## Chairman's Letter

---

Dear Shareholder,

As announced on 22 October 2025, the Company undertook a capital raising placement to raise approximately \$3 million via the issue of 53,128,488 new fully paid ordinary shares (**Shares**) to Frisden Pty Ltd, an entity associated with Mr Maurice Crotti, AO (**Placement**). The Placement Shares were issued at \$0.056 per Share (**Placement Price**). The Placement Price represented a 10% discount to the volume weighted average price (**VWAP**) of the Company's Shares traded over the 30 days up to and including 20 October 2025. In order to ensure that the Company's shareholders have the same opportunity to acquire Shares at the Placement Price, the Company announced its intention to undertake an entitlement offer at an issue price equal to the Placement Price.

On behalf of the Directors of MBH, I am pleased to now invite you to participate in a 1-for-10 pro-rata non-renounceable entitlement offer of new Shares (**New Shares**) at an offer price of \$0.056 (**Offer Price**) per New Share, to raise up to approximately \$2.28 million (**Entitlement Offer**) (before costs).

The Entitlement Offer is being undertaken to raise funds to further strengthen the Company's balance sheet and for general working capital purposes.

### Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders (as defined in Section 1.2 of this Offer Booklet) are being offered the opportunity to subscribe for 1 New Share for every 10 existing Shares held at 7.00pm (Melbourne time) on Thursday 27 November 2025 (**Record Date**) at the Offer Price of \$0.056 per New Share, which is the same price as the Placement Price. The Offer Price represents a discount of approximately 10.3% to the VWAP of Shares traded on ASX, calculated over the 30 days on which trades in Shares were recorded, up to and including 19 November 2025.

The Entitlement Offer is not underwritten. Taylor Collison has been appointed as the sole lead manager and bookrunner to the Entitlement Offer (**Lead Manager**). Refer to Section 5.11 of this Offer Booklet for more information on the Lead Manager's engagement.

### Top-Up Facility

Eligible Shareholders who take up their Entitlement in full may also apply for additional New Shares in excess of their Entitlement (**Additional New Shares**) under a Top-Up Facility (**Top-Up Facility**). Additional New Shares will be sourced from Entitlements that were not taken up by other Eligible Shareholders under the Entitlement Offer. Please see Sections 1.7 and 1.9 for further details on how Additional New Shares will be allocated to Eligible Shareholders. There is no guarantee that a Shareholder who applies for Additional New Shares will receive all or any of the Additional New Shares that they applied for. Shareholders who participate in the Top-Up Facility will do so without incurring any brokerage costs. New Shares issued under the Top-Up Facility will rank equally with existing Shares on issue.

### Shortfall Offer

If there remain any Shares not taken up by Eligible Shareholders (including after the application of the Top-Up Facility), the Board reserves the right to issue all or any of the remaining shortfall New Shares at their discretion under a separate offer (**Shortfall Offer**). The Shortfall Offer will be offered through a placement to eligible professional and sophisticated investors at the same price and under the same terms as the Entitlement Offer. Shareholders who participate in the Shortfall Offer will do so without incurring any brokerage costs. Shares issued under the Shortfall Offer will rank equally with existing Shares on issue.

The Entitlement Offer is non-renounceable and the Entitlements will not be tradeable on the ASX or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any value in respect of those Entitlements they do not take up.

### Director participation

The Directors of the Company who are also Eligible Shareholders will be entitled to participate in the Entitlement Offer on the same terms as other Eligible Shareholders, to the extent of their full Entitlement. The Board fully supports the Entitlement Offer and each Director who is an Eligible Shareholder intends to participate in the Entitlement Offer to the full extent of their Entitlement.

### **Actions required to take up your Entitlement**

Your entitlement to subscribe for New Shares under the Entitlement Offer is set out in your personalised Entitlement and Acceptance Form accompanying this Offer Booklet. Instructions on how to participate in the Entitlement Offer are set out in Section 3.

The Entitlement Offer closes at 5:00pm (Melbourne time) on Thursday 11 December 2025, unless extended. To participate, you need to ensure that either your completed Entitlement and Acceptance Form and Application Money, or your Application Money submitted by BPAY®, are received before this time, in accordance with the instructions set out on the form and in Section 3.

If you take no action or your Application is not supported by cleared funds, you will be deemed to have renounced your Entitlement. You should note that if you renounce all or part of your Entitlement, then your percentage shareholding in the Company will be diluted by your non-participation in the Entitlement Offer.

### **Other information**

This Offer Booklet contains important information about the Entitlement Offer and MBH's business.

Please carefully read this Offer Booklet in its entirety before you accept the Offer to invest in New Shares and the other publicly available information about the Company, including information on our website ([www.maggiebeerholdings.com.au](http://www.maggiebeerholdings.com.au)) and consult your stockbroker, legal adviser, accountant or other professional adviser before making your investment decision. In particular, you should read and carefully consider the risks in Section 6 of this Offer Booklet, which contains a summary of some of the key risks associated with an investment in MBH.

### **The Entitlement Offer closes at 5.00pm (Melbourne time) on Thursday 11 December 2025.**

On behalf of the Board, I encourage you to consider this investment opportunity and thank you for your continued support.

Yours sincerely,

Mark Lindh

# 1 Overview of Entitlement Offer

---

## 1.1 Entitlement Offer

Eligible Shareholders are invited to participate in a pro-rata non-renounceable entitlement offer of New Shares, on the basis of 1 New Share for every 10 Shares held on the Record Date, at an Offer Price of \$0.056 per New Share (**Entitlement Offer**). The Company will issue up to approximately 40,731,841 New Shares under the Entitlement Offer, to raise up to approximately \$2.28 million (before costs).

Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a New Share, such fraction will be rounded up to the nearest whole New Share.

Eligible Shareholders can also apply for Additional New Shares (described in Section 1.7 below) in addition to their Entitlement by following the instructions set out in Section 3.3.

The Offer Price represents a discount of approximately 10.3% to the VWAP of Shares traded on ASX, calculated over the 30 days on which trades in Shares were recorded, up to and including 19 November 2025.

The Entitlement Offer is non-renounceable, which means the Entitlements are non-transferable and cannot be sold or traded.

The Entitlement Offer closes at 5.00pm (Melbourne time) on Thursday 11 December 2025.

New Shares will be issued on a fully paid basis and will rank equally with existing Shares on issue.

Taylor Collison has been appointed as sole lead manager and bookrunner to the Entitlement Offer. The Entitlement Offer is not underwritten.

## 1.2 Who is eligible to participate in the Entitlement Offer?

The Offer is made to you under this Offer Booklet if you are an Eligible Shareholder (as defined below).

**Eligible Shareholders** are those persons who:

- (a) are registered as a holder of Shares as at the Record Date, being 7:00pm (Melbourne time) on Thursday 27 November 2025;
- (b) have a registered address in Australia or New Zealand;
- (c) are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States; and
- (d) are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

Shareholders that are not Eligible Shareholders are **Ineligible Shareholders**. Ineligible Shareholders will not be entitled to participate in the Entitlement Offer.

The Company is of the view that it is unreasonable to make the Entitlement Offer to Ineligible Shareholders due to the small number of such Shareholders and the number and value of New Shares these Shareholders would be offered, the cost of complying with applicable regulations in jurisdictions outside Australia or New Zealand, and the administrative burden that will be placed on the Company in making the Entitlement Offers available to Shareholders outside Australia or New Zealand.

The Company reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

## 1.3 Purpose of the Entitlement Offer

If fully subscribed, the Entitlement Offer will raise approximately \$2.28 million (before costs).

The funds raised from the Entitlement Offer are proposed to be applied as follows:

Use of funds	Amount (A\$)
General working capital	2,180,984
Costs of the Offer	100,000
<b>Total funds raised under the Offer</b>	<b>2,280,984</b>

Actual expenditure may differ significantly from the above estimates due to a number of factors including market conditions, the development of new opportunities and other factors (including the risk factors outlined in Section 6).

If less than \$2.28 million is raised pursuant to the Entitlement Offer, the Company will firstly pay the associated expenses of the Offers and then scale back funds available for expenditure on general working capital purposes.

#### 1.4 Minimum subscription

There is no minimum subscription for the Entitlement Offer.

#### 1.5 Entitlements and acceptance

The Entitlement Offer opens for acceptances on Tuesday 2 December 2025, and all Entitlement and Acceptance Forms and payments of Application Monies must be received by no later than 5.00pm Melbourne time) on Thursday 11 December 2025, subject to the Directors being able to vary the Closing Date in accordance with the Listing Rules.

The Entitlement of Eligible Shareholders to participate in the Entitlement Offer is determined on the Record Date of 7:00pm on Thursday 27 November 2025. Your Entitlement is shown on the Entitlement and Acceptance Form accompanying this Offer Booklet.

Acceptance of a completed Entitlement and Acceptance Form and Application Monies by the Company creates a legally binding contract between the Applicant and the Company for the number of New Shares accepted by the Company. The Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of New Shares.

If an Entitlement and Acceptance Form is not completed correctly, it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

#### 1.6 No rights trading

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any value in respect of those Entitlements that they do not take up.

#### 1.7 Top-Up Facility – Additional New Shares

Eligible Shareholders that have fully subscribed for their Entitlements under the Entitlement Offer will be able to subscribe for additional New Shares (**Additional New Shares**). Additional New Shares will be sourced from Entitlements that were not taken up under the Entitlement Offer.

Eligible Shareholders can subscribe for Additional New Shares by following the instructions in Section 3.3.

There is no guarantee that Eligible Shareholders who apply for Additional New Shares will receive all or any of the Additional New Shares that they applied for. Eligible Shareholders who apply for Additional New Shares may be allocated a lesser number of Additional New Shares than applied for, or may be allocated no Additional New Shares at all, in which case excess Application monies will be refunded without interest.

The Directors reserve the right to allot and issue Additional New Shares in their absolute discretion, in consultation with the Lead Manager. When determining the allocation of Additional New Shares in the Top-Up Facility or the amount (if any) by which to scale back an application, the Company and Lead Manager may take into account a number of factors, including the size of an Applicant's Shareholding in the Company.

No Additional New Shares will be issued to an applicant under the Top-Up Facility if:

- (a) the Applicant is a related party of the Company or a person to whom ASX Listing Rule 10.11 applies; or
- (b) if, in the view of the Directors, to do so would contravene the Corporations Act (including the takeover prohibition in section 606), the Company's Constitution, the Listing Rules, or any other applicable law.

The aggregate number of Additional New Shares will not exceed the shortfall from the Entitlement Offer, and there is no guarantee that Eligible Shareholders will be allocated any Additional New Shares.

If you apply for Additional New Shares and your Application is successful (in whole or in part) your Additional New Shares will be issued at the same time as other New Shares are issued under the Entitlement Offer.

## 1.8 Shortfall Offer

Any New Shares offered under the Entitlement Offer that are not applied for by the Closing Date (after application of the Top-Up Facility) will form the Shortfall Shares.

To the extent that any Shortfall Shares remain at the Closing Date, the Board reserves the right to place any Shortfall Shares at their discretion within three months after the Closing Date under a separate offer (**Shortfall Offer**) (the Entitlement Offer (including the Top-Up Facility) and Shortfall Offer together, the **Offer**). The Shortfall Offer is a separate offer made under this Offer Booklet. The issue price per Share to be issued under the Shortfall Offer will be \$0.056, being the price at which New Shares have been offered under the Entitlement Offer.

Applications for the Shortfall Offer can only be submitted by invitation from the Company or the Lead Manager. Any investor who the Company invites to participate in the Shortfall Offer will need to follow the procedure advised to them by the Company or Lead Manager for applications under the Shortfall Offer.

## 1.9 Allocation policy of New Shares not taken up under Entitlement Offer

If there are any Entitlements to New Shares not taken up under the Entitlement Offer, the remaining New Shares not taken up will be allocated in the following priority, in each case subject to compliance with applicable laws and the terms set out in this Offer Booklet:

- (a) firstly, to Eligible Shareholders who have applied for Additional New Shares through the Top-Up Facility; these Additional New Shares will be issued at the same time as the New Shares issued under the Entitlement Offer; and
- (b) to the extent that Shortfall Shares remain, to sophisticated or institutional investors (other than a related party of the Company or a person to whom ASX Listing Rule 10.11 applies) who may be existing Shareholders or new investors, at the discretion of the Board, in consultation with the Lead Manager; these Shortfall Shares will be issued under the Shortfall Offer within 3 months of the Closing Date.

The above allocation policy has been structured to allow each Eligible Shareholder to participate in any shortfall in priority to any other investors, to try to reduce the number of Shortfall Shares that may be issued to other third parties.

In applying the allocation policy above, the Directors will seek to ensure that no Shares will be issued to any person pursuant to this Offer Booklet if, in the view of the Directors, to do so would contravene the Corporations Act (including the takeover prohibition in section 606), the Company's Constitution, the Listing Rules, or any other applicable law.

#### **1.10 Ranking of New Shares**

Shares issued under the Offer will rank equally with existing Shares.

#### **1.11 Withdrawal of Entitlement Offer**

The Board reserves the right to withdraw all or part of the Entitlement Offer at any time before the issue of New Shares, in which case the Company will refund Application Monies without payment of interest.

#### **1.12 No cooling off rights**

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your application or payment once it has been accepted, except as allowed by law.

#### **1.13 Allotment of New Shares and ASX quotation**

It is expected that the New Shares under the Entitlement Offer, including Additional New Shares under the Top-Up Facility, will be allotted no later than Thursday 18 December 2025. However, if the Closing Date is extended, the date for allotment may also be extended. The Company intends to apply for quotation of the New Shares upon their allotment.

Your Entitlement to participate in the Entitlement Offer will be determined on the Record Date. The number of New Shares which each Eligible Shareholders is entitled to is shown on the personalised Entitlement and Acceptance Form accompanying this Offer Booklet.

### 3.2 If you wish to accept your Entitlement in full or in part

If you wish to accept your Entitlement in full or in part, you should follow the instructions on your personalised Entitlement and Acceptance Form, and ensure you make payment (whether by BPAY®, cheque or bank draft) of the total Application Monies (calculated at \$0.056 per New Share accepted under the Entitlement Offer) so that is received by the Share Registry by no later than the Closing Date.

*Either:*

#### Payment by cheque or bank draft

If you are paying for your New Shares by cheque, bank cheque or bank draft, complete and return the Entitlement and Acceptance Form with your payment. The Share Registry must receive your completed Entitlement and Acceptance Form together with full payment for the number of New Shares for which you are applying by no later than 5.00pm (Melbourne time) on Thursday 11 December 2025.

Your cheque, bank cheque or bank draft must be paid in Australian currency and be drawn on an Australian branch of an Australian financial institution. Your payment must be for the full amount required to pay for the New Shares applied for. Payments in cash will not be accepted.

Cheques must be made payable to '**Maggie Beer Holdings Ltd**' and crossed 'Not Negotiable'.

You must ensure that your cheque account has sufficient funds to cover your payment, as your cheque will be presented for payment on receipt. If your bank dishonours your cheque your application will be rejected. We will not re-present any dishonoured cheques.

*or:*

#### Payment by BPAY®

If you are paying for your New Shares by BPAY®, please refer to your personalised instructions on your Entitlement and Acceptance Form. Please note that should you choose to pay by BPAY®:

- (a) you do not need to complete or return the Entitlement and Acceptance Form but are taken to have made the declarations on that personalised Entitlement and Acceptance Form;

- For personal use only
- (b) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares as is covered in full by your Application Monies; and
  - (c) if you pay an amount in excess of your Entitlement you are deemed to have taken up your full Entitlement, and any additional amount paid is deemed to be an application for Additional New Shares.

When completing your BPAY® payment, please make sure to use the specific Biller Code and unique reference number provided on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form (i.e. where you have multiple holdings), please only use the reference number specific to the Entitlement on that form. If you inadvertently use the same reference number for more than one of your Entitlements, you will be deemed to have applied only for New Shares or Additional New Shares on the Entitlement to which the reference number applies.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by 5.00pm (Melbourne time) on Thursday 11 December 2025. Neither the Company nor the Share Registry shall be responsible for any delay in the receipt of your BPAY® payment.

Excess Application Monies that are not sufficient to subscribe for a number of New Shares or Additional New Shares multiplied by the Offer Price will be refunded to you except where that amount is less than \$2.00, in which case it will be retained by the Company. The method by which you receive the refund will be at the discretion of the Company. No interest will be paid to Eligible Shareholders on any Application Monies received or refunded.

### 3.3 If you wish to apply for Additional New Shares under the Top-Up Facility

If you have accepted your Entitlement in full and wish to apply for Additional New Shares under the Top-Up Facility, then:

- (a) if paying by cheque or bank draft:
  - (i) you should complete the relevant sections of the Entitlement and Acceptance Form, nominating the number of Additional New Shares that you wish to apply for and the corresponding payment amount; and
  - (ii) you should make payment as set out in Section 3.2 above for an amount that is the aggregate of the amount payable for both the New Shares and the Additional New Shares; and
- (b) if paying by BPAY®:
  - (i) follow the instructions set out in Section 3.2 above and make payment for the aggregate of the amount payable for both the New Shares and the Additional New Shares; and
  - (ii) the amount paid which exceeds your Entitlement will be deemed to be an application for Additional New Shares.

There is no guarantee that Eligible Shareholders will receive the number of Additional New Shares applied for, or any. The number of Additional New Shares will not exceed the shortfall from the Entitlement Offer. The Directors reserve the right to allot and issue Additional New Shares in their absolute discretion taking into account the factors set out in Sections 1.7 and 1.9.

To the extent that any Shortfall Shares remain at the Closing Date, the Board also reserves the right to place any Shortfall Shares at their discretion within 3 months after the Closing Date under the Shortfall Offer.

### 3.4 If you do not wish to accept all or any part of your Entitlement

To the extent you do not accept all or any part of your Entitlement, it will lapse.

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Shareholders who do not take up their Entitlements in full will not receive any value in respect of the Entitlements they do not take up, and their percentage shareholding in the Company may be reduced following the issue of New Shares.

### 3.5 Payment

The Offer Price of \$0.056 per New Share is payable in full on application. The Application Monies payable for your Entitlement is set out on your Entitlement and Acceptance Form.

Application Monies must be received by the Share Registry by 5.00pm (Melbourne time) on the Closing Date.

Application Monies will be held in trust in a subscription account until allotment. Any interest earned on Application Monies will be for the benefit of the Company and will be retained by the Company whether or not the allotment of New Shares takes place.

## 4 Effect of Entitlement Offer

### 4.1 Capital structure on completion of the Entitlement Offer

On completion of the Entitlement Offer, and assuming that the Entitlement Offer is fully subscribed, the Company's capital structure will be as follows (subject to rounding of fractional entitlements):

	Number
Shares on issue as at the date of this Offer Booklet	407,318,408
Maximum New Shares to be issued under the Entitlement Offer	40,731,841
<b>TOTAL</b>	<b>448,050,249</b>

### 4.2 Effect of the Entitlement Offer on control of the Company

The potential effect that the Entitlement Offer will have on the control of the Company and the consequences of that effect will depend on a number of factors, such as investor demand, existing shareholdings and the extent to which Shortfall Shares are available and ultimately taken up by participants in the Shortfall Offer.

It is a general rule under section 606 of the Corporations Act that a person cannot acquire a relevant interest in issued voting shares in a company if, because of the transaction in relation to securities, a person's Voting Power in the company increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%. The Company has not appointed a nominee in respect of the Entitlements of Ineligible Shareholders pursuant to section 615 of the Corporations Act. Accordingly, the exemption to the 20% takeovers threshold under item 10 of section 611 of the Corporations Act is not available to Shareholders taking up their Entitlement under the Entitlement Offer.

The Company will manage the Entitlement Offer, such that no Shares will be issued to any person pursuant to this Offer Booklet if, in the view of the Directors, to do so would contravene the Corporations Act (including the takeover prohibition in section 606), the Company's Constitution, the Listing Rules, or any other applicable law.

Based on the above matters, the potential effect which the issue of New Shares pursuant to the Entitlement Offer (including the Additional New Shares) and Shortfall Shares under the Shortfall Offer will have on the control of the Company is as follows:

- (a) if all Eligible Shareholders take up their full entitlements under the Entitlement Offer, the New Shares issued under the Entitlement Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer; and
- (b) in the event that there is a shortfall in the Entitlement Offer, Eligible Shareholders who do not subscribe for their full Entitlement of New Shares under the Entitlement Offer will be diluted relative to those Shareholders who subscribe for some or all of their Entitlement, and will be diluted by any take up of Additional New Shares or Shortfall Shares.

The impact of control of the Company as a result of the Entitlement Offer and (Shortfall Offer) will ultimately be affected by the level of Applications under the offers. The final percentage interests held by Shareholders of the Company is dependent on the extent to which other Eligible Shareholders take up their Entitlements and whether any Additional New Shares or Shortfall Shares are issued.

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 10% (as compared to their holdings and number of Shares on issue at the date of this Offer Booklet). Examples of how the dilution may impact Shareholders are detailed in the table below.

### 4.3 Potential dilution effect

If you do not participate in the Entitlement Offer, your holdings in the Company will be diluted as a result of the Entitlement Offer (compared with your position before the Entitlement Offer), after the issue of New Shares under the Entitlement Offer and Shortfall Offer.

The following are examples of how any dilution may impact you if you do not participate in the Entitlement Offer, assuming a maximum of New Shares are issued pursuant to the offers:

Holder	No. of Shares at Record Date	% at Record Date	Entitlement Shares under the Entitlement Offer	Shareholdings if Entitlement not taken up	% post Offer <sup>(1)</sup>
Example Shareholder 1	20,000,000	4.91%	2,000,000	20,000,000	4.46%
Example Shareholder 2	10,000,000	2.46%	1,000,000	10,000,000	2.23%
Example Shareholder 3	5,000,000	1.23%	500,000	5,000,000	1.12%
Example Shareholder 4	2,500,000	0.61%	250,000	2,500,000	0.56%
Example Shareholder 5	1,000,000	0.25%	100,000	1,000,000	0.22%

Note:

(1) *The dilutionary effect shown in the table is the maximum percentage on the assumption that any Entitlements not accepted are taken up as Additional New Shares, or placed under the Shortfall Offer. If all Entitlements are not accepted and some or all of the entire resulting shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.*

The information in this Section 4.3 is the Company's estimates only, based on the information available to it. Actual outcomes may vary.

## 5 Additional information

---

### 5.1 Shareholders outside Australia and New Zealand

This Offer Booklet and accompanying Entitlement and Acceptance Form do not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.

No action has been taken to register or qualify the New Shares, or to otherwise permit an offering of New Shares, outside Australia and New Zealand. The New Shares may not be offered in a jurisdiction outside Australia or New Zealand where such an offer is not made in accordance with the laws of that place.

The distribution of this Offer Booklet in jurisdictions outside Australia or New Zealand may be restricted by law and therefore persons who come into possession of this document outside Australia or New Zealand should seek advice on, and observe, any such restrictions. A failure to comply with these restrictions may constitute a violation of applicable securities laws.

It is the responsibility of any Applicant to ensure compliance with any laws of the country relevant to their application. Return of a duly completed Entitlement and Acceptance Form and/or payment of Application Monies will be taken by the Company to constitute a representation that there has been no breach of such laws and that the Applicant is in Australia or New Zealand.

#### ***New Zealand securities law requirements***

The New Shares are not being offered or sold to the public in New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of New Shares is being made in reliance on the *Financial Markets Conduct Act 2013* and the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021*.

This Offer Booklet has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This Offer Booklet is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

### 5.2 Ineligible Shareholders

The Company has determined that it is unreasonable to extend the Entitlement Offer to Ineligible Shareholders because of the small number of such Shareholders, the number and value of Shares that they hold and the cost of complying with the applicable regulations in jurisdictions outside Australia and New Zealand.

Where this Offer Booklet has been dispatched to Ineligible Shareholders, it is provided for information purposes only.

In limited circumstances the Company may elect to treat as Eligible Shareholders, certain Shareholders who would otherwise be Ineligible Shareholders, provided the Company is satisfied that it is not precluded from lawfully issuing New Shares to such Shareholders either unconditionally or after compliance with conditions which the Board in its sole discretion regards as acceptable and not unduly onerous.

#### 5.5 Notice to nominees and custodians

The Entitlement Offer is being made to all Eligible Shareholders.

Nominees and custodians should note that the Entitlement Offer is not available to beneficiaries on whose behalf they hold Shares who would not satisfy the criteria for an Eligible Shareholder.

The Company is not required to determine whether or not any registered Shareholder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of existing Shares. Where any person is acting as a nominee or custodian for a foreign person, that person in dealing with its beneficiary will need to assess whether indirect participation in the Entitlement Offer by the beneficiary, complies with applicable foreign and Australian laws and the terms of this Offer Booklet.

#### 5.6 Issue and Despatch

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their holding statements will do so at their own risk.

The issue of New Shares and despatch of holding statements are expected to occur on the dates specified in the Indicative Timetable.

All Application Monies will be returned without interest in accordance with the Corporations Act if the New Shares are not issued.

## **5.8 Rights and liabilities attaching to New Shares**

The New Shares will rank equally in respect of dividends and have the same rights in all other respects (e.g. voting, bonus issues) as existing Shares.

Details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours and on the Company's website.

The Company does not currently intend to pay any dividends. Payment of dividends by the Company will be at the discretion of the Board after taking into account many factors, including, but not limited to, the Company's operating results, financial condition and current and anticipated cash needs.

## **5.9 ASX quotation**

The Company will apply to the ASX for Official Quotation of the New Shares issued under the Offer. ASX takes no responsibility for the contents of this Offer Booklet. The fact that ASX may grant Official Quotation of the New Shares is not to be taken in any way as an indication of the merits of the Company, the Offer or an investment in the New Shares.

## **5.10 CHESS**

The Company participates in the Clearing House Electronic Sub Register System, known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and Securities Clearing House Business Rules.

If you are broker sponsored, ASX Settlement will send you a CHESS statement.

Your CHESS statement will set out the number of New Shares issued to you under this Offer Booklet, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Shares.

If you are registered on the Issuer Sponsored subregister, your statement will be despatched by the Share Registry and will contain the number of New Shares issued to you under this Offer Booklet and your security holder reference number.

Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities (subject to limited exceptions).

This Offer Booklet is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus, including for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

All announcements made by the Company are available from its website <https://www.maggibeerholdings.com.au/investors/asx-announcement> or the ASX website [www.asx.com.au](http://www.asx.com.au).

Additionally, the Company is required to prepare and lodge with ASIC yearly and half yearly financial statements accompanied by a directors' statement and report, and an audit report or review. These reports are released to ASX and published on the websites of the Company and ASX.

## 6 Risk Factors

---

### 6.1 General

There are a number of factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company, its products, the industry in which it operates and the outcome of an investment in the Company.

This section describes certain, but not all, risks associated with an investment in the Company. Each of the risks set out below could, in isolation or in combination, if they eventuate, have a material adverse impact on MBH's business, financial condition, results of operations and prospects.

The risks set out below are not listed in order of importance and do not necessarily constitute an exhaustive list of all risks associated with an investment in MBH now or in the future.

Before investing in MBH, you should consider whether an investment is suitable for you. Potential investors should consider the publicly available information on MBH (such as that available on the websites of MBH and ASX), carefully consider their personal circumstances (including the possibility that they may lose all or a portion of their investment) and consult their professional advisers before making an investment decision. Additional risks and uncertainties that MBH is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect MBH's operating and financial performance despite not being set out in this Offer Booklet.

Nothing in this Offer Booklet is financial advice or financial product advice and this document has been prepared without taking into account your investment objectives or personal circumstances.

You should note that the occurrence or consequences of many of the risks described in this section are partially or completely outside the control of MBH, its directors and management. Further, you should note that this section focuses on the potentially key risks and does not purport to list every risk that may impact an investment in New Shares or that MBH may be subject to now or in the future. There is no guarantee or assurance that the importance of risks will not change or other risks will not emerge.

It is also important to note that there can be no guarantee that MBH will achieve its stated objectives or that any forward-looking statements contained in this Offer Booklet will be realised or otherwise eventuate.

All potential investors should satisfy themselves that they have a sufficient understanding of these matters, including the risks described in this section, and have regard to their own investment objectives, financial circumstances and taxation position.

You should carefully consider these factors in light of your personal circumstances and seek professional advice from your accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

Cooling off rights do not apply to the acquisition of New Shares.

### 6.2 Specific Business Risk Factors

In addition to the general risks set out in Section **Error! Reference source not found.**, the Directors believe that there are a number of specific factors that should be taken into account before investors decide whether or not to apply for Shares. Each of these factors could have a materially adverse impact on the Company, its expansion plans, operating and product strategies and its financial performance and position.

The Company is committed to the effective management of risk to reduce uncertainty in the Group's business outcomes and to protect and enhance shareholder value. There are various risks that could have a material impact on the achievement of the Group's strategic objectives and future prospects. Key risks associated with the Company's objectives are set out below:

**Group Risk (Across Hampers and Gifts Australia (HGA) & Maggie Beer Products (MBP))**

(a) **IT Infrastructure and resilience risk**

The Group relies upon internal resources and third-party service providers to manage the business IT infrastructure to maintain continuous operations of its technology platforms, servers and hosting services and the cloud-based environment in which it provides its products. There is a risk that these third-party systems may be adversely affected by various factors to cause them to become unavailable. If a hosting third-party provider ceased to offer its services to the Group, this could lead to disruption of services to the Company's websites and cloud infrastructure. This could lead to potential loss in revenues, as well as adversely affecting the Group/Company's reputation, financial position and performance.

(b) **Cyber Security risk**

The Group's IT infrastructure forms the basis for the ongoing deployment of cyber security measures across the Group. The ongoing readiness of the Group's security features and measures for Cyber Security are continuously assessed against established cyber security frameworks and new measures/procedures are introduced for the protection of commercially sensitive and/or personal data stored with the business as required.

As an example, as an e-commerce platform, HGA relies on online technology solutions to operate its business. While processes are in place to mitigate the risk of technology outages or unauthorised access to data or systems (including data breaches that could involve personal information), it is possible that these measures may not prevent disruption as a result of issues connected with Group's technology, systems and practices. A similar risk exists for MBP and its use of IT servers that store commercial sensitive and/or personal data.

(c) **People Safety (Workplace Health and Safety)**

Employees of MBP & HGA are involved in the acquisition of production components in various formats (raw material & near finished goods condition), Warehousing, Production and the transportation of finished product to Customers. As such staff members are subject to risk created by this production cycle e.g., Forklift traffic, heights, handling risks and other acknowledged safety challenges. The Group maintains safety plans for all sites, Hazard registers, regular safety audits and implements improvements continuously. Where following the occurrence of an employee injuries on a Group production site or other location whilst employees are undertaking work for Group companies, MBH may be subject to compensation payments, payment of significant penalties, loss of production capacity and reputational damage, all of which may have a material adverse impact on the financial position of MBH.

(d) **Product Quality & Safety**

Food and beverages are perishable products, and improper and/or poor handling and processing can critically affect the safety of the end product. Further, there is a risk of product contamination in the supply, production and storage process by a range of agents or pathogens including salmonella, E coli and listeria.

An incident or threat of product contamination or any other type of food safety incident or the perception that such an incident has occurred may cause considerable reputational damage to MBH and its brands from the perspective of its suppliers, customers, the general public and regulators, the loss of contracts for the supply of products and may also result in significant product recall costs, compensation payments and the payment of significant penalties. All of these circumstances may have a material and adverse effect on MBH's revenue, profitability and growth.

(e) **Change in regulations**

There is a risk that laws or regulations may be introduced or amended in Australia, or in foreign jurisdictions in which the Company sells, or sources its ingredients and/or products. Changes to the regulatory environment could have a material effect in a number of ways.

For example, the financial and production effects resulting from changing requirements to:

- (i) product packaging and/or labelling requirements as a requirement of increases to mandatory dietary content disclosures; or
- (ii) the introduction of taxation measures that reference food content; and/or
- (iii) restrictions that prevent or restrict access to markets by amendments to regulations governing the export or importation of products.

(f) **Price sensitivity in economic downturns**

Both HGA and MBP operate in the premium retail category, and accordingly these businesses may face pressure on price and volume as the broader economy adjusts to economic conditions driven by current inflationary factors. The Group actively manages product profitability, costs and product diversification to mitigate against price sensitivities in tight economic conditions. However, a change in customers' price sensitivities can drive a change in demand for Group products which would impact Group revenues and profitability.

(g) **New Product Development**

There is a risk that MBP & HGA will be unable to offer a sufficient number of successful new products which could potentially result in reduced or negative growth.

There is a risk that new MBP and/or HGA products developed and launched to the market, may be unprofitable because they are not supported by sufficient market interest and purchases or otherwise not adequately marketed and fail to sell.

(h) **Hampers and Gifts Australia (HGA)**

There are various risks associated with the operation of the HGA business, including but not limited to those connected to its B2B and direct-to-consumer channels, product manufacturing, supply chains, legal and regulatory environment and use of technology systems and data. If risks associated with HGA were to be realised, MBH would be exposed to these risks, which could adversely affect MBH's financial position, performance and prospects. Observable specific risks include:

(i) **Seasonal Christmas Period**

The HGA business is a supplier of premium hamper and gifting products to consumers and B2B customers across Australia. As such there is heavy reliance on sales across the Christmas period after investing in significant working capital in purchasing raw materials and assembling hampers for sale. The business mitigates this operational risk by starting pre-sales as soon as possible and regular contact with key customers to ensure sales volumes target are achieved. Not achieving sales targets results in unsold hampers and working capital remaining unnecessarily high over nonpeak periods of the business year.

The Group has used two debt facilities to fund the purchase of raw materials to create sellable hamper products for peak trading periods during the seasonal Christmas peak period. The purchase of raw materials and time required to build hamper products results in higher inventory balances being held between August to November in any one particular year. The Group continues to review its working capital requirements.

As published in the Group Financial Statements as at 30 June 2025 after the conclusion of peak trading activity for the year, all debt facilities have been repaid and no outstanding balance exist.

The Group will review liquidity and funding requirements prior to the completion of the FY26 financial year with a view to renewing debt facilities required to fund the HGA seasonal peak trading period to ensure a highly successful sales period occurs enhancing overall Group revenue and profitability. Not renewing the Group facility predominately used by HGA could impact Group revenues and profitability.

(j) **Maggie Beer Products (MBP)**

There are various risks associated with the operation of the MBP business, including but not limited to those connected to its distribution channels, product manufacturing, supply chains, legal and regulatory environment and use of technology systems and data. If risks associated with MBP were to be realised, MBH would be exposed to these risks, which could adversely affect MBH's financial position, performance and prospects. Observable specific risks include:

(k) **Climatic Conditions**

The quantity and quality of MBH's products may be adversely affected by climatic conditions. Any adverse change to climatic conditions, in particular, lack of rainfall, in the short or long-term may impact on the sustainability of Australian ingredients supply. This may have a material adverse effect on MBH's revenue and profitability.

(l) **Environmentally sustainable business practices**

Given that MBP is a food processor and manufacturer, environmental issues relating to noise, air, wastewater emissions and contamination arise from time to time. MBP is subject to environmental laws and regulations in each of the states in which it has manufacturing operations and requires various environmental licences to conduct its business. Further, environmental legislation or licence conditions may be amended in the future, which could lead to MBP facing increased compliance costs in order to continue its operations. This could have a material and adverse effect on MBH's revenue and profitability.

(m) **Adverse customer behaviour or loss of customers**

MBP sells its products to a range of customers including the two major Australian supermarket chains. A significant change in demand for, or the prices paid for, MBP's products by MBH's key customers including because of the customer's competitive position, a strategy by them to grow their 'private label' product offerings, a change in demand from the end purchasers of MBP's products or the actions of competitors, including increased supply, new and different products and lower prices, may affect MBP's sales volumes and margins and may have a material and adverse effect on MBP's revenue, profitability and growth.

MBP could lose key customers due to a range of events. Any loss of key customers may materially and adversely affect MBP's revenue, profitability and growth.

(n) **Related Party risk**

The Group has a number of key contractual relationship with related parties which are in the process of being renegotiated. If these negotiations breakdown and/or satisfactory commercial terms cannot be agreed alternative arrangements will need to be commercially agreed and may not be considered a like for like replacement.

Maggie Beer has continued as a brand ambassador, continuing her association with the Maggie Beer brand, its product development program and customer relationships. Under the ambassador agreement between Maggie Beer and the Company, a commercial agreement originally signed in 2019, Maggie Beer provides services in connection with the positive image of the brand and sale, promotion, marketing and advertising of the Group's products including the Cooking with Maggie and other product videos, assisting in the development, creation and implementation of new products, and media engagements. The terms have not changed since the original signing date.

The Company has entered into lease agreements with entities associated with Maggie Beer, being Beer Family Holdings Pty Ltd and Quincy Fine Food Distribution Pty Ltd for its premises located at Keith Street in Tanunda, South Australia and Samuel Road, Nuriootpa, in South Australia respectively. These leases were originally entered into in 2019. Subsequent to the expiry of these agreements, a month-to-month arrangement at the existing rate is in place, until such time that a new agreement is agreed upon.

### 6.3 General Business Risk Factors

#### (a) Share market

On completion of the Entitlement Offer, the New Shares may trade on ASX at higher or lower prices than the Offer Price. Investors who decide to sell their New Shares after the Entitlement Offer may not receive the amount of their original investment. There can be no guarantee that the price of New Shares will increase after the Entitlement Offer. The price at which the New Shares trade on ASX may be affected by the financial performance of the Company and by external factors over which the Directors and the Company have no control.

These factors include movements on international share and commodity markets, local interest rates and exchange rates, domestic and international economic conditions, government taxation, market supply and demand and other legal, regulatory or policy changes.

#### (b) Dependence on general economic conditions

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates and exchange rates, access to debt and capital markets, government fiscal, monetary and regulatory policies.

A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have a material adverse impact on the Company's business or financial condition. Changes to laws and regulations or accounting standards which apply to the Company from time to time could adversely impact on the Company's earnings and financial performance.

#### (c) Wars, terrorism and other events

Events may occur within or outside Australia that could impact upon the world economy, the market for the Company's products, the operations of the Company and the price of Shares. These events include war, epidemic, acts of terrorism, civil disturbances, political intervention and natural events such as earthquakes, floods, fires and poor weather. The Company only has a limited ability to insure against some of these risks.

#### (d) Issue of additional securities

In certain circumstances, the Company may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership of existing Shareholders may be reduced and diluted.

(e) **Decrease in demand**

MBH's current business and growth plans depend on there being an active market domestically and internationally for MBH's products. Consequently, any decrease in demand for MBH's products including due to changing consumer preferences and tastes, consumers substituting MBH's products for competitor's products or non-dairy products, product and price competition, performance and reliability, MBH's reputation, changes in law or regulation or economic and market conditions, will adversely affect sales of MBH's products and may have a material and adverse effect on MBH's revenue, profitability and growth.

(f) **Increased competition**

MBH participates in a highly competitive fast moving consumer goods global business against materially larger global competitors who have significantly more access to capital and resources.

MBH is subject to competition for the supply of key ingredients and also competition from domestic and international producers of food and beverage products.

Increased competition may be in response to market conditions and the opportunity for competitors to expand their operations and markets, or increased supply in their existing markets. Increased competition may reduce the volume and/or price of products that MBH is able to sell which may have a material and adverse effect on MBH's revenue and profitability and, in particular, its growth.

(g) **Brand and reputation**

The MBH group portfolio of brand names and related intellectual property are key assets of the business. The reputation and value associated with these brands and related intellectual property could be adversely affected by a number of factors, including failing to provide customers with the quality of product they expect, disputes or litigation with third parties, employees, suppliers or customers, or adverse media coverage (including social media), or other circumstances including those beyond the direct control of MBH.

Significant erosion in the reputation of, or value associated with MBH brands, could have an adverse effect on customer loyalty, relationships with key suppliers, employee retention rates, and overall demand for MBH products.

(h) **Disruption or failure of technology and software systems**

As MBH's e-commerce business continues to grow, the performance, reliability and availability of its websites and e-commerce software systems become more important. There is a risk that these systems may be adversely affected by disruption, failure, service outages, improper configuration, maintenance error, data corruption (as a result of computer viruses, "bugs" or "worms", malware, internal or external misuse by websites, cyber-attacks) or other disruptions including natural disasters and power outages. In part, some of these disruptions may be caused by events outside of the Company's control and may lead to prolonged disruption to its e-commerce websites, or operational or business delays and damage to its reputation. This could potentially lead to a loss of customers, legal claims by customers, and an inability to attract new customers, any of which could adversely impact its operating and financial performance.

(i) **Failure to effectively manage growth**

MBH's projected future growth could place additional pressure on current management, operational and finance resources and on the infrastructure supporting the Company. Failure to appropriately manage this growth could result in failure to retain existing customers and attract new customers, which could adversely affect our operating and financial performance.

(j) **Ability to attract and retain key personnel**

A critical component of MBH's success is the ongoing retention of key management personnel. There is a risk MBH may not be able to attract and retain key personnel or be able to find effective replacements for those key personnel in a timely manner. The loss of such personnel, or any delay in their replacement, could have a significant negative impact on its ability to operate the business and achieve financial performance targets and strategic growth objectives.

(k) **Negative publicity may adversely affect the Share price**

Any negative publicity or announcement relating to the Company, any of its substantial Shareholders or key personnel may adversely affect the stock performance of the Company, whether or not this is justifiable. Examples of this negative publicity or announcement may include involvement in legal or insolvency proceedings, failed attempts in takeovers, joint ventures or other business transactions.

(l) **Litigation risk**

In the ordinary course of business, MBH may be involved in litigation disputes from time to time. Litigation disputes brought by third parties; including but not limited to customers, suppliers, business partners and employees may adversely impact the financial performance and industry standing of MBH where the impact of litigation is greater than or outside the scope of its insurance.

(m) **Insurance risk**

The Company maintains insurance coverage that is substantially consistent with industry practice. However, there is no guarantee that such insurance or any future necessary coverage will be available to the Company at economically viable premiums (if at all) or that, in the event of a claim, the level of insurance carried by the Company now or in the future will be adequate, or that a liability or other claim would not materially and adversely affect the Company's business.

(n) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered to be relevant by the Directors. No assurance in relation to the payment of dividend or franking credits attaching to dividends can be given by the Company.

(o) **Taxation**

The acquisition and disposal of shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the rights issues are urged to obtain independent financial advice about the consequences of acquiring shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the company its officers and each of their respective advisors accept no liability and responsibility with respect to taxation consequences of subscribing for securities under this Prospectus.

## 6.4 Risks associated with the Entitlement Offer

(a) **Risks associated with an investment in Shares**

Although the Company is listed on the ASX, there is no assurance that an active trading market for the Shares will be sustained. There is also no assurance that the market price for the Shares will not decline.

There are general risks associated with investments in equity capital such as MBH Shares. The trading price of MBH Shares may fluctuate with movements in equity capital markets in Australia and internationally. This may result in the market price for the New Shares being less or more than the Offer Price. Generally applicable factors which may affect the market price of shares include:

- (i) general movements in Australian and international stock markets;
- (ii) investor sentiment;
- (iii) Australian and international economic conditions and outlook;
- (iv) changes in interest rates and the rate of inflation;
- (v) changes in government legislation and policies, including taxation laws;
- (vi) natural disasters and other extraordinary events, including pandemics and epidemics, and government intervention or acts in response to such events;
- (vii) announcement of new technologies;
- (viii) geo-political instability, including international hostilities and acts of terrorism;
- (ix) demand for and supply of MBH shares;
- (x) announcements and results of competitors of MBH; and
- (xi) analyst reports.

No assurances can be given that the New Shares will trade at or above the Offer Price. None of MBH, its directors, the Lead Manager or any other person guarantees the market performance of the New Shares. The financial position, performance and prospects of MBH and MBH's share price may be adversely affected by the worsening of general economic conditions in Australia, as well as international market conditions and related factors. It is also possible new risks might emerge as a result of Australian or global markets experiencing extreme stress, or existing risks may manifest themselves in ways that are not currently foreseeable.

(b) **Dilution risk**

Eligible Shareholders who do not participate in the Entitlement Offer, or do not take up their Entitlements under the Entitlement Offer in full, will have their percentage shareholding in MBH diluted. Such Shareholders will not be exposed to future increases or decreases in MBH's share price in respect of those New Shares which would have been issued to them had they taken up all of their Entitlements.

However, Eligible Shareholders who take up all of their Entitlements under the Entitlement Offer will have the ability to apply for Additional New Shares in excess of their Entitlement under the Entitlement Offer, which (for Eligible Shareholders who receive Additional New Shares) will reduce the dilutionary effects of the Entitlement Offer. As the Entitlement Offer is non-renounceable, Shareholders who do not take up all or part of their Entitlement will not receive any value for the part not taken up.
