### Management Commentary

Life360 Chief Executive Officer Lauren Antonoff said: "Life360 continues to deliver strong, consistent growth across both our user base and paid subscriber base. Q4 2025 represents our strongest operational performance in company history, with record user additions and record subscriber growth. The quality of our growth continues to improve, with newly acquired users converting to paid subscribers at record rates. While we typically see variation quarter-to-quarter, our Q4 2025 and full year 2025 results demonstrate that our growth trends remain intact and consistent—a reflection of the value families place on staying connected and safe. As we look to 2026, we expect overall MAU growth of

approximately 20%. As previously indicated, we plan to invest in strategic growth initiatives, while continuing on the path to expand AEBITDA margins."
