

QUARTERLY REPORT & APPENDIX 5B
for the Quarter Ending 30 September 2025

Date: 23 October 2025

SEPTEMBER 2025 QUARTERLY ACTIVITIES REPORT

SUMMARY OF KEY ACTIVITIES FOR THE QUARTER

- During the quarter, IPB Petroleum Limited (ASX: IPB) (IPB or the Company) continued efforts to advance the commercialisation of its key asset, Exploration Permit WA-424-P, in the Browse Basin offshore Western Australia. The Company continued discussions with interested parties in support of drilling the Idris exploration well and potential development of the Gwydion oil discovery. These discussions build on the two-year extension to the application period for a retention lease or production licence over the Gwydion declared location, granted by NOPTA in April 2025.
- In addition, the Company continued to assess a broad pipeline of high-impact oil and gas new venture opportunities, both domestically and internationally, as part of its strategic focus on building a value-accretive asset portfolio. Several opportunities have progressed to the due diligence stage. The Board remains focused on securing a high-quality, early-stage asset capable of delivering meaningful near-to-medium term value to shareholders.
- On 1 August 2025, the Company appointed Mr Iain Smith as a Non-Executive Director. Mr Smith is a highly regarded Petroleum Geoscientist with significant experience in senior management roles across the ASX-listed oil and gas sector. Mr Smith's appointment strengthens the technical and commercial expertise of the Board as IPB advances its strategic priorities. Concurrently, Mr Doug Jendry resigned as Non-Executive Director. The Board thanks Mr Jendry for his service and contribution during his tenure.
- The Company lodged its Annual Report for the financial year ended 30 June 2025 on 19 September 2025, providing a comprehensive overview of financial performance, operational progress, governance, and strategic priorities of the Company. The Company continues to maintain low corporate overheads, with a focus on strategic activities that support value creation.

EXPLORATION PERMIT WA-424-P (IPB 100%)

The Company continued discussions with interested parties to enable the potential drilling of the Idris prospect and further advance development planning for the Gwydion discovery. The two-year extension for the Gwydion Location till April 2027 allows additional time for IPB to assess the commercialisation pathway and evaluate development options and pursue the most value-accretive path for shareholders.

IPB remains committed to realising value from the WA-424-P permit and continues to evaluate its options. This includes active engagement with industry participants to attract the capital necessary to support future drilling and development operations.

OTHER ACTIVITIES

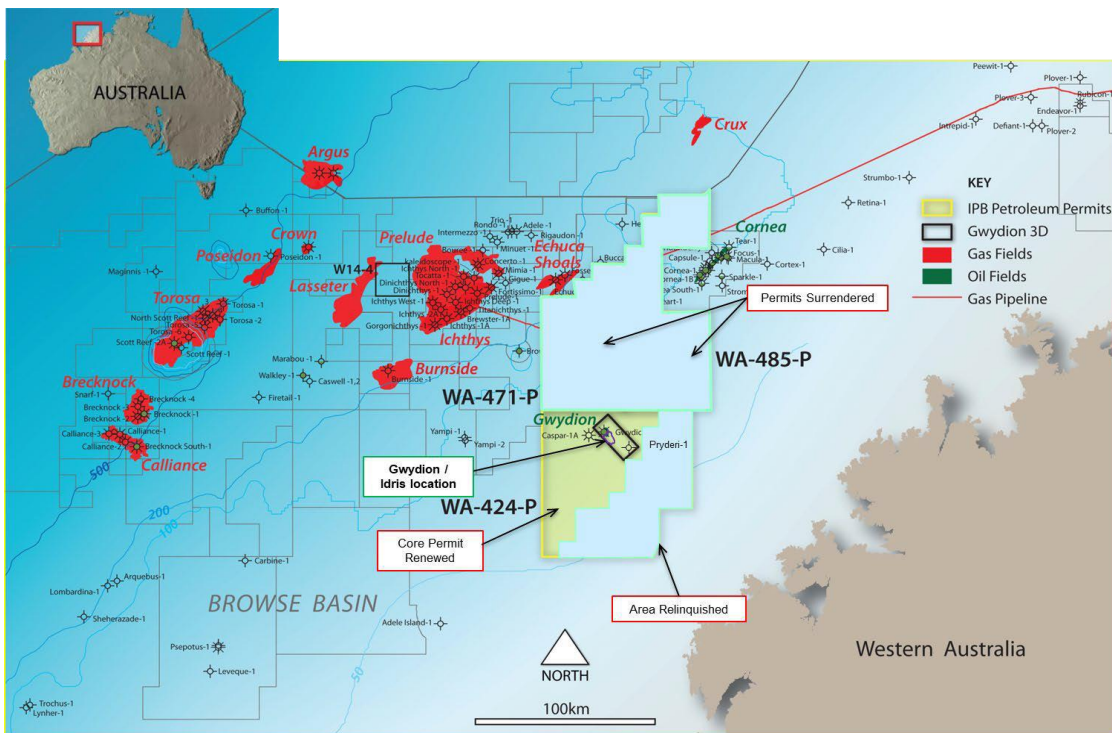

The Company continued to assess a range of domestic and international oil and gas opportunities. Due diligence continued on several new venture opportunities, with the Company maintaining a focus on high-impact opportunities that align with its strategic and technical capabilities. The Company remains committed to disciplined capital management and enhancing shareholder value through prudent expansion of its asset base.

ACTIVITIES – CORPORATE AND FINANCIAL

As of 30 September 2025, the Company has a cash balance of approximately \$1.3 million and no debt. Cash spend remains minimal and focused on core strategic activities. For further details refer to the attached Appendix 5B.

PERMIT HOLDINGS AND INTERESTS

As at the end of the Quarter, and also as at the date of this report, the Company held a 100% interest in the Exploration Permit WA-424-P in the Browse Basin (IPB 100% and Operator).

Location Map: IPB Exploration Permit WA-424-P in the Browse Basin

Non-Executive Chairman

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – e.g. Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
