EROAD and Cleanaway announce agreement for comprehensive vehicle monitoring solution in Australia

AUCKLAND, 18 November 2025: EROAD today announced an agreement with Cleanaway Waste Management Ltd. (ASX: CWY) to provide vehicle monitoring, reporting, and compliance solutions to support health and safety initiatives across Cleanaway's fleet of over 3,000 owned heavy vehicles in Australia.

The comprehensive solution consists of multiple connections per standard and dual-sided vehicle including location tracking, dashboard and internal fatigue cameras, seat shakers, rollover alerts, duress buttons, critical event monitoring, and satellite connectivity for remote vehicles.

Installation is currently underway with full implementation expected to be completed in November 2026 and to contribute over A\$5m of ARR with fixed annual escalators. The term of the agreement is five years with an option to extend for an additional three years.

Mark Heine said, "EROAD is incredibly privileged to partner with Australia's leading total waste management, industrial and environmental services company. This partnership underscores both our shared commitment to health and safety and the potential of the Australian market. Securing this large enterprise agreement is the result of our continued investment in new camera technology and workflow to ensure it meets our customers' operational and compliance needs. It also demonstrates our long-term commitment to supporting Australian industry with best-in-class solutions."

Nicholas Dhar, Cleanaway's Head of Fleet Safety and Compliance, said, "At Cleanaway, safety is more than a priority, it's the foundation of everything we do. Our partnership with EROAD reflects our commitment to embracing smart technology that supports safer, more efficient operations. After a thorough evaluation, EROAD stood out for its comfort, flexibility, ongoing support and strong commitment on safety. It's a meaningful step forward in creating safer roads and a safer working environment for our people."

The Company advises that previously released financial guidance remains unchanged.

About EROAD

EROAD (NZX/ASX: ERD) is a hardware-enabled SaaS company delivering safety, compliance, sustainability and efficiency solutions for complex vehicles fleets.

Its connected platform is used by commercial and government operators across New Zealand, Australia and North America to manage vehicles, assets and drivers with greater visibility and control. EROAD supports demanding, highly regulated fleet operations, including those moving food, concrete and aggregates, enabling them to operate smarter, safer and more sustainably.

EROAD's platform is built on a foundation of regulatory expertise, having delivered the world's first GPS-based road user charging system in New Zealand, where it remains the market leader today.
