LIMITED

ASX: MTC

ASX RELEASE // 30 OCTOBER 2025

Quarterly Report

Metals Tech Limited

For personal use only

HIGHLIGHTS

- During the September quarter, MetalsTech completed the second tranche strategic placement raising \$2.0 million (before costs) bringing total funds raised from strategic investors to \$3.3 million (before costs)
- Funds raised have been applied to balance sheet strengthening and working capital for the continued development of the Sturec Gold Mine including completion of the PFS and associated metallurgical and bulk sample testing program which is currently underway
- Redeemable Notes including accrued interest have been repaid in full during the September quarter resulting in a largely debt-free corporate structure
- MetalsTech continued to advance its PFS at the 100% owned Sturec Gold Mine located in Slovakia under the direction and guidance of its PFS manager, Mining One
 - In-adit channel sampling has been completed as part of the detailed metallurgical testwork campaign – samples have been composited and are currently on route to ALS in Romania to undergo assay analysis ahead of sample selection for metallurgical testing
- Detailed metallurgical test work program will support an expanded mine plan as part of the Pre-Feasibility Study (PFS) on the Company's flagship 2.7Moz Sturec Gold Project in Slovakia (*refer to ASX release dated 30 March 2022*)
- PFS is substantially advanced with all other areas at PFS standard or better and on track for completion before the end of 2025
- Technological advancements in ore sorting to be employed as part of the PFS designed to enhance economic recoveries and reduce overall infrastructure requirements – dry stack tailings to be utilised to reduce surface environmental footprint
- Completion of the PFS will signal a significant milestone achievement for the Company based on an underground-only mining operation producing a high-value gold and silver concentrate with low deleterious elements using simple gravity and flotation recovery
- Significant “mine ready” opportunity exists at Sturec, complemented by exploration upside and growth potential of the existing JORC (2012) Mineral Resource – significant JORC (2012) Exploration Target previously announced at Sturec (*refer to ASX release dated 30 March 2022*)
- Completion of the PFS will support future development of the Sturec Gold Mine and open the Sturec project up to an expanded universe of strategic parties and end-buyers
- PFS is a significant de-risking milestone for the Sturec Gold Mine and, as such, the achievement of this milestone is considered crucial to the Company's business plan

MetalsTech Limited (ASX: MTC) (the **Company** or **MTC**) reports upon its quarterly exploration and operational activities for the period ending 30 September 2025.

The Sturec project remains the flagship project of the Company hosting a JORC (2012) Measured, Indicated and Inferred resource of ~2.7 million ounces of gold. An updated scoping study has demonstrated the robustness of the project on a large-scale underground-only mining operation. The **updated Scoping Study has demonstrated a pre-tax NPV8% of US\$768 million and IRR of 162%.**

Pursuant to ASX Listing Rule 5.19, the Company refers shareholders and investors to the original ASX announcement dated 23 December 2024 in relation to the updated scoping study. The Company confirms that all the material assumptions underpinning the production target, and the forecast financial information derived from the production target, in the initial public report referred to in ASX announcement dated 23 December 2024 continue to apply and have not materially changed.

The Western Tethys Gold Belt where the Sturec project is located is host to some of the largest gold projects globally with experienced mining operators including Zijin Mining, Dundee Precious Metals and Eldorado Gold all having tier-1 projects along this preeminent gold belt in Eastern Europe.

The Sturec Gold Mine represents a significant “mine ready” opportunity, complemented by exploration upside and growth potential of the existing JORC (2012) Measured, Indicated and Inferred Resource of ~2.7 million ounces of gold and 22.2 million ounces of silver.

Pursuant to clause 26 of the JORC code, the Company provides Appendix 1 which outlines the categories of mineral resource for the Sturec Gold Mine. The original ASX announcement which sets out this information in detail is dated 8 May 2023.

During the September quarter, MetalsTech continued to advance the PFS at its 100% owned Sturec Gold Mine located in Slovakia under the direction and guidance of its PFS manager, Mining One. Site infrastructure planning is well advanced as is process plant design, mine development, mine schedule planning and ancillary infrastructure planning.

Recent PFS activities have focused on enhancing the metallurgical processing capabilities of the proposed underground gold and silver mine at Sturec. To better define the ore recoveries, fine-tune the engineering in the process flowsheet and support an expanded mine plan, the Company has initiated a detailed metallurgical sampling campaign. As part of the first phase of this campaign, the Company completed its in-adit channel sampling across multiple locations within the Sturec ore body. These samples have been composited and bagged and are on route to ALS in Romania for assay analysis. The results from these assays will then inform which samples will be selected for the detailed metallurgical test work which will be undertaken in Perth, Western Australia.

A separate sample will also be selected to undergo test work in China.

Metallurgical Test Work Program

To support an expanded mine plan as part of the PFS, the Company is undertaking additional detailed metallurgical test work which will feed into an upgraded plant design taking advantage of specific front-end engineering such as ore sorting. The samples will be collected from various locations as shown in **Figure 1**, below.

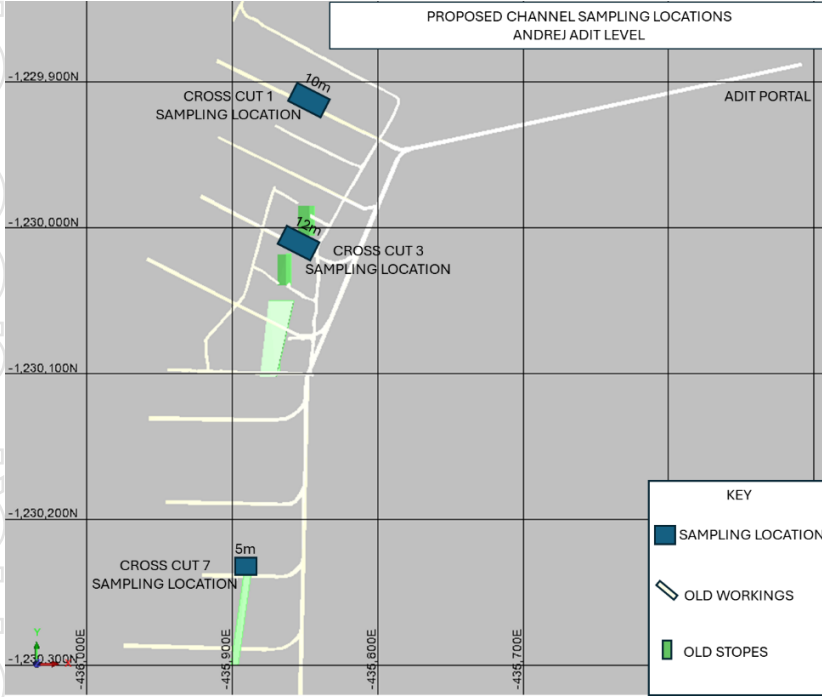

Figure 1: Underground metallurgical sample locations

For personal use only

The images below show the local Slovakian team underground at the Sturec project within the Andrej adit completing the in-adit channel sampling.

ASX: MTC

For personal use only

The Company looks forward to keeping its shareholders and investors updated as the PFS progresses towards completion.

The Company also continues to actively review several other project opportunities in the gold sector.

The historically high gold price and silver price is driving significant inbound interest in Sturec and the Company is focused on completing the PFS and achieving maximum value for all shareholders. The Company remains focused on unlocking the tremendous value opportunity at the flagship 2.7Moz Sturec Gold Project in Slovakia through progression of the Pre-Feasibility Study which is expected to be completed before the end of the year.

PFS Update and Progress

Mining One was engaged by the Company to complete the PFS for the Sturec Gold Mine in December 2024. Since the engagement of Mining One, the Company has been advancing the various underlying studies to support the completion of the PFS. A site visit by the technical team from Mining One confirmed that the data to support the PFS was at an appropriate accuracy level for a study of this nature, including geology, mine design, surface infrastructure and overall general layout. Technological advancements in ore sorting will be employed as part of the PFS designed to enhance economic recoveries and reduce overall infrastructure requirements. The use of dry stack tailings to reduce surface environmental footprint will also be utilised as part of the Company's adoption of key ESG principles.

Completion of the PFS remains on track for completion in late 2025. Completion of the PFS will support future development of the Sturec Gold Mine and open the Sturec project up to an expanded universe of strategic parties and end-buyers.

Corporate

During the June quarter, the Company completed the Tranche 1 Strategic Placement of 10,850,000 fully paid ordinary shares at a subscription price of 12 cents per share for a total investment of A\$1.3 million.

An additional Tranche 2 Strategic Placement was completed during the September quarter pursuant to which the investor subscribed for 13,333,334 fully paid ordinary shares at a subscription price of 15 cents per share for a total investment of A\$2.0 million.

Total funds raised was therefore A\$3.3 million.

The funds raised from the Strategic Placements will be allocated towards completion of the PFS, balance sheet strengthening and general working capital.

Minmetals Securities Co., Ltd acted as sole advisor to the Company and have been paid a transaction fee by the Company on settlement.

During the September quarter, the Company repaid the redeemable notes plus accrued interest in full.

Appendix 5B Commentary

During the September quarter, the Company made payments to related parties of the entity and their associates totalling \$126,000 covering executive and non-executive directors' fees, professional services consulting and advisory fees (refer to 6.1). Payments for directors' fees relate to amounts that have been outstanding in some cases longer than 12 months which had previously been unpaid.

Cash outflows from operating activities for the quarter were \$459,000 and covered administration and corporate costs, staff costs, borrowing costs (interest) and expensed evaluation and exploration associated with the Sturec Gold Mine – PFS consulting and expert fees and management costs.

Cash outflows from investing activities for the quarter were \$131,000 and covered costs of site exploration and activities in Slovakia as well as the PFS work with Mining One and ongoing metallurgical test work. Cash outflows from financing activities were \$847,000 representing remaining investment proceeds from the tranche 2 strategic investment as well as the repayment of borrowings plus accrued interest and advisory and capital raising management fees.

Cash and cash equivalents as at 30 September 2025 were \$163,000.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements concerning MetalsTech. Forward-looking statements are not statements of historical fact and actual events and results may differ materially from those described in the forward-looking statements as a result of a variety of risks, uncertainties and other factors. Forward-looking statements are inherently subject to business, economic, competitive, political and social uncertainties and contingencies. Many factors could cause the Company's actual results to differ materially from those expressed or implied in any forward-looking information provided by the Company, or on behalf of, the Company. Such factors include, among other things, risks relating to additional funding requirements, metal prices, exploration, development and operating risks, competition, production risks, regulatory restrictions, including environmental regulation and liability and potential title disputes.

Forward looking statements in this document are based on the company's beliefs, opinions and estimates of MetalsTech as of the dates the forward-looking statements are made, and no obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future developments.

COMPETENT PERSONS STATEMENT

The information in this announcement that relates to Exploration Results is based on information compiled by Dr Quinton Hills Ph.D., M.Sc., B.Sc. Dr Hills is the technical advisor of MetalsTech Limited and is a member of the Australasian Institute of Mining and Metallurgy (No. 991225). Dr Hills has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Dr Hills consents to the inclusion in the report of the matters based on their information in the form and context in which it appears.

The information in the report to which this statement is attached that relates to Mineral Resources for the Sturec Gold Deposit is based on information compiled by Mr Cunyou Li, who is a Member of The Professional Geoscientist of Ontario (No. 2117). Mr Li is the principal of JP Geoconsulting Services and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Li consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Information on the JORC Mineral Resources presented, together with JORC Table 1 information, is contained in the ASX announcement released on 8 May 2023. The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, and that the form and context in which the Competent Persons findings are presented have not been materially modified from the original announcements.

Where the Company refers to Mineral Resources in this announcement, it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource estimate and Exploration Target with that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.

Mining Activity Permits

Ortac s.r.o is the holder of the following Mining Activity Permit:

Mining Activity Permit No. 110-1666/2024	
<i>Date of Issuance:</i>	14 May 2024
<i>Subject:</i>	Performance of underground mining activity – opening, preparation and exploitation of the deposit of exclusive mineral resources (gold and silver) in the area of Kremnica-Sturec according to the Plan of the opening, preparation and exploitation (gold and silver) of Kremnica-Sturec in 2024-2034
<i>Duration:</i>	Valid until 31 December 2034 The Mining Authority announced the permitting process on its website (see link: https://www.hbu.sk/uradne-tabule-obu-sr/obu-v-banskej-bystrici/18-ods-5-zakona-c-51-1988-zb/kremnica-sturec)
<i>Responsible Person:</i>	Mr Peter Corej
<i>Amendments</i>	Refer to attached document titled “ROZHODNUTIE” for clarification of any amendments to the previously issued Mining Activity Permit

Appendix 1: Sturec Gold Mine – JORC (2012) Mineral Resource

The Sturec Gold Project Mineral Resource Estimate (MRE) has been reported in accordance with JORC (2012) guidelines as **68.347Mt @ 1.22g/t Au and 10.11g/t Ag (1.31g/t AuEq¹), containing 2.686 Moz of gold and 22.210 Moz of silver (2.868 Moz of gold equivalent)** using a 0.3g/t Au cut-off.

In detail the updated Sturec Gold Project MRE is a result of a combination of mineral resource estimates from several prospects including: Sturec main zone, Vratislav, Wolf and North Wolf. A detailed breakdown of the mineral resource estimates from these prospects is shown in Table 1.

Table 1: Updated Sturec Gold Project Mineral Resource Estimate using a 0.3g/t Au cut-off								
Area	Resource Category	Tonnage (kt)	Au (g/t)	Au (koz)	Ag (g/t)	Ag (koz)	AuEq (g/t) ¹	AuEq (koz)

¹ AuEq g/t = ((Au g/t grade*Met. Rec.*Au price/g) + (Ag g/t grade*Met. Rec.*Ag price/g)) / (Met. Rec.*Au price/g)

Long term Forecast Gold and Silver Price (source: Bank of America) : \$1,785 USD/oz and \$27 USD/oz respectively.

Gold And silver recovery from the 2014 Thiosulphate Metallurgical test work: 90.5% and 48.9% respectively.

It is the Company's opinion that both gold and silver have a reasonable potential to be recovered and sold from the Sturec ore using Thiosulphate Leaching/Electrowinning as per the recoveries indicated.

A significant high-grade subset exists within the Mineral Resource Estimate at the Sturec main zone (excluding Vratislav, Wolf and North Wolf zones) when various cut-offs are applied:

Cut-off (g/t Au)	Tonnage (kt)	Au (g/t)	Au (koz)	Ag (g/t)	Ag (koz)	AuEq (g/t)	AuEq (koz)
0.5	47,342	1.43	2,170	9.45	14,381	1.50	2,287

7.4	Total financing facilities	6,000	5,000
7.5	Unused financing facilities available at quarter end		5,000
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (Item 1.9)	(459)
8.2 Capitalised exploration & evaluation (Item 2.1(d))	(131)
8.3 Total relevant outgoings (Item 8.1 + Item 8.2)	(590)
8.4 Cash and cash equivalents at quarter end (Item 4.6)	163
8.5 Unused finance facilities available at quarter end (Item 7.5)	5,000
8.6 Total available funding (Item 8.4 + Item 8.5)	5,163
8.7 Estimated quarters of funding available (Item 8.6 divided by Item 8.3)	8.7

8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
