The purpose of this workshop is to investigate how to progress the ecological risk assessment (ERA) and research how to improve the CSF.

The Company is in discussion with related parties for an OPCO/PROPCO transaction. This asset-light operating model will allow the Company to maximise its revenue and profits with the minimum capital exposure. It can also allow the Company to optimise its capital utilisation, risk management and enhanced financing options. The Company will seek shareholder approval if this transaction is to proceed.
