8.6.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	The entity expects its net operating cash flows to remain broadly consistent in the near term. In addition, cash term deposits classified as investments (rather than cash and cash equivalents) are expected to be readily available during Q1 2026 and beyond in line with a structured draw down approach for use as cash in line with project cash-flow forecasts, supporting ongoing liquidity.	

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

The company raised approximately \$766 million in November 2024 through a share issue, and the excess cash after setting aside the required operational funds has been invested in term deposits. These funds are expected to cover rehabilitation expenses for the Ranger Project Area until approximately Q3 2027.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Yes, the entity expects to be able to continue its operations and meet its business objectives. This assessment is based on the successful capital raising undertaken in November 2024, which generated approximately \$766 million through a share issue. The excess cash has been invested in term deposits to preserve capital and earn interest income.

*Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.*
