

ASX / MEDIA ANNOUNCEMENT (ASX:JNO)

28 OCTOBER 2025

QUARTERLY ACTIVITIES REPORT FOR THE QUARTER ENDED 30 SEPTEMBER 2025

Juno Minerals Limited (ASX: JNO) (**Juno** or '**the Company**') is pleased to provide an update on activities for the quarter that ended on 30 September 2025.

HIGHLIGHTS

- **Work on progressing completion of the sale of the Mount Mason DSO Hematite Project to Gold Valley Yilgarn Pty Ltd (GVY) advanced through the quarter.**
- **Total sale consideration is A\$6m cash plus a 2% FOB royalty.**
- **A\$3m of the sale consideration received during the June 2025 quarter, with balance payable at completion.**
- **The sale was formally completed on 6 October 2025.**
- **The Royalty will provide an income stream to Juno.**
- **With the Project fully permitted for development, GVY proposes to commence production in mid-2026.**
- **The sale does not impact Juno's strategic major asset the Mount Ida Magnetite Project.**
- **Sedgeman Onyx was commissioned to review Mount Ida metallurgy and process design.**

MOUNT MASON DSO HEMATITE PROJECT

In June 2025, Juno Minerals Limited (**Juno** or the **Company**) executed the agreement (**Asset Sale Agreement** or **ASA**) for the sale of the tenements comprising the Mount Mason DSO Hematite Project (the **Project**) to Gold Valley Yilgarn Pty Ltd (**GVY**), an established producer in the region.

The **Mount Mason Project** was, after project reviews and optimisations, unlikely to be developed by Juno considering the capital expenditure required for what is a small standalone project. It is however a project that will add to and complement GVY's production from Wiluna into their established supply chain to the Port of Esperance.

The consideration for the sale was A\$6 million cash plus the grant to Juno of a 2% FOB revenue royalty on all iron ore production from the Project tenements (**Royalty**). Pursuant to the terms of the Asset Sale Agreement (**ASA**), a deposit of A\$3 million was paid to Juno upon signing the ASA, with the balance of cash consideration A\$3 million payable upon completion of the transfer of the Project tenements, which was completed on 6 October 2025.

This is a good deal for Juno as the sale augments Juno's cash reserves plus provides Juno with a potential income stream from the production Royalty. It also provides a decreased capital entry into the project for GVY with the use of existing Juno infrastructure and a project permitted for development. Juno proposes to use the proceeds from the sale towards maintaining its Mount Ida Magnetite Project, exploring new opportunities and for general working capital requirements.

The Project tenements comprise mining lease M29/408 that hosts a mineral resource of 5.9 million tonnes of hematite iron ore at 60.1% Fe (see *Table 1*) and supporting general purpose lease G29/23 and miscellaneous licence L29/132. The Project tenements are fully permitted for development.

The Royalty is payable to Juno on the revenue from all iron ore produced from the Project tenements, with payment secured by the grant of mining mortgages over the Project tenements.

In conjunction with the sale of the Project, pursuant to the terms of an access deed between Juno and GVY, Juno has agreed to grant GVY a non-exclusive licence to construct and use an approved 27km haul road from the proposed Project mine site to the Menzies North-West Road, which traverses Juno's Mt Ida project mining tenements that are not part of the sale, see *Figure 1*. The term of access is 8 years. The haul road licence will enable GVY to haul Mount Mason DSO to Kalgoorlie, for it then to be loaded onto rail for haul to the Port of Esperance.

To enable GVY to undertake human resourcing for Project development and mining, Juno has agreed to lease its Cassini Village to GVY for a nominal monthly fee.

GVY has informed Juno that it plans to mobilise to site to establish a DSO mining operation in mid-2026.

Juno welcomes GVY's proposal to develop the Project with the expected production of DSO to add to and complement GVY's existing Wiluna production to export volumes out through the Port of Esperance.

The sale of the Mount Mason DSO Project to an established producer with a lower cost base and a supply chain already in place, enables the Project to be developed in the near term and provide a return to Juno.

Juno's **Mount Ida Magnetite Project** is not impacted by the sale of Mount Mason. Mount Ida is a strategic major asset with a current resource of 1.85B tonnes at 29.48% Fe on a granted mining lease and is the largest magnetite resource in the Yilgarn region.

MOUNT IDA MAGNETITE PROJECT

The Mount Ida Magnetite Project (the **Mount Ida Project**) is a large and significant project that presents a great opportunity to become a long-life magnetite mine. Juno is running a process to attract a substantial partner to earn-in at the project level, with the capacity to complete the Feasibility Study and develop the Mount Ida Project.

The Mount Ida Project is not negatively impacted by the sale of Mount Mason, in fact construction of the haul road by GVY adds value to Mount Ida by providing improved access to the project and negates the requirement for Juno to construct in the future. The expanded Cassini Village will also add value to the Mount Ida Project which will be required for progressing the project. The Mount Ida Project is a strategic major asset with a current resource of 1.85btonnes at 29.48% Fe on a granted mining lease and is the largest magnetite resource in the Yilgarn region.

During the quarter Juno commissioned Sedgeman Onyx to review the past metallurgical test-work and the proposed process flowsheet. The intent is to advise on potential gaps in the test-work and whether improvements could be made in comminution with the latest technology in fine grinding.

Mount Ida neighbours Hancock Prospecting and Legacy Iron Ore's Mt Bevan Magnetite Project JV, which is currently undergoing feasibility work, this is positive for the region for magnetite project development.

Magnetite concentrate's higher grade, consistent product specifications and quality produce a higher quality steel and is the preferred smelter feedstock. With the green steel thematic, Mount Ida is and continues to be a major asset for Juno, and increased focus will be undertaken to attract a JV partner to earn-in on the Project by completing a Feasibility Study.

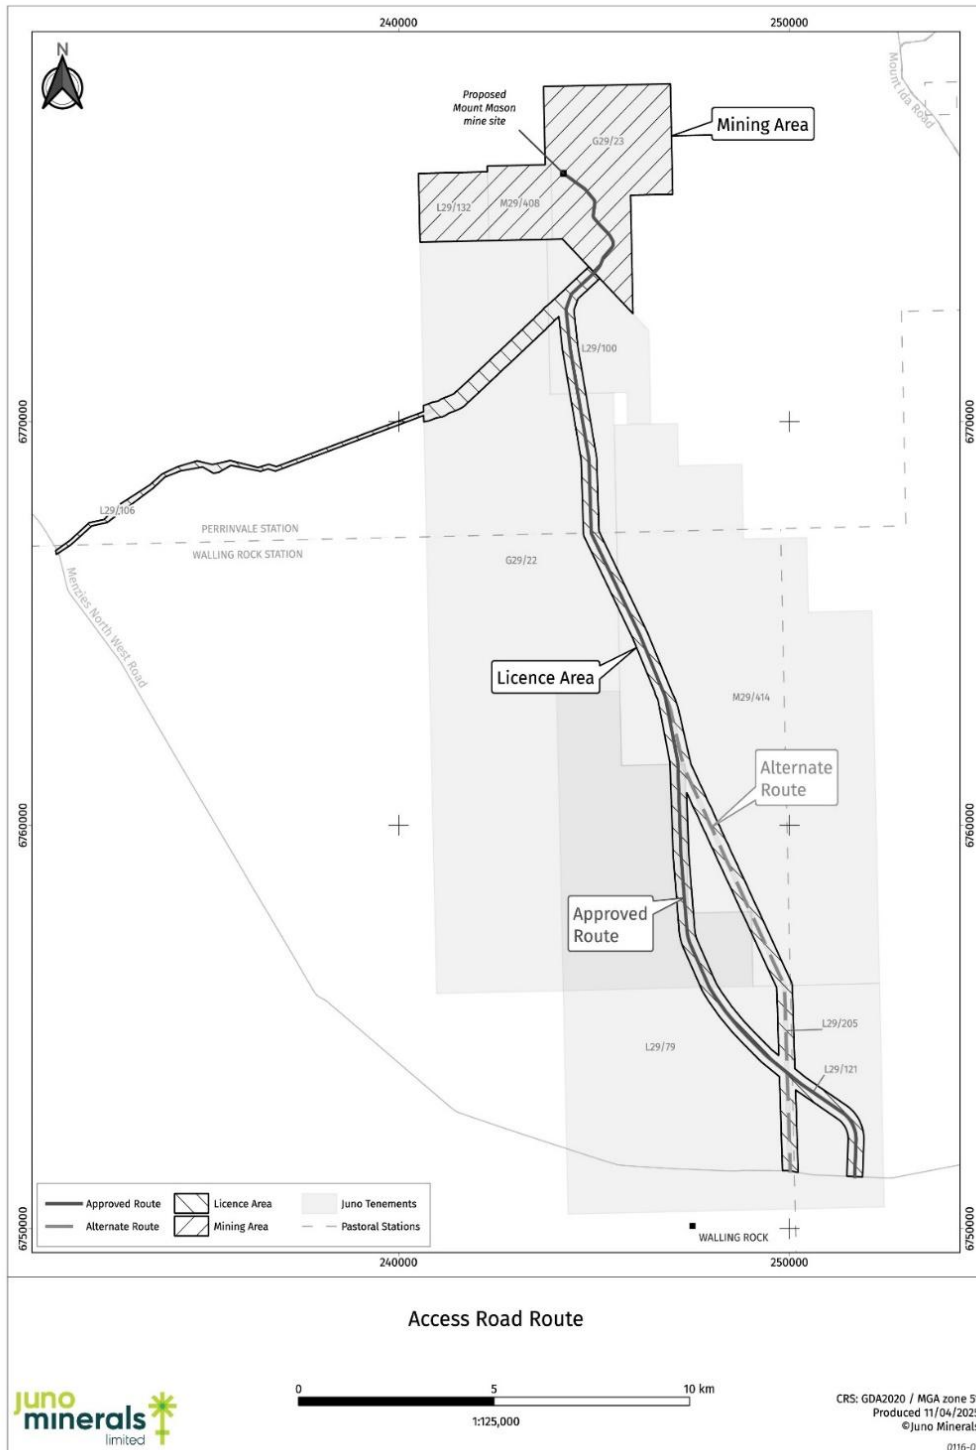

Figure 1: Haul Road Route

For personal use only

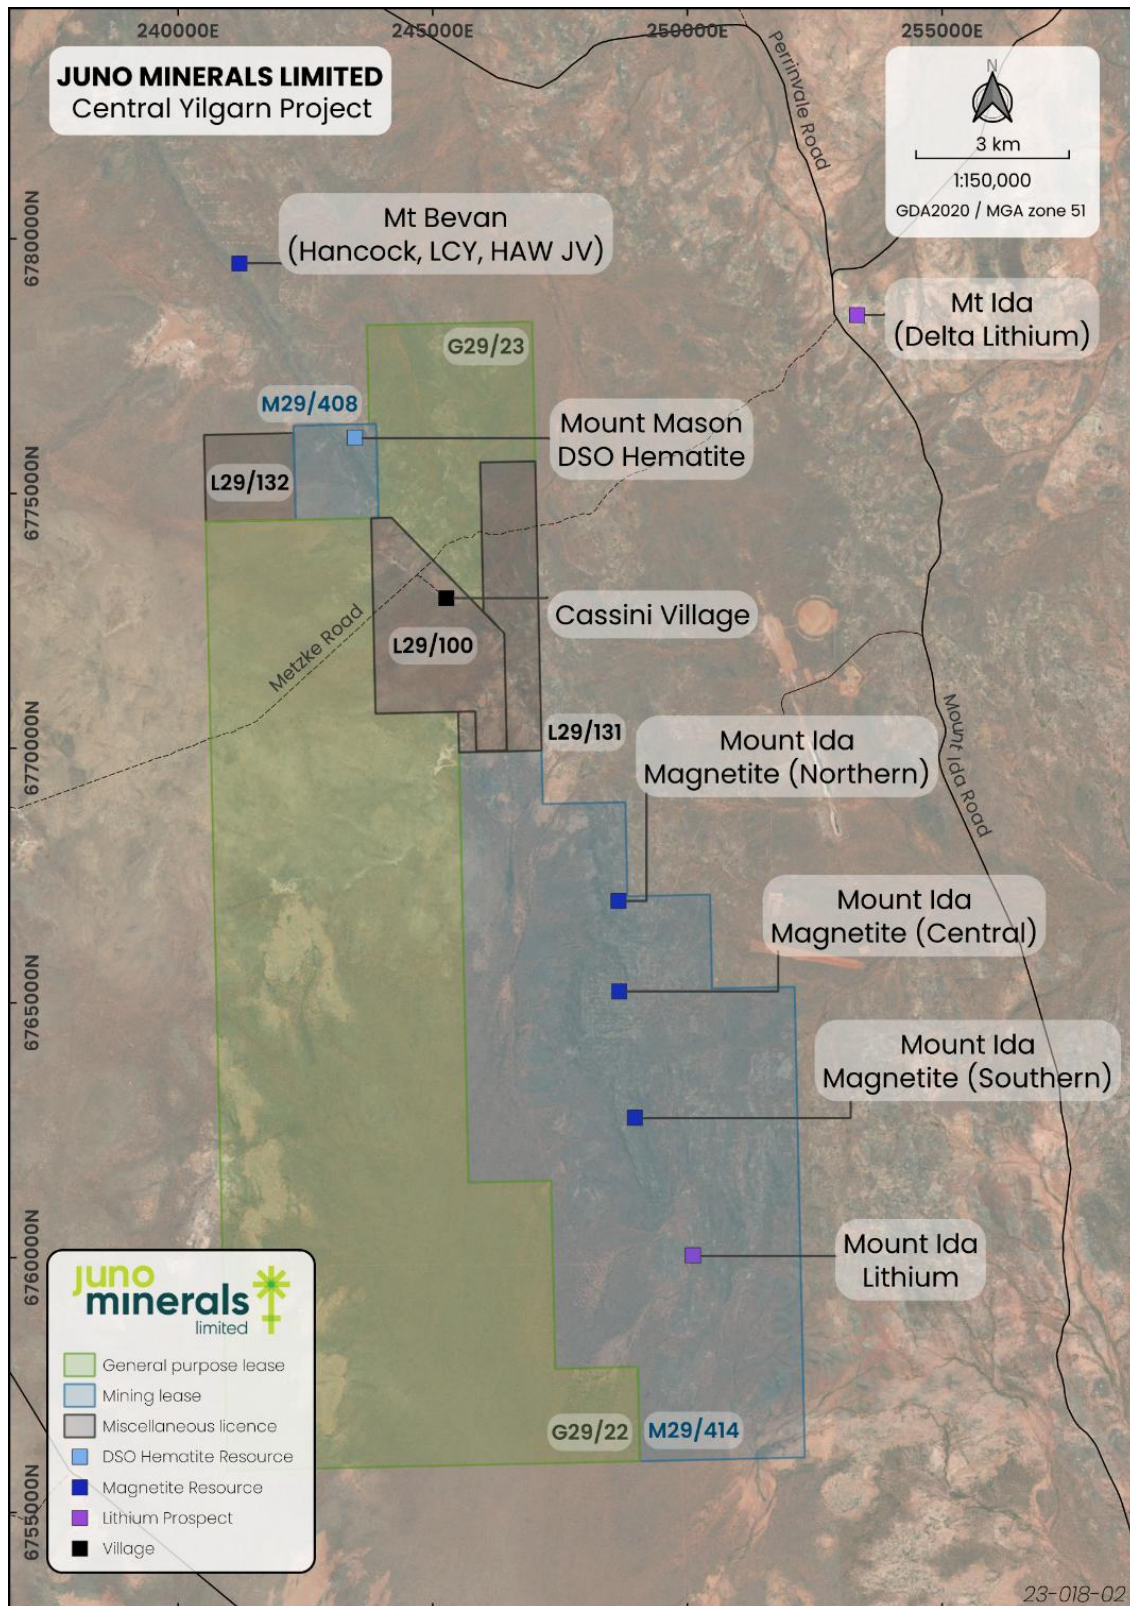

Figure 2: Juno's Central Yilgarn Project with Mount Ida Lithium Prospect

MOUNT IDA PROJECT AREA – LITHIUM PROSPECT

In summary the Mount Ida Lithium Prospect has been evaluated through soil sampling and drilling of the identified Northern and Southern soil anomalies, albeit to shallow depths. The anomalies were confirmed to be an LCT pegmatite system, however no significant intersections of lithium were encountered.

During the December 2024 quarter, the Company received approval from DEMIRS for the government co-funding under the Exploration Incentive Scheme to drill two 430 metre diamond holes. Funding is now available on a reimbursable basis to undertake the program within 12 months should Juno proceed with the drilling program.

However, with the subdued lithium market, Juno will now not undertake the proposed drilling program this year forgoing the EIS co-funding on this program.

CORPORATE

249CA Notice

On 13 June 2025, the Company announced that it had received a notice from Mr Yilun Chen, a current director, under section 249 CA of the Corporation Act requesting that a general meeting of the Company's members be called to consider resolutions for the removal of current directors Greg Durack and Patrick Murphy.

At the Company's General Meeting held 12 August 2025, the resolutions were decided by a poll and were not carried.

Cash Position

Juno ended the September 2025 quarter with \$3,213k in cash and deposits.

Payments to Related Parties and their Associates

In accordance with ASX Listing Rule 5.3.5, \$80k of payments were made to related parties or their associates during the quarter, comprising Executive Director salary, Non-executive Director fees and superannuation.

Expenditure on Mining Exploration and Mine Development Activities

In accordance with ASX Listing Rule 5.3.1 and 5.3.2, Juno advises its exploration and evaluation expenditure and expenditure on mine development activities during the quarter totalled \$512k (included at item 2.1(d) of the Appendix 5B).

This announcement has been approved for release by the Board.

Competent Person

The information in this report that relates to mineral resource estimates is based on information compiled by Dr Michael Cunningham and Mr Rodney Brown, who are each Members of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Dr Cunningham and Mr Brown are employed by SRK Consulting. They have sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which being undertaking to qualify as a "Competent Person" as defined in the JORC Code. Dr Cunningham and Mr Brown consent to the inclusion in this report of the statements based on their information as provided in the Independent Geologists Report dated January 2021, in the form and context in which they appear.

Reporting of mineral resources

This announcement includes mineral resource information prepared by "competent persons" in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (**JORC Code**). Where used in this announcement, the terms "resource", "inferred resources", "indicated resources" and "measured resources" have the meanings given to them in the JORC Code. The information in this announcement relating to mineral resource estimates for the Mount Mason Project is extracted from the Company's prospectus dated 25 March 2021 released to ASX on 12 May 2021, which is available on the Company's website www.junominerals.com.au. The Company confirms that it is not aware of any new information or data that materially affects the information included in the prospectus, and that all material assumptions and technical parameters underpinning the estimates in the prospectus continue to apply and

have not materially changed. The Company confirms that the form and context in which the competent person's findings are presented have not been materially modified from the prospectus.

Forward-looking statements

This announcement contains forward-looking statements concerning the Company's business, operations, and project as well as the plans, objectives and expectations for those business, operation and plans. Any statements contained in this announcement that are not of historical facts may be considered to be forward-looking statements. You can identify these statements by words such as "aim", "anticipate", "assume", "believe", "could", "due", "estimate", "expect", "goal", "intend", "may", "objective", "plan", "predict", "potential", "positioned", "should", "target", "will", "would" and other similar expressions that are predictions of or indicate future events and future trends. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the Company's business and projects and the industry in which the Company operates and management's beliefs and assumptions. These forward-looking statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control. As a result, any or all of the forward-looking statements in this announcement may turn out to be inaccurate. Readers of this announcement are cautioned not to place undue reliance on such forward-looking statements. Unless required by law, the Company does not intend to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise.

6.2	Aggregate amount of payments to related parties and their associates included in item 2	21

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>		
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(584)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(512)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(1,096)
8.4 Cash and cash equivalents at quarter end (item 4.6)	3,213
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	3,213
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	2.9
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
