

ASX Announcement (ASX: PWH)

12 January 2026

PWR secures ongoing orders in Aerospace and Defence

PWR Holdings Limited (PWR, ASX: PWH) is pleased to announce that it has secured a US\$9.1 million (~A\$13.5 million) follow-on contract to supply advanced cooling solutions for a US government project.

This contract follows the ongoing successful delivery of the previous order announced to the ASX on 14 January 2025 and reinforces PWR's position on this project as it progresses to full rate production.

Delivery under this new contract is expected to occur predominantly in FY 2027. The US government project is scheduled to extend over multiple years subject to forecasted demand for this platform, US fiscal year funding and PWR performance.

Acting Chief Executive Officer, Matthew Bryson, said, 'PWR announced the initial US\$5.5 million order for this project in January 2025 and securing a follow-on order reflects the successful delivery of that first phase and demonstrates our ability to execute reliably and adapt to evolving program requirements on complex projects. Continued delivery on this platform supports PWR's growing reputation as a leader in advanced cooling technology for Aerospace and Defence applications.'
