

**DEMAND DRIVEN METALS IN ANGOLA**

**Activities Report for the Quarter Ended 30 September 2025**

Tyranna Resources Limited (ASX: TYX, "Tyranna" or "the Company") is pleased to provide an Activities Report for work undertaken during the September 2025 quarter.

**Summary**

**Namibe Lithium and Caesium Project**

- Application for an extension of term for a further 12 months, until October 2026, for the Namibe Project, lodged in July 2025; and
- Site visits undertaken. Future work will focus on the potential of deposits of the caesium mineral pollucite, which occurs with spodumene at the Muvero Prospect and is indicated at the nearby Loop Prospect.

**Project generation activities a priority throughout the quarter**

- Subsequent to the end of the quarter the Company announced that it had acquired a 75% shareholding in AGFC E Filos, LDA ("**AGFC**"), which owns the **Chinguar Gold Project**.
- On 14 July 2025 the Company announced the initial steps to acquire a 70% interest in the Maongo Copper-Gold Project were complete.

The Company is continuing to review acquisition opportunities in Angola.

**Tyranna's Managing Director, David Crook said:**

*"The Company has reviewed over 30 Angolan projects for a variety of commodities this year and is pleased to have concluded the acquisition of an interest in the Chinguar Gold Project at a time when global demand for gold is high.*

*"Field work can commence immediately, initially getting to understand the geological settings at the various Garimpo work sites where gold is being recovered, and then generating targets more regionally using geochemistry and geophysics.*

*"The Company is continuing to evaluate the many Angolan opportunities as they are offered."*

**Financial Snapshot**

At the end of the September quarter the Company has cash reserves of \$2.55 million and no debt. The Muvero project exploration work is funded from this pursuant to an Agreement with Sinomine Resources (Hainan) Lithium Co., Ltd.

## **Exploration Update**

Tyranna initiated its project generation initiative during 2024 by appraising projects offered by Angolan concession holders, by reviewing IGEO and interpreting other third-party remote sensing datasets. This focussed in on areas with recognised copper and gold prospectivity, established access and land-forms conducive to modern reconnaissance exploration techniques.

### **The Chinguar Gold Project**

As announced on 22 October 2025, the Chinguar Gold Project comprises a single, very large, granted Prospection Title<sup>1</sup> with an area of 3,342km<sup>2</sup>, located 50km northeast of Huambo, which is Angola's second largest city (Figure 1). The land is generally flat, dry terrain, accessed by sealed roads within the Lobito Corridor and then a network of tracks reflective of agricultural land.

Gold mining, since Angola's independence from Portugal in the 1960s, has been restricted to artisanal operators (garimpo). The Company's field crew is currently visiting and sampling the numerous garimpo mining areas within the Prospection Title, which range from basic hand-shovel digs to more sophisticated backhoe excavations. Individual garimpo fields often extend for over 1.5 kilometres long each and gold is being won from both sediments and laterite. Both styles of mineralisation may act as vectors for discovering primary sources of gold mineralisation.

Recent 1:250,000 geological mapping<sup>2</sup> shows that garimpo workings occur near or along major faults in Neoproterozoic and Paleoproterozoic greenstones and granites and represent structural targets for the Company's initial exploration programs.

### **The Muvero Lithium and Caesium Prospect**

The 207km<sup>2</sup> Namibe Project area targets the Giraul pegmatite field, in which at least 600 pegmatites have been identified.

The pegmatite field was discovered in the 1960s and small amounts feldspar and beryl were produced prior to 1975. Between the mid-2000s and 2021, studies of mineralogy and geochemistry were undertaken, along with mapping and assessment of the economic potential of the pegmatite field. Prior to Tyranna, none of the pegmatites had been tested by drilling.

Since acquiring the Project, Tyranna has completed 50 reverse circulation drill holes and 20 diamond core holes.

Application for extension of term for a further 12 months, until October 2026, for the Namibe Project was lodged in July 2025.

Site visits were undertaken by Tyranna staff this quarter, where it was confirmed that future work will focus on the potential for deposits of the caesium mineral pollucite, which occurs with spodumene at the Muvero Prospect and is indicated at the nearby Loop Prospect.

## Next Steps

### Chinguar Gold Project

Regional stream sediment sampling is planned as well as further assessment of garimpo workings as the first means of identifying areas where gold (or other mineralisation) may be shedding from. This is an iterative program, with follow-up sampling further testing anomalous areas as they are generated.

Targets generated will then be progressively drilled.

### Namibe Lithium and Caesium Project

Future work will target mixed spodumene-pollucite mineralisation at the Muvero Prospect, and further appraisal of the Loop Prospect.

Figure 2. The **Consito Alto** garimpo workings.

**Maongo Copper Gold Project**

On 14 July 2025 the Company announced the initial steps to acquire a 70% interest in the Maongo Copper-Gold Project were complete.

David Crook

Managing Director

## About Tyranna Resources Limited

Tyranna Resources Ltd (TYX) is an ASX listed mineral explorer and is an early mover into Angola, Africa. It currently holds, through subsidiary companies, a 72% interest in the Muvero lithium – caesium project, located near the Port of Namibe (or Moçâmedes), where initial drilling targeted spodumene and pollucite mineralisation.

It has now added the large Chinguar Gold Project and expects field-based target generation activities to commence immediately.

## Forward Looking Statement

This announcement may contain some references to forecasts, estimates, assumptions, and other forward-looking statements. Although the company believes that its expectations, estimates and forecast outcomes are based on reasonable assumptions, it can give no assurance that they will be achieved. They may be affected by a variety of variables and changes in underlying assumptions that are subject to risk factors associated with the nature of the business, which could cause actual results to differ materially from those expressed herein. All references to dollars (\$) and cents in this presentation are to Australian currency, unless otherwise stated. Investors should make and rely upon their own enquires and assessments before deciding to acquire or deal in the Company's securities.

**CORPORATE**

**Financial Snapshot**

The Company's net cashflow used in operations for the quarter was \$0.667 million. The operational expenses mainly comprised of Exploration and Evaluation expenditure (\$0.509 million) and Administration and Corporate costs less Interest Received (\$0.158 million).

The Company's cash position at the of the quarter is \$2.554 million.

**Listing Rule 5.4.5**

In item 6 of the attached Appendix 5B, payments to related parties of approximately \$175k comprising executive (1) and non-executive director (2) remuneration (\$87k), bookkeeping (\$9k), exploration consultancy (\$67k) corporate consultancy (\$7k) and serviced office (\$5k) were paid during the quarter.

**Appendix 1: Mining Tenements as at 30 September 2025**

## Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Executive Director Remuneration - \$60,000  
 Non-Executive Director Remuneration - \$27,000  
 Non-Director Services:

- Bookkeeping - \$9,000
- Exploration Consultancy - \$67,000
- Corporate Consultancy - \$7,000
- Serviced Office - \$5,000

7. <b>Financing facilities</b> <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	6. <b>Total facility amount at quarter end</b> \$A'000	7. <b>Amount drawn at quarter end</b> \$A'000
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 <b>Total financing facilities</b>	-	-
7.5 <b>Unused financing facilities available at quarter end</b>	<input type="text"/>	
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	<input type="text"/>	

8. <b>Estimated cash available for future operating activities</b>	8. <b>\$A'000</b>
8.1 Net cash from / (used in) operating activities (item 1.9)	(667)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(667)
8.4 Cash and cash equivalents at quarter end (item 4.6)	2,554
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	2,554
8.7 <b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	<input type="text" value="4"/>
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	

Appendix 5B

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?
	N/A
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
	N/A
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
	N/A
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

**Compliance statement**

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: .....29 October 2025.....

Authorised by: .....By the Board.....  
(Name of body or officer authorising release – see note 4)

**Notes**

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
