Important information

Forward-looking statements

The material in this presentation contains general background information about the ANZ Group's activities current as at 7 November 2025. It is information given in summary form and does not purport to be complete.

It is not intended to be and should not be relied upon as advice to investors or potential investors, and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice, when deciding if an investment is appropriate.

This presentation contains certain forward-looking statements or opinions including statements regarding our intent, belief or current expectations with respect to the Group's business operations, market conditions, results of operations and financial condition, capital adequacy, sustainability objectives or targets, specific provisions and risk management practices. These matters are subject to risks and uncertainties that could cause the actual results and financial position of the Group to differ materially from the information presented herein. When used in the presentation, the words 'forecast', 'estimate', 'goal', 'target', 'indicator', 'plan', 'pathway', 'ambition', 'modelling', 'project', 'intend', 'anticipate', 'believe', 'expect', 'may', 'probability', 'risk', 'will', 'seek', 'would', 'could', 'should' and similar expressions, as they relate to the Group and its management, are intended to identify forward-looking statements or opinions. Forward-looking statements or opinions may also be otherwise identified within this presentation, including by the use of footnotes. Those statements are usually predictive in character; or may be affected by inaccurate assumptions or unknown risks and uncertainties or other factors, many of which are beyond the control of the Group or may not be known to the Group at the time of the preparation of the presentation, such as general global economic conditions, external exchange rates, competition in the markets in which the Group will operate, and the regulatory environment. Each of these statements and related actions is subject to a range of assumptions and contingencies, including the actions of third parties. As such, these statements should not be relied upon when making investment decisions.

There can be no assurance that actual outcomes will not differ materially from any forward-looking statements or opinions contained herein. Also see the notice below about climate-related information which may affect climate-related forward-looking statements or opinions.

The forward-looking statements or opinions only speak as at 7 November 2025 and no representation is made as to their correctness on or after this date. No member of the Group undertakes to publicly release the result of any revisions to these statements to reflect events or circumstances after this date to reflect the occurrence of unanticipated events.

Climate-related statements

The presentation also contains climate-related statements. Those statements should be read with the important notices in relation to the uncertainties, challenges and risks associated with climate-related information included at the end of this presentation pack.

Unless otherwise indicated, the ESG and climate information reported for the full year ending 30 September 2025, in this presentation, does not include Suncorp Bank for the period since acquisition date¹.

All amounts in this document are in Australian dollars unless otherwise stated and all financial performance metrics are on a cash profit basis unless otherwise stated. Sum of parts within charts and commentary may not equal totals due to rounding.

Note: Rounding within this pack may result in the total presented in certain charts differing slightly from the components presented

1. On 31 July 2024, the Group acquired 100% of the shares in SBGH Limited, the immediate holding company of Suncorp Bank

Unlocking our potential to win the preference of customers, shareholders and the community

Strategic pillars

Customer first

With market leading, differentiated and superior propositions, we will raise the standard of every digital and human interaction for our customers.

Simplicity

To set the market standard for productivity, we will deliver organisational simplification, divest non-core assets and improve efficiency.

Resilience

Leading the industry in trust, safety and risk management, we will adhere to the highest standards of non-financial risk management and strengthen end-to-end accountability across the bank.

Delivering value

To sustainably improve our financial performance, we will create lasting value by delivering higher returning growth and results that matter for our stakeholders.

2. Long run loss rate based on Sep 25 portfolio mix and loss history from 2008 to 2025
3. FY25 EOP. Performing loan coverage includes stage 1 & 2 CP exposures. Non-performing loans include stage 3 CP & IP exposures. Exposures include gross loans and advances, credit commitments and contingent facilities
4. Based on ANZ analysis of data sourced from publicly available company financials

Capital

ANZBGL - APRA Level 2 Common Equity Tier 1 (CET1) ratio – 2H25 Movement, %

1. CET1 impact of significant items
2. Includes gross dividend of -53bps and +8bps from Dividend Reinvestment Plan
3. Excludes IRRBB & Operational risk, Including risk impacts
4. Including surplus capital of \$0.2bn held by the NOHC and the remaining \$0.8bn for the share buy-back. The Group ceased the remaining share buyback on 13 October and announced that it will return the funds to ANZBG
5. A 1.5% discount will be applied to the Final 2025 Dividend Reinvestment Plan. Assuming a 30% DRP participation rate, this will provide a 16bps benefit to the CET1 ratio

Our targets¹

- ✓ Increase Return on Tangible Equity (ROTE) towards 12% by FY28 and towards 13% by FY30
- ✓ Achieve a cost-to-income ratio in the mid-40s percent by FY28 and sustained through to FY30, including
 - ✓ Estimated gross cost savings of \$800 million to be delivered in FY26
 - ✓ Estimated Suncorp Bank synergies of \$500 million with full run-rate synergies realised in FY29

1. This page contains forward looking statements. These statements are subject to the disclaimer on page 2. Based on Cash Profit. Cash profit, a non-IFRS measure, represents the Group's preferred measure of the result of its core business activities, enabling readers to assess Group and divisional performance against prior periods and against peer institutions. To calculate cash profit, the Group excludes non-core items from statutory. The adjustments made in arriving at cash profit are included in statutory profit which is subject to review within the context of the external auditor's review of the Condensed Consolidated Financial Statements. Cash profit is not subject to review by the external auditor

Corporate overview

ANZ has a strong foundation

A strong heritage, with a history dating back to 1828, evolving through organic growth and mergers and acquisitions to become a "Big Four" bank in Australia & New Zealand

Employees and customers

- Operating across 29 markets
- >11m customers across retail, commercial, institutional

Balance Sheet

- Assets of \$1,297b including \$829b in net loans and advances
- Liabilities of \$1,225b, including \$748b in customer deposits

ANZ ownership

- Market capitalisation of \$99.1b
- Shareholding: ~40% retail; ~60% institutional (based on issued capital)

ANZ 2030 – Two phases to our strategy

First phase – Across FY26 & FY27

Delivering on immediate priorities to get the basics right

- › Substantial improvement in productivity
- › Initial investment for growth

Second phase – Beyond FY27

Realise the benefits of these strong foundations

- › Accelerate growth
- › Outperform the market

In both phases – Continuously improving our returns and delivering value

Customer first

Australia Retail¹

Differentiated propositions for customer segments

Mass affluent segment

People relocating to Australia

Strengthen proprietary origination

Invest and train mortgage sales force

Increase lenders in branches, up to 50% more over next 5 years

Elevate channel experiences

ANZ Plus single customer front-end

Invest in bankers' tools

Re-platforming our contact centre experience

Customer first

Australia Commercial¹

Front line that matches our ambition

- Increase bankers by close to 50%
- Better tools and systems
- Commercial Bankers Academy

The right platform for the right customer

- Transactive Global to the middle-market segment
- ANZ Plus single customer front-end to small business by end of FY27

Build on strong Private Bank foundations

- More relationship managers
- Improve quality of offering
- Leverage mass affluent segment work

Customer first

Institutional

Targeted customer acquisition

Financial Institutions; Corporates with links to Australia and New Zealand; and multi-nationals operating intra-Asia

Market leading platforms

Extending our leading position in payments, cash management and market flow products in Australia and New Zealand

Broaden these capabilities across our international network

Capital management to optimise returns

New capital management structure

Enhance our capabilities in originate-to-distribute and balance sheet recycling

Customer first

New Zealand

Re-platformed for the future

Bring customer experience in line with leadership position, by redesigning the customer journey

Refreshed segment propositions

Bespoke propositions to customer segments, including affluent and small business customers

Investing in business bankers

Provide business relationship managers the right tools to outperform in target segments

Simplicity

ersonal use only

Resilience

Capital & balance sheet

Strong capital, funding and liquidity position

One of only 11 banks globally in the AA band by all three rating agencies¹

Credit quality

Reshaped lending book, drive good risk outcomes, believe structural in nature

83% of wholesale lending to investment grade counterparties

Non-Financial Risk management

A better run bank

1. Based on global comparable banks with an issuer rating and debt rated in the AA band from all 3 major ratings agencies

Australia Residential Mortgages	APRA requires cohort specific multipliers (i.e. 1.4x for Owner Occupier Principal and Interest & 1.7x for all Other mortgage types) and other adjustments	+1.05%
IRB Scaling Factor	APRA requires a scaling factor of 1.1 times for all RWA	+0.85%
New Zealand Exposures	APRA requires the use of Reserve Bank of New Zealand (RBNZ) capital rules to calculate Credit RWA for all New Zealand subsidiary credit exposures, which are generally more conservative than the Basel rules	+0.85%
Equity Investments & DTA	APRA requires 100% deduction from CET1	+0.87%
IRRBB RWA	APRA includes IRRBB in Pillar 1 RWA	+0.73%
Non-NZ Non-Retail Loss Given Default	APRA specifies higher LGD floors for other general corporate exposures (50%) but has lower floors for sovereigns (5% or 25%) and utilities that provide essential services to the economy (25%)	+0.57%
Other Risk Weighted Assets	APRA require 1.5x scalar for IPRE exposures and conservative supervisory slotting risk weights for project, object and commodity finance	+0.30%
Other Capital	APRA require deductions from CET1 for capitalised expenses & deferred fee income	+0.36%
Basel Harmonised CET1 ratio – 30 September 2025		17.6%

Regulatory capital

ANZ Bank Group capital

- Level 2 CET1 ratio of 12.0% (Level 1 CET1 ratio of 12.4%), an increase of 25bp from 1H25:
 - Underlying reduction in CRWA is primarily driven by a reduction in exposures in Institutional
 - Operational Risk overlay of \$250m is effective from Apr-25
 - The capital floor decreased by \$9b in 2H25, mainly due to the reduction in the Institutional portfolio reducing the capital floor by more than the actual RWA decrease and the higher IRRBB RWA

ANZ Group dividend

- Final dividend of 83 cents per share partially franked at 70%, ~74% Half Year DPOR on Cash NPAT (excluding significant items) basis
- A 1.5% discount will be applied to the Final 2025 Dividend Reinvestment Plan. Assuming a 30% DRP participation rate, this will provide a 16bps benefit to the CET1 ratio

APRA Level 2 Common Equity Tier 1 (CET1) ratio – FY25 Movement, %

1. CET1 impact of significant items
2. Includes surplus capital of \$0.2bn held by the NOHC and the remaining \$0.8bn for the share buy-back. The Group ceased the remaining share buyback on 13 October and announced that it will return the funds to ANZBGL

Regulatory capital – risk weighted assets

Risk weighted assets – Level 2, \$b

Risk weighted assets – IRRBB, \$b

1. Including Suncorp Bank IRRBB risk
2. Pro forma for new APS1117 standard is \$22.8b

Balance sheet structure¹

3. 'Other' includes Sovereign and non-operational FI Deposits

4. 'Other' includes Off Balance Sheet, Derivatives and Fixed Assets

5. 'Other' includes FI/Bank deposits, Repo funding and other short dated liabilities

6. Includes Central Bank Term Funding (RBNZ FLP/TLF)

Liquidity coverage ratio (LCR) summary¹

\$9b increase in average LCR surplus²

LCR composition, Average FY25 \$77b

1. All figures shown on a Level 2 basis as per APRA Prudential Standard APS210

2. LCR surplus excludes surplus liquids considered non-transferrable across the Group. As at 30 September 2025, this included \$10.1b of surplus liquids held in New Zealand

3. Change in cash outflow impacts on LCR surplus

4. 'Other' includes off-balance sheet and cash inflows

5. Comprised of HQLA2 and Alternative Liquid Assets (ALA)

Term wholesale funding¹

ANZ has access to a diverse range of wholesale funding

- FY25 term funding issuance of \$37b², ~50% of which were issued in domestic currencies
- Expected FY26 term funding of ~\$35b across ANZBGL (~\$25b), ANZ NZ (~\$5b) and Suncorp Bank (~\$3-5b)
- ANZ's future term funding issuance depends on market conditions, balance sheet needs, regulatory changes and exchange rates, amongst other factors
- S&P have recently re-affirmed ANZ's credit ratings including RAC ratio impacts from APRA's AT1 phase out

2. Includes prefunding of \$1.3bn
3. Maturity profile is based on the next call date
4. Sep 16 excludes Suncorp Bank

Portfolio composition⁴

Product

Currency

Tier 2 and AT1 portfolio¹

ANZ is well placed to meet APRA and RBNZ Tier 2 requirements

- APRA Level 2 Total Capital ratio is 21.0%, 29.2% on a Basel Harmonised basis
- ANZBGL issued ~\$7.5b of Tier 2 in FY25. This included the first ever AUD benchmark 20-year bullet transaction, a significant development for the domestic Tier 2 market
- Current APRA Level 2 Tier 2 ratio is 7.4% (exceeding APRA's January 2026 requirement of 6.5%)
- Given APRA's announced phase out of AT1, ANZ's pro forma 1 Jan 2027 Tier 2 ratio² is 7.7%, effectively meeting APRA's January 2027 Tier 2 requirement of 7.75% one year ahead of schedule
- FY26 Tier 2 issuance requirement is ~\$5-7b³
- ANZ has a diversified approach to sourcing Tier 2 funding and issued in SGD, EUR, USD and AUD in FY25
- ANZBGL and ANZ New Zealand Tier 2 calls remain subject to APRA or RBNZ approval respectively
- APRA announced its AT1 phase out in December 2024 with outstanding AT1 securities to be grandfathered from January 2027 as Tier 2 until their first scheduled call date

AT1 first call date profile

Notional amount A\$b

Tier 2 capital, Notional amount %

Tier 2 capital amortisation profile⁴, A\$b

1. AUD equivalent profiles based on historical FX, Tier 2 ratios on spot FX. Comprises Tier 2 capital in the form of capital securities only (i.e. does not include other Tier 2 capital such as eligible General reserve for impairment of financial assets). ANZ New Zealand AT1 and Tier 2 does not constitute APRA compliant regulatory capital. Securities profiled to the first call date. Redemption is subject to APRA's prior written approval in its discretion, and there is no assurance that it will be forthcoming
2. Includes ANZBGL AT1 with a first call date after 1 January 2027 as Tier 2 and assumes any AT1 or Tier 2 with a call before 1 January 2027 is called and not replaced. Based on RWA as at 30 September 2025
3. Subject to the finalisation of RBNZ's Capital Review
4. Profile is modelled based on scheduled first call date for Callable structures and in line with APRA's amortisation requirements for bullet and 11NC10 structures. Excludes the A\$800m ANZ Holdings (New Zealand) Limited Perpetual Subordinated Notes issued to fund ANZ New Zealand Perpetual Preference Shares that qualify as RBNZ AT1 issued in September 2024

RBNZ Capital Review

Key proposals

RBNZ is conducting a review of key capital settings for New Zealand banks with outcomes to be finalised in December 2025. The review currently proposes:

- lower and increased granularity of risk weight settings under the standardised approach
- Removal of AT1 capital
- Two options for changes to the capital stack for larger New Zealand banks (including ANZ New Zealand). RBNZ's option 2 would require all Tier 2 and LAC to be issued internally within the ANZBGL Group

Key points of ANZ New Zealand's submission

- Recommends an alternative capital stack (option 3) that would align with APRA's capital stack in Australia including recent proposed updates. Similar in approach to option 2, under option 3 all Tier 2 and LAC would be issued internally within the ANZBGL Group
- Under option 2 or 3, APRA has confirmed that internally issued Tier 2 will be deductible from APRA Level 1 Tier 2 (subject to certain conditions)
- Supports the removal of AT1 capital with a carefully managed transition
- Notes that the proposed, more granular, standardised risk weights are a positive step, but that they remain conservative compared to international standards

Capital stack options, capital ratio %

Consumer portfolio¹

90+ DPD as a % of total portfolio balances

Control list⁴, indexed data

Sep 20=100

1. Excludes Suncorp Bank

2. Delinquencies are calculated on a missed payment basis for amortising and interest only loans. 90+ includes gross impaired assets and hardship accounts

3. Australia Home Loans 90+ between Mar 20 and Jun 20 excludes eligible Home Loans accounts that had requested COVID-19 assistance but due to delays in processing had not had the loan repayment deferral applied to the account. As at Sep 25, the 90+ DPD rate is 0.86% and includes impaired (4 bps) and non-impaired hardship accounts (25 bps). Where the hardship event has been resolved, customers are required to meet the restructure arrangement for 6 months before the arrears are capitalised or where eligible, the loan can be restructured without the 6-month serviceability test. The criteria include, but are not limited to, a favourable assessment of financial position based on the restructured contractual repayments. Excluding hardship accounts, the 90+ DPD rate is 0.61% as at Sep 25

4. The control list identifies wholesale customers that are at a heightened level of risk of not being able to pay their credit obligations in full (such as facility delinquency or excesses against limits) and provides a mechanism to focus management attention on the monitoring and application of management strategies for those customers.

Our resources portfolio

Resources Portfolio, EAD¹ \$b

Thermal Coal Mining, EAD¹ \$b

Movement in Oil and Gas Extraction and Thermal Coal Mining Exposures

The portfolio is in the advance stage of runoff, and our exposures are now largely to mine rehabilitation bonds

We have met our target to reduce our EAD to oil & gas extraction customers by 40% (to an EAD of \$4.9 billion) by 30 September 2025 from a 2020 baseline^{4,5}

Our oil and gas extraction exposures continued to decrease this year driven by lower corporate lending activity and ongoing amortisation of project financings

1. Exposure at Default – represents the exposure to each sector based on APRA’s calculation formula which includes total committed loans (drawn plus a proportion of off-balance sheet exposures as specified by APRA).

2. Oil & Gas Extraction includes exposure to exploration and extraction only as the focus is on resources (mining) exposure in line with industry groupings.

3. ANZ applies the 1993 ANZSIC codes, which ANZ may adapt where it considers appropriate, to allocate customers to industry sectors. The allocation is intended to reflect the primary business activity of the customer in terms of revenue ANZSIC codes are applied manually at the time of customer onboarding and may be subject to change due to changes in customers activities over time.

4. On a FX adjusted basis

5. Some of the reduction in EAD since September 2020 is a result of the APRA Capital Reforms rule changes which came into effect 1 January 2023. The new rules altered the way EAD is calculated. When applied to ANZ’s oil and gas EAD, the revised calculation resulted in a lower EAD amount compared with the original EAD calculation which was based on the old method. A portion of our overall reduction against this target is attributed to the changes to our EAD calculation methodology brought on by the APRA Basel IV rule changes.

Internal Expected Loss rates

From 1H26 ANZ will cease external disclosure of Internal Expected Loss (IEL). IEL uses Probability of Default models designed for capital adequacy purposes, and as such it is a conservative, rather than unbiased, measure of expected loss. Over the last ten years (FY16-25) the ratio of IPC/IEL has averaged 39% and the actual IPC (Individual Provision Charge) has not exceeded IEL

To provide a more realistic and reflective measure of average losses through the economic cycle, ANZ will disclose the expected loss measure based on long-run historical loss rates, when adjusted to reflect current portfolio mix – refer slide 73

Investor Discussion Pack
Environment, Social & Governance (ESG)

Our ESG approach and related disclosures

Our suite of ESG reports¹ are produced to meet the needs of our key external stakeholders, including our investors and customers, and take account of our social, environmental and economic risks and opportunities.

Our ESG approach is focused on responding to seven key material issues identified in our 2025 materiality assessment²:

- Environmental sustainability
- Ethics, conduct and culture
- Financial wellbeing
- Housing
- Information security
- Responsible customer engagement
- Improving non-financial risk

2025 ESG Report

2025 Climate Report

2025 ESG Data and Frameworks Pack

Climate Change Commitment

2025 Energy Customer Approach

[ESG Reporting | ANZ](#)

1. Our 2025 Modern Slavery and Human Trafficking Statement will be released no later than 31 March 2026 and made available at anz.com/esgreport

2. See our 2025 ESG Report for more information on our materiality assessment available at anz.com/esgreport

Our Climate and Environment Strategy

Our Climate and Environment Strategy sets out our objective to be a trusted partner for our customers, supporting them to adapt and become more resilient to a changing environment and economy. In particular, we aim to be a leading bank in supporting an effective and orderly transition for our large business customers.

Key outcomes in 2025:

- 77 LEEP customers¹ are in the 'Mature' phase of transition planning under our transition plan assessment framework.
- Revised sectoral pathways and targets to transition lending portfolio to net zero financed emissions. Eight of our revised sectoral pathways on-track, two are close to on-track and none off-track this year.
- Funded and facilitated social and environmental activities as part of our \$100b target, including \$84.72b since 1 April 2023².
- Participated in 159 labelled Sustainable Finance deals with a total deal size of \$165b³.
- Enhanced climate scenario analysis capabilities and disclosures.

1. Large Emitters Engagement Program – Our 2025 Climate Report provides more details, including how we select LEEP customers, available at anz.com/esgreport
2. Refer also to the ANZ Social and Environmental Sustainability Target Methodology available at anz.com/esgreport
3. The amount attributed to ANZ was \$23.6 billion

Vision

Financing a sustainable transition

Ambition

Building our capability to help customers understand climate and nature risks

Transitioning our lending portfolio to net-zero financed emissions

Supporting our customers' transition and resilience

Action pillars

Understanding risks and opportunities

Building capability and capacity

Driving customer engagement and propositions

Collaborating with stakeholders to support the transition

This year we supported Intellihub with approximately \$3 billion in Green Loans to continue its roll out of smart meter, solar, battery, EV charging and swimming pool efficiency technology. Certified by the Climate Bond Initiative, this was the fourth syndicated green loan for Intellihub since 2021. ANZ acted as Green Loan Coordinator and Agent for all four loans

Our Large Emitters Engagement Program¹

- We have been engaging with large emitting customers since 2018, which has evolved to now focus on our LEEP cohort.
- We review our LEEP customers' transition plans against our assessment framework and expect our customers' plans to address Governance, Targets, Risk Management and Disclosure.
- A three-phase categorisation approach is adopted to assess their transition trajectory relative to our assessment framework. This also allows us to acknowledge sector- and region- specific challenges for customers assessed in the 'Progressing' phase.
- The majority of LEEP customers have set net-zero 2050 emissions targets for their operations and have Board-level oversight of their transition plan.
- The Central Review Team is the main decision-making body for customer transition plan assessment ratings, governs decisions regarding LEEP customer inclusions, exclusions or removals, and monitors the implementation of account plans for certain customers in the 'Emerging' phase.
- This year, we achieved our customer engagement target, with more customers assessed to be in the 'Mature' phase for their transition plans, compared with their starting point.
- From 2026 onwards, we intend to engage with an expanded cohort of LEEP customers and assess their transition plans at least annually. The level of engagement will vary depending on the assessment outcomes.

How our LEEP customers are placed in 2025²

Summary phase description

Mature

Customers that have disclosed a well-developed or advanced transition plan. This includes customers we consider to be 'sector leaders'.

Progressing

Customers that are demonstrating sufficient improvement³ of their plans. These customers may have targets that fall short of being Paris-aligned⁴ intermediate targets, e.g. due to challenges in the sector or environment they operate in.

Emerging

Customers that generally do not meet our expectations for the 'Progressing' phase. Some may have internal plans, including governance structures and steps being taken to reduce emissions that are not yet disclosed. Others may have disclosed plans but without accompanying emissions disclosures or targets to reduce their emissions.

1. Our 2025 Climate Report provides more details, including how we select LEEP customers, available at anz.com/esgreport

2. In some cases, our 2025 assessment of LEEP customers took into account customers' actions and/or information relevant to our assessment criteria up to 22 October 2025 (i.e., after ANZ's end of financial year)

3. We assess the customer's improvement which includes evaluating their public disclosures and engagement with us

4. Paris Alignment (or Paris-Aligned) means aligning the Paris Agreement mitigation goal to strengthen the global response to the threat of climate change: a) by holding the increase in the global average temperature to well below 2C above pre-industrial levels; and b) pursuing efforts to limit the temperature increase to 1.5C above pre-industrial levels

Our sectoral pathways to transition our lending to net-zero financed emissions¹

Sectoral pathways and targets supporting customer decarbonisation

- This year, we reviewed our sectoral pathway targets, including aviation which was suspended in 2024. The review resulted in some material changes being made to pathways, including targets and our historical performance.
- For eight of our higher emitting sectors (which includes three sub-sectors in transport), we have identified relevant metrics and set specific targets. These targets help guide our businesses to make financing decisions about customers operating in these sectors. These pathways are an important input in our decision making.

	Sector ²	2030 Interim Target reduction	Status
	Power generation	54% (2020 baseline)	ON-TRACK
	Oil and gas	32% (2020 baseline)	ON-TRACK
	Thermal coal	100% (2020 baseline)	ON-TRACK
	Auto manufacturing	18-33% (2022 baseline)	ON-TRACK
	Aviation	16-26% (2019 baseline)	CLOSE TO ON-TRACK
	Shipping	23-30% (2022 baseline)	CLOSE TO ON-TRACK
	Aluminium	17-30% (2021 baseline)	ON-TRACK
	Cement	13-25% (2021 baseline)	ON-TRACK
	Steel	11-22% (2021 baseline)	ON-TRACK
	Australian large-scale commercial real estate	60% (2019 baseline)	ON-TRACK

● >+10% above pathway or range
● >0% to <=+10% above pathway or range
● On or below pathway or range (<=0%)

1. Our 2025 Climate Report details important information about the scope of our sectoral pathways including the part of each sector’s value chain in scope, how we identify pathway customers and , including our Financed and Facilitated Emissions Methodology for identifying the part of each sector’s value chain, pathway customers and other thresholds applied. Please also see the important information about forward-looking statements and climate-related information at the start and end of this presentation pack. Revised pathways and targets include customers of Suncorp Bank that meet our in-scope criteria for inclusion in our pathways

2. See our 2025 Climate Report, including Appendix 5 ANZ Financed and Facilitated Emissions Methodology, for details on ANZ’s rationale for not disclosing a sectoral pathway target in 2024 for the Australian residential home-loans, Institutional agribusiness; sectoral pathways and targets including the part of each sector’s value chain; and the customers included in the scope of each pathway as well as detail on our performance against the targets: anz.com/esgreport

Risk management

ANZ recognises climate risk as a material risk within the Group Risk Management Framework (RMF). Climate risk is also considered to be a driver of other material risks within our RMF.

This year, we focused on:

1 Further enhancing and embedding climate risk management requirements across the Group through our Climate Risk Standard and Non-Financial Risk framework

2 Expanding the escalation process to include material lending transactions that impact our industry and transport sectoral pathways

3 Enhancing our Climate Change Risk Assessment tool through exploring the use of generative artificial intelligence

4 Enhancing our climate scenario analysis capability, including through:

- the recruitment of specialist resources;
- identifying and assessing our material climate risks; and
- undertaking a physical risk assessment of our Australian home loan portfolio

Our ESG targets¹

Target ²	2025 performance or status
\$10 billion social housing	Since October 2018, we have funded and facilitated \$7.37 billion to support the delivery of more affordable, accessible or sustainable homes to buy and rent. This includes \$892.79 million allocated towards the target in 2025⁴, exceeding our \$750 million 2025 sub-target.
\$100 billion social and environment activities	Since 1 April 2023, we have contributed \$84.72 billion towards the target, across 412 customer transactions, of which \$42.09 billion is funded, \$38.96 billion is facilitated, and \$3.67 billion is from direct investment through 61 bond purchases. This includes \$45.75 billion allocated towards the target in 2025⁴, exceeding our \$18.5 billion 2025 sub-target.
Sectoral pathways⁶	Eight are ‘on-track’ and two are ‘close to on-track’.
Operational emissions⁷	Having achieved our 2030 target of a 90% reduction (against a 2015 baseline) earlier than expected, we have revised our combined Scope 1 and Scope 2 emissions reduction target with a more ambitious baseline year of 2024.
Gender equity targets⁷	Re-baselined targets for 2026

For further details on our broader set of targets that completed in 2025 and our climate sectoral pathways see our 2025 ESG Report and Climate Report, both available at anz.com/esgreport.

1. Includes targets continuing in 2026, new targets and 2025 performance

2. Targets exclude Suncorp Bank unless otherwise stated

3. Eligible housing transactions that also meet the eligibility criteria for the social and environmental target to achieve \$100 billion by end 2030 may contribute towards both targets

4. FY25 includes transactions validated as eligible for inclusion in the target from 21/09/2024 to 19/09/2025

5. For further detail on ANZ’s approach for assessing the eligibility of transactions for inclusion towards the target, refer to the ANZ Social and Environmental Sustainability Target Methodology available at anz.com/esgreport

6. Our 2025 Climate Report details important information about the scope of our sectoral pathways. Revised pathways and targets include customers of Suncorp Bank that meet our in-scope criteria for inclusion in our pathways

7. Includes Suncorp Bank

8. ‘Senior Executive’ means “KMP”, which means Chief Executive Officer and Disclosed Executives as set out in the Remuneration Report contained within the Annual Report available at anz.com/annualreport

Important information – Climate-related information

This presentation may contain climate-related statements, including in relation to climate-related risks and opportunities and climate-related goals and ambitions. While the statements were prepared in good faith, climate-related statements are subject to significant uncertainty, challenges and risks that may affect their usefulness, accuracy and completeness, including:

1. *Availability and reliability of data* – emissions and climate-related data may be incomplete, inconsistent, unreliable or unavailable (including information from the Group's customers), and it may be necessary to rely on assumptions, estimates or proxies where that is the case.
2. *Uncertain methodologies and modelling* – methodologies, frameworks and standards used for calculations of climate-related metrics, modelling and climate data are not universally applied, are rapidly evolving and subject to change. This may impact the data modelling, approaches, and targets used in preparation of this presentation.
3. *Scenario analysis limitations* – analysis of climate scenarios is limited by its reliance on assumptions, estimates and projections that are not exact.
4. *Complexity of calculations and estimates* – estimating financed or facilitated (including allocating emissions to banking activities) and emissions reduction is complex and relies on assumptions and judgments, often made in respect of long periods of time.
5. *Changes to climate-related governing frameworks* – changes to climate-related policy, laws, regulations and market practices, standards and developments, including those resulting from legal proceedings and regulatory investigations.
6. *Lack of consistency in definitions and climate-science terminology subject to changes* – definitions and standards for climate-related data and assessment frameworks used across industries and jurisdictions may vary, and terminology and concepts relating to climate science and decarbonisation pathways may evolve and change over time. These inconsistencies and changes can also make comparisons between different organisations' climate targets and achievements difficult or inappropriate.
7. *Reliance on third parties for data or involvement* – the Group may need to rely on assistance, data or other information from external data and methodology providers or other third parties, which may also be subject to change and uncertainty. Additionally, action and continuing participation of third parties, such as stakeholders, may be required (including financial institutions and governmental and non-governmental organisations).

Due to these uncertainties, challenges and risks, statements, assumptions, judgments, calculations, estimates or proxies made or used by the Group may turn out to be incorrect, inaccurate or incomplete. Readers should conduct their own independent analysis and not rely on the information for investment decision-making. The information in this notice should be read with the qualifications, limitations and guidance included throughout this presentation and in:

- ANZ 2025 ESG Report available at anz.com/esgreport.
- ANZ 2025 ESG Data and Frameworks Pack available at anz.com/esgreport.
- ANZ 2025 Climate Report available at anz.com/esgreport, including Appendix 4 ANZ Climate Scenario Analysis Methodology, Appendix 5 ANZ Financed and Facilitated Emissions Methodology, Appendix 7 Scope 1, Scope 2 and Scope 3 Operational Greenhouse Gas Reporting Methodology.
