

12 January 2026

ANTILLES GOLD QUARTERLY REPORT & APPENDIX 5B – 31 DECEMBER 2025

CONSTRUCTION COMMENCED ON NUEVA SABANA COPPER-GOLD MINE, CUBA

- Construction of the access road to the mine site, earthworks for structures, tailings dam, haulroads, and water and power supply were commenced in early December 2025 by Minera La Victoria SA, the 50% owned mining company undertaking the development.
- A formal Notice to Proceed with the US\$29.5M Engineering, Procurement, and Construction ("EPC") Contract was issued to Chinese mining and engineering group, Shandong Xinhai Mining Technologies & Equipment Inc ("Xinhai Mining") on 31 December 2025.
- Construction is expected to be completed by the end of 2026 with commissioning and initial gold production in a concentrate in January 2027.
- First cash flow should occur in February or March 2027 with the sale of gold concentrates to a major international commodities trader under an existing off-take agreement and continue for around 20 months and be followed by copper-gold concentrates sold to the same trader for another 30 months.

PROJECT FUNDING

- Funding for the US\$35M required by MLV to complete the development is being provided from a variety of sources including a credit facility of US\$17.1M from Xinhai Mining, an initial US\$5M loan and an additional US\$3M in around 9 months from Antilles Gold, and gold loans and a concentrate prepayment totalling US\$10.0M to be advanced between March and July 2026.
- Documentation of the various loans and the security are being drafted by a Spanish law firm and their Cuban associates and are expected to be finalised in February 2026.
- Until this documentation is completed, Antilles Gold will advance funds to MLV under an existing agreement for previous loans, and Xinhai Mining will provide the credit facility as set out in the EPC Contract.

FINANCIAL RETURNS

- As reported to ASX on 4 November 2025, the PFS for the project indicated that the mine would produce ~77,000oz Au and ~9,150t Cu in concentrates over a 4.6 year period and at the contracted payables a cash surplus of ~US\$164M would be generated over this period at an average gold price of US\$3,250/oz and a copper price of US\$9,000/t.
- Importantly, at this gold price, all loans including ~US\$10M from Antilles Gold would be repaid within the first 18 months of operations.
- If the current gold price of ~US\$4,500/oz and copper price of ~US\$13,000/t are maintained the surplus cash generated by the project should increase substantially.

Access Road to Nueva Sabana Mine under Construction

LISTING RULE CONFIRMATION

The Company confirms that all material assumptions underpinning the production target and the forecast financial information derived from the production target in the revised MRE for Nueva Sabana continue to apply and have not materially changed. The Company also confirms that it is not aware of any new information or data that materially affects the information included in previous market announcements and all material assumptions and technical parameters underpinning the mineral resources and forecast financial information in the ASX announcement dated 4 November 2025 continue to apply and have not materially changed.

LA DEMAJAGUA GOLD-SILVER-ANTIMONY MINE

- MLV is planning the development in 2027-28 of an open pit mine at La Demajagua with an anticipated 9 year mine life, and with the potential for underground operations to follow for a similar period.
- Scoping Study results for the mine based on the production of gold-arsenopyrite, and gold-silver-antimony concentrates were advised to ASX on 30 March 2023.
- MLV subsequently decided to expand the La Demajagua project by adding a circuit to recover additional antimony from the gold-arsenopyrite concentrate and produce antimony cathodes.
- As reported to ASX on 10 October 2024, the potential production of antimony is becoming an important economic factor for the project with increasing demand for this critical metal with the price increasing from US\$13,000/t Sb at the time of the Scoping Study to an international price of over US\$55,000/t Sb.
- MLV is negotiating with Xinhai Mining for them to undertake the DFS for La Demajagua in 2026-27 in anticipation of them being engaged as the EPC contractor for the mine, and also providing a credit facility.

EXPLORATION CONCESSIONS

MLV currently holds the El Pilar, and the adjacent San Nicholas exploration concessions in central Cuba, and the La Cristina concession within the Sierra Maestra copper belt in south-east Cuba.

El Pilar Concession

- A Group of three copper porphyry intrusives (El Pilar, Gaspar and Camilo) within the 752ha El Pilar concession were originally explored by Canadian mining companies.
- Previous mapping, soil sampling, ground magnetics, an aeromagnetic survey, and 24,000m of shallow historic drilling confirmed the existence of copper-gold mineralisation, and identified the exposures as potentially being a large, leached porphyry system.
- Copper mineralisation is widespread and is generally located at the saprolite/saprock contact as the copper is leached downwards in the weathering profile above fresh rock. The surface exposures are leached phyllitic caps to a cluster of copper-gold porphyry cores.
- The surficial hydrothermal alteration evident at all three intrusives represent classic porphyry phyllitic caps and the dimensions of the phyllitic alteration (upper part of in-situ porphyry systems) at surface indicates the intrusions are of large dimensions.
- Ground magnetics and Induced Polarisation surveys by Antilles Gold in early 2023 confirmed the three potentially large porphyry intrusives, and the following program of 10 cored holes demonstrated veining, breccias, and alteration indicative of porphyry copper style mineralization.

PO Box 846
Bowral NSW 2576 Australia

T 61 2 4861 1740
E admin@antillesgold.net

- MLV will focus on the exploration of the El Pilar porphyry copper intrusive with the next drilling program which is expected to commence in early 2027.

La Cristina Concession

- The highly prospective 3,600ha Cristina exploration concession is located within the Sierra Maestra copper belt in south-east Cuba:
- The copper belt is +200km long island arc of Cretaceous age geology intruded by Eocene stocks - the source of widespread gold and base-metals mineralisation.
- The El Cobre mine within the belt has operated since 1540 and is the oldest copper mine in the Americas.
- The concession incorporates a series of copper-gold-molybdenum zones that display significant footprints of hydrothermal alteration normally associated with potentially large porphyry systems.
- The property shows high prospectivity for large copper-gold-molybdenum porphyry deposits and associated epithermal gold-silver base metal systems.

A prospecting and soil sampling program on La Cristina is expected to commence in Q3 2026, in order to identify drill targets.

San Nicolas Concession

The 17,100ha San Nicolas concession, 4km north-west of El Pilar, covers the San Nicolas and San Nicolas South porphyry copper targets identified by an aeromagnetic survey conducted by a Canadian exploration company.

Exploration is unlikely to occur on this concession before 2028.

Competent Person – Christian Grainger PhD. AIG

The information in this report on Results and observations in relation to the El Pilar, and Sierra Maestra concessions is based on information reviewed by Dr Christian Grainger, a Competent Person who is a member of the Australian Institute of Geoscientists (AIG). Dr Grainger is a Consultant to the Company and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Dr Grainger consents to the inclusion of the Exploration Results based on the information and in the form and context in which it appears.

ACTIVITIES DURING DECEMBER 2025 QUARTER

MINERA LA VICTORIA SA

Corporate

- Finalised approval from Cuban Authorities for the revised Joint Venture Agreement.

NUEVA SABANA GOLD-COPPER MINE

Pre-development Activities

- Updated Financial Analysis for PFS.
- Negotiations with Xinhai Mining to provide EPC services and credit facility finalised.
- Notice to Proceed with EPC Contract issued to Xinhai Mining.
- Negotiations on balance of project financing.

Development Activities

- Construction commenced on access road and earthworks for structures.

LA DEMAJAGUA GOLD-SILVER-ANTIMONY MINE

Pre-development Activities

- No substantive activity during the quarter.

EL PILAR COPPER PORPHYRY TARGETS

Exploration

- No substantive activity during the quarter.

LA CRISTINA COPPER-GOLD-MOLYBDENUM TARGET

Exploration

- No substantive activity during the quarter.

PLANNED ACTIVITIES FOR JANUARY – MARCH 2026

MINERA LA VICTORIA SA

NUEVA SABANA GOLD-COPPER MINE

Pre-development Activities

- Finalise documentation for project financing and security.
- Finalise quotations and logistics for direct import of diesel fuel.

Development Activities

- Complete access road to mine site.
- Continue with civil engineering works, water and electricity supply.
- Commence foundations for structures.
- Order mining camp, office, industrial buildings, and electrical switchgear.
- Complete detailed engineering for the concentrator and commence fabrication.

LA DEMAJAGUA GOLD-SILVER-ANTIMONY MINE

Pre-development Activities

- Order 2 drill rigs for infill drilling program, La Demajagua.

EL PILAR COPPER PORPHYRY TARGETS

Exploration

- No activities planned for this quarter.

LA CRISTINA COPPER-GOLD-MOLYBDENUM TARGET

- No activities planned for this quarter.

QUARTERLY CASHFLOW

During the Quarter, payments totalling US\$173,000 were made to directors for directors fees, management fees, salaries and superannuation, as follows and reported in Item 6 of the attached Appendix 5B:

- Directors fees paid to the Chairman, net of GST US\$16,000
- Directors fees to paid to Non-Executive Directors, net of GST US\$16,000
- Deferred management fees and reimbursement of expenses paid to Chairman, net of GST US\$98,000
- Payment of salary to Executive Director US\$42,000
- Payment of interest on loan provided by Moonstar Investments Pty Ltd, an entity related to the Chairman US\$1,000

Cash on hand at 31 December 2025 was A\$5,907,000.

Attached Appendix 5B is in USD.

END

This announcement has been authorised by the Board of Antilles Gold Limited.

3.10	Net cash from / (used in) financing activities	1,344	4,127
4.	Net increase / (decrease) in cash and cash equivalents for the period		
4.1	Cash and cash equivalents at beginning of period	1,204	410
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(236)	(883)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	1,640	307
4.4	Net cash from / (used in) financing activities (item 3.10 above)	1,344	4,127

Consolidated statement of cash flows	Current quarter \$US'000	Year to date (12 months) \$US'000
4.5 Effect of movement in exchange rates on cash held	5	(4)
4.6 Cash and cash equivalents at end of period	3,957	3,957

5. Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$US'000	Previous quarter \$US'000
5.1 Bank balances	3,957	1,204
5.2 Call deposits	-	-
5.3 Bank overdrafts	-	-
5.4 Other (provide details)	-	-
5.5 Cash and cash equivalents at end of quarter (should equal item 4.6 above)	3,957	1,204
Note: Cash and cash equivalents in AUD	5,907	1,829

6. Payments to related parties of the entity and their associates	Current quarter \$US'000
6.1 Aggregate amount of payments to related parties and their associates included in item 1	173
6.2 Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Details of the amounts shown at 6.1 are as follows:</i>	
• <i>Deferred management fees and current expense reimbursements paid to the Chairman, net of GST</i>	98
• <i>Directors Fees paid to Chairman, net of GST</i>	16
• <i>Fees paid to Non-Executive Directors, net of GST</i>	16
• <i>Salary paid to Executive Director</i>	42
• <i>Interest paid on loan advanced to the company by Moonstar Investments Pty Ltd, an entity related to the Chairman</i>	1

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7. Financing facilities <small>Note: the term 'facility' includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</small>		Total facility amount at quarter end \$US'000	Amount drawn at quarter end \$US'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (Convertible Loan Notes)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	(i) Moonstar Investments Pty Ltd, a trustee company associated with the Executive Chairman, Mr Brian Johnson, has provided the company with an unsecured A\$1,000,000 loan on the following basis:		
	<ul style="list-style-type: none"> repayment of all or part at 3 days notice from the Lender interest rate – 8.0%pa paid monthly 		
	Following is a reconciliation of the movements in the loan balance during the current quarter:		
		\$US'000	\$A'000
	Loan balance at beginning of the quarter	39	60
	Loan repayments during the quarter	(40)	(60)
	Effect of movement in exchange rates	1	-
	Loan balance at quarter end	-	-
8. Estimated cash available for future operating activities		\$US'000	
8.1	Net cash from / (used in) operating activities (item 1.9)	(236)	
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-	
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(236)	
8.4	Cash and cash equivalents at quarter end (item 4.6)	3,957	
8.5	Unused finance facilities available at quarter end (item 7.5)	-	
8.6	Total available funding (item 8.4 + item 8.5)	3,957	
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	16.77	
	<small>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</small>		

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 12 January 2026

Authorised by: The Board of Antilles Gold Limited

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
