Quarterly Report

For the Period Ended 30 September 2025

Operational Highlights

- Native Title Mining Agreement signed with Kakarra Part B Native Title Group
- Mining Lease granted for Manna Lithium Project
- Manna Lithium Project DFS work activities continued, focusing on further enhancing project economics
- Drilling results announced following completion of Exploration Incentive Scheme co-funded drilling program at Marble Bar Project Area.
- Continued to investigate ways to realise the undervalued non-lithium tenements containing gold and copper prospects.

Corporate

- Sale of Investment in Kairos Minerals Limited
- Cash position of \$21m as at 30 September 2025

Established multi-asset West Australian lithium company Global Lithium Resources Limited (**ASX: GL1**, “**Global Lithium**” or “the **Company**”) reports its activities for the quarter ended 30 September 2025.

Manna Lithium Project

Native Title Mining Agreement

During the quarter the Company announced the successful negotiation and execution of a Native Title Mining Agreement between wholly owned subsidiary, GLR Australia Pty Ltd, and the Kakarra Part B Native Title Group for the Manna Lithium Project.

The execution of the Native Title Mining Agreement is a significant milestone for Global Lithium and the Kakarra Part B Native Title Group. It will facilitate the development and ongoing operation of the Manna Lithium Project and will deliver benefits to the Kakarra Part B Native Title Group and Global Lithium’s shareholders.

Mining Lease

Following closely after the execution of the Native Title Mining Agreement, Mining Lease M28/414 for the Manna Lithium Project was granted by Western Australia's Minister for Mines, Petroleum and Exploration for a term of 21 years pursuant to the Mining Act 1978 (as amended).

The granting of the Mining Lease significantly de-risks the Manna Lithium Project and accelerates its progress toward a Final Investment Decision (FID), following optimisation of the project's Definitive Feasibility Study that remains on track for the end of the 2025 calendar year.

Definitive Feasibility Study (DFS)

During the quarter, work continued on the Definitive Feasibility Study optimisation, focusing on reducing CAPEX and OPEX in order to make the Manna Project more investable and profitable. It is expected that the optimised DFS will be completed in the December Quarter 2025.

Exploration

No site activities were carried out during the quarter at the Manna Project. The Company focussed on progressing the DFS, Native Title Mining Agreement negotiations and land access approvals for the Manna Lithium Project.

Marble Bar Project

Exploration

During the quarter, the Company announced the results from its Exploration Incentive Scheme (EIS) supported diamond drilling program at the Marble Bar Project Area¹.

Two diamond drillholes, including a wedge, for a total 1,598.7m were completed targeting down plunge of a previously identified sericite-pyrite altered core of a granite plug (Murphy Well Granodiorite) proximal to GL1's Twin Veins and Douglas Find gold prospects. A wedge was required to achieve target depth.

The large zone of strongly sericite-pyrite altered granite within the Murphy Well Granodiorite has been extended to depth highlighting the scale of the hydrothermal system. MWDD003 intersected strongly altered granodiorite with ~0.5 – 2% pyrite from 80m to 520m downhole. Trace amounts of galena and sphalerite were observed with the pyrite in rare quartz veining as well as occasionally disseminated within the altered granite. MWDD004 targeted deeper within the system under a historical gold in soils geochemical anomaly and intersected chlorite-epidote altered granite with common fractures surrounded by a sericite selvage and rare quartz veins before intersecting and ending in the highly altered sericite-pyrite zone at depth.

Assay results from both holes show an increase in low-level gold anomalism to the south east within the granodiorite. The results also show elevated silver, lead, and zinc within the sericite-pyrite alteration zone.

1. ASX Announcement 23rd July 2025 "Drill Results Provide Further Evidence for Possibility of a Large Intrusive Related Gold System at Marble Bar"

The Company considers the identification of a large zone of strongly sericite-pyrite altered granite extending to depth and association with elevated precious and base metals to be supportive of an Intrusive Related Gold genetic model. The scale of the system and minimal amount of drilling leaves significant potential for exploration success, both within the granite and including through the continued drill testing of prospects surrounding the granite such as the Twin Veins prospect where previously reported shallow gold intercepts include:

MBRC0619, 4m @ 4.85g/t Au from 86m²

MBRC0621, 5m @ 3.94g/t Au from 118m²

MBRC0623, 3m @ 8.9g/t Au from 49m²

MBRC0159, 7m @ 4.78g/t Au from 11m³

MBRC0157, 12m @ 2.95g/t Au from 37m⁴

MBRC0006, 3m @ 5g/t Au from 25m⁴

Corporate

In September 2025 the Company sold its investment in Kairos Minerals Limited. The sale of 264,000,000 shares held by the Company's wholly owned subsidiary, GLR Australia Investments Pty Ltd, realised \$7.1m before costs and represents the sale of the Company's total investment in Kairos Minerals Limited.

Proceeds from the sale will be focused on the Manna Lithium Project.

In conjunction with the sale of shares, the Collaboration Agreement entered into with Kairos in June 2023, with respect to Kairos' Roe Holls Lithium Project, has been terminated.

Related Party Transactions

Payments to related parties of the entity and their associates (refer section 6 of Appendix 5B):

- Included at section 6.1 - Comprises: Remuneration of directors \$160,000
- Included at section 6.2 – Comprises: Remuneration of directors \$Nil.

Listing Rule 5.3.1 and 5.3.2

In accordance with ASX Listing Rule 5.3.1, the Company confirms that there have been no material developments or changes to its exploration activities, and provides the following information:

- Approximately \$1.26m was incurred by the Company in respect of exploration activity for the quarter ended 30 September 2025, primarily on:
 - Ongoing studies and approval workstreams related to the Manna Lithium Project
- A summary of the specific exploration activities undertaken in the Marble Bar and Manna project areas is included in this activity report.

In accordance with ASX Listing Rule 5.3.2, the Company advises that no Mining Development or Production activities were conducted during the quarter.

2. ASX Announcement 26th October 2023 "Manna Drilling Delivers Further High-Grade Results"
3. ASX Announcement 18th November 2021 "Drilling Update: Further Significant Gold Intercepts at Twin Veins Project"
4. ASX Announcement 4th August 2021 "12m @ 2.95g/t Gold Intercepted at Twin Veins Prospect"
