CTI LOGISTICS LIMITED – TRADING UPDATE

CTI Logistics Limited (CTI) advises that the profit before tax for the half year to 31 December 2025 is expected to be up by approximately 55% on the previous corresponding period.

The result has been driven in part by strong revenue growth in October and November with revenue for the half year expected to be up by 7% on the previous corresponding period. CTI's transport and logistics operations have benefitted from increased demand across freight services as well as project work in Western Australia, coupled with increased efficiency and improved utilisation of our fleet.

The financial results for the half year to 31 December 2025 will be released to the market in February 2026.

Owen Venter
COMPANY SECRETARY

This announcement was authorised to be given to the ASX by the CTI Logistics Limited board.
