### Michael Beven Chief Executive Officer's Comment

*"The strong demand for this placement reflects growing investor confidence in Pioneer's strategy and the quality of our US critical minerals portfolio. Securing A\$1 million in new capital positions the Company to advance exploration at North Pine, where recent rock-chip sampling at the Springfield prospect has delivered highly encouraging tungsten and gold results.*

*These results highlight Springfield as a compelling critical minerals opportunity with clear scale potential, located in a proven U.S. mining jurisdiction of strategic importance to defence and energy supply chains. With funding now in place, we are moving swiftly into detailed geophysics to refine structural controls on mineralisation, followed by targeted drilling of high-priority zones.*

*We thank shareholders for their continued support and look forward to delivering consistent exploration news flow as activities accelerate."*
