# FRS Acquires Tenure Around Jaurdi Hill Through Multiple Agreements

---

### Highlights:

- Forrestania Resources Limited has entered into three binding agreements to acquire multiple prospecting and mining licenses near Jaurdi Hill, WA.
- The acquisition expands the Company's Bonnie Vale Project area, 22km north-west of the Ada Ann prospect, strengthening FRS's Coolgardie regional footprint.
- **Performance-Linked, Value-Accretive Deal Structure:**  
Low-cost acquisition with modest upfront payments and additional consideration tied to JORC-compliant Mineral Resource milestones, with a 2% royalty only after 25,000 oz Au produced.
- There are a number of existing toll treatment facilities within economic distance of the mining lease, providing potential future processing options, subject to the definition of a JORC-compliant resource and completion of necessary approvals.
- FRS finalising mining lease application over the Ada Ann prospect.

Forrestania Resources Limited (ASX: FRS) ("FRS" or "the Company") is pleased to announce that it has entered into multiple binding agreements to acquire 100% of the fully paid ordinary shares of Australian Live-Stock Pty Ltd Fenton and Martin Mining Developments Pty Ltd, and Diggers & Dealers Mining Pty Ltd from their respective shareholders, which collectively hold highly prospective gold tenements near Jaurdi Hill in Western Australia's Coolgardie district.

### Forrestania Resources' Chairman David Geraghty commented:

*"In a similar fashion to our consolidation strategy in the Forrestania, Southern Cross and Westonia districts, Forrestania Resources believes there to be substantial strategic benefits in building out a meaningful land position around our existing Bonnie Vale Project in the Coolgardie region. We continue to focus on adding duly approved mining leases to our portfolio."*

The target companies are the holders of, or hold the beneficial interest in, various prospecting licenses, mining licenses and a mining license application. A breakdown of the tenements is given below.

### Background Derry's Own & Pride of Jaurdis' Gold Deposit

The Derry's Own & Pride of Jaurdis Gold deposits occur in the gold-mineralised Jaurdi Hills-Dunnsville greenstone belt, located to the immediate northwest of the Bali Monzogranite and to the immediate southwest of the Doyle Dam Granodiorite. Derry's Own and Pride of Jaurdis' mineralisation continues to exhibit excellent width, consistency shape, and multiple zones of mineralisation.

Forrestania plans to conduct thorough exploration activities within the tenements alongside infill resource drilling to validate the historical exploration data within the known Derry's Own & Pride of Jaurdis' deposits.

### Ada Ann Mining Lease Application

The Company is also finalising its application for a Mining Lease over the Ada Ann prospect, where a maiden Mineral Resource Estimate<sup>1</sup> was announced earlier in the year. Securing a Mining Lease will provide an important step toward advancing the prospect within the broader Bonnie Vale development strategy and supports the Company's continued progress across its consolidated landholding.

## About Forrestania Resources Limited

Forrestania Resources Limited (ASX: FRS) is a rapidly growing gold exploration and development company focused on building a portfolio of high-quality projects across Western Australia's premier mining districts.

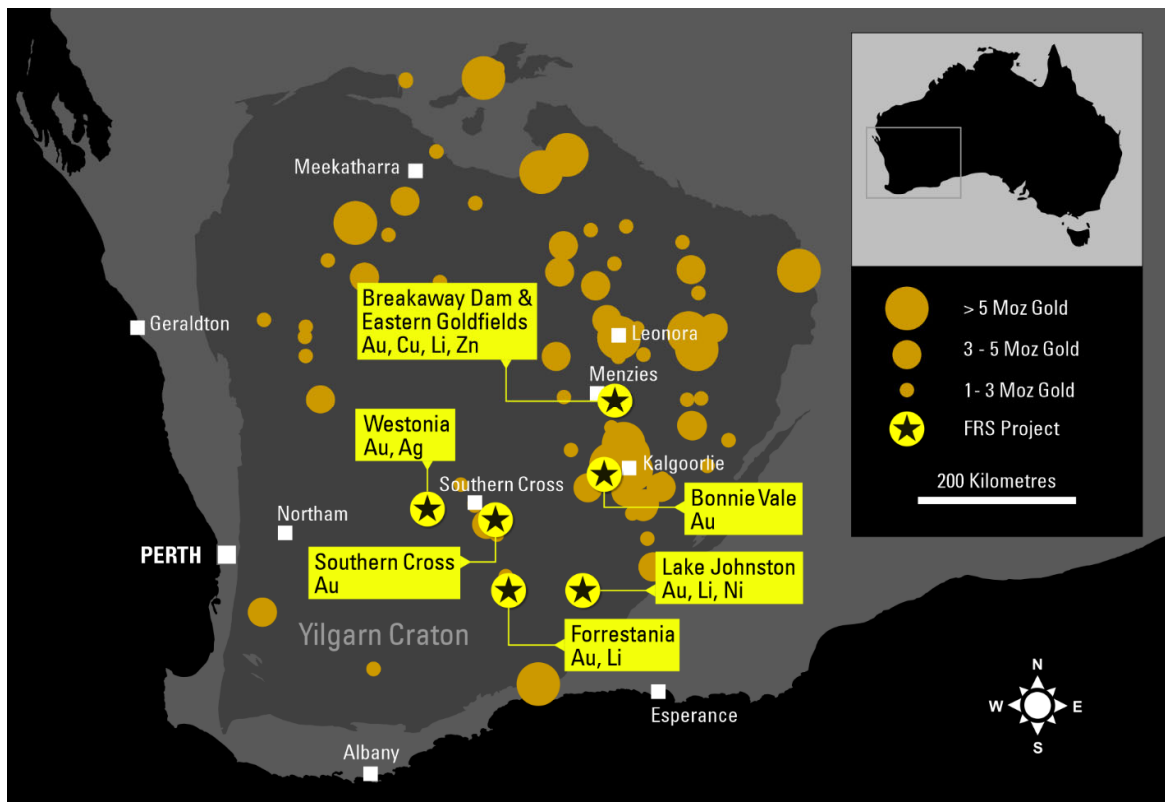

Led by a refreshed and experienced board, Forrestania is strategically expanding its footprint across the Southern Cross, Eastern Goldfields and Forrestania regions through disciplined exploration, selective acquisitions and a commitment to unlocking the broader potential of these highly prospective belts.

In the Southern Cross district, the Company is advancing a strategy to define significant gold resources capable of supporting long-term development opportunities.

The Forrestania Project, from which the Company takes its name, lies within a world-class mineral province adjacent to the historic Bounty gold mine (~1Moz historic production) and in proximity to major mining operations, underscoring the region's exceptional prospectivity.

Further north, Forrestania's projects near Coolgardie and Menzies provide additional exposure to gold and base metals within proven mineralised corridors of the Eastern Goldfields.

Forrestania Resources is dedicated to creating shareholder value through systematic exploration, strong technical execution and a focused approach to growing its gold asset base across Western Australia.
