8.6	Total available funding (item 8.4 + item 8.5)	113
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.21
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: The entity's net operating cashflows will be a function of further efforts to raise funding – as recently disclosed, the entity has a range of proposed exploration and development activities that are ready to be conducted including the planned drilling at Mkuju, Tanzania. The Koongie Park joint venture with Cobalt Blue Holdings provides that exploration costs are met by Cobalt Blue, so the entity has no immediate exposure to costs for this project. The entity announced to ASX on 14 January 2026 that it had received commitments for an additional \$1.5M in share placement funding. On the basis this placement is completed, the entity expects to have funding in excess of the current level of net operating cash flows.	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: Yes, as evidenced by the entity announcing its two-tranche \$1.5M capital raising by way of an issue of new shares and attaching options. The second tranche of funds will not be available unless and until shareholders approve the issue of placement shares and attaching options at an EGM to be held likely in late February 2026. In addition, the \$5M funding facility with RiverFort Global remains in good standing. On this basis, the entity remains confident that as and when additional funds are required to be raised there is a sound basis that those future raisings will be successful.	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer: Yes. Based on the successful \$400k capital raising late in 2025, the proposed \$1.5M further capital raising and availability of funding under the RiverFort Global facility, the entity does expect to be able to continue its operations and meet business objectives. To the extent future funding is delayed or not available the entity will postpone proposed exploration and development activities.	
	<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>
