

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDED 30 SEPTEMBER 2025

HIGHLIGHTS

Karibib Copper Gold Project

- Post-Quarter: **Binding agreement executed²** with Kaoko Metals to advance the Project through a four-stage earn-in.
- **Immediate value delivered** via non-refundable deposit and **A\$400,000** of pro-rata staged cash payments.
- Additional upside through **Net Smelter Royalty** and up to **2.25m Kaoko milestone shares**.
- The transaction is set to bring in a credible and committed partner to **accelerate exploration and development** at Karibib.
- The agreement comes at a time of a **strong pricing environment** for both copper and gold, unlocking value for Arcadia without utilising the Company's balance sheet.
- The transaction **validates Arcadia's strategy** of attracting partners to its project portfolio on **value-accretive terms**, consistent with the approach being applied across the remainder of its assets.

Swanson Tantalum Mine

- Arcadia's **competitive offtake and funding process** completed, with multiple interested parties accessing the data room and visiting site.
- Several parties have highlighted the project's **expansion potential** beyond the original DFS¹ parameters through exploration of surrounding tenements at the TVC Project, which could potentially underpin an **extended mine life and higher throughput rates**.
- Swanson stands to benefit from its status as an **ethical source of tantalum** concentrate and modest development CAPEX of US\$9.8m.¹

TVC Projects

Includes the TVC Ta-Li & Ni-PGE Projects

- All tenements remain in **good standing** following all exploration permits being renewed (during last Quarter) until ~mid-2027 (EPL5047 & EPL7295).

Bitterwasser Lithium Project

Lithium-In-Clays Project & Lithium Brines Project

- Environmental Clearance Certificate approval received, allowing for continued exploration.
- All Lithium Brines Project Licenses (EPL8101, EPL8102, EPL8103 & EPL8104) were successfully renewed.
- Project maintained in good standing (following renewal of all Lithium-In-Clay permits during the prior Quarter).

Corporate

- The Company is continuing to assess prospective and complimentary projects for both acquisition or Earn-in.
- Arcadia continues to manage its cash position and expenditures prudently, maintaining the Company's focus on minimising shareholder dilution as feasible.

Arcadia Minerals Limited (ASX:AM7, FRA:8OH) (Arcadia or the Company) is pleased to provide its Activities Report and Appendix 5B Cash Flow Report for the quarter ending 30 September 2025 ("**Quarter**").

Arcadia holds a diversified portfolio of exploration-stage assets across Namibia, targeting critical, strategic, and precious metals. During the Quarter, the Company advanced exploration at the TVC Project and continued to search for potential strategic partnerships with respect to its projects. Consistent with Arcadia's ongoing strategy to maximise shareholder exposure and minimise dilution, Arcadia remained focused on securing project-level joint ventures as well as other value-accretive proposals across all projects within its portfolio.

SUMMARY OF MINING EXPLORATION FOR THE QUARTER

Karibib Copper Gold Project ("**Karibib**")

During the Quarter, Arcadia conducted minimal exploration work on the Project.

Following the end of the Quarter, Arcadia announced that it had executed a binding Farm-in Agreement with Kaoko Metals Pty Ltd ("**Kaoko**" or "**Kaoko Metals**") over its 80% interest in Karibib Pegmatite Exploration (Pty) Limited ("**KPE**"), the entity which, via its shareholding in Goas Pegmatite Exploration (Proprietary) Limited ("**GPE**"), holds an 85% stake in the Karibib in Namibia.²

Under the Agreement², Kaoko may earn up to a 100% shareholding interest in KPE through a four-stage farm in. Arcadia will be entitled to the following consideration under the Agreement (pro-rata to Arcadia's 80% interest in KPE):

- 1) A cash payment of **A\$150,000** payable on the Settlement Date.
- 2) A cash payment of **A\$250,000** upon the date that is 1 year from the Settlement Date;
- 3) The grant of a Royalty over the KPE licence; and
- 4) Milestone fully paid ordinary shares in the capital of Kaoko ("**Kaoko Shares**"), upon satisfaction of the respective Farm-in Stages:
 - i. Stage 2 Farm-In: **500,000 Kaoko Shares.**
 - ii. Stage 3 Farm-In: **750,000 Kaoko Shares.**
 - iii. Stage 4 Farm-In: **1,000,000 Kaoko Shares.**

In addition, it was agreed that **\$35,000** non-refundable deposit to KPE is payable within 5 business days of the execution of the Agreement (which has subsequently been received).

Kaoko is a privately held mineral exploration company headquartered in Perth, Western Australia. It is spearheaded by Gerard O'Donovan a successful corporate professional who most recently led Sun Silver (ASX:SS1) through its successful IPO in May of 2025 and subsequent rapid resource growth at its Maverick Springs Silver Gold Project in Nevada, USA.

Prospectivity of Karibib

Karibib is located in the highly prospective Damara Belt of Namibia and benefits from its proximity to several significant regional deposits, including the **Navachab Gold Mine** (~35 km to the north), **Osino Resources' Twin Hills Deposit** (~50 km north, acquired by Yintai Gold for US\$272 million in February 2024), and the **Kokoseb Gold Project** (owned by WIA Gold, (ASX:WIA), with a current market capitalisation ~A\$480m). Arcadia believes that Karibib holds significant latent value that has yet to be tapped into, which can be fully harnessed through the application of modern exploration techniques as previously announced.³

The successful execution of an Agreement with Kaoko on the Karibib Project has been the result of **Arcadia's ongoing engagement with multiple interested parties across its portfolio of projects**. Consistent with its broader strategy, across the Company's broader portfolio, Arcadia continues to prioritise non-dilutive project-level funding through joint ventures and strategic equity investment to minimise dilution to shareholders.

Swanson Tantalum Mine ("Swanson")

During the Quarter, Arcadia conducted minimal exploration work on the Project.

Arcadia continues to aim securing **competitive offtake and strategic equity** for the Project, thereby aiming to secure the remaining construction financing estimated at US\$9.8m or monetise the asset. Following the finalisation of its Information Memorandum for Swanson earlier in the year, Arcadia has attracted multiple interested parties, facilitated data room access and hosted site visits, with several parties expressing an interest in funding the development.

TVC Projects

TVC Ta-Li & TVC Ni-PGE Projects

During the Quarter, Arcadia conducted minimal exploration work on the Project.

In line with the Company's strategy to retain maximum shareholder exposure to its portfolio of projects and minimise dilution, these joint venture partnerships are being pursued to secure additional funding and/or technical expertise in exchange for project-level interest.

Bitterwasser Lithium Project ("Bitterwasser")

Includes the Lithium-In-Clays Project & Lithium Brines Project

During the Quarter, Arcadia conducted minimal exploration work on Bitterwasser.

For personal use only

The Environmental Clearance Certificates (ECCs) for the Lithium Brines Project prospects (EPL8101, EPL8102, EPL8103, and EPL8104), approved in previous Quarters, remain active, with all permits in good standing.

Separately, in the last Quarter, exploration permits relating to the lithium-in-clays prospects were renewed (during last Quarter) until ~mid-2027 (EPL5353, EPL5354, & EPL5358).

As previously announced,³ the Company had decided to shift its focus from Bitterwasser to the other projects within its portfolio, aligning with the current reduced sentiment in the lithium market. Arcadia continues to maintain Bitterwasser in good standing, anticipating a recovery in the lithium market's long-term fundamentals.

During the Quarter, Arcadia continued to advance discussions with potential strategic equity partners for Bitterwasser, which remain ongoing.

CORPORATE AND FINANCE

During the Quarter, a total of \$38,847 was spent on activities related to the exploration and development of the Company's Projects. The Company has not incurred any expenditure for mining production activities during the Quarter.

Nil payments were made as related party payments of the Company in the Quarter (see section 6.2 of the Accompanying 5B):

Arcadia continues to manage its expenditures and cash position diligently.

CAPITAL STRUCTURE AT 30 SEPTEMBER 2025

[ABOUT ARCADIA MINERALS](#)

Erik Bergseng, CFA®

Investor Relations

ir@arcadiaminerals.global

Arcadia Minerals Limited (ASX: AM7) holds a diversified portfolio of resources projects in Namibia, across the critical, precious, and strategic metals sectors. The Company's exploration strategy focuses on high-potential regions and advanced-stage projects, providing a balanced approach to creating value for shareholders. For more details, please visit www.arcadiaminerals.global

Bitterwasser Lithium Project (50% effective Interest)

The Bitterwasser Lithium Project is a highly prospective lithium asset and is comprised of Lithium-In-Clays and Lithium-In-Brine exploration opportunities. The project has already shown promising lithium concentrations in clay-rich zones and has an established JORC resource (refer to tables in appendix 1 below). Covering a vast area, the project's large and underexplored areas continue to present significant growth prospects.

TVC Projects (80% effective interest)

The TVC Projects focus on the Kum-Kum Intrusive Complex and the Tantalite Valley Complex, both of which shares a geological formation with strong nickel, copper and platinum group element (PGE) mineralisation. Historical data, combined with recent exploration data, highlights the area's potential for large-scale discoveries of these critical and precious metals.

Karibib Copper-Gold Project (68% effective interest)

The Karibib Copper-Gold Project is located in the Damara Belt, a region known for hosting major copper and gold deposits. Located within a rapidly growing gold district, the project benefits from excellent infrastructure and access to skilled labour. The project has significant potential for a major discovery through the application of modern exploration technology, such as that used by Osino Resources, recently acquired by Yintai Gold for US\$272m in February 2024.

Swanson Tantalum Mine (80% effective interest)

The Swanson Tantalum Mine is focused on tantalum, a critical material in electronics and industrial applications. In addition to the existing JORC resource which confirms the presence of high-grade tantalum, the project also includes multiple follow up pegmatite targets which are prospective for tantalum, lithium and niobium. Significantly, Swanson represents a sustainable and ethical source of tantalum that can be sourced outside of conflict zones, such as Democratic Republic of Congo. A bankable feasibility study has been completed for the Project, which demonstrated robust financial outcomes using relatively conservative inputs.

See the below **Tenement Table** for more detailed information.

TENEMENT TABLE: ASX LISTING RULE 5.3.3

Mining tenement interests held at the end of the quarter and their location.

PERMIT NAME	PERMIT NUMBER	REGISTERED HOLDER	AREA IN HECTARES	PERMIT STATUS	PERMIT EXPIRY	INTEREST

COMPETENT PERSONS STATEMENT & PREVIOUSLY REPORTED INFORMATION

The information in the referenced announcements footnoted below in the table below that relates to Exploration Results, including the Mineral Resources or ore reserves has previously been released to the ASX. The Company confirms that it is not aware of any new information or data that materially affects the information provided in this announcement, and that all material assumptions and technical parameters underpinning the historical announcements tabled below continue to apply. The Company also confirms that the form and context in which the Competent Person's findings presented in this announcement have not been materially modified from the findings presented in the original market announcements. To the extent this report contains exploration results, estimates of mineral resource or ore reserves and supporting information, the Company confirms that the prior written consent of the relevant competent person has been obtained.

The information in this announcement that relates to exploration results and objectives in relation to the Kum-Kum Project is based on, and fairly represents, information and supporting documentation prepared by the Competent Person(s) whose name(s) appears below, each of whom is either an independent consultant to the Company and a member of a Recognised Professional Organisation or a director of the Company. The Competent Person(s) named below have sufficient experience relevant to the style of mineralisation and types of deposits under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the JORC Code 2012.

Competent Person	Membership	Report/Document

Mineral Resources – Swanson

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Swanson Mineral Resource estimate and all material assumptions and technical parameters underpinning the estimate continue to apply and have not materially changed when referring to its updated resource announcement made on 6 May 2022. The Company confirms the form and context in which the Competent Person's findings are presented and have not been materially modified from the original market announcement.

Ore Reserve – Swanson

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Swanson Ore Reserve Statement and that all material assumptions and technical parameters underpinning the Ore Reserve Statement continue to apply and have not materially changed. The information in this announcement has been extracted from the announcement dated 31 May 2023 (*Feasibility Study confirms Swanson Project as significant cash generator*).

Mineral Resources – Bitterwasser, Lithium in Clays

The Company confirms that it is not aware of any new information or data that materially affects the information included in the Bitterwasser Mineral Resource estimate (Eden Pan) and the Bitterwasser Mineral Resources estimate (Madube Pan) and all material assumptions and technical parameters underpinning the mineral Resources estimates continue to apply and have not materially changed when referring to its updated resource announcement made on 24 August 2022 (Eden Pan) and the resource announcement made on 2 May 2023 (Madube Pan).

APPENDIX 1 – MINERAL RESOURCE ESTIMATES AND ORE RESERVE

Swanson Tantalum Project Mineral Resource

At Swanson a revised JORC Mineral Resource of 2.59Mt at an average grade of 486g/t Ta₂O₅, 73g/t Nb₂O₅ and 0.15% Li₂O was announced on the 6 May 2022, which was derived from 52 drillholes drilled over 10 pegmatites.

TABLE 1: SWANSON TANTALUM PROJECT MINERAL RESOURCE (JORC 2021)

D, E and F Classification	Area	Tonnes (kt)	Ta ₂ O ₅ Content (Tonnes)	Ta ₂ O ₅ ppm	Nb ₂ O ₅ ppm	Li ₂ O %
Indicated	Total D	568	207	365	87	0.27
Indicated	Total EF	577	334	578	65	0.07

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
Unsecured non-recourse loan with interest of 10% pa from unrelated lender.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(58)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(39)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(97)
8.4 Cash and cash equivalents at quarter end (item 4.6)	55
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	55
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.6
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No, the Company has taken various austerity measures to reduce corporate overheads, including announcing a transaction on one of the Company's projects which will further reduce project expenditure. The prior quarter was higher than usual due to full year audit fees, and annual listing fees being settled, so ongoing administrative costs will reduce significantly over the next quarters.	

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes, the Company has drawn down on an unsecured non-recourse loan facility during the quarter, providing the Company with \$150k in funding (Refer ASX announcement 30 April 2025 "Interim Funding Secured"). In addition, through the Company's ongoing discussions with strategic/joint-venture parties interested in its portfolio of projects covering Li, Au, Cu and Ni/PGE's, the Company announced a transaction post quarter that has resulted in Arcadia receiving an additional \$35k in a non-refundable deposit. The earn-in arrangement will reduce exploration expenditure commitments for this project and once completed will provide the Company with additional cash and shares over time. Other discussions remain on-going over existing Company owned assets, which could result in similar funding options to the Company and could further improve the balance sheet. The Company has ability to raise further capital under its placement capacity when required.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, refer to responses under 8.8.2

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 31 October 2025

Authorised by: Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
