Letter from the Chairman

Dear Investors,

I am pleased to invite you to participate in CVC Limited's (**CVC**) offer of redeemable, unsecured, non-convertible, unsubordinated notes (**CVC Notes 3**). CVC Notes 3 aim to provide investors with an investment offering regular interest payments with repayment of Face Value at maturity (unless redeemed earlier, or purchased by CVC and cancelled).

CVC is an ASX listed investment company focused on deploying capital into real estate opportunities. It also holds positions in listed and unlisted companies and funds which make up a small proportion of CVC's overall investment portfolio. CVC's investments include but are not limited to:

- (a) direct and indirect property exposure, including loans, preference equity, joint ventures and direct property;
- (b) ASX listed companies and trusts; and
- (c) unlisted companies.

More recently, CVC has focused on deploying capital into high conviction real estate opportunities, while also concurrently seeking to rationalise its non-property investment portfolio to fewer positions to allow appropriate focus on unlocking and delivering significant value from the existing portfolio of direct property assets.

The key terms of CVC Notes 3 include:

- (a) **Face Value** – each CVC Note will have a Face Value of \$100;
- (b) **Interest payment** – quarterly paying, floating rate with a Margin of 4.50% over 3-month BBSW;
- (c) **Maturity** – 11 December 2028 (if not already redeemed);
- (d) **Size** – under this Prospectus, CVC is offering 750,000 CVC Notes 3 with an aggregate Face Value of \$75,000,000 with the ability to raise more or less;
- (e) **Ranking** – (subject to the negative pledge) unsecured and ranking for payment after any secured creditors are paid and alongside other unsecured creditors. CVC Notes 3 rank ahead of CVC Ordinary Shares; and
- (f) **Liquidity** – CVC Notes 3 are expected to be quoted on ASX.

As at 30 June 2025, CVC Group had net assets of approximately \$181.8 million.

This Prospectus contains further details of the Offer, which includes a New Money Offer and a Reinvestment Offer for current holders of CVCHA, the terms of the CVC Notes 3 and a description of the risks associated with an investment in CVC Notes 3 and CVC. CVC does not guarantee the future performance of the CVC Notes 3. I encourage you to read the entire Prospectus carefully and consider the risks which are set out in Section 6 before deciding whether to participate in the Offer. If you are unsure whether CVC Notes 3 are a suitable investment for you, you should consult your stockbroker, accountant or other professional adviser.

On behalf of the CVC Board, I invite you to consider participating in this investment opportunity.

Yours faithfully

	Changes in interest rate	<p>Interest on the CVC Notes 3 is calculated by reference to the 3-month BBSW Rate, which is influenced by a number of factors that may fluctuate over time. As the Interest Rate fluctuates, there is a risk that it may become less attractive compared to the rate of return available on other securities or investments.</p> <p>Furthermore, if there is a Temporary Disruption Trigger or Permanent Discontinuation Trigger with respect to the 3-month BBSW Rate, the 3-month BBSW Rate will be determined, substituted or adjusted without the need for Holder consent.</p>	Section 6.1(d)

	Redemption risk	<p>CVC intends to be able to redeem the CVC Notes 3 using the proceeds from future debt or equity raisings, cash flows from operations (if available) or proceeds from the sale of investments.</p> <p>However, there is a risk that CVC will be unable to procure or raise sufficient cash resources from future debt or equity raisings or sale of investments in order to meet its redemption obligations. In those circumstances, it is possible that CVC will have insufficient cash flows to redeem the CVC Notes 3 at the Maturity Date.</p> <p>None of CVC, the Trustee or any other entity guarantees the redemption of the CVC Notes 3.</p>	Section 6.1(f)
	Early redemption risk	<p>CVC Notes 3 may be redeemed early by CVC in certain circumstances.</p> <p>Where redeemed, CVC Notes 3 will be redeemed at their Face Value of \$100 per CVC Note 3 together with any Interest accrued but unpaid (and, if applicable, the Early Redemption Premium).</p> <p>There is a risk that the relevant redemption amount may be less than the then current market value of the CVC Notes 3 or the timing of such redemption may not accord with a Holder's individual financial circumstances or tax position.</p>	Section 6.1(g)

1.4 Key risks (cont.)

Item	Summary		Further information
Key risks associated with an investment in CVC Notes 3 (cont.)	Item	Detail	
	Early redemption risk (cont.)	Additionally, in the event of an early redemption of CVC Notes 3, Holders may not receive the returns they expected to achieve on CVC Notes 3 (if held until maturity) by investing the proceeds in alternative investment opportunities available at that time.	Section 6.1(g)
	CVC may default on payment	Depending upon its performance and financial position, CVC may default on payment of some or all of the interest on the CVC Notes 3, or repayment of some or all of the outstanding principal amounts of the CVC Notes 3. If CVC does not pay some or all of the interest or outstanding principal amounts on the CVC Notes 3 as and when payable under the Terms, then you may not receive some or all of the money you invested in CVC Notes 3 or interest that is due to be paid to you.	Section 6.1(h)
	No voting rights	There is a risk that investors may be affected by corporate decisions made by CVC. Holders of CVC Notes 3 have no voting or other rights in relation to CVC. In addition, CVC Notes 3 do not confer on Holders any right to subscribe for new securities in CVC or to participate in any new or bonus issues of securities in CVC. Therefore, there is a risk that Holders of CVC Notes 3 will not be able to influence decisions made that may have adverse consequences for them through their inability to exercise voting rights.	Section 6.1(i)
	Modification, waivers and substitution	CVC may in certain circumstances amend the Terms without the consent of Holders. CVC may also amend the Terms if the amendment has been approved by a Holders Resolution or by a Special Resolution, in accordance with the Meeting Provisions. Nonetheless, there is a risk that an amendment or a substitution of the Terms may be made with which Holders may not agree.	Section 6.1(j)
	Enforcement risk	Rights under the CVC Notes 3 and the Note Trust Deed may generally only be enforced by the Trustee and not by the Holders directly. Holders must therefore generally notify their claims to the Trustee and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action within the required timeframe. Holders may, by Holders Resolution or Special Resolution, waive breaches or amend the Note Trust Deed. A Holder that owns a large proportion of the aggregate Face Value of CVC Notes 3 may influence the outcome of any such vote.	Section 6.1(k)
Notes not rated	CVC Notes 3 are unrated. A note that is unrated may experience adverse effects on its market price and liquidity.	Section 6.1(l)	

Item	Summary		Further information
Key risks associated with an investment in CVC Notes 3 (cont.)	Item	Detail	
	Taxation treatment	A general description of the Australian taxation consequences of investing in the CVC Notes 3 is set out in Section 9. The information in Section 9 is provided in general terms and is not intended to provide specific advice in relation to the circumstances of any particular potential investor or Holder. Accordingly, you should seek independent advice in relation to your individual tax position before you choose to apply for or invest in CVC Notes 3.	Sections 6.1(m) and 9
	FATCA withholding and reporting	If CVC or any other person is required to withhold amounts under or in connection with FATCA from any payments made with respect to CVC Notes 3, Holders and beneficial owners of CVC Notes 3, will not be entitled to receive any gross up or additional amounts to compensate them for such withholdings. FATCA is complex and its application to the CVC Notes 3 remains uncertain. Prospective investors are advised to consult their own tax advisers about the application of FATCA to the CVC Notes 3.	Section 6.1(n)
	Inflation Risk	An increase in the inflation rate may erode in real terms the value of the capital invested in CVC Notes 3. It may also negatively impact the profitability of the investments made by CVC, the market value of the shares of those companies, property prices and the real returns generated from debt investments.	Section 6.1(o)
	General investment risk	There is a risk that CVC may not be able to generate returns on its investments at a higher value than the original acquisition cost which could materially reduce CVC's revenue and profitability. CVC also invests excess funds into property investments that are managed by external property developers. There are risks the underlying property investments will not be sufficient to pay either the forecast investment returns or part or all of the original capital invested.	Section 6.2(a)
	Property investment risk	The realisable value of CVC's investments is affected by general and specific market conditions that affect the timing and amount of the income realised as well as regulatory impacts including development consents, development costs increasing, cost and availability of finance, contract terminations and level of foreign investment.	Section 6.2(b)
	Investment market risk	The market value of the investments in which the CVC Group invests can fluctuate as a result of market conditions, variations in the investment portfolio, interest rates and the availability of information through due diligence. The value of the CVC Group's investments changes over short or extended periods of time. Markets tend to move in cycles with different asset classes underperforming at different times over extended periods of time, and there is a risk that these market risks may impact the value of the CVC Group's investments in a manner that is adverse to CVC and the Holders of CVC Notes 3.	Section 6.2(f)

1.4 Key risks (cont.)

Item	Summary		Further information
Key risks associated with an investment in CVC Notes 3 (cont.)	Item	Detail	
	Investment concentration risk	CVC's investment strategy includes making significant investments and undertaking active management roles in property projects. As CVC reduces its holding of legacy, non-property assets, investment concentration risk will increase.	Section 6.2(i)
	Project approval risk	The success of certain property projects is dependent on the ability of CVC or the developer to obtain rezoning and development approvals from government bodies. This process involves obtaining approvals outside of the control of CVC, and there is no guarantee that those approvals or consents will be obtained at all, or on terms which are acceptable to CVC.	Section 6.2(s)
	Development risk	The proceeds generated from a property project is closely tied to the approval and development process. Unanticipated factors can influence the realisable value of a property such as changes in planning and government policies, which could have adverse consequences on the value of some of CVC's investments and property assets.	Section 6.2(t)
	Environmental and climate-related risks	CVC's focus on property investments means like many other industries, it is not immune from risks associated with the environment and climate change. Some of these risks include, but are not limited to, potential exposure to flooding, storm impacts, heatwaves and bushfires, each of which can cause property damage. Other potential risks may include financial impacts associated with climate change regulations and charges, higher insurance costs, higher energy costs, and financing risks.	Section 6.2(v)

3 Details of the Reinvestment Offer

Details of the Reinvestment Offer

3.1 Overview

This Section provides information on CVC's invitation to Eligible CVCHA Holders to reinvest their CVCHA in CVC Notes 3 and the options available to CVCHA Holders.

(a) What are CVCHA?

CVCHA are redeemable, non-convertible, unsubordinated and (subject to the negative pledge) unsecured notes which were issued by CVC in 2023. CVCHA trade on ASX under the code "CVCHA".

(b) What is happening to CVCHA?

CVCHA will be mandatorily redeemed on 10 December 2025 for \$100 per CVCHA plus the CVCHA Early Redemption Premium plus the Final CVCHA Interest Payment.

If you do not participate in the Reinvestment Offer, or are not eligible to participate in the Reinvestment Offer, your outstanding CVCHA will be redeemed as described above.

(c) What is the Reinvestment Offer?

Eligible CVCHA Holders have the opportunity to reinvest their CVCHA in CVC Notes 3.

Under the Reinvestment Offer, Eligible CVCHA Holders may elect to reinvest their CVCHA into CVC Notes 3 by:

- (i) exchanging their CVCHA for CVC Notes 3 on a 1:1 basis; and
- (ii) with respect to each CVCHA exchanged, receive the following in cash:
 - (A) \$2.00 per CVCHA; plus
 - (B) any interest accrued but unpaid on each CVCHA to (but excluding) the CVCHA Reinvestment Date.

Eligible CVCHA Holders will not be required to make an Application Payment to the extent that CVCHA will be reinvested directly in CVC Notes 3. However, if additional CVC Notes 3 are applied for under the New Money Offer, then an Application Payment in respect of the additional CVC Notes 3 applied for will be necessary.

Eligible CVCHA Holders are guaranteed an Allocation of one CVC Note 3 for each CVCHA they reinvest when they apply through the Reinvestment Offer.

In applying for CVC Notes 3 under the Reinvestment Offer, you irrevocably direct CVC through your Broker to:

- (i) on the CVCHA Reinvestment Date, exchange your CVCHA for CVC Notes 3 on a 1:1 basis, and complete a master transfer form transferring your CVCHA back to CVC; and
- (ii) with respect to each CVCHA exchanged, receive the following in cash:
 - (A) \$2.00 per CVCHA; plus
 - (B) any interest accrued but unpaid on each CVCHA to (but excluding) the CVCHA Reinvestment Date.

On receipt of your CVCHA by CVC, the CVCHA will be cancelled.

You will not be entitled to receive payment on your Reinvested CVCHA except in this way, and so will not receive any cash payment in respect of the redemption of those Reinvested CVCHA.

Once you have submitted an Application to reinvest your CVCHA, you will be taken to have agreed to a holding lock being placed on those CVCHA and accordingly will not be able to successfully deal with those CVCHA. However, it is your obligation to ensure that you do not transfer those CVCHA and if you do sell part of your CVCHA holding prior to the CVCHA Reinvestment Date (being 10 December 2025), your Application to reinvest your CVCHA will be adjusted down accordingly.

Eligible CVCHA Holders have a number of other options, in addition to reinvesting CVCHA in CVC Notes 3, which are set out in further detail in Section 3.3.

Section Four

4 How to apply

4 How to apply

4.1 Overview

This Section sets out what you must do if you wish to apply for CVC Notes 3, including:

- (a) who may apply;
- (b) when to apply; and
- (c) how to apply.

4.2 The Offer

The Offer comprises:

- (a) a **Reinvestment Offer** – made to Eligible CVCHA Holders; and
- (b) a **New Money Offer** – made to eligible clients of a Broker. This includes offers made to certain Institutional Investors who were invited by the Lead Manager to bid for CVC Notes 3 under the Bookbuild.

Under the Offer, CVC is offering 750,000 CVC Notes 3 with an aggregate Face Value of \$75,000,000 with the ability to raise more or less.

Under the New Money Offer, the CVC Notes 3 are being offered for \$100.00 per CVC Note 3.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.

As at the date of this Prospectus, no action has been taken to register or qualify CVC Notes 3 or the Offer or to otherwise permit a public offering of CVC Notes 3 outside Australia.

This Prospectus does not constitute an offer of securities in the United States or to any US Persons, or to any person acting for the account or benefit of a US Person. CVC Notes 3 may have been offered in a jurisdiction outside Australia where such offer was made in accordance with the laws of that jurisdiction – see Section 4.13.

For details of how to apply for CVC Notes 3 under the Offer – see Section 4.5. For further details of the Reinvestment Offer – see Section 3.

There is no minimum subscription for the Offer to proceed.

4.3 Use of funds raised under the Offer

Applications received from Eligible CVCHA Holders under the Reinvestment Offer will not result in new cash being received by CVC. The only new cash that CVC receives will be from Applications received from participants in the New Money Offer. It is uncertain how much, if any, cash will be received by CVC from the New Money Offer. All costs associated with the Offer will be funded from CVC's existing cash reserves.

The table below sets out, based on Bookbuild commitments from sophisticated and institutional investors received by the Lead Manager, the size of the New Money Offer and the Reinvestment Offer and the intended application of the funds raised from the Offer:

	Total (\$'000)	Percentage of funds (%)
Funds raised:		
New Money Offer	37,016	49%
Reinvestment Offer ¹	37,984	51%
Utilised as follows:		
Rollover of CVCHA ¹	37,984	51%
Redemption of CVCHA that do not participate in the Reinvestment Offer	8,157	11%
Other general corporate purposes ²	28,859	38%
TOTAL	75,000	100%

¹ This estimate is based on Bookbuild commitments received by the Lead Manager from sophisticated and institutional investors during the Bookbuild process.

² This includes, without limitation, to repay existing debt and/or facilitate other investment activities in accordance with the Investment Guidelines. As at the date of this Prospectus, no decision has been made regarding the extent to which these proceeds may be used to repay existing debt and/or facilitate investment activities. CVC intends to make decisions in respect of the allocation of additional funds that are not required to redeem CVCHA that do not participate in the Reinvestment Offer in a fluid manner depending on the requirements of the business and the investment opportunities available to it at the appropriate time.

Costs of the Offer will be paid from cash reserves of CVC and not from funds raised under the New Money Offer.

In the Directors' opinion, CVC has sufficient working capital, including from cash reserves, to achieve its objectives.

As set out above, it is intended that the deployment of the funds raised from the Offer will be used, in part, to redeem CVCHA (for those that do not participate in the Reinvestment Offer), repay existing debt and/or facilitate other investment activities in accordance with the Investment Guidelines as detailed at Section 5.5.

CVC's current available capital is substantially deployed or committed. Accordingly, CVC is seeking to raise new capital under the Offer to repay existing debt and/or to take advantage of opportunities within its targeted asset classes, to the extent that proceeds are available following the redemption of CVCHA (for those that do not participate in the Reinvestment Offer). Consistent with CVC's Investment Objectives and Investment Guidelines, the majority of investment opportunities are expected to fall under the following two areas:

- (a) property financing activities covering both debt and equity positions, where suitably qualified third party property participants require additional funding at a project or corporate level; and
- (b) principal investment opportunities where CVC identify, structure, purchase and manage direct property opportunities.

CVC anticipates that the proceeds of the Offer will be substantially invested by CVC within six to twelve months of the Closing Date.

The above is a statement of current intentions of CVC as at the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

Actual expenditure may differ significantly from the above estimates due to a change in market conditions, the development of new opportunities and other factors (including risk factors outlined in Section 6).

4.4 Obtaining a Prospectus and Application Form

During the Offer Period, an electronic version of the Prospectus will be available at www.cvc.com.au/investor-information/cvc-limited/corporate-governance. By lodging an Application with the Broker, you declare that you were given access to the electronic Prospectus together with the Application Form. - (a) this Prospectus is available to residents of Australia accessing and downloading, or printing, the electronic Prospectus in Australia; and
- (b) you must access and download the electronic Prospectus in full.

The Corporations Act prohibits any person from passing the Application Form on to another person unless it is attached to, or accompanied by, a complete and unaltered copy of this Prospectus.

Eligible CVCHA Holders are guaranteed an Allocation of one CVC Note 3 for each CVCHA they reinvest when they apply through the Reinvestment Offer. As such, when allocating CVC Notes 3, CVC will give priority to Brokers' broker firm bids for CVC Notes 3 to be allocated to Applicants in the Reinvestment Offer.

Your Broker is responsible for determining your particular allocation from their own Broker Firm Allocation. CVC takes no responsibility for any allocation, scale-back or rejection that is decided by your Broker or for any determination by your Broker as to your eligibility.

Even if you registered your interest during the Bookbuild, your allocation of CVC Notes 3 may be subject to scale back under the New Money Offer. Ultimately your Broker has discretion as to how it allocates its Broker Firm Allocation to its clients. There is a risk that you do not receive a full allocation, or any allocation of CVC Notes 3, either because your Application is scaled or because you are unable to secure an allocation through a Broker (including because you are unable to demonstrate that you meet eligibility requirements, or fail to do so in time to secure an allocation).

4.6 Completing your Application (Cont.)

If you are applying under the New Money Offer and are not allocated any CVC Notes 3 or are allocated less than the number of CVC Notes 3 you applied for, you will receive a refund payment as soon as practicable after the Closing Date. No interest will be payable on Application Monies which are refunded. CVC takes no responsibility for the handling of Application Monies by any Broker.

4.7 Issue and quotation of CVC Notes 3 Capital Notes

CVC has applied for CVC Notes 3 to be quoted on the ASX. It is expected that CVC Notes 3 will be quoted under code "CVCHB".

If ASX does not grant permission for CVC Notes 3 to be quoted by the Issue Date, CVC Notes 3 will not be Issued and all Application Monies will be refunded (without interest) as soon as practicable.

CVC intends to issue 750,000 CVC Notes 3 at an Issue Price of \$100.00 each, with an aggregate Face Value of \$75,000,000, with the ability to raise more or less.

CVC Notes 3 will be issued on the Issue Date. CVC may agree with the Lead Manager to change the Closing Dates for the Offer and the Issue Date or may withdraw the Offer at any time before Allotment.

4.8 Trading and Holding Statements

(a) Commencement of trading of CVC Notes 3 on ASX

It is expected that CVC Notes 3 will begin trading on ASX on 12 December 2025. Trading is expected to commence on a normal settlement basis. Deferred settlement will not occur. It is your responsibility to determine your holding of CVC Notes 3 before trading to avoid the risk of selling CVC Notes 3 you do not own. Holding Statements are expected to be despatched from 11 December 2025. If you wish to confirm the number of CVC Notes 3 you own prior to receiving your Holding Statement, you should contact your Broker.

(b) Holding Statements

CVC will apply for CVC Notes 3 to participate in CHESS and, if accepted, no certificates will be issued. Instead, a Holding Statement will be mailed to Holders. If your holding of CVC Notes 3 changes, you will receive an updated Holding Statement.

4.9 Bookbuild, settlement support and allotment

(a) Bookbuild

The Bookbuild is a process that was conducted by the Lead Manager in consultation with CVC before the Opening Date to determine the Margin and firm Allocations of CVC Notes 3 to Bookbuild participants. In this process, the Bookbuild participants were invited to submit bids for a number of CVC Notes 3 within an indicative Margin range of 4.50% - 4.75%. On the basis of those bids, the Lead Manager and CVC determined the Margin as well as the firm Allocations to Brokers and Institutional Investors. The Margin is 4.50% per annum.

The Bookbuild was conducted in the manner contemplated in the Original Prospectus and this Prospectus and otherwise on the terms and conditions agreed to by CVC and the Lead Manager in the Offer Management Agreement – see Section 11.3.

(b) Settlement support

The Lead Manager agreed with CVC to provide settlement support for the number of CVC Notes 3 allocated to Institutional Investors and Brokers under the Bookbuild. Settlement support means that if any of the Institutional Investors or Brokers fail to pay the aggregate Issue Price to CVC by the Settlement Date, the Lead Manager will be issued with and must pay for those CVC Notes 3.

Under the Offer Management Agreement, as part of this settlement support, the Lead Manager will pay to CVC, or procure payment to CVC, the aggregate proceeds raised from Institutional Investors and Brokers under the Bookbuild (taking into account the application of CVCHA under the Reinvestment Offer) by the Settlement Date.

The Offer Management Agreement may be terminated by the Lead Manager in certain circumstances – see Section 11.3. For details of the fees payable under the Offer Management Agreement – see Section 11.3.

4.10 Provision of information

(a) Provision of bank account details for interest payments

To receive payments of Interest, Holders must notify the Registry of an Australian dollar bank account maintained in Australia with a financial institution to which payments in respect of CVC Notes 3 may be credited. On the relevant payment date, CVC will directly credit the payment amount to the Australian financial institution account specified by the Holder.

If you do not provide these account details, or if any Interest paid to you is unsuccessful for any reason (other than an error made by or on behalf of CVC), then you will be sent a notice advising you that the amount will be held in a bank account as a non-interest bearing deposit until:

- (i) you nominate an Australian dollar bank account maintained in Australia for crediting with the payment (or you nominate a new bank account as the case may be); or
- (ii) the amount is paid by CVC in accordance with applicable legislation relating to unclaimed moneys.

No additional interest is payable in respect of any delay in payment.

(b) Tax File Number and / or Australian Business Number

Investors who have not already provided their Tax File Number (TFN) or Australian Business Number (ABN) to CVC will be given an opportunity to do so after CVC Notes 3 are Allotted.

You do not have to provide your TFN or ABN. However, CVC may be required to withhold Australian tax at the maximum marginal tax rate (currently 47.0% including the Medicare Levy) on the amount of any Interest in respect of your CVC Notes 3, and will not provide you with any additional payments in respect of that withholding, if you do not provide any one of your:

- (i) TFN;
- (ii) TFN exemption details (if applicable); or
- (iii) ABN (if CVC Notes 3 are held in the course of an enterprise carried on by a Holder).

Successful Applicants who do not have an address in Australia registered with the Registry, or who direct the payment of any Interest to an address outside of Australia, may have an amount deducted for Australian withholding tax from any Interest paid, to the extent that the Interest is not fully franked.

(c) FATCA and CRS (Common Reporting Standard) related information

CVC may require Applicants to provide certain information and / or documentation in relation to FATCA or the CRS. You agree to provide us with all information and assistance requested at any time (whether as part of the Application process or otherwise) to ensure that CVC is able to comply with its obligations under FATCA and the CRS and / or its internal policies and procedures in relation to FATCA and the CRS.

We will report such information in respect of certain Applicants and their holding of CVC Notes 3 to the Australian Taxation Office, which will share FATCA information with the United States Internal Revenue Service and CRS information with the taxation authorities of certain other jurisdictions.

(d) Anti-Money Laundering / Counter-Terrorism Financing Act 2006

CVC, the Lead Manager or any Broker may be required under the *Anti-Money Laundering/ Counter-Terrorism Financing Act 2006* (Cth) or any other law to obtain identification information from Applicants. CVC reserves the right to reject any Application from an Applicant who fails to provide identification information upon request.

The Lead Manager and any Brokers may charge additional fees, such as brokerage fees, in relation to the Offer on terms agreed, and consented to, by their clients.

4.11 Lead Manager (Cont.)

The Lead Manager's functions should not be considered an endorsement of the Offer or a recommendation of the suitability of the Offer for any investor. Neither the Lead Manager nor any Brokers guarantee the success or performance of CVC or the return (if any) to be received by the Holders.

Neither the Lead Manager nor any Broker is responsible for, or has authorised, or caused, the issue of this Prospectus.

4.12 Tax implications of investing in CVC

The taxation consequences of any investment in CVC Notes 3 will depend on an Applicant's particular circumstances. It is the Applicant's responsibility to make their own enquiries concerning the taxation consequences of an investment in CVC Notes 3 or CVC. 5 About CVC

5 About CVC

5.1 Overview

CVC is an ASX listed investment company with a focus on deploying capital into real estate opportunities, including engaging in property finance and development, the provision of investment and development capital. CVC also has an exposure to other non-property opportunities, directly and indirectly, through the CVC Group. These non-property exposures comprise a small portion of the CVC investment portfolio and it is intended that these exposures will be rationalised as appropriate opportunities to do so arise.

CVC was incorporated in New South Wales on 11 January 1984 and is the holding company of a number of subsidiary entities. See Section 12.1 for further details.

CVC's investment portfolio includes:

- (a) **Property** - direct and indirect exposure, including loans, preference equity, joint ventures and direct property;
- (b) **Listed equity** - ASX listed companies and trusts; and
- (c) **Private equity** - unlisted companies, positions in investment funds and private equity managers.

Since 1985, the CVC Group has made over 300 investments across numerous industries, at varying stages of development, and participated in various initial public offerings and trade sales. More recently, CVC has deliberately focused investment capital and management attention toward deploying capital into high conviction real estate opportunities, while also concurrently seeking to rationalise its non-property investment portfolio to fewer positions to allow appropriate focus on unlocking and delivering significant value from its existing portfolio of direct property assets.

CVC generates revenue through investment income, dividends and capital growth.

CVC has a demonstrated, proven, and focused business model generating market intermediated returns to shareholders through an investment selection process and an active approach which seeks to positively impact the performance of CVC's investments.

5.2 Investment objectives

CVC's investment objective is to invest with capital preservation as its downside outcome, while also looking to generate attractive returns for shareholders through careful investment selection. CVC's longer term and patient outlook and an active approach seeks to positively influence the performance of investments.

5.3 Business segments

CVC operates through two segments:

- (a) Property Investments; and
- (b) Non-Property Investments.

Property investments represent the primary allocation within the CVC Portfolio (namely, 87.9% on a statutory basis as at 30 June 2025).

Non-property investments historically represented a greater portion of CVC's Portfolio, however the primary focus of CVC since 2019 has been on deploying capital into property related investments.

(a) Property Investment

CVC Group's property portfolio, includes a diverse range of property investments including:

- (i) ordinary equity;
- (ii) preference equity;
- (iii) joint ventures;
- (iv) options or agreements to acquire an interest in direct property subject to planning outcomes; and
- (v) property backed lending.

CVC Group's direct property portfolio provides exposure to properties that deliver either rental income or potential for capital growth through re-positioning. CVC has a long history of successfully acquiring property that can benefit from active management and value add strategies. This can be in the form of gaining planning approvals, changing the tenant profile of an asset, undertaking refurbishment work or developing assets to either hold or sell.

CVC has several large-scale land holdings, including the Donnybrook (Victoria), Liverpool (New South Wales), Marsden Park (New South Wales), Truganina (Victoria), Laverton (Victoria) and Officer South (Victoria) projects, that are currently in the rezoning process or have been recently rezoned and can now be realised as investments or developed.

CVC remains focused on unlocking and delivering significant value uplift from these assets in the short to medium term.

The value of property investments reported was approximately \$299.8 million as at 30 June 2025 on a statutory basis. After adjusting for the fair value assessment of major property related assets within the property portfolio which indicated an estimated value uplift of \$312.3 million, the aggregate value of property investments is estimated at \$612.1 million. While this value uplift is currently unrecognised, the Board anticipates the value to be realised in due course, and will be accounted for as profits at that time.

Figure 2: CVC Group's direct property Portfolio and deal pipeline as of 30 June 2025

These other investments include an approximate \$14.2 million investment in the EFM Harpley Town Centre Property Trust which is classified as 'Held for Sale' in CVC's statutory accounts and eleven other property investments.

⁽⁵⁾ CVC is entitled to 52.5% of income received from leasing of the property and 45% of income received from sale of the property.

5.3 Business segments (cont.)

The current status of each of the above properties within the direct property Portfolio is detailed below:

Figure 3: Update on significant direct property investments

Property	Update
Marsden Park	The Department of Planning Housing and Infrastructure (Department) declared Marsden Park North a state significant rezoning and the Planning Proposal (PP) was nominated as a State Assessed Rezoning Proposal (SARP) on 30 September 2024. The subsequent PP was lodged on 20 December 2024. The PP has now been placed on Public Exhibition by the Department with the exhibition period closing on 30 January 2026. The Department have forecast rezoning finalisation in 2026.
Donnybrook	Rezoning of the land was achieved in January 2022. Revenue from the project has been received via the settlement of all residential zoned land. The balance industrial land holding of 76 hectares has been granted a planning permit for development such that construction of an industrial estate can commence.
Liverpool	In December 2024, the PP was declared a State Assessed Rezoning Pathway having previously entered a Gateway Determination process. The PP seeks the site to be rezoned to a mixed-use development for in excess of 5,000 apartments and other associated uses. The Department of Planning Housing and Infrastructure are currently assessing the application. It is unclear when the rezoning will occur but it is expected to be in 2026.
Woolloongabba	This property was purchased as a core plus investment with Development Approval (DA) in place for mixed use development which allowed for the construction of residential apartments. The property is subject to an existing lease arrangement which provides holding income. A development application for a mixed-use development with greater yield has been submitted for approval to the Brisbane City Council. It is unclear when the development application will be approved but it is expected to be in 2026.
Burleigh Waters	Detailed planning work is currently being undertaken and planning applications will be made for different sections of the site. Road and services infrastructure has been delivered and the land has been subdivided, with part of the land now sold and settled. The balance of the land will require further services infrastructure to be delivered to enable further subdivision and sales. The DA application will seek approval for the land to enable residential, retail and other associated uses on the land. Once achieved, the property will be divested or developed (in parts or as a whole). It is unclear when the development application will be approved but it is expected to be in 2026.
Hopkins Road, Truganina	This property is part of the Derrimut Fields Precinct Structure Plan which has advanced to pre-commencement phase with the Victorian Planning Authority (VPA). The VPA estimate that the precinct structure plan process will commence in early 2026. The land is designated for industrial use as a 'State Significant Industrial Precinct'. It is unclear when the rezoning will occur but it is expected to be in 2028.
Officer South	The properties held by CVC were rezoned to allow for industrial development in February 2025. Work has commenced on the generation of planning permit applications to allow for civil construction to subdivide the land into industrial allotments. It is unclear when the planning permit will be approved but it is expected to be in 2027.
Boundary Road, Truganina	The property is part of the Chartwell East Precinct Structure Plan and is considered a longer term investment. The rezoning process for the precinct has not yet commenced. For the land to be rezoned, the Chartwell East Precinct Structure Plan needs to commence under the VPA's business plan. It is unclear when the rezoning will occur but it is expected to be in 2029.
Laverton North	This is a significant industrial property which is zoned and planning permit approved for outdoor industrial storage use. Since the property was contracted, commercial negotiations have progressed with tenants for the property. Further approvals have also been approved to pave the way for development works to occur on the site following settlement.

Property	Update
South Morang projects	The two sites that CVC have made an investment in are zoned appropriately for, and are capable of being able to deliver data centre projects. One of the properties has achieved a planning permit for that use, whilst the other property currently does not have the relevant planning permit, although it is progressing under the Development Facilitation Program run by the Victorian State Government. It is not certain when the planning permit will be granted but it is currently anticipated to be end of 2025. Further engagement with relevant authorities is ongoing.
Norwell	The Norwell Valley project comprises approximately 2,600ha of employment and residential land located between Brisbane and the Gold Coast. The joint venture project is secured through development management agreements with more than 60 landowners and, at this stage, it is expected to yield more than 40,000 residential dwellings and 250ha of employment land. Gold Coast City Council has formally resolved to progress the evaluation and possible advancement of the project in collaboration with Queensland Government. It is unclear when the rezoning will occur as it is depending on the state government process.

Whilst the above is intended to be a summary of CVC's key property investments, CVC is continuously looking for opportunities to realise existing investments or make new investments, subject to the principles set out in this Section 5. The sale and purchase of properties and investments falls within CVC's core business operations and is expected to continue. It is likely that after the date of this Prospectus, CVC's Portfolio will continue to change and will not necessarily continue to reflect what is set out above or in this Section 5.

Furthermore, whilst CVC has endeavoured to provide an update with respect to timing of certain key milestones with respect to the above key property investments, some of these key milestones are outside of CVC's control, and the above reflects CVC's expectations as at the date of this Prospectus only.

Figure 4: Direct property case study

An example of CVC's expertise and experience in direct property investment is demonstrated via its involvement in a rezoning project in Donnybrook, Victoria which commenced in 2014.

Donnybrook, Victoria

5.3 Business segments (cont.)

(b) Non-Property Investment

CVC's non-property segment is made up of listed investments, unlisted investments and secured lending opportunities that are non-property in nature. Since 2019, this segment has reduced as a proportion of CVC's business as part of a rationalisation of operations.

Figure 5: Non-property investments

TOTAL		\$28.2m

CVC has transitioned to be primarily focused on property investments, as highlighted in Figure 1 above, and anticipates that non-property investments will remain a small proportion of the overall CVC investment portfolio. CVC is actively realising its smaller scale non-property positions while assessing for more substantial investments to contribute further value for shareholders.

None of the non-property investment positions disclosed above include any associations with CVC, related party transaction, or potential conflicts, or payment of any fees that are material in the context of the Offer or CVC as a whole.

5.4 Approach to investing

(a) Property investments

CVC invests in direct property after consideration of both the macroeconomic and microeconomic factors that will influence its equity exposure in real estate, as well as undertaking extensive due diligence to understand downside risk. CVC aims to increase equity exposure when CVC believes the property market is improving and seeks to capture increasing property values.

CVC seeks to invest in direct property opportunities that have embedded upside potential that can be unlocked to enhance shareholder returns. Specifically, CVC Group's expertise is in identifying undervalued assets and adding value to the investment by:

- (i) advancing planning outcomes;
- (ii) development; and
- (iii) tenant commitments to sites,

rather than paying for future potential value upfront.

CVC seeks to harness its extensive network of qualified consultants, advisors and project partners to add value to its portfolio of property investments. The strategy to focus on high conviction, larger investment opportunities allows for increased management efficiencies and seeks to ensure that partners and other parties are highly aligned to continually add value to the investments at all stages of the transaction.

(b) Non-property investments

CVC seeks to apply a value-based approach to investing in listed non-property opportunities. CVC conducts detailed analysis of key metrics such as price to earnings multiples, earnings growth, multiples of free cash flow, dividend history, competitive market positioning and arbitrage opportunities. CVC also actively assists with its listed investments by providing guidance on acquisitive and organic growth and operational and financial restructuring to seek to ensure the success of its listed equity investments.

For unlisted investment opportunities, CVC typically conducts a thorough analysis to identify and negotiate with unlisted opportunities before performing careful due diligence prior to committing capital to potential investments. CVC also remains active in the development phase of its unlisted investments by assisting with business growth or additional business acquisitions to maximise potential investment returns. The manner in which investment exits are made depends, but can occur by way of, without limitation, a trade sale to another investor, initial public offering or on-market sell down.

CVC seeks to conduct a thorough analysis of key fundamentals and competitive positioning for both listed and unlisted investment opportunities. CVC aims to play an active role with the non-property investments it undertakes to add value by assisting with acquisitive and organic growth and operational and financial restructuring to unlock further value and maximise potential investment returns.

CVC is actively focusing on a small number of concentrated investments and expects that this segment of its business will remain a smaller part of business operations than it has in the past within CVC. As at the date of this Prospectus, it is not anticipated that CVC will undertake new non-property investments in the near to medium term.

5.5 Investment guidelines

The Directors are responsible for the construction and management of the Portfolio.

As at the date of this Prospectus, the investment guidelines and parameters (**Investment Guidelines**) that apply to the construction of the CVC Portfolio are as detailed in Figure 6.

Figure 6: Investment Guidelines

Exposure	Guidelines
Target investments	<p>CVC may invest in:</p> <ul style="list-style-type: none"> Property - direct and indirect exposure, including loans, preference equity, joint ventures and direct property; Listed equity - ASX listed companies and trusts; and Private equity - unlisted companies, positions in investment funds and private equity managers. <p>Notwithstanding this broad mandate, the investment strategy is currently more focused on investing predominantly in property investments (see Section 5.3).</p>
Portfolio weighting	The Directors do not target specific Portfolio weights amongst specific asset classes, but are instead focused on the risk versus return opportunities of investments.
Number of investments	CVC does not have a limit on the number of investments it can make at any one time.
Geographic limits	None. While the Directors will primarily invest in ASX-listed securities and Australian properties, no geographic limitations apply to CVC's investment strategy.
Term	There is no set term for investments. However, the Directors seek to value add and realise the inherent value in its investments which may have a multi-year horizon. The Directors will actively manage the investments and seek to exit positions when prudent.
Industry/sector limits	None. There are no limits based on industries or sectors as the Portfolio construction approach is to focus on undervalued investment opportunities which the Directors believes is consistent with the Investment Objectives.
Leverage, derivatives and short selling	<p>Debt leverage, derivatives and short selling are not prohibited. The Directors actively monitor and manage CVC's exposure to borrowings.</p> <p>Details of CVC's gearing ratios and existing debt facilities are set out in Sections 7.5 and 7.6.</p> <p>Whilst use of derivatives is permitted under CVC's guidelines, it currently does not have any such instruments on foot and would only employ derivatives in very rare instances where it was both cost effective and financially compelling, for example, to manage a particular economic exposure.</p>

5.6 Investment selection process

CVC applies a defined investment selection process when considering any opportunity. Figure 7 below outlines the steps within this process which are generally undertaken, although it cannot be guaranteed that each of these steps are followed specifically in respect of every single investment, including Board approvals required to proceed with an investment.

5.7 Liquidity risk management framework

CVC's activities expose it to a variety of financial risk, which include market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

CVC's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the CVC Group.

CVC uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and price risk.

The responsibility for operational risk management resides with the Board of Directors who seeks to manage the exposure of CVC.

5.8 Board and senior management

6 Investment risks

6 Investment risks

This section describes potential risks associated with CVC's business and risks associated with an investment in the CVC Notes 3 and CVC. It does not purport to list every risk that may be associated with an investment in the CVC Notes 3 now or in the future and the occurrence or consequences of some of the risks described in this section are partially or completely outside the control of CVC, its directors and senior management team. The selection of risks has been based on an assessment of a combination of the probability of the risk occurring and impact of the risk if it did occur. This assessment is based on the knowledge of the Directors as at the date of this Prospectus but there is no guarantee or assurance that the importance of different risks will not change or other risks will not emerge.

Prospective investors should satisfy themselves that they have a sufficient understanding of these matters, including the risks described below, and have regard to their own investment objectives, financial circumstances and taxation position, before applying for any CVC Notes 3.

6.1 Risks associated with the CVC Notes 3

(a) The liquidity of the CVC Notes 3 may be low

The market for the CVC Notes 3 may not be liquid.

If liquidity is low, there is a risk that, if you wish to sell your CVC Notes 3 prior to the Maturity Date, you may not be able to do so at a price acceptable to you, or at all, and there is a risk that the market price will become more volatile in general.

Although the CVC Notes 3 are intended to be quoted on ASX, there may be insufficient liquidity for you to be able to sell your CVC Notes 3. CVC does not guarantee that you will be able to sell your CVC Notes 3.

(b) CVC Notes 3 are unsubordinated obligations.

In the event of a Winding Up, if the CVC Notes 3 are still on issue and have not been Redeemed, they will rank for payment:

- (i) ahead of Shares;
- (ii) at least equally with all other present and future unsubordinated and (subject to the negative pledge under clause 6.1 of the Terms) unsecured debt obligations of CVC (subject to laws and principles of equity affecting creditors' rights or obligations preferred by mandatory provisions of applicable law); and
- (iii) behind senior creditors and secured debt obligations of CVC.

There may be a shortfall of funds to pay all amounts ranking senior to and equally with CVC Notes 3 if an event of insolvency of CVC occurs. This would result in Holders not receiving any payment if claims ranking senior to CVC Notes 3 were not satisfied in full or otherwise not receiving a full return of capital or any interest due and unpaid at that time.

(c) Interest payments are not guaranteed

CVC expects to make interest payments using available cash balances and cash flow from CVC Group's investments. CVC's ability to generate cash flows from its operations will depend substantially on the performance of the Group's investments from income generated from its loan portfolio, realisation of assets and the performance of investments. The interest payments on the CVC Notes 3 are not guaranteed by CVC, the Trustee or any other entity.

(d) Changes in interest rate

Interest on the CVC Notes 3 is calculated by reference to the 3-month BBSW Rate, which is influenced by a number of factors that may fluctuate over time. The Interest Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the 3-month BBSW Rate. As the Interest Rate fluctuates, there is a risk that it may become less attractive compared to the rate of return available on other securities.

6.1 Risks associated with the CVC Notes 3 (cont.)**(e) Future issues of debt or other securities by CVC**

Subject to clause 6.1 of the Terms, CVC may:

- (i) issue further CVC Notes 3 having the same terms as the CVC Notes 3 in all respects (or in all respects except for the Issue Date and the first payment of interest for such new notes) so as to form part of the same series;
- (ii) issue other notes, shares or any other form or type of securities, that rank for interest, redemption or payment in a Winding Up of CVC ahead of, equally with, or behind the CVC Notes 3; and
- (iii) incur or guarantee any indebtedness upon such terms as it may think fit,

in its sole discretion, and without the approval of Holders.

Any issue of other securities may affect a Holder's ability to recover on a Winding Up, if the CVC Notes 3 are on issue at the time.

No prediction can be made as to the effect, if any, such future issues of debt or other securities by an entity in the Group may have on the value, market price or liquidity of the CVC Notes 3.

(f) Redemption Risk

CVC expects to be able to redeem the CVC Notes 3 using the proceeds from future debt or equity raisings, cash flows from operations (if available) or proceeds from the sale of investments. There is a risk that CVC would be unable to procure or raise sufficient cash resources from future debt or equity raisings or sale of investments and would, in that case, have insufficient cash flows to redeem the CVC Notes 3 at the Maturity Date.

None of CVC, the Trustee or any other entity have guaranteed the redemption of the CVC Notes 3.

(g) Early Redemption Risk

CVC Notes 3 may be redeemed early by CVC if a Regulatory Event, Minimum Holding Event or Change of Control Event occurs.

Subject to certain notice requirements, compliance with any applicable law and the ASX Listing Rules, CVC may redeem all (but not some) of CVC Notes 3 of a Series in whole before their Maturity Date, but not prior to two years from the Issue Date of the first tranche of the relevant Series.

Where redeemed, CVC Notes 3 will be redeemed at their Face Value of \$100 per CVC Note plus any accrued but unpaid interest to (but excluding) the applicable Redemption Date and applicable Early Redemption Premium (if any).

There is a risk that the relevant redemption amount may be less than the then current market value of the CVC Notes 3 or the timing of such redemption may not accord with a Holder's individual financial circumstances or tax position. Additionally, in the event of an early redemption of CVC Notes 3, Holders may not receive the returns they expected to achieve on CVC Notes 3 (if held until maturity) by investing the proceeds in alternative investment opportunities available at that time.

(h) CVC may default on payment

Depending upon its performance and financial position, CVC may default on payment of some or all of the interest on the CVC Notes 3, or repayment of some or all of the outstanding principal amounts of the CVC Notes 3.

If CVC does not pay some or all of the interest or outstanding principal amounts on the CVC Notes 3 as and when payable under the Terms, then you may not receive some or all of the money you invested in CVC Notes 3 or interest that is due to be paid to you.

(i) No voting rights

There is a risk that investors may be affected by corporate decisions made by CVC. Investors have no voting rights or other rights in relation to the decisions of CVC. In addition, CVC Notes 3 do not confer on investors any right to apply for new securities in CVC or to participate in any bonus issue of securities. Therefore, investors will not be able to influence decisions that may have adverse consequences for them.

(j) Modification, waivers and substitution

CVC may in certain circumstances amend the Terms without the consent of Holders (refer to clause 11.1 of the Terms). CVC may also amend the Terms if the amendment has been approved by a Holder's Resolution or Special Resolution of Holders.

There is a risk that an amendment or a substitution of the Terms will be made, and with which some Holders may not agree.

(k) Enforcement risk

The Terms provide those rights under the CVC Notes 3 and the CVC Notes 3 Trust Deed may generally only be enforced by the Trustee and not by the Holders directly.

Holders must therefore notify their claims to the Trustee and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action within the required timeframe.

Holders may, by Holder's Resolution or Special Resolution, waive breaches or amend the CVC Notes 3 Trust Deed. A Holder owning a larger proportion of the aggregate Face Value of the CVC Notes 3 may influence the outcome of any such vote in a way contrary to the wishes of smaller Holders.

(l) CVC Notes 3 not rated

The CVC Notes 3 are unrated. A CVC Note 3 that is unrated may experience adverse effects on market price and liquidity.

(m) Taxation considerations

A summary of potential Australian taxation implications for CVC Noteholders is included in Section 9. This is a general summary and is not intended to provide specific advice in relation to the circumstances of any particular investor. Accordingly, CVC Noteholders should seek independent advice in relation to their own individual taxation circumstances.

Holders should also be aware that future changes in Australian taxation law including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of an investment in CVC Notes 3, or the holding and disposal of CVC Notes 3.

(n) Foreign Account Tax Compliance Act (FATCA) Withholding and Reporting

In order to comply with FATCA, CVC (or, if CVC Notes 3 are held through another financial institution, such other financial institution) may be required (pursuant to an agreement with the United States or under applicable law including pursuant to the terms of an applicable intergovernmental agreement entered into between the United States and any other jurisdiction) (i) to request certain information from Holders or beneficial owners of CVC Notes 3, which information may be provided to the US Internal Revenue Service (IRS), and (ii) to withhold tax on some portion of payments made after 1 July 2017 with respect to CVC Notes 3 if such information is not provided or if payments are made to certain foreign financial institutions that have not entered into a similar agreement with the United States (and are not otherwise required to comply with the FATCA regime under applicable law including pursuant to the terms of an applicable intergovernmental agreement entered into between the United States and any other jurisdiction).

If CVC or any other person is required to withhold amounts under or in connection with FATCA from any payments made with respect to CVC Notes 3, Holders and beneficial owners of CVC Notes 3 will not be entitled to receive any gross up or additional amounts to compensate them for such withholdings. FATCA is complex and its application to the CVC Notes 3 remains uncertain. Prospective investors are advised to consult their own tax advisers about the application of FATCA to the CVC Notes 3.

This information is based on guidance issued by the IRS or other relevant tax authority as at the date of this Prospectus. Future guidance may affect the application of FATCA to CVC, Holders or beneficial owners of CVC Notes 3.

(o) Inflation risk

An increase in the inflation rate may erode in real terms the value of the capital invested in CVC Notes 3. It may also negatively impact the profitability of the investments made by CVC, the market value of the shares of those companies, property prices and the real returns generated from debt investments.

6.2 Risks associated with CVC's business that may affect CVC Notes 3

Key risks relating to CVC are set out below. It is not, however, possible to describe all the risks to which CVC may become subject and which may impact adversely on CVC's prospects and performance.

(a) General investment risk

CVC's primary operations involve the investment in property. CVC's strategy is to identify investments that can be repositioned via a rezoning, development and/or leasing process where CVC can add value via its strategic input into those processes to generate a return. There is a risk that CVC may not be able to generate returns on its investments at a higher value than the original acquisition cost which could materially reduce CVC's revenue and profitability.

CVC also invests excess funds into property investments such as loans or other property projects that are managed by external property developers. There are risks the underlying property investments or the subsequent realisation or refinance of investments will not be sufficient to pay either the forecast investment returns or part or all of the original capital invested.

(b) Property investment risk

The performance of CVC's property investments is influenced by the realisable value of CVC's property and property-related assets and the security supporting loans. The realisable value is affected by general and specific market conditions that affect the timing and amount of the income realised, regulatory impacts including development consents, development costs increasing, cost and availability of finance, contract terminations and level of foreign investment.

(c) Availability of suitable investment opportunities

The success and profitability of CVC will largely depend upon the availability and suitability of new property investment opportunities. The availability of these opportunities is impacted by market conditions and other factors outside CVC's control as well as retaining and sourcing skilled personnel. Any failure to identify and/or source appropriate transactions and opportunities will adversely affect the performance of CVC.

(d) Failure of internal governance, compliance and risk management systems

The success of the investment strategies and financial performance of CVC is dependent on internal processes, people and systems as well as external events. CVC has adopted policies and procedures to control exposure to various risks, there are inherent limitations in any risk management control system that may result in CVC not being able to successfully implement its investment strategies, affecting the financial performance of CVC.

(e) Key management and investment personnel

Key management and investment personnel are responsible for sourcing opportunities and recommending and managing the investments of CVC. As a result, the performance and profitability of CVC is in part dependent on the expertise and investment recommendations of key staff members and its directors. There is a risk that the financial performance of CVC could be impacted if key staff members or directors resign or retire their employment at CVC and are not promptly replaced by suitably qualified and experienced personnel.

(f) Investment market risk

The market value of the investments in which the Group invests can fluctuate as a result of market conditions caused by factors such as economic conditions, interest rates, regulations, sentiment and geopolitical events as well as environmental, social and technological factors. The value of CVC's investments change in value over short or extended periods of time. Markets tend to move in cycles with different asset classes underperforming at different times over extended periods of time.

The investment portfolio may be adjusted in view of prevailing and forecast market conditions, and there is no limitation on the length of time an investment may be held, directly or indirectly, by CVC prior to being sold. Investment turnover will vary from year to year, which generates varying transactions costs and profit recognition.

Interest rate movements may also adversely affect the value of investments of CVC through their effect on the price of investments and the cost of borrowing.

Investments may be made on limited due diligence conducted only with the records made available during the due diligence process. This has potential to increase the risks associated with an individual investment, including future recovery.

(g) Investment leverage risk

CVC undertakes investments which can be considered to be specialised in nature based on the structure and the type of investments. The investments may also be debt funded, including being subordinated to third party lenders for various investments as well as the provision of equity funding that may be considered risky in nature.

Leverage can also be utilised by the group, including direct borrowings, guarantees and derivatives such as options, to increase the scale of the Portfolio and increase returns, which can magnify the gains and losses achieved in the Portfolio.

(h) Investment liquidity risk

CVC's Portfolio includes investments in assets that are typically subject to low levels of liquidity. If an investment cannot be realised quickly enough (or at all) or at an earlier time than intended then CVC may suffer significant losses.

(i) Investment concentration risk

CVC's investment strategy includes making significant investments and undertaking active management roles in property projects. As CVC reduces its holding of legacy, non-property assets, investment concentration risk continues to increase. This includes the provision of senior and subordinated loans, acquisition of direct property holdings and other transactions in its investment activities. CVC's Portfolio may consist of a small number of investments that may subject CVC to investment concentration risk. The lower the number of investments the higher the concentration and, in turn, the higher the potential volatility. The strategy of CVC is to actively manage investments to seek to reduce the risk of a decrease in value of an individual investment that could have an impact on the Portfolio as a whole.

(j) Counterparty risk

Borrowers of CVC's funds may experience financial difficulty repaying loans and breach lending covenants. The need to enforce security and undertake recovery action by selling assets at an earlier time than originally forecast to enable repayment of loan facilities may occur at a price lower than the optimal sale price. Deterioration in economic conditions, inadequate provisioning or a significant breakdown in credit disciplines could diminish available capital and could adversely affect CVC's financial performance, liquidity, capital resources, financial condition and investment prospects.

(k) Reputational risk

There is a risk that CVC's reputation could be impaired by factors including poor performance, potential conflicts of interest, pricing policies, failing to comply with legal and regulatory requirements, ethical issues, litigation, privacy, improper conduct of companies in which CVC invests, security breaches, inappropriate executive remuneration, risk management failures, contagion from reputational concerns of other asset managers, improper conduct, carelessness and deliberate acts or otherwise, of current or former directors, officers, employees, contractors or Shareholders. The ability to undertake new investments, secure future funding, incur loss, financial penalties, restriction on freedom to operate, may be subject to legal and regulatory action, and CVC's future prospects could be adversely affected by reputational damage.

(l) Cyber-security risk

CVC relies on its information technology systems and has a number of mechanisms and privacy protections in place to prevent potential data security breaches. However, there is no guarantee that the measures taken by CVC will be sufficient to detect or prevent an exposure to damage or interruption from system failures, computer viruses, cyber attacks, power or telecommunication provider failure, natural disasters, terrorist acts, war or human error. Any interruptions to these operations could impact CVC's ability to operate and could result in business interruption, damaged reputation and weakening of competitive position.

Through the ordinary course of its operations, CVC collects an array of confidential information. Advancements in computing capabilities may lead to a compromise or breach of the technology platforms used by CVC to protect its confidential information. Third parties may attempt to penetrate CVC's network and access commercially sensitive information. Any successful data breach could result in loss of information integrity, breaches of CVC's obligations under applicable privacy laws or contracts and website and system outages, each of which may potentially have an adverse impact on CVC's reputation as well as CVC's level of development and acquisition opportunities, revenue and profitability.

6.2 Risks associated with CVC's business that may affect CVC Notes 3 (cont.)

(m) Regulatory risk

CVC is subject to extensive laws and regulations, with the relevant regulatory authorities including APRA, ASIC, ACCC, AUSTRAC, ATO and ASX. If CVC fails to comply with applicable laws and regulations and faces regulatory action as a consequence it may be subject to fines, penalties and restrictions on its ability to do business.

(n) Accounting standards

The existing accounting standards require the recognition of profits and losses from the revaluation of certain investments in the statement of financial performance before the investments have been realised. Conversely increases in the value of development properties that are classified as inventories are not adjusted in the financial report until a sale of the properties is realised. The impact of these standards is an increase in the volatility of reported earnings across individual accounting periods. Further, changes to the existing accounting standards may affect the reported earnings and financial position of CVC in future financial periods.

(o) Litigation risk

Due to the nature of CVC's business, there is a risk it may be involved in litigation, arbitration or regulatory proceedings. Such matters are subject to many uncertainties, and the outcome of individual matters cannot be predicted with certainty. If CVC is ordered to pay money (for example, damages, fines, penalties or legal costs), has an order made against its assets, is ordered to carry out actions which adversely affect its business operations or reputation or is otherwise subject to adverse outcomes of litigation, arbitration and regulatory proceedings, CVC's profitability may be adversely affected. CVC's reputation may also be damaged.

(p) Fraud risk

CVC could be adversely affected if an employee, contractor or external service provider does not act in accordance with regulations or CVC's policies and procedures, engages in inappropriate or fraudulent conduct, or unintentionally fails to meet a professional standard. As a result, CVC could incur losses, financial penalties and reputational damage, and could be subject to legal or regulatory action.

(q) Non-recourse debt

In the ordinary course of business, CVC may incur non-recourse debt. Should an instance occur where the asset subject to the debt does not cover the financial obligation, the Board and Management may decide to repay any deficiency in order to avoid any reputation, financial or other risk to the financial, operating or business performance of CVC and its Subsidiaries. The repayment of this debt could negatively impact CVC's financial position.

(r) Provision of guarantees

In the ordinary course of business, CVC regularly provides guarantees for the settlement or completion of the development and delivery of investments. There is a risk that if the counterparty to which a guarantee has been provided does not perform as expected there is a risk that CVC might be called upon to make good where CVC's entitlement may be less than the value of the underlying investment. Should an instance occur where the asset subject to the debt does not cover the financial commitment this could negatively impact CVC's financial position.

(s) Project approval risk

The success of certain property projects is dependent on the ability of CVC or the developer to obtain rezoning and development approvals from government bodies. This process involves obtaining approvals outside of the control of CVC. There is a risk that approvals will not be able to be achieved as forecast, or at all, or may be achieved on conditions which are not favourable to CVC. Should this occur, the value of the project may fall in value compared to original expectations, and there is a risk that costs incurred may not be recoverable.

(t) Development risk

The proceeds generated from a property project is closely tied to the approval and development process. Should the future market value be lower than expected then the return will be negatively impacted. Unanticipated factors can influence the realisable value of a property. These include:

- (i) changes in the conditions of planning and a consequence of changes to government policies;
- (ii) development cost increases including, but not limited to, construction, consultants, imposition of taxes and increases to state and local government charges;
- (iii) the presence of previously unidentified threatened flora and fauna species, which may influence the amount of developable land on major projects;
- (iv) the impact of the delivery of infrastructure to the precinct, including water, power, sewerage and roads;
- (v) the activities of lobby groups;
- (vi) general cost increases;
- (vii) archaeological or ethnographic claims, including native title claims; and
- (viii) land resumptions for roads and major infrastructure, which cannot be adequately offset by the amount of compensation eventually paid, if any.

The projected duration of a project may exceed forecasts. This may have a negative impact on expected timing of milestones being reached and returns being realised.

(u) Information available to CVC Noteholders if CVC does not continue to be listed on ASX

There is no guarantee that CVC will continue to be listed on ASX at all times during the life of the CVC Notes 3. If CVC ceases to be listed on ASX, it will cease to be subject to the continuous disclosure obligations for listed entities under the Corporations Act and the ASX Listing Rules, which will result in a decrease in the level of publicly available information available to CVC Noteholders in relation to CVC, its business and operations.

(v) Environmental and climate-related risks

CVC's focus on property investments means like many other industries, it is not immune from risks associated with the environment and climate change. Some of these risks include, but are not limited to, potential exposure to flooding, storm impacts, heatwaves and bushfires, each of which can cause property damage. Other potential risks may include financial impacts associated with climate change regulations and charges, higher insurance costs, higher energy costs, and financing risks.

(b) Notes on the Pro Forma Historical Consolidated Statement of Financial Position

The Pro Forma Historical Consolidated Statement of Financial Position is based on the audited statutory historical consolidated statement of financial position of CVC as at 30 June 2025 adjusted to reflect the impact of significant transactions occurring since that date and the impact of the CVC Notes 3 issue as noted below.

The Pro Forma Historical Consolidated Statement of Financial Position is presented based on an assumed offer size for the CVC Notes 3 of \$75,000,000 pursuant to the Offer, presented net of the assumed associated costs of the offer.

Set out below are some specific transactions and events that have occurred since 30 June 2025 or are contemplated in this Prospectus in connection with the Offer. These items have been presented as if they had occurred on or before 30 June 2025:

- (1) Cash Pro forma reconciliation: The table below details the reconciliation of the pro forma cash balance of CVC as at 30 June 2025, reflecting the impact of the pro forma adjustments on the actual cash at bank.

In thousands of AUD	Pro Forma 30 Jun 2025 \$'000
Pro Forma Cash Reconciliation	
Cash balance as at 30 June 2025	13,036
Impact of Significant Transactions (2)	22,383
Gross proceeds from the offer	28,859
Gross expenses of the offer	(3,339)
Payment of Early Redemption Premium	(933)
Pro forma cash balance	60,006

- (2) The significant transactions reflect the refinance of two secured loans subsequent to 30 June 2025. The refinance results in a drawdown and release of a cash increase of \$22.4 million, an increase in \$8.7 million in prepaid interest and an additional \$31.0 million in borrowing liabilities.
- (3) The impact of the Notes Offer was based on the Bookbuild commitments received from sophisticated and institutional investors which assumes approximately \$38.0 million CVCHA Notes will roll into CVC Notes 3 under the Reinvestment Offer and approximately \$37.0 million will be raised from the New Money Offer. Under this scenario, following the transaction, there will be no remaining CVCHA on issue and the fair value of the CVC Notes 3 on issue, net of the assumed costs associated with the offer, would be \$71.6 million.
- (4) The tax impacts of the Offer and associated costs have been reflected in the pro forma adjustments.
- (5) The adjustment to the value of Notes presented as a component of the Borrowings reflects the amortised value of the CVCHA current liability at 30 June 2025. The amortised value has been debited from current borrowing liability to reflect the impact of the roll over into CVC Notes 3 presented within the non-current borrowing liability.
- (6) A non-current liability of \$71.6 million has been recorded to reflect the fair value of the assumed \$75.0 million CVC Notes 3 issued, in line with the Bookbuild commitments received, net of the assumed associated costs.

Other than those matters disclosed in the Prospectus, no significant transactions have occurred between 30 June 2025 and the date of this Prospectus, which the Directors consider require disclosure.

7.5 Summary Financial Information and Metrics

This section below contains some general observations in relation to CVC's operating and financial performance and financial position during the period of the historic financial information. This includes analysis of some key financial ratios. These matters may impact on the future operating and financial performance of CVC.

The general matters noted below are summary only and do not represent all events and factors that affected CVC's historical operating and financial performance, nor everything that may affect CVC's financial performance and financial position in future periods.

The information in this section should be read in conjunction with the risk factors set out in Section 6 and other information set out in this Prospectus.

(a) Property portfolio fair value

The below table sets out an implied pro forma property portfolio fair value of CVC as at 30 June 2025, and is provided for illustrative purposes, to reflect the pro forma net asset value of CVC at that date, if significant assets within the Property portfolio were recognised at fair value. Major assets held by CVC within the property portfolio are recognised as either Inventory or Other assets within the historical statutory financial information. These assets are recorded at the lower of historical cost or net realisable value in accordance with Australian Accounting Standard requirements. These assets included projects in Marsden Park North, Donnybrook, Liverpool, Burleigh Waters, Hopkins Road Truganina, Officer South, Boundary Road Truganina, Laverton North and South Morang. The statutory carrying values of these projects are disclosed in Figure 2 of Section 5.3 of this Prospectus.

CVC has determined the fair value of the properties is significantly higher than their carrying value as at 30 June 2025. The fair value of the properties is supported by independent valuation reports and qualified property agents' assessments which have been assessed based on the current land use entitlements (zoning) for each site and utilising either a direct comparison approach method or comparable transactions method. This involves comparing the properties to sales of similar properties within the surrounding locality and analysing these on a rate per square metre. These rates have been adjusted for specific factors, such as demolition and remediation allowances, as applicable, before being applied to the subject properties.

Allowing for the impact of the estimated net aggregate fair value for these specific property assets, results in an increase to the value of CVC's net assets of \$244.7 million compared to the Historical Consolidated Statement of Financial Position of CVC as at 30 June 2025.

The assessed impact to the Historical Consolidated Statement of Financial Position as at 30 June 2025, if the property assets were to be recorded at their assessed fair value has been illustrated below:

In thousands of AUD	30 Jun 2025 (Statutory) ⁽¹⁾ \$'000	Property Uplift ⁽²⁾ \$'000	30 Jun 2025 (Adjusted Non-Statutory) \$'000
NET ASSETS			
Cash	13,036	-	13,036
Property ⁽²⁾	299,823	312,305	612,128
Non-Property	28,177	-	28,177
Other Assets and Liabilities	(159,260)	(67,647)	(226,907)
NET ASSETS/EQUITY	181,776	244,658	426,434

Notes on the property portfolio fair value presentation:

⁽¹⁾ The presentation and allocation of the Property assets and Non-Property assets of CVC within the statutory Statement of Financial Position, in the above table, is consistent with the segment reporting information disclosed in the audited Financial Report for the year ended 30 June 2025.

⁽²⁾ The major assets subject to the Property uplift are recognised as either inventories or other assets (as a component of Investment Properties and Equity Investments) within the historical statutory financial information. In accordance with the application of Australian Accounting Standards, these assets are recorded at the lower of cost and net realisable value within the historical statutory Statement of Financial Position. Refer to CVC's audited financial report for the year ended 30 June 2025 for the detailed accounting policies adopted. The fair value of the properties is supported by independent valuation reports and qualified property agents' assessments which have been assessed based on the current land use entitlements (zoning) for each site and utilising either a direct comparison approach method or comparable transactions method. This involves comparing the properties to sales of similar properties within the surrounding locality and analysing these on a rate per square metre. These rates have been adjusted for specific factors, such as demolition and remediation allowances, as applicable, before being applied to the subject properties.

⁽³⁾ The property uplift detailed in item 2 above, is not prospective financial information as it has been calculated at the pro-forma balance date of 30 June 2025 in accordance with the principles of the Australian Accounting Standards applicable to fair value accounting. The table above is provided to illustrate the fair value accounting impact only, as such, does not reconcile to the Pro Forma Historical Consolidated Statement of Financial Position disclosed in Section 7.4(a). The fair value of the properties is supported by independent valuation reports and qualified property agents' assessments which have been assessed based on the current land use entitlements (zoning) for each site and utilising either a direct comparison approach method or comparable transactions method. This involves comparing the properties to sales of similar properties within the surrounding locality and analysing these on a rate per square metre. These rates have been adjusted for specific factors, such as demolition and remediation allowances, as applicable, before being applied to the subject properties.

⁽⁴⁾ Other Assets and Liabilities include trade receivables and payables, deferred tax assets and liabilities, existing CVCHA and a loan from a shareholder of CVC.

Adopting these assessed values would represent a post-tax increase in CVC shareholder value of \$175.0 million, representing \$1.50 per share. As a result, total shareholder equity per share would increase from \$1.49 to \$2.99 as at 30 June 2025.

(b) Financial ratios

To assist potential investors to understand the financial position and performance of CVC, the following disclosure regarding certain financial ratios has been included.

The ratios included below have been calculated based on:

- (i) the audited Historical Consolidated Statement of Financial Position as 30 June 2025;
- (ii) the audited Historical Consolidated Statement of Financial Performance for the year ended 30 June 2025; and
- (iii) the unaudited Pro Forma Historical Consolidated Statement of Financial Position as at 30 June 2025 incorporating significant transaction adjustments and the impact of the Offer and expenditure of funds associated with the Offer.

Ratios have been provided for the purposes of this Prospectus only, based on the assumptions outlined, and are not specified in the financial statements reported by CVC.

This information is provided for illustrative purposes only and is not represented as being indicative of the future performance of CVC.

Gearing Ratio with 'as-is' Market Value**	27.29%	29.08%	32.08%	36.86%

Note:

*Gearing Ratio has been calculated according to the Terms. Refer Section 7.5(c).

**Gearing Ratio with 'as-is' Market Value has also been calculated according to the Terms, with the exception of the inclusion of the non-statutory net asset value at 30 June 2025 disclosed in Section 7.5(a) which includes the implied impact of certain property valuation uplifts. Refer Section 7.5(d).

(c) Gearing ratio

The Gearing Ratio indicates the extent to which the assets of CVC are funded by debt. Generally, a higher ratio indicates greater use of borrowings.

CVC's gearing ratio has been calculated using the following formula and information derived from its statutory financial statements for the year ended 30 June 2025 and unaudited Pro Forma Historic Financial Information:

$$\text{Gearing ratio} = \frac{\text{Total liabilities} - \text{Limited Recourse Debt}}{(\text{Total liabilities} + \text{Total equity}) - \text{Limited Recourse Debt}}$$

Gearing Ratios disclosed have been calculated according to the CVC Notes 3 terms.

7.5 Summary Financial Information and Metrics (cont.)

(d) Gearing ratio with property uplift

The gearing ratio with property uplift indicates the extent to which the assets of CVC are funded by debt, calculated based on the non-statutory financial position of CVC at 30 June 2025. Generally, a higher ratio indicates greater use of borrowings.

CVC's gearing ratio with property uplift has been calculated using the following formula and information derived from its non-statutory financial position which includes the impact of property valuation uplift as at 30 June 2025 disclosed in Section 7.5(a):

$$\text{Gearing ratio} = \frac{\text{Total liabilities} - \text{Limited Recourse Debt}}{(\text{Total liabilities} + \text{Total equity}) - \text{Limited Recourse Debt}}$$

Gearing Ratios disclosed have been calculated according to the CVC Notes 3 terms.

(e) Assets, liabilities and equity

CVC's Historical Consolidated Statement of Financial Position as at 30 June 2025 indicates CVC had total assets of \$353.7 million, total liabilities of \$171.9 million and total equity of \$181.8 million. The market value of CVC's equity at 30 June 2025 (market capitalisation) was \$249.6 million. CVC's market capitalisation as at 1 October 2025 was approximately \$251.9 million.

(f) Loans and debt

As at the date of this Prospectus, CVC is not in default on current loan covenants or debt obligations.

7.6 Existing Debt Facilities

As of 30 June 2025, CVC had \$164.6 million of outstanding interest bearing loans and borrowings, including \$75.0 million of secured loans, \$45.6 million of loan notes (being CVCHA) and approximately \$44.0 million of unsecured loans. Subsequent to the year end, two secured loans have been refinanced, which had the effect that CVC's outstanding secured loan amount increased to \$109.2 million and unsecured loans reduced to \$41.0 million.

CVC's current outstanding interest bearing loans and borrowings are as follows:

- (a) a loan facility of \$45.0 million from a major bank to the Marsden Park North project which is secured over Lot 11 Richards Road, Marsden Park North, New South Wales. CVC hold an approximate 66% interest in this project, and also provide a guarantee on this loan facility;
- (b) a loan facility from a major bank of \$43.0 million to the Burleigh Waters project which is secured over Lake Orr Development Precinct, Corner of Lake Orr Drive and Southport-Burleigh Road, Varsity Lakes Queensland. CVC hold an approximate 67% interest in this project;
- (c) a loan facility of \$15.2 million from a major bank to the Woolloongabba project which is secured over 79 Logan Road, Woolloongabba Queensland. CVC holds an approximate 53% interest in this project;
- (d) a loan facility of \$6.0 million from a shareholder of CVC to CVC, which is secured over 4 million Cyclopharm Limited shares which are held by CVC;
- (e) loan notes of \$45.6 million from various holders of the loan notes to CVC (being CVCHA);
- (f) an unsecured loan from Winten (No. 20) Pty Limited to a wholly-owned subsidiary of CVC of a net \$9.6 million;
- (g) an unsecured loan from Donnybrook JV Pty Limited of a net \$26.0 million to a wholly-owned subsidiary of CVC; and
- (h) an unsecured loan from Daruka Pty Ltd of \$5.4 million to the Burleigh Waters project, in which CVC holds an approximate 67% interest.

As at the date of this Prospectus, there has been no material change to the above facilities.

7.7 Commitments and Contingencies

In addition to the amounts disclosed in Section 7.6 above, CVC's audited financial statements for the year ended 30 June 2025 disclose that CVC Group had provided \$11.4 million in guarantees as security for a number of transactions in the normal course of business. Since that date CVC has increased the guarantee amount by \$2.5 million, as such at the date of this Prospectus, CVC Group has provided financial guarantees in the order of \$13.9 million.

Various CVC subsidiaries entities are parties to a number of option agreements and contracts for the potential acquisition of land. One of the option agreements has an exercise period which commenced in June 2025, an agreed settlement date of March 2027 and a purchase price of \$165.0 million. If the option is exercised by the vendor or the subsidiary, CVC would have an obligation to complete the land acquisition should the subsidiary fail to do so. The current market value of the land is in excess of the purchase price. As at the date of this Prospectus, CVC had paid \$38.0 million in option fees, leaving \$127.0 million owing if the option is exercised. CVC is not obligated to provide any guarantee for other potential acquisitions of land, including potential acquisitions of land which are otherwise subject to option agreements or contracts.

No actual liability has been recorded in the statement of financial position in relation to these guarantees, including the outstanding \$127 million of outstanding option fees described above, as CVC has not been notified, nor is it aware of any actual obligation to settle any amounts under the guarantees.

Other than disclosed above, subsequent to the year end, CVC increased the amount available to be drawn by borrowers under loan facility agreements by a net amount of \$4.8 million, of which approximately \$2.7 million has been drawn.

As such at the date of this Prospectus CVC has \$2.3 million available to be drawn by borrowers under loan facility agreements.

7.8 Dividends

The payment of a dividend by CVC is at the discretion of the Directors and will depend on the availability of distributable earnings and operating results and financial condition of CVC, future capital requirements and general business and other factors considered relevant by the Directors. As the operations of CVC are transactional in nature, it is not possible to reliably forecast the quantum of dividends to be paid in future periods.

The CVC Notes 3 do not carry a right to receive dividends paid by CVC.

HLB Mann Judd Corporate (NSW) Pty Ltd is a member of HLB International, the global advisory and accounting network.

The historical and pro forma historical financial information is presented in the Prospectus at Sections 7.3 and 7.4 in an abbreviated form, insofar as it does not include all of the presentation and disclosures required by Australian Accounting Standards and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act 2001.

Our limited assurance engagement has not been carried out in accordance with auditing or other standards and practices generally accepted outside of Australia and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices.

Pro Forma Historical Financial Information

You have requested us to perform limited assurance procedures in relation to the pro forma historical financial information of CVC (the responsible party) included in the Prospectus.

The pro forma historical financial information has been derived from the Historical Financial Information of CVC's statement of financial position as at 30 June 2025, adjusting for the impact of the Offer and other significant transactions and events ("Pro Forma Adjustments"), and related notes as set out in Section 7.4(b) of the Prospectus (collectively the "Pro Forma Historical Financial Information").

The stated basis of preparation is the recognition and measurement principles contained in Australian Accounting Standards applied to the historical financial information and the event(s) or transaction(s) to which the pro forma adjustments relate, as described in Sections 7.1, 7.2 and 7.5(a) of the Prospectus. Due to its nature, the Pro Forma Historical Financial Information does not represent the Company's actual or prospective financial position.

Directors' Responsibilities

The directors of CVC are responsible for:

- The preparation of the Historical Financial Information and Pro Forma Historical Financial Information, including the selection and determination of the pro forma transactions and/or adjustments made to the Historical Financial Information and included in the Pro Forma Historical Information; and
- The information contained in the Prospectus.

The directors' responsibility includes establishing and maintaining such internal controls as the directors determine are necessary to enable the preparation of the Historical Financial Information and the Pro Forma Historical Financial Information that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a limited assurance conclusion on the Historical Financial Information and the Pro Forma Historical Financial Information based on the procedures performed and the evidence we have obtained. We have conducted our engagement in accordance with the Standard on Assurance Engagement ASAE 3450 *Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information*.

Our limited assurance procedures consisted of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain reasonable assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Our engagement did not involve updating or re-issuing any previously issued audit or review report on any financial information used as a source of the financial information.

Conclusions

Historical Financial Information

Based on our limited assurance engagement, which is not an audit, nothing has come to our attention that causes us to believe that the Historical Financial Information, as described in Section 7.3 of the Prospectus, and comprising:

- The historical consolidated statement of financial position as at 30 June 2023, 30 June 2024, and 30 June 2025;
- The historical consolidated statement of financial performance for the years ended 30 June 2023, 30 June 2024 and 30 June 2025; and
- The historical consolidated statement of cash flows for the years ended 30 June 2023, 30 June 2024, and 30 June 2025.

are not presented fairly, in all material respects, in accordance with the stated basis of preparation, as described in Section 7.2 of the Prospectus.

Pro Forma Historical Financial Information

Based on our limited assurance engagement, which is not an audit, nothing has come to our attention that causes us to believe that the Pro Forma Historical Financial Information based on CVC's statement of financial position as at 30 June 2025, as adjusted for the impact of the Offer and other significant transactions and events, is not presented fairly in all material respects, in accordance with the stated basis of preparation as described in Section 7.4(b) of the Prospectus.

Independence

We do not have any interest in the outcome of the proposed Offer other than in connection with the preparation of this Report and participation in due diligence procedures for which normal professional fees will be received.

General Advice Warning

It is not intended to take the place of professional advice and investors should not make specific investment decisions in reliance on the information contained in this report. Before acting or relying on any information, an investor should consider whether it is appropriate for their circumstances having regard to their objectives, financial situation or needs.

Restriction on Use

Without modifying our conclusions, we draw attention to the Prospectus, which describes the purpose of the financial information, being for inclusion in the Prospectus. As a result, the financial information may not be suitable for use for another purpose. We disclaim any assumption of responsibility for any reliance on this report, or on the financial information to which it relates, for any purpose other than that for which it was prepared.

We have consented to the inclusion of this Investigating Accountant's Report in the Prospectus in the form and context in which it is so included, but has not authorised the issue of the Prospectus. Accordingly, we make no representation regarding, and takes no responsibility for, any other statements, or material in, or omissions from, the Prospectus.

Australian taxation summary

9

Australian taxation summary

The following is a general summary of certain Australian tax consequences of acquiring, holding and disposing of the CVC Notes 3.

This summary applies to Holders that are residents of Australia and certain entities that are not residents of Australia.

This summary is not exhaustive and, in particular, does not deal with Holders who acquire or hold their CVC Notes 3 outside their country of tax residence (for example through a permanent establishment) or Holders who hold the CVC Notes 3 on behalf of other persons. In addition, this summary does not deal with the position of certain classes of Holders including, without limitation, dealers in securities, custodians or Holders who otherwise hold CVC Notes 3 as assets used in carrying on a business of securities trading, banking or investment.

The actual taxation consequences of investing in the CVC Notes 3 will vary depending on the particular circumstances of each Holder. Therefore, prospective Holders should obtain independent professional advice relating to their own specific circumstances and they should not rely on the summary below.

This summary is not intended to be, nor should it be construed as being, investment, legal or tax advice to any particular Holder. This summary reflects the Australian tax law enacted and in force as at the date of this prospectus, including the Income Tax Assessment Acts of 1936 and 1997 of Australia (together, the **Australian Tax Act**) and the Tax Administration Act 1953 of Australia (**TAA**), and any relevant rulings, judicial decisions or administrative practices, which are subject to change, possibly with retrospective effect. No ruling has been sought from the Australian Taxation Office to confirm the views below.

9.1 Characterisation of CVC Notes 3

The Australian Tax Act characterises securities as either “debt interests” (for all entities) or “equity interests” (for companies), including for the purposes of interest withholding tax (**IWT**) imposed under Division 11A of Part III of the Australian Tax Act. For Australian IWT purposes, “interest” is defined to include amounts in the nature of, or in substitution for, interest and certain other amounts.

CVC intends that the CVC Notes 3 will be characterised as “debt interests” for the purposes of the tests contained in Division 974 and that the returns paid on the CVC Notes 3 be “interest” for the purpose of section 128F of the Australian Tax Act.

9.2 Interest payments

(a) Resident Holders

Australian residents are generally required to include any Interest in their assessable income each year. Whether these amounts should be recognised as assessable income on a cash receipts or accruals basis (including whether they are subject to Division 230 – see the summary below) will depend on the individual circumstances of the Holder. Australian residents holding their CVC Notes 3 and receiving payments of Interest in Australia should not be subject to IWT.

(b) Non-resident Holders

Non-resident Holders will generally be subject to IWT at the rate of 10 per cent on any Interest they receive. IWT is a final tax and non-resident Holders should not be subject to any other Australian tax such as income tax.

CVC intends to issue the CVC Notes 3 in a manner which will satisfy the requirements of section 128F of the Australian Tax Act. On the basis that CVC will satisfy the requirements of section 128F, payments of Interest to non-resident Holders (that are not “Offshore Associates” of CVC) should not be subject to IWT and should not be subject to any other tax such as income tax in Australia.

9.3 Disposal of CVC Notes 3

(a) Resident Holders

The CVC Notes 3 should be “traditional securities” for the purposes of the Australian Tax Act. In relation to a traditional security, Australian resident Holders that are not subject to Division 230 are generally required to include any gain in their assessable income in the income tax year in which a disposal or redemption occurs. Such a gain will be equal to the difference between the consideration for the acquisition and disposal/redemption of the traditional security, plus any relevant costs associated with the acquisition or disposal/redemption. The gain would generally not be subject to the capital gains tax (CGT) provisions and the CGT discount would not apply.

9.3 Disposal of CVC Notes 3 (cont.)

(a) Resident Holders (cont.)

Similarly, losses may generally be included as an allowable deduction in respect of taxable income in the income tax year in which the disposal/redemption occurs. However, losses will not be deductible if, broadly, the disposal or redemption occurs:

- (i) Otherwise than in the ordinary course of trading on a securities market; and
- (ii) Because of a belief or apprehension that CVC is unable or unwilling to discharge its liability to pay amounts under the CVC Notes 3.

Where a loss is not deductible, the Holder should be entitled to claim a capital loss.

(b) Non-resident Holders

Non-resident Holders may be subject to Australian income tax on any gain realised on the disposal of their CVC Notes 3 (depending upon whether or not that gain has an Australian source). However, a non-resident Holder may be eligible for relief from Australian income tax if that Holder is entitled to the benefit of a double tax agreement between Australia and the non-resident Holder's country of residence (for tax purposes).

9.4 Application of Division 230

Division 230 of the Australian Tax Act contains tax-timing rules for certain taxpayers for bringing to account gains and losses from certain "financial arrangements". However, Division 230 does not apply in relation to traditional securities to certain taxpayers, including individuals and certain other entities (e.g. certain superannuation entities and managed investment schemes) which satisfy various turnover or asset threshold tests, unless they make an election that Division 230 applies to all of their "financial arrangements".

With respect to non-residents, if payments of Interest are exempt from IWT under section 128F of the Australian Tax Act, Division 230 will not operate to override this exemption.

9.5 Tax implications of Eligible CVCHA Holders reinvesting their CVCHA in CVC Notes 3

(a) Resident Holders

Eligible CVCHA Holders may elect to exchange their CVCHA for CVC Notes 3 under the Reinvestment Offer. The exchange will be recognised as a disposal of CVCHA notes for tax purposes. Australian resident holders that are not subject to Division 230 would generally be required to include any gain realised on exchange in their assessable income. The gain would be equal to the difference between the consideration paid for the acquisition of the CVCHA notes and the consideration received under the Reinvestment Offer, plus any relevant costs associated with the exchange. The consideration received under the Reinvestment Offer includes cash, as well as the market value of CVC Notes 3 received.

The gain would generally not be subject to the CGT provisions and the CGT discount would not apply.

Similarly, losses may generally be included as an allowable deduction in respect of taxable income in the income tax year the exchange occurs. Where a loss is not deductible, the Holder should be entitled to claim a capital loss.

(b) Non-resident Holders

Non-resident Holders may be subject to Australian income tax on any gain realised on the disposal of their CVCHA (depending upon whether or not that gain has an Australian source). However, a non-resident Holder may be eligible for relief from Australian income tax if that Holder is entitled to the benefit of a double tax agreement between Australia and the non-resident Holder's country of residence (for tax purposes).

9.6 Other Australian tax matters

(a) Additional withholdings from certain payments to non-residents

The Governor-General may make regulations requiring withholding from certain payments to non-residents of Australia (other than payments of interest and other amounts which are already subject to the current IWT rules or specifically exempt from those rules). Regulations may only be made if the responsible Minister is satisfied the specified payments are of a kind that could reasonably relate to assessable income of foreign residents. The possible application of any future regulations to the proceeds of any sale of the CVC Notes 3 will need to be monitored.

(b) Supply withholding tax

Payments in respect of the CVC Notes 3 can be made free and clear of any "supply withholding tax".

(c) Provision of TFN and/or ABN

The TAA can impose withholding tax (currently at the rate of 47 per cent) on the payment of interest on certain types of registered securities, such as the CVC Notes 3.

However, where a Holder has provided CVC with its TFN or, in certain circumstances, its ABN, or has notified CVC that it is exempt from providing this information, CVC is not required to withhold any amount on account of tax under the TAA from payments of interest to the Holder.

A Holder may choose not to provide his or her TFN or ABN to CVC.

If payments of interest are exempt from IWT under section 128F of the Australian Tax Act or otherwise subject to IWT, then non-resident Holders should not be subject to any withholding tax under these rules.

(d) Garnishee directions

The Australian Commissioner of Taxation may give a direction requiring CVC to deduct from any payment to a Holder of the CVC Notes 3 any amount in respect of Australian tax payable by a Holder. If CVC is served with such a direction, then CVC will comply with that direction and make any deduction required by that direction.

(e) GST

GST is not payable on the issue, receipt, disposal or redemption of the CVC Notes 3.

GST is not payable in relation to the payment of Face Value or Interest by CVC.

(f) Stamp duty

No stamp duty should be payable on the issue, receipt, disposal or redemption of the CVC Notes 3.

(g) FATCA

The Foreign Account Tax Compliance Act provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010 (**FATCA**) establish a new due diligence, reporting and withholding regime. FATCA aims to detect U.S. taxpayers who use accounts with "foreign financial institutions" (**FFIs**) to conceal income and assets from the U.S. Internal Revenue Service (**IRS**).

Under FATCA, a 30 per cent withholding may be imposed (i) in respect of certain U.S. source payments, (ii) from 1 January 2019 in respect of gross proceeds from the sale of assets that give rise to U.S. source interest or dividends and (iii) from 1 January 2019, at the earliest, in respect of "foreign passthru payments" (a term which is not yet defined under FATCA), which are, in each case, paid to or in respect of entities that fail to meet certain certification or reporting requirements (**FATCA withholding**).

Financial institutions through which payments on the CVC Notes 3 are made may be required to withhold on account of FATCA. A withholding may be required if (i) an investor does not provide information sufficient for a relevant financial institution to determine whether the investor is subject to FATCA withholding or (ii) an FFI to or through which payments on the CVC Notes 3 are made is a "non-participating FFI".

9.7 Other Australian tax matters (cont.)

(g) FATCA (cont.)

FATCA withholding is not expected to apply if the CVC Notes 3 are treated as debt for U.S. federal income tax purposes and the grandfathering provisions from withholding under FATCA are applicable. The grandfathering provisions require, amongst other things, that the CVC Notes 3 are issued on or before the date that is six months after the date on which final regulations defining the term “foreign passthru payment” are filed with the U.S. Federal Register.

Further, Australia and the United States signed an intergovernmental agreement (**Australian IGA**) in respect of FATCA on 28 April 2014. The Australian Government has enacted legislation amending, among other things, the TAA to give effect to the Australian IGA (**Australian Amendments**). Under the Australian Amendments, Australian FFIs will generally be able to be treated as “deemed compliant” with FATCA. Depending on the nature of the relevant FFI, FATCA withholding may not be required from payments made with respect to the CVC Notes 3 other than in certain prescribed circumstances. Under the Australian Amendments, an FFI may be required to provide the Australian Taxation Office with information on financial accounts (for example, the CVC Notes 3) held by U.S. persons and recalcitrant account holders and on payments made to non-participating FFIs. The Australian Taxation Office is required to provide that information to the IRS.

Holders may be requested to provide certifications or information to financial institutions through which payments on the CVC Notes 3 are made in order for those financial institutions to comply with their FATCA obligations. In the event that any amount is required to be withheld or deducted, by any party in the payment chain, from a payment on the CVC Notes 3 as a result of FATCA, pursuant to the terms and conditions of the CVC Notes 3, no additional amounts will be paid by CVC as a result of the deduction or withholding.

FATCA is particularly complex legislation. The above description is based in part on U.S. Treasury regulations published on 28 January 2013 and 6 March 2014 and IRS Notice 2015-66, official guidance and the Australian Amendments, all of which are subject to change.

Investors should consult their own tax advisers to determine how these rules may apply to them under the CVC Notes 3.

10.6 Related party arrangements

(a) Overview

CVC is not party to any arrangements with related parties (as defined in the Corporations Act) which are not described in this Prospectus.

(b) Related party disclosures

Section 10.5 summarises the remuneration and incentive arrangements between CVC and its Directors.

Certain directors have made co-investments in the projects of the CVC Group and have contractual rights to receive distributions and capital returns received by CVC from the following projects. The below comprises the interests which CVC directors have in all property investment projects that CVC also has an interest in. In circumstances where directors have made co-investments in the projects of the CVC Group which the CVC Group has invested capital into, as set out below, the co-investments have been designed to reward outperformance of the CVC Group over a priority return on CVC's invested capital by ensuring that co-investors only earn a return once CVC has earned a priority return on its invested capital of either 15% or 20%. The specific rate of priority return in each instance is set out further below.

In this respect, the directors of CVC consider that there is strong alignment between the ownership interests of CVC directors and the exposure of CVC's shareholders to the returns of the underlying projects set out below.

The following table shows the entitlement of relevant Directors at the date of this Prospectus. The ownership interests below are purely financial in nature and represent each relevant director's equity interest in the relevant entity or trust listed below. With the exception of Mr Mark Avery's interest in the Marsden Park Development Trust, which is further described below, the interests below represent the percentage of equity which each relevant director holds indirectly in the below entities.

	Ownership interest	CVC Priority return
Marsden Park Development Trust¹		
Mr Mark Avery	0.5%	20%
Norwell Valley Collective Pty Ltd		
Mr Craig Treasure	10.0%	20%
West Melb Land Holdings Pty Ltd		
Mr Mark Avery	6.5%	15%
Mr Craig Treasure	6.5%	15%
West Melb Land Holdings No 2 Pty Ltd		
Mr Mark Avery	6.5%	15%
Mr Craig Treasure	6.5%	15%

¹ This interest is held as a co-investment pursuant to an intercreditor arrangement. Specifically, Mr Mark Avery is required to provide 0.5% of the funds that CVC is required to fund under the Marsden Park Development Trust in return for a corresponding proportion of returns earned by CVC in respect of the Marsden Park Development Trust.

To this end, the Board has adopted what it believes to be appropriate corporate governance policies and practices having regard to its size and the nature of its activities.

The Board serves to provide oversight of management, and to protect and enhance the interests of all shareholders as a whole.

The Board endorses the ASX Recommendations and has sought to adopt corporate governance charters and policies which are consistent with the ASX Recommendations (except as otherwise noted in this Prospectus or CVC's most recent corporate governance statement, and to the extent that such principles and recommendations are applicable to an entity of the size and structure of CVC).

- (b) Any determination, decision or election (including a decision to take or refrain from taking any action or as to the occurrence or non-occurrence of any event or circumstance), and any substitution for and adjustments made to, the BBSW Rate made in accordance with this clause 3.6, will, in the absence of manifest or proven error, be conclusive and binding on the Issuer and each Holder and, notwithstanding anything to the contrary in these Terms or other documentation relating to the Notes, shall become effective without the consent of any person.
- (c) If the Calculation Agent is unwilling or unable to determine a necessary rate, adjustment, quantum, formula, methodology or other variable in order to calculate the applicable Interest Rate, such rate, adjustment, quantum, formula, methodology or other variable will be determined by the Issuer (acting in good faith and in a commercially reasonable manner) or, an alternate financial institution (acting in good faith and in a commercially reasonable manner) appointed by the Issuer (in its sole discretion) to so determine.
- (d) If:
 - (i) a Temporary Disruption Trigger has occurred; or
 - (ii) a Permanent Discontinuation Trigger has occurred,then the BBSW Rate for an Interest Period, whilst such Temporary Disruption Trigger is continuing or after a Permanent Discontinuation Trigger has occurred, means (in the following order of application and precedence):
 - (A) where BBSW Rate is the Applicable Benchmark Rate, if a Temporary Disruption Trigger has occurred with respect to the BBSW Rate, in the following order of precedence;
 - (1) first, the Administrator Recommended Rate;
 - (2) then the Supervisor Recommended Rate; and
 - (3) lastly, the Final Fallback Rate;
 - (B) where the AONIA Rate is the Applicable Benchmark Rate or a determination of the AONIA Rate is required for the purposes of paragraph (A) above, if a Temporary Disruption Trigger has occurred with respect to AONIA, the rate for any day for which AONIA is required will be the last provided or published level of AONIA;
 - (C) where a determination of the RBA Recommended Rate is required for the purposes of paragraph (A) or (B) above, if a Temporary Disruption Trigger has occurred with respect to the RBA Recommended Rate, the rate for any day for which the RBA Recommended Rate is required will be the last rate provided or published by the Administrator of the RBA Recommended Rate (or if no such rate has been so provided or published, the last provided or published level of AONIA);
 - (D) where BBSW Rate is the Applicable Benchmark Rate, if a Permanent Discontinuation Trigger has occurred with respect to the BBSW Rate, the rate for any day for which the BBSW Rate is required on or after the Permanent Fallback Effective Date will be the first rate available in the following order of precedence;
 - (1) first, if at the time of the BBSW Rate Permanent Fallback Effective Date, no AONIA Permanent Fallback Effective Date has occurred, the AONIA Rate;
 - (2) then, if at the time of the BBSW Rate Permanent Fallback Effective Date, an AONIA Permanent Fallback Effective Date has occurred, an RBA Recommended Rate has been created but no RBA Recommended Rate Permanent Fallback Effective Date has occurred, the RBA Recommended Fallback Rate; and
 - (3) lastly, if neither paragraph (1) nor paragraph (2) above apply, the Final Fallback Rate;

- (E) where the AONIA Rate is the Applicable Benchmark Rate or a determination of the AONIA Rate is required for the purposes of paragraph (D)(1) above, if a Permanent Discontinuation Trigger has occurred with respect to AONIA, the rate for any day for which AONIA is required on or after the AONIA Permanent Fallback Effective Date will be the first rate available in the following order of precedence;
- (1) first, if at the time of the AONIA Permanent Fallback Effective Date, an RBA Recommended Rate has been created but no RBA Recommended Rate Permanent Fallback Effective Date has occurred, the RBA Recommended Rate; and
 - (2) lastly, if paragraph (E)(1) above does not apply, the Final Fallback Rate; and
- (F) where a determination of the RBA Recommended Rate is required for the purposes of paragraph (D) or (E) above, respectively, if a Permanent Discontinuation Trigger has occurred with respect to the RBA Recommended Rate, the rate for any day for which the RBA Recommended Rate is required on or after that Permanent Fallback Effective Date will be the Final Fallback Rate.
- (e) When calculating an amount of interest in circumstances where a Fallback Rate other than the Final Fallback Rate applies, that interest will be calculated as if references to the BBSW Rate or AONIA Rate (as applicable) were references to that Fallback Rate.
- (f) When calculating interest in circumstances where the Final Fallback Rate applies, the amount of interest will be calculated on the same basis as if the Applicable Benchmark Rate in effect immediately prior to the application of that Final Fallback Rate remained in effect but with necessary adjustments to substitute all references to that Applicable Benchmark Rate with corresponding references to the Final Fallback Rate.

 - (ii) less than 10 Business Days before an Interest Payment Date, the notice will not be effective for that Interest Payment Date and Redemption will not occur until the following Interest Payment Date.

4.4 Effect of Holder Redemption Notice

- (a) Once given by a Holder, a Holder Redemption Notice cannot be withdrawn without the written consent of the Issuer.
- (b) An Holder Redemption Notice must be accompanied by evidence of title for the Notes the subject of the Notice as may reasonably be required by the Issuer and the Registrar.
- (c) A Holder must not deal with, transfer, dispose of or encumber any Notes the subject of a Holder Redemption Notice once that Notice has been given.

4.5 Effect of notice

Any notice given under this clause 4 is irrevocable once given. The accidental or inadvertent failure to give notice to an individual Holder will not invalidate a Holder Redemption Notice or an Early Redemption Notice.

4.6 Failure to give notice

The accidental or inadvertent failure to give notice to an individual Holder will not invalidate a Holder Redemption Notice or an Early Redemption Notice.

4.7 Failure to Redeem

If the Issuer fails to Redeem the Notes when due, Interest will continue to accrue on the Notes at the rate applicable to them on their Redemption Date and must be paid to the relevant Holders upon Redemption of the Notes.

4.8 Cancellation

Notes that have been Redeemed will be cancelled by the Issuer and may not be resold.

4.9 Purchase

Subject to compliance with any applicable law or requirement of ASX (and any stock exchange or other relevant authority on which the Notes are quoted):

- (a) The Issuer and any of its Related Bodies Corporate (or any third party nominated by the Issuer) may, at any time, purchase Notes in the open market or otherwise and at any price;
- (b) If purchases are made by tender for the Notes by the Issuer or any of its Related Bodies Corporate, tenders must be available to all Holders alike; and
- (c) Notes purchased under this clause 4.9 may be held, resold or cancelled at the discretion of the purchaser (and, if the Notes are to be cancelled, the Issuer).

5 Status and ranking

5.1 Status

The Notes at all times constitute direct, redeemable, non-convertible, unsubordinated and (subject to clause 6.1) unsecured obligations of the Issuer.

5.2 Ranking of Notes

- (a) The Notes rank equally without any preference or priority among themselves and at least equally with all other present and future unsubordinated and (subject to clause 6.1) unsecured debt obligations of the Issuer (subject to the laws and principles of equity affecting creditors' rights or obligations preferred by mandatory provisions of applicable law).
- (b) The ranking of Notes is not affected by the date of registration of any Holder in the Register.

6 Financial covenants and Undertaking

6.1 Negative pledge

For so long as any of the Notes remain outstanding, the Issuer must not without the approval of a Special Resolution:

- (a) **(new debt)**: incur any Financial Indebtedness for moneys borrowed or raised pursuant to any financial accommodation or agree to do so, except:
 - (i) pursuant to the Existing Debt Obligations; or
 - (ii) any indebtedness incurred or guaranteed after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Existing Debt Obligations; or
 - (iii) Permitted New Debt; or
- (b) **(security interest)**: create or permit to subsist, and will ensure that none of its Subsidiaries will create or permit to subsist, Security Interest upon the whole or any part of its present or future property or assets (including any uncalled capital) to secure any Financial Indebtedness or to secure any Guarantee of or indemnity in respect of any Financial Indebtedness, other than a Permitted Security Interest, unless in any such case, before or at the same time as the creation of the Security Interest, any and all action necessary shall have been taken to ensure that:
 - (i) all amounts payable by the Issuer under the Notes and the Trust Deed are secured equally and rateably with the Financial Indebtedness or Guarantee or indemnity, as the case may be; or
 - (ii) such other Security Interest or Guarantee or indemnity or other arrangement (whether or not including the giving of a Security Interest) is provided in respect of all amounts payable by the Issuer under the Notes and the Trust Deed as the Trustee shall in its absolute discretion deem not materially less beneficial to the interests of the Holders.

Appendix A – CVC Notes 3 Terms (cont.)

7 Events of Default

7.1 Events of Default

An Event of Default occurs in relation to the Notes if:

- (a) **(non-payment)** the Issuer fails to pay any amount payable by it under the Terms within 10 Business Days after the date on which it is due and, where the sole reason for the default is a technical or administrative difficulty within the banking system being used to effect payment, such default is not remedied within 5 Business Days;
- (b) **(breach of other obligations)** the Issuer fails to comply with any of its other obligations under the Terms or the Trust Deed and such failure remains unremedied for a period of 20 Business Days after the Issuer has received written notice from the Trustee in respect of the failure;
- (c) **(insolvency)** an Insolvency Event occurs in respect of the Issuer;
- (d) **(cessation of business)** the Issuer ceases or suspends the conduct of all of its business;
- (e) **(unlawfulness)** at any time, it is unlawful for the Issuer to perform any of its payment obligations under the Notes;
- (f) **(cross default)** any debt of the Issuer greater than \$1,000,000.00 (or its equivalent in any other currencies) becomes due and payable before its stated maturity due to the occurrence of a default event under the terms of that debt;
- (g) **(vitiation)** all or any rights or obligations of the Issuer, Holders or the Trustee under the Trust Deed or the Terms are terminated, or are, or become, void, illegal, invalid, unenforceable or of limited force and effect.

7.2 Notification

If an Event of Default occurs, the Issuer must, promptly after becoming aware of it, notify the Trustee of the occurrence of the Event of Default (specifying details of it) and use its reasonable endeavours to promptly notify the Holders and ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the occurrence of the Event of Default.

7.3 Consequences of an Event of Default

- (a) If any Event of Default occurs and is continuing in relation to the Notes, the Trustee may declare by notice to the Issuer (with a copy to the Holders and the Registrar) that all the Notes are to be Redeemed at their Face Value (together with any accrued Interest) immediately (but not earlier than five Business Days after the date the Trustee gives notice under this clause) or on such other date specified in that notice.
- (b) The Trustee shall not be bound to take any of the actions referred to in paragraph (a) above to enforce the obligations of the Issuer in respect of the Notes or any other proceedings or action pursuant to or in connection with the Trust Deed, the Terms or the Notes unless:
 - (i) it shall have been so directed by a Special Resolution of the Holders of the relevant Notes or so requested in writing by the Holders representing greater than 75% of the aggregate Face Value of all Notes outstanding;
 - (ii) it is indemnified, to its satisfaction, against all costs, charges, liabilities and expenses which may be incurred by it (including legal costs on a solicitor and own client basis) in connection with that action;
 - (iii) its liability for taking such action is limited in a manner consistent with section 283DC of the Corporations Act;
 - (iv) such action is permitted under the Trust Deed and these Terms;
 - (v) it is first placed in funds by the Issuer sufficient to cover the costs that it may incur as a result of doing so; and
 - (vi) it is not restricted or prohibited from taking such action by any order of any competent court or any applicable law.
- (c) If the Trustee forms the view that such action is or could be inconsistent with these Terms or the Corporations Act or any applicable law, it must take steps to seek (and, if the court so determines, to obtain) as soon as reasonably practicable a court direction or order to set aside or vary the direction given by Special Resolution, and, while those steps are underway, the Trustee is not obliged to take any action or proceedings it has been directed to take by Special Resolution.

8 Title and transfer of Notes

8.1 Title

Title to a Note passes when details of the transfer are entered in the Register.

8.2 Effect of entries in Register

- (a) Each entry in the Register in respect of a Note constitutes:
- (i) an unconditional and irrevocable undertaking by the Issuer to the Holder to pay principal, interest and any other amount in accordance with these Terms; and
 - (ii) an entitlement to the other benefits given to Holders under these Terms and the Trust Deed in respect of the Note.
- (b) For the avoidance of doubt, an entry in the Register does not make the Holder a member of the Issuer or confer rights on a Holder to become a member of the Issuer or to attend or vote at meetings of members of the Issuer.

8.3 Register conclusive as to ownership

Entries in the Register in relation to a Note constitute conclusive evidence that the person so entered is the absolute owner of the Note subject to correction for fraud or manifest error.

8.4 Non-recognition of interests

Except as required by law, the Issuer, the Trustee and the Registrar must treat the person whose name is entered in the Register as the holder of a Note as the absolute owner of that Note. This clause 8.4 applies whether or not a Note is overdue and despite any notice of ownership, trust or interest in the Note.

8.5 Joint holders

- (a) Where two or more persons are entered in the Register as the joint holders of a Note then they are taken to hold the Note as joint tenants with rights of survivorship, but the Registrar is not bound:
- (i) subject to the ASX Settlement Operating Rules, to register more than four persons as joint Holders of any Note; or
 - (ii) to issue more than one certificate (if applicable) or Statement of Holding in respect of a Note jointly held, and only the joint Holder in respect of a Note whose name first appears on the register is entitled to be issued a certificate (if applicable) or Statement of Holding in respect of a Note jointly held.
- (b) If a Holder who owns a Note jointly dies, the Issuer will recognise only the survivor or survivors as being entitled to the Holder's interest in the Note.
- (c) Interest or other money payable in respect of a Note that is held jointly may be paid to the Holder whose name appears first on the Register, and the payment to any one joint Holder of a Note of any amount from time to time payable or repayable in respect of the Note, discharges the obligation of the Issuer to pay that amount under the Note to each joint Holder of the Note and the Trustee.
- (d) The delivery to a joint Holder of a Note whose name first appears in the Register in respect of that Note of a notice or other communication will discharge the obligation of the Issuer or the Trustee to deliver that notice or communication to each of the joint Holders of that Note, and in that case the notice or communication will be deemed to be given to all joint Holders of that Note.
- (e) If a Note is held jointly, and more than one Holder votes in respect of that Note, only the vote of the Holder whose name appears first on the Register counts.
- (f) The joint Holders of a Note are counted as a single holder for the purposes of calculating the number of Holders or persons who have requisitioned a meeting of Holders.
- (g) If a Note is held jointly, each of the joint Holders is jointly and severally liable for all payments including payment of any Tax, which is to be made in respect of the Note.

8.6 Transfers in whole

The Notes may be transferred in whole but not in part.

Appendix A – CVC Notes 3 Terms (cont.)

8 Title and transfer of Notes (cont.)

8.7 Transfer

- (a) A Holder may, subject to this clause 8.7, transfer any Notes by:
- (i) a proper ASTC transfer according to the ASX Settlement Operating Rules;
 - (ii) a proper transfer under any other computerised or electronic system recognised by the Corporations Act;
 - (iii) any method of transfer which operates in relation to the trading of securities on any securities exchange outside Australia on which the Notes are quoted; or
 - (iv) any proper or sufficient instrument of transfer of marketable securities under applicable law.
- (b) The Issuer must not charge any fee on the transfer of a Note.

8.8 Market obligations

The Issuer must comply with all Applicable Regulations and any other relevant obligations imposed on it in relation to the transfer of a Note.

8.9 Issuer may request holding lock or refuse to register transfer

If the Notes are quoted on ASX, and if permitted to do so by the ASX Listing Rules and the Corporations Act, the Issuer may:

- (a) request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be; or
- (b) refuse to register a transfer of Notes.

8.10 Issuer must request holding lock or refuse to register transfer

- (a) The Issuer must request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be, if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Issuer to do so.
- (b) The Issuer must refuse to register any transfer of Notes if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Issuer to do so.
- (c) During a breach of the ASX Listing Rules relating to Restricted Securities, or a breach of a Restriction Agreement, the Holder of the Restricted Securities is not entitled to any Interest (or other distribution on), or voting rights in respect of, the Restricted Securities.

8.11 Notice of holding lock and refusal to register transfer

If, in the exercise of its rights under clauses 8.9 and 8.10, the Issuer requests the application of a holding lock to prevent a transfer of Notes or refuses to register a transfer of Notes, it must, within five Business Days after the date the holding lock is requested or the refusal to register a transfer, give written notice of the request or refusal to the Holder, to the transferee and the broker lodging the transfer, if any. Failure to give such notice does not, however, invalidate the decision of the Issuer.

8.12 Delivery of instrument

If an instrument is used to transfer the Notes according to clause 8.7, it must be delivered to the Registrar, together with such evidence (if any) as the Issuer and/or the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the Notes.

8.13 Refusal to register

- (a) The Issuer may only refuse to register a transfer of any Notes if such registration would contravene or is forbidden by Applicable Regulation or the Terms.
- (b) If the Issuer refuses to register a transfer, the Issuer must give the lodging party notice of the refusal and the reasons for it within five Business Days after the date on which the transfer was delivered to the Registrar.

8.14 Transferor to remain Holder until registration

A transferor of a Note remains the Holder in respect of that Note until the transfer is registered and the name of the transferee is entered in the Register.

8.15 Effect of transfer

Upon registration and entry of the transferee in the Register the transferor ceases to be entitled to future benefits under the Trust Deed and the Terms in respect of the transferred Notes and the transferee becomes so entitled in accordance with clause 8.2.

8.16 Estates

A person becoming entitled to a Note as a consequence of the death, legal disability or bankruptcy of a Holder or of a vesting order or a person administering the estate of a Holder may, upon producing such evidence as to that entitlement or status as the Registrar considers sufficient, transfer the Note or, if so entitled, become registered as the holder of the Note.

8.17 Transfer of unidentified Notes

Where the transferor executes a transfer of less than all the Notes registered in its name, and the specific Notes to be transferred are not identified, the Registrar may register the transfer in respect of such of the Notes registered in the name of the transferor as the Registrar thinks fit, provided the aggregate of the Face Value of all the Notes registered as having been transferred equals the aggregate of the Face Value of all the Notes expressed to be transferred in the transfer.

9 Payments**9.1 Summary of payment provisions**

Payments in respect of the Notes will be made in accordance with this clause 9.

9.2 Record Date

All payments under or in respect of a Note will be made only to those persons registered as the holder of that Note at 7.00pm (Sydney time) on the relevant Record Date.

9.3 Payments subject to law

All payments are subject to applicable law, but without prejudice to the provisions of clause 10.

9.4 Payments on Business Days

If a payment:

- (a) is due on a Note on a day which is not a Business Day then the due date for payment will be postponed to the first following day that is a Business Day; or
- (b) is to be made to an account on a Business Day on which banks are not open for general banking business in the place in which the account is located, then the due date for payment will be the first following day on which banks are open for general banking business in that place,

and, in either case, the Holder is not entitled to any additional payment in respect of that delay.

9.5 Payments to accounts

Moneys payable by the Issuer to a Holder may be paid in any manner the Issuer decides, including by direct credit into a nominated account of the Holder at an Australian branch of a financial institution.

Appendix A – CVC Notes 3 Terms (cont.)

9 Payments (cont.)

9.6 Unsuccessful attempts to pay

Subject to applicable law and the ASX Listing Rules, where the Issuer is required to pay any amount to a Holder in respect of a Note, and:

- (a) decides that the amount is to be paid to the Holder by a method of direct credit and the Holder has not given a direction as to where amounts are to be paid by that method;
- (b) attempts to pay the amount to the Holder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful;

or

(c) has made reasonable efforts to locate the Holder to ensure that the amount is paid to it, but is unable to do so, then in each case:

- (d) the amount will be taken to have been duly paid to the Holder and will not bear Interest; and
- (e) the amount will be held by the Issuer for the Holder in a non-interest bearing deposit with a bank selected by the Issuer until the Holder (or any legal personal representative of the Holder) nominates an account for payment or otherwise claims the amount or the amount is paid by the Issuer according to the legislation relating to unclaimed moneys.

9.7 Payment to joint Holders

A payment to any one of the joint Holders of a Note will discharge the Issuer's liability in respect of the payment.

9.8 Fractions

For the purposes of making any payment to a Holder in respect of its aggregate holding of Notes, any fraction of a cent will be disregarded.

10 Deductions

10.1 No set-off, counterclaim or deductions

All payments in respect of the Notes must be made in full without set-off or counterclaim, and without any withholding or deduction for or in respect of Taxes, unless such withholding or deduction is required by law, or made under or in connection with, or to ensure compliance with FATCA.

10.2 Withholding and other taxes

- (a) The Issuer may withhold or deduct from any amount payable to a Holder in respect of the Notes an amount in respect of any Tax which a qualified legal or taxation advisor advises that it is required by law to withhold or deduct from that payment.
- (b) The Issuer must pay the full amount required to be withheld or deducted to the relevant revenue authority within the time allowed for such payment (without incurring penalty under the applicable law) and must, if reasonably required by a Holder, deliver to that Holder a copy of the relevant receipt issued by the relevant revenue authority (or other evidence of payment) without unreasonable delay after it is received by the Issuer.
- (c) If an amount is deducted or withheld under clause 10.2(a) from a payment to a Holder in respect of any Tax, the Issuer will have no obligation to pay an additional amount to the Holder in respect of the amount deducted or withheld and that deduction or withholding will constitute a full discharge of the Issuer's obligation to pay the amount payable to the extent of that deduction or withholding.

11 Amendment of the Terms

11.1 Amendment without the approval of the Holders

At any time, but subject to compliance with the Corporations Act and all other applicable laws, the Issuer may, with the approval of the Trustee, but without the consent of the Holders, amend the Terms in respect of any Series if the Issuer is of the opinion that such amendment is:

- (a) of a formal, minor or technical nature or made to cure any ambiguity or correct any manifest error;

- (b) necessary or expedient for the purpose of listing the Notes on ASX or to comply with the applicable ASX Listing Rules or the listing or quotation requirements of any other any securities exchange on which the Issuer may propose to seek a listing of the Notes;
- (c) necessary or expedient for the purpose of enabling the Notes to be lodged in a clearing system or to remain lodged in a clearing system;
- (d) necessary or expedient for the purpose of enabling the Notes to be offered for issue or for sale under the laws for the time being in force in any place;
- (e) necessary or expedient to comply with the provisions of any law or regulation or the requirements of any statutory authority; or
- (f) in any other case, not materially prejudicial to the interests of Holders of the Notes or any Series (taken as a whole).

11.2 Amendment with the approval of the Holders

At any time, but subject to compliance with the Corporations Act and all other applicable laws, the Issuer may, with the approval of the Trustee, amend the Terms in respect of any Series:

- (a) except as otherwise provided in clauses 11.2(b) and 11.2(c) below, if such amendment is authorised by a Holders' Resolution;
- (b) in the case of an amendment:
 - (i) to this clause 11.2; or
 - (ii) to any other clause of the Trust Deed or any paragraph of the Meeting Provisions, in either case providing for Holders to give a direction to the Trustee by a Special Resolution,

in each case, if a Special Resolution is passed in favour of such amendment; or

- (c) in the case of an amendment to the Meeting Provisions to which clause 11.2(b)(ii) does not apply, if a Special Resolution is passed in favour of such amendment; and
- (d) otherwise in accordance with the Trust Deed.

11.3 Materially prejudicial to the interests of Holders as a whole

For the purposes of determining whether any matter or thing is not materially prejudicial to the interests of Holders as a whole:

- (a) the Trustee may rely on a legal opinion from independent legal advisers of recognised standing in Australia to reasonably form a view on whether it can make such a determination; and
- (b) the taxation consequences to a Holder and other special consequences or circumstances which are personal to a Holder do not need to be taken into account by the Issuer, the Trustee or their respective legal advisers.

11.4 Amendment of Series of Notes

An amendment made pursuant to this clause 11 applies only to Notes of the Series to which such amendment relates.

11.5 Amendments with the consent of the Holders

If an amendment sought alters or conflicts with any of the personal rights or obligations of the Trustee, it will not be effective without the prior written consent of the Trustee.

11.6 Interpretation

In this clause 11, "**amend**" includes modify, waive, vary, cancel, amend or add to and "**amendment**" has a corresponding meaning.

2.5 Postal ballot

Any meeting of Holders or Holders of a Series may be conducted by postal ballot in accordance with such arrangements as the Issuer may determine and the Trustee approves, which arrangements, unless the Trustee and the Issuer agree otherwise, must reflect as closely as may be practicable, the provisions of this Schedule 2.

3.1 Quorum

- (a) At any such meeting, any one or more Holders present in person or by proxy, form a quorum for the purposes of passing the resolutions shown in the table below, only if they alone or together hold (or in the case of proxies, represent Holders who hold) in aggregate at least the proportion of the Face Value of the Notes of the relevant Series shown in the table below.

Type of resolution	Required proportion for any meeting except for meeting previously adjourned because of lack of quorum	Required proportion for meeting previously adjourned because of lack of quorum
Special Resolution	Greater than 50%	10%

- (b) No business (other than choosing the Chairperson) shall be transacted at any meeting unless the requisite quorum is present at the commencement of business. If a quorum is present at the time the first item of business is transacted, it is taken to be present when the meeting proceeds to consider each subsequent item of business unless the Chairperson of the meeting (on the Chairperson's own motion or at the request of a Holder or proxy representing a Holder who is present (if such request is accepted by the Chairperson in its absolute discretion)) declares otherwise.
- (c) In determining how many Holders are present, each individual attending as a proxy is to be counted, except that:
- where a Holder has appointed more than one proxy, only one of those proxies is to be counted;
 - where an individual is attending both as a Holder and as a proxy on behalf of another Holder, that individual is to be counted once in respect of each such capacity; and
 - where an individual is attending as a Holder and has also appointed a proxy in respect of the Notes it holds, those individuals are to be counted only once.

- (a) The person who calls a meeting must nominate in writing a Chairperson to chair the meeting. The Chairperson of a meeting need not be a Holder and may be an officer or employee of the Issuer or the Trustee. The Chairperson of an adjourned meeting need not be the same person as was the chairman of the meeting from which the adjournment took place.
- (b) If a meeting is held, and
 - (i) a Chairperson has not been nominated for that Meeting; or
 - (ii) the person nominated is not present within 15 minutes after the time appointed for the holding of such meeting or is unable or unwilling to chair the meeting,the Issuer may appoint a Chairperson unless the meeting was convened by the Trustee, in which case the Holders or proxies present may appoint a Chairperson.

3.4 Adjournment

- (a) The Chairperson may, with the consent of a Holders' Resolution of any meeting at which a quorum is present (such consent being obtained if the Chairperson so requires on a poll), and shall (if directed by a Holders' Resolution on a poll), adjourn the meeting either to a later time at the same meeting or to an adjourned meeting from time to time and from place to place.
- (b) No business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting from which the adjournment took place.
- (c) It is not necessary to give notice of an adjournment unless the meeting is adjourned because of a lack of a quorum. In that case, unless otherwise agreed in writing by each Holder, the person calling the meeting must give five days' notice of the adjourned meeting to each person entitled to receive notice of a meeting under these provisions. The notice must state the quorum required at the adjourned meeting but need not contain any further information.
- (d) Any proxy provided to the Issuer, the Issuer's agents or the Trustee, remains valid and effective for a meeting adjourned under these provisions.

4 Voting

4.1 Show of hands

- (a) At any meeting a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by:
 - (i) the Chairperson;
 - (ii) the Trustee;
 - (iii) the Issuer;
 - (iv) at least five Holders (or at least five Holders of the relevant Series) present in person or by proxy or attorney; or
 - (v) by one or more Holders (or Holders of the relevant Series) present in person or by proxy or attorney and holding or representing 5% of the Face Value of all Notes (or of all Notes in the relevant Series) on issue at the time of the meeting in respect of which the meeting has been called.
- (b) Unless a poll is so demanded, a declaration by the Chairperson that a resolution has been carried or carried unanimously or by a particular majority or lost shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution.
- (c) Subject to the Corporations Act, the Trustee may, but is not obliged to, prior to any meeting of Holders, appoint an independent person to count and record the number of votes cast under either voting method specified in this paragraph 4.

4.2 Poll

If a poll is duly demanded it shall be taken in such manner as the Chairperson may direct and the result of such poll shall be the resolution of the meeting at which the poll was demanded.

4.3 Conduct of poll

A poll demanded on the election of a Chairperson or on a question of adjournment shall be taken at the meeting without adjournment. A poll demanded on any other question shall be taken either immediately or at such time (not being more than five days from the date of the meeting) and place as the Chairperson may direct. No notice need be given of a poll not taken immediately. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.

4.4 Number of votes

On a show of hands every Holder (or Holder of the relevant Series) who:

- (a) being an individual is present in person or by proxy or attorney; or
- (b) being a corporation is present by proxy or attorney or by its authorised representative,

shall have one vote and on a poll every Holder (or Holder of the relevant Series) who is present in person or by attorney or by proxy shall have one vote for every Note with respect to which it is the registered holder. A Holder (or Holder of the relevant Series) entitled to more than one vote need not use all its votes or cast all the votes it uses in the same way.

4.5 Joint Holders

In the case of joint Holders, the joint Holder first named in the Register (or if that person does not vote, the next named joint Holder, or if that person does not vote, the next named and so forth) may exercise the voting rights of jointly held Notes.

4.6 Casting vote

If the votes are equal (whether on a show of hands or a poll), the Chairperson has a casting vote in addition to the vote or votes (if any) to which the Chairperson is otherwise entitled.

5 Passing resolutions in writing

- (a) The Holders may without a meeting being held pass a resolution in writing without a meeting being held.
- (b) A resolution in writing is passed, without a meeting being held:
 - (i) if it is a Holder Resolution, where within one month from the Notification Date, Holders representing more than 50% of the aggregate Face Value of all Notes outstanding as at the Notification Date have signed a document stating that they are in favour of the resolution set out in that document; or
 - (ii) if it is a Special Resolution, where within one month from the Notification Date, Holders representing at least 75% of the aggregate Face Value of all Notes outstanding as at the Notification Date have signed a document stating that they are in favour of the resolution set out in that document,

and any such resolution is deemed to have been passed on the date on which the last Holder whose signature on the resolution caused it to be so passed signed it (as evidenced on its face).

- (c) The accidental omission to give a copy of the resolution to, or the non-receipt of such a copy by, any Holder does not invalidate a resolution in writing made pursuant to paragraph (a).
- (d) A resolution in writing signed by Holders may be contained in one document or in several documents in like form each signed by one or more Holders.
- (e) A resolution in writing signed by Holders must be signed by a director or secretary of the Issuer.
