

Elixir and QGC execute Taroom Trough seismic data sharing agreement

- Elixir has executed a data sharing and ingress agreement with QGC to acquire 3D seismic in 2026 over the North and West of ATP2077 Block-A where the future Daydream-3 appraisal well has been sited.

Elixir Energy Limited (ASX: EXR, Elixir, the Company) has entered into an agreement with QGC Pty Limited (QGC) to facilitate its ingress into ATP2077-Block A (100% EXR) and the acquisition of 3D Seismic data (see map to the right). Elixir will receive the processed data acquired in Block-A and the reciprocal area that extends from the mutual boundary between ATP645 (QGC’s permit) and ATP2077 to a distance of 2 kilometers into ATP645. Elixir has also agreed to provide the future Daydream-3 well information and logs to QGC in exchange for this upfront geophysical data.

Elixir Energy Limited’s Managing Director & Chief Executive Officer Stuart Nicholls said:

“The acquisition and sharing of this data set over Elixir’s Block-A on the western flank of the Taroom Trough by QGC will assist in de-risking the future Daydream-3 appraisal well location in the north-west of the permit which contains 184 BCFe of 2C Contingent Gas Resources.”
