

Quarterly Report for the Period Ended 31 December 2025

Kingsrose Mining Limited (ASX: KRM) ("Kingsrose" or the "Company") is pleased to provide an update on its activities for the December 2025 quarter.

HIGHLIGHTS

- At the Finnmark project collecting and interpreting the extensive data collected over the 2025 exploration period continued – over the March quarter the major targets are expected to be identified to focus the effort on 'camp areas' where the various data sets identify the 10-15 highest priority exploration target areas for further work over 2026
- In the Finnmark region, relationships continue to strengthen with rightsholders and stakeholders with all the 2025 aerial geophysics completed with full collaboration and approvals from the reindeer herders. Planning has commenced for the 2026/2027 work programmes
- In December 2025 the Finnish Administrative Court overturned the granting of the Penikat Area 1 Exploration Permit by the Finnish Mining Regulator, Tukes, due to technical oversights by Tukes in its administration process; consequently, the Administration Court has remanded the matter back to Tukes for reconsideration
- The Company is working closely with Tukes, permitting consultants and external legal counsel focussing efforts on gaining approvals to conduct drilling in Areas 4, 5 and potentially Area 6 in the Q4 2026 exploration season
- The Penikat Area 2-5 Natura 2000 report is under review by the local Environmental Regulatory Body (ELY) and Metsähallitus (state landowner) has provided a positive statement on the Natura 2000 report.
- The New Business program continues to investigate potential M&A project opportunities with several third parties in detailed discussions
- All Resolutions were approved by Shareholders at the AGM in November 2025
- Cash balance of A\$22.444m as at 31 December 2025 (30 September 2025: A\$24.397m)

EXPLORATION & OPERATIONS

Company Updates

Kingsrose is exploring a large Fennoscandian portfolio of nickel, copper and PGE projects (Figure 1), including one of the largest scale generative exploration programs in Europe under an Alliance funded by BHP. The Company is also advancing permitting for drilling at the Penikat Project, Finland which is 100% owned by Kingsrose.

Costs for the current quarter associated with the Penikat Project were \$342k and costs for the Råna Project were A\$27k. Total costs associated with the BHP Alliance were A\$1.473m, however, this was fully offset by funding from BHP.

Kingsrose-BHP Finnmark Exploration

To 31 December 2025 US\$1.9m of the US\$3.5m committed expenditure for Year 2 of the 'Project Generation Phase' of the Finnmark Alliance has been spent on exploration activities.

The Management Committee of the Finnmark Alliance has approved a work program and budget of US\$3.5 million for FY2026 (see ASX announcement dated 27 May 2025). The second year of the Finnmark Alliance aims to complete a 'play scale' prospectivity assessment across the Finnmark Area of Interest with a view to the development of camps at geological intrusions deemed prospective for accumulations of Cu-Ni-PGE massive sulphides. To achieve this, Kingsrose has completed an extensive programme of airborne gravity gradiometry surveys complimented by regional scale airborne helicopter EM surveys during the 2025 field season. Field teams were active throughout the Norwegian summer and autumn with mapping and sampling campaigns across the Alliance Area of Interest.

During the quarter, modelled gravity and EM data was supplied by the contractor and interpretations by geophysical consultants were completed. 2D and 3D interpretation, combined with results from intrusion sampling and age dating are being used to generate, rank and prioritise camp scale areas considered most prospective for significant accumulations of magmatic Ni-Cu-PGE sulphides. These are to be followed up as part of the 2026 work programme.

Penikat Project, Finland

No exploration work was conducted at the Penikat project during the quarter, whilst permitting for drilling is being advanced on all six Areas.

Råna Project, Norway

No exploration activity was conducted at Råna during the reporting period, whilst current nickel market conditions prompted a reduction in planned exploration during 2025. The Company considers the project remains highly prospective for nickel-copper-cobalt discovery and is evaluating an optimal path forward for the Råna Project.

SUSTAINABILITY & PERMITTING

Råna Project, Norway

Kingsrose continues to foster relationships with nearby residents and the wider community while exploration on the project is paused.

Penikat Project, Finland

In a decision released in December 2025, the Administrative Court overturned the granting of the Exploration Permit by Tukes. This was due to technical oversights by Tukes in its administration process. As a consequence, the Administration Court has remanded the matter back to Tukes for reconsideration. Key points from the decision include:

- The Administrative Court acknowledged that the Company's Natura assessment, and other studies, comprehensively and thoroughly examined the natural values, environmental conditions of the exploration area, and the impacts of the planned exploration activities
- The Administrative Court found that the Company's application and supporting documents contained the necessary and sufficient assessment of environmental impacts as required by the Mining Act
- Tukes correctly announced the Company's Exploration Permit Application in a public notice which was published on the Simo Municipality and Tukes websites. However, as Tukes had not published the Exploration Permit Application in local newspapers, the Administrative Court concluded that as a result a procedural error had occurred
- The Company designed a drilling programme to minimise the impacts on environmental values as detailed in the Natura assessment, which included defined "no go areas" and a range of other voluntary mitigation commitments. Despite comprehensive permit conditions detailed within the Exploration Permit, the Administrative Court found that permit conditions by Tukes did not clearly define "no go areas" and did not clearly detail the Company requirements
- The Administrative Court found that Tukes had not assessed and provided sufficient detail regarding the calculated financial guarantee according to the evaluation criteria required by the Mining Act.

The Company is working closely with Tukes, permitting consultants and legal counsel to support improvement of the administrative processes.

Due to the 2023 amendment to the Finnish Mining Act, it may be possible to receive an enforcement order for both the Derogation Permit and Exploration Permit for all Exploration Permit Applications submitted after 1 June 2023 (Area 1, Area 4, and Area 5).

The Area 2-5 Natura 2000 report is under review by the local Environmental Regulatory Body (ELY). Metsähallitus (state landowner) has provided a positive statement on the Natura 2000 report. Kingsrose continues to work closely with ELY to receive a positive statement, and learnings from the Area 1 decision will be incorporated into future Exploration Permit Applications.

BHP Alliance Finnmark, Norway

In Finnmark, relationships continue to strengthen with rightsholders and stakeholders. Winter and summer aerial geophysics were completed in collaboration with reindeer herders and planning has commenced for the 2026/2027 work programme.

CORPORATE

Acting CEO Update

The Company is pleased to confirm that its consulting agreement with Acting CEO, Terry Holohan has been extended for a period of up to six months, on the same terms and conditions as previously announced by the Company on 20 June 2025. The Board is focused on CEO succession and is progressing a search process with the intention of announcing a permanent appointment in due course.

Cash and Term Deposits

- As of 31 December 2025, Kingsrose had cash balances of A\$22.444m (30 September 2025: A\$24.397m). This represents a quarter-on-quarter decrease of A\$1.95m detailed as follows.

Cashflow and Expenditure Review

- Net cash outflow from operating activities for the quarter was A\$1.9m (Sept 25 quarter: net outflow \$2.8m)
- Exploration expenditure during the current quarter was A\$1.77m consisting mainly of A\$1.47m on projects under the BHP Alliance, and A\$300k on the Penikat and Rana projects
- Expenditure during the quarter relating to administrative and corporate costs, investor relations and business development activities was A\$0.86m. Receipts from bank interest and management fees for the BHP Alliance were A\$266k
- Net cash used in financing activities was A\$19k for the quarter and represents payments for leased right of use assets
- Movement of exchange rates on cash held in foreign currency represented a decrease in cash of \$53k, due to a slight strengthening of the Australian dollar

Related Party Payments

Payments of A\$69k reported in Item 6.1 of the attached Appendix 5B relate to fees paid to Non-Executive Directors (including superannuation).

About Kingsrose Mining Limited

Kingsrose Mining Limited is a leading sustainability-conscious and technically proficient mineral exploration Company listed on the ASX. The Company has a discovery-focused strategy, targeting the acquisition and exploration of critical mineral deposits. This has resulted in the acquisition of, or joint venture into, the Råna nickel-copper-cobalt and Penikat PGE-Base Metal projects in Norway and Finland. Additionally, Kingsrose was selected for the first cohort of the BHP Xplor exploration accelerator program which operated from January to June 2023 and was extended into two exploration Alliances. The Finnmark exploration alliance is still active.

Kingsrose is also actively looking for M&A projects with near term developmental potential.

Forward-looking statements

This report includes forward-looking statements, including forward-looking statements relating to the future operations of the Company. These forward-looking statements are based on the Company's expectations and beliefs concerning future events. Forward-looking statements are necessarily subject to risks, uncertainties, and other factors, many of which are outside the control of the Company, which could cause actual results to differ materially from such statements. The Company makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement to reflect the circumstances or events after the date of this announcement.

Competent Persons Statement

The information in this report that relates to the Alliances and Exploration Results at the Finnmark and Central Finland projects was first reported by the Company in compliance with the 2012 edition of the JORC Code in ASX announcements dated 10 November 2021, 12 October 2022, 4 September 2023, 12 February 2025, 27 May 2025, 8 July 2025 and 21 August 2025.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the ASX releases referred to above and it further confirms that all material assumptions and technical parameters underpinning the exploration results and exploration target continue to apply and have not materially changed.
