

## Bio-Gene Receives \$519,500 R&D Tax Incentive

**Bio-Gene Technology Limited (ASX:BGT, 'Bio-Gene' or the 'Company')**, an Australian company developing the next generation of novel insecticides derived from nature, is pleased to have received a research and development tax incentive (**RDTI**) of \$519,500 from the Australian Taxation Office.

The cash incentive relates to R&D expenditure incurred by the Company in the 2025 financial year. The RDTI is an Australian Federal Government program under which companies can receive cash incentives for 43.5% of eligible R&D expenditure<sup>1</sup>. The RDTI relates to both Australian and eligible overseas expenditure for the development of the Company's products Flavocide® and Qcide®.

**Tim Grogan, Bio-Gene Technology's Managing Director & CEO** said *"We are very pleased to have received this \$519,500 R&D tax incentive payment. Bio-Gene is making a significant investment into the development of innovative new insecticides derived from nature for use in global markets. These new insecticides are patent protected and target insects using a new mode of action. We are very grateful for the funding support this R&D tax incentive program provides to the Company."*

Approved for release by the Board of Directors.

### About Bio-Gene Technology Limited

Bio-Gene is an Australian company developing novel bio-insecticides to address the global challenges of insecticide resistance. Its unique products are based on a naturally occurring class of compounds proven to overcome resistance to control pests with minimal impact on human health and the environment.

Bio-Gene's products have multiple applications across crop protection, grain storage, public health and consumer uses. They provide new options derived from nature to meet market demand for effective and safe pest management solutions.
