Review of Operations

Revenue from trading operations increased by 17.9% to \$60.3 million compared to the prior comparative period (PCP) as a result of increased activity in the Industrial Products segment. Profit before tax included an accounting gain of \$163k on the termination of a lease and increased by 33.2% to \$5.4 million noting that the PCP result was impacted by one-off costs of circa \$670k associated with an operational issue in galvanising and an engineering claim in that period. The accounting gain arose as an option to extend the lease term was not exercised. This gain was offset by further engineering claim costs of \$566k during the period in relation to a third party design fault, bringing the total cost to \$1.435 million. Recovery of all or a significant portion of these costs is expected but not yet certain, pending settlement with the supplier.

Industrial Products

EzyStrut revenue increased by 19.3% compared to the PCP with improved revenue from all channels to market. The most significant improvement was in major projects with three projects having meaningful levels of supply during the half compared to only one project in the PCP. Product mix and project phasing of major projects resulted in improved margins. In addition to the major project growth the small project market improved in most states.

By its nature, major project activity can fluctuate significantly based on timing of supply and customer requirements. The major project which dominated the FY25 2H result continued into the current period albeit at reduced volumes. The project is expected to be finished during the second half. Both the other major projects with activity during the half will continue throughout the remainder of the financial year.

Branch network costs grew with increased headcount in response to market activity along with the annual salary adjustments to maintain market competitiveness. In December the Queensland branch relocated to a new site which incurred one off moving costs and increased rent related costs as both old and new sites were leased during December.

Production

Plant volumes in the Galvanising business improved on the PCP levels however did not match the volumes achieved in FY25 2H. This was consistent for both external and EzyStrut work. The cost of zinc trended up during the period. However, the decision to purchase expected forward requirements when prices were lower in July and August minimised the impact. Labour costs increased at a greater rate than volume to build capacity in anticipation of a major project expected to commence late in the half. Unfortunately, the majority of project materials were delayed and the greater portion of this work will now fall in the second half.

Capital Expenditure

Capital expenditure during the period was at record levels as the Kilburn site redevelopment commenced in October 2025 with \$1.5 million of the phase one costs incurred in the half. The EzyStrut transport fleet expanded further with five new trucks added. The move of the Queensland branch to a significantly larger site continues the investment being made to improve customer service levels with larger stock holdings.

The Galvanising business had a particularly busy shutdown over the Christmas period with the replacement of the main galvanising kettle and the installation of a new state-of-the-art burner management system successfully undertaken.

Dividends

On 22 January 2026 the Directors determined to pay a fully franked interim dividend of 25.0 cents per share with a record date of 13 February 2026 and a payment date of 6 March 2026.

The Dividend Reinvestment Plan (DRP) will not operate for the interim dividend.

Korvest Ltd
Directors' Report

Events Subsequent to Reporting Date

No matter or circumstance has occurred subsequent to 31 December 2025 that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent years.

Outlook

The success rate of EzyStrut winning major infrastructure projects has continued and as a result major project activity is expected to increase in the second half. Two additional major infrastructure projects will commence adding to the ongoing projects from the first half. The small project and day-to-day channels are expected to remain strong with activity at least at the levels of the first half.

The galvanising business starts the second half with a large project required to be processed prior to the end of the financial year which should result in overall plant volumes increasing in the second half. Improved labour management along with the energy savings anticipated from the new burner system should see improved galvanising profitability in the second half.

Korvest enters the second half with a significant order book which is expected to result in a strong second half which will exceed the first half performance. The improved second half performance is unlikely to match the record FY25 PCP which benefited from a major project accelerated supply schedule.

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

7. Segment disclosures

The Company has two reportable segments. The business is organised based on products and services. The following summary describes the operations in each of the Company's reportable segments.

- Industrial Products - includes the manufacture of electrical and cable support systems and steel fabrication. It includes the EzyStrut business.
- Production – represents the Korvest Galvanising business, which provides hot dip galvanising services.

Both reportable segments consist of the aggregation of a number of operating segments in accordance with AASB 8 *Operating Segments*.

Information regarding the operations of each reportable segment is included below in the manner reported to the chief operating decision maker as defined in AASB 8. Performance is measured based on segment earnings before interest and tax (EBIT). Inter-segment transactions are not recorded as revenue. Instead a cost allocation relating to the transactions is made based on negotiated rates.

Independent Auditor's Review Report

To the shareholders of Korvest Ltd

Conclusion

We have reviewed the accompanying **Condensed Half-year Financial Report** of Korvest Ltd.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Condensed Half-year Financial Report of Korvest Ltd does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Company's** financial position as at 31 December 2025 and of its performance for the Half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Condensed Half-year Financial Report** comprises:

- Condensed statement of financial position as at 31 December 2025;
- Condensed statement of profit or loss and other comprehensive income, Condensed statement of changes in equity and Condensed statement of cash flows for the half-year ended on that date;
- Notes 1 to 16 including selected explanatory notes; and
- The Directors' Declaration.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Condensed Half-year Financial Report* section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of annual financial reports of public interest entities in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Condensed Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Condensed Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- such internal control as the Directors determine is necessary to enable the preparation of the Condensed Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Condensed Half-year Financial Report

Our responsibility is to express a conclusion on the Condensed Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2025 and its performance for the Half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Condensed Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
