Speaker Bio – Mahmoud A. Khaimi, M.D.

Mahmoud A. Khaimi is the founder and president of [Glaucoma Surgeons of Oklahoma](#). A leading glaucoma and premium cataract surgeon, he is recognised worldwide for his authority in canaloplasty. In 2013, he performed the first ab interno canaloplasty procedure and has since shaped modern canal-based surgery.

His work contributed to the clinical development of Nova Eye's iTrack Advance™ device. He received 405 Magazine's Healthcare Innovator of the Year award in 2023 for this work.

From 2007 to 2024, he served as Clinical Professor at the Dean McGee Eye Institute, University of Oklahoma. He held the James P. Luton Endowed Chair, led Glaucoma Services, and directed the Glaucoma Fellowship program. He moved into private practice in 2024 and founded Glaucoma Surgeons of Oklahoma, a centre focused on advanced glaucoma care.

ABOUT NOVA EYE MEDICAL

Nova Eye Medical Limited is a medical technology company that develops, manufactures and sells a portfolio of proprietary ophthalmic treatment technologies and devices. Used by eye surgeons globally, these technologies include iTrack™ Advance, a minimally invasive consumable glaucoma surgical device that restores the eye's natural outflow pathway to lower pressure inside the eye and to eliminate patient reliance on anti-glaucoma medications for mild-moderate glaucoma. The Molteno3® glaucoma drainage device platform is designed to enhance surgical utility and optimize clinical outcomes for long-term IOP control in cases of severe glaucoma. It also offers the benefit of a simplified and faster surgical procedure. With its sales headquarters based in Fremont, California, Nova Eye Medical is supported by a global network of distribution partners. Manufacturing facilities are located in Fremont, California and Dunedin, New Zealand.
