Quarterly Activities Report

31 DECEMBER 2025

Highlights

Munda Gold Mine

- Campaign one production at the Munda Gold Mine was completed and fully reconciled during the December Quarter. Delivering 2,718 ounces of gold and generating A\$16.85 million in gross sales, with A\$10.82 million in net cash received by Auric after milling, haulage and royalty costs.
- At the end of the December Quarter, approximately 67,000 tonnes of high-grade ore was stockpiled on the ROM pad at Munda, positioning for processing of campaign two. Mining of the Starter Pit is expected to be completed in late January 2026.
- Processing of campaign two, comprising approximately 65,000 tonnes, has been secured for toll-milling at the Lakewood Mill, with processing scheduled to commence around 27 January 2026.

Jeffreys Find Gold Mine

- BML Ventures Pty Ltd completed mine site rehabilitation including contouring and sheeting of the waste dump and ripping of cleared areas during the quarter.
- Ongoing monitoring now required to ensure successful site restoration.
- The project delivered a strong financial contribution to Auric over its life, generating approximately 29,537 ounces of gold and ~A\$14.5 million in cashflow to the Company. The final project reconciliation will be completed in Q1/2026.

Burbanks Plant

- Burbanks Gold Processing Plant tenure integration and technical evaluation advanced during the quarter.
- Plant currently offers 180,000 tpa CIL capacity with grid power, water licence, fully permitted and sealed-road access.

Lindsay's Acquisition

- Settlement of tenements not subject to Wardens Court proceedings completed 19 November 2025.
- Auric now has sole control of Wardens Court action for M27/169.
- A further \$1.3 million cash plus \$2 million in shares is payable upon successful Wardens Court litigation for the remaining 3 tenements.
- The Vendors retain management of M27/34 and M27/486 until successful resolution of the Wardens Court litigation.

Corporate

- Current issued capital is 187,093,602 shares at 31 December 2025.
- Cash on hand and investments at 31 December 2025 is \$6.7 million.
- The Company has no debt and is unhedged.

The Announcement

Auric Mining Limited (ASX: **AWJ**) (**Auric** or **the Company**) is pleased to report on its activities during the 31 December 2025 Quarter.

Figure 1. Managing director, Mark English at Munda Gold Mine.

Managing Director, Mark English said: “Auric has delivered an exceptional quarter that places the Company in the strongest position in our history.”

“The completion and reconciliation of Munda’s first mining and processing campaign far exceeded expectations. The combination of good grade, excellent recoveries, and a surging gold price has contributed to a substantial cash injection for the business.

“Operationally, we could not be more pleased with how smoothly Munda performed, from mining, and ore haulage through to treatment at Lakewood Mill.

“We are equally proud of the progress made on the Burbanks Gold Processing Plant and the expansion of the Lindsay’s tenement package. Both projects materially enhance our long-term strategic capacity.

“With our second 65,000-tonne campaign secured and commencing in late-January 2026, work now begins in earnest on laying the foundations for a significantly expanded Munda Main Pit operation in 2026 and beyond,” said Mr English.

1.0 PRINCIPAL ACTIVITIES

Munda Gold Mine

Mining and processing activities at Auric's Munda Gold Mine advanced significantly during the December Quarter, with the successful completion of the processing campaign one. Ore mining and haulage continued through October, with approximately 60,600 tonnes of high-grade ore delivered to Black Cat Syndicate Ltd's Lakewood Mill for toll treatment. Processing commenced on 12 October 2025 and was completed ahead of schedule on 2 November 2025, with metallurgical performance exceeding expectations.

With Auric as the mine operator, the first production campaign delivered 2,718 ounces of gold from 57,900 dry tonnes milled, with a reconciled head grade of 1.61 g/t Au and mill recovery of 90.67 percent. Gold sales from the campaign generated A\$16.85 million in gross revenue, delivering A\$10.82 million net cash to Auric after milling, haulage and royalty costs. These results were significantly above internal planning estimates and materially strengthened the Company's financial position at quarter end.

At the end of the December Quarter, approximately 67,000t of high-grade ore has been stockpiled at Munda, in preparation for campaign two at Lakewood.

A second and final processing campaign for the Starter Pit, comprising approximately 65,000 tonnes of ore, has been secured at the Lakewood Mill and is scheduled to commence in late-January 2026.

Jeffreys Find Gold Mine

Jeffreys Find entered its closure stages during the December Quarter following completion of processing earlier in the September quarter. Auric's joint venture partner, BML Ventures Pty Ltd undertook site rehabilitation in accordance with regulatory requirements, including the contouring of the waste dump and ripping of cleared areas. No new mining activities took place, and no further gold production was recorded.

The project delivered a strong financial contribution to Auric over its life, generating approximately 29,537 ounces of gold and ~A\$14.5 million in cashflow to the Company.

Burbanks Plant

Auric continued technical and operational evaluation of the fully permitted 180,000 tonne-per-annum CIL processing facility located 10 kilometres south of Coolgardie during the Quarter, following completion of the acquisition on 30 September 2025. The Burbanks Gold Processing Plant remains a key strategic asset supporting Auric's transition toward becoming an integrated miner and processor. Engineering and technical review work progressed during the quarter to assess refurbishment requirements and potential expansion options for future processing of Auric owned ore.

Lindsay's Acquisition

Auric progressed the acquisition of the Lindsay's Gold Project during the December Quarter, completing settlement on four tenements not subject to Warden's Court proceedings following execution of the Tenement Sale Agreement on 19 November 2025. Additionally, Auric assumed legal management and responsibility for the Warden's Court matter relating to tenement M27/169 and, subject to successful resolution, has committed to further cash payments and the issue of Auric shares in accordance with the agreed acquisition terms.

Corporate

The Company's issued capital totalled 187,093,602 shares at 31 December 2025. Cash and investments on hand totalled \$6.7 million. The Company has no debt and is totally unhedged.

2.0 MUNDA GOLD MINE

2.1 Starter Pit Performance

The Munda Gold Mine remained the Company's primary operational focus during the December Quarter with activities spanning mining, ore haulage, toll-milling, gold production, gold sales, and the subsequent reconciliation of Campaign One. Mining operations in the Starter Pit continued throughout the Quarter, with ore hauled daily during October to Black Cat Syndicate Ltd's Lakewood Mill.

Mining was managed and equipment operated by Auric employees utilising a dry-hire mining fleet supplied by MHM Contracting, who also provided maintenance support. Grade control drilling and drill and blast services were provided by Kalgoorlie-based contractor, Total Drilling Services Pty Ltd

Processing of Munda ore commenced on 12 October 2025 at Lakewood Mill under the ore treatment agreement with Black Cat Syndicate. Auric delivered the first of two parcels totalling 125,000 tonnes of Munda Starter Pit ore, with the initial parcel amounting to approximately 60,600 tonnes. Processing was completed ahead of schedule on 2 November 2025 and metallurgical performance throughout the campaign was better than expected. A reconciled head grade of 1.61 grams per tonne and recovery of 90.67 percent, resulted in 2,718 ounces of gold produced from 57,900 dry metric tonnes milled. This strong outcome reaffirmed the Company's confidence in the broader production potential of the mine.

The campaign generated three early gold pours before reconciliation was completed. The first two gold sales, comprising 980 ounces and 810 ounces respectively, occurred on 31 October and 3 November 2025 at an average realised price of A\$6,130 per ounce, delivering nearly A\$11 million in gross revenue. A further pour of 565 ounces was subsequently sold at A\$6,406 per ounce, bringing total ounces sold prior to Gold-in-Circuit (GIC) calculations to 2,355 ounces and total interim revenue to A\$14.6 million. After accounting for milling and haulage expenses, these initial sales resulted in A\$8.8 million net cashflow for Auric.

Figure 2. Munda gold pour at Lakewood Mill (October 2025).

The calculation of the GIC and reconciliation of Campaign One was formally completed on 18 November 2025 and delivered outstanding results significantly above internal planning estimates. The finalised production and financial metrics confirmed that Auric had generated A\$16.85 million in gross gold sales from 2,718 ounces produced, with A\$10.82 million received after third-party operational costs including milling, haulage, and royalties. The strength of the gold price environment further amplified this result, enabling Auric to establish a solid financial platform for the next stage of Munda's development. At quarter end, Auric held approximately A\$6.7 million cash at bank with further receipts expected early in the March 2026 Quarter from Campaign Two.

Table 1. Munda Processing Campaign 1 Final Production Metrics

Dry Tonnes Milled	57,900
Reconciled Head Grade g/t	1.61
Mill Recovery	90.67%
Gold Recovered - Ounces	2,718

Table 2. Financial Outcome

Gold Sold - Ounces	2,718
Average Sale Price per ounce	\$6,200
Total Gold Sales	\$16,851,773
Less External Direct Costs¹	\$6,032,878
Net Cash to Auric	\$10,818,895

¹ Milling, haulage and royalty costs.

The outstanding performance of Campaign One has several important implications for Auric's forward development strategy. Firstly, it confirms the quality and commercial attractiveness of the Munda orebody, demonstrating good grade performance and better than expected metallurgical recoveries. Secondly, the geotechnical and geological information obtained from the Starter Pit provides valuable data to refine the resource modelling and design of the Munda Main Pit. Thirdly, the operational success of the Lakewood Mill toll-treatment arrangement validates the effectiveness of this processing pathway for near-term production while longer-term processing options are developed in parallel at Burbanks. Finally, the significant cash inflow places Auric in a strong financial position to progress growth initiatives.

Figure 3. Doré bars Lakewood Mill (October 2025).

2.2 Planning for Campaign Two

During the quarter, Auric confirmed its allocation for a second processing window at Lakewood Mill, which is scheduled to commence in late January 2026. This second campaign will process 65,000 tonnes of Munda Starter Pit ore under the toll-milling agreement. Grade control drilling and updated geological models completed during the quarter led to refinements of the Starter Pit design, enabling Auric to capture additional ore at the base of the pit. At the close of the December Quarter, approximately 67,000t of high-grade ore has been stockpiled at Munda with mining to extend into January 2026. The Company expects Campaign Two to extend the strong production and cashflow momentum established in Campaign One and to further consolidate Auric's operational expertise as it prepares for a transition to larger-scale operations in the Munda Main Pit.

2.3 Development Pathway – Munda Main Pit

The much larger Main Pit is expected to form the core of Auric's production profile for several years and represents a significant opportunity to substantially increase gold output beyond Starter Pit levels. Planning work for the Main Pit is scheduled to begin following reconciliation of gold recovered from the completed Starter Pit with resource and grade control models for the same volume. Detailed design work and further economic analysis is expected to lead to permitting of the Main Pit later in 2026.

Figure 4. Munda Pit with ore mark out (November 2025).

2.4 Loan Facility – BML Ventures Pty Ltd

During the quarter, Widgie Gold Pty Ltd, a wholly owned subsidiary of Auric Mining Ltd entered into a mortgage with BML Ventures Pty Ltd securing Mining Lease M15/87 for a loan facility of up to \$3.0 million. The loan bears interest at 8% per annum, payable monthly in arrears. The facility is secured against the whole of the shares in the tenement. A total of \$1.25 million was drawn and fully repaid during the quarter, with no amount outstanding at quarter end. The loan facility remaining available is \$3.0 million.

3.0 JEFFREYS FIND GOLD MINE

The Jeffreys Find Gold Mine Joint Venture entered the closure stages during the December Quarter. Mining and processing activity ceased earlier in September quarter, with the project having delivered a strong financial contribution to Auric over its life, producing approximately 29,537 ounces of gold and generating \$14.5 million in cashflow to the Company. During the quarter, BML Ventures Pty Ltd undertook mine site rehabilitation in accordance with the project’s Mining Proposal and Mine Closure Plan. This included waste dump profiling and topsoil sheeting together with removal of all mining infrastructure and ripping of cleared areas to enhance vegetation regrowth. No new mining activities took place, and no further gold production was recorded.

Table 3. Jeffreys Find – Gold Sold after 8th Processing Campaign

Jeffreys Find Gold Mine	Stage One 2023	Stage Two 2024-2025*	Total Project To December 2025*
Gold Recovered – Ounces	9,741	19,796	29,537
Average Sale Price per ounce AUD	\$3,006	\$4,134	\$3,792
Cash to Auric	\$4.76mil	\$9.1mil	\$14.5mil

*As of 31 December 2025, interim figures only

Figure 5. Mark English and John Utley holding a Jeffreys Find doré bar.

4.0 BURBANKS GOLD PROCESSING PLANT

The acquisition of the Burbanks Gold Processing Plant was completed by Auric on 30 September 2025. The plant's location, and infrastructure make it a highly valuable long-term asset capable of providing Auric with substantial processing flexibility.

Metallurgical and engineering consultants undertook an inspection of the Burbanks processing plant during the Quarter and are currently outlining various development options at a desktop (ie, pre scoping study) level.

Figure 6. Burbanks gold processing plant.

5.0 LINDSAY'S FIND ACQUISITION

The Company executed a Tenement Sale Agreement on 19 November 2025, completing settlement on four tenements forming part of the Lindsay's Project for a total of \$400,000. Auric also assumed management and responsibility for the Warden's Court proceedings relating to tenement M27/169 whilst the vendor retains responsibility for proceedings related to two other tenements, M27/34 and M27/486.

Under the agreed acquisition terms, Auric has secured the right to undertake work on M27/169 and, subject to successful resolution of the litigation, will make a further cash payment of A\$1.3 million and issue A\$2.0 million in Auric shares. A cash payment of \$300,000 is payable to the vendor following the successful resolution of litigation on M27/34 and M27/486.

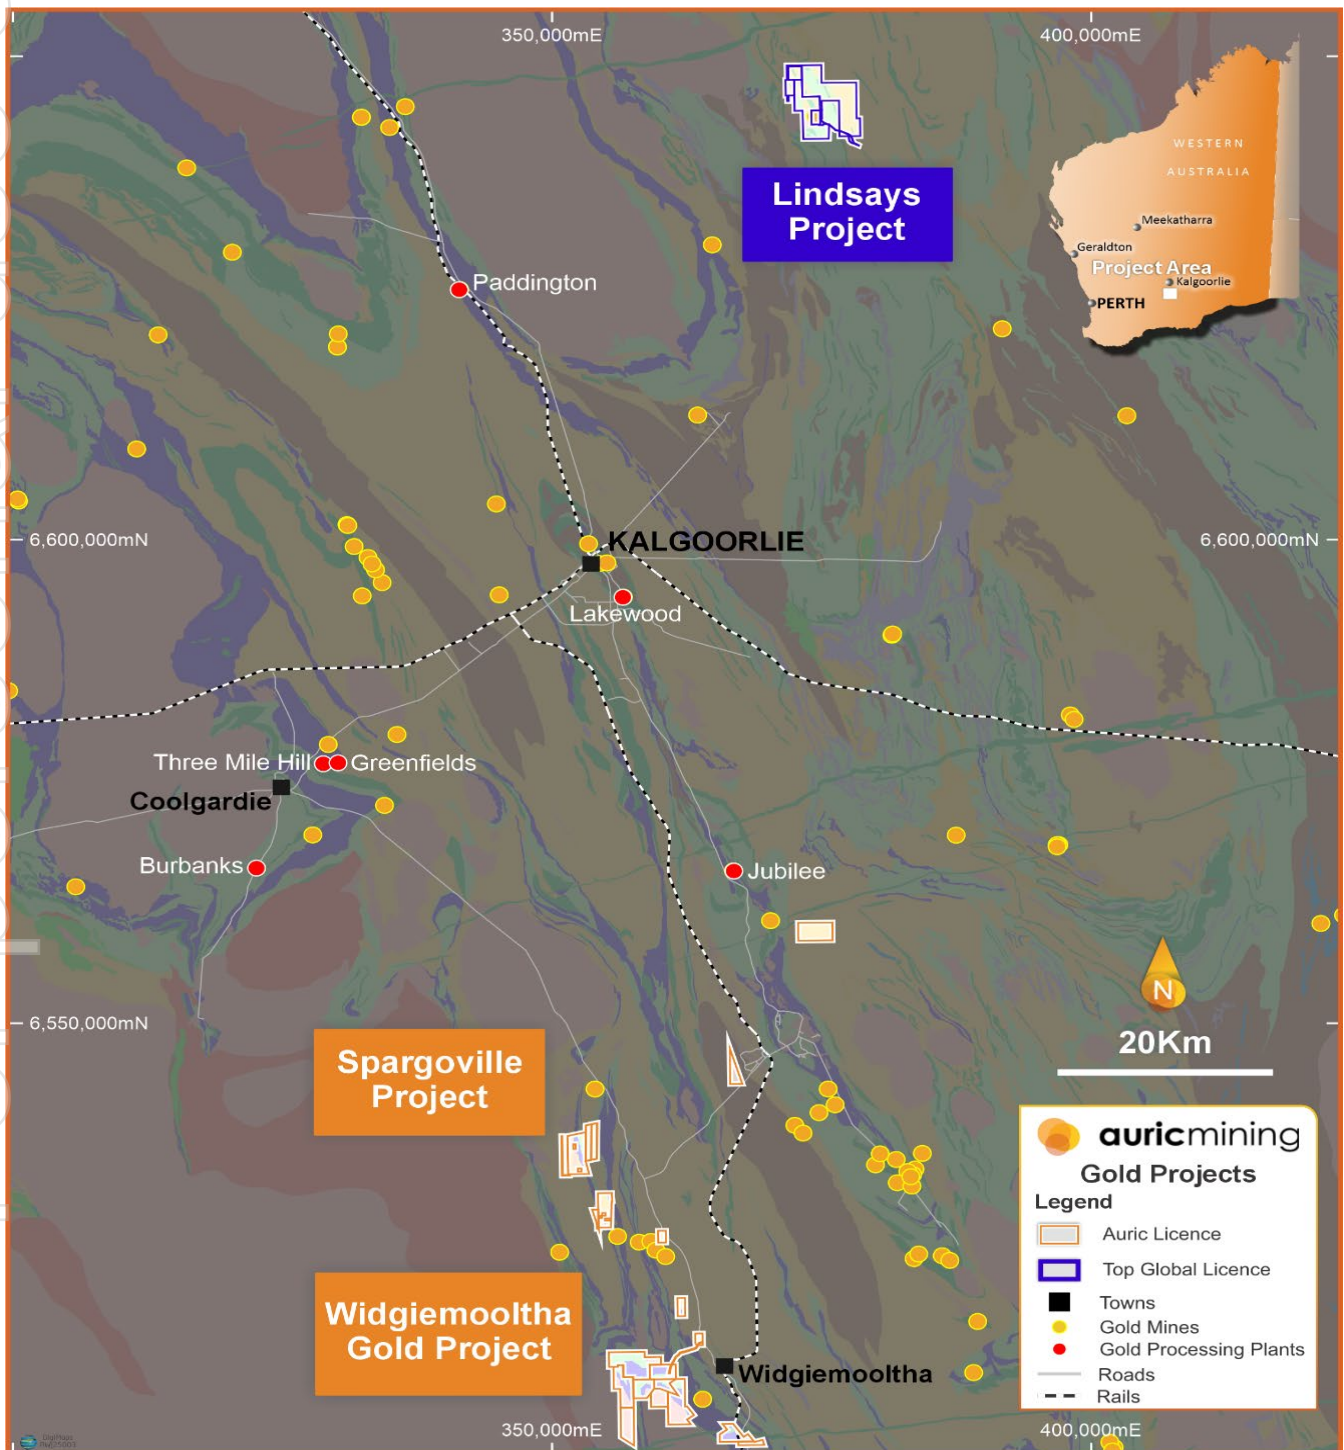

Figure 7. The Lindsay's Project and Auric's projects north of Widgiemooltha.

6.0 OTHER EXPLORATION

No other significant exploration was undertaken during the quarter. Planning is underway for RC and aircore drilling campaigns to start across Higginsville (Loded Dog), Chalice West, Spargoville and Widgiemooltha tenements in the second quarter of 2026.

7.0 HERITAGE

No heritage surveys or ground-disturbing heritage activities were undertaken during the December 2025 Quarter. All operations at the Munda Gold Mine were conducted within previously cleared and approved disturbance areas, and no exploration or development activities were carried out on newly acquired tenements during the period.

8.0 SAFETY

There were no alternate duty injuries (“ADI”) and no medically treated injuries (“MTI”) reported during the quarter. There were no lost time incidents (“LTI”) recorded during the quarter.

9.0 ASX COMPLIANCE

9.1 Compliance Statement

The information in this report that relates to exploration results and gold production is extracted from the Company’s following ASX announcements which are available to view on the Company’s website, www.auricmining.com.au:

ASX Announcements included in the December 2025 Quarter up to date	
Date	Details
1 October 2025	Auric Successfully Completes Burbanks Plant Acquisition
14 October 2025	First Munda Ore Processing Commenced at Lakewood Mill
22 October 2025	First Munda Gold Pour Completed at Lakewood Mill
5 November 2025	First Munda Gold Mine Sales at average A\$6,130 an ounce
18 November 2025	Update - Munda Buoyant Sales Deliver Auric \$14.6M Revenue
20 November 2025	Lindsays Gold Project Tenement Sale Agreement Executed
1 December 2025	Munda Gold Mine Campaign One Results
ASX Announcements referred to from previous quarters	
12 Dec 2024	Munda Gold Deposit Starter Pit Ore Reserve

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements released during the quarter. The Company further confirms that the form and context in which the Competent Persons’ findings are presented have not been materially modified from those original announcements. With respect to ASX Listing Rules 5.3 and 5.5, the Company confirms that it continues to be classified as a mining exploration entity.

No mining or production activities were undertaken at Jeffreys Find during the December Quarter.

Mining, ore haulage, toll milling, gold production and gold sales were undertaken at the Munda Gold Mine during the December 2025 Quarter under the Ore Purchase and Processing Agreement with Black Cat Syndicate Ltd (ASX: BC8). Auric confirms that it is operating in its own right at Munda and that all technical parameters, production metrics and operational assumptions disclosed in prior market announcements remain current and unchanged, except where updated by announcements released during the quarter.

9.2 Forward Looking Statements

This Announcement contains forward-looking statements which are identified by words such as 'may', 'could', 'should', 'believes', 'estimates', 'targets', 'expected', or 'intends' and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Announcement, are considered reasonable. Such forward-looking statements are not a guarantee of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the management. The Directors cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

10.0 TENEMENTS

The attached schedule 1 lists the mining tenements held at 31 December 2025, their location and equity ownership. Auric has interests in 73 tenements at that date.

New tenements during December 2025 Quarter:

Tenement	Project	Mineral Rights
E15/2151*	Widgiemooltha	100% All minerals
E63/2535*	Jeffreys Find	100% All minerals
M27/82	Lindsays	100% All minerals
M27/84	Lindsays	100% All minerals
E27/624	Lindsays	100% All minerals
P27/2406	Lindsays	100% All minerals

*Application

Relinquished tenements during December 2025 Quarter:

Tenement	Project	Mineral Rights
P15/6092	Widgiemooltha	100% Au Rights
P24/5842	Spargoville	100% All Minerals

10.1 Farm-in or Farm-out agreements

Auric is not party to any Farm-in or Farm-out agreements.

11.0 RELATED PARTY PAYMENTS

The Company paid salaries, superannuation, annual leave and other employment entitlements to full time employee Directors and related parties of the Company of \$410,000. The Company also paid \$30,666 to Director-related parties of the Company. These costs are included in administration costs and working capital except when technical staff are working in the field. Those direct costs are allocated to the tenements and projects and are included at item 2.1(d) of 31 December 2025 Quarter: Appendix 5B.

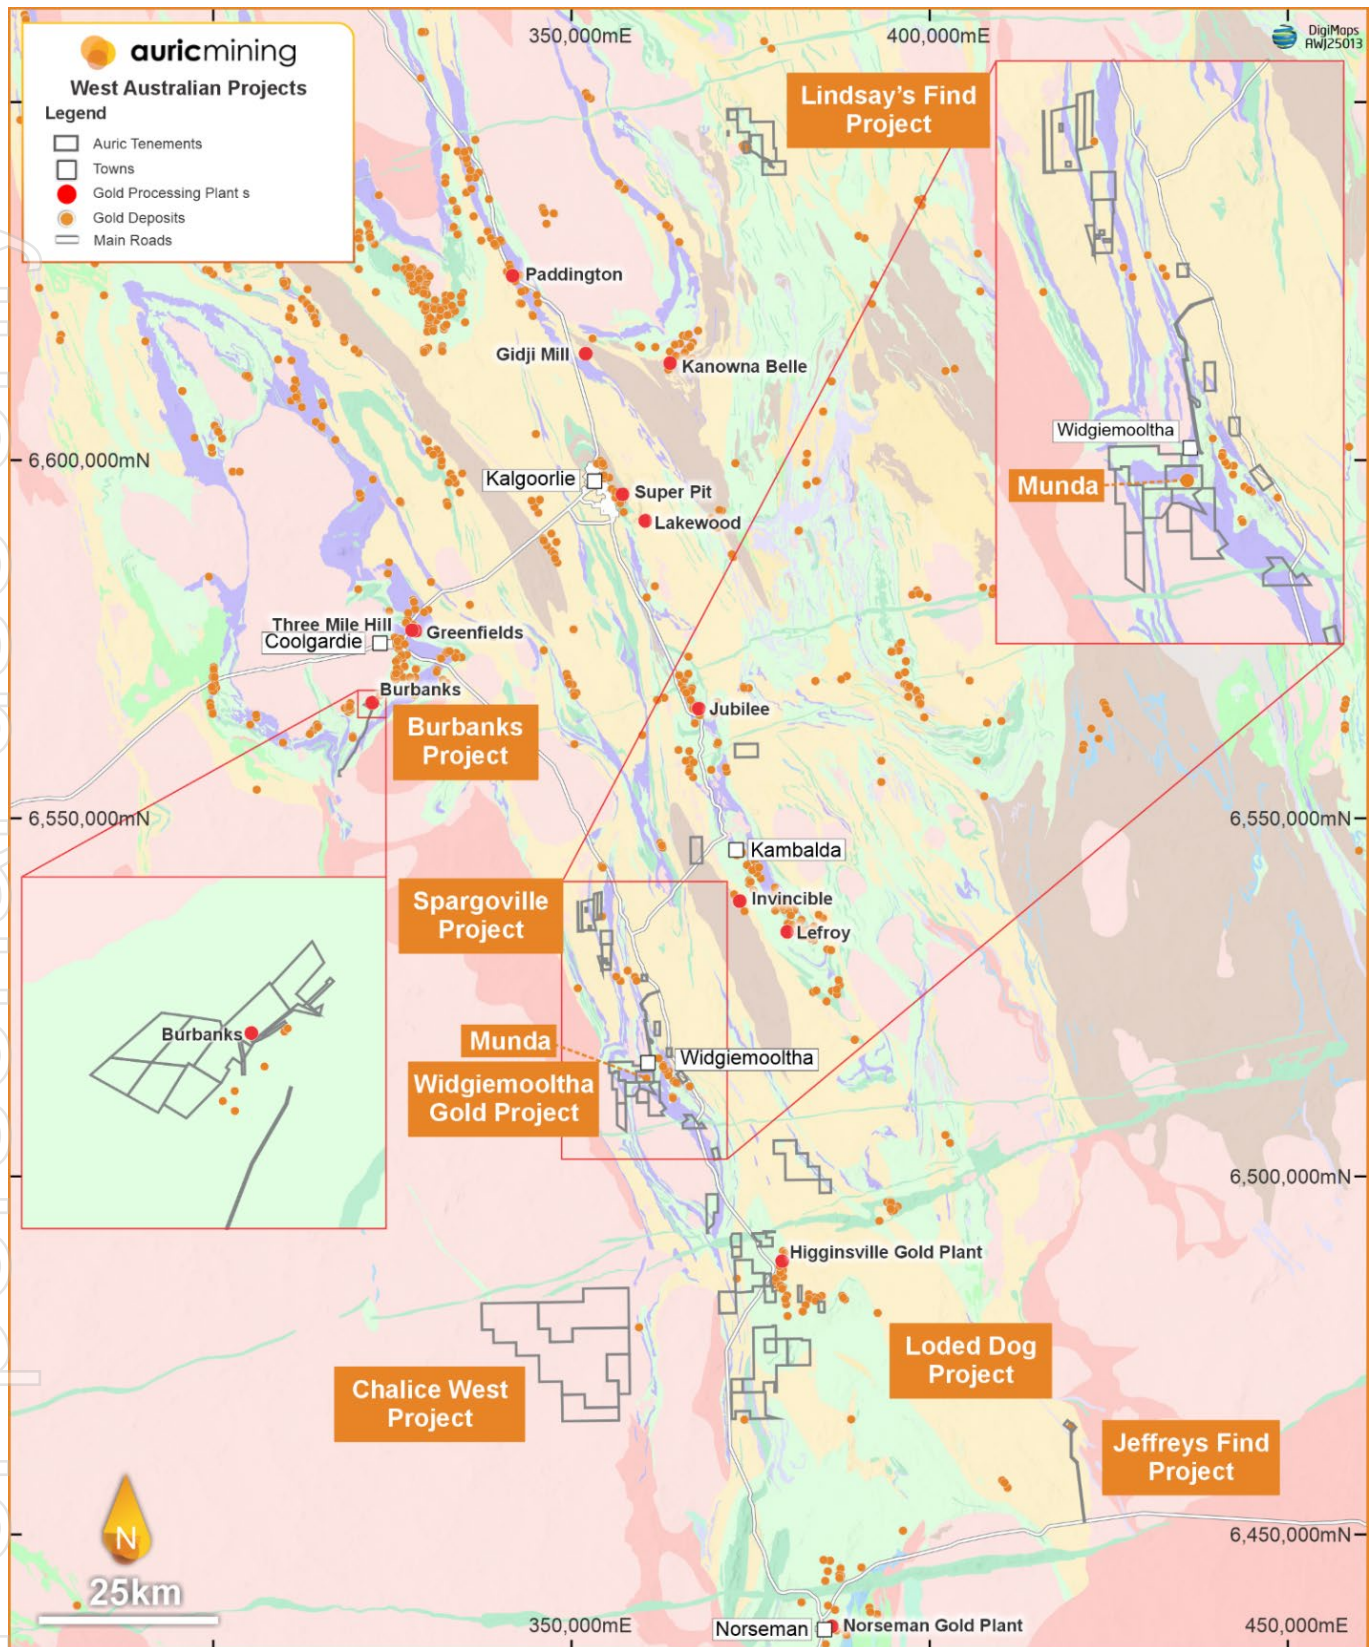

Figure 8. Auric's projects in the Widgiemooltha-Norseman area.

Auric Mining Ltd

Auric Mining Ltd was established to explore for and develop gold and other mineral deposits in the Widgiemooltha-Norseman area, of Western Australia.

Auric has tenements covering 494km². Auric holds the rights to gold on all tenements, including those

held in the name of Mt Edwards Critical Metals Pty Ltd. Further, at Munda it holds all mineral rights except lithium. For all other tenements, excluding those held in the name of Mt Edwards Critical Metals Pty Ltd, Auric holds 100% of all mineral rights.

The tenements are separated into six projects (Figure 8):

The Widgiemooltha Gold Project including the Munda Gold Mine and Loded Dog tenements

The Widgiemooltha Gold Project located near the town of Widgiemooltha combines 37 tenements, including 5 granted Mining Leases. All tenements are highly prospective for gold mineralisation.

The Jeffrey Find Gold Mine

The Jeffreys Find Gold Mine is 50km northeast of Norseman and combines 3 tenements including 1 granted Mining Lease. It includes the Jeffreys Find gold deposit where gold mineralisation extends from the surface to at least 110m in vertical depth. Open pit mining was recently completed via a joint venture with BML Ventures Pty Ltd.

The Spargoville Project

The Spargoville Project is located 30km north of Widgiemooltha and combines 10 tenements. It lies in similar stratigraphy, proximal to the Wattle Dam Gold Mine which produced 268,000oz gold @ 10g/t from 2006-13; one of Australia's highest-grade mines at that time.

The Chalice West Project

The Chalice West Project is located 50km southeast of Widgiemooltha and proximal to the Chalice Gold Mine, a mine that produced almost 700,000 ounces of gold. The Project combines 4 tenements. It covers 245km², including geology mirroring the Chalice Gold Mine. As well as gold, the Project is prospective for Rare Earth Elements (**REE**) and for Ni-Cu and Pt-Pd deposits.

The Burbanks Gold Processing Plant

The Burbanks Gold Processing Plant is located 8km south of Coolgardie and combines 14 tenements including 3 granted mining leases and 5 General Purpose leases, together with associated infrastructure. The plant is fully permitted with access to grid power, sealed road and a water licence. It provides Auric with an in-house processing solution for gold ore from Munda, Lindsay's and other nearby projects.

The Lindsay's Gold Project

The Lindsay's Gold Project is located 65km northeast of Kalgoorlie and currently combines 5 tenements. Auric has the right to purchase 3 further tenements subject to resolution of claims by third parties against those tenements

This announcement has been approved for release by the Board.
