https://janemorganmanagement-au.zoom.us/webinar/register/WN_WqXiH9hZTGCYdVxoQRz-UA

After registering your interest, you will receive a confirmation email with information about joining the briefing.

Participants will be able to submit questions via the Panel throughout the presentation; given this is a pre-recorded briefing we highly encourage attendees to send through questions via email beforehand to info@janemorganmanagement.com.au

About Euro Manganese

Euro Manganese Inc. (ASX and TSX-V: EMN; FSE:E06) is a battery materials company developing the Chvaletice Manganese Project in the Czech Republic, Europe's only near-term source of high-purity manganese, a critical ingredient in next-generation electric vehicles, energy storage batteries and defence applications.

The Chvaletice Manganese Project will reprocess historic mine tailings to produce high-purity electrolytic manganese metal (HPEMM), and high-purity manganese sulphate monohydrate (HPMSM), establishing a fully traceable, low-carbon supply chain within the European Union.

With its Demonstration Plant having produced on-spec products and optimization work underway to enhance commercial plant efficiency, Euro Manganese is positioned to become Europe's first domestic producer of high-purity manganese, meeting the rising demand for sustainable, strategic battery materials while advancing Europe's clean-energy and supply-chain independence goals.

Euro Manganese is dual listed on the TSX-V and the ASX.

Authorized for release by the President and CEO of Euro Manganese Inc.

Neither TSX-V nor its Regulation Services Provider (as that term is defined in the policies of the TSX-V) or the ASX accepts responsibility for the adequacy or accuracy of this release.
