (STI)

Short term incentives (STI) are offered to eligible employees in the Wholesale and Operations departments of the business. Wholesale department employees may participate in the "profit share pool" whereas Operations employees may be eligible to receive a discretionary bonus.

The "profit share pool" is made up of an amount of up to 45% of the pre-tax profits of EHL (calculated in accordance with Australian Accounting Standards) for the 12 months ended 31 May 2025. The EHL ERC develops and makes recommendations to the Committee as to how this pool is allocated amongst eligible employees, based on the following criteria and after consultation and input from senior management:

- Generation of returns for shareholders
- Ability to perform individual tasks within the relevant department
- Ability to add value and innovate beyond the standard job specification
- Development of new and existing client relationships
- Ability to interact with other relevant departments and work collaboratively as part of a larger team approach
- Relevant industry salary benchmarking
- General requirements to attract and retain staff

The Committee (who are not the members of the EHL ERC) will then consider and, if agreed, ratify the recommendations of the EHL ERC. The Committee is authorised to make any amendments it sees fit to the recommended distribution of the profit share pool.

Once determined, an employee's profit share pool entitlement may be received all in cash, or as a combination of cash (75%) and equity (25%) (see "Equity-Based Payments" section).

Discretionary bonus

Certain employees who do not participate in the profit share pool may be eligible for a discretionary bonus based on the individual's performance, their contribution to the business over the relevant period and having regard to the overall profitability of the Group.

The EHL ERC develops and makes recommendations to the Committee as to any discretionary bonus for eligible employees in consultation and input from senior management.

The Committee will then consider and, if agreed, ratify the recommendations of the EHL ERC. The Committee is authorised to make any amendments it sees fit to the recommended payment of discretionary bonuses.

Once determined, an employee's discretionary bonus entitlement may be received all in cash, or as a combination of cash (75%) and equity (25%) (see "Equity-Based Payments" section).

Long term Incentives (LTI)

In 2023 financial year, Euroz Hartleys Group Limited introduced a Long-Term Incentive Plan (LTIP) within the Performance Rights Plan (PRP). The LTIP underpins Euroz Hartleys' employment strategy of rewarding specific strategic performance and attracting and retaining key senior executive talent. Specifically, the Plan aims to recognise long-term performance and successful completion of key strategic goals aligning with the successful addition of long-term shareholder value.

During the 2024 financial year the LTIP initiative was extended to a group of certain eligible senior executives of Euroz Hartleys Limited who have been identified as being instrumental to the execution of the Group's strategic plan and seeks to enhance senior management's strategic responsibilities and outcomes ensuring alignment with shareholders (see "Equity Based Payments" below).

The shares issued under the LTIP are determined by dividing the LTI outcome by the fair value of Euroz Hartleys Group Limited shares, where the fair value is calculated as the 30-day volume weighted average price (VWAP). LTI outcome is calculated based on a formulaic methodology with allowance for discretion in respect of certain individuals KPIs. All LTI outcomes are subject to the overall discretion of the Committee.

Remuneration framework (continued)

Equity-Based Payments

For those eligible employees that opt in, the equity component of the different variable remuneration mechanisms set out above is received via the PRP. The PRP was established in 2014 as an incentive to enhance the reward, retention and motivation of eligible employees by seeking to enhance employee alignment with shareholders.

Shares allotted under the PRP are purchased on market utilising the funds that would otherwise have been distributed to the particular employee as variable remuneration. As stated, employees who do not opt in to the PRP have their entire variable remuneration component paid in cash.

PRP – Commission and STI

Where variable remuneration is made up of Commission or STI's, eligible employees who opt in are awarded a "Performance Right" during the course of the financial year. The Performance Right represents a right to be allotted a number of ordinary shares in Euroz Hartleys Group Limited in lieu of 25% of the applicable variable remuneration component of that employee.

This right then automatically vests at the end of the financial year if the employee has met the vesting requirements being that they remain an "Eligible Employee" at the "Right Vesting Date".

An Eligible Employee for these purposes means a full time or part-time employee of any member of the Group or a Director of any member of the Group who holds a salaried employment or office with a member of the Group. If there is a change in the employing entity of a Participant from one member of the Group to another member of the Group, the Participant will be considered, for the purposes of the plan, to have continued to be an Eligible Employee at all relevant times.

Shares are held in trust in the name of the individual employees and in terms of the "Share Vesting Date", the Shares will only "vest" to the eligible employee after 3 years subsequent service following the initial year of service. Shares are subsequently held in escrow for a further 11 years and one day following the initial 3-year eligibility period. Shares are subject to clawback provisions during both the initial 3-year eligibility period and subsequent escrow period. No amount is payable upon "vesting" of shares issued under the PRP following the completion of the initial 3-year eligibility period. Shares allotted under the PRP are subject to income tax at the participants individual income tax rate at the time of ceasing of escrow from the PRP.

PRP – LTIP

For select eligible senior executive employees, a nominal LTIP right is issued to each of the participants for nil consideration and nil value at the commencement of the period. The LTIP right represents the potential right for a participant to be allotted a number of ordinary shares in Euroz Hartleys Group Limited should both a number of Group performance hurdles and individual financial and non-financial KPIs be met or exceeded. These KPIs enhance senior management's responsibilities and outcomes ensuring alignment with shareholders and the addition of long-term shareholder value.

The LTIP provides a maximum (capped) dollar value opportunity for each individual participant which is then scaled down in a two-step process; firstly, based on the stipulated Group performance hurdles the outcome of which is then subsequently scaled again based on the individual's performance measured against a combination of both the individual's financial KPIs and non-financial KPIs. The LTIP is weighted 70% / 30% financial / non-financial KPIs to drive long-term strategic shareholder value and growth.

The LTIP provides a minimum profit hurdle along with other material hurdles, which if not met reduces the value of the LTIP for that individual or the entire cohort of participants (dependent on the specific hurdle) to nil for the entire period. The profit hurdle is a specific measure of the Group's financial performance compared to the previous 5-year period on a rolling basis. Financial KPIs include amongst others profitability, FUM growth, revenue metrics and targets, ECM rankings and Total Shareholder Returns.

Once the final value of the LTIP opportunity has been calculated, it is satisfied by way of the delivery of shares to the participants. Any shares that are allotted in satisfaction of the LTIP are purchased on market and are subject to a 3-year continuous service condition, clawback provisions and continuing escrow periods.

During the year LTI rights were issued to seven (7) Executives under the PRP (2024: seven (7) Executives).

As the minimum profit hurdle was achieved for the period, the Committee undertook an extensive data driven assessment of all the individual KPIs which then determined the LTIP outcome of all participants in the LTIP. The rights for the financial year 2025 LTIP were vested and LTIP shares were allotted. Value of LTIP granted to KMPs are below:

	Maximum Opportunity	Amount granted
	\$	\$
Andrew McKenzie	364,500	170,007
Timothy Bunney	364,500	184,878
Anthony Brittain	196,350	103,673
Total	925,350	458,558

The LTIP is not applicable to Non-Executive Directors.

Directors fees

Non-Executive Directors (NEDs) are paid a fixed base fee and superannuation. To preserve independence and impartiality, NEDs are not entitled to any performance-based remuneration.

Executive Directors are not paid any directors' fees.

In considering the Group's performance and benefits for shareholder wealth, the Remuneration Committee have regarded the following in respect of the current financial year and the previous four financial years (since the merger of Euroz and Hartleys in October 2020):

	2025	2024	2023	2022	2021
	\$'000	\$'000	\$'000	\$'000	\$'000

These performance rights were issued in accordance with the PRP. In financial year 2025, rights were granted in December 2024 and vested or lapsed on 30 June 2025.

Share-based compensation

A performance right was issued to KMPs as part of their annual bonus / profit share plan. Where the KMP participates in the profit share pool or receives a discretionary bonus then the fair value of the shares allotted under the PRP of each right is calculated as 25% of each member's profit share or discretionary bonus entitlement. Where the KMP is a Private Wealth Adviser then the fair value of the shares allotted under the PRP is calculated as a portion of their total monthly brokerage, corporate income and / or portfolio administration commission. Shares issued under the PRP have a 3-year service vesting condition. Total fair value of shares resulting from the exercise of the performance rights issued to KMPs in the year amounts to \$1,011,000 (2024: \$595,000).

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements as issued by the Australian Accounting Standards Board and the Corporations Act 2001 as appropriate for "for-profit" oriented entities.

This financial report has been authorised by the Directors to be issued on 20 August 2025.

Euroz Hartleys Group Limited is a listed public company, trading on the Australian Securities Exchange and Cboe Australia, limited by shares, incorporated and domiciled in Australia.

The financial report of Euroz Hartleys Group Limited and its controlled entities (the Group), complies with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Separate financial information of the Parent Company has been included in Note 29 as permitted by amendments to the Corporations Act 2001.

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Basis of preparation

Reporting basis and conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Presentation and functional currency

The consolidated financial statements are presented in Australian Dollars, which is the Company's functional currency. All amounts have been rounded to the nearest dollar, unless otherwise indicated.

Accounting policies

(a) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all entities controlled by Euroz Hartleys Group Limited ('Company' or 'parent entity') as at 30 June 2025 and the results of all controlled entities for the year then ended. Euroz Hartleys Group Limited and its controlled entities together are referred to in this financial report as the Group.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group.

A change in ownership interest without the loss of control is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group. All controlled entities have a 30 June financial year end.

(b) Income tax

The income tax expense or benefit for the year is the tax payable on that years' taxable income based on the applicable income tax rate for Australia, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that:
 - is not a business combination; and
 - at the time of the transaction (i) affects neither accounting nor taxable profit or loss and (ii) does not give rise to equal taxable and deductible temporary differences;

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(b) Income tax (continued)**

- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

(c) Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, and the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer. The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of 12 months from the date of the acquisition or when the acquirer receives all the information possible to determine fair value.

(d) Revenue recognition*Revenue from contracts with customers*

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Group: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability. The Group recognises revenue when it transfers control over a service to a customer. The nature and timing of satisfaction of performance obligations for each of the Group's main revenue streams is set out below.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(d) Revenue recognition (continued)***Brokerage revenue*

Brokerage revenue from share trading is considered to be derived from a single obligation being the completion of a share trading transaction. Accordingly, at the completion of the transaction the revenue is recognised.

Underwriting, placement fees and corporate retainers

Corporate retainers relate to the service fee for work performed such as corporate advisory services. This service is considered a distinct performance obligation and accordingly revenue is recognised as the service is completed and as the performance obligation is satisfied overtime in accordance with the engagement mandate.

Placement fees are fees charged on raising capital for clients. This is determined to be the single performance obligation and revenue is recognised as the service is completed in accordance with the engagement mandate.

Underwriting fees are derived upon the satisfactory completion of the engagement criteria which may be the execution of a capital raising or the sale of a pre-determined number of shares for a client. The performance obligation is determined to be the completion of the capital raise or sale of the shares and revenue is recognised when the service is completed in accordance with the engagement mandate.

The payment terms in relation to this source of revenue is up to 7 days.

Performance and management fees

Performance fee income is derived from investment management agreements based on the performance of an underlying fund over a contracted period of time. If the fund performance exceeds a specified threshold the performance fee payable is determined and recorded as revenue at the conclusion of the performance period. The performance obligation is determined to be singular being to achieve a certain performance target over a specified period.

Management fee income is derived from investment management agreements whereby a monthly management fee is payable based on the fund value. The performance obligation is the monthly management of the fund and revenue is recorded monthly following the completion of the month.

The payment terms in relation to this source of revenue is up to 20 days.

Wealth management fees

Wealth management fee income is derived from agreements with clients individually whereby a monthly management fee is payable based on the portfolio value or alternatively a fixed fee arrangement. The performance obligation is the monthly management of the investment portfolio and revenue is recorded monthly following the completion of the month.

Proceeds from the sale of investments

Gross proceeds and cost of disposal on sale of investments are disclosed as gain / loss on investments along with unrealised gains / losses in investments held at year end.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

(e) Receivables

Trade receivables are recognised as current receivables as they are generally settled within 30 days from the date of recognition. Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. For the Group it arises from receivables from subsidiaries, as well as from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and has established a credit and trading policy which sets certain trading limits and guidelines. These limits are reviewed and adjusted by management when and, if required, depending on circumstances prevailing at that time.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Accounting policies (continued)

(f) Plant and equipment

Each class of plant and equipment is carried at cost as indicated less, where applicable, any accumulated depreciation and impairment losses.

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Depreciation

The depreciable amount of all plant and equipment is depreciated on a straight-line basis over their useful lives to the residual values commencing from the time the asset is held ready for use. The depreciation rates used for each class of depreciable assets are:

Class of plant and equipment	Depreciation Rate
Leasehold improvements	2 - 25%
Plant and equipment	25 - 33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss.

(g) Leasehold improvements

The cost of improvements to or on leasehold properties are amortised over the unexpired period of the lease or the estimated useful life of the improvement to the Group, whichever is the shorter.

(h) Leases

Short term lease payments are charged to the statement of profit or loss in the periods in which they are incurred, as this represents the pattern of benefits derived from the leased assets.

Right of use assets

A right of use asset is recognised at the commencement date which aligns with the date when the leased asset is ready for use. The right of use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right of use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Group has elected not to recognise a right of use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right of use asset is fully written down.

(i) Trade and other payables

Trade and other payables comprise liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(j) Dividends**

Provision is made for the amount of any dividend declared and authorised by the Directors on or before the end of the financial year, but not distributed at reporting date.

(k) Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

(l) Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

(m) Employee benefits**(i) Wages, salaries and annual leave**

Liabilities for wages, salaries and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Employee benefits payable later than one year

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. There have been no changes to the method used to calculate this liability.

(iii) Superannuation

Contributions are made by the Group to superannuation funds as stipulated by statutory requirements and are charged as expenses when incurred.

(iv) Employee benefit on costs

Employee benefit on costs, including payroll tax, are recognised and included in employee benefits liabilities and costs when the employee benefits to which they relate are recognised as liabilities.

(v) Performance rights

The Performance Right represents a right to be allotted a number of ordinary shares in Euroz Hartleys Group Limited for Eligible Employees. This includes:

- executives who receive LTIP, reflecting 100% of the LTIP
- employees who opt in reflecting 25% of the profit share or the discretionary bonus,
- Private Wealth Advisers who opt in and are paid a commission, reflecting 5% of their total monthly brokerage, corporate income and / or portfolio administration revenue

An Eligible Employee means a full time or part-time employee of any member of the Group or a Director of any member of the Group who holds a salaried employment or office with a member of the Group. If there is a change in the employing entity of a Participant from one member of the Group to another member of the Group, the Participant will be considered, for the purposes of this plan, to have continued to be an Eligible Employee at all relevant times.

Each performance right is subject to a service based vesting condition. Performance Rights are issued for nil consideration and Performance Rights that do not vest lapse with a nil value.

In accordance with the terms of the PRP, where an Eligible Employee meets the vesting requirements being that they are an Eligible Employee at the vesting date, then the Performance Rights will be automatically exercised and participants will be allotted the requisite number of Shares. Shares utilised to fulfil the awards made under the PRP are purchased on market utilising funds accrued from the profit share pool, discretionary bonuses or brokerage, corporate income and / or portfolio administration commission.

The fair value of shares allotted under the PRP is estimated at grant date based on 25% of profit share or discretionary bonus or for Private Wealth Advisers who are paid a commission, a portion of their total monthly brokerage, corporate income and portfolio administration commission that will be paid at year end to eligible employees.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(m) Employee benefits (continued)***(v) Performance rights (continued)*

For financial year 2025, where an employee had met the relevant criteria and had opted in to the PRP, the relevant Performance Rights were granted in December 2024 and vested on 30 June 2025 with the requisite number of shares being allotted on 30 June 2025.

Once the performance right converts to plan shares these are subject to a further 3-year service condition, following the initial year of service and are escrowed for a further period of 11 years and one day. Shares are subject to clawback provisions during both the initial 3-year eligibility period and subsequent escrow period. No amount is payable upon vesting of shares issued under the PRP following the completion of the initial 3-year eligibility period. Shares allotted under the PRP are subject to income tax at the participants individual income tax rate at the time of ceasing of escrow from the PRP.

The Board may, at their discretion accelerate the vesting period. Unvested shares are subject to bad leaver clawback provisions during the 3-year period and bad leaver provisions for the entirety of the escrow period.

(vi) Profit-sharing

The Group recognises a liability and an expense for profit-sharing based on a formula that calculates the profit attributable to the Company's employees after certain adjustments.

(vii) Termination benefits

The Group recognises a liability and an expense when the Group demonstrates a commitment to either terminate the employee before the normal retirement date or provide termination benefits as a result of an offer made to the employee prior to retirement date.

(n) Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

(o) Earnings per share*(i) Basic earnings per share*

Basic earnings per share is determined by dividing the net profit after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares. The potential impact of issuing treasury shares externally is considered when calculating diluted earnings per share.

(p) Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interest. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed each reporting date and transfers between levels are determined based on a reassessment of the lowest level input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(q) Fair value estimation**

The fair value of financial instruments traded in active markets (such as publicly traded shares or share options, and trading and available-for-sale securities) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current closing price; the appropriate quoted market price for financial liabilities is the current closing price.

The fair value of financial instruments that are not traded in an active market (for example, unlisted options) is determined using valuation techniques. The Group uses the Black-Scholes option pricing model to value unlisted options, taking into consideration the terms on which the options were granted. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(r) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(s) Treasury Shares

Own equity instruments that are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in share-based payments reserve.

(t) Investments and Financial Assets

Investments and other financial assets are securities in listed and unlisted companies initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at Fair Value Through Profit or Loss (FVTPL). Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if both of the following conditions are met:

- (i) The financial asset is held within a business model with the objective to hold financial assets to collect contractual cashflows; and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the Effective Interest Rate (EIR) method and are subject to impairment. Expected Credit Losses (ECL) on financial assets at amortised costs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the Group's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

For personal use only

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**Accounting policies (continued)****(t) Investments and Financial Assets (continued)***Impairment of financial assets (continued)*

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

(u) Current / non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in the normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(v) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

(w) Intangible asset

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Indefinite life intangibles are tested for impairment annually or more frequently if events, conditions or circumstances indicate that they might be impaired. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

(x) Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

Accounting policies (continued)

(y) Equity accounted investments

Associates are those entities which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. These equity accounted investments are initially recognised at cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss of equity accounted investees until the date on which significant influence ceases. Dividends received from associates are recognised as a reduction to the equity accounted investments.

At each reporting date, the Group reviews the carrying amounts of its equity accounted investments to determine whether there is an indication of impairment. If any indication exists, then the asset's recoverable amount is estimated, being the higher of value in use and fair value less costs of disposal. The Group measures fair value of its equity accounted investments using a quoted price in an active market for that investment, when one is available.

An impairment loss is recognised if the carrying amount of the asset exceeds its recoverable amount and is recognised in profit or loss.

Any impairment loss recognised is reversed only to the extent that the asset's carrying amount does not exceed its carrying amount that would have been determined if no impairment loss had been recognised.

(z) New standards and interpretations

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to their operations and effective for the current year.

New Accounting Standards and Interpretations not yet mandatory or early adopted

The AASB has issued the following new and amended accounting standards and interpretations that have mandatory application dates for future reporting periods. The Group is still assessing the impact of these standards on its future financial statements and has not early adopted any of them.

AASB No.	New standards or amendments	Application date
AASB 2024-2	Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments	1 January 2026
AASB 2024-3	Amendments to Australian Accounting Standards – Annual Improvements Volume 11	1 January 2026
AASB 18	Presentation and Disclosure in Financial Statements	1 January 2027

2. ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements incorporated in the financial statements are based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates and judgments

(i) Impairment of non-financial assets

At each reporting date, the Group compares the carrying values and the recoverable amount of non-financial assets to determine whether there is any indication of impairment. If impairment indicators exist, any excess of the investment entity's carrying value over the recoverable amount is expensed to the statement of profit or loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(ii) Goodwill

Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired.

For the purpose of impairment testing, the goodwill on acquisition of Blackswan Equities Limited and on the acquisition of Entrust have been allocated to the Private Wealth cash generating units (CGUs). Goodwill on the acquisition of Hartleys Limited has been allocated to the Private Wealth and Wholesale CGU respectively at \$3,139,000 and \$4,368,000.

(iii) Intangible assets

Upon acquisition of Entrust, Euroz Hartleys Group acquired \$1,736,000 in other intangible assets consisting 3 separate client portfolios. The useful life of these intangibles was assessed as 10 years and balance is fully amortised as at 30 June 2025. The client portfolios were allocated to the Private Wealth CGU.

2. ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

Key estimates and judgments (continued)

(iii) *Intangible assets (continued)*

On acquisition of Hartleys Limited, the Group recognised an intangible for Hartleys Limited brand name of \$19,500,000 with an indefinite useful life and customer relationship asset of \$3,900,000 with a useful life of 9 years. The values of these intangibles were measured by an external professional valuer. Amortisation expense of the customer relationship of \$433,000 was recognized during the year. The intangible assets associated with the Hartleys Limited's brand name was allocated to the Private Wealth and Wholesale CGU respectively at \$8,154,000 and \$11,346,000.

Impairment assessment of cash generating units containing goodwill and intangibles results

For impairment testing, goodwill and intangibles were allocated to the Group's CGUs as follows:

	Goodwill		Intangibles	
	2025 \$'000	2024 \$'000	2025 \$'000	2024 \$'000
Private Wealth	11,582	11,582	10,120	10,726
Wholesale	4,368	4,368	11,472	11,472
	15,950	15,950	21,592	22,198

The recoverable amount of both CGUs was based on their value in use, estimated using discounted cashflows.

The assumptions used in the estimation of the recoverable amount are set out in the table below. The values assigned to the key assumptions represent management's assessment of future cashflows and economic outlook and have been based on historical data from both external and internal sources.

	2025 %	2024 %
Discount rate	10	10
Terminal value growth rate	1.0	1.0
Average growth rate in next 5 years	0.0	0.0

The cash flow projections were based on historical averages. Projected cash flows for each CGU included specific estimates for a 5-year period and a terminal value thereafter, discounted using an appropriate discount rate. The Private Wealth CGU is able to withstand a reduction in forecast net cashflows of up to 6.4% before carrying amount exceeds its recoverable amount.

The following analysis is for the Private Wealth CGU which had a lower headroom than the Wholesale CGU:

Sensitivity analysis

	Percentage required for carrying amount to equal recoverable amount	
	2025 %	2024 %
Discount rate	13.02	14.41

The impairment assessment is not overly sensitive to the terminal value growth rate.

The Board have assessed that there is no indication that goodwill or intangible assets are impaired.

3. SEGMENT INFORMATION

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Executive team (the chief operating decision makers) in assessing performance and in allocating resources.

Euroz Hartleys Group Limited reportable business segments have been determined to be:

Private Wealth

Private Wealth refers to private wealth advisers who work with high net wealth individuals, companies, SMSF and other clients. Private wealth advisers provide a broad investment offering of stockbroking and corporate services for clients. The wealth management team provides strategic investment advice, superannuation advice, investment management and portfolio administration services.

Wholesale

Wholesale refers to the Institutional Dealing, Research and Corporate Finance team who work with companies and other institutional clients. The Institutional Dealing team provides quality advice, idea generation, site visits, and roadshow corporate access highly focused on resources, mining services and small to mid- cap Western Australia (WA) industrials. Working with the Institutional team is the Research team which has extensive coverage of ASX listed industrials, resources and energy companies and provides these insights for our institutional clients. The Corporate Finance team specialises in Equity Capital Markets (ECM), Mergers and Acquisitions (M&A) and strategic Corporate Advisory.

Due to the nature of the business providing financial services to the clients driven by the employees, management does not consider asset and liabilities separation to be an appropriate measure of segments.

Entity-wide disclosures

The Group operates within the geographical region of Australia. Therefore, the total revenue and non-current assets are reflected on the face of the financial statements.

Basis of accounting for purpose of reporting by operating segments

The accounting policies used by the Group in reporting segments internally are consistent with those adopted in the financial statements of the Group, unless otherwise stated.

- (i) Euroz Hartleys Group Limited signed a lease agreement in May 2023 for office space at QV1 located at 250 St Georges Terrace, Perth. The lease is for part of Level 37 and the whole of Level 38 of QV1 for a period of 10 years commencing on 1 July 2024 with two options to renew for 5 years commencing 1 July 2034 and 1 July 2039. The lease for 2,505 square metres is on normal commercial terms with a market rate incentive.

An assessment of the contract determined that it qualifies as a lease, as it grants the right to control the use of a specific asset for a defined period in exchange for compensation. As a result, the recognition of the right of use asset and lease liability occurred in December 2023 when the office became available for use.

Following the move to QV1, the Group surrendered the leases for the premises at Level 18 Alluvion, 58 Mounts Bay Road, Perth WA and Level 6 Westralia Square, 141 St Georges Terrace, Perth WA on 31 December 2023 and 31 January 2024, respectively. Accordingly, the respective right of use assets were fully written off and the lease liabilities were also wound down to the extent of the agreed surrender fee which has since been paid. Details of the movement of the right of use assets and liabilities are on note 18.

Tax consolidation legislation

Euroz Hartleys Group Limited and its wholly-owned Australian subsidiaries implemented the tax consolidation legislation as of 1 July 2003.

The entities have also entered into a tax sharing and funding agreement. Under the terms of this agreement, the wholly-owned entities reimburse Euroz Hartleys Group Limited for any current income tax payable by Euroz Hartleys Group Limited arising in respect of their activities. The reimbursements are payable at the same time as the associated income tax liability falls due and have therefore been recognised as a current tax-related receivable by Euroz Hartleys Group Limited. In the opinion of the Directors, the tax sharing agreement is also a valid agreement under the tax consolidation legislation and limits the joint and several liability of the wholly-owned entities in the case of a default by Euroz Hartleys Group Limited.

Client trust account	42,913	13,395
Total restricted cash	47,163	15,091
Total cash and cash equivalents	118,057	92,944

The cash margin account is held by the Australian Securities Exchange (ASX) as a margin requirement to cover possible market participant default and is adjusted each day to reflect the Group's current obligation to the clearing house at ASX. Client trust bank balances are client funds and not available for general use by the Group.

8. TRADE AND OTHER RECEIVABLES

	2025 \$'000	2024 \$'000
Trade receivables	2,465	2,896
Broker receivable (i)	22,598	21,502
Other receivable	1,968	22
	27,031	24,420

Receivables are measured at amortised cost and their carrying amount approximates fair value.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Group has established a credit and trading policy which sets certain trading limits and guidelines. These limits are reviewed and adjusted by management when and, if required, depending on circumstances prevailing at that time.

(i) Broker receivables relates to outstanding client accounts and amounts owed to the Group by ASX Clearing. These are settled with the broker payable as disclosed in Note 15.

9. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT AND LOSS

	2025	2024
	\$'000	\$'000
Fair value of listed securities	3,387	2,450
Fair value of unlisted securities	11,386	8,602
	14,773	11,052

These securities are held at fair value through profit or loss. The fair values of listed securities are based on the closing price of each investment at year end. The fair values of unlisted securities are measured using the Black-Scholes model at year end. The Black-Scholes model inputs are based on the risk-free Australian Bond rate and security share price.

The model's volatility percentage is calculated on the historical share price volatility, with the lookback period defined by the number of days until the unlisted security expires.

Investments at fair value through profit and loss relates to Euroz Hartleys Group Limited's 7.1% (2024: 7.1%) investment in Westoz Resources Fund Limited (WRFL). WRFL is an unlisted investment fund whose purpose is to generate positive returns and returning dividends to investors through the trading of ASX listed and unlisted securities generally associated with the resources sector in Western Australia. The responsible manager of the fund is Westoz Funds Management Pty Ltd a wholly owned subsidiary of Euroz Hartleys Group Limited.

WRFL is measured at fair value through profit or loss accounting in accordance with the Group accounting policies as disclosed in the annual report. The fair value of the investment was based on the net tangible asset of WRFL as at 30 June 2025.

Euroz Hartleys Group Limited signed a lease agreement in May 2023 for office space at QV1 located at 250 St Georges Terrace, Perth. The lease is for part of Level 37 and the whole of Level 38 of QV1 for a period of 10 years commencing on 1 July 2024 with two options to renew for 5 years commencing 1 July 2034 and 1 July 2039. The lease has a rent-free period from January 2024. The lease for 2,505 square metres is on normal commercial terms with a market rate incentive.

An assessment of the contract determined that it qualifies as a lease, as it grants the right to control the use of a specific asset for a defined period in exchange for compensation. As a result, the recognition of the right of use asset and lease liability occurred in December 2023 when the office became available for use.

Following the move to QV1, the Group surrendered the leases for the premises at Level 18 Alluvion, 58 Mounts Bay Road, Perth WA and Level 6 Westralia Square, 141 St Georges Terrace, Perth WA on 31 December 2023 and 31 January 2024 respectively. Accordingly, the respective right-of-use assets were fully written off and the lease liabilities were also wound down to the extent of the agreed surrender fee which has since been paid.

Treasury shares were acquired by the Employee Share Trust at various times during the year for grant to Executives and employees as part of the Performance Right Plan.

(e) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. Ordinary shares have no par value.

Every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

(f) Options

There were no options on issue at 30 June 2025 (30 June 2024: Nil).

(g) Share-based payment reserve

The reserve records items recognised as expenses on valuation of share-based payments. The movement in the current year totalling \$2,830,000 (2024: \$3,146,000) relates to the vesting expense related to the fair value of shares issued under all share-based payments plans in the prior year and the current year.

	2025 \$'000	2024 \$'000
Balance on share-based payment reserve at 1 July	10,912	9,395
Recognised during the year	2,830	3,146

Balance on share-based payments reserve at 30 June	6,753	10,912

(h) Capital management

On 18 July 2025, the shareholders approved the Directors' proposal for a capital return of approximately \$23,075,000 by way of an equal capital return. The payment was made on 5 August 2025, bringing the total capital returned to shareholders since inception to approximately \$63,000,000.

The Directors primary objective is to maintain a capital structure that ensures the lowest cost of capital available to the Group. At reporting date, the Group has significant cash reserves and no external borrowings. As the holder of various Australian Financial Services Licences and as a market participant of the Australian Securities Exchange the Group is exposed to externally imposed capital requirements, which have been complied with throughout the year.

20. DIVIDENDS

	2025 \$'000	2024 \$'000
Relating to ordinary shares		
Interim dividend for the half year ended 31 December 2024 of 2.0 cents (2024 – 1.75 cents) per fully paid ordinary share paid in February 2025 fully franked based on tax paid @ 30%	3,243	2,873
Final dividend declared and provided for at 30 June 2025 of 3.5 cents (2024 – 3.0 cents) per fully paid ordinary share to be paid in September 2025 fully franked based on tax paid @ 30%	5,769	4,944
Total dividends provided for or paid	9,012	7,817

Of the total dividends paid during the year \$53,000 (2024: \$11,000) was paid to the Euroz Share Trust and is undistributed. Therefore, it has been eliminated on consolidation.

Franked dividends

The franked portions of the dividends recommended after 30 June 2025 will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ended 30 June 2025.

	2025 \$'000	2024 \$'000
Franking credits available for subsequent financial years based on a tax rate of 30% (2024: 30%)	17,806	15,505

The dividends are fully-franked and therefore, there are no income tax consequences for the owners of Euroz Hartleys Group Limited.

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- (a) franking credits that will arise from the payment of the current tax liability;
- (b) franking debits that will arise from the payment of dividends recognised as a liability at the reporting date;
- (c) franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date; and
- (d) franking credits that may be prevented from being distributed in subsequent financial years.

The consolidated amounts include franking credits that would be available to the parent entity if distributable profits of controlled entities were paid as dividends.

21. FINANCIAL INSTRUMENTS

(a) Financial risk management

The Group's financial instruments consist of deposits with banks, trade receivables and payables, short term investments and long-term investments. Derivative financial instruments are not used by the Group. Senior Executives meet regularly to analyse and monitor the financial risk associated with the financial instruments used by the Group.

(b) Financial risk exposure and management

(i) Interest rate risk

The Group has no borrowings and therefore is not exposed to interest rate risk associated with debt. The Group has significant cash reserves and the interest income earned from these cash reserves will be affected by movements in the interest rate. A sensitivity analysis has been provided in the Note 21(b)(vii) to illustrate the effect of interest rate movements on interest income earned.

(ii) Liquidity risk

The Group manages liquidity risk using forward cash flow projections, maintaining cash reserves and having no borrowings or debt.

21. FINANCIAL INSTRUMENTS (continued)

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

Senior management monitors its exposure to customers on a regular basis to ensure recovery and repayment of outstanding amounts. Cash deposits are only made with Australian based banks.

The maximum exposure to credit risk, excluding the value of any collateral or security, at reporting date is the carrying amount of the financial assets disclosed in the statement of financial position. There is no collateral or security held for those assets at 30 June 2025.

The carrying amount of the Group's cash and cash equivalents, receivables and deposits represents the maximum credit exposure.

The Group's maximum exposure to credit risk at the reporting date was:

	Note	Carrying Amount	
		2025 \$'000	2024 \$'000
Cash and cash equivalents	7	118,057	92,944

(v) Fair value hierarchy

The following table details the Group's fair value of financial instruments categorised by the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Techniques, such as estimated discounted cash flows and observable data in Black-Scholes model are used to determine fair value for the financial instruments.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Regulatory assurance services are those that are required under legislation and are performed by the auditor including Form FS 71 as an AFSL licensee.

23. CONTINGENT LIABILITIES

Potential for regulatory exposures

The Group operates in the highly regulated Australian financial services market. It is common for the Group to engage with its regulators in relation to regulatory investigations, surveillance and reviews, reportable situations, formal and informal enquiries and regulatory supervisory activities. The Group has received various notices and requests for information from its regulators as part of both industry wide and Group specific reviews. The nature of these interactions can be wide ranging. The outcomes and total costs associated with such activity, if any, are inherently difficult to estimate and as a result any possible exposures remain uncertain. At this time, the Group considers the likelihood of material financial exposures arising from this activity to be uncertain.

Potential for customer exposures

From time to time the Group will receive claims for compensation from customers. These will usually relate to a complaint that has been made to the Australian Financial Complaints Authority. The outcomes and total costs associated with such activity, if any, are inherently difficult to estimate and, as a result, any possible exposures remain uncertain. At this time, the Group considers the likelihood of material financial exposures arising from this activity to be remote in circumstances where the Group has appropriate professional indemnity insurance arrangements in place regarding this activity.

Litigation

There are outstanding court proceedings, claims and possible claims for and against the Group. Where relevant, expert legal advice has been obtained and, in the light of such advice, disclosures as deemed appropriate have been made. We have not disclosed the estimated financial impact of the individual items either because it is not practicable to do so or because such disclosure may prejudice the interests of the Group.

Basis of preparation

Key assumptions and judgements - Determination of Tax Residency

Section 295 (3A) of the Corporation Acts 2001 requires that the tax residency of each entity which is included in the Consolidated Entity Disclosure Statement (CEDS) be disclosed. In the context of an entity which was an Australian resident, "Australian resident" has the meaning provided in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment as the determination of tax residency is highly fact dependent and there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency. In determining tax residency, the Group has applied the current legislation and judicial precedent, including having regard to the Commissioner of Taxation's public guidance in Tax Ruling TR 2018/5.

Directors' Declaration

FOR THE YEAR ENDED 30 JUNE 2025

The Directors declare that:

1. The financial statements, notes and remuneration report included in the Directors' Report and designated as audited, are in accordance with the Corporations Act 2001 and:
 - (a) comply with Accounting Standards and Corporations Regulations 2001;
 - (b) give a true and fair view of the Company's and consolidated group's financial position as at 30 June 2025 and of their performance for the year ended on that date;
 - (c) the consolidated entity disclosure statement as at 30 June 2025 is true and correct; and
 - (d) the financial statements are in compliance with International Financial Reporting Standards, as stated in note 1 to the financial statements.
2. The Executive Chairman and Chief Financial and Operating Officer have declared in accordance with section 295A of the Corporations Act 2001 that:
 - (a) the financial records of the Group for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
 - (b) the financial statements and notes for the financial year comply with Accounting Standards; and
 - (c) the financial statements and notes for the financial year give a true and fair view; and
 - (d) the consolidated entity disclosure statement required by subsection 295(3A) is true and correct.
3. In the Directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent Auditor's Report To The Members of Euroz Hartleys Group Limited

FOR THE YEAR ENDED 30 JUNE 2025

Independent Auditor's Report

To the shareholders of Euroz Hartleys Group Limited

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of Euroz Hartleys Group Limited (the Company).

In our opinion, the accompanying Financial Report of the Company gives a true and fair view, including of the **Group's** financial position as at 30 June 2025 and of its financial performance for the year then ended, in accordance with the *Corporations Act 2001*, in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated Statement of financial position as at 30 June 2025;
- Consolidated Statement of profit or loss and other comprehensive income, Consolidated Statement of changes in equity, and Consolidated Statement of cash flows for the year then ended;
- Consolidated entity disclosure statement and accompanying basis of preparation as at 30 June 2025;
- Notes, including material accounting policies; and
- Directors' Declaration.

The **Group** consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Valuation of Goodwill and Indefinite Life Intangible Assets (\$37.5m)

Refer to Note 2 and 14 to the Group Financial Report.

The key audit matter	How the matter was addressed in our audit
<p>A key audit matter for us was the Group's annual impairment testing of indefinite life intangible assets and goodwill.</p> <p>The Group has prepared value in use cash flow models for its Private Wealth and Wholesale business cash generating units (CGU). Goodwill and indefinite life intangible assets (collectively referred to as "Intangibles") have been allocated accordingly to these CGUs.</p> <p>We focused on the significant forward-looking assumptions the Group applied in their value in use models, including:</p> <ul style="list-style-type: none"> Forecast cash flows – the Group has experienced competitive market conditions and continuing volatility in the global investment market. Forecast growth rates and terminal value Discount rates - these are complicated in nature and vary according to the conditions and environment the specific CGU is subject to from time to time. <p>Value in use cashflow models and forward-looking assumptions tend to be prone to greater risk for potential bias, error and inconsistent application. These conditions necessitate additional scrutiny by us, in particular to address the objectivity of sources used for assumptions, and their consistent application.</p> <p>We involved valuation specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<p>Our procedures included the following:</p> <ul style="list-style-type: none"> We assessed the integrity of the value in use models used, including the accuracy of the underlying formulas. We compared forecast cash flows contained in the value in use models to Board approved forecasts. We assessed the accuracy of previous Group forecasts to inform our evaluation of forecasts incorporated in the models. We challenged the Group's forecast cashflows, growth rate assumptions and terminal value multiples by considering competitive market conditions and the continuing volatility in the global investment market. We also used our knowledge of the Group's past performance, business and customers, and our industry experience to determine the reasonableness of management's cashflow forecasts. . We considered the sensitivity of the models by varying key assumptions, such as forecast cash flows, growth rates and discount rates, within a reasonably possible range. We did this to identify those CGUs at higher risk of impairment and to focus our further procedures. Working with our valuation specialists, we: <ul style="list-style-type: none"> Independently developed a discount rate range considered comparable using publicly available market data for comparable entities. Adjustments for risk factors specific to the Group, its CGUs

For personal use only

	<p>and the industry were incorporated.</p> <ul style="list-style-type: none"> • Considered the appropriateness of the Group's value in use models against the requirements of the accounting standards. • Assessed the appropriateness of the terminal value by considering comparable companies. • We assessed the disclosures in the Financial Report using our understanding from our testing and against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in Euroz Hartleys Group Limited's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report and Remuneration Report.

The Executive Chairman's Report, Euroz Hartleys Group Limited Directors profiles, Euroz Hartleys Limited Directors & Officers' profiles, Euroz Hartleys Group Structure, Corporate Transactions, Managing Director's Report and Euroz Hartleys Foundation Report are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion..

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*

For personal use only

- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and that is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at:

https://www.auasb.gov.au/media/bwvicgre/ar1_2024.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Euroz Hartleys Group Limited for the year ended 30 June 2025, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 19 to 27 of the Directors' report for the year ended 30 June 2025.

Our responsibility is to express an opinion as to whether the Remuneration Report complies in all material respects with *Section 300A* of the *Corporations Act 2001*, based on our audit conducted in accordance with *Australian Auditing Standards*.
