This Prospectus expires on 28 December 2026 (**Prospectus Expiry Date**) being the date which is 13 months after the Prospectus Date. No Quoted Options will be issued under this Prospectus after the Prospectus Expiry Date.

Neither ASIC nor ASX (or any of their respective officers or employees) accept any responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

It is important that Eligible Shareholders read this Prospectus carefully and in its entirety and seek professional advice where necessary. The investment the subject of this Prospectus should be considered highly speculative. Subscriptions for Quoted Options can only be made online by following the instructions on the Entitlement and Acceptance Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as that term is defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as a prospectus for an initial public offering of securities would contain as it is only required to contain information in relation to the effect of the issue of the Quoted Options on the Company and the rights and liabilities attaching to the Quoted Options (and the New Shares into which they may be exercised).

Representations contained in this Prospectus are made taking into account the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and their professional advisers.

### Not investment advice

The information contained in this Prospectus is not investment or financial product advice and does not take into account your investment objectives, financial circumstances, tax position or particular needs. This Prospectus should not be construed as financial, legal, taxation or any other form of professional advice. It is important that you read this Prospectus carefully and in its entirety before deciding to subscribe for any Quoted Options under the Entitlement Offer.

In deciding whether to subscribe for Quoted Options you should consider the risks that could affect the performance of the Company, the value and subsequent market price of the Quoted Options and the continued applicability of any of the information in this Prospectus. You should carefully consider these risks in the light of your investment objectives, financial circumstances, tax position or particular needs and seek any necessary professional advice.

Some of the key risks that should be considered by potential investors are set out in Schedule 1. Potential investors should also consider the manner in which the occurrence of any of the risks in Schedule 1 (or any other risk) could affect the Company's business, financial performance and condition, results of operations and/or the subsequent market price of Quoted Options.

No person is authorised to give any information or to make any representation in connection with the Company or the Entitlement Offer which is not contained in this Prospectus. Any information or representation not so contained may not be relied upon as having been authorised by the Company or any other person. You should only have regard to the information contained in this Prospectus when deciding whether to subscribe for Quoted Options.

---

<sup>3</sup> The Company may also accept applications from Qualified Shareholders.

## **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or financial projection would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable forecast or financial projection.

## **Forward-looking statements**

This Prospectus contains forward-looking statements which are able to be identified by words such as 'may', 'could', 'believes', 'estimates', 'expects', 'intends' and 'considers' and includes statements of current intentions, opinion and predictions as to future events that involve numerous known or unknown risks, assumptions and inherent uncertainties. Potential investors should be aware that forward-looking statements are by their very nature not statements of fact and as such there can be no certainty of outcome or guarantee in relation to the occurrence of the matters to which any of those statements relate.

Forward-looking statements involve numerous known and unknown risks, assumptions, uncertainties and other factors many of which are beyond the control of the Company that could cause actual events, performance or outcomes to differ materially from the events, performance or outcomes expressed or anticipated in these statements. All forward-looking statements included in this Prospectus are based on an assessment of present circumstances and a number of best estimate assumptions regarding future events that, as at the Prospectus Date, are expected (but not guaranteed) to take place.

The Company and the Directors cannot and do not give any assurance that the events, performance or outcomes expressed or implied by any forward-looking statement included in this Prospectus will actually occur and, as a consequence, potential investors are cautioned not to place any reliance whatsoever on any such forward-looking statement. Unless required by law, the Company does not intend to update or revise any forward-looking statement included in this Prospectus.

All forward-looking statements should be read in conjunction with, and are qualified by, the risk factors set out in Schedule 1.

This Prospectus may also include market data and third-party estimates and projections. There is no assurance that any third-party estimate or projection contained in this Prospectus will be achieved. The Company has not independently verified any of this third-party information. These estimates and projections involve risks and uncertainties and are subject to change based on various factors, including the risks set out in Schedule 1.

## **Continuous disclosure obligations**

The Company is a disclosing entity (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market that a reasonable person would expect to have a material effect on the price or value of its Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been released on ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision to subscribe for any Quoted Options.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the twelve months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market operated by ASX.

## **Statements of past performance**

This Prospectus may include information regarding past performance of the Company. Potential investors should be aware that past performance is not, and should not be relied upon as being, indicative of future performance.

## **No offer where it would be illegal**

This Prospectus does not constitute an offer or invitation to subscribe for Quoted Options in any place in which, or to any person to whom, it would be unlawful to make such offer or invitation. No action has been taken to register or qualify the Prospectus, the Quoted Options or the Entitlement Offer or to permit a public offering of the Quoted Options in any jurisdiction other than Australia. The distribution of this Prospectus outside of Australia may be restricted by law and persons who come into possession of this Prospectus outside of Australia should seek advice in relation to and observe all applicable restrictions.

Since the Quoted Options have not been, and will not be, registered under the United States Securities Act of 1933 (**Securities Act**) or the securities laws of any US state or territory, they may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of a US person unless an exemption from the registration requirements in the Securities Act (and any applicable US state or territory securities laws) is available.

## **Target Market Determination**

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the Quoted Options being offered under this Prospectus. Accordingly, the Company will only distribute this Prospectus to those investors who fall within the Target Market Determination (**TMD**) as set out on the Company's website ([www.t92.com.au](http://www.t92.com.au)). By subscribing for Quoted Options under the Prospectus, you warrant that you have read and understood the TMD and that you fall within the specified target market.

## **Prospectus availability**

A copy of this Prospectus can be downloaded from the Company's website ([www.t92.com.au](http://www.t92.com.au)). If you are accessing an electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian resident and must only access this Prospectus from within Australia or New Zealand.

The Corporations Act prohibits any person from passing onto another person an application form (or the Entitlement and Acceptance Form) unless it is attached to a hard copy of this Prospectus or it is accompanied by a complete and unaltered version of this Prospectus.

You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 3 9088 2049 during business hours or by emailing the Company's Company Secretary at [admin@t92.com.au](mailto:admin@t92.com.au).

The Company reserves the right not to accept a subscription for Quoted Options received from a person if it has reason to believe that when that person was given access to the electronic Entitlement and Acceptance Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

No document or other information is incorporated by reference into this Prospectus.

Subscriptions for Quoted Options may only be made during the Offer Period by following the instructions set out on the Entitlement and Acceptance Form attached to, or accompanying, this Prospectus in accordance with the process set out in Section 2.

## **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply for the Quoted Options to participate in CHES for those investors who have, or wish to have, a sponsoring stockbroker. Quoted Options issued to investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, Eligible Shareholders who are issued with Quoted Options will be provided with Holding Statements that set out the number of Quoted Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Identification Number and explain, for future reference, the sale and purchase procedures under CHES and issuer-sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely on paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holdings in the Company during the preceding month.

## No cooling-off rights

Cooling-off rights do not apply to an investment in the Quoted Options. This means that in most circumstances you cannot withdraw your subscription once it has been accepted by the Company.

# LETTER TO SHAREHOLDERS AND INVESTMENT OVERVIEW

---

## Introduction

The directors (each, a **Director** and together, the **Board**) of Terra Critical Minerals Limited ACN 650 774 253 (ASX: T92) (**Company** or **Terra**) are pleased to offer Eligible Shareholders the opportunity to participate in the Company's recently announced non-renounceable entitlement offer of Quoted Options as set out in this Prospectus (**Entitlement Offer**).

The Entitlement Offer is being made to all Shareholders who are, as at 7pm (Sydney time) on 4 December 2025 (**Record Date**), registered with an address in Australia or New Zealand and who can make (and by subscribing for Quoted Options in accordance with their Entitlement and Acceptance Form will be deemed to have made) the representations set out in Section 2.11 (each, an **Eligible Shareholder**).

## Key details

Under the Entitlement Offer, the Company is offering Eligible Shareholders the opportunity to subscribe for 2 quoted options (expected ASX code: "T92OA") (each, a **Quoted Option**) over unissued new fully paid ordinary shares in the Company (each, a **New Share**) at the offer price of \$0.01 per Quoted Option (**Offer Price**) for every 5 existing shares in the Company (each, a **Share**) held at 7pm on the Record Date.

Each Quoted Option is exercisable into a New Share for \$0.09 (**Exercise Price**) at any time on or before 5pm on 29 December 2030 (**Expiry Date**).

## Purpose of the Entitlement Offer

The purpose of the Entitlement Offer is to recognise the invaluable support the Company has received from its Shareholders since its listing in September 2022.

Furthermore, the Entitlement Offer provides Eligible Shareholders with an opportunity to gain an additional speculative exposure to the future potential success of the Company as it explores its highly prospective precious, critical and energy metals exploration projects located both here in Australia and in North America.

In addition, the Entitlement Offer is expected to raise a small amount of working capital which will be used in part to pay for the costs of the Entitlement Offer and potentially, significantly more capital in the future to allow the Company to continue to pursue its stated objectives if the Quoted Options are ultimately exercised<sup>15</sup>.

Please see Section 1 for further detail.

---

<sup>15</sup> Eligible Shareholders should be aware that there can be no certainty that any Quoted Options will be exercised.

## Additional Quoted Options

An Eligible Shareholder (other than in a limited number of circumstances – as to which, please see below) may apply for "**Additional Quoted Options**" (i.e. Quoted Options in excess of their pro rata Entitlement) under the Entitlement Offer. Related Parties (and Associates of Related Parties) of the Company and Substantial<sup>16</sup> Shareholders (and Associates of Substantial Shareholders) are not permitted to apply for Additional Quoted Options under the Entitlement Offer.

The allocation of Additional Quoted Options will be subject to the availability of Additional Quoted Options and the Company's and the Lead Manager's absolute discretion. However, the Company and the Lead Manager intend (but are not obliged) to allocate Additional Quoted Options to existing Eligible Shareholders who apply for them in priority to the allocation of any Shortfall to existing (non-Shareholder) clients of the Lead Manager<sup>17</sup>.

In the event that applications for Additional Quoted Options are in excess of the number of Additional Quoted Options that are available, the Company intends (but is not obliged), subject to the requirements of the Corporations Act and the Listing Rules (and any other applicable law or regulation), to scale-back applications for Additional Quoted Options received from Eligible Shareholders in proportion to their proportionate interest in Shares as at the Record Date<sup>18</sup>.

## Shortfall

Quoted Options that correspond to the number of Entitlements not taken up under the Entitlement Offer will form part of the "shortfall" (**Shortfall**)<sup>19</sup>.

---

<sup>16</sup> A "**Substantial**" Shareholder is a holder who, together with its Associates, has a Relevant Interest in at least 5% of the Shares.

<sup>17</sup> For the purposes of Exception 3 in Listing Rule 7.2 (and more generally), the Directors have reserved the right to issue Additional Quoted Options and/or to reject any application for Additional Quoted Options for any reason, including based on the size of the applicant's Shareholding as at the Record Date, the extent to which the applicant has bought or sold Shares prior to or since the Record Date, if the applicant is a nominee holder or other type of fiduciary, whether the applicant has multiple registered holdings and the total number of Additional Quoted Options applied for by all Eligible Shareholders under the Entitlement Offer.

<sup>18</sup> For the purposes of Exception 3 in Listing Rule 7.2 (and more generally), the Directors have reserved the right to scale back (or, as noted above, reject) applications for Additional Quoted Options in any manner (or for any reason) the Company sees fit, including based on the size of the applicant's Shareholding as at the Record Date, the extent to which the applicant has bought or sold Shares prior to or since the Record Date, if the applicant is a nominee holder or other type of fiduciary, whether the applicant has multiple registered holdings and the total number of Additional Quoted Options applied for by all Eligible Shareholders under the Entitlement Offer.

<sup>19</sup> Said differently, the "Shortfall" (if any) will be equal to the total number of Entitlements issued under the Entitlement Offer (which number includes, for the avoidance of any doubt, the number of entitlements that would have been issued to Ineligible Shareholders had they been eligible to participate in the Entitlement Offer) less the sum of the total number of Entitlements that are exercised and the total number of Additional Quoted Options that are applied for by (and issued to) Eligible Shareholders.

In accordance with Exception 3 of Listing Rule 7.2, the Directors have also reserved the right, subject to the Corporations Act and the Listing Rules, to place the Shortfall at their discretion within 3 months of the Closing Date at an issue price not less than the Offer Price to persons who are not Related Parties (or Associates of Related Parties) of the Company. The issue of Quoted Options pursuant to any such placement will be made under and in accordance with the terms of this Prospectus (**Shortfall Offer**).

### **Lead Manager**

The Company has appointed CoPeak Pty Ltd ACN 607 161 900 (**Lead Manager**) to manage (but not underwrite) the Entitlement Offer<sup>20</sup> and the Shortfall Offer.

Please see Section 1.2 for details in relation to the Lead Manager Offer and Section 4.4 for a summary of the material terms of the Engagement Agreement.

### **No Entitlements trading**

Since the Entitlement Offer is "non-renounceable", Entitlements are not tradeable on ASX or otherwise transferable. This means that you will not receive any value for any Entitlements that you do not take up.

### **Ineligible Shareholders**

As required by Listing Rule 7.7.1(b), the Company will advise Ineligible Shareholders of the Entitlement Offer and of their inability to participate.

### **Concluding remarks**

Further information in relation to the Entitlement Offer and its expected impact on the Company is detailed in this Prospectus.

On behalf of the Board, I invite Eligible Shareholders to consider this investment opportunity carefully<sup>21</sup> and, once again, thank Shareholders for their ongoing support.

Yours sincerely

Andrew Vigar  
**Non-Executive Chairman**

# **1. DETAILS, PURPOSE AND EFFECT OF ENTITLEMENT OFFER**

---

## **1.1 Entitlement Offer**

Under the Entitlement Offer, Eligible Shareholders are entitled to subscribe for 2 Quoted Options (at the Offer Price of \$0.01 per Quoted Option) for every 5 Shares held at 7pm on the Record Date. Fractional entitlements to Quoted Options will be rounded down to the nearest whole Quoted Option.

Each Quoted Option is exercisable into a New Share for \$0.09 at any time on or before 5pm on 29 December 2030.

The Entitlement Offer provides Eligible Shareholders with an opportunity to gain an additional speculative exposure to the future potential success of the Company as it explores its highly prospective precious, critical and energy metals exploration projects located both here in Australia and in North America.

The Entitlement Offer also provides the Company with an opportunity to raise up to \$586,302.18 in working capital which will be used in part to pay for the costs of the Entitlement Offer and potentially, with the opportunity to raise significantly more capital in the future if the Quoted Options are exercised<sup>22</sup>.

Details on how to accept your Entitlement (or part of it) and how to accept all of your Entitlement and apply for Additional Quoted Options are in Section 2.

Any New Shares issued upon the exercise of the Quoted Options will rank equally with the Shares on issue at that time. Please refer to Section 3.1 and Section 3.2 for further information regarding the rights and liabilities attaching to the Quoted Options and the New Shares, respectively.

## **1.2 Lead Manager Offer**

This Prospectus also includes the offer of 5,000,000 Quoted Options to be issued to the Lead Manager in consideration for the lead manager services provided by the Lead Manager to the Company in relation to the Entitlement Offer (**Lead Manager Options**<sup>23</sup>) (**Lead Manager Offer**).

The issue of the Lead Manager Options to the Lead Manager is subject to the Company raising the full amount sought under the Entitlement Offer and the receipt of Shareholder approval under Listing Rule 10.11<sup>24</sup>. Only the Lead Manager may accept the Lead Manager Offer.

---

<sup>22</sup> Please note that there is no certainty that any Quoted Options will ever be exercised.

<sup>23</sup> The Lead Manager Options have the same terms as the Quoted Options.

<sup>24</sup> The Lead Manager Offer will remain open for up to 1 month following the General Meeting.

### 1.3 Impact of the Entitlement Offer and Lead Manager Offer on the Company's capital structure

The expected impact of the Entitlement Offer and the Lead Manager Offer on the Company's capital structure is set out below.

<b>Total number of Shares on issue immediately prior to the Entitlement Offer<sup>25</sup></b>	146,575,546
<b>Total number of Options on issue immediately prior to the Entitlement Offer<sup>26</sup></b>	81,047,286
<b>Total number of New Shares to be issued under the Entitlement Offer</b>	Nil
<b>Total number of Quoted Options to be issued under the Entitlement Offer</b>	58,630,218
<b>Total number of Lead Manager Options to be issued under the Lead Manager Offer</b>	5,000,000
<b>Total number of Shares on issue on completion of the Entitlement Offer</b>	146,575,546
<b>Total number of Quoted Options on issue on completion of the Entitlement Offer<sup>27</sup></b>	58,630,218
<b>Total number of Quoted Options on issue on completion of the Lead Manager Offer<sup>28</sup></b>	63,630,218
<b>Total number of Shares on issue assuming all Quoted Options are exercised<sup>29</sup></b>	210,205,764

<sup>25</sup> Excludes the effects of rounding (and assumes 146,575,546 Shares are on issue on the Record Date). Also excludes the 1,250,000 New Shares to be issued to the Vendors on completion of the Acquisition and the 135,000 New Shares to be issued to each of the Directors in lieu of Director's fees as approved by Shareholders at the Company's 2025 AGM (held on 28 November 2025).

<sup>26</sup> These Options have exercise prices ranging from between \$0.09 to \$0.15 and expiry dates ranging from between 1 November 2026 to 31 December 2026. The Company also has 3,000,000 performance rights on issue (for further details of which, please see the Company's notice of meeting and explanatory memorandum dated 12 August 2025).

<sup>27</sup> This number excludes the Lead Manager Options and assumes that all Quoted Options being offered under the Entitlement Offer are subscribed for by Eligible Shareholders (or subsequently placed by the Lead Manager under the Shortfall Offer). Since the Entitlement Offer is not underwritten, there can be no certainty that all of the Quoted Options the subject of this Prospectus will be issued.

<sup>28</sup> Assumes that Shareholders approve the issue of the Lead Manager Options under Listing Rule 10.11.

<sup>29</sup> Please note that there is no certainty that any Quoted Options will ever be exercised.

## **1.4 Shortfall Offer**

Any Entitlements not taken up under the Entitlement Offer will form part of the Shortfall Offer.

In accordance with Exception 3 of Listing Rule 7.2, the Directors have reserved the right, subject to the Corporations Act and the Listing Rules, to place the Shortfall at their discretion within 3 months of the Closing Date at an issue price not less than the Offer Price to persons who are not Related Parties (or Associates of Related Parties) of the Company. The issue of Quoted Options pursuant to the Shortfall Offer (if applicable) will be made under and in accordance with the terms of this Prospectus.

The Shortfall Offer is a separate offer that may be made under this Prospectus and if applicable will remain open for up to 3 months following the Closing Date. The issue price for each Quoted Option issued under the Shortfall Offer will be \$0.01 (i.e. the same issue price as the Offer Price) and each Quoted Option will otherwise have precisely the same terms as the Quoted Options being offered under the Prospectus. The Company will only conduct the Shortfall Offer if there exists a Shortfall on completion of the Entitlement Offer.

The Company, in consultation with the Lead Manager, will determine allocations of Quoted Options under the Shortfall Offer at their absolute discretion.

## **1.5 Use of funds raised under the Entitlement Offer**

The Entitlement Offer is expected to raise a small amount of working capital (being up to \$586,302.08) which will be used in part to pay for the costs of the Entitlement Offer (expected to be between \$30,000 and \$50,000) and potentially, significantly more capital (being up to approximately \$5.3 million) in the future to allow the Company to continue to pursue its stated objectives if all Quoted Options are ultimately exercised.

The Company will not raise any funds from the issue of the Lead Manager Options.

Eligible Shareholders should note that there is no certainty that any Quoted Options will ever be exercised and the number that are exercised (if any) will depend on various factors including the prevailing Share price relative to the Exercise Price.

The application of any funds raised by the Company following the exercise of Quoted Options (if any) will depend on when the Quoted Options are exercised and the status of the Company's projects and funding requirements at the relevant time.

The above statements of current intention are as at the Prospectus Date. Intervening events and new circumstances have the potential to affect the manner in which any funds raised are ultimately applied by the Company. The Board reserves the right to alter the way funds are applied on this basis.

## 1.6 Details of Substantial Shareholders

As at the Prospectus Date, and based on publicly available information, those persons which (together with their Associates) have a Relevant Interest in 5% or more of the Shares on issue are set out below.

Shareholder	Shares Held	Entitlement	Percentage
Mr Niv Dagan <sup>30</sup>	26,858,398	10,743,359	18.32%
7 Enterprises <sup>31</sup>	10,200,000	4,080,000	6.96%

Mr Niv Dagan has committed to subscribe for his Entitlement in full.

## 1.7 Potential effect on the control of the Company

Based on the current Shareholdings and Entitlements of Shareholders (including the Substantial Shareholders referred to in Section 1.6 above), as at the Prospectus Date, and regardless of the number of Quoted Options that are ultimately issued under the Prospectus, the Entitlement Offer is not expected to have a material (or adverse impact) on the control (as that term is defined in section 50AA of the Corporations Act) of the Company because there are no Shares being offered or issued under the Entitlement Offer.

Furthermore, there will be no change to any Shareholder's voting power as a result of the issue of the Quoted Options (i.e. because no Quoted Option entitles its holder to cast a vote at a meeting of the Company until that Quoted Option is exercised and a New Share issued to that holder). Where a Quoted Option is exercised and a New Share is issued however, the voting power of the Shareholder who exercises their Quoted Option will increase by the number of Quoted Options exercised (and therefore, New Shares issued).

The likelihood of any Quoted Options being exercised is dependent on the market price of Shares from time to time and as at (or nearing) the Expiry Date.

An Optionholder is not permitted to exercise their Quoted Options if doing so would result in that holder breaching section 606 of the Corporations Act.

## 1.8 Potential dilution on non-participating Shareholders

Shareholders should note that their voting power in the Company will not be diluted by the Entitlement Offer (and this is the case regardless of whether they participate in the Entitlement Offer and/or the extent of their participation).

---

<sup>30</sup> Mr Niv Dagan's Relevant Interest in Shares is comprised of his direct holding of 1,205,155 Shares and his indirect holding of 25,653,243 Shares (which Shares are held by 10 Bolivianos Pty Ltd ACN 620 725 902). Mr Dagan is a Non-Executive Director of the Company.

<sup>31</sup> 7 Enterprises Pty Ltd ACN 169 639 883.

However, the subsequent exercise of any or all of the Quoted Options will result in dilution to each Shareholder's voting power (i.e. unless a Shareholder subscribes for their full Entitlement and exercises all of their Quoted Options).

Assuming that all Quoted Options offered under this Prospectus are issued and ultimately exercised into New Shares, Shareholders who do not participate in the Entitlement Offer or who do not exercise such number of Quoted Options as is equivalent to their Entitlement are likely to be diluted by an aggregate of approximately 29% (i.e. relative to their holdings and the number of Shares on issue as at the Prospectus Date).

## **1.9 Pro forma balance sheet**

The pro forma balance sheet set out in Schedule 2 shows the expected impact of the Entitlement Offer on the Company to give Eligible Shareholders information on the Company's pro forma assets and liabilities.

The pro forma balance sheet is presented in an abbreviated form insofar as it does not include all of the disclosures required by Australian (or international) Accounting Standards applicable to annual (or half yearly) financial statements.

The pro forma balance sheet is based on the Company's financial statements for the year ended 30 June 2025 and has been prepared on the basis of the Company's normal accounting policies.

The pro forma balance sheet is not intended to represent the Company's actual financial position on completion of the Entitlement Offer and should be read together with the Company's periodic and continuous disclosures.

## **1.10 Key Risk Factors**

An investment in the Quoted Options the subject of the Entitlement Offer should be regarded as a speculative investment. Accordingly, Eligible Shareholders who are considering whether to participate in the Entitlement Offer should (i) carefully consider all of the disclosures made by the Company (which are available at [www.asx.com.au](http://www.asx.com.au)) and the risks associated with an investment in the Company (some of which are described in Schedule 1), (ii) carefully consider the merits of such an investment in the context of their individual risk profile, investment objectives and financial circumstances and (iii) consult their stockbroker, accountant, financial adviser, solicitor, taxation adviser or other professional adviser (and do so before deciding whether to participate in the Entitlement Offer).

The occurrence of any of the risks referred in this Prospectus may have a materially adverse impact on the Company and accordingly on the price or value of its securities (including the Quoted Options).

Eligible Shareholders should also be aware that there are numerous risks associated with investment in the securities of companies listed on a stock exchange. In almost all cases, the price of listed securities can be expected to fluctuate (meaning, in this case, that the prevailing price of the Quoted Options on ASX may be higher or lower than the Offer Price) depending on various factors including the condition of the local economy, general worldwide economic, political and geopolitical conditions, changes in government policies, taxation and regulatory changes, investor sentiment, movements in interest rates, industrial disruption, environmental incidents and natural disasters and many other factors any of which may affect the listed company's financial performance and condition and/or the price or value of its securities<sup>32</sup>.

In deciding whether to participate in the Entitlement Offer, the Directors recommend that Eligible Shareholders carefully consider the risk factors referred to in Schedule 1.

### **1.11 No Entitlements trading**

Since the Entitlement Offer has been structured as a "non-renounceable" offer, Entitlements are not tradeable on ASX or otherwise transferable. This means that Eligible Shareholders will not receive any value for any Entitlements that they do not take up.

### **1.12 Quotation**

An application for Quotation of the Quoted Options on ASX will be made to ASX within 7 days for the Prospectus Date.

---

<sup>32</sup> In the case of the Company, most (if not all) of these variables are beyond the control of the Company and the Directors.

## **2.5 Not take up any of your Entitlement**

If you do not wish to accept any part of your Entitlement, you do not need to take any further action<sup>35</sup>.

## **2.6 Payment for Quoted Options**

The Offer Price for each Quoted Option subscribed for is payable on subscription. Subscription monies received will be held on trust for Eligible Shareholders until the issue of the Quoted Options.

Any subscription monies received for more than your final allocation of Quoted Options will be refunded (except where the amount is less than \$2.00, in which case it will be retained) by the Company on or about 29 December 2025.

No interest will be paid by the Company on any monies received or refunded. Interest earned (if any) on subscription monies will be for the benefit of the Company.

### **Paying your subscription monies**

Please follow the payment instructions on (or, if applicable, generated on electronic submission of) the Entitlement and Acceptance Form carefully.

Applicants using BPAY® or who pay their subscription monies by EFT should be aware of their financial institution's cut-off time (i.e. the time before which payment must be made to enable it to be processed) and ensure that the subscription monies are received by 5pm (Sydney time) on the Closing Date.

---

<sup>34</sup> If you are a Related Party of the Company or a Substantial Shareholder (or an Associate of either such person), your application for Additional Quoted Options will be rejected.

<sup>35</sup> You will not receive any value for any lapsed Entitlements.

Regardless of the number of Quoted Options (and, if applicable, Additional Quoted Options) specified on your Entitlement and Acceptance Form, you will be deemed to have subscribed for such number of Quoted Options (and, if applicable, Additional Quoted Options) as your subscription monies will pay for in full.

The Company will not be accepting payment by cheque, cash or money order.

## **2.7 Eligible Shareholders**

The Entitlement Offer is available to all Shareholders who are, as at 7pm on the Record Date, registered in accordance with the records of Automic Group (**Share Registry**) with an address in Australia or New Zealand and who can (and do) make the representations set out in Section 2.11.

Shareholders registered with an address outside of Australia or New Zealand or who are unable to make the representations set out in Section 2.11 are not "Eligible Shareholders" (i.e. they are "**Ineligible Shareholders**") and therefore cannot participate in the Entitlement Offer.

### **New Zealand**

The Quoted Options the subject of the Entitlement Offer are not being offered to the public in New Zealand other than to existing Shareholders with a registered address in New Zealand to whom the offer for issue of these securities is being made in reliance on the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021.

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority under the Financial Markets Conduct Act 2013. This document is not a product disclosure statement under New Zealand law and is not required to, and therefore may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

### **Ineligible Shareholders**

In accordance with Listing Rule 7.7.1 and section 9A of the Corporations Act, the Company has decided that it is unreasonable to extend the Entitlement Offer to any Shareholder with a registered address outside Australia or New Zealand. Accordingly, the Entitlement Offer is not being extended to, and no Entitlements or Quoted Options will be issued to, Shareholders who have a registered address outside of Australia or New Zealand.

The Company will send details of the Entitlement Offer to each Ineligible Shareholder and will advise them that they will not be entitled to participate in the Entitlement Offer<sup>36</sup>.

## **2.8 Overseas Shareholders**

This Prospectus does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register the Entitlement Offer, the Entitlements or the Quoted Options, or otherwise permit a public offering of the Entitlements or Quoted Options, in any jurisdiction. This Prospectus (and any material accompanying it) must not be distributed or released in the United States.

This Prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. The Entitlements and the Quoted Options have not been, and will not be, registered under the US Securities Act or the securities laws of any State or other jurisdiction of the United States. The Entitlements may not be acquired and/or taken up by persons in the United States and the Quoted Options may not be offered or sold in the United States except in transactions exempt from, or not subject to the registration requirements of the US Securities Act.

## **2.9 Discretion**

The Company may however, in its absolute discretion, make offers to certain Shareholders in jurisdictions other than those in Australia and New Zealand (and if it does so will only offer those Shareholders such number of Quoted Options that is equivalent to the entitlement to Quoted Options under the Entitlement Offer that those Shareholders would have received had they been eligible to participate in the Entitlement Offer (i.e. had they been registered in either Australia or New Zealand as at 7pm on the Record Date)) provided that the relevant Shareholder is able to receive such an offer without any lodgement, disclosure document or other legal formality in the jurisdiction in which they reside (**Qualified Shareholder**).

## **2.10 Nominee holders**

Shareholders who are nominees, trustees or custodians are advised to seek advice as to whether they may participate in the Entitlement Offer on behalf of their beneficial holders. It is the responsibility of any such Shareholder to ensure compliance with any laws of the country relevant to the beneficial Shareholder. Nominees and custodians may not distribute this Prospectus and may not permit any beneficial Shareholder to participate in the Entitlement Offer in any country outside of Australia and New Zealand except with the consent of the Company.

---

<sup>36</sup> Please note that the Company reserves the right to reject any subscription for Quoted Options that it believes is from an Ineligible Shareholder.

In the event that a nominee, trustee or custodian holds Shares on behalf of more than one Eligible (Beneficial) Shareholders, the nominee, trustee or custodian may only apply for Additional Quoted Options on behalf of an Eligible (Beneficial) Shareholder on whose behalf they have also applied for that holder's Entitlement to be taken up in full (i.e. unless the relevant Eligible (Beneficial) Shareholder is a Related Party (or Associate of a Related Party) of the Company or is a Substantial holder (or an Associate of a Substantial holder) of the Company's shares, in which case they may not apply for any Additional Quoted Options).

## **2.11 Subscriptions for Quoted Options are binding**

By subscribing for Quoted Options (and, if applicable, by applying for Additional Quoted Options) in accordance with the instructions set out on the Entitlement and Acceptance Form (which subscription and application will constitute a legally binding commitment to subscribe for up to the maximum number Quoted Options your subscription monies will pay for in full), you will be deemed by the Company and the Lead Manager to have represented that you (and any person on whose behalf you are acting):

- (a) have full legal capacity and power to subscribe for Quoted Options and, if applicable, apply for Additional Quoted Options;

Full details of the rights and liabilities attaching to New Shares (which will be equivalent to existing Shares) are set out in the Constitution, a copy of which is available for inspection at the Company's registered office.

<p><b>Dividend rights</b></p>	<p>Subject to the rights of any preference Shareholders and to the rights of the holders of any Shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.</p> <p>The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.</p> <p>Subject to the Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.</p>

<b>Winding-up</b>	<p>If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.</p> <p>The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.</p>
<b>Shareholder liability</b>	<p>As the New Shares will be fully paid ordinary shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.</p>
<b>Transfer of New Shares</b>	<p>Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.</p>
<b>Future issues in capital</b>	<p>The issue of any New Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of Shares), the Directors may issue New Shares as they shall, in their absolute discretion, determine.</p>
<b>Alteration of Constitution</b>	<p>In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting.</p>
<b>Variation of rights</b>	<p>Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.</p>

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

## **SCHEDULE 1 (RISK FACTORS)**

---

This Schedule 1 describes some of the potential risks associated with the Company's business and with an investment in the Quoted Options (and the New Shares issued on exercise of any Quoted Options<sup>48</sup>). It does not purport to list every risk that may be associated with the Company and/or an investment in the Quoted Options (either now or in the future). The occurrence and/or consequence of some of the risks described in this Schedule 1 are likely to be partially or completely outside of the control of the Company and the Directors.

The occurrence of any of the risks referred in this Schedule 1 may have a materially adverse impact on the Company and accordingly on the price or value of its Securities (including the Quoted Options).

The selection of risks set out in this Schedule is based on an assessment of a combination of the probability of the risk occurring, the Company's ability to mitigate that risk and the impact on the Company of the risk if it were to occur. That assessment is based on the knowledge of the Company and the Directors as at the date of this Prospectus. Please note however that there is no guarantee or assurance that the importance of the different risks will not change or that other risks will not emerge.

Before subscribing for Quoted Options under this Prospectus, Eligible Shareholders should satisfy themselves that they have sufficient understanding of the risks to which the Company and the Quoted Options are subject and should consider whether the Quoted Options being offered under the Entitlement Offer are a suitable investment for them having regard to their own personal circumstances, investment objectives, financial situation and tax position.

If Eligible Shareholders are uncertain as to whether the Quoted Options represent a suitable investment for them, they should seek professional advice from their stockbroker, lawyer, accountant or other appropriately qualified professional adviser before deciding whether to invest. Investors should also note that past performance and historical results are not an indication of future expected performance or future expected results.

Eligible Shareholders should note that the Quoted Options will likely be inherently more risky than the Shares because they have an expiry date (i.e. the Expiry Date) after which time they will expire and cease to exist and the market for them (if any) on ASX may be highly illiquid.

Additional risks associated with the Quoted Options relate to the volatility of the Shares, the more complex methodology that applies to determining a valuation for the Quoted Options, the Share price on ASX relative to the Exercise Price and the time (at any particular time before the Expiry Date) until the Expiry Date.

---

<sup>48</sup> Unless the context requires otherwise, a reference in this Schedule 1 to the risks associated with the Quoted Options includes the risks associated with the New Shares issued on exercise of any Quoted Options.

<p><b>Limited history</b></p>	<p>The prospects of the Company must be considered in the light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development, particularly in the mineral exploration sector, which has a high level of inherent uncertainty.</p> <p>Having been incorporated on 4 June 2021, the Company has limited operating history and limited historical financial performance, although it should be noted that the Directors and key management have between them significant operational experience.</p> <p>No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of the claims and tenements forming the Company's projects. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.</p>
<p><b>Funding</b></p>	<p>Terra will require further capital in addition to the amount raised under the Entitlement Offer to fund the continued exploration of its projects in Australia and in North America and to finance its operations more generally (including with respect to the funding required in order to maintain its projects in good standing and to be able to honour its commitments under its various joint ventures). Any additional equity financing will dilute Shareholdings and any debt financing, if available, may, in addition to requiring the timely payment of interest and the repayment of principal, involve restrictions on financing and operating activities.</p> <p>There is however no guarantee that the Company will be able to secure any additional funding (whether in debt or equity) or be able to secure funding on terms favourable to the Company. If the Company is unable to secure additional funding as needed, it may be required to reduce the extent of its proposed exploration activities in Australia and in North America and the scope of its operations more generally, including by abandoning its joint venture interests or by selling or forfeiting some or all of its projects and exploration tenure.</p>
<p><b>Expenses and liabilities</b></p>	<p>The Company's short- and medium-term strategic plans (which primarily relate to the continued exploration of its projects in Australia and North America and financial condition may vary with fluctuations in the Company's capital and operating costs (noting that the Company is operating in a highly capital-intensive industry). Any unanticipated increase in the Company's capital or operating costs could have a materially adverse impact on the Company's strategic plans and/or financial condition.</p>

	<p>The Company's main operating expenses include but are not limited to licensing and permitting costs, the costs associated with exploration, contractor and employee costs, drilling costs, input costs and energy costs. Material changes in the costs of the Company's operating activities as well as its cost of capital could also occur as a result of unforeseen events, the occurrence of which may also adversely affect the Company's financial condition.</p> <p>The Company's ability to continue as a going concern is dependent on a number of factors, including its ability to settle its trade creditors and related payables (noting that the Company currently owes various third-party creditors in excess of \$500,000 collectively). While the Company is confident that it will be able to settle its trade creditors and related payables in a timely manner, Shareholders should note that there can be no certainty that the Company will have sufficient working capital available to it to do so either in part or at all.</p> <p>Failure to settle the outstanding amounts owed will likely result in the parties to whom those amounts are owed seeking to recover those amounts, whether by litigation or other avenues available to them. Any such action would constitute a significant strategic setback for the Company and would likely threaten the Company's ability to continue as a going concern.</p>
<p><b>Exploration and operations</b></p>	<p>The claims forming the Company's projects are at an early-stage of exploration and prospective investors should understand that mineral exploration and development are speculative and high-risk undertakings that may be impeded by circumstances beyond the control of the Company.</p> <p>Success in this process involves, among other things:</p> <ul style="list-style-type: none"> <li>• discovering and proving-up, or acquiring, an economically recoverable resource or reserve;</li> <li>• access to adequate capital throughout the discovery and project development phases;</li> <li>• securing and maintaining title to mineral projects;</li> <li>• obtaining required development consents and approvals necessary for the mineral exploration, development and production phases; and</li> <li>• accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.</li> </ul>

	<p>There can be no assurance that future exploration and development of the Company's projects, or any other mineral projects that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited.</p> <p>The future exploration and development activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process and Aboriginal rights and title, including First Nations and Métis communities, and related consultation issues, changing government regulations and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company being able to maintain title to the claims forming the Company's projects, or any other mineral projects that may be acquired in the future, and obtaining all required approvals for their contemplated exploration activities. In the event that exploration programs prove to be unsuccessful this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the claims forming the projects.</p> <p>Like all exploration companies, the Company will continue to assess the prospectivity of its portfolio of exploration projects in the light of market conditions, commodity prices, exploration results and anticipated exploration expenses and related costs and may in the future decide to dispose (whether by sale, the relinquishment of tenements or the abandonment or unwinding of its joint venture interests) of certain of its exploration tenure (whether in Australia, Canada or in the USA).</p>
<p><b>Title to mineral properties</b></p>	<p>The acquisition of title to mineral properties is a very detailed and time-consuming process. The claims forming the Company's projects and other mineral properties that may be acquired in the future and the Company's ownership interests may be affected by prior unregistered agreements or interests or undetected defects in title, such as the reduction in size of the mineral titles and other third party claims. Mineral properties sometimes contain claims or transfer histories that examiners cannot verify.</p>

	<p>A successful claim that the Company does not have title to any of its mineral properties could result in the Company losing any rights to explore, develop and mine any minerals on that property, without compensation for its prior expenditures relating to such property, or might require the Company to compensate other third-parties. In addition, in any such case, the investigation and resolution of title issues would likely divert management's time from ongoing exploration and development programs. Although the Company is satisfied that it has taken reasonable measures to ensure good and proper title to the claims forming its projects, this should not be construed as a guarantee of title or that title to the claims or other mineral properties acquired in the future will not be challenged or impaired.</p> <p>Maintenance of the Company's interests in the claims forming its projects is subject to ongoing compliance with the terms of the claims and the provisions of the applicable statutes and regulations governing the claims. Under Saskatchewan law, the Company is required to make certain payments and take certain actions (including satisfying expenditure requirements (or rendering deficiency payments) and meeting work commitments requirements) in order to maintain the claims in good standing. If the Company fails to comply with the terms of the claims or a provision of the applicable statutes or regulations (including defaulting with respect to making payments or completing assessment work as required), there is a risk that the claims may lapse or be cancelled by the Province of Saskatchewan and the Company may lose its rights to the properties underlying the claims.</p> <p>Similar requirements and risks apply to the Company's New South Wales-based and (proposed) Nevada-based projects.</p>
<p><b>Permits</b></p>	<p>Permits, leases, licences and approvals are required from a variety of governmental and non-governmental authorities at various stages of exploration and development.</p> <p>There can be no assurance that the various permits, leases, licences and approvals required for the Company to carry out exploration, development and mining operations on its projects will be obtained on reasonable terms or at all or, if obtained, will not be cancelled or renewed upon expiry in the future.</p> <p>In addition, there is no assurance that such permits, leases, licences and approvals will not contain terms and provisions which may adversely affect the Company's exploration activities.</p>

	<p>Delays may occur in obtaining necessary renewals or modifications of permits, leases, licences and approvals for existing or future operations and activities, or additional or amended permits, leases, licences and approvals associated with new legislation. Such permits, leases, licences and approvals are subject to changes in regulations and in various operating circumstances. Delay or a failure to obtain required permits, leases, licences and approvals may materially affect the Company's business and prospects.</p>
<b>Renewal</b>	<p>The Company's claims are subject to periodic renewal. The renewal of the term of the claims is subject to compliance with applicable mining legislation and regulations and the discretion of the relevant mining authority. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the claims. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p>
<b>Climate</b>	<p>There are a number of climate-related factors that may affect the operations and activities of the Company. The climate change risks particularly attributable to the Company include:</p> <ul style="list-style-type: none"> <li>• the emergence of new or expanded regulations associated with transitioning to a lower-carbon economy and market changes related to climate change mitigation. Terra may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be adversely impacted; and</li> <li>• climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.</li> </ul> <p>All these risks associated with climate change may significantly change the industry in which the Company operates.</p>

<p><b>First Nations</b></p>	<p>In relation to the claims which the Company has an interest in or mineral properties which the Company may acquire an interest in the future, there may be areas over which certain native title, Aboriginal heritage or culture rights exist pursuant to treaties or otherwise. Native title, Aboriginal heritage or culture rights have the potential to adversely affect the Company's exploration activities, including adversely affecting the Company's ability to obtain permits, leases, licences or other approvals or the terms of those approvals, cause delays in activities or result in the inability to explore and develop.</p> <p>The Directors will closely monitor the potential effect of native title, Aboriginal heritage and related culture matters relevant to the Company's claims and any other mineral properties which the Company may acquire in the future. However, there can be no assurance that Aboriginal title claims and related issues will not arise on or with respect to the Company's claims or other mineral properties acquired in the future.</p>
<p><b>Exploration costs</b></p>	<p>The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainty, and accordingly, the actual costs may materially differ from the estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely impact the Company's economic viability.</p>
<p><b>Resources and reserves</b></p>	<p>The Company has identified a number of geological targets based on geological interpretations and limited geophysical data, geochemical sampling and drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploration works with the aim of defining an exploration target or mineral resource, no assurances can be given that additional exploration will result in the delineation of an exploration target, mineral resource or ore reserve on any of the geological targets identified. Even if a mineral resource is identified no assurance can be provided that this can be economically extracted.</p>

	<p>Mineral resource and ore reserve estimates are expressions of judgment based on analysis of drilling results, past experience with mining properties, knowledge, experience, industry practice and many other factors and by their nature resource and reserve estimates are imprecise and depend, to a certain extent, upon statistical inferences which may ultimately prove unreliable. Estimates which are valid when initially calculated may change significantly when new information or techniques become available. In addition, reserve and resource estimation is an interpretive process based on available data and interpretations and accordingly, estimations may prove to be inaccurate.</p>
<b>Grant of future authorisations</b>	<p>If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various permits, leases, licences and approvals before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required permits, leases, licences and approvals. To the extent that required permits, leases, licences and approvals are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>
<b>Environment</b>	<p>Environmental risks are inherent in all minerals exploration, development and production activities. The Company seeks to conduct its operations and activities to the highest standard of environmental obligations, including in compliance with all relevant environment laws and regulations. The Company seeks to adopt practices which the Company believes are appropriate to minimise the potential of causing environmental damage in all the Company's operations, but no assurance can be made that the Company will not be affected by environmental claims or associated issues in the future. The Company is unable to predict the effect on its operations of any additional or amended environmental laws and regulations that may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations at any of its projects.</p>
<b>Regulatory compliance</b>	<p>The Company's operations and proposed activities are subject to extensive laws and regulations relating to numerous matters including resource licence consent, environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, climate change and greenhouse emissions, protection of the environment, native title, culture and heritage matters, protection of endangered and protected species and other matters.</p>

	<p>The Company requires permits, leases, licences and approvals from various regulatory authorities in Australia, Canada and the United States to authorise the Company's operations. These permits, leases, licences and approvals relate to exploration, development, production and rehabilitation activities.</p> <p>While the Company believes that it will operate in substantial compliance with all material current laws and regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits, leases, licences and approvals and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned activities.</p> <p>Obtaining necessary permits, leases, licences and approvals can be a time-consuming process and there is a risk that Company will not obtain these permits, leases, licences and approvals on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits, leases, licences and approvals and complying with these permits, leases, licences and approvals and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operation or development of a mine.</p> <p>Any failure to comply with applicable laws and regulations or permits, leases, licences or approvals, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of the Company's activities or forfeiture of one or more of the Company's claims (or any other mineral properties the Company may acquire in the future).</p>
<p><b>Commodity prices</b></p>	<p>The Company's ability to explore, develop and ultimately generate revenue from the sale of minerals is highly dependent on the market prices for the minerals that it is exploring for (including uranium, tin, silver and tungsten). If the market price of any of those commodities were to decline precipitously, the Company may be unable to raise further capital to explore or develop any of its projects.</p>

<b>Litigation</b>	The Company is subject to the usual business risk that a dispute or litigation may arise from time to time in the ordinary course of its business activities. Litigation risks relating to the Company include, but are not limited to, creditor claims, contractual claims, occupational health and safety claims, employee claims and regulatory disputes. There is a risk that material or costly disputes could affect the Company's operation and financial condition and/or performance.
<b>Dilution</b>	<p>In the future, the Company will almost certainly elect to issue additional Equity Securities or engage in capital raisings to fund operations and growth, for investments or acquisitions that the Company may decide to undertake, to repay debt or for any other reason the Board may determine at the relevant time.</p> <p>While the Company will be subject to the constraints of the Listing Rules regarding the percentage of its capital that it is able to issue within a 12 month period (other than where exceptions apply), Shareholders may be diluted as a result of such issues of Shares or other Securities.</p>
<b>Force majeure</b>	Significant events – such as war, acts of terrorism, loss of power, cyber security breaches or natural disasters could all materially disrupt the Company's operations or otherwise harm its business.
<b>Foreign exchange</b>	Significant changes in the Australian Dollar, Canadian Dollar and US Dollar exchange rates may have a material impact on the Company's ability to fund its Canadian Dollar-denominated and US Dollar-denominated capital and operational expenditures.
<b>General risk</b>	<p>Changes in or the occurrence of any of the following general risks may also significantly (and adversely) impact the Company, its performance and the value or market price of the Quoted Options being offered under the Entitlement Offer:</p> <ul style="list-style-type: none"> <li>• economic and political conditions in Australia, Canada the United States and internationally;</li> <li>• changes in tax and other laws (and changes in the manner in which those taxes and other laws are administered);</li> <li>• natural disasters;</li> <li>• war or terrorist attacks; and</li> <li>• opposition of environmental or community groups to the Company's (or the industry's more generally) activities.</li> </ul>

<b>Equity market fluctuations</b>	Investors are strongly advised to regard an investment in the Quoted Options as a long-term proposition and to be aware that, as with any equity investment, substantial fluctuations in the value of their investment may occur. This means that the market price of the Quoted Options may decrease (or even go to zero) or increase from time to time.
