## HIGHLIGHTS

- ▶ \$2.53 million strategic placement from Hong Kong Xinhai Mining Services Limited and its Australian arm Australia Xinhai Mining Services Pty Ltd (“Xinhai”) subsequent to the end of the quarter.
- ▶ \$2.75 million placement completed in August 2025 with institutional and sophisticated investors, including a senior mining and civil sector executive as a cornerstone investor, and SSHO options successfully quoted on the ASX.
- ▶ Revenue growth of 17% compared to the prior corresponding period (“PCP”), reflecting strong performance across SSH Mining and KMH divisions.
- ▶ Mt Fisher Gold Project: Site works commenced on historic stockpiles and tailings with drilling and metallurgical test work underway.
- ▶ Wagtail Gold Deposit: Profit Share Mining Agreement executed with High-Tech Metals (ASX: HTM), granting SSH a 25% share of net project profits.
- ▶ Operational expansion: SSH Mining actively tendering for multiple surface and underground projects across WA.

SSH Group Ltd (ASX:SSH) (*Company, SSH or Group*) is pleased to release its September 2025 Quarterly Activities Report and Appendix 4C. Financial results released within this document are from unaudited management accounts.

## OPERATIONAL HIGHLIGHTS

---

SSH Mining continued to advance its operational activities throughout the quarter, solidifying its position as an emerging mining services contractor with direct exposure to gold production.

A key milestone was achieved with the commencement of site preparation works at the Mt Fisher Gold Project for High-Tech Metals Ltd (ASX: HTM). SSH mobilised its in-house operations team to conduct dozer works across historic stockpiles and tailings, supporting an integrated drilling and metallurgical test work program designed to validate historical recoveries and confirm processing pathways for rehandled material.

Following this, SSH executed a Profit Share Mining Agreement with HTM for the Wagtail Deposit, under which SSH funds pre-feasibility and drilling works through to Final Investment Decision. If mining proceeds, SSH will deliver all mining services under a cost-plus 10% contract and receive 25% of net project profits (refer ASX announcement on 1 September 2025).

## FINANCIAL HIGHLIGHTS

---

SSH delivered continued financial growth and discipline throughout the quarter.

The Group recorded unaudited revenue growth of 17% compared to the PCP, reflecting the sustained momentum of its vertically integrated operations.

On 7 August 2025, SSH successfully completed a \$2.75 million equity placement, first announced in June 2025, and finalised the quotation of SSHO options on the ASX. The raise was well supported by institutional and sophisticated investors, providing additional capital to accelerate growth across SSH's operating divisions, support project mobilisation and execution, pursue strategic opportunities and strengthen working capital.

SSH continues to maintain positive underlying operating cash flow, underpinned by stable performance across its Mining, Equipment and Workforce divisions.

Net cash inflows from financing activities reflected the proceeds of the placement, offset by ongoing investment into project development and equipment deployment.

The Group remains focused on disciplined capital management, maintaining a robust balance sheet while positioning for strategic growth opportunities across FY26.

## SUBSEQUENT EVENTS

---

Subsequent to the end of the quarter, on 22 October 2025, SSH announced a \$2.53 million strategic placement secured through a firm commitment from Xinhai at \$0.15 per share. Upon completion, the placement will result in Xinhai holding approximately a 15.5% equity interest in SSH and Xinhai nominating Mr Zhang Zhongyi to the SSH Board. In addition, SSH will issue free-attaching options to Xinhai (and/or its nominee) on a 1:2 basis, subject to shareholder approval.

This partnership aligns SSH's "Hire | Mine | Own" model with Xinhai's global EPC + M + O (Engineering, Procurement, Construction, Management and Operation) framework.

The alliance significantly enhances SSH's technical depth and access to international mining and processing expertise, marking a transformational milestone as the Company strengthens its balance sheet and deploys growth capital to accelerate operations across its SSH Mining and KMH divisions, advance project opportunities and expand its capacity to deliver large-scale, vertically integrated resource projects across Australia.

## CORPORATE

---

SSH has submitted multiple tenders for surface and underground mining contracts across Western Australia, with advanced discussions underway. The Company is also evaluating additional joint venture and profit-share opportunities to secure near-term production exposure. These initiatives reinforce SSH Mining's evolution into a fully integrated mining services provider, aligned with SSH Group's "Hire, Mine, Own" strategy.

The Company continues to build on its core mining and technical services while expanding its exposure to gold and base metal projects, reflecting its ongoing growth towards a diversified metals and mining group.

On 25 August 2025, Mr Bruce Lane resigned as Non-Executive Chairman after four years of service that included SSH's successful ASX listing in 2021. The Board expressed its appreciation for his leadership and contribution to the Company's growth and governance framework.

Ms Anna Lane concluded her two-year tenure as Interim Chief Financial Officer on 10 September 2025, following a period of strong financial leadership and corporate improvement. Under her direction, SSH achieved nine consecutive quarters of positive operating cash flow and delivered a strengthened balance sheet. Her responsibilities have since been assumed by the Managing Director and Group Financial Controller, ensuring continued financial oversight and strategic alignment.

The Company also relocated its principal place of business to its new head office at 4/175 Campbell Street, Belmont WA, reflecting SSH's growth and operational expansion.

## LOOKING AHEAD

---

SSH enters the December quarter with solid operational traction, a strengthened balance sheet and a robust pipeline of project opportunities.

Key priorities for Q2 FY26 include the continued advancement of the Mt Fisher and Wagtail projects toward production readiness, execution of additional Mining Services and Profit-Share Agreements, and the progression of major mining tenders currently under evaluation.

Strategically, SSH remains focused on disciplined growth across its Hire | Mine | Own pillars, capturing value through vertical integration and sustainable expansion in Western Australia's mining sector.

## ADDITIONAL INFORMATION

SSH Group provides the following additional information relating to expenditure during the quarter and since listing:

1. ASX Listing Rule 4.7C.3: Expenditure incurred to related parties of the SSH and their associates during the quarter was \$96,131.00.
