

Senior Bank Lender Takes Options in Lieu of Fees

West Wits Mining Limited (ASX:WWI) (OTCQB:WMWWF) (West Wits, WWI or the Company) advises it has issued 100,386,000 unlisted options to Absa Bank Limited (acting through its Corporate and Investment Banking Division) (**Absa**) to settle fees of ZAR 7,656,250 (approx. AUD 680,000) payable to Absa under the R 875M senior syndicated loan facility (~USD 50 million) (**the Facility**). Each option has an exercise price of \$0.0185 and expires 5 years from date of issue, to match the tenor of the Facility.

Absa's Strategic Endorsement and Partnership

Absa, one of South Africa's leading commercial banks, has been pivotal in advancing the broader funding package for development of the Qala Shallows project.

Absa initiated discussions with West Wits in October 2024, when the Company's share price was trading between 1.4c and 1.6c to receive fees via an option allotment. Absa's proactive approach to gain equity exposure to West Wits ahead of the Facility's Credit Committee approval in February 2025 underscored the bank's support for the Qala Shallows project and the broader Witwatersrand Basin Project ("WBP").

The equity exposure provides a meaningful alignment of interests between Absa and West Wits as the Company advances the Qala Shallows project, the first stage of the broader WBP, and positions itself for long-term growth as a mid-tier gold producer.

Transaction Terms

The exercise price of \$0.0185 (1.85c) represents a 15% premium to the 5-day VWAP of WWI shares prior to the ASX announcement of Credit Committee approval for the Facility on 20 February 2025.

Whilst the current share price trades around \$0.05 (5c), it is important to note that the pricing metrics for the transaction were established months earlier, prior to the Facility's credit approval and the recent gold price increase, and reflected Absa's early confidence to forgo a right to cash fees in favour of gaining an exposure to the project's long-term potential. The Company welcomed Absa's confidence and the opportunity it offered to preserve cash resources at a critical stage of the funding process. Finalisation of the option terms and legal agreements were delayed whilst loan documentation on the Facility was finalised with all syndicate parties and executed in June 2025.

West Wits CEO Rudi Deyssel said: *"Absa's proactive engagement and early flagged preference to forgo cash fees to secure equity exposure is a strong vote of confidence in our vision and execution. The equity settlement strengthens West Wits partnership with one of South Africa's leading commercial banks as the Company embarks on its strategic objective to become a mid-tier gold producer with the Qala Shallows being the first stage of development of the broader Witwatersrand Basin Project."*

The unlisted options were issued under the placement capacity available to the Company under Listing Rule 7.1. An Appendix 3G has been released to ASX for the issue.

Approved for release by the Board.

ABOUT WEST WITS MINING LIMITED

West Wits Mining Limited (**ASX: WWI**) (**OTCQB: WMWWF**) is focused on the exploration, development and production of high-value precious and base metals for the benefit of shareholders, communities and environments in which it operates. Witwatersrand Basin Project, located in the proven gold region of Central Rand Goldfield of South Africa, boasts a 5.025Moz gold project at 4.66g/t¹. The Witwatersrand Basin is a largely underground geological formation which surfaces in the Witwatersrand. It holds the world's largest known gold reserves and has produced over 1.5 billion ounces (over 40,000 metric tons), representing about 22% of all the gold accounted for above the surface. In Western Australia, WWI is exploring gold and copper at the Mt Cecilia Project in a district that supports several world-class projects such as Woodie Woodie manganese mine, Nifty copper and Telfer gold/copper/silver mines.
