

29 January 2026

## DECEMBER 2025 QUARTERLY ACTIVITIES REPORT

### Highlights

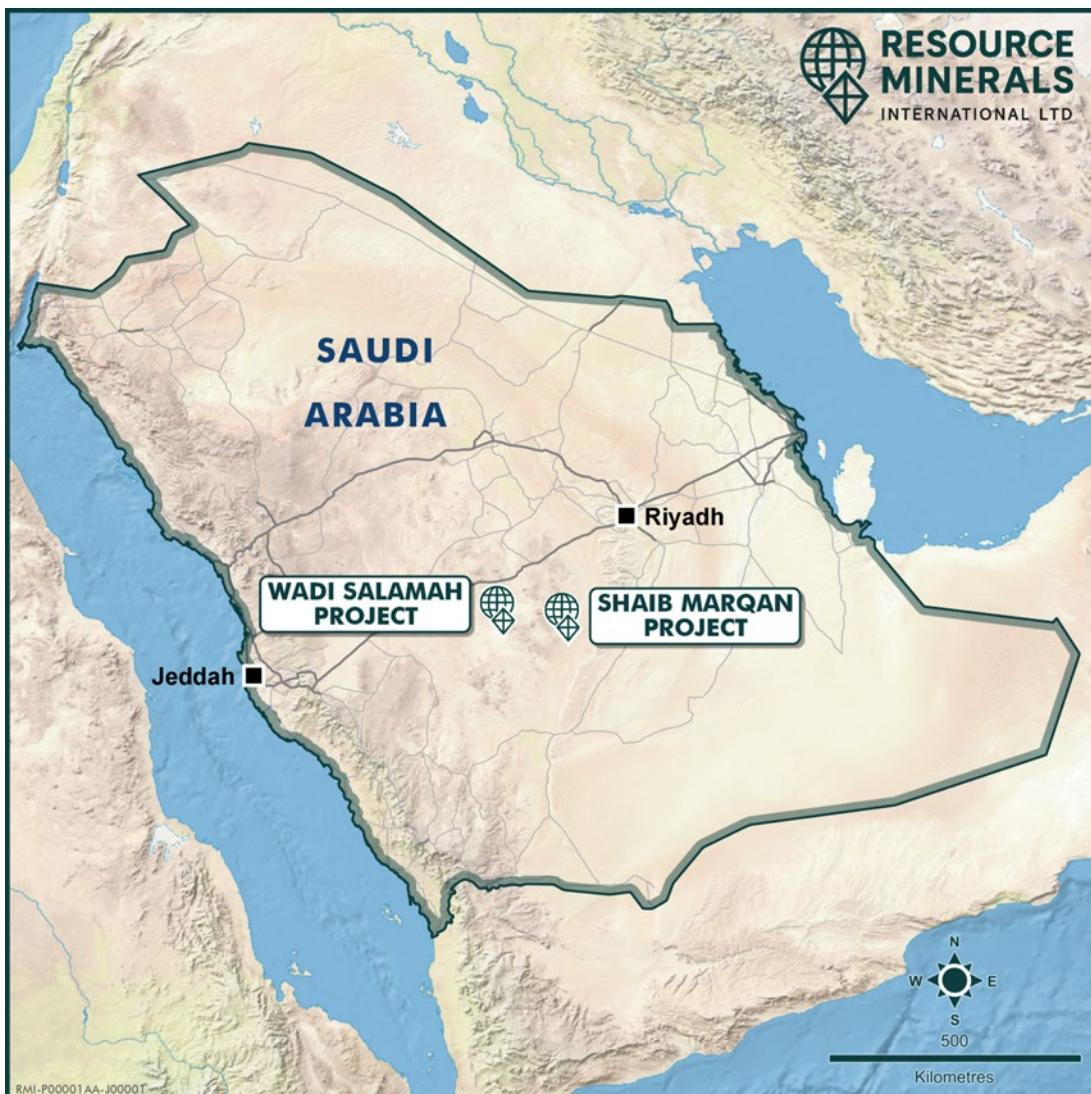

- **High grade gold and copper from rock chip sampling at Shaib Marqan and Wadi Salamah projects in Saudi Arabia.**
- **Shaib Marqan high-grade gold assays of 40.35 g/t Au, 9.62 g/t Au, 7.03 g/t Au and 5.72 g/t Au and Wadi Salamah high-grade gold and silver assays of 10.66 g/t Au & 40.4 g/t Ag, 7.56 g/t Au & 19 g/t Ag, 5.50 g/t Au & 18 g/t Ag and 4.27 g/t Au & 38.9 g/t Ag.**
- **Ground magnetic survey program completed at Wadi Salamah and in progress at Shaib Marqan.**
- **Successful \$1 million Placement completed and the Company ended the December 2025 quarter debt free.**

Resource Minerals International Ltd (**ASX: RMI**) (“**RMI**” or “**the Company**”) is a Perth-based specialist mineral exploration company aiming to create wealth from the development of critical and precious mineral deposits through exploration for economic deposits in Tanzania, Saudi Arabia and Finland. The Company provides its activities and cash flow summary for the quarter ended 31 December 2025.

### Saudi Arabia

#### Wadi Salamah and Shaib Marqan Projects

Both projects are granted Exploration Licences (“EL”) located in central Saudi Arabia. Shaib Marqan is situated around 240km south-west of Riyadh and easily accessible via sealed roads and minor unsealed roads. The EL area is 91.8km<sup>2</sup>. Wadi Salamah is located approximately 320 kilometres west-south-west of Riyadh, and 150 kilometres west of the Shaib Marqan project. The EL area is 98.7 km<sup>2</sup>.

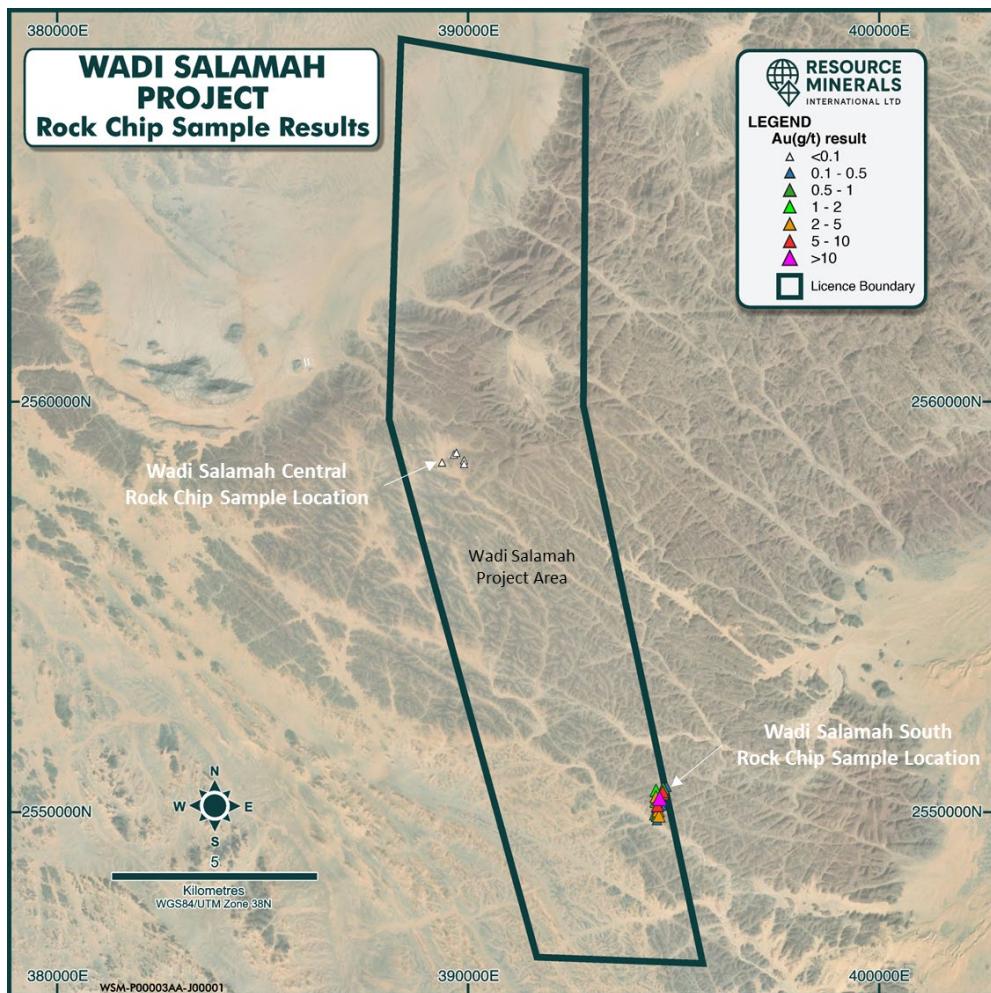

**Figure 1: Projects Location Map**

### **Wadi Salamah Rock Chip Results**

Based on earlier sample assay results<sup>1</sup>, in March 2025 rock chip samples were collected in two locations named WS South and WS Central. The WS South area provided multiple samples with elevated gold and silver grades. Figure 2 shows the locations of the two areas of sampling within the Wadi Salamah project area.

<sup>1</sup> Refer to ASX announcement dated 13 January 2025 titled "RMI Granted Option to Acquire Joint Venture interest in Saudi Arabia exploration projects" including JORC Table 1 disclosures for the G-23 (Wadi Salamah) Rock Chip Samples.

**Figure 2: Wadi Salamah project area and rock chip sample locations**

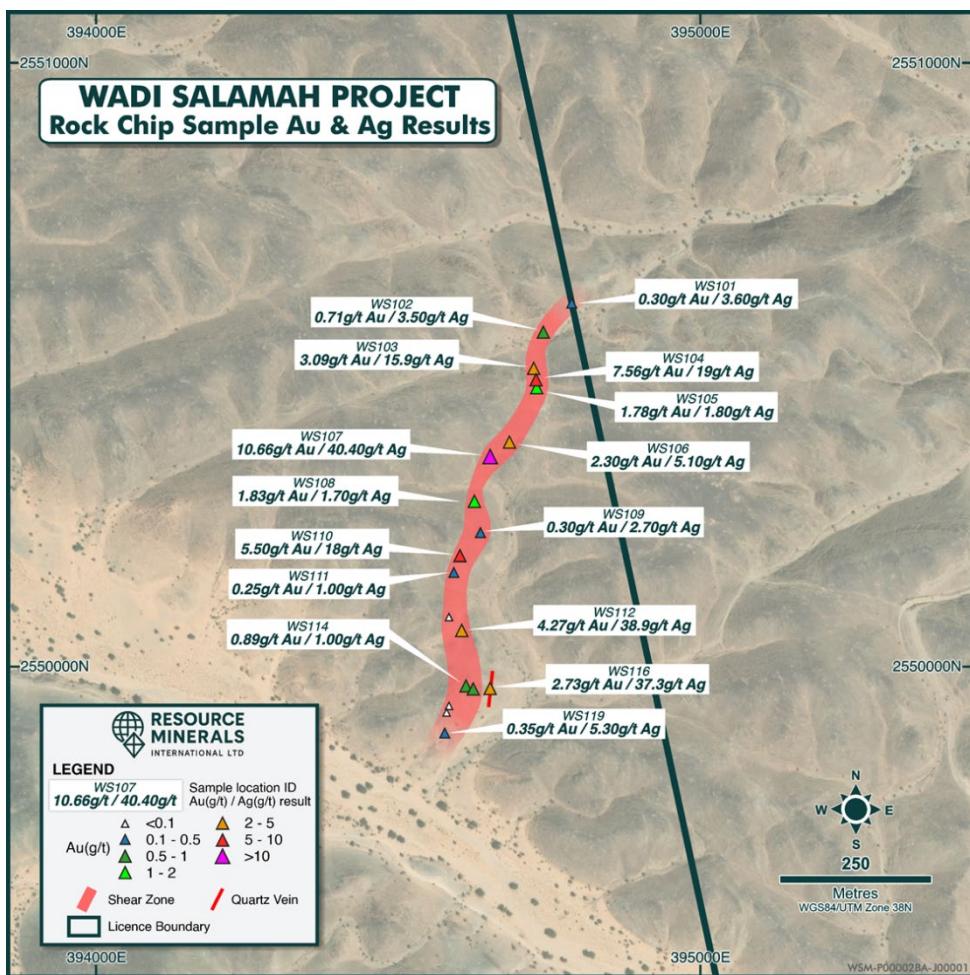

The WS South samples were collected along a shear zone over a strike length of over 700 metres of outcrop. The shear progresses under the sand of a wadi at the southern extent of sampling. The northern extent continues beyond the lease boundary where sampling was terminated. The shear is subvertical and has a minimum observed width of approximately 10 metres and extends to over 30 metres wide in the central and southern portion of the sampled strike length.

Most samples from WS South are from quartz veins from within the shear zone. These veins are generally flat dipping and appear as sheeted veins or a stockwork within the shear. There is often black sulphide mineral visible in trace quantities that is interpreted to be galena based on the assay results.

Parallel to the shear are some massive quartz veins several metres thick which are also mineralised with gold and silver as seen in samples WS112 and WS116.

**Table 1: Wadi Salamah March 2025 Rock Chip Results >1g/t Au**

Sample ID	Au ppm	Ag ppm	Description
WS107	<b>10.66</b>	<b>40.4</b>	Quartz vein, trace visible sulphide
WS104	<b>7.56</b>	<b>19.0</b>	Quartz vein, laminated, iron stain
WS110	<b>5.50</b>	<b>18.0</b>	Quartz vein, microcrystalline (sugary) texture, iron stain
WS112	<b>4.27</b>	<b>38.9</b>	Quartz vein massive 2m thick
WS103	<b>3.09</b>	<b>15.9</b>	Quartz vein, laminated
WS116	<b>2.73</b>	<b>37.3</b>	Quartz vein massive 1.5 metres thick
WS106	<b>2.30</b>	<b>5.1</b>	Quartz vein trace visible sulphide
WS108	<b>1.83</b>	<b>1.7</b>	Quartz vein trace visible sulphide
WS105	<b>1.78</b>	<b>1.8</b>	Quartz vein, iron stain

**Figure 3: Wadi Salamah South rock chip sample gold and silver results in shear zone sampled over 700 metres strike length**

Samples from WS Central were mostly taken from a pale pink coloured porphyry/granitic dyke exposed over several hundred metres with a trace of visible pyrite common. These samples all returned below detection gold assays.

### Shaib Marqan Rock Chip Results

On 13 October 2025 the Company announced that a total of eighty-seven (87) rock chips were collected from the southern-central portion of the Shaib Marqan project. This area was targeted as the previous samples collected in 2024 and reported in January 2025 included high grade gold assay results<sup>2</sup>.

Field inspection conducted by RMI geologists observed abundant quartz veins, stockworks and shear zones, many with visible sulphide minerals, and several small-scale ancient mine workings on quartz veins and more recent alluvial mining in the wadi systems. Strike lengths and widths of veins were variable ranging from isolated quartz "blows" to veins in shear zones extending several hundred metres. The alluvial mining of the wadis is extensive in some areas.

Sample results greater than 1.0 g/t gold (Au) are listed in Table 2<sup>3</sup>. In addition to these higher grade results a further 13 samples recorded anomalous gold grades between 0.20 g/t and 0.85 g/t Au indicating widespread gold anomalism in outcrop.

**Table 2: Shaib Marqan March 2025 Rock Chip Results >1g/t Au**

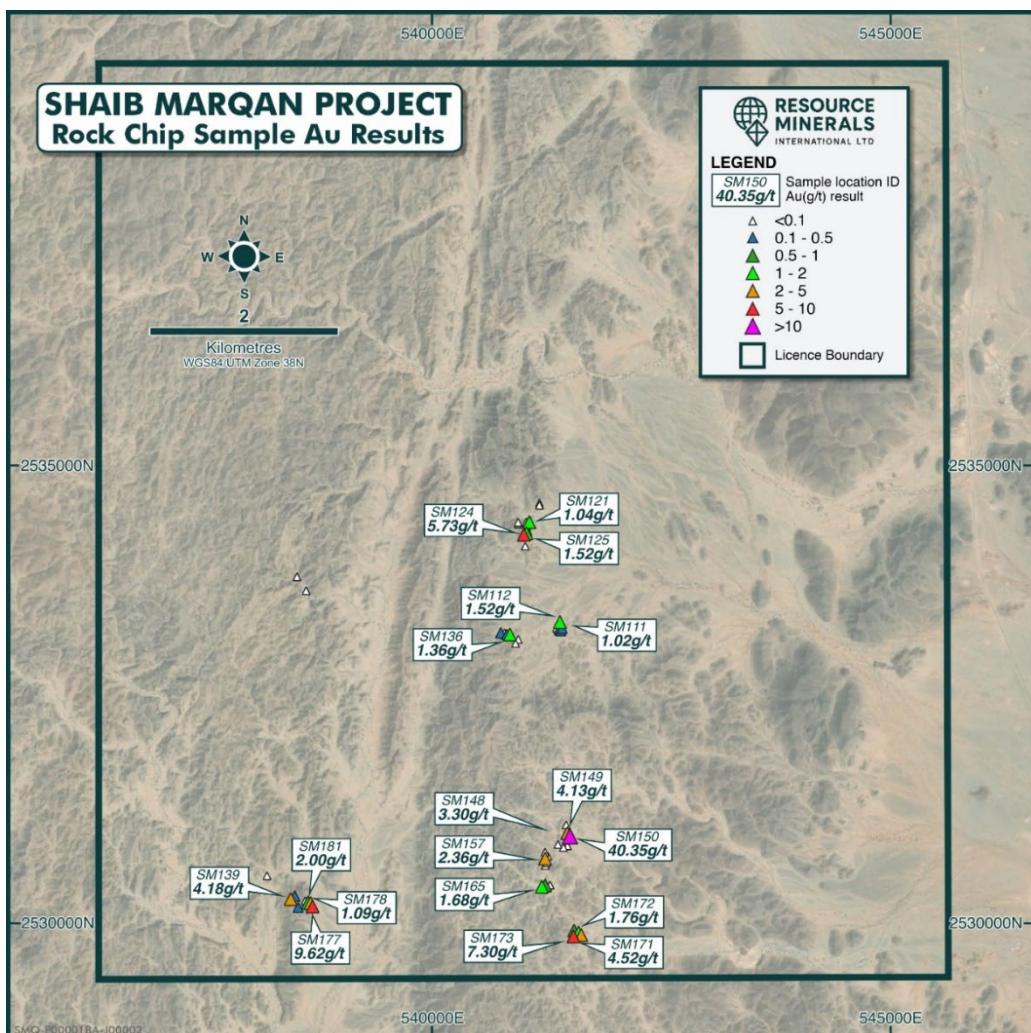

Sample ID	Au ppm	Description
SM149	<b>40.35</b>	Quartz vein, laminated, 1.5m wide
SM177	<b>9.62</b>	Quartz vein, Fe stain, gossanous boxwork
SM173	<b>7.30</b>	Quartz vein boudins in shear, Fe stain
SM124	<b>5.72</b>	Quartz vein, Fe stain
SM171	<b>4.52</b>	Schist with quartz stringers, 1m channel sample
SM139	<b>4.18</b>	Quartz vein - massive
SM150	<b>4.13</b>	Schist hanging wall and foot wall composite sample to SM149
SM148	<b>3.30</b>	Quartz vein, laminated, Fe stain
SM157	<b>2.36</b>	Quartz vein, Fe stain
SM181	<b>2.01</b>	Quartz stockwork veins, Fe stain, 1.5m x 1.0 m panel sample
SM172	<b>1.76</b>	Schist, gossanous Fe stain 1.0m channel sample
SM165	<b>1.68</b>	Schist, quartz veinlets, trace pyrite, 1.0m channel sample

<sup>2</sup> ASX announcement 13 January 2025

<sup>3</sup> ASX announcement 13 October 2025

Sample ID	Au ppm	Description
SM125	<b>1.52</b>	Quartz veins in shear
SM112	<b>1.52</b>	Schist, chlorite sheared trace pyrite.
SM136	<b>1.36</b>	Schist, quartz veinlets, trace pyrite, 0.6m channel sample
SM178	<b>1.08</b>	Wall rock quartz stringers panel sample.
SM121	<b>1.04</b>	Wall rock quartz stringers panel sample.
SM111	<b>1.02</b>	Quartz vein in ancient working, siderite, trace oxidised sulphide

Figure 4 shows the distribution of results on a satellite mage which highlights the limited area covered by the reconnaissance work compared to the overall licence area. Sampling was not exhaustive with many outcropping veins not sampled in the time available. Further sampling will be conducted as part of the next phase of exploration.

**Figure 4: Shaib Marqan rock chip gold assay result locations**

The results indicate endowment of gold is widespread in the area sampled hosted in quartz veins and shear zones often with abundant quartz veinlets. Weathered sulphide minerals with cubic pyrite visible as iron oxide pseudomorphs and gossanous boxwork occur in schists often in contact with quartz veins show gold distribution is in both veins and associated host rock.

During the quarter follow up exploration was performed via detailed magnetic surveys to provide data for targeting drilling.

### **Magnetic Survey to identify high-priority drill targets**

On 6 November 2025 the Company commenced a ground magnetic survey at its Shaib Marqan gold project and its Wadi Salamah gold–silver project. The program is designed to provide detailed structural and lithological data to refine drill-target definition for upcoming exploration campaigns. The work is being conducted in collaboration with CNNC Geological Science and Technology Co., Ltd part of the China National Nuclear Corporation<sup>4</sup> (CNNC).

The survey represents the first detailed exploration phase following RMI's recent confirmation of high-grade gold and silver mineralisation from rock-chip sampling across both projects<sup>5</sup>. Collected survey data will be integrated with existing geological information to map subsurface structures and target mineralised zones for detailed mapping and future drilling.

**Photo 1: Field team conducting ground magnetic survey using high-resolution magnetometer equipment (Wadi Salamah project).**

<sup>4</sup> <https://en.cnnc.com.cn/>

<sup>5</sup> ASX announcement 13 October 2025

By 10 December 2025, field crews had completed all magnetic survey lines in the Wadi Salamah project, achieving a total of 1,010 kilometres of coverage, and have commenced data processing and analysis. CNNC technical teams are preparing the combined raw and processed datasets for delivery in the coming weeks.

With the Wadi Salamah ground survey field work completed, field teams have mobilised to conduct ground survey work in the Shaib Marqan project. This marks the next stage of the systematic exploration program. The magnetic survey is designed to define structural controls, lithological boundaries, and potential mineralised corridors, supporting high priority drill target generation across both projects. This work is being integrated with earlier geological mapping and rock chip sampling that confirmed strong gold and gold-silver mineralisation across the project areas.

The results from the Wadi Salamah and Shaib Marqan ground survey programs will be integrated with existing datasets to refine structural interpretations and guide drill target definition for programs planned for early 2026.

**Photo 2: Ground survey teams in the field at Wadi Salamah**

### **Next Steps**

The magnetic survey forms part of a systematic work plan to refine high-priority targets for upcoming mapping and drilling. RMI expects the survey results and interpretations to guide field exploration programs planned for early 2026.

## Tanzania

The Company has progressed the drone magnetic survey over selected areas of the Mpanda copper Gold Project. The company conducting the survey has recently mobilised to site and will complete the programme in January 2026 with results announced once data interpretation and analysis is completed. This information combined with previous rock chip and some shallow drilling exploration results will be used to refine high-priority targets for upcoming mapping and drilling.

The Company undertook limited exploration activities on the Tanzanian nickel projects due to the current nickel market conditions.

## Finland

With the improvements in the lithium market and lithium prices, the Company has recently commenced a shallow drilling programme at the granted Köyhäjoki exploration permit. The programme is targeting 123 holes for 720 metres drilled with further information to be announced in the March 2026 quarter.

## Corporate

On 25 November 2025 the Company held its Annual General Meeting where all resolutions were passed by poll<sup>6</sup>.

During the quarter, the Company completed a successful \$1 million placement to existing shareholders and new sophisticated investors at \$0.025 per share ("Placement"). Funds raised from the Placement are to be used towards:

- Exploration campaign at the Saudi Arabian projects,
- Repurchase of the RiverFort convertible securities,
- Geophysics and further exploration at the Mpanda Copper-Gold project in Tanzania,
- Exploration drilling at the Finland lithium project, and
- General working capital and Placement costs<sup>7</sup>.

Post the Placement and prior to the end of the quarter, the Company redeemed the remaining 500,000 convertible securities on issue to RiverFort Global Capital Limited ("RiverFort"). The Funding Agreement entered into with RiverFort as announced on 31 July 2025 for the provision of funding up to A\$5,000,000 has a term of 3 years. It remains available for future funding requirements.

---

<sup>6</sup> ASX announcement 25 November 2025

<sup>7</sup> ASX announcement 18 December 2025

## Cashflow for the Quarter

Attached to this report is the Appendix 5B containing the Company's cash flow statement for the quarter. The Company provides the following information pursuant to ASX Listing Rule requirements:

- **ASX Listing Rule 5.3.1:**

Approximately \$426k was spent on exploration expenditure during the quarter (refer item 2.1 (d) of the attached Appendix 5B). Full details of exploration activity during the quarter are included in this quarterly activities report.

- **ASX Listing Rule 5.3.2:**

Nil was spent on mine production and development activities during the quarter.

- **ASX Listing Rule 5.3.5:**

The Company advises that \$101k of payments were made to related parties and their associates during the quarter, for Director fees and consultancy services.

At the end of the quarter, the Company held approximately \$557k in cash.

## Interests in Mining Tenements

The Company provides the following information pursuant to ASX Listing Rule requirement 5.3.3:

- Mining tenement interests acquired or disposed of during the quarter: RMI Finland Oy relinquished the Pikkukallio tenement (ML2023:0036-01) and Vancouver Mineral Resources Ltd relinquished an Mpanda tenement (PL 11932/2022).
- Beneficial percentage interests held in farm-in or farm-out agreements at the end of the quarter: Not applicable.
- Beneficial percentage interests in farm-in or farm-out agreements acquired or disposed of during the quarter: Nil.

For information on mining tenements held on 31 December 2025, refer to the Tenement Schedule following this report.

## December 2025 Quarter – ASX Announcements

This Quarterly Activities Report contains information extracted from ASX market announcements reported in accordance with the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (2012 JORC Code). Further details (including 2012 JORC Code reporting tables where applicable) of exploration results, mineral resources and ore reserves referred to in this Quarterly Activities Report can be found in the following announcements lodged on the ASX:

10/12/2025 Wadi Salamah ground survey complete & Shaib Marqan underway  
06/11/2025 Magnetic Survey underway across Saudi Gold-Silver Projects  
13/10/2025 High-Grade Gold and Silver Assays from Rock Chip Sampling at Shaib Marqan and Wadi Salamah - Saudi Arabia  
21/08/2025 RMI acquires JV Interest in Saudi Exploration Projects  
31/07/2025 \$5M Funding Facility to advance Gold and Copper Exploration  
23/07/2025 Drilling underway at Mpanda Copper-Gold Project  
10/06/2025 Drilling programme commencing at Mpanda Copper-Gold Project  
19/05/2025 Exploration & Development update Mpanda Copper-Gold Project  
13/05/2025 Mpanda Copper-Gold exploration programme continues  
14/03/2025 Saudi Arabian Exploration Programme Commences  
13/01/2025 RMI granted option to acquire JV interests in Saudi Arabia  
02/09/2024 More positive results from Mpanda Cu-Au Project, Tanzania  
05/08/2024 Positive Results from Maiden Mpanda Drill Program, Tanzania  
27/06/2024 RC Drilling commences at Prospective Mpanda Cu-Au Project, Tanzania  
06/06/2024 Drilling Program to commence at Mpanda Cu-Au Project  
01/05/2024 High Grade Cu-Au Assays at Mpanda Cu-Au Project, Tanzania  
13/03/2024 Amendment – Significant Cu-Au Discoveries at Mpanda, Tanzania  
12/03/2024 Significant Cu-Au Discoveries at Mpanda, Tanzania  
05/02/2024 Two Copper-Gold Projects acquired in Tanzania

## About Resource Minerals International Ltd

The strategic intent of Resource Minerals International Ltd (ASX:RMI) is to establish a long-term business based on mineral development delivering consistent shareholder value whilst operating in a sustainable way within the community and environment in which we operate.

In Tanzania, RMI has two exploration projects targeting Copper-Gold and six projects focussed on Nickel occurrences in sulphides within known and prolific mafic and ultramafic intrusions. In Finland, RMI has two projects, focusing on the exploration of Lithium.

The Board has strong ties to Tanzania, Chaired by Asimwe Kabunga, a Tanzanian-born Australian entrepreneur who was instrumental in establishing the Tanzania Community of Western Australia Inc. and served as its first President.

4.6	<b>Cash and cash equivalents at end of period</b>	<b>557</b>	<b>557</b>
<b>5. Reconciliation of cash and cash equivalents</b> at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts		<b>Current quarter \$A'000</b>	<b>Previous quarter \$A'000</b>
5.1	Bank balances	557	848
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	<b>Cash and cash equivalents at end of quarter (should equal item 4.6 above)</b>	<b>557</b>	<b>848</b>
<b>6. Payments to related parties of the entity and their associates</b>		<b>Current quarter \$A'000</b>	
6.1	Aggregate amount of payments to related parties and their associates included in item 1		101
6.2	Aggregate amount of payments to related parties and their associates included in item 2		-
<i>Note: This represents director fees and consulting payments made to related parties of the entity and their associates.</i>			

<b>7. Financing facilities</b>		<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
	<i>Note: the term 'facility' includes all forms of financing arrangements available to the entity.</i>		
	<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1	Loan facilities	5,000	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	<b>Total financing facilities</b>	5,000	-
7.5	<b>Unused financing facilities available at quarter end</b>		5,000
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	<u>No. 1 Funding Agreement</u>  On 31 July 2025, the Company announced it had entered into a funding agreement with RiverFort Global Capital Ltd ("Investor"), for the provision of up to A\$5,000,000 ("Funding Agreement") by the issue of convertible securities. The term of the Funding Agreement is 3 years and the interest rate is fixed at 7% paid in cash on maturity. The Funding Agreement is secured with a first ranking general security over all present and after acquired property of the Company and subsidiary guarantees.		

<b>8. Estimated cash available for future operating activities</b>		<b>\$A'000</b>
8.1	Net cash from / (used in) operating activities (item 1.9)	(198)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(426)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(624)
8.4	Cash and cash equivalents at quarter end (item 4.6)	557
8.5	Unused finance facilities available at quarter end (item 7.5)	5,000
8.6	Total available funding (item 8.4 + item 8.5)	5,557
8.7	<b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	8.9
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	N/A	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	N/A	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

N/A

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*

## Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 29 January 2026

Authorised by: The Board of Resource Minerals International Ltd  
Limited.....

(Name of body or officer authorising release – see note 4)

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
6. Repayment of loan facilities includes interest.
