

28 October 2025

QUARTERLY ACTIVITIES REPORT

for the period ended 30 September 2025

Highlights

- **Scoping Study (Study) completed for the 2.93 Moz¹ Kokoseb Gold Project (Kokoseb) in Namibia.**
- **The Study confirms Kokoseb as an outstanding gold project, with an initial 11+ year Life of Mine (LOM), forecast production from an open pit mine of ~180 koz of gold (Au) per annum for the first five years, with all-in sustaining cost (AISC) of US\$1,265/oz.**
- **Definitive Feasibility Study (DFS) underway with completion expected H2-2026.**
- **A\$30m Placement completed to underpin accelerated exploration program at Kokoseb.**
- **Updated Mineral Resource Estimate (MRE) for Kokoseb, providing an uplift of 38% to 2.93M ounces of gold, including 1.81M oz Au in the Indicated category at 0.50 g/t cut off.**
- **Mining License application submitted to the Ministry of Industries, Mines and Energy (MIME).**
- **Significant progress towards completion of the Environmental and Social Impact Assessment (ESIA).**
- **Ongoing drilling targeting high grade continues to deliver consistent results.**
- **Drilling continues with 6 rigs currently on site.**

Wia Gold Limited (ASX: WIA) (**Wia** or the **Company**), a Namibian focussed gold development and exploration company, is pleased to provide its Quarterly Activities Report for the period ended 30 September 2025.

The primary focus during the quarter has been the completion of the Kokoseb Scoping Study. The Study has demonstrated the technical robustness and commercial attractiveness of the Project and provides Wia with the required technical platform to commence the DFS. Progress on exploration, testwork, site investigations and permitting has now been accelerated.

SCOPING STUDY

The Kokoseb Gold Project is located in Namibia, approximately 320 km by road from the capital city of Windhoek. Located in the Erongo Region, the Project is well supported by local infrastructure including power supply, road access and local towns. The Project is 80% owned by Wia in a joint venture with Epangelo Mining Company, the state-owned mining company of Namibia, who owns the remaining 20%. The Project location is show in Figure 1.

The Project is underpinned by a growing Mineral Resource of 2.93 Moz², including 1.81 Moz in the indicated category at a 0.5 g/t cut-off. This resource converts to a production target of 58.9 Mt at 0.97

¹ Refer ASX announcement dated 30 September 2025.

² Refer ASX announcement dated 16 July 2025.

g/t Au containing 1.83 Moz, of which only 6% is from the Inferred Mineral Resources during the first 7 years of production.

The Project will encompass an open cut mine, CIL processing facility with a capacity of 5.25 Mtpa, water supply from known water supply schemes in the area, low-cost power from the Namibian grid, TSF and related infrastructure. Gold production will average of 177 koz per annum over the first five years of operations and 146 koz per annum over the 11+ year life of mine.

Figure 1 – Project Location

Preparation of permitting applications for the Project is well advanced with the Mining Licence Application submitted to the MIME on 10 October 2025, and ESIA submission anticipated in Q1 2026.

Based on capital and operating cost estimates, prepared in line with the Advancement of Cost Engineering (**AACE**) Class 5 estimate to an accuracy of $\pm 25\%$, the Study demonstrates that the Project has the capacity to deliver robust returns at the conservative Scoping Study base case gold price assumption of US\$2,600/oz. Project returns significantly improve at a spot gold price of US\$3,450/oz, based on the average price for August 2025, noting that spot gold price currently is at ~US\$4,104/oz.³

Key Financial Outcomes

The financial analysis was developed based on the production target presented for the Kokoseb open pit. Production averages approximately 146 koz annually over 11.3 years at an AISC of US\$1,448/oz. Over the first five years production is elevated, averaging 177 koz annually at a reduced AISC of US\$1,265/oz.

Financial metrics for the project are robust, based consensus gold price at the time of US\$2,600/oz, with a post-tax NPV_{5%} of US\$646m, IRR of 38 % and a payback period of 22 months.

Financial outcomes are improved significantly if the August 2025 average gold price of US\$3,450/oz is adopted, with post-tax NPV_{5%} of US\$1,269m, IRR of 60 % and a payback period of 15 months.

Further detail on the Scoping Study, including all the material assumptions on which the production targets and forecast financial information are based, is included in the Announcement released to the

³ Closing Price on 24 October 2025 www.lbma.org.uk

ASX on 30 September 2025. The Company confirms that the material assumptions underpinning the production targets and forecast financial information derived from the production targets in that Announcement continue to apply and have not materially changed.

Table 1 – Key Project Outcomes

	Units	Base Case US\$2,600/oz	Spot Price US\$3,450/oz
Production			
Mine Life	years	11 years and 4 months	
Total Gold Production	koz	1,653	
Average Gold Production			
Years 1 to 5	koz/a	177

Post-Tax IRR	%	38	60
Post-Tax Payback Period	Years	1.8	1.25

ESIA

The Kokoseb ESIA continues to advance on schedule, with the majority of specialist studies now completed and key baseline and impact assessment reports finalised. A preliminary Environmental and Social Management Plan (**ESMP**), developed during the ESIA Scoping phase, is currently being refined to support the final ESIA submission.

Completion of the ESIA is targeted for late 2025, after which it will be released for public consultation. Following the integration of stakeholder feedback, the final ESIA will be submitted to the MIME and the Ministry of Environment, Forestry and Tourism (**MEFT**) in early 2026 for regulatory approval and issuance of the Environmental Clearance Certificate (**ECC**).

UPGRADED MINERAL RESOURCE ESTIMATE

Geology and Mineral Resources

During the quarter the Company upgraded the MRE for Kokoseb, providing an uplift of 38% to 2.93M ounces of gold, including 1.81M oz Au in the Indicated category at 0.50 g/t cut off.

The MRE⁴ for the Kokoseb Gold project is reported in accordance with the JORC Code (2012). *Table 2* presents the MRE for selected cut-offs. The figures in the table are rounded to reflect the precision of the estimates and include apparent rounding errors.

Table 2 – Kokoseb Mineral Resource Estimate

Cut Off Au g/t	Indicated			Inferred			Total		
	Tonnes Million	Au g/t	Au Moz	Tonnes Million	Au g/t	Au Moz	Tonnes Million	Au g/t	Au Moz
0.18	110	0.67	2.37	78	0.62	1.6	188	0.65	3.92
0.30	82.6	0.82	2.18	58	0.75	1.4	141	0.79	3.58
0.50	54.2	1.04	1.81	35	0.99	1.1	89	1.0	2.93
0.80	29.1	1.39	1.30	17	1.4	0.77	46	1.4	2.07

Notes:

1. The Competent Person responsible for the data informing the estimates is Mr Pierrick Couderc, WIA Group Exploration Manager.
2. The Competent Person responsible for the Mineral Resource modelling is Mr Jonathon Abbott MAIG, Director of Matrix Resource Consultants Pty. Ltd.

EXPLORATION – NAMIBIA (Kokoseb)

19,587 metres were drilled during the quarter at Kokoseb, including 8,700 metres of reverse circulation (**RC**) and 10,887 metres of diamond drilling (**DD**). This compares with 18,664 metres drilled during the quarter ending 30 June 2025, reflecting the increase in diamond drilling as a proportion of the overall drilling campaign, with the focus now on further defining the higher-grade shoots.

Post quarter end, the Company announced positive assay results from ongoing DD and RC drilling, which demonstrate the potential to expand the existing open pit resource as well as increasing confidence in the potential to define an underground resource at Kokoseb.⁵

Results from the Central Zone high grade plunging shoots, including:

- **27.0m at 3.31 g/t Au from 474m, including 11.0m at 5.21 g/t Au in KDD097**
- **12.7m at 3.09 g/t Au from 448m, including 5.7m at 5.57 g/t Au in KDD095**
- **5.0m at 6.77 g/t Au from 245.1m and 10.8m at 3.05 g/t Au from 302.1m, including 6.0m at 5.08 g/t Au in KDD103**
- **6.0m at 3.73 g/t Au from 251m, including 3.0m at 6.65 g/t Au in KDD077**
- **20m at 1.91 g/t Au from 139m, including 3m at 4.21 g/t Au and 3m at 4.17 g/t Au in KRC489**
- **7m at 2.35 g/t Au from 115m, including 2m at 5.49 g/t Au in KRC490**

⁴ Refer ASX Announcement dated 16 July 2025

⁵ Refer ASX Announcement dated 22 October 2025

Central Zone Sub-parallel high-grade shoot extension which continues to extend outside the current MRE boundary returned intercepts, including:

- 10.9m at 12.26 g/t Au from 223.5m in KDD096
- 8.2m at 5.09 g/t Au from 229.7m in KDD093

Figure 2 – 3D view of the Western and Central Zones of Kokoseb, showing pit shells and high-grade shoots.⁶

EXPLORATION – NAMIBIA (Regional)

During the quarter, Wia continued its regional reconnaissance program over various exploration licences. These programs include stream sediment sampling, reconnaissance mapping and rock chipping, aiming to fast track a decision on pursuing systematic exploration programs complementary to the work being done at Kokoseb.

⁶ Refer ASX Announcements dated 22 October 2025, 3 July 2025, 15 April 2025, 27 February 2025, 13 January 2025, 20 May 2024, 5 February 2024, 29 May 2024.

EXPLORATION – CÔTE D'IVOIRE

Regional exploration in Côte d'Ivoire included the completion of the auger drilling program at the Mankono Ouest permit, totalling 1,115 metres drilled during the quarter, and a small trenching program at the Issia permit, totalling 485 metres length.

CORPORATE

Cash

As at 30 September 2025, Wia held a cash balance of A\$52.115 million (excluding trade creditors) and zero debt.

Placement

During the quarter, the Company successfully raised A\$30m to underpin an accelerated exploration program at Kokoseb. The Placement was comprised of the issue of 100 million new fully paid ordinary shares at an offer price of \$0.30 per share to domestic and offshore institutional and sophisticated investors.

Proceeds from the Placement will be used to support accelerated resource development and exploration activities in Namibia, ongoing studies and testwork to advance Kokoseb towards DFS completion, permitting, social and environmental activities and general corporate costs and working capital requirements.

Annual General Meeting

The Company's Annual General meeting is scheduled for Thursday, 20 November 2025. Further details regarding the AGM and the resolutions to be put to shareholders can be found in the Notice of Meeting lodged with ASX on 21 October 2025.

Personnel Changes

Chief Financial Officer, Scott Funston resigned during the quarter. Tony Bevan has been appointed as interim Chief Financial Officer.

Payments to related parties

During the September Quarter, the Company made payments to related parties of A\$30,000, which related to payments for Directors' remuneration.

Information Required Under Listing Rules 5.3.1 and 5.3.2

Evaluation and exploration expenditure during the September Quarter amounted to A\$4.571 million. There were no mining production and development activities.

Competent Persons Statement

The Mineral Resource estimate referred to in this announcement was first disclosed in accordance with the requirements of ASX Listing Rule 5.8 in the Company's ASX announcement dated 16 July 2025, titled "Kokoseb Mineral Resource Estimate increases to 2.93Moz gold". The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed. The announcement is available to view on www.wiagold.com.au

In relation to the exploration results included in this September Quarterly Activities Report, the dates of which are referenced and or detailed below, the Company confirms that it is not aware of any new information or data that materially affects the information included in those announcements.

ASX Announcements referred to in this Quarterly Report are:

- 22 October 2025 "High grade gold targeted at Kokoseb"
- 30 September 2025 "Kokoseb Scoping Study Presentation"
- 30 September 2025 "Scoping Study Confirms Outstanding Potential at Kokoseb"
- 20 August 2025 "A\$30m Placement to Underpin Accelerated Exploration Program"
- 29 July 2025 "Quarterly Activities/Appendix 5B Cash Flow Report"
- 16 July 2025 "Kokoseb Mineral Resource Estimate Update Presentation"
- 16 July 2025 "Kokoseb Mineral Resource Estimate Increases to 2.93Moz gold"

This announcement has been authorised for release by the Company's board of directors.

About Wia's Namibia Projects

Since 2018 the Company has successfully consolidated a very large land position on the Damara belt in central Namibia (the **Damaran Project**). The Damaran Project, which hosts the Kokoseb Deposit, covers a total area of over 2,000km² held under joint venture with the state-owned mining company, Epangelo.

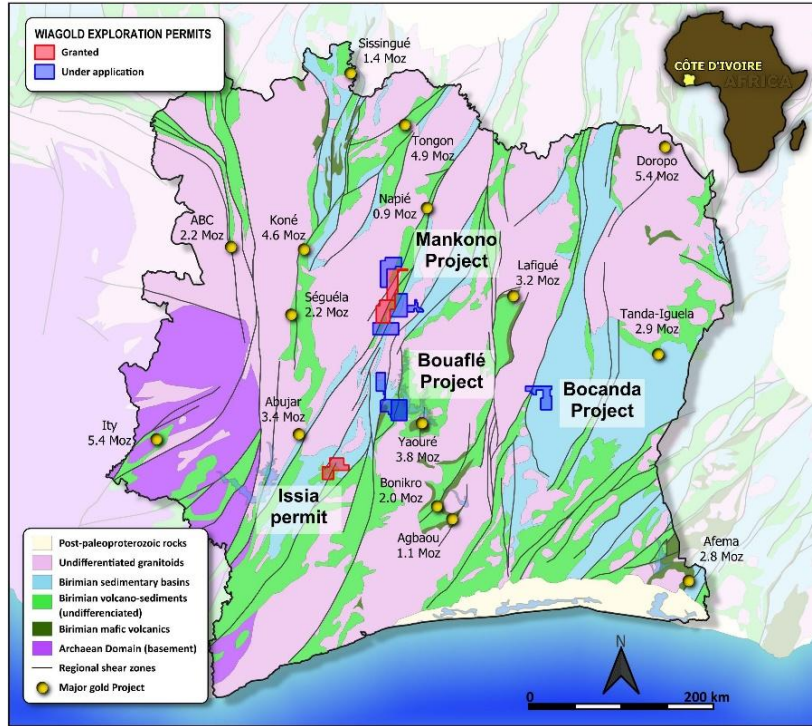

Location of Wia's Kokoseb Gold Project

About Wia's Côte d'Ivoire Projects

The Company currently holds three granted permits in the Country – Mankono Ouest, Issia and Dialakoro and seven permits under application. The total land package (including the permit applications) represents close to 4,000 km².

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
