Drilling Complete at Beachcomber - Forelands Gold Project, WA

BPM Minerals Ltd (ASX: BPM) ('**BPM**' or '**the Company**') is pleased to advise that its maiden reverse circulation (RC) drilling program is now complete at the high-grade Beachcomber Prospect, part of the **Forelands Gold Project** (the "Project") in Western Australia.

Highlights:

- **3,180m, 24-hole RC drill program complete at the high-grade Beachcomber Prospect.**
- **Beachcomber is a high-grade gold-bearing quartz lode, open in all directions. Key historical intercepts include:**
 - **3m @ 65.8g/t Au from 25m (ZSAC0087)**
 - **9.7m @ 4.5g/t Au from 88.8m (BCD001)**
 - **3m @ 13.5 g/t Au from 90 m (BCRC008)**
 - **6m @ 3.63 g/t Au from 58 m (BCRC007)**
 - **2m @ 4.73 g/t Au from 148 m to EOH (hole ending in 8.47 g/t) (BCRC035)¹**
- **1,742 soil samples collected at the Sidecar, Ambrosia, Brass-Monkey and Beachcomber Prospects.**
- **Assay results from the RC drilling and soil sampling programs expected to be released in early 2026.**
- **Company is approved to recommence drilling at Beachcomber in early 2026 upon receipt of assay results.**

Commenting on the progress, BPM CEO Oliver Judd:

"We're delighted to have completed this drill program and the soil sampling before Christmas; this leaves the company in a great position heading into 2026 with significant exploration planned to unlock the potential of this project.

Observations from the drilling are very encouraging and the technical team are confident that the high-grade Beachcomber vein has been intersected in the majority of drill holes. We're looking forward to receiving the assays early next year, which will hopefully begin to outline the footprint of significant high-grade gold deposit with potential for growth.

Soil sampling was also completed at several prospects including the broader Beachcomber area, Ambrosia, Sidecar and Brass Monkey with the aim of defining drill ready targets for testing in 2026.

We now eagerly await the assay results for the drilling and soil samples with the Company fully permitted to recommence exploration activities in early 2026."

Foreland Gold Project Overview

District-scale position: ~630 km² consolidated landholding along the Yilgarn Craton-Albany Fraser Orogen margin, an analogous tectonic setting to the +8 Moz Tropicana gold deposit.

Strategic location: ~150 km east of Kalgoorlie, straddling the Trans-Access Road with excellent access and proximity to multiple operating and proposed mills.

High-grade historical intercepts at Beachcomber:

- 3m @ 65.8 g/t Au from 25m (ZSAC0087)
- 9.7m @ 4.5 g/t Au from 88.8m incl. 0.5m @ 66.5 g/t Au (inc. visible gold) (BCD001)
- 3m @ 13.5 g/t Au from 90m (BCRC008)
- 2m @ 4.73 g/t Au to EOH (BCRC035, hole ended in 8.47 g/t Au)

Near-term drilling: Beachcomber overlies granted tenure, with potential for rapid conversion to a maiden JORC-compliant resource and mining opportunity.

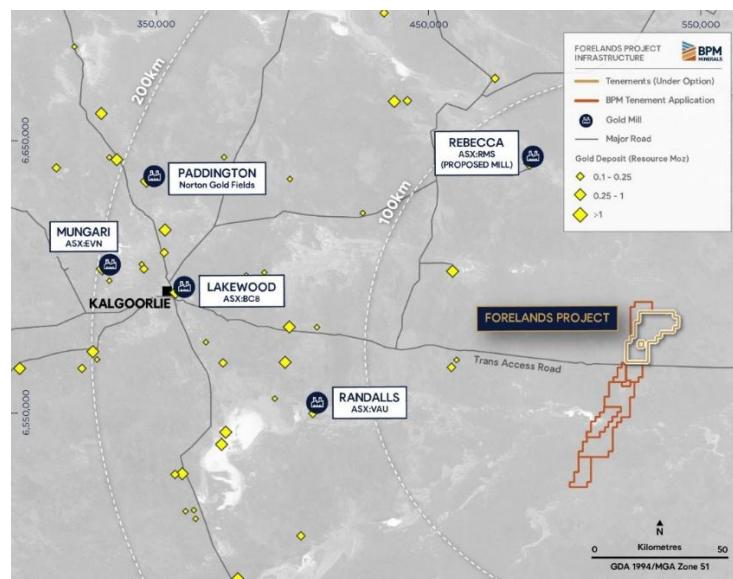

Footprint of a major gold system: Over 75 km of key mineralised 'Yellow Dam' structure; with a strong pipeline of exploration targets for testing including:

- **Ambrosia** - 8m @ 1.15 g/t Au
- **Sidecar** - 10m @ 1.0 g/t Au
- **Brass Monkey** - 6m @ 0.56 g/t Au
- **Beachcomber NW** - 42m @ 0.38 g/t Au
- **Bonnie & Clyde** - untested soil anomaly ~ 6km strike, coherent 100ppb core with values >1 g/t Au
- Dr. Barry Murphy's structural targets
- >40 holes historic drill holes with >1g/t
- Numerous geochem and structural targets requiring further exploration

Strong technical foundations: Project Vendors, and 2023 AMEC Prospector of the Year recipients for the Yin REE discovery, Dr. Ross Chandler and Luke Blais have joined BPM as Technical Advisor and Exploration Manager respectively and are in addition to existing consulting geologist Dr. Barry Murphy (ASX: PDI, DES, NYSE:AEM) all with a strong track record of discoveries.

Heritage & approvals: Heritage Agreement has been executed, with a PoW approved by DMPE for drilling at Beachcomber.

Commercialisation potential: Proximity to multiple existing and proposed mills within 200 km radius provides optionality for toll treatment of future resources.

Forelands Project Location with relevant gold operations and deposits

This release is authorised by the Board of Directors of BPM Minerals Limited.

Upcoming Exploration Activity Key Dates

- Forelands Gold Project Acquisition - July 2025¹ ✓
- Heritage Agreement with UUNAC Executed - September 2025² ✓
- Heritage Survey at Beachcomber Prospect - Early November 2025³ ✓
- Update of geophysical targeting program (Dr. Barry Murphy), historical exploration review and 2026 exploration plans - Late November 2025⁴ ✓
- Commencement of maiden RC drilling program at Beachcomber Prospect - December 2025 ✓
- Completion of RC drilling at Beachcomber - Late December 2025 ✓
- Assays results from the Beachcomber RC drilling and regional soil sampling - February 2026
- Recommencement of exploration activities at Forelands - February/March 2026

Competent Persons Statement

The information in this announcement that relates to Exploration Results is based on information compiled by Oliver Judd, who is a Member of AusIMM and who has more than five years' experience in the field of activity being reported on. Mr Judd is an employee of the Company. The information in the market announcement is an accurate representation of the available data.

Mr. Judd has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Judd consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information included in prior market announcements and, in the case of exploration results, that all material assumptions and technical parameters underpinning the results in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

About BPM Minerals

BPM Minerals Limited (ASX:BPM) is a Perth-based precious and critical mineral explorer with a portfolio of projects located across Western Australia. The Company seeks to build its landholdings within Tier-1 mining jurisdictions. The company is currently focussed upon its newly acquired Forelands Project, an underexplored, high-grade gold system situated along a major structural corridor on the Yilgarn-Albany Fraser margin. The management and exploration teams are well supported by an experienced Board of Directors who have a strong record of funding and undertaking exploration activities which have resulted in the discovery of globally significant deposits both locally and internationally.
