

INTELLIGENT
MONITORING GROUP

23 January 2026

ASX: IMB

First Half 26 Results Release Date

Intelligent Monitoring Group Limited ("**Company**" or "**IMG**") confirms that it has received relief from the requirement to lodge Appendix 4C Quarterly Reports with the ASX.

Based on its Appendix 4C track record, ASX is comfortable that IMG has demonstrated that it generates sufficient positive net operating cash flow that it has granted relief from the ongoing requirement to lodge Appendix 4C Quarterly Reports moving forward.

The Company however still intends to update the market quarterly on trading and performance, and otherwise in line with ASX requirements.

The next scheduled update is now planned for the half yearly reports, which is targeted for release on 20 February 2026.
